MESSAGE FROM THE NON-EXECUTIVE CHAIRMAN

7 June 2023

Dear Shareholder

Over the past six months, your Board and leadership team have been working hard to deliver improved business performance under the Organisational Renewal Program. I'm pleased to report our efforts have translated to more stable operations and a stronger balance sheet. This result positions the Company well to now turn our focus to the growth that will secure our future.

On 31 May 2023, Aurelia Metals Limited (**Aurelia**) announced a new funding package and an equity raising to fund Aurelia to deliver the Federation Project. The Federation Project includes the development, mining and processing of high grade polymetallic zinc, lead, gold, silver and copper mineralisation that was discovered in April 2019, 10km south of Aurelia's Hera Mine in central-western NSW.

I am pleased to offer you, as a shareholder of Aurelia, the opportunity to participate in Aurelia's fully underwritten 1 for 3.72 accelerated non-renounceable pro rata entitlement offer of new Aurelia ordinary shares (**New Shares**). The offer price is A\$0.09 (**Offer Price**) per New Share to raise approximately A\$30 million (**Entitlement Offer**).

Entitlement Offer and Use of Proceeds

On 31 May 2023, Aurelia announced its intention to raise approximately A\$40 million through a fully underwritten accelerated non-renounceable pro rata entitlement offer and Placement.

The Entitlement Offer is fully underwritten and proceeds will be used to fund the development of the Federation Project and for general working capital purposes.

The institutional component of the Entitlement Offer (**Institutional Entitlement Offer**) was successfully completed on 31 May 2023 and trading in Aurelia's shares recommenced on 1 June 2023. The Institutional Entitlement Offer raised approximately A\$14 million. The Placement was successfully completed on 1 June 2023 and raised approximately A\$10 million.

Attached to this letter is the information booklet (**Information Booklet**) relating to the retail component of the Entitlement Offer (**Retail Entitlement Offer**). The Retail Entitlement Offer is expected to raise approximately A\$16 million.

Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders have the opportunity to invest at the same price as the Eligible Institutional Shareholders who participated in the Institutional Entitlement Offer. The number of New Shares for which you are entitled to subscribe under the Retail Entitlement Offer (**Entitlement**) is set out in your personalised Entitlement and Acceptance Form that will accompany this Information Booklet when it is dispatched to Eligible Retail Shareholders later today. The Offer Price of A\$0.09 per New Share represents a 17% discount to

the Theoretical Ex-Rights Price (**TERP**)¹ and a 21.7% discount to the last traded price of Aurelia of A\$0.115 per share on 30 May 2023.

If you take up your full Entitlement, you may also apply for additional New Shares up to a maximum of 50% in excess of your Entitlement, at the Offer Price (**Top Up Facility**). The allocation of additional New Shares in the Top Up Facility will be subject to the availability of New Shares under the Retail Entitlement Offer. Aurelia retains the flexibility to scale back applications for additional New Shares at its discretion (refer to section 3.4 of this Information Booklet for more information).

The Entitlement Offer is non-renounceable and therefore your Entitlement will not be tradeable on the ASX, cannot be sold and is not otherwise transferable. I encourage you to consider the Entitlement Offer carefully.

¹ The Theoretical Ex-Rights Price (**TERP**) is calculated by reference to Aurelia's closing price of A\$0.115 per share on 30 May 2023, being the last trading day of Aurelia prior to the announcement of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which Aurelia's shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not approximate TERP.

The Retail Entitlement Offer closes at 5.00pm (AEST) on 28 June 2023.

If you do not wish to take up any of your Entitlement, you do not have to take any action.

If you decide to take this opportunity to increase your investment in Aurelia please ensure that, before 5.00pm (AEST) on 28 June 2023, you have paid your Application Monies, via BPAY pursuant to the instructions that are set out in the personalised Entitlement and Acceptance Form that will accompany this Information Booklet when it is dispatched to you, or if you are based in New Zealand and unable to pay using BPAY, your Application Monies are sent by direct transfer and received in cleared funds by the Share Registry by 5.00pm (AEST) on the closing date of 28 June 2023.

2. Overview of the Entitlement Offer

2.1 Overview

Aurelia intends to raise approximately A\$30 million under the Entitlement Offer via an offer of approximately 333 million New Shares at the Offer Price of A\$0.09 per New Share. Aurelia will use the proceeds of the Entitlement Offer to fund the development of the Federation Project and for general working capital purposes.

The Entitlement Offer has two components:

- the Institutional Entitlement Offer – Eligible Institutional Shareholders were given the opportunity to take up all or part of their Entitlement, and a bookbuild process to sell Entitlements not taken up by Eligible Institutional Shareholders as well as Entitlements of Ineligible Institutional Shareholders at the Offer Price was carried out, to raise approximately A\$14 million; and
- the Retail Entitlement Offer (to which this Information Booklet relates) – Eligible Retail Shareholders will be given the opportunity to take up all or part of their Entitlement to raise approximately A\$16 million. Eligible Retail Shareholders who take up their full Entitlement may also participate in the Top Up Facility by applying for additional New Shares in excess of their Entitlement at the Offer Price, up to a maximum of 50% in excess of their Entitlement.

Both the Institutional Entitlement Offer and the Retail Entitlement Offer are non-renounceable. Accordingly, Entitlements do not trade on the ASX nor can they be sold, transferred or otherwise disposed of. New Shares issued under the Retail Entitlement Offer are to be issued at the same price as New Shares issued under the Institutional Entitlement Offer. In addition, Shareholders' Entitlements under the Institutional Entitlement Offer and the Retail Entitlement Offer are calculated based on the same ratio.

The Entitlement Offer is fully underwritten by the Underwriters in accordance with the terms of the Underwriting Agreement (as summarised in section 5.6 of this Information Booklet).

2.2 Institutional Entitlement Offer and Placement

Aurelia has already raised approximately \$14 million from Eligible Institutional Shareholders as part of the Institutional Entitlement Offer, at the Offer Price. New Shares are expected to be issued under the Institutional Entitlement Offer on 9 June 2023.

Concurrently with the Institutional Entitlement Offer, Aurelia undertook a Placement under which approximately 112 million New Shares were offered to new and existing Institutional Investors at the Offer Price per New Share, raising approximately \$10 million.³ New Shares are expected to be issued under the Placement on 9 June 2023.

³ Settlement of the Institutional Entitlement Offer and Placement is due to occur on 8 June 2023 and is subject to certain conditions and termination events. Refer to Section 5.6

3. How to apply

3.1 Retail Entitlement Offer

The Retail Entitlement Offer constitutes an offer to Eligible Retail Shareholders, who are invited to apply for 1 New Share for every 3.72 Existing Shares held at 7:00pm (AEST) on the Record Date of 2 June 2023. The Offer Price of A\$0.09 per New Share represents a discount of 17% to TERP⁴.

The Entitlement Offer is non-renounceable. Accordingly, Entitlements do not trade on the ASX, nor can they be sold, transferred or otherwise disposed of.

The Retail Entitlement Offer opens on 7 June 2023. The Information Booklet will be despatched on 7 June 2023, along with a personalised Entitlement and Acceptance Form, to Eligible Retail Shareholders. The Retail Entitlement Offer is expected to close at 5.00pm (AEST) on 28 June 2023.

The Retail Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73) which allows rights issues to be offered without a prospectus, provided certain conditions are satisfied.

As a result, the Retail Entitlement Offer is not being made under a prospectus and it is important for Eligible Retail Shareholders to read and understand the information on Aurelia and the Retail Entitlement Offer made publicly available by Aurelia, prior to taking up all or part of their Entitlement. In particular, please refer to the materials enclosed in section 4 of this Information Booklet, Aurelia's interim and annual reports, other announcements made available at <https://www.aureliametals.com/> and all other parts of this Information Booklet carefully before making any decisions in relation to your Entitlement.

3.2 Your Entitlement

An Entitlement and Acceptance Form setting out your Entitlement (calculated as 1 New Share for every 3.72 Existing Shares held on the Record Date with fractional entitlements rounded up to the nearest whole number of New Shares) will accompany this Information Booklet when it is dispatched to Eligible Retail Shareholders. Eligible Retail Shareholders may subscribe for all or part of their Entitlement. If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding. A copy of your personalised Entitlement and Acceptance Form can be accessed at <https://investor.automic.com.au/#/home>. After accessing the website, please note that you will need to login with an existing account or register for a Single Holding Access (this service provides limited access to a holding).

⁴ The Theoretical Ex-Rights Price (TERP) is calculated by reference to Aurelia's closing price of A\$0.108 per share on 30 May 2023, being the last trading day prior to the announcement of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which Aurelia's shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not approximate TERP.

3.3 Options available to you

The number of New Shares to which Eligible Retail Shareholders are entitled is shown on the Entitlement and Acceptance Form that will accompany this Information Booklet when it is dispatched to you. Eligible Retail Shareholders may:

- take up their Entitlement in full by the Closing Date and, if they do so, they may apply for additional New Shares under the Top Up Facility (refer to section 3.4);
- take up part of their Entitlement by the Closing Date, in which case the balance of the Entitlement would lapse (refer to section 3.5); or
- do nothing and allow their Entitlement to lapse (refer to section 3.6).

The Retail Entitlement Offer is an offer to Eligible Retail Shareholders only. Ineligible Retail Shareholders may not take up any of their Entitlements.

Aurelia reserves the right to reject any Entitlement and Acceptance Form that is not correctly completed or that is received after the Closing Date.

The Closing Date for acceptance of the Retail Entitlement Offer is **5.00pm (AEST) on 28 June 2023** (however, that date may be varied by Aurelia, in accordance with the Listing Rules, applicable laws and the Underwriting Agreement).

3.4 Taking up all of your Entitlement or taking up all of your Entitlement and participating in the Top Up Facility

If you wish to take up all of your Entitlement, payment must be made by following the instructions on the personalised Entitlement and Acceptance Form which can be accessed at <https://investor.automic.com.au/#/home>. After accessing the website, please note that you will need to login with an existing account or register for a Single Holding Access (this service provides limited access to a holding).

Please read the instructions carefully. Payments can be by the methods set out in Section 3.9 and 3.10.

Payment must be received by no later than 5.00pm (AEST) on 28 June 2023. If you apply to take up all of your Entitlement, you may also apply for additional New Shares under the Top Up Facility. Amounts received by Aurelia in excess of the Offer Price, up to a maximum of 50% in excess of your Entitlement, may be treated as an Application to apply for as many additional New Shares as your Application Monies will pay for in full.

In the event there is a shortfall under the Retail Entitlement Offer, additional New Shares may be allotted under the Top Up Facility at the sole discretion of Aurelia. If you apply for additional New Shares under the Top Up Facility and if your application is successful (in whole or in part), your additional New Shares will be issued to you at the same time that other New Shares are issued under the Retail Entitlement Offer. New Shares will only be allocated to Eligible Retail Shareholders if available and then up to an additional 50% in excess of their Entitlement. If you apply for additional New Shares, there is no guarantee that you will be allocated any additional New Shares.

Any New Shares referable to Entitlements not taken up by the Closing Date may be made available to those Eligible Retail Shareholders who took up their full Entitlement and applied for additional New Shares under the Top Up Facility up to an additional 50% in excess of their Entitlement. There is no guarantee that such Shareholders will receive the number of New Shares applied for under the Top Up Facility, or any New Shares applied for under the Top Up Facility. New Shares referable to Entitlements not taken up by the Closing Date will only be allocated to Eligible Retail Shareholders if available and then only if and to the extent that Aurelia so determines, in its absolute discretion.

Refund amounts, if any, will be paid in Australian dollars. You will be paid by direct credit to the nominated bank account as noted on the share register as at the Closing Date. To enable shareholders to receive their refund by EFT, shareholders are strongly encouraged to update their bank details at <https://investor.automic.com.au/#/home>. For any queries shareholders should contact on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia). For refunds not processed by EFT, cheques will be mailed in the post to the relevant shareholders.

3.5 Taking up part of your Entitlement and allowing the balance to lapse

If you wish to take up only part of your Entitlement, payment must be made by following the instructions on the personalised Entitlement and Acceptance Form for the number of Securities you wish to take up and making payment using the methods set out in Section 3.9 and 3.10 below. If Aurelia receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full. Payment must be received by no later than 5.00pm (AEST) on the Closing Date.

3.6 Allowing your Entitlement to lapse

If you do not wish to accept all or any part of your Entitlement, do not take any further action and all or that part of your Entitlement will lapse.

3.7 Consequences of not accepting all or part of your Entitlement

If you do not accept all or part of your Entitlement in accordance with the instructions set out above, those New Shares for which you would have otherwise been entitled under the Retail Entitlement Offer (including New Shares that relate to the portion of your Entitlement that has not been accepted) may be acquired by the Underwriters or any sub-underwriters or by Eligible Retail Shareholders under the Top Up Facility.

By allowing your Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement and you will not receive any payment or value for all or that part of your Entitlement. Your interest in Aurelia will also be diluted.

3.8 Payment

Payment should be made using BPAY. If you are based in New Zealand and unable to pay using BPAY, payments can be made by Electronic Funds Transfer (EFT) (see section 3.10).

In light of the length of current postage times, and the period the Entitlement Offer is open, it is considered unlikely that Entitlement and Acceptance Forms that are posted with a payment by cheque will be received by Aurelia in time for Aurelia to accept under the application. As a result, Aurelia has resolved that cash payments or payments by cheque will not be accepted. Receipts for payment will not be issued.

Aurelia will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement. If your payment will pay for more than your full Entitlement, Aurelia will treat you as applying for your full Entitlement and in respect of any excess amount, applying for as many additional New Shares under the Top Up Facility as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

3.9 Payment by BPAY

For payment by BPAY, please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY if you are the holder of an account with any Australian financial institution that supports BPAY Transactions.

If you are paying by BPAY, please make sure you use the specific Biller Code and your unique Customer Reference Number (CRN) on your personalised Entitlement and Acceptance Form.

If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your application will not be recognised as valid.

Please note that by paying by BPAY:

- you do not need to send your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties referred to on that Entitlement and Acceptance Form and in section 3.11 of this Information Booklet;
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies; and
- if you pay more than is required to subscribe for your entitlement, you will be taken to have applied for additional shares under the Top up Facility, to the extent of the excess.

It is your responsibility to ensure that your BPAY payment is received by the Share Registry by no later than 5.00pm (AEST) on 28 June 2023. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment. The Company shall not be responsible for any delay in the receipt of the BPAY payment.

3.10 Payment by Electronic Funds Transfer (EFT)

Shareholders with a registered address in New Zealand may not have access to pay by BPAY and can make payment by EFT by following the instructions on the Entitlement and Acceptance Form.

Please make sure you use the specific transfer details and quote your unique reference number that has been provided to you on that personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the Reference Number specific to that holding. If you do not use the correct Reference Number specific to that holding your application will not be recognised as valid.

Your EFT payment must be:

- for an amount equal to A\$0.09 multiplied by the number of New Shares (and additional New Shares under the Top Up Facility, if applicable) that you are applying for; and
- in Australian currency. Payment cannot be made in New Zealand dollars. New Zealand resident shareholders must arrange for payment to be made in Australian dollars.

It is your responsibility to ensure that your payment by direct transfer is received by the Share Registry by no later than 5.00pm (AEST) on 28 June 2023. Applicants should be aware of their financial institution's cut-off time (the payment must be made to be processed overnight) and it is the Applicant's responsibility to ensure funds are submitted correctly by the closing date and time. The Company and the Share Registry accept no responsibility for incorrect, delayed or misdelivered Application Forms or payments.

Your Application Payment may incur fees and charges from your bank or any intermediary bank as well as the receiving bank. You may have an option to choose that fees are not deducted from the amount transferred however the receiving bank may still deduct a fee for receiving a foreign transfer. If you are paying from a bank account that is not in Australian dollars you may also incur foreign exchange fees.

3.11 Entitlement and Acceptance Form is binding

A payment made through BPAY or if you are based in New Zealand by an EFT constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Information Booklet and, once paid, cannot be withdrawn. Aurelia's decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By making a payment by BPAY or if you are based in New Zealand by EFT, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

No brokerage fee is payable by Eligible Retail Shareholders who accept their Entitlement. No stamp duty should be payable for subscribing for New Shares under the Retail Entitlement Offer or for additional New Shares under the Top Up Facility on the basis that all of the shares in Aurelia are quoted on the ASX (ie. no classes of unquoted shares on issue) and no person, either alone or together with associated or related persons or as part of substantially one transaction or arrangement with other persons, will hold an interest of 90% or more in Aurelia.

3.13 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians who hold Shares as nominees or custodians will have received, or will shortly receive, a letter from Aurelia. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to:

- beneficiaries on whose behalf they hold Existing Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or
- shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees or custodians for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Entitlement Offer to, any

person in the United States or any person acting for the account or benefit of any person in the United States.

Aurelia is not required to determine whether or not any registered holder is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee or custodian for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. Aurelia is not able to advise on foreign laws.

For the avoidance of doubt, Aurelia reserves the right (in its absolute sole discretion) to reduce the number of New Shares allocated to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if their claims prove to be overstated or they fail to provide information to substantiate their claims.

Aurelia also reserves the right to reject any acceptance of an Entitlement that it believes comes from a person who is not eligible to accept an Entitlement.

3.14 Withdrawal of the Entitlement Offer

Subject to applicable law, Aurelia reserves the right to withdraw the Entitlement Offer at any time before the issue of New Shares, in which case Aurelia will refund any Application Monies already received in accordance with the Corporations Act and will do so without interest being payable to applicants.

3.15 Risks

Eligible Retail Shareholders should be aware that an investment in Aurelia, including taking up your Entitlement, involves risks. The key risks identified by Aurelia are set out in the "Key Risks" section in the Appendix to the Investor Presentation in section 4 of this Information Booklet, but these are not an exhaustive list of the risks associated with an investment in Aurelia.

Delivering Federation

Aurelia released the Federation Feasibility Study in October 2022 (*'Federation Mine Feasibility Study' 10 October 2022*) which confirmed Federation as a high-grade, capital-efficient development project, leveraging Aurelia's existing strategic infrastructure assets in the Cobar Basin.

An update to the study was released in April 2023 (*'Federation Project Update' 13 April 2023*) which included improvements in mine planning, ore flows for processing, capital scope refinement and definition, and further leveraged the assets and infrastructure of the Company's nearby Hera operation, recently placed on care and maintenance. The optimisation has mitigated cost escalation and enabled first stope ore production to be accessed earlier, contributing positively to the project's valuation.

Investment highlights

- ✓ One of the highest-grade base metals development projects in Australia with a resource grade of ~16.7% ZnEq. Precious metal credits add value to the deposit and lower costs
- ✓ Capital-efficient development leveraging existing processing capacity and above-ground infrastructure at Aurelia's Hera and Peak mines
- ✓ First stope ore production expected in less than 12 months from decline restart
- ✓ The Federation resource is considered to have strong potential to grow with additional underground and surface drilling, with the orebody remaining open in multiple directions

Development works at Federation have been paused since October 2022, awaiting confirmation of the funding solution. Aurelia will now commence mobilisation activities in the June quarter 2023.

Facilities Key Terms

The new Facilities are comprised of two tranches:

- US\$24M (~A\$36M)³ Loan Note Advance contributing to funding the construction of the Federation Project; and
- A\$65M Bond Facility to provide rehabilitation bonding

A portion of the funds will be used to replace the Company's existing Debt Facilities:

- A\$9M Term Loan
- A\$57M Guarantee Facility

Replacement of the Guarantee Facility releases A\$46M of restricted cash currently held against the facility.

The agreement with Trafigura follows a broad financing process that has allowed Aurelia to secure competitively priced funding with no hedging requirements and early repayment flexibility to facilitate the restart of the Federation project.

BofA Securities and BurnVair Corporate Finance have provided loan structuring services to Aurelia.

Indications of, and guidance on, future production, earnings, financial position, dividends and distributions and performance are also forward-looking statements, as are statements regarding Aurelia's intent, belief or current expectations with respect to the timetable, conduct and outcome of the Offer and the use of proceeds thereafter. Forward-looking statements may also assume the success of the Group's business strategies. The success of any of these strategies is subject to uncertainties and contingencies beyond Aurelia's control, and no assurance can be given that any of the strategies will be effective or that the anticipated benefits from the strategies will be realised in the period for which the forward-looking statements may have been prepared or otherwise.

There can be no assurance that actual outcomes will not differ materially from the forward-looking statements in this Presentation. There are usually differences between forecast and actual results because events and actual circumstances frequently do not occur as forecasted and their differences may be material. Refer to Appendix A: Key Risks of this Presentation for a non-exhaustive summary of certain key business, offer and general risk factors that may affect the Group.

Investors are strongly cautioned not to place undue reliance on forward-looking statements, particularly in light of the current economic climate and the significant volatility and uncertainty in the market.

APPENDIX A: KEY RISKS

KEY RISKS

The Aurelia Group consists of Aurelia and the entities it controls ("Aurelia" or "Group"). This section describes the key business risks of investing in Aurelia together with the risks relating to participation in the Offer which may affect the value of Aurelia shares. It does not describe all the risks of an investment. Before investing in Aurelia, you should be aware that an investment in Aurelia has a number of risks, some of which are specific to Aurelia and some of which relate to listed securities generally, and many of which are beyond the control of Aurelia.

The risks set out in this section do not constitute an exhaustive list of all risks involved in an investment in Aurelia. Investors should consult their own professional, financial, legal and tax advisers about those risks and the suitability of investing in light of their particular circumstances. Investors should also consider publicly available information on Aurelia (including information available on the ASX website) before making an investment decision.

1. Risks associated with the Group

Use of assumptions and forecasts	Aurelia uses estimates of production and financial performance based on a range of assumptions and forecasts. There is uncertainty in these assumptions and forecasts, and risk that variation from them could result in actual performance being different to expected outcomes. The uncertainties arise from a range of factors, including the nature of the mining industry, and general economic factors.
Fluctuations in commodity prices and foreign exchange rates	The Group's revenues are exposed to fluctuations in the US\$ price of gold, silver, lead, zinc and copper. Volatility in metal prices creates revenue uncertainty and requires careful management of business performance to ensure that operating cash margins are maintained despite volatile metal prices. Declining metal prices can impact operations by requiring a reassessment of the feasibility of an exploration target and/or evaluation project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment could cause substantial delays and/or may interrupt operations, which may have a material adverse effect on the Group's results of operations and financial position.
Mineral Resources and Ore Reserves	Aurelia's Mineral Resources and Ore Reserves are estimates, and no assurance can be given that the estimated Reserves and Resources are accurate or that the indicated level of metal or other mineral will be produced. Such estimates are based on interpretations of geological data obtained from drill holes and other sampling techniques. Actual mineralisation or geological conditions may be different from those predicted. No assurance can be given that any part or all of the Group's mineral resources constitute or will be converted into reserves. Market price fluctuations of metal prices as well as increased production and capital costs may render some of the Group's ore reserves unprofitable to develop for periods of time or may render some lower margin ore reserves uneconomic. Resources and Reserves may be re-estimated based on new data, production performance, cost experience and metal price outlook. Any of these factors may require the Group to modify its Mineral Resources and Ore Reserves, which could have either a positive or negative impact on the Group's financial results.
Replacement of depleted ore reserves	Aurelia must continually replace ore reserves depleted by production to maintain production levels over the long-term. Ore reserves can be replaced by expanding known ore bodies, locating new deposits, acquiring new assets or achieving higher levels of conversion from mineral resource to ore reserve with improvements in production costs and or operational performance and or metal prices. Exploration is highly speculative in nature and as such, Aurelia's exploration projects involve many risks and can often be unsuccessful. Once a prospect with mineralisation is discovered, it may take several years from the initial discovery phase until production is possible. As a result, there is no assurance that current or future exploration programs will be successful. There is a risk that depletion of ore reserves will not be offset by discoveries or acquisitions, or that divestitures of assets will lead to a lower ore reserve. Aurelia's mineral base may decline if ore reserves are mined without adequate replacement and Aurelia may not be able to sustain production beyond the current mine life, based on current production rates.

KEY RISKS (CONT.)

Production and cost estimates	<p>Aurelia routinely prepares internal estimates of future production, operating costs and capital costs for its operating assets and development projects. Aurelia has developed business plans which forecast metal recoveries, ore volumes and operating costs for each business unit. While these assumptions are considered reasonable, there can be no guarantee that forecast rates will be achieved. Failure to achieve production or cost estimates could have an adverse effect on Aurelia's operating margins, future cash flow, profitability and financial solvency. Changes in operating performance, including failure to achieve guidance, could lead to material variances in quarterly margins and performance.</p> <p>Aurelia's actual production and costs may vary from estimates for a variety of reasons, including:</p> <ul style="list-style-type: none"> • actual ore mined varying from estimates of grade, tonnage, dilution and metallurgical and other characteristics; • short-term operating factors relating to the ore reserves, such as the need for sequential development of mining areas and the processing of new or different ore grades and characteristics; • revisions to mine plans; • risks and hazards associated with mining, such as geotechnical conditions; natural phenomena, such as inclement weather conditions, water availability, floods; and • unexpected labour shortages or strikes. <p>Costs of production may also be affected by a variety of factors, including: ore grade, geotechnical conditions, metallurgical performance, labour costs, consumable costs, energy costs, commodity costs, general inflationary pressures and currency exchange rates.</p>
Financial solvency	<p>Maintaining sufficient liquidity to operate the business is impacted by the operational and financial risk factors identified in this section. With two operating assets and the production of multiple commodities (gold, lead, zinc, copper and silver), Aurelia has a reduced risk exposure, given the spread and separation of risks. Asset diversification can help with reducing financial risk, but it cannot guarantee events or circumstances that may cause financial solvency risk to increase. The Board monitors solvency at all times and aims to manage the business with an acceptable level of working capital to mitigate solvency risk.</p>
Mining risks and insurance risks	<p>The mining industry is subject to significant risks and hazards, including environmental hazards, industrial accidents, unusual or unexpected geological conditions, unavailability of materials and equipment, rock failures, cave-ins, and weather conditions (including flooding and bushfires), most of which are beyond Aurelia's control. These risks and hazards could result in significant costs, claims or delays that could have a material adverse effect on Aurelia's financial performance, liquidity and operations results.</p> <p>Aurelia maintains insurance to cover some of these risks and hazards. The insurance is maintained in amounts that are believed to be reasonable depending on the circumstances surrounding each identified risk. However, property, liability and other insurance may not provide sufficient coverage for losses related to these or other risks or hazards.</p>
Reliance on transportation facilities and infrastructure	<p>The Group depends on the availability and affordability of reliable transportation facilities and infrastructure (e.g. roads, bridges, airports, power sources and water supply) to deliver consumables to site, and final product to market. Interruption in the provision of such infrastructure (e.g. due to adverse weather; community or government interference, supply chain issues) could adversely affect Aurelia's operations, financial condition and results of operations.</p>

KEY RISKS (CONT.)

Management skills and depth	<p>The mining industry in general may be subject to a shortage of suitably experienced and qualified personnel in key technical roles. Attracting and retaining key persons with specific knowledge and skills are critical to the viability and growth of Aurelia. Aurelia maintains a suitably structured remuneration strategy to assist with the attraction and retention of key employees. However, the risk of loss of key employees is always prevalent.</p>
Government regulation	<p>The Group's mining, processing, development and exploration activities are subject to various laws and statutory regulations governing prospecting, development, production, taxes, royalty payments, labour standards and occupational health, mine safety, the environment, toxic substances, land use, water use, communications, land claims of local people and other matters.</p> <p>No assurance can be given that new laws, rules and regulations will not be enacted or that existing laws, rules and regulations will not be applied in a manner which could have an adverse effect on the Group's financial position and results of operations across the different jurisdictions in which it operates, including those relating to Federation and Great Cobar. Any such amendments to current laws, regulations and permits governing operations and activities of mining and exploration, or more stringent implementation thereof, could have a material adverse impact on the Group. Failure to comply with any applicable laws, regulations or permitting requirements, or failure to renew, or to obtain the renewal of, any applicable licenses or permits, may result in enforcement actions against the Group, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.</p>
Liquidity and Capital Management / Future Funding Risk	<p>Details of the sources and uses of the funds to be raised under the Offer are set out on slide 14 of this Presentation. The funds raised under the Offer and the new debt facilities, together with Aurelia's existing cash reserves, and future operating cashflow are currently expected to be sufficient to fully meet all remaining estimated detailed engineering, equipment, materials, construction and construction-related capital until the start of commercial production for the Federation project, as well as to fund Aurelia's other business operations and growth initiatives.</p> <p>However, no assurance can be given by Aurelia that its short term funding requirements will not change owing to events that unexpectedly and adversely impact Aurelia's business. For example, if any of the risks identified in this 'Key Risks' section were to occur and materially and adversely impact Aurelia's business, including risks associated with the development of the Federation project and potentially Great Cobar, commodity price risks, market risks, operational risks, shipping constraints and counterparty risks, then Aurelia may require additional funding in the short term.</p> <p>Further, Aurelia's continued ability to operate its business and effectively implement its business plan over the medium and long term will depend in part on its ability to generate free cash flow, to raise funds for operations and growth activities and to service, repay and refinance debts as they fall due. To the extent that Aurelia does require funding for its future capital needs, the availability and terms of such funding are uncertain and may be less favourable to Aurelia than anticipated, which may negatively impact Aurelia's future profitability and financial flexibility. Funding terms may also place restrictions on the manner in which Aurelia conducts its business and impose limitations on Aurelia's ability to execute its business plan and growth strategies.</p>

KEY RISKS (CONT.)

<p>Environment and sustainability</p>	<p>a. <u>Environment, health and safety regulations, permits</u> Aurelia's mining and processing operations and exploration activities are subject to extensive laws and regulations governing the protection of the environment, including: waste disposal, worker safety, mine development, mine rehabilitation and closure, water, air quality and biodiversity. Aurelia's ability to obtain permits and approvals and to successfully operate may be adversely impacted by real or perceived detrimental events associated with the Aurelia's activities or those of other mining companies affecting the environment, human health and safety or the surrounding communities. Delays in obtaining or failure to obtain government permits and approvals may also adversely affect the Aurelia's operations, including its ability to continue operations. While Aurelia has implemented health, safety and community initiatives at its operations to ensure the health and safety of its employees, contractors and members of the community affected by its operations, there is no guarantee that such measures will eliminate the occurrence of accidents or other incidents which may result in personal injuries, damage to property, and in certain instances such occurrences could give rise to regulatory fines and/or civil liability.</p> <p>b. <u>Water</u> Water is a scarce commodity in western NSW. Water is a significant input into processing activities and access to sufficient water to support current and future activities is critical. In addition, in some other parts of NSW high rainfall related risks (including flooding), could lead to water storages on site overflowing and discharging into the environment. High rainfall events may also disrupt access to site and operations on site.</p> <p>c. <u>Community relations</u> Aurelia has operations near established communities. Aurelia is focused on managing local community stakeholder concerns and expectations. However, there is always the risk that members of the community or other stakeholders may lodge complaints in relation to Aurelia's operations, or lodge submissions or objections in response to any approval applications lodged by Aurelia, which could have the potential to disrupt production and exploration activities and delay the approval timelines for key development activities.</p> <p>d. <u>Climate change</u> Aurelia acknowledges the potential for climate change to impact its business. The highest priority climate related risks include the following: water management, changes to legislation and regulation, cost impacts, reputation risk, market changes and shareholder activism.</p>
<p>Further approvals risk</p>	<p>While Aurelia has in place necessary approvals and licences to operate its current projects, there can be no assurance that a approvals and permits required to conduct further phases of construction, development and operation for its current projects or future projects, or amendments to its current projects or future projects, will be obtained.</p> <p>Delays in obtaining or failure to obtain government permits and approvals may adversely affect Aurelia's operations, including its ability to continue operations. In addition, no assurance can be given that new laws or regulations will not be enacted or that existing laws and regulations will not be amended or applied in a manner which could limit or curtail the Group's activities and the future development or operation of its projects.</p>

KEY RISKS (CONT.)

<p>Contractual risk</p>	<p>The members of the Group are party to various contractual arrangements, some of which are material to the operations and revenue of the Group. There is a risk that these contractual arrangements could be terminated, lost or impaired, the counterparty breaches, or they are renewed or replaced on less favourable terms from time to time.</p>
<p>Credit risk exposures</p>	<p>Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers and investment securities.</p>
<p>Foreign currency risk</p>	<p>Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to Aurelia's operating activities, specifically revenue and expenses denominated in a foreign currency. Gold doré sales are denominated in AS, whilst concentrate sales are denominated in US\$. Aurelia has a foreign exchange price risk when the US\$ price of a commodity is translated back to AS.</p>
<p>Interest rate risk</p>	<p>Exposure to interest rate risk arises on financial assets and liabilities where a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. Aurelia continually analyses its exposure to interest rate risk. Consideration is given to alternative financing options, potential renewal of existing positions, alternative investments, and the mix of fixed and variable interest rates.</p>
<p>Tenements</p>	<p>A failure to adhere to the tenement obligations and conditions, including to meet certain levels of expenditure on tenements held by the Group may make certain tenements subject to possible forfeiture, or the tenements may not be renewed on their current terms (e.g. area or term).</p> <p>In respect of granted tenements, no assurance can be given that Aurelia will be successful in managing its minimum expenditure obligations and retaining such tenements.</p> <p>Native title claims or issues on any existing or future tenements held by Aurelia may potentially impact Aurelia's operations and future plans. For tenements that may still be subject to native title, to be validly granted (or renewed) there are established statutory regimes that will need to be followed in connection with those tenements.</p>

KEY RISKS (CONT.)

Impairment risk	<p>a. <u>Cash-Generating Unit (CGU)</u> The Group assesses each CGU at each reporting period to determine whether there is any indication of impairment or reversal. Where an indicator of impairment or reversal exists, a formal estimate of the recoverable amount is made, which is deemed as being the higher of the fair value costs of disposal and value in use. These assessments require the use of estimates and assumptions which could change over time and are impacted by various economic factors such as discount rates, exchange rates, commodity prices, gold multiple values, future operating development and sustaining capital requirements and operating performance. A change in one or more of these assumptions used to determine the value in use or fair value less costs of disposal could result in a material adjustment in a CGU's recoverable amount.</p> <p>b. <u>Exploration evaluation</u> The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the Group decides to exploit the related area interest itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale. Factors that could impact the future recoverability include the level of reserves and resources, future technological changes, which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices. To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, profits and net assets will be reduced in the period in which this determination is made.</p> <p>In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage that permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent it is determined in the future that this capitalised expenditure should be written off, profits and net assets will be reduced in the period in which this determination is made.</p>
Cyber risk	<p>Like other entities, Aurelia may be exposed to the risk of cyber-attacks on its systems and operations. Such attacks may involve a denial of service, corruption of data, exposure of private data in breach of regulations or requests for payment of monies. Aurelia believes it has appropriate data security mitigations in place, however no guarantee that this will be sufficient to prevent a successful attack can be given.</p>
Funding / Finance Risk	<p>Aurelia has entered into final facility documents for new debt facilities with Trafiqua Pte. Ltd. The drawdown of amounts under the facilities is conditional upon typical conditions precedent required to be satisfied, including the requirement for a minimum equity raise of A\$40M (Minimum Equity Amount) – see slide 18.</p> <p>If the Minimum Equity Amount is not raised under the Offer (including in circumstances where the Underwriting Agreement is terminated), Aurelia may not have access to the new facilities. Aurelia would have to seek alternative funding, the availability and terms of which are uncertain and may be less favourable to Aurelia than the new facilities. If Aurelia is unable to obtain alternative funding and sufficient funds are not available from either debt or equity markets to satisfy Aurelia's short, medium or long-term capital requirements, when required, it may be required to limit the scope of its anticipated operations, including development of the Federation project, which could adversely impact on its business, financial condition and value of its shares. There may also be ramifications under Aurelia's existing debt facilities, as Aurelia will need to continue to comply with its obligations under those facilities. There is the possibility that Aurelia will be required to repay the remaining balance of the existing debt facility prior to maturity.</p> <p>If the conditions precedent to drawdown of the new facilities are satisfied and Aurelia does drawdown on those facilities, there will be an increase in Aurelia's debt levels. This means that Aurelia will be more exposed to risks associated with gearing and higher leverage ratios. For example, Aurelia will be more exposed to any movements in interest rates. There is also a risk that institutional shareholders do not support an increase in Aurelia's debt levels and may seek to reduce their shareholding, resulting in a fall in Aurelia's share price.</p>

KEY RISKS (CONT.)

2. Risks associated with Federation project

Federation Execution Risk	<p>Aurelia's ability to successfully develop and commercialise the Federation project may be affected by factors including project construction and development delays, long lead times on certain items of equipment or cost overruns. Specific risks identified in the Federation Mine Feasibility Study released in October 2022 include:</p> <ul style="list-style-type: none"> • Delays in achieving the project schedule caused by overly optimistic and/or incorrect schedule assumptions, delay in obtaining project approvals, mine development rates lower than assumed, and long lead time for supply of equipment. • Expenditure higher than estimated caused by changes to the operating plan, project scope changes, new information changing earlier assumptions, omissions from cost estimates, changed market pricing, increased cost and/or limited availability of labour, implementation delays and/or unexpected ground or environmental conditions. <p>There is also the risk of timely receipt of regulatory approvals to increase the annual ore movement quantity and vehicle movements from Federation to the Peak Mine, transport tailings from the Peak Mine to the Federation project and install additional facilities at the Peak Mine site.</p> <p>If Aurelia experiences project delays or additional cost overruns this could result in Aurelia not realising its operational or development plans or result in such plans costing more than expected or taking longer to realise than expected. The occurrence of an event that results in project delays and/or cost overruns may have a material adverse effect on Aurelia's performance and the value of its assets. In addition, the ability of Aurelia to construct and operate the Federation project on time and on budget remains inherently uncertain, and any failure to do so could impact the value of the assets.</p>
Approval risk	<p>While Aurelia has received development consent for mining and processing activities for the Federation project from the New South Wales Department of Planning and Environment, it still requires a number of secondary approvals prior to production, including grant of a mining lease and environmental protection licence. As with any project that requires government consents, there is no guarantee that Aurelia will obtain the necessary regulatory approvals for the Federation project, or that these will be obtained within the timeframes contemplated by Aurelia. The project approvals and their timing are not guaranteed as they must be endorsed by the relevant government agency or authority which sits outside Aurelia's control.</p> <p>There is also no guarantee that any modification to regulatory approvals to increase the annual ore movement quantity from the Federation project to the Peak Mine, backhauling of tailings from the Peak Mine to the Federation project and the processing of Federation ore at the Peak Mine will be obtained. Project approvals may also require that Aurelia reach agreement with third parties in order to undertake the activities, including agreements with local councils. There is no guarantee that the parties will be able to reach agreed terms, or terms which Aurelia considers favourable.</p>
Mine development	<p>There is a risk that actual mine development and ore production rates will be lower than assumed in the Federation Mine Feasibility Study (as updated). This could be due to overly optimistic and/or incorrect schedule assumptions, productivity rates lower than assumed, delayed supply of equipment, changes to the operating plan, new information changing earlier assumptions, unexpected ground or environmental conditions, large groundwater inflows, availability of labour and specialist contractors, and temporary loss of site access.</p>
Dispute risk	<p>Under historical contracts with Glencore associated with the Hera Project, there are differing interpretations on a number of points between the parties, including how the contracts relate to base metal concentrates produced from Federation ore. To achieve certainty on the correct interpretation, there is a risk that arbitration between the parties may be necessary (arbitration being the dispute resolution mechanism in the agreements).</p>

KEY RISKS (CONT.)

3. Offer and general risks

General equity market and investment risk	<p>Any investment in equity capital carries general risks. The trading price of Aurelia's shares on the ASX may fluctuate in line with equity capital market movements in Australia and internationally, or in response to specific circumstances, which may result in the market price being higher or lower than the offer price. Generally applicable factors which may affect the market price of Aurelia's shares include:</p> <ul style="list-style-type: none"> the Australian and global macroeconomic outlook, including fluctuations in interest rates, currency exchange rates, inflation, commodity prices, investor sentiment, consumer demand, and employment levels; investor sentiment and the risk of contagion; changes in Australian and foreign government regulation (including fiscal, monetary and regulatory policies); loss of key personnel and delays in replacement; force majeure events such as natural disasters, extreme weather events, epidemics, pandemics (such as COVID-19), war and terrorism; mine production and development problems, including, cost over-runs, grade problems, high arsenic content, loss of key employees and other operating issues; volatility of gold and base metal prices; geopolitical instability and international hostilities; announcement of new technologies; recommendations and valuations by brokers and analysts; changes in market valuations of other gold or base metals mining and exploration companies; and future issues of Aurelia equity securities. <p>There is continued uncertainty as to the state of the global economy and the potential for a global recession, and the impact on the Australian economy and share markets. The share prices for many listed companies have in recent times been subject to wide fluctuations and volatility, consistent with the trend that equity capital markets having historically been, and may in the future be, subject to significant volatility. It is also possible that new risks may emerge as a result of domestic or foreign markets experiencing extreme stress, or existing risks may evolve in ways that are not currently foreseeable.</p> <p>No assurance can be given that the New Shares will trade at or above the Offer Price. None of Aurelia, its Board, the Underwriters, or any other person guarantees the market performance of the New Shares.</p>
---	---

KEY RISKS (CONT.)

Dilution	<p>Eligible shareholders who do not participate in the Offer, or do not take up their entitlements under the Offer in full, will have their percentage shareholding in Aurelia diluted.</p> <p>Such shareholders will not be exposed to future increases or decreases in Aurelia's share price in respect of those New Shares which would have been issued to them had they taken up all of their entitlements. Shareholders may also have their investment diluted by future capital raisings by Aurelia. Aurelia may issue new securities in the future to finance acquisitions, develop projects or pay down debt which may, under certain circumstances, dilute the value of a shareholder's percentage shareholding in Aurelia.</p> <p>However, eligible shareholders who take up all of their entitlements under the Offer will have the ability to apply for additional shares under the "Top-Up Facility" in excess of their entitlement under the Offer.</p> <p>As the Offer is non-renounceable, shareholders who do not take up all or part of their entitlement will not receive any value for the part not taken up.</p>
Underwriting risks	<p>Aurelia has entered into an underwriting agreement with the Underwriters in respect of the Offer dated 31 May 2023 (Underwriting Agreement). The Underwriting Agreement contains representations, warranties, undertakings and indemnities in favour of the Underwriters. If certain conditions are not satisfied, or certain events occur, the Underwriters may terminate the Underwriting Agreement. Termination of the Underwriting Agreement by the Underwriters would have an adverse impact on the total amount of proceeds that could be raised under the Offer, which may impact Aurelia's ability to satisfy the Minimum Equity Amount under the new debt facilities meaning that financial close under the debt facilities does not occur and Aurelia does not receive the funds under the debt facilities. This in turn may impact Aurelia's ability to proceed with the Federation project. Key terms of the Underwriting Agreement, including the material termination events, are set out in Appendix C.</p>
Financial information and forecasts	<p>The forward-looking statements, opinion and estimates provided in this Presentation, rely on various contingencies and assumptions. Various factors and risks, both known and unknown, many of which are outside the control of the Group, may impact upon the performance of the Group and cause actual performance to vary significantly from expected results. There can be no guarantee that the Group will achieve its stated objectives or that forward looking statements or forecasts will prove to be accurate.</p>
Other	<p>The above risks should not be taken as a complete list of the risks associated with an investment in Aurelia. The risks outlined above, and other risks not specifically referred to may in the future materially adversely affect the value of Aurelia shares and their performance. Accordingly, no assurance or guarantee of future performance or profitability is given by Aurelia in respect of Aurelia shares.</p>

Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations. Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as there are Canadian tax implications for investors in the Provinces.

APPENDIX C: SUMMARY OF UNDERWRITING AGREEMENT

SUMMARY OF UNDERWRITING AGREEMENT

Aurelia entered into an underwriting agreement with the Underwriters in respect of the Offer on 31 May 2023 (Underwriting Agreement).

The Underwriters' obligations under the Underwriting Agreement, including to underwrite and manage the Offer, are conditional on certain matters, including the timely delivery of certain due diligence materials, sign-offs, opinions and certificates by Aurelia. If certain conditions are not satisfied, or certain events occur, some of which are beyond the control of Aurelia, each Underwriter may terminate its obligations under the Underwriting Agreement. Termination of the Underwriting Agreement may have an adverse impact on the ability of Aurelia to proceed with the Offer and the quantum of funds raised as part of the Offer. If the Underwriting Agreement is terminated by either or both of the Underwriters, there is no guarantee that the Offer will continue in its current form or at all. Failure to raise sufficient funds under the Offer (as a result of it not proceeding or otherwise) could affect Aurelia's ability to fund the Federation Project and materially adversely affect Aurelia's business, cash flow, financial performance, financial condition and share price.

The events which may trigger termination of the Underwriting Agreement include the following:

- the conditions precedent in the Underwriting Agreement are not satisfied or waived by their respective deadlines;
- a statement contained in certain documents (including all announcements released to ASX by Aurelia in connection with the Offer) (Offer Documents) and any press releases, presentation materials or public or media statement made in relation to the Group or the Offer (Public Information) does not comply with the Corporations Act (including if a statement in any of the Offer Documents or Public Information is or becomes misleading or deceptive in a material respect or is likely to mislead or deceive in a material respect, including by omission), or a matter required to be included is omitted from an Offer Documents or the Public Information;
- certain of the documents under which the new Trafigura facilities are provided (Debt Documents) are breached in a material respect, terminated (or become terminable, void, voidable or unenforceable), rescinded or altered or amended without the prior written consent of the Underwriters, or a condition precedent to which any of those certain Debt Documents is subject has become impossible to be satisfied by its due date (unless the relevant condition precedent has been waived by the party or parties that have its benefit) or any event occurs which gives a lender or financier under those Debt Documents the right to accelerate or require repayment of the debt or financing;
- a cleansing notice is or becomes defective within the meaning of section 708AA(11) or 708A(10) of the Corporations Act, or Aurelia gives or is required to give a corrective statement to correct a cleansing notice under section 708AA(10) or 708A(9) of the Corporations Act and, in each case, the statement is adverse from the point of view of an investor;
- ASIC commences certain actions, investigations or hearings in relation to the Offer or certain documents published by Aurelia in respect of the Offer and such actions, investigations or hearings either: (a) become public; or (b) are not withdrawn within specified time frames;
- ASIC or any other governmental agency makes an order or determination which prevents or is likely to prevent Aurelia from proceeding with the Offer in accordance with the timetable for the Offer;
- any member of the Group which represents 5% or more of the consolidated assets or earnings of the Group becomes insolvent (the particulars of which are specified in the Underwriting Agreement), or there is an act or omission which is likely to result in a member of the Group becoming insolvent;
- Aurelia ceases to be admitted to the official list of ASX or Aurelia's shares cease trading or are suspended from official quotation or cease to be quoted on ASX (other than due to the trading halt requested by Aurelia to facilitate the Offer);
- ASX makes any official statement to any person, or indicates to Aurelia or the Underwriters that it will not grant permission for the official quotation of the shares issued under the Offer;
- if permission for the official quotation of Offer shares is granted before the date of allotment and issue of those shares, the approval is subsequently withdrawn, qualified (other than by way of customary conditions) or withheld;
- Aurelia withdraws the Offer or any of the Offer Documents;
- Aurelia is or will be prevented from conducting or completing the Offer by or in accordance with the Listing Rules, ASIC, ASX, any applicable laws or an order of a court of competent jurisdiction or other governmental agency;
- either the S&P/ASX 300 Index or the S&P/ASX 300 Resources Index falls by 10% or more below its level at close of trading on the last trading day immediately prior to the date of the Underwriting Agreement and remains at least 10% or more below that level: (1) at close of trading on at least 2 consecutive trading days prior to the Institutional Settlement Date; or (2) at close of trading on the trading day immediately prior to the Institutional Settlement Date;
- a director of Aurelia or the Interim CEO, CFO or COO of Aurelia is charged with an indictable offence;
- any governmental agency commences any public action against a member of the Group or any of its respective directors or the Interim CEO, CFO or COO of Aurelia, in each case in their capacity as such, or announces that it intends to take action;
- any director of Aurelia or the Interim CEO, CFO or COO of Aurelia is disqualified from managing a corporation under Part 2D.6 of the Corporations Act;
- the trading halt requested by Aurelia to facilitate the Offer ends early without the prior written consent of the Underwriters; or
- any event specified in the timetable for the Offer is delayed without the prior written consent of the Underwriters.

SUMMARY OF UNDERWRITING AGREEMENT (CONT.)

In addition, an Underwriter may terminate the Underwriting Agreement if any of the following events occurs, provided that Underwriter has reasonable grounds to believe that the event: (a) has or could be reasonably expected to have a material adverse effect on the success, settlement or marketing of the Offer or on the ability of that Underwriter to market or promote or settle the Offer; or (b) will, or is likely to, give rise to a liability of that Underwriter under, or a contravention by that Underwriter or its affiliates of, or that Underwriter or its affiliates being involved in a contravention of, any applicable law:

- any adverse change occurs, or there is a development involving a prospective adverse change, in the assets, liabilities, financial position or performance, profits, losses or prospects of the Group from those respectively disclosed in any Offer Document or the Public Information;
- a change in the board or the Interim CEO, CFO or COO of Aurelia is announced or occurs, except to the extent such change is a result of the appointment of a new CEO or Managing Director to replace the current Interim CEO;
- a representation, warranty, undertaking or obligation contained in the Underwriting Agreement on the part of Aurelia is breached, becomes not true or correct or is not performed;
- Aurelia fails to perform or observe any of its obligations under the Underwriting Agreement;
- a statement in certain certificates required to be provided to the Underwriters under the Underwriting Agreement is misleading, inaccurate or untrue or incorrect;
- Aurelia alters its constitution without the prior written consent of the Underwriters, such consent not to be unreasonably withheld or delayed;
- Aurelia reduces, reorganises or otherwise alters or restructures its capital structure, or agree to do any of those things, without the prior written consent of the Underwriters;
- the report of the due diligence committee formed by Aurelia in connection with the Offer to the directors of Aurelia and the Underwriters, or any other information supplied by or on behalf of Aurelia to the Underwriters in relation to the Group or the Offer, is or becomes misleading or deceptive, including by way of omission;
- there is introduced, or there is a public announcement of a proposal to introduce, into the Parliament of Australia or any State or Territory of Australia a new law, or the Reserve Bank of Australia, or any Commonwealth or State authority adopts or announces a proposal to adopt a new policy (other than a law or policy which has been announced before the date of the Underwriting Agreement);
- hostilities not existing at the date of the Underwriting Agreement commence (whether war has been declared or not) or a major escalation in existing hostilities occurs (whether war has been declared or not) or a significant terrorist act is perpetrated, in each case involving any of Australia, Russia, Ukraine, the United Kingdom, the United States of America, any member of the European Union, Hong Kong or the People's Republic of China, or a national emergency or a major escalation of a national emergency is declared by either of those countries;
- a general moratorium on commercial banking activities in Australia, the United Kingdom, the United States, Hong Kong, People's Republic of China or any member of the European Union is declared by the relevant central banking authority in those countries, or there is a disruption in commercial banking or security settlement or clearance services in any of those countries;
- trading in all securities quoted or listed on ASX, New York Stock Exchange, London Stock Exchange or Hong Kong Stock Exchange is suspended or limited for at least one day on which that exchange is open for trading.

If the Underwriting Agreement is terminated by an Underwriter, that Underwriter is not obliged to perform its obligations that remain to be performed under the Underwriting Agreement.

Termination by the Underwriters will discharge Aurelia's obligation to pay the Underwriters any fees, costs, charges or expenses which as at termination are not yet accrued. For details of the fees payable to the Underwriters, see the Appendix 3B released to ASX on 31 May 2023.

Aurelia also gives certain representations, warranties and undertakings to the Underwriters and an indemnity to the Underwriters and its affiliates subject to certain carve-outs.

The directors of Aurelia reserve the right to issue any shortfall under the Entitlement Offer at their discretion. Any shortfall from the Entitlement Offer may, subject to the terms of the Underwriting Agreement, be allocated to existing institutional shareholders or other institutional investors or be allocated to the Underwriters. Retail shareholders who take up their full entitlement will also have the ability to apply for additional shares in excess of their entitlement up to a maximum of 50% under a Top-Up Facility. The basis of allocation of any other shortfall will be determined by the directors of Aurelia at their discretion, in consultation with the Underwriters, taking into account whether investors are existing shareholders, Aurelia's register and any potential control impacts.

5. Additional information

5.1 Date of this Information Booklet

This Information Booklet is dated 7 June 2023. Subject to the following paragraph, statements in this Information Booklet are made only as of the date of this Information Booklet unless otherwise stated and the information in this Information Booklet remains subject to change without notice. Aurelia is not responsible for updating this Information Booklet.

The ASX announcements and Investor Presentation set out in section 4 of this Information Booklet are current as at the date on which they were released. There may be additional announcements that are made by Aurelia (including after the date of this Information Booklet) that may be relevant to your consideration of whether to take up your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by Aurelia to the ASX before submitting an Application.

5.2 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to all Eligible Retail Shareholders only.

Eligible Retail Shareholders are Shareholders on the Record Date who:

- are registered as holders of Existing Shares as at 7:00pm (AEST);
- have a registered address in Australia or New Zealand as noted on Aurelia's share register; are an Institutional Investor in another permitted jurisdiction; or are a Shareholder that Aurelia has otherwise determined is eligible to participate in the Retail Entitlement Offer;
- are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States (to the extent such person holds Existing Shares for the account or benefit of such person in the United States);
- were not invited to participate in the Institutional Entitlement Offer and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer (other than as nominee or custodian, in each case in respect of other underlying holdings); and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus, product disclosure statement or other formal offer document to be lodged or registered.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY or if you are based in New Zealand by direct transfer, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

Aurelia has determined that it is unreasonable to extend the Retail Entitlement Offer to Ineligible Retail Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions

outside Australia and New Zealand, but reserves its right to do so (subject to compliance with relevant laws).

5.3 Ranking of New Shares

The New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares. The rights attaching to the New Shares are set out in Aurelia's constitution and are regulated by the Corporations Act, Listing Rules and general law.

5.4 Allotment, trading and quotation

Aurelia has applied for quotation of the New Shares on ASX in accordance with Listing Rule requirements. If ASX does not grant quotation of the New Shares, Aurelia will repay all Application Monies (without interest).

Trading of New Shares will, subject to ASX approval, occur shortly after allotment. It is expected that allotment of the New Shares under the Retail Entitlement Offer will take place on 5 July 2023. Application Monies will be held by Aurelia on trust for Applicants until the New Shares are allotted. No interest will be paid on Application Monies.

Subject to approval being granted, it is expected that the New Shares allotted under the Retail Entitlement Offer will commence trading on a normal basis on 6 July 2023.

It is the responsibility of Applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The sale by an Applicant of New Shares prior to receiving their holding statement is at the Applicant's own risk. Aurelia and the Underwriters disclaim all liability whether in negligence or otherwise (to the maximum extent permitted by law) to persons who trade New Shares before receiving their holding statements, whether on the basis of confirmation of the allocation provided by Aurelia or the Share Registry or otherwise.

5.5 Reconciliation

In any entitlement offer, investors may believe that they own more Existing Shares on the record date than they ultimately do. This may result in a need for reconciliation to ensure all Eligible Shareholders have the opportunity to receive their full Entitlement.

Aurelia may need to issue a small quantity of additional New Shares to ensure all Eligible Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

Aurelia also reserves the right to reduce the Entitlement or the number of New Shares allocated to Eligible Shareholders or persons claiming to be Eligible Shareholders, if their Entitlement claims prove to be overstated, if they or their nominees/custodians fail to provide information requested to substantiate their Entitlement claims, or if they are not Eligible Shareholders.

5.6 Underwriting

The Entitlement Offer is fully underwritten by the Underwriters.

Aurelia and the Underwriters have entered into an Underwriting Agreement. Customary with these types of arrangements:

- Aurelia and the Underwriters have given certain representations, warranties and undertakings in connection with (among other things) the Entitlement Offer;
- Aurelia has agreed, subject to certain carve-outs, to indemnify the Underwriters, their affiliates and related bodies corporate, and their respective directors, officers, and employees (including the respective directors, officers and employees of its affiliates and related bodies corporate) against all claims, demands, damages, losses, costs, expenses and liabilities arising out of or in connection with the Entitlement Offer and the Placement;
- The obligation on each Underwriter to underwrite the Entitlement Offer and the Placement is conditional on certain customary conditions precedent. Additionally, each Underwriter may (in certain circumstances having regard to the materiality of the event) terminate the Underwriting Agreement and be released from its obligations under it on the occurrence of certain events. For further details, see the summary of the Underwriting Agreement which is set out in the "Summary of Underwriting Agreement" section in the Appendix to the Investor Presentation included in section 4 of this Information Booklet.
- Aurelia has agreed to pay the Underwriters a fee equal to:
 - 1.5% of the Institutional Offer Amount and Retail Offer Amount; and
 - 3.5% of the Institutional Offer Amount and Retail Offer Amount;
- the Underwriters will be reimbursed for certain expenses.

The directors of Aurelia reserve the right to issue any shortfall under the Entitlement Offer at their discretion. Any shortfall from the Entitlement Offer will, subject to the terms of the Underwriting Agreement, be allocated to the Underwriters or to third party investors as directed by the Underwriters acting reasonably in consultation with Aurelia. The basis of allocation of any other shortfall will be determined by the directors of Aurelia at their discretion, taking into account whether investors are existing shareholders, Aurelia's register and any potential control impacts.

Neither the Underwriters nor any of their related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents have authorised or caused the issue, submission, dispatch or provision of this Information Booklet, nor have they made or purported to make, or authorised, approved or verified any forward-looking statements or any other statements in this Information Booklet. There is no statement in this Information Booklet that is based on any statement by an Underwriters or any of its related bodies corporate and affiliates, or any of their respective directors, officers, partners, employees, representatives or agents.

To the maximum extent permitted by law, the Underwriters and their related bodies corporate and affiliates and each of their respective directors, officers, partners, employees, representatives or agents exclude and disclaim all liability for any expenses, losses, damages or costs incurred by you as a result of your participation in or failure to participate in the Entitlement Offer and this information being inaccurate or incomplete in any way for any reason, whether by negligence on the part of any person or otherwise.

5.7 Continuous Disclosure

Aurelia is a “disclosing entity” under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules, including the preparation of annual reports and half yearly reports.

Aurelia is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, Aurelia has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of Aurelia Shares. That information is available to the public from ASX and can be accessed at www.asx.com.au. Some documents are required to be lodged with ASIC in relation to Aurelia. These documents may be obtained from, or inspected at, an ASIC office.

5.8 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been made.

5.9 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

5.10 Not financial product or investment advice

This Information Booklet and the accompanying Entitlement and Acceptance Form is for information purposes only, is not a prospectus, disclosure document or other offering document under the Corporations Act or any other law and has not been lodged with ASIC. It is also not

financial product or investment advice or a recommendation to acquire New Shares and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. The Information Booklet should not be considered comprehensive and Aurelia is not licensed to provide financial product advice in respect of the New Shares.

The information contained in this Information Booklet does not purport to contain all the information that you may require to evaluate a possible application for New Shares, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with Aurelia's other periodic statements and continuous disclosure announcements lodged with ASX.

Before making an investment decision, you should consider the appropriateness of the information in this Information Booklet having regard to your own objectives, financial situation and needs and seek legal and taxation advice appropriate to your jurisdiction. If you have any questions about whether you should participate in the Entitlement Offer, you should seek professional financial advice before making any investment decision.

5.11 Governing law

This Information Booklet, the Retail Entitlement Offer and the contracts formed on acceptance of the Entitlement and Acceptance Forms are governed by the laws applicable in Queensland, Australia. Each applicant for New Shares submits to the exclusive jurisdiction of the courts of Queensland, Australia.

5.12 Withdrawal of the Entitlement Offer

Aurelia reserves the right to withdraw all or part of the Entitlement Offer and this Information Booklet at any time, subject to applicable laws, in which case Aurelia will refund Application Monies in relation to New Shares not already issued in accordance with the Corporations Act and without payment of interest. In circumstances where allotment under the Institutional Entitlement Offer has occurred, Aurelia may only be able to withdraw the Entitlement Offer with respect to New Shares to be issued under the Retail Entitlement Offer.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to Aurelia will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to Aurelia.

5.13 Privacy

As a Shareholder, Aurelia and the Share Registry have already collected certain personal information from you. If you apply for New Shares, Aurelia and the Share Registry may update that personal information or collect additional personal information. Such information may be used to assess your acceptance of the New Shares, service your needs as a Shareholder, provide facilities and services that you request and carry out appropriate administration.

To do that, Aurelia and the Share Registry may disclose your personal information for purposes related to your shareholdings to their agents, contractors or third party service providers to whom they outsource services, in order to assess your application for New Shares, the Aurelia share register for ongoing administration of that register, printers and mailing houses for the purposes

of preparation of the distribution of shareholder information and for handing of mail, or as otherwise under the *Privacy Act 1988* (Cth).

5.14 Ineligible Shareholders

All Shareholders who do not satisfy the criteria to be Eligible Retail Shareholders or Eligible Institutional Shareholders, are Ineligible Shareholders. Ineligible Shareholders are not entitled to participate in the Entitlement Offer, unless Aurelia otherwise determines.

The restrictions upon eligibility to participate in the Entitlement Offer arise because Aurelia has determined, pursuant to Listing Rule 7.7.1(a) and section 9A(3)(a) of the Corporations Act, that it would be unreasonable to extend the Entitlement Offer to Ineligible Shareholders. This decision has been made after taking into account the number of non-residents in Australia and New Zealand on the Aurelia register, the relatively small number and value of New Shares to which those Shareholders would otherwise be entitled and the potential costs of complying with legal and regulatory requirements in the jurisdictions in which the Ineligible Shareholders are located in relation to the Entitlement Offer.

Aurelia, in its absolute discretion, may extend the Entitlement Offer to any Shareholder if it is satisfied that the Entitlement Offer may be made to the Shareholder in compliance with all applicable laws. Aurelia, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder, Eligible Institutional Shareholder or an Ineligible Shareholder. To the maximum extent permitted by law, Aurelia disclaims all liability in respect of such determination.

The price at which the Entitlements of Ineligible Shareholders will be sold is the Offer Price. Accordingly, Ineligible Shareholders will not receive any payment or value as a result of the issue of any of those New Shares they would have been entitled to subscribe for had they been eligible to participate in the Entitlement Offer.

6. Australian taxation consequences

The taxation implications of the Retail Entitlement Offer will vary depending upon your particular circumstances. Neither Aurelia nor any of its Officers or employees, nor its advisors, accepts any liability or responsibility in this regard and recommends that you seek and rely upon your own professional advice in connection with the Retail Entitlement Offer.

This Section 6 does not constitute financial product advice as defined in the *Corporations Act 2001* (Cth), is confined to taxation issues, and is only one of the matters investors need to consider when making a decision about their investments. Investors should seek advice from their own independent professional adviser before deciding whether to invest in the Retail Entitlement Offer.

The following tax comments in this Section 6 are based on the income tax (including Capital Gains Tax (**CGT**), Goods and Services Tax (**GST**) and stamp duty laws in Australia in force as at 7 June 2023. Other than as expressly discussed, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time unless otherwise specified. The comments also do not take into account tax legislation of any country other than Australia.

Australian tax laws are complex. This summary is general in nature and is not intended to be an authoritative or complete statement of all potential tax implications for each investor or relied upon as tax advice. During the period of ownership of the New Shares by investors, the taxation laws of Australia, or their interpretation, may change. The precise implications of ownership or disposal will depend upon each investor's specific circumstances. Investors should seek their own independent professional advice on the taxation implications of receiving the Retail Entitlement Offer, participating in the Top Up facility, holding or disposing of the New Shares, taking into accounting their specific circumstances.

The following information is a general summary of the Australian income tax (including CGT), GST and stamp duty implications of the Retail Entitlement Offer for Eligible Retail Shareholders who are Australian tax resident individuals, complying superannuation entities, trusts, partnerships and corporate investors that hold their existing and New Shares on capital account. These comments do not apply to non-resident investors, investors that hold their existing and New Shares on revenue account or as trading stock, investors who are exempt from Australian income tax or investors subject to the Taxation of Financial Arrangements (**TOFA**) regime in Division 230 of the *Income Tax Assessment Act 1997* (Cth).

The guide does not take into account the individual circumstances of particular Eligible Retail Shareholders and does not constitute tax advice.

6.1 Issue of Entitlement

The issue of the Entitlement under the Retail Entitlement Offer should be treated for Australian income tax purposes as an issue of rights to acquire a New Share in Aurelia.

The issue of the Entitlement should not in itself result in any amount being included in the assessable income of an Eligible Retail Shareholder.

6.2 Non-resident capital gains tax withholding

Aurelia will be issuing New Shares to investors pursuant to the Retail Entitlement Offer. In accordance with subsection 14-225(1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth), Aurelia declares that, for the period from the date of this Information Booklet until the date of Completion of the Entitlement Offer, it will be a resident of Australia for tax purposes. Accordingly, investors should not have an obligation to withhold any portion of the price paid for the New Shares under the Retail Entitlement Offer.

6.3 Exercise of Entitlement and applying for additional New Shares

An Eligible Retail Shareholder will not derive any assessable income, or make any capital gain or capital loss at the time of exercising their Entitlement under the Retail Entitlement Offer or acquiring additional New Shares under the Top Up Facility.

For Australian capital gains tax (**CGT**) purposes, New Shares will be taken to have been acquired on the day that an Eligible Retail Shareholder exercises their Entitlement and additional New Shares will be taken to have been acquired on the date the additional New Shares were issued to the Eligible Retail Shareholder.

The cost base of each New Share and additional New Share will be equal to the Offer Price payable for each New Share and additional New Share respectively (plus any non-deductible incidental costs the Eligible Retail Shareholder incurs in acquiring the New Shares and additional New Shares).

6.4 Lapse of Entitlement

If an Eligible Retail Shareholder does not accept all or part of their Entitlement in accordance with the instructions set out above, then that Entitlement will lapse and the Eligible Retail Shareholder will not receive any consideration for their Entitlement that is not taken up. There should be no tax implications for an Eligible Retail Shareholder from the lapse of the Entitlement.

6.5 Taxation in respect of dividends on New Shares

Australian resident individuals and complying superannuation entities

Dividends paid by Aurelia on a Share will constitute assessable income of an Australian tax resident investor. Australian tax resident investors who are individuals or complying superannuation entities should include the dividend in their assessable income in the year the dividend is paid, together with any franking credit attached to that dividend.

Subject to the comments below at Section 6.6, such investors should be entitled to a tax offset equal to the franking credit attached to the dividend. The tax offset can be applied to reduce the tax payable on the investor's taxable income. Where the tax offset exceeds the tax payable on the investor's taxable income, the investor should be entitled to a tax refund equal to the excess.

To the extent that the dividend is unfranked, an individual investor will generally be taxed at their prevailing marginal rate on the dividend received (with no tax offset). Complying superannuation

entities will generally be taxed at the prevailing rate for complying superannuation entities on the dividend received (with no tax offset).

Corporate investors

Corporate investors are also required to include both the dividend and, where a fully franked or partially franked dividend is received, the associated franking credit in their assessable income.

Subject to the comments below at Section 6.6, corporate investors should be entitled to a tax offset up to the amount of the franking credit attached to the dividend.

An Australian resident corporate investor should be entitled to a credit in its own franking account to the extent of the franking credits attached to the distribution received. This will allow the corporate investor to pass on the franking credits to its investor(s) on the subsequent payment of franked dividends.

Excess franking credits received by corporate investors will not give rise to a refund entitlement for a company but can be converted into carry forward tax losses instead.

Trusts and partnerships

Investors who are trustees (other than trustees of complying superannuation entities, which are dealt with above) or partnerships should include any dividends and any franking credit received in determining the net income of the trust or partnership. Where a fully franked or partially franked dividend is received, the relevant beneficiary or partner may be entitled to a tax offset equal to the beneficiary's or partner's share of the net income of the trust or partnership.

Unfranked dividends

Where a dividend paid by Aurelia is unfranked, the Eligible Retail Shareholder will be required to include the unfranked amount in their assessable income and there will be no offset entitlement.

Non-resident for tax purposes

The tax outcomes described above do not apply in the case of an Eligible Retail Shareholder who is not a tax resident of Australia. Non-resident shareholders will need to separately consider the tax implications of receiving dividends, franked or unfranked, on the New Shares.

6.6 New Shares and additional New Shares held at risk

The benefit of franking credits can be denied where an Eligible Retail Shareholder is not a 'qualified person' in which case the Eligible Retail Shareholder will not be able to include an amount for the franking credits in their assessable income and will not be entitled to a tax offset.

Broadly, to be a qualified person, an Eligible Retail Shareholder must satisfy the holding period rule and, if necessary, the related payment rule. The holding period rule requires an Eligible Retail Shareholder to hold the New Shares and additional New Shares 'at risk' for at least 45 days continuously during the qualification period – starting from the day after acquisition of the shares and ending 45 days after the shares becomes ex-dividend.

The dates the New Shares and additional New Shares are acquired and disposed of are ignored for the purposes of determining the 45 day period. In determining the length of time for which a particular share has been held, the holding period rule applies on a 'last in, first out' basis. Any day on which an Eligible Retail Shareholder has a materially diminished risk of loss or opportunity for

gain in respect of the New Shares or additional New Shares (e.g. entering into a contract to sell the New Shares or additional New Shares) will not be counted as a day on which the Eligible Retail Shareholder held the New Shares or additional New Shares 'at risk'.

This holding period rule is subject to certain exceptions, including where the total franking offsets of an individual in a year of income do not exceed A\$5,000.

The related payment rule applies where the Eligible Retail Shareholder has made, or is under an obligation to make, a payment that passes on the benefit of a dividend paid by Aurelia to another party. For each such dividend, the related payment rule requires the Eligible Retail Shareholder to have held the New Shares and additional New Shares at risk for a continuous 45 day period as above but within the period commencing on the 45th day before, and ending on the 45th day after, the day the New Shares and additional New Shares become ex-dividend in respect of that dividend. Practically, this should not impact Eligible Retail Shareholders who continue to hold New Shares and additional New Shares and also do not pass the benefit of the dividend to another person.

Eligible Retail Shareholders should obtain their own tax advice to determine if these requirements have been satisfied.

A specific integrity rule prevents taxpayers from obtaining a tax benefit from additional franking credits where dividends are received as a result of "dividend washing". That is, selling shares on an ex-dividend basis (retaining the dividend entitlement) and then repurchasing the same parcel of shares on a cum-dividend basis. Eligible Retail Shareholders should consider the impact of this measure together with the broader integrity provisions that apply to the claiming of tax offsets, having regard to their own personal circumstances.

6.7 Disposal of New Shares or additional New Shares – Australian tax residents

Most Australian tax resident investors will be subject to Australian CGT on the disposal of their Shares. Some investors may hold their Shares on revenue account, as trading stock, or be subject to the Taxation of Financial Arrangements regime. Those investors should seek their own independent professional advice in respect of the consequences of a disposal of Shares.

Where investors hold their Shares on capital account, the disposal of New Shares or additional New Shares will constitute a disposal for CGT purposes.

On disposal of New Shares or additional New Shares, an Eligible Retail Shareholder will make a net capital gain if the capital proceeds received on disposal exceed the total cost base of the New Shares or additional New Shares. An Eligible Retail Shareholder will make a net capital loss if the capital proceeds are less than the total reduced cost base of the New Shares or additional New Shares. The cost base of the shares is broadly the amount paid to acquire the shares plus any transaction and incidental costs.

If an Eligible Retail Shareholders derives a net capital gain in a year, this amount is, subject to the following comments, included in the investor's assessable income. Eligible Retail Shareholders that are individuals, trustee investors or complying superannuation entities and that have held their New Shares or additional New Shares for 12 months or more (excluding the date of acquisition and the date of disposal) at the time of disposal should be entitled to apply the applicable CGT discount factor to reduce the capital gain (after offsetting capital losses). The CGT

discount factor is 50% for individuals and trusts and 33.33% for complying superannuation entities. In relation to trusts, the CGT discount rules are complex, but the discount may flow through to presently entitled beneficiaries of the trust where the beneficiary would themselves be entitled to apply the CGT discount.

For the purpose of determining whether the New Shares have been held for 12 months or more (excluding the date of acquisition and the date of disposal), Eligible Retail Shareholders will be taken to have acquired them when they exercise their Entitlement under the Retail Entitlement Offer. For the purpose of determining whether the additional New Shares acquired under the Top Up Facility have been held for 12 months or more (excluding the date of acquisition and the date of disposal), Eligible Retail Shareholders will be taken to have acquired them at the date the additional New Shares were issued.

Eligible Retail Shareholders that make a capital loss can only use that loss to offset other capital gains from other sources (i.e. the capital loss cannot be used against taxable income on revenue account). However, if the capital loss cannot be used in a particular income year, it can be carried forward to use in future income years to offset capital gains derived in subsequent years, provided certain loss utilisation tests are satisfied.

6.8 Taxation of Financial Arrangements

The application of the TOFA provisions under Division 230 of the ITAA depend on the specific facts and circumstances of the Eligible Retail Shareholder. The TOFA provisions are complex, and Eligible Retail Shareholders should seek advice from an appropriate professional advisor in relation to the implications of the TOFA provisions.

6.9 Tax file numbers

An investor is not required to quote their tax file number (**TFN**) to Aurelia. However, if their TFN details (or certain exemption details) are not provided, Australian tax may be required to be deducted by Aurelia from dividends at the maximum marginal tax rate plus the Medicare levy.

An investor who holds Shares as part of an enterprise may quote its Australian Business Number instead of its TFN.

6.10 GST

The acquisition or disposal of the New Shares and/or additional New Shares by an Eligible Retail Shareholder (who is registered or required to be registered for GST) will be classified as a “financial supply” for Australian GST purposes. Accordingly, Australian GST will not be payable in respect of amounts paid for the acquisition or disposal of the New Shares or additional New Shares.

No GST should be payable in respect of dividends paid to investors.

Subject to certain requirements, there may be a restriction on the entitlement of Eligible Retail Shareholders registered for GST to claim an input tax credit for any GST incurred on costs associated with the acquisition or disposal of New Shares or additional New Shares acquired under the Top Up Facility (e.g. lawyer’s and accounts’ fees).

Investors should seek their own tax advice on the impact of GST in their own particular circumstances.

6.11 Stamp duty

On the basis that all of the shares in Aurelia are quoted on the ASX (ie. no classes of unquoted shares on issue) and no investor, together with their associates or as part of an associated transaction, should meet or exceed the landholder acquisition threshold for a listed entity (being 90%), no stamp duty should be payable by investors on the acquisition of the New Shares.

Investors should seek their own tax advice as to the impact of stamp duty in their own particular circumstances.

- C. are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States;
 - D. were not invited to participate in (other than as nominee, in respect of other underlying holdings), and were not otherwise treated as ineligible institutional shareholders, under the Institutional Entitlement Offer; and
 - E. are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus, product disclosure statement or other formal offer document to be lodged or registered.

Why am I not eligible to participate in the Offer?

Aurelia has determined, pursuant to section 9A(3) of the Corporations Act and ASX Listing Rule 7.7.1(a), that it would be unreasonable to extend the Retail Entitlement Offer to shareholders in all countries outside Australia or New Zealand in connection with the Retail Entitlement Offer.

This is due to the legal and regulatory requirements in countries other than Australia or New Zealand and the potential costs to Aurelia for complying with these requirements, compared with the relatively small number of shareholders in those countries, the relatively small number of existing Aurelia ordinary shares they hold and the relatively low value of New Shares to which those shareholders would otherwise be entitled to subscribe for.

Determination of eligibility of investors for the purposes of the Retail Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of Aurelia and the Joint Lead Manager. Aurelia, the Joint Lead Managers and each of their respective affiliates and related bodies corporate and each of their respective directors, officers, partners, employees, advisers and agents disclaim any duty or liability (including for fault or negligence) in respect of any determination as to eligibility, to the maximum extent permitted by law.

Unfortunately, according to our records, you do not satisfy the eligibility criteria for an Eligible Retail Shareholder as stated above. Accordingly, in compliance with ASX Listing Rule 7.7.1(b) and section 9A(3) of the Corporations Act, Aurelia wishes to advise you that it will not be extending the Retail Entitlement Offer to you and you will not be able to subscribe for New Shares under the Retail Entitlement Offer. You will not be sent the documents relating to the Retail Entitlement Offer.

Notwithstanding the above, Aurelia may (in its absolute discretion) agree to extend the Retail Entitlement Offer to certain institutional shareholders in foreign jurisdictions who did not participate in the Institutional Entitlement Offer subject to compliance with applicable laws.

As the Retail Entitlement Offer is non-renounceable, entitlements in respect of any New Shares that would have been offered to you if you were an Eligible Retail Shareholder will lapse and you will not receive any payment or value for those entitlements. Entitlements are not tradeable on ASX or otherwise transferrable. New Shares equivalent to the number of New Shares you would have been entitled to if you were an Eligible Retail Shareholder will be allocated to those Eligible Retail Shareholders who make a valid Application for additional New Shares in excess of their entitlement (up to a maximum of 50% of their entitlement at the Offer Price under a 'Top-up Facility'), or in turn the Joint Lead Managers (in their capacity as joint underwriters) or to persons from whom the Joint Lead Managers have procured subscriptions for New Shares (including any sub-underwriters), pursuant to the underwriting arrangements between Aurelia and the Joint Lead Managers.
