Decision to allow representative proceeding

GrainCorp Limited (GrainCorp) (ASX: GNC) acknowledges the Supreme Court of Victoria's recent decision to allow Mr Kevin Green to bring a representative proceeding against GrainCorp Oilseeds Pty Ltd, a wholly owned subsidiary of GrainCorp, on behalf of himself and other Numurkah residents allegedly affected by emissions from GrainCorp's Numurkah grain processing facility.

GrainCorp is currently considering its position in relation to the decision, but notes that the decision concerns a procedural matter as to how the proceeding will be conducted and does not reflect any substantive assessment by the Court of the merits of the proceeding.

GrainCorp takes its environmental and other compliance obligations very seriously. GrainCorp strongly denies allegations by Mr Green in relation to its Numurkah facility and intends to defend the proceeding vigorously.

This announcement is authorised for release in accordance with the GrainCorp Continuous Disclosure and Financial Markets Communication Policy.
