### 5. Liquidity Coverage Ratio

APRA requires authorised deposit-taking institutions (**ADI**) to maintain a minimum Liquidity Coverage Ratio (**LCR**) of 100 per cent. The LCR requires an ADI to hold sufficient High Quality Liquid Assets (**HQLA1**) to meet net cash outflows (**NCO**) over a 30 day period, under a regulator defined liquidity stress scenario. BOQ manages its LCR on a daily basis with a buffer above the regulatory minimum in line with the BOQ prescribed risk appetite and management ranges.

BOQ maintains a portfolio of high quality, diversified liquid assets to facilitate balance sheet liquidity needs and meet the regulatory minimum, with appropriate additional Board and management buffers set in line with the Group risk appetite. Liquid assets are comprised of HQLA1 (ESA balances, cash, Australian Semi-Government and Commonwealth Government securities). BOQ has a stable, diversified and resilient deposit and funding base that aims to mitigate the chance of a liquidity stress event across various funding market conditions. BOQ uses a range of funding instruments including customer deposits, short term and long term wholesale debt instruments, securitisation and covered bonds, with the objective of lengthening tenor, diversifying funding sources and increasing the stable funding base.

BOQ's average Level 2 LCR over the May 2023 quarter was 147%, which is 4% lower than the previous February 2023 quarter average of 151%. The reduction in LCR is primarily due to an increase in cash outflows from a higher balance of secured wholesale funding and retail deposits in the LCR window, however this impact was partially offset by a reduction in other contractual funding obligations. HQLA growth in the quarter had a small positive impact on the LCR. The following table presents detailed information on the ratio composition for the two quarters. 63 data points were used in calculating the average figures for the May 2023 quarter and 60 data points were used in calculating the average figures for the February 2023 quarter.
