Reflection – how did we achieve this and deliver 498% TSR since listing?

Our long-term strategy of focusing on being the best broker network and providing an exit mechanism to unlock trapped capital

Our Australasian success can be attributed to a genuine focus on improving the value our network broker provides to their clients and helping them grow their own business.

By providing recognised high quality and differentiated products and services to our members, we built a network scale that provided SDF the opportunity and credibility to grow rapidly when the timing was right.

This success and lessons learned will continue to drive our domestic strategy and inform/guide our strategies internationally.

Steadfast's acquisition track record

Steadfast has a proven track record of successfully completing earnings accretive acquisitions

- Established track record of evaluating, executing and integrating M&A opportunities
- Longstanding and dedicated internal acquisitions team
- Due diligence is undertaken by our experienced Steadfast team to satisfy all acquisition criteria
- Due diligence criteria include cultural and strategic fit as well as financial outcomes
- Steadfast acquisition growth has been complemented by a track record of continued organic growth
- In aggregate, the substantial majority of our acquisitions have delivered or exceeded the expected EBITA at the time of acquisition

Increasing Steadfast Group's share of growing Network GWP

Steadfast Network

- Since IPO, Steadfast has successfully implemented the dual strategies of growing our Network as well as increasing equity stakes in the Network
- Trapped Capital Project will continue to increase Steadfast's equity holdings

FY23 operating update

Insurance and reinsurance markets

- Attritional claims in the second and third quarters of FY23 have been above the prior year pcp.
- The impact of non-catastrophe claims has not had any effect on the increasing of retention and/or premium reductions by worldwide reinsurance buyers.
- Capital markets are reviewing the impact of deploying capacity that is supported by letters of credit. This may further increase the cost of reinsurance if actual capital has to be deployed rather than letter of credit guarantees.
- The potential impact of El Nino around the world is likely to be first evident in the southern hemisphere summer; with a dry run up to the wildfire season, there may be a decline in capacity for wildfires areas and, if cover is available, pricing will continue to harden.
- There are still some sections of the market that reinsurers are declining to price, thus putting pressure on the insurer's capital needed to support various risk locations that are subject to increasing claims frequency.

Regulation

- Commission has been accepted by most regulators, worldwide, as the most efficient way to distribute general insurance products that are intermediated.
- Volume based incentives in the Australian market are not acceptable as they induce the distributor to place more product with an insurer offering this inducement.
- The definition of retail client has been confirmed as the one contained in current legislation.
- The issue of general advice compared with personal advice remains a grey area and is subject to interpretation by the seller of the policy at the time of sale.
- The overall result of Hayne Royal Commission and the independent Michelle Levy report to Treasury is that the consumer should be well informed at any time about the total cost of remuneration for any insurance product they buy and in broad terms the industry supports this proposition.

Steadfast Technologies

- The Steadfast Client Trading Platform (SCTP) continues to dominate automated comparative quoting over a wide range of insurance products and their relevant insurers.
- The insurers' back-office inability to adapt to API connectivity still holds back parts of the insurTech efficiency that is available to insurance distribution.
- Our collaboration with ACORD on a universal API continues through the later part of 2023.
- Cyber protection for Steadfast Group and its subsidiaries is supported by a team continually working on monitoring, defence and rectification of potential vulnerabilities in the Steadfast Group and subsidiaries' information technology systems. This is supported by a robust risk transfer to a market leading insurer's cyber policy.
- The sale of Underwriter Central to JAVLN allows for future development of our underwriting agency systems and a cooperative pool of talent for future projects between JAVLN and Steadfast Technologies.

FY23 operating update

Succession

- We continue to review and add to our executive bench strength to ensure adequate succession plans are in place.
- New appointments have now commenced in the business.
- Training has been increased, promotions have been made, and new efficiencies have been gained.

International expansion strategy

- A five-year investigation has been completed:
 - targets evaluated
 - budgets set
- Our plan is close to a “reveal” to the market at or before the Steadfast 2023 Annual General Meeting.
- Any expansion of our international footprint will be very measured.

Environmental, Social and Governance

- In FY23, Steadfast implemented the first phase of its Carbon Neutral Transition Plan that was published in December 2022.
- The Group-wide employee engagement score was 80% this year, as we continue to focus on a culture grounded in integrity and accountability and leadership development that ensures Steadfast is a first-choice employer.
- Our women in leadership roles was stable at 44% this year; as part of our ongoing commitment to improve our gender diversity, Steadfast previously set an aspirational target for Women in Leadership of 45% by 2024.
- Steadfast will roll out further ESG support to our Network brokers and underwriting agencies during FY24.

Steadfast broking

- Long-term strategy of closely aligning capacity providers, technology and strong service ethic
- Benefited from higher premium pricing from strategic partners and market share gains
- Participating on the SCTP across four product lines – Commercial Property & ISR, Strata, Liability and Professional Indemnity
- Enhanced in-house data and analytics capabilities for underwriting agencies and insurers
- 29 agencies offering over 100 niche products (refer slide 39). All agencies are available to the entire intermediated insurance market; none are exclusive to Steadfast

Our insurTech

Continued broker take-up of our technology platforms

Steadfast Client Trading Platform

- SCTP delivers strong client outcomes
 - Genuine contestable marketplace, generating improved pricing competition, coverage and marketing each time a policy is quoted or renewed
 - Provides alignment of client and broker interests given fixed commission rates
- Tailored policy wording based on claim dispute (triage) results
- Steadfast remains focused on improving SCTP by adding more product lines, new insurers and the expansion of auto-rating capabilities. Latest developments include:
 - Continued development of auto-rating capability for insurers for Liability and PI
 - Next commercial product line under development is Farm, expected to launch in FY24
- **9** insurance lines and **17** insurer and underwriting agency partners currently live on SCTP

Steadfast Technologies

Steadfast Client Trading Platform

SCTP is a digital marketplace which provides Steadfast Network insurance brokers with access to a variety of insurance products based on a single agreed question set. The system is integrated with a group of leading insurers and provides an efficient way to rapidly receive a range of insurance quotes in a single view.

It displays a comprehensive, side-by-side comparison showing the differences in each insurer's terms, products and services for each quote.

The SCTP has been seamlessly integrated with insurer and broker back-office management systems, including Steadfast's INSIGHT broker platform. This eliminates costly, time consuming and error prone data re-entry into multiple systems.

Key advantages:

- **Rapidly generates and compares quotes from different insurer partners without re-keying data into multiple insurer systems**
 - **Real-time, straight-through processing throughout the life of a policy**
 - **Increased client insights from data analytics**
-

INSIGHT

INSIGHT is an insurance broking platform with a powerful search engine which gives brokers a single view of their clients and an instant view of their business at any time. It is cloud-based, accessible from anywhere and designed as an open platform to enable connectivity to other business applications if required.

There has been strong interest from Steadfast Network brokers wanting to utilise INSIGHT to help manage their business. Steadfast Group is making a significant investment to roll out the platform as it will deliver substantial efficiencies and cost savings for brokers who will be able to remove their dependency on legacy systems.

Key advantages:

- **Controls, analyses and reports all data**
 - **Automated data recovery and back up**
 - **Open to interface with other business systems, accounting or other software packages**
-

This presentation has been prepared by Steadfast Group Limited ACN 073 659 677 ("Steadfast").

This presentation contains information in summary form which is current as at 16 August 2023. This presentation is not a recommendation or advice in relation to Steadfast or any product or service offered by Steadfast or its subsidiaries and associates. It is not intended to be relied upon as advice to investors or potential investors, and does not contain all information relevant or necessary for an investment decision or that would be required in a prospectus or product disclosure statement prepared in accordance with the requirements of the Corporations Act 2001 (Cth). It should be read in conjunction with Steadfast's other continuous and periodic disclosure announcements filed with ASX Limited, in particular the Steadfast Group 2023 Annual Report, available at investor.steadfast.com.au.

To the maximum extent permitted by law, Steadfast, its subsidiaries and associates and their respective directors, employees and agents disclaim all liability for any direct or indirect loss which may be suffered by any recipient through use of or reliance on anything contained in or omitted from this presentation. No recommendation is made as to how investors should make an investment decision. Investors must rely on their own examination of Steadfast, including the merits and risks involved. Investors should consult with their own professional advisors in connection with any acquisition of securities.

The information in this presentation remains subject to change without notice. Steadfast assumes no obligation to provide any recipient of this presentation with any access to any additional information or to notify any recipient or any other person of any other matter arising or coming to its notice after the date of this presentation.

In addition, please note that past performance is no guarantee or indication of future performance. Possible factors that could cause results or performance to differ materially from those expressed in forward-looking statements include the key risks on pages 49 - 51 of Steadfast's 2023 Annual Report.

Certain non-IFRS financial information has been included within this presentation to assist in making appropriate comparisons with prior periods and to assess the operating performance of the business. Steadfast uses these measures to assess the performance of the business and believes that the information is useful to investors. Non-IFRS information, including underlying income statement items, pro forma income statement items, underlying earnings before interest expense (after premium funding interest income and expense), tax and amortisation of acquired intangibles (EBITA), underlying NPAT, underlying net profit after tax but before (pre tax) amortisation (NPATA), underlying EPS (NPAT) (NPAT per share) and underlying EPS (NPATA) (NPATA per share), have not been subject to review by the auditors. FY13 and FY14 results are pro forma and assume the Pre-IPO Acquisitions and the IPO Acquisitions were included for the full reporting period (all of the IPO Acquisitions completed on 7 August 2013). Prior period underlying EPS (NPAT) and underlying EPS (NPATA) have been adjusted to reflect the re-basing of EPS post the February/March 2015 1:3 rights issue. All references to Aggregate refer to the 100% aggregation of all investees' results regardless of Steadfast's ownership interest. Underlying EPS (NPAT) and underlying EPS (NPATA) for FY20 have been calculated as if all shares issued in FY20 pursuant to the IBNA acquisition and PSF Rebate acquisition were issued on 1 July 2019. To ensure comparability, underlying EBITA also deducts the interest expense on lease liabilities and depreciation of right-of-use assets from 1 July 2019.
