TRADING HALT REQUEST

In accordance with ASX Listing Rule 17.1, 4DS Memory Limited (**Company**) requests that its securities be placed into an immediate trading halt.

In accordance with ASX Listing Rule 17.1, the Company advises that:

1. Following the announcement on 23 August 2023, the Company has undertaken additional testing cycles and the Company requests a trading halt whilst it undertakes a comprehensive review of the newly compiled data.
2. The Company requests that the trading halt remains in place until the earlier of the release of an announcement or commencement of trading on Monday, 18 September 2023; and
3. The Company is not aware of any reason why this trading halt request should not be granted.
4. The Company does have any other information about this trading halt request that can be released prior to making the announcement to come out of the trading halt.

This request is authorised by the Board.

Peter Webse
Company Secretary

About 4DS

4DS Memory Limited (ASX: 4DS), with facilities located in Silicon Valley, is a semiconductor development company of non-volatile memory technology, pioneering Interface Switching ReRAM for next generation gigabyte storage in mobile and cloud. Established in 2007, 4DS owns a patented IP portfolio, comprising 34 USA patents granted which have been developed in-house to create high-density Storage Class Memory. 4DS has a joint development agreement with Western Digital subsidiary HGST, a global storage leader, which accelerates the evolution of 4DS' technology. 4DS also collaborates with imec, a world-leading research and innovation hub in nanoelectronics and digital technologies. The combination of imec's widely acclaimed leadership in microchip technology and profound software and information and communication technology expertise makes them unique.
