Corporate Highlights:

- Cash (unrestricted) at 30 September 2023: \$6.394M

West Australian gold company Focus Minerals (**ASX: FML**) (**Focus** or the **Company**) is pleased to provide its Quarterly Activities Report for the quarter ended 30 September 2023. Most of the Company's effort during the quarter was directed towards the Coolgardie Gold Project, in line with the previously announced plan to resume gold mining operations.

Coolgardie Gold Project

The Coolgardie Gold Project (**Coolgardie**) covers 121km² of highly prospective tenements on the outskirts of the Coolgardie township in the Goldfields region. The Company's efforts are focused on the ramp up of the Three Mile Hill (**TMH**) plant which reported its first gold production during the September quarter 2023.

Mining Resumption Activities

During the quarter under review, the following substantial progress was made in line with the resumption plan:

- Full operations commenced with the required employees in place, the newly completed 100-room Varischetti Village in the Coolgardie townsite housing the FIFO component of the workforce.
- Open pit mining contractor Ozland Mining Services commenced Greenfields open pit waste stripping in July for a cut back of the North and South pit walls:
 - All required mining infrastructure was in place during the quarter.
 - Waste material moved for the quarter totalled 739,539 tonnes.
 - Ore mined, as expected in the mine schedule, was minimal at 9,489 tonnes at 1.01g/t for 308oz.
 - Significant ore production for processing will commence in the subsequent quarter.
- Under EPC Contract, Maca Interquip (MIQ) achieved Practical Completion of the refurbishment works at TMH on 21 July 2023.
- Commissioning of the TMH facility post completion continued throughout the quarter. By quarters end:
 - Design throughput rates (144 tonnes per hour) had been exceeded for extended periods. Crushing and milling circuits achieved those rates when plant availability permitted.
 - Mechanical availability of the refurbished plant maintained an acceptable level during this commissioning period.
 - Downtime from unexpected power outages from the mains network created most of the plant availability issues during the quarter, resulting in 82hrs or 3.5 days in lost production over 15 occurrences.
 - Process water supply limited processing rates for the first few weeks of commissioning, as the Borefield and the tails return systems were being commissioned. These issues are now resolved.
 - First gold was poured on 24 August 2023.
- Low grade ore stockpiles were processed during commissioning in the quarter, with 129,094 tonnes milled at 0.86 g/t and 87.2% recovery for production of 3,294 oz of gold. Gold poured and shipped was 2,384oz.
- Bonnie Vale underground resource has been undergoing advanced mine design with an upgraded Ore Reserve expected in the December Quarter.

Exploration Activities

For the September Quarter 2023, a total of six short RC holes for 174.1m were completed targeting Bonnie Vale underground infrastructure design to investigate ground conditions.

In total 338.5m diamond drilling was completed at Bonnie Vale targeting designed underground infrastructure. This drilling comprises:

- Five short NQ2 tails for 213.8m and,
- Two HQ3 holes from surface for 124.7m

The new drilling will provide geotechnical data to assist further design and permitting.

Mineral Resource modelling of various deposits was progressed in the Quarter. During the quarter Mineral Resource updates were released for:

- Dreadnought and Empress- Dreadnought LG Stockpile (refer to ASX announcement dated 2/08/2023) and,
- Bonnie Vale (refer to ASX announcement dated 26/09/2023)

Laverton Gold Project

Pad and access preparation ahead of drilling was advanced during the quarter. Personnel and an RC rig mobilised to Laverton near the end of the quarter. Two RC holes for 300m were completed at Mt Lebanon in the reporting period.

Corporate

Focus received approximately \$4.693M from the sale of approximately 1,569 oz of gold during the quarter, with an average sale price of A\$2,991 per ounce including minor amount of silver credits.

About Focus Minerals Limited (ASX: FML)

Focus Minerals is a Perth-based, ASX-listed gold exploration company focused on delivering shareholder value from its 100%-owned Coolgardie Gold Project and Laverton Gold Project, in Western Australia's Goldfields.

Focus is committed to delivering shareholder value from the Coolgardie Gold Project, a 138km² tenement holding that includes the 1.2Mtpa processing plant at Three Mile. The LOM plan dated 24 October 2022 optimises the 2020 PFS announced in September 2020 utilising the updated Ore Reserve estimate at Coolgardie which was announced to ASX on 12 October 2022. The LOM plan indicates the return to mining at Coolgardie with an NPV_{7.5%} of \$152 million based on a gold price of A\$2,200 per ounce. The Company's efforts are now focused on refurbishing and commissioning the Three Mile Hill plant for mid-2023.

The Laverton Gold Project covers 362km² area of highly prospective ground that includes the historic Lancefield and Chatterbox Trend mines. Focus' priority target is to confirm sufficient gold mineralisation at the Beasley Shear Zone, Lancefield-Wedge Thrust, Karridale and Burtville to support a Stage 1 production restart at Laverton. In parallel, Focus is working to advance key Laverton resource growth targets including Sickie, Ida-H and Burtville South. Focus has delivered first results from a progressive Pre-Feasibility Study (Pre-Tax NPV_{5.0%} A \$132M) and is advancing study work utilising Laverton's expanded Mineral Resource position.
