

GEFORCE NOW CLOUD GAMING NOW LIVE ON OPTUS SUBHUB

Pentanet Limited (ASX:5GG, Pentanet or Company) is pleased to announce the launch of NVIDIA GeForce NOW™ Powered by CloudGG on Optus SubHub.

The Company's Collaboration Agreement (**Agreement**) with Optus was signed in March 2023 with the aim to integrate the GeForce NOW cloud gaming service into the Optus SubHub subscription management platform, enabling access for Optus' customers in Australia. The Agreement marked a significant milestone towards the Pentanet's goal of commercialising GeForce NOW with the introduction of the Company's first large-scale wholesale partner.

Pentanet and Optus have worked together to develop an enhanced experience for GeForce NOW users on Optus SubHub, with a specific focus on the Optus 5G Living Network and CloudGG, the user management platform for GeForce NOW in Australia.

Pentanet Managing Director, Mr Stephen Cornish, said, "The launch of GeForce NOW cloud gaming on Optus SubHub is an exciting step for Pentanet, solidifying the Company's wholesale digital distribution channel for GeForce NOW in our territories. This collaboration presents an exciting opportunity towards putting high-performance gaming in the hands of even more new members."

Optus Head of 5G and Network Leadership, Harvey Wright, said, "As the first gaming partner to be included in our line-up of subscriptions on Optus SubHub, this represents a major milestone for our world-first subscription management hub. This exciting collaboration with Optus and GeForce NOW Powered by CloudGG gives gamers an adaptable, affordable and revolutionary new way to play."

This announcement has been authorised for release by the Managing Director of Pentanet Limited, Mr Stephen Cornish.

About Pentanet

Pentanet is a Perth-based, growth-focused telco delivering high-speed internet to a growing number of subscribers by providing next-generation internet speeds. This is achieved through Pentanet's market-leading private wireless network, the largest in Perth, as well as reselling fixed-line services such as nbn™ and Opticomm.

The Company's flagship wireless network has benefits for both customers and investors, offering an outstanding customer experience and a fixed wireless product that is technically superior to most of the nbn™ with attractive margins for investors. This sets Pentanet apart from most broadband providers, which typically only resell the nbn™.

Pentanet is also part of the rollout of the next wave of subscription-based entertainment services – cloud gaming. The Company's Alliance Partner Agreement with NVIDIA allowed Pentanet to be the first to bring their GeForce NOW technology to Australia in 2021. Since launch, the platform has amassed over 450,000 users.
