ASX RELEASE

18 December 2023

MONADELPHOUS CONTRACTS UPDATE

Engineering company Monadelphous Group Limited (ASX: MND) (“Monadelphous” or “the Company”) today announced it has secured new construction and maintenance contracts in the resources, energy and infrastructure sectors totalling approximately \$215 million.

The Company has been awarded a further package of work at Albemarle’s Kemerton Expansion Project in the south-west region of Western Australia, in addition to its existing construction contract associated with the expansion of the lithium processing trains. The multidisciplinary package adds the utilities and reagents scope to the front-end pyromet construction work.

Monadelphous has also been awarded a multidisciplinary construction contract by Chevron Australia Pty Ltd to support the installation and modification of electrical power and control facilities at the Jansz-Io Compression Project in Western Australia.

Furthermore, the Company has secured two three-year maintenance services contracts under the newly established Framework Agreement at BHP’s Mt Arthur Coal operations in the Hunter Valley, New South Wales. Both contracts include two, two-year extension options.

Monadelphous’ renewable energy joint venture, Zenviron, has secured a contract for balance-of-plant works at Tilt Renewables’ Latrobe Valley BESS (Battery Energy Storage System) Project located south of Morwell in Victoria. The award comes on the back of Zenviron’s early contractor involvement on the project.

Finally, BMC, Monadelphous’ recently acquired electrical and maintenance services business has secured a minor outage contract with LYB Operation & Maintenance Pty Ltd at its Loy Yang B power station, based in Traralgon, Victoria.
