

Tamboran Resources Corporation (ASX: TBN)

ATO Class Ruling received in relation to the Scheme

Tamboran Resources Corporation (ASX: TBN) (the **Company** or **Tamboran**) is pleased to advise that the Australian Taxation Office (**ATO**) has issued Class Ruling CR 2024/7 (**Class Ruling**) sought by Tamboran Resources Limited (**Tamboran Australia**) in relation to the scheme of arrangement between Tamboran Australia and its shareholders, which was implemented on 13 December 2023 to effect a re-domiciliation of Tamboran Australia and its subsidiaries (**Tamboran Group**) from Australia to the United States of America by the Company becoming the parent company of Tamboran Group (**Scheme**).

The Class Ruling (a copy of which is attached to this announcement) contains details about the taxation treatment applicable to shareholders of Tamboran Australia who received Chess Depositary Interests (**CDIs**) in the Company under the Scheme who held their shares on capital account and were either Australian resident for tax purposes or foreign resident where the shares were “taxable Australian property” (**Eligible Shareholders**).

The Class Ruling confirms that Eligible Shareholders will make a capital loss if the market value of the CDIs received at 13 December 2023 is less than the cost base of the shares. The cost base of the replacement CDIs will be the market value of the Tamboran Australia share on the Implementation Date.

If the market value of the CDIs at 13 December 2023 was more than the cost base of the shares, Eligible Shareholders making a capital gain from the exchange of their Tamboran Australia shares for CDIs in the Company will be able to choose scrip for scrip roll-over relief pursuant to Subdivision 124-M of the Income Tax Assessment Act 1997 (Cth) to disregard the capital gain made from the disposal of Tamboran Australia shares pursuant to the Scheme.

Where rollover is chosen;

- the cost base and reduced cost base of the CDIs received as a result of the Scheme will be equal to the cost base and reduced cost base of their Tamboran Australia shares; and
- the acquisition date of the CDIs received pursuant to the Scheme is deemed to be the date the Tamboran Australia shares were originally acquired for capital gains tax discount purposes.

The above does not take into account the individual circumstances of shareholders and does not constitute tax advice. Shareholders should seek advice from an appropriate professional advisor on the tax implications of the Scheme based on their own individual circumstances. General information regarding

2. Details of this scheme are set out in paragraphs 20 to 38 of this Ruling.
3. All legislative references in this Ruling are to the *Income Tax Assessment Act 1997*, unless otherwise indicated.

Who this Ruling applies to

4. This Ruling applies to you if you held Tamboran shares and you:
 - were registered on the Tamboran share register as the holder of Tamboran shares on 11 December 2023 (Record Date)
 - held your Tamboran shares on capital account – that is, you did not hold your Tamboran shares as ‘revenue assets’, as defined in section 977-50, or as ‘trading stock’, as defined in subsection 995-1(1), on the Record Date
 - were either a
 - ‘resident of Australia’ as defined in subsection 6(1) of the *Income Tax Assessment Act 1936* (ITAA 1936) on the Implementation Date, or

5. This Ruling does not apply to anyone who is subject to the taxation of financial arrangements rules in Division 230 in relation to the scheme outlined in paragraphs 20 to 38 of this Ruling.

Note: Division 230 will not apply to individuals unless they have made an election for it to apply.

When this Ruling applies

6. This Ruling applies from 1 July 2023 to 30 June 2024.

Ruling

CGT event A1 happened on the disposal of your Tamboran shares

7. CGT event A1 happened when you disposed of each of your Tamboran shares to Tamboran US HoldCo under the scheme (subsection 104-10(1)).

8. CGT event A1 happened on the Implementation Date, being 13 December 2023 (paragraph 104-10(3)(b)).

9. The capital proceeds in respect of CGT event A1 happening are the market value of the Tamboran US HoldCo CDIs you received as consideration for each Tamboran share you disposed of (subsection 116-20(1)). The market value of the Tamboran US HoldCo CDI received is worked out at the time of CGT event A1, being 13 December 2023 (paragraph 116-20(1)(b)).

10. You made a capital gain from CGT event A1 happening if the capital proceeds from the disposal of your Tamboran Shares were more than the cost base of that share (subsection 104-10(4)). The capital gain is the difference.

11. You made a capital loss from CGT event A1 happening if the capital proceeds from the disposal of your Tamboran Shares were less than the reduced cost base of that share (subsection 104-10(4)). The capital loss is the difference.

Availability of scrip for scrip roll-over

12. If you were a ‘resident of Australia’, as defined in subsection 6(1) of the ITAA 1936, you can choose to obtain scrip for scrip roll-over to disregard a capital gain on the disposal of your Tamboran shares to Tamboran US HoldCo (sections 124-780 and 124-785).

13. If you were a ‘foreign resident’, as defined in subsection 995-1(1), just before the Implementation Date and your Tamboran shares were ‘taxable Australian property’, as defined in section 855-15, you can choose to obtain scrip for scrip roll-over to disregard a capital gain on the disposal of your Tamboran shares to Tamboran US HoldCo (sections 124-780 and 124-785) if your Tamboran US HoldCo CDIs were also taxable Australian property just after you acquired them (subsection 124-795(1)).

14. However, you cannot choose scrip for scrip roll-over if any capital gain you might make from the replacement Tamboran US HoldCo CDI would be disregarded, otherwise than because of a roll-over (paragraph 124-795(2)(a)).

Status: **legally binding**

If you choose scrip for scrip roll-over

15. If you choose to obtain scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement Tamboran US HoldCo CDI (received in exchange for your original Tamboran share) is worked out by reasonably attributing the cost base and reduced cost base (respectively) of your original Tamboran share which was exchanged and for which the roll-over was obtained (subsections 124-785(2) and (4)). In this case, as one Tamboran share is exchanged for one Tamboran US HoldCo CDI, the cost base (and reduced cost base) of each Tamboran US HoldCo CDI will equal the cost base (and reduced cost base) of the Tamboran share for which it was exchanged.

16. The acquisition date of the Tamboran US HoldCo CDIs, for the purposes of making a 'discount capital gain' under Subdivision 115-A, is the date when you acquired your corresponding Tamboran shares for which you have chosen scrip for scrip roll-over (table item 2 of subsection 115-30(1)).

If you do not choose or cannot choose scrip for scrip roll-over

17. If you do not choose or cannot choose to obtain scrip for scrip roll-over, you must account for any capital gain or capital loss from CGT event A1 happening on the disposal of your Tamboran shares in working out your net capital gain or net capital loss for the income year in which CGT event A1 happened (sections 102-5 and 102-10).

18. Where scrip for scrip roll-over is not chosen, the first element of the cost base and reduced cost base of each Tamboran US HoldCo CDI is equal to the market value of the Tamboran share you gave for the acquisition of each Tamboran US HoldCo CDI on the Implementation Date (subsections 110-25(2) and 110-55(2)).

19. If you make a capital gain where scrip for scrip roll-over is not chosen, or cannot be chosen, you can treat the capital gain as a discount capital gain provided that the conditions of Subdivision 115-A are met. The Tamboran shares must have been acquired or taken to have been acquired by you at least 12 months before the Implementation Date (section 115-25).

Scheme

20. The following description of the scheme is based on information provided by the applicant. If the scheme is not carried out as described, this Ruling cannot be relied upon.

Tamboran Resources Limited

21. Tamboran is a company incorporated in Australia on 9 February 2009, listed on the Australian Securities Exchange. Tamboran and its subsidiaries (Tamboran Group) conduct exploration and mining operations principally in the Northern Territory.

- Tamboran had 1,716,672,600 ordinary shares on issue.
- Tamboran had 2,341 shareholders.
- No single shareholder either individually, or together with their associates, held more than 20% of the shares in Tamboran.

Status: **legally binding**

26. The Scheme of Arrangement to re-domicile to the US was approved by the Federal Court of Australia on 6 December 2023.

Ineligible Foreign Shareholders were Tamboran shareholders who had an address shown on the Tamboran share register on the Record Date as a place outside Australia, Canada, Republic of Cyprus, Hong Kong, India, Italy, Luxembourg, Malaysia, New Zealand, Singapore, United Kingdom and US and other jurisdictions that Tamboran otherwise determined (in its absolute discretion).

29. Ineligible Foreign Shareholders had their Tamboran US HoldCo CDIs to which they were entitled sold by Tamboran US HoldCo through a sale agent who then remitted the cash proceeds to the Ineligible Foreign Shareholders.

34. Each Tamboran share and each Tamboran US HoldCo CDI satisfies the principal asset test in section 855-30.

Status: **legally binding**

37. All Tamboran Options at the Record Date continued on the same terms, except that on and from the Implementation Date, the entitlements of option holders to be issued Tamboran shares became entitlements to be issued Tamboran US HoldCo CDIs.

38. Tamboran US HoldCo did not make a choice under subsection 124-795(4) for scrip for scrip roll-over to not apply
