

## Appendix 4C & Quarterly Activities Report for the period ended 30 June 2024

**Urbanise.com Limited (ASX: UBN)** ("Urbanise" or "the Company") today provides a business update and cash flow report for the quarter ended 30 June 2024 (**Appendix 4C**).

Urbanise is a leading provider of cloud-based Software-as-a-Service (**SaaS**) platforms to strata and facilities managers in Australasia, the Middle East, Europe and South Africa.

### Highlights

- FY2024 wins totalled \$1,044k in ARR (licence fees) and \$635k in professional fees with 50 new contract wins. New wins secured across both platforms in key target markets of APAC and MENA.
- FY2024 licence revenue increased by 5.1% to \$11.7m<sup>1</sup> compared to the prior corresponding period (pcp) driven by new contract wins and implementations.
- Q4 FY2024 wins totalled \$237k in ARR and \$159k in professional fees with 17 new contract wins, primarily comprising Australian strata managers, aged care and FM service providers.
- Q4 FY2024 licence revenue increased by 10.2% to \$3.0m compared to pcp. Q4 FY2024 professional fees of \$207k were \$120k lower than pcp due to significant customer-specific development in the prior year.
- Q4 FY2024 average monthly cash used was \$267k due to \$1.2m in late payments from three Middle East customers. These customers have committed to pay over the next three months with \$812k paid in July 2024.
- Closing cash balance of \$1.9m<sup>1</sup> (30 June 2023: \$4.2m) and no material debt.<sup>2</sup>
- As a subsequent event, Urbanise disclosed on 24 July 2024, a contract termination dispute with Colliers Australia and a claim by Urbanise for over \$3.0m in unpaid development costs and fees<sup>3</sup>. The potential impact to run-rate ARR is circa \$500k. The Company is seeking to resolve the dispute at the earliest opportunity.
- Urbanise will release its FY2024 results including closing ARR, backlog and EBTIDA in late August 2024.

**Urbanise's CEO Simon Lee said:** "During Q4 FY2024, Urbanise continued to progress new contract wins and build its sales pipeline. FY2024 ARR wins of \$1,044k reflect improvements in sales approach across our key markets. We are confident that our win run-rate will improve as we implement learnings relating to customer buying needs and Urbanise's competitive value proposition. We believe the Urbanise Strata Management solution holds a commanding lead over its competitors in the market. As we continue to focus on building our sales capability we believe this will materialise in increasing wins rates and momentum. Our engagement with strata and FM industry forums, such as the SCA<sup>4</sup> have been key to improving our sales networks.

"Urbanise's platforms and services have improved this year with the release of new features and modules including predictive analytics and the provision of more pricing options to customers which result in quantifiable

cost savings, operating efficiencies and increased automation. Strata Managers must find profitability gains through technology<sup>5</sup> and Urbanise is well placed to compete against older on-premise systems.

“Urbanise Strata’s value proposition has been enhanced by the addition of our service provider integration capability outlined in Q3 FY2024<sup>6</sup>. The integration solution allows strata managers to connect to service providers where they can take advantage of service cost savings. Urbanise’s commercial model is targeted to take a share of these savings.

“During Q4 FY2024 Urbanise progressed discussions with several service provider partnerships, resulting in one partnership to connect strata managers to debt collection services<sup>7</sup>. This is a small revenue opportunity but proves out the commercialisation of the new product. Our objective over the next two quarters is to focus on key partnerships in the banking sector to improve how strata managers efficiently manage vast numbers of strata scheme bank accounts. We estimated the total market value relating to this opportunity is \$30m to \$54m per annum. We aim to introduce benefits from this sector to our existing strata customers first and then to new prospects.

“As a subsequent event to the quarter, the Company announced entering into a dispute resolution process with Colliers Australia on the contract for the implementation and development of facilities management software. “Whilst we are disappointed that Colliers Australia has chosen not to pursue the contract’s intention to develop their bespoke solution with us, the Urbanise FM platform has a dedicated user base across multiple sectors. Our strata and FM platforms service large customers in APAC and the Middle East including long term customers such as PICA, Knight FM and ADNOC and we continue to invest in customer satisfaction and retention strategies, utilising user feedback surveys and key account management relationships.

“At 30 June, we had \$1.2m in late receipts due to significant delays in payments from three Middle East customers. Two of these customers experienced disruption to their payment processes due to consolidation into one business. These customers have committed to clear outstanding debts over the next three months with July receipts reflecting these commitments.

“The immediate objective for Urbanise is to reach cash flow positive in FY2025, through driving ARR wins.”

### Revenue movements

- Urbanise Strata achieved net growth in licence fees through new wins that offset H1 FY2024 reported churn and the temporary reduction in licence fees from a large APAC strata customer<sup>8</sup>. Q4 FY2024 ARR wins are in backlog.

<sup>7</sup> LevyCollect integration allows strata managers to easily issue outstanding levies to legal firms for debt collection. Expected revenues will be less than \$25k per annum but will increase Urbanise’s appeal to new and existing customers

<sup>8</sup> Refer to 4C announcements in Q1 and Q2 FY2024 outlining APAC and MENA customer churn and the temporary reduction in licence fees from a large APAC customer. The churn was due to consolidation of these customers into acquiring businesses.

- Urbanise FM licence fee revenue increased for the quarter and full year due to new growth and implementations, including Colliers go-live from April 2023. Q4 FY2024 ARR wins are in backlog.

**Q4 FY2024 Contract Wins: \$237k ARR and \$159k Professional Fees**

- Urbanise Strata converted wins totalling \$92k in ARR and \$28k in professional fees consisting mainly of small to medium APAC strata customers; and
- Urbanise FM converted \$145k of ARR and \$131k of professional fees comprised of FM service providers and aged care customers.

**For 12 months to 30 June 2024 Contract Wins: \$1,044k of ARR and \$635k Professional Fees:**

- Urbanise Strata converted wins totalling \$367k in ARR and \$242k in professional fees consisting mainly of small to medium Australian strata customers; and
- Urbanise FM converted \$677k of ARR from commercial real estate \$113k, aged care customers \$173k and FM service providers \$391k and \$393k of professional fees.

**Contract dispute with Colliers Australia**

On 24 July 2024, Urbanise announced a contractual dispute with Colliers Australia regarding claims for outstanding fees and costs associated with the development of their FM bespoke platform<sup>9</sup>. Colliers Australia claims for early termination of the contract are disputed by Urbanise. The 4-year agreement effective from September 2021, had an initial value of \$680k in ARR and the scope was to deliver significant development based on Colliers Australia's bespoke specifications. Urbanise believes there is a strong legal basis for the claim, however the outcome of any resolution is uncertain. The dispute does not affect Urbanise's contract with Colliers New Zealand which will continue.

**Pipeline**

The current pipeline includes targeted wins ranging from small to material value contracts across APAC and MENA:

- small strata managers, including start-ups;
- medium strata managers currently using older on-premise software solutions;
- Australian FM service providers and global brand FM service providers;
- commercial estate managers for office and retail;
- Australian aged care and utilities providers; and
- broader Middle East property managers, where there is a growing volume of building assets in the Kingdom of Saudi Arabia and adoption of strata practices across Oman and Bahrain.

The new Urbanise Strata solution connecting strata managers with service providers, positions Urbanise to increase its strata pipeline. The pipeline for the new solution is initially focused on existing customers, leveraging Urbanise's strata footprint in the Australian market.

Urbanise does not disclose the value of the total qualified pipeline, however the Company has previously advised it is a multiple of the amount required for Urbanise to reach sustainable cash flow breakeven.

**Cashflow**

The Board have reviewed the impact of the dispute with Colliers Australia and believes the Company has sufficient cash runway to achieve cash flow breakeven in FY2025 without the inclusion of fees from the Colliers Australia contract. This will be achieved from sales conversions to date, future sales and the prudent management of costs and working capital.

<sup>9</sup> Refer to ASX announcement on 24 July 2024

As of 30 June 2024, the cash balance was \$1.9m, impacted by late receipts of \$1.2m and total debtors of \$3.9m<sup>10</sup>. Payment process disruptions from the consolidation of two key customers have been resolved. These customers have committed to pay over the next three months with \$812k paid in July 2024.

Urbanise Strata achieved net growth in licence fees through new wins that offset H1 FY2024 reported churn and the temporary reduction in licence fees from a large APAC strata customer<sup>11</sup>. Q4 FY2024 ARR wins are in backlog.

Professional fees were lower pcp due to significant development fees for a major MENA customer in that period.

### Strata 5-year licence fee growth (\$000s) – CAGR 9.4%

## Facilities Management

### Facilities Management Summary (Unaudited financial information)

<sup>10</sup> Unaudited information

<sup>11</sup> Refer to 4C announcements in Q1 and Q2 FY2024 outlining APAC and MENA customer churn and the temporary reduction in licence fees from a large APAC customer. The churn was due to consolidation of these customers by acquiring businesses. As announced in Q3 FY2023 Urbanise has reached agreement with a large APAC strata customer on the resolution of fees and cost reductions to support the contract. Revenue increases of \$200k ARR and cost reductions of \$314k per annum have been implemented.

<b>Total revenue</b>	<b>1,370</b>	<b>1,073</b>	<b>298</b>	<b>4,954</b>	<b>4,572</b>	<b>382</b>

-----------------------------	--------------	--------------	--	--------------	--------------	--

FM licence fee revenue increased for the quarter and full year due to new growth and implementations, including Colliers go-live from April 2023.

Professional fees for the quarter were \$163k, an increase of \$37k vs pcq. This increase is due to the completion of new contract implementations and change requests from existing customers. FY2024 professional fees were higher vs pcq due to the implementation of large FM service providers.

#### FM 5-year licence fee growth (\$'000s) – CAGR 7.4%

#### Cashflow Summary

As of 30 June 2024, Urbanise's cash balance closed at \$1.9m. Q4 FY2024 average monthly cash used was \$267k and the underlying average monthly cash generated was \$11k, adjusting for the impact of late receipts.

Urbanise implemented cashflow improvements of \$2.4m, as announced on 5 October 2023, which are on track to be realised in full by September 2024.

At 30 June 2024, the cash balance closed at \$1.9m<sup>11</sup> impacted by \$1.2m of late receipts and total debtors were \$3.9m<sup>12</sup>. In July 2024, Urbanise collected \$812k of outstanding debt. Payment process disruptions caused by the consolidation of two key customers, who paused payments, have been resolved. Their management has assured that these debts will be settled within the next three months.
