Corporate

In conjunction with majority shareholder Rich Mark Development Group and Xingang Resources (HK) Limited the Company continues to assess investment opportunities and projects for acquisition or development.

Magnetite Range Project (Accent Resources NL 100%)

The Company's wholly owned Magnetite Range Project is located 350 km north of Perth and 250 km east of Geraldton in the Mid-West region of Western Australia (Figure 1). The tenements comprising the project straddle the boundary between Perenjori and Yalgoo shires.

The project contains a magnetite mineral resource of 523.3Mt grading 31.3% Fe (JORC2012).

An 18-hole geometallurgical diamond core drilling programme was completed during the April to June quarter. A total of 2,299.2m was drilled, comprising 237.5m of tricone rock rollered precollars and 2,061.7m of PQ3 diameter diamond core (Table 1). All holes were designed as twins of historical exploration drilling and planned to intersect representative sections of the geology and mineral resource. A drillhole location plan is included as Figure 2.

All holes have been geologically logged and photographed on site and are being transported to a laboratory in Perth to undergo a suite of metallurgical test work.

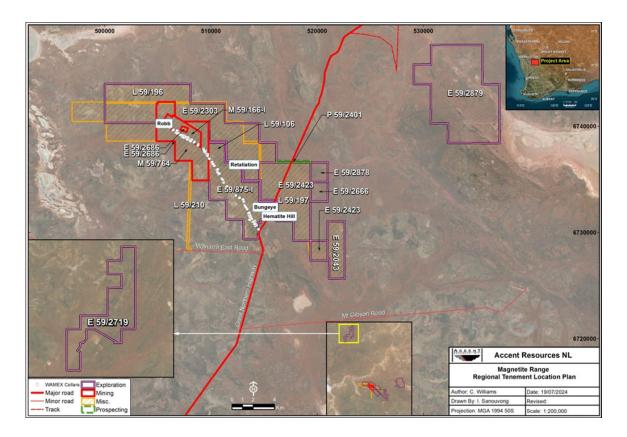

Figure 1: Magnetite Range Project location plan.

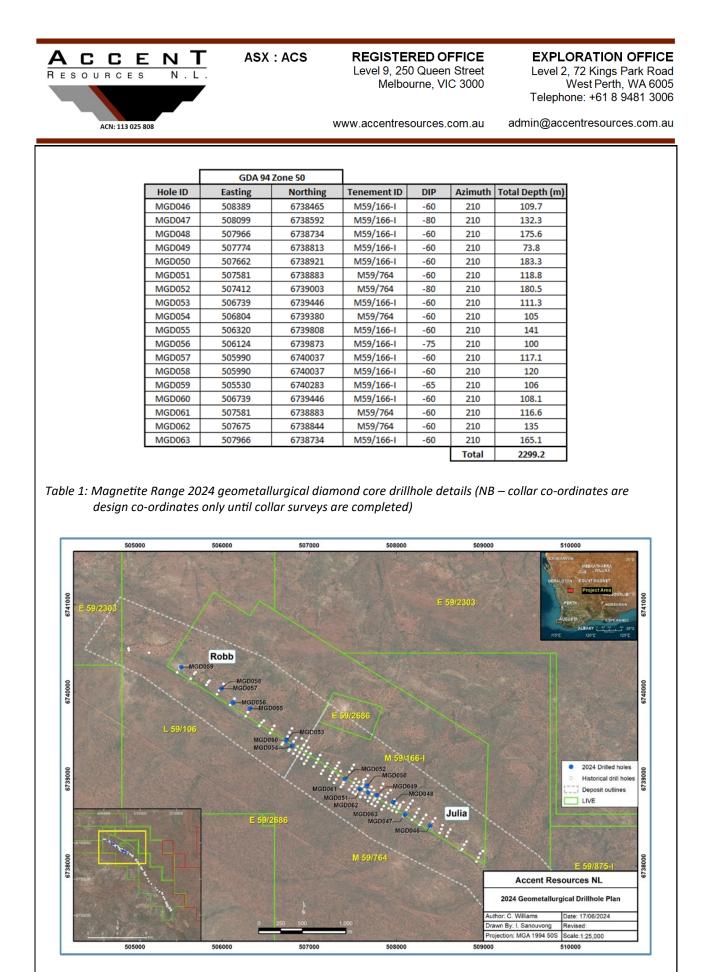

Figure 2: Magnetite Range Project Diamond Drill hole location plan.

Norseman Gold Project (Accent Resources NL 100%)

The Norseman Gold Project occurs within a strongly mineralised portion of the southern Norseman-Wiluna greenstone belt and is located 5km south of the Norseman town site.

A JORC 2004 Code Mineral Resource for Iron Duke and Surprise deposits of **1,039,400 tonnes @ 1.8 g/t Au for 59,500 ounces** (99 percentile upper cut, 1.0 g/t Au lower cut off) was announced to the ASX on 26 November 2012. Over 70-80% of the resource is shallow, within 50m of surface.

An Aboriginal Ethnographic and Anthropological survey of tenements P63/2200 and P63/2154 and preliminary review of DPLH Place ID 2920 Munguni over the company's Norseman Gold Project including M63/657, M63/229, P63/1997, P63/2052, P63/2200 and P63/2153 was conducted during August 2023. The aim of the investigation was to ascertain the impact of proposed exploration work and identify and consider any potential impacts to any archaeological and ethnographic sites located on tenements P63/2200 and P63/2154 identified on the survey.

Investigations found P63/2200 and P63/2154 do not contain any known Aboriginal Cultural Heritage (ACH). DPLH Site ID 2920 Munguni is a registered site with a footprint overlapping the entire Norseman project area. Advice has been sought concerning the management of this site, Accent Resources will need to apply for approval to impact the Place under the relevant Act (ACHA or AHA). Consultation with Ngadju and DBCA is ongoing.

A mining lease application is being prepared to consolidate one mining lease (M63/657) and 4 prospecting licences (P63/1997; P63/2200; P63/2154 and P63/2052) together into one mining lease application. The application with supporting statement will be ready for submission next reporting period.

Financial

Accent Resources held cash at bank of \$9,307,000 (as at 30th June 2024). Exploration expenditure cash outflow for the quarter was \$1,483,000.
