

PENTANET EXECUTES AGREEMENT FOR ENTRY INTO NVIDIA'S GLOBAL GRAPHICS DELIVERY NETWORK

Pentanet Limited (**ASX:5GG, Pentanet or Company**) is today announcing that further to the ASX announcement on 19 March 2024, the Company has completed the execution of a binding addendum to the NVIDIA GeForce NOW™ Alliance (**GFNA**) Partner Agreement (**Agreement**) to accommodate entry into NVIDIA's global Graphics Delivery Network (**GDN**).

Pentanet's recent inclusion in the NVIDIA GDN marks a future potential strategic expansion. Pentanet will be able to extend its reach beyond its existing GeForce NOW cloud gaming operations, exploring new industrial and commercial markets to diversify revenue streams and solidify Pentanet's position within the growing industry supply ecosystem.

The Agreement allows Pentanet to add the GDN service to the existing GFNA service and receive a revenue share based on global GDN pricing set by NVIDIA. This advances the Company's strategy with its NVIDIA investment, introducing potential additional revenue opportunities and the optimisation of infrastructure. Commercial and enterprise opportunities can be surfaced by both Pentanet's direct local sales channels and from NVIDIA globally.

The Board does not expect to generate any material revenue from GDN in the next 12 months and will continue to update the market on any material developments. There are no other material changes to the Agreement with key material terms outlined in the Company's Prospectus dated 27 January 2021.

This announcement has been authorised for release by the Managing Director of Pentanet Limited, Mr Stephen Cornish.

About Pentanet

Pentanet is a Perth-based, growth-focused telco delivering high-speed internet to a growing number of subscribers by providing next-generation internet speeds. This is achieved through Pentanet's market-leading private wireless network, the largest in Perth, as well as reselling fixed-line services such as nbn® and Opticomm.

The Company's flagship wireless network has benefits for both customers and investors, offering an outstanding customer experience and a fixed wireless product that is technically superior to most of the nbn with attractive margins for investors. This sets Pentanet apart from most broadband providers, which typically only resell the nbn.

Pentanet is also part of the rollout of the next wave of subscription-based entertainment services – cloud gaming. The Company's Alliance Partner Agreement with NVIDIA allowed Pentanet to be the first to bring their GeForce NOW technology to Australia in 2021. Since launch, the platform has amassed over 589,000 users.

Pentanet invites existing and prospective shareholders to join the conversation within the Company's interactive Investor Hub at investorhub.pentanet.com.au/
