

13 September 2024

ASX:14D

SPP EXTENDED TO 20 SEPTEMBER 2024

1414 Degrees Ltd (ASX: 14D) ("1414 Degrees" the "Company") is pleased to advise that the Share Purchase Plan (SPP) is near target and will be extended for an additional week to now close on Friday, 20 September 2024.

Under the SPP, eligible shareholders are invited to subscribe for up to \$30,000 of new fully paid ordinary shares in the Company (**Shares**) at an issue price of \$0.06 (6 cents) per new Share, free of all brokerage and commissions.

Full details of the offer are contained in an offer booklet which was made available to shareholders and released on the ASX on Friday, 23 August 2024.

Eligible shareholders are able to view the documents and apply online by visiting www.computersharecas.com.au/14dspp.

Your continued support and participation remains vital to your Company's future.

Revised Key Dates

ABOUT 1414 DEGREES LIMITED

1414 Degrees is a leader in industrial decarbonisation with its cutting-edge silicon-based solutions, enabling the alignment of energy supply with demand, fostering the widespread adoption of renewable energy. Our key technologies include:

SiBrick®: thermal energy storage technology safely and efficiently stores renewable electricity as latent heat, available for use on demand.

SiBox®: facilitates the transition to sustainable industrial processes, SiBox delivers consistent, high-temperature heat. It can be seamlessly retrofitted into heavy industry processes, offering a viable alternative to conventional energy sources.

SiPHyR™: methane pyrolysis reactor with integrated storage. SiPHyR will produce low-emission hydrogen and solid carbon using renewable energy sources.

1414 Degrees has showcased its capabilities through successful pilot projects that highlight the reliability and effectiveness of its solutions. SiBox has proven its ability to deliver high-temperature air or steam on demand from stored heat. The development of SiPHyR underscores our commitment to innovation and sustainability.

In 2019 the Company made the strategic purchase of the Aurora Energy Project (AEP) located near Port Augusta, South Australia. The project is a long-term renewable energy initiative to deliver reliable electricity to the region and National Electricity Market. The AEP has approval for 14D to pilot and demonstrate a large commercial scale version of the SiBox technology.
