Final Terms Sheet Green Capital Bonds

26 September 2024

Final Terms Sheet

26 September 2024

This final terms sheet (**Terms Sheet**) sets out the key terms of an issue by Contact Energy Limited (**Contact** or **Issuer**) of NZ\$250 million of unsecured, subordinated, redeemable, cumulative, interest bearing green capital bonds maturing on 3 October 2054 (**Capital Bonds**) under its Amended and Restated Master Trust Deed dated 21 August 2015 (as further amended from time to time) as modified and supplemented by the Supplemental Trust Deed dated 20 September 2023 entered into between Contact and The New Zealand Guardian Trust Company Limited (**Supervisor**) (together, **Trust Documents**). Unless the context otherwise requires, capitalised terms used in this Terms Sheet have the same meaning given to them in the Trust Documents.

Important notice

The offer of debt securities by Contact is made in reliance upon the exclusion in clause 19 of schedule 1 of the Financial Markets Conduct Act 2013 (**FMCA**).

The offer (**Offer**) contained in this Terms Sheet is an offer of debt securities that have identical rights, privileges, limitations and conditions (except for the interest rate and maturity date) as Contact's NZ\$225 million unsecured, subordinated, redeemable, cumulative, interest bearing green capital bonds with an interest rate of 4.33% per annum and a final maturity of 19 November 2051, which are currently quoted on the NZX Debt Market under the ticker code CEN060 (**CEN060 Bonds**).

Accordingly, the Capital Bonds are the same class as the CEN060 Bonds for the purposes of the FMCA and the Financial Markets Conduct Regulations 2014 (**FMC Regulations**).

Contact is subject to a disclosure obligation that requires it to notify certain material information to NZX Limited (**NZX**) for the purpose of that information being made available to participants in the market and that information can be found by visiting www.nzx.com/companies/CEN.

The CEN060 Bonds are the only debt securities of Contact that are in the same class as the Capital Bonds and are currently quoted on the NZX Debt Market.

Investors should look to the market price of the CEN060 Bonds referred to above to find out how the market assesses the returns and risk premium for those bonds. When comparing yield of different debt securities, it is important to consider all relevant factors (including rating (if any), maturity and other terms of the relevant debt securities).

Investors should carefully consider the features of the Capital Bonds which differ from the features of a standard senior bond. Those features include the ability of Contact to defer interest, optional redemption rights for Contact, a margin step-up and the subordinated nature of the Capital Bonds. Investors should read this Terms Sheet carefully (including the risks discussed on page 10) and seek financial advice before deciding to invest in the Capital Bonds.

Issuer	Contact Energy Limited (Contact).		
Description of Capital Bonds	<p>The Capital Bonds are unsecured, subordinated, redeemable, cumulative, interest bearing debt securities of Contact ranking equally and without preference among themselves and equally with all other outstanding unsecured and subordinated indebtedness of Contact, except indebtedness preferred by law.</p> <p>The Capital Bonds are Green Debt Instruments under Contact's Sustainable Finance Framework and are certified by the Climate Bonds Initiative (CBI) based on the Climate Bonds Standard. A copy of the Sustainable Finance Framework is available on Contact's website:</p> <p>www.contact.co.nz/aboutus/sustainability/financial-sustainability</p>		
Ranking	<p>The Capital Bonds will be unsecured and will rank equally among themselves and will be subordinated to all other indebtedness of Contact, other than indebtedness expressed to rank equally with, or subordinate to, the Capital Bonds. The Capital Bonds will rank equally with the CEN060 Bonds. See "Ranking on liquidation" on page 6.</p>		
Purpose	<p>The proceeds from the issue of the Capital Bonds will be used by Contact for the financing and refinancing of renewable generation and other eligible green assets (Green Assets) in accordance with the terms of the Sustainable Finance Framework.</p>		
No guarantee	<p>Contact is the issuer and the sole obligor in respect of the Capital Bonds. No other person guarantees the Capital Bonds.</p>		
Further indebtedness	<p>Contact may incur finance debt from time to time without the consent of holders of Capital Bonds (Bondholders), including finance debt which ranks in priority to the Capital Bonds.</p>		
Equity content	<p>S&P Global Ratings has assigned an "intermediate" equity content to the Capital Bonds. Accordingly, S&P Global Ratings will consider that the Capital Bonds comprise 50% equity when calculating its financial ratios for Contact.</p> <p>The equity content is expected to fall to minimal (0%) on 3 October 2034.</p>		
Capital structure	<p>Contact believes that hybrid securities such as the Capital Bonds that are ascribed equity content are an effective capital management tool and intends to maintain such instruments as a key feature of its capital structure going forward.</p>		
Credit ratings	<p>S&P Global Ratings</p>	<p>Issuer credit rating</p> <p>BBB (stable outlook)</p>	<p>Issue credit rating</p> <p>BB+</p> <p>The issue credit rating of the Capital Bonds is two notches below Contact's issuer credit rating of BBB (and Contact's stand-alone credit profile of 'bbb'). One notch is deducted for the Capital Bonds being subordinated and a second notch is deducted because of the potential for interest payments to be deferred.</p> <p>A credit rating is an independent opinion of the capability and willingness of an entity to repay its debts (in other words, its creditworthiness). It is not a guarantee that the financial product being offered is a safe investment. A credit rating should be considered alongside all other relevant information making an investment decision.</p> <p>A credit rating is not a recommendation by any rating organisation to buy, sell or hold Capital Bonds. Contact's credit rating and the credit rating assigned to the Capital Bonds provided above are current as at the date of this Terms Sheet and any rating may be subject to suspension, revision or withdrawal at any time by the S&P Global Ratings.</p>

Step-up Percentage	0.25%.

Discretionary deferral of interest

Contact may defer payment of interest on the Capital Bonds at any time for up to five years at its sole discretion by notifying Bondholders. Where an interest payment has not been paid on its due date, notice of its deferral shall be deemed to have been given.

If Contact defers the payment of interest, the interest payable will itself accrue interest (compounding on each Interest Payment Date) at the prevailing Interest Rate (in aggregate, the Unpaid Interest) until the Interest Payment Date on which all Unpaid Interest is paid.

Unpaid interest is cumulative.

See “Deferral of interest payments” under the “Risks” section on page 10.

Distribution Stopper

Whilst there is any Unpaid Interest outstanding Contact shall not:

- (i) make any dividends, distributions or payments of interest on any shares or securities ranking after the Capital Bonds; or
- (ii) acquire, redeem or repay any share or other security ranking after the Capital Bonds (or provide financial assistance for the acquisition of such shares or securities),

in each case, without obtaining a Bondholder Special Resolution; or

- (iii) make any dividends, distributions or payments of interest on any other securities ranking pari passu with the Capital Bonds; or
- (iv) acquire, redeem or repay any other security ranking pari passu with the Capital Bonds (or provide financial assistance for the acquisition of such securities),

in each case, other than on a pro-rata basis,

(together, the **Distribution Stopper**).

Election Process

No earlier than six months and not later than 30 Business Days before any Reset Date, Contact may give to each Bondholder a notice (**Election Notice**) specifying new terms and conditions (**New Conditions**) (including for example a new Margin) proposed to apply from the next Reset Date. Bondholders may elect to accept or reject the New Conditions in respect of some or all of their Capital Bonds. Bondholders who do not respond will be deemed to have accepted the New Conditions.

If Contact declares a Successful Election Process then it is obliged to Repurchase any Capital Bonds held by a Bondholder who has rejected the New Conditions for the Repurchase Amount. Contact may choose to establish a resale facility to seek buyers for those Capital Bonds.

If Contact does not wish to Repurchase all Capital Bonds from those Bondholders that have rejected the New Conditions then Contact must declare that the Election Process has failed, in which case the existing terms and conditions will continue to apply and all Capital Bonds will remain outstanding.

Optional early Redemption by Contact

Contact may, by giving Bondholders prior written notice, Redeem some or all of the Capital Bonds on:

- (i) any Reset Date; or
- (ii) any Interest Payment Date after a Reset Date if a Successful Election Process has not been undertaken in respect of that Reset Date,

provided that after any partial Redemption, there will still be at least 100,000,000 Capital Bonds outstanding. Any partial Redemption will be done on a proportionate basis and may include adjustments to take account of the effect on marketable parcels and other logistical considerations.

Contact may Redeem all (but not some only) of the Capital Bonds if:

- (iii) there are less than 100,000,000 Capital Bonds on issue;
- (iv) a Tax Event (as defined below) occurs; or
- (v) a Rating Agency Event (as defined below) occurs.

If the Redemption occurs pursuant to paragraph (i), (iii) or (iv), the amount payable will be the aggregate of the Principal Amount of the Capital Bonds plus

any Unpaid Interest plus any interest scheduled to be paid on the date of Redemption (**Redemption Amount**).

If the Redemption occurs pursuant to paragraph (ii) or (v), the amount payable will be the greater of:

- (i) the Redemption Amount; and
- (ii) the market price of the Capital Bonds (determined in accordance with the Trust Documents), which will include accrued interest at the relevant time.

Tax Event

A Tax Event will occur if Contact (having taken appropriate legal or tax advice) determines that there has been, or there will be, a change in New Zealand law applying after the Issue Date, as a result of which any interest payable on the Capital Bonds is not, or will not be, fully deductible for income tax purposes.

Rating Agency Event

A Rating Agency Event means:

- (i) the receipt by Contact of notice from S&P Global Ratings that, as a result of a change of criteria, the Capital Bonds will no longer have the same equity content classification from S&P Global Ratings as it had immediately prior to the change in criteria; or
- (ii) Contact ceasing to hold a credit rating.

Events of Default

The Events of Default are contained in the Supplemental Trust Deed for the Offer. They include:

- (i) a failure by Contact to make a payment, including of principal or interest (to the extent payment of interest has not been, or is not capable of being deferred) due in respect of the Capital Bonds), including on Redemption when due (subject to applicable grace periods);
- (ii) a failure by Contact to comply with the Distribution Stopper (when it is applicable); or
- (iii) an insolvency event of Contact occurs.

This summary does not cover all of the Events of Default. For full details of the Events of Default see the corresponding definition in clause 1.2 of the Supplemental Trust Deed.

No Event of Default

Failure by Contact to:

- (i) allocate the proceeds of the Capital Bonds as described in the Sustainable Finance Framework;
- (ii) meet the Climate Bonds Standard, Green Bond Principles or the Sustainable Finance Framework in respect of the Capital Bonds;
- (iii) maintain CBI certification of the Capital Bonds or other Green Debt Instruments;
- (iv) comply with any environmental laws and standards in respect of the Green Assets or otherwise;
- (v) receive further assurance from CBI;
- (vi) comply with the Sustainable Finance Framework (including updating its website in respect of the Capital Bonds);
- (vii) notify Bondholders that the Capital Bonds cease to comply with the Sustainable Finance Framework, the Green Bond Principles or Climate Bonds Standard; or
- (viii) in any other way ensure that the Capital Bonds retain their green attributes,

is not an Event of Default or other default or breach of any obligation under the Trust Documents and does not have the result of requiring, or permitting Bondholders or Contact to require, the Capital Bonds to be repaid early.

Contact may, depending on the exact circumstances, provide the market with an update in relation to the ongoing status of the Capital Bonds as green capital bonds.

Ranking on liquidation

On a liquidation of Contact amounts owing to Bondholders rank equally with all other unsecured, subordinated obligations of Contact. The Capital Bonds rank behind Contact's bank debt, senior bonds (including senior green bonds), US private placement notes, commercial paper and any amounts owing to unsubordinated general and trade creditors, as well as indebtedness preferred by law and secured indebtedness. The ranking of the Capital Bonds on a liquidation of Contact is summarised in the diagram below.

	Ranking on liquidation	Type of liability/equity	Indicative amount ¹
Higher ranking / earlier priority   Lower ranking / later priority	Liabilities that rank above the Capital Bonds	Liabilities preferred by law (for example, Inland Revenue for certain unpaid taxes), unsubordinated creditors (including banks and financial institutions that have lent money to Contact, holders of Contact's senior bonds (including senior green bonds), holders of Contact's US private placement notes, commercial paper and unsubordinated trade and general creditors)	NZ\$3,364 million ²
	Liabilities that rank equally with the Capital Bonds	The Capital Bonds The CEN060 Bonds and any other subordinated obligations of Contact	NZ\$250 million NZ\$225 million

The actual amounts of liabilities and equity of Contact at the point of its liquidation will be different to the indicative amounts set out in the diagram above. Amounts above are subject to rounding adjustments.
2. This represents the total liabilities of Contact consolidated group (other than the CEN060 Bonds) as at 30 June 2024. As a Bondholder, you may only transfer Capital Bonds if the transfer is in respect of Capital Bonds having an aggregate Principal Amount that is an integral

multiple of NZ\$1,000. However, Contact will not register any transfer of Capital Bonds if the transfer would result in the transferor or the transferee holding or continuing to hold Capital Bonds with an aggregate Principal Amount of less than NZ\$5,000, unless the transferor would then hold no Capital Bonds.

Investors should seek qualified, independent financial and taxation advice before deciding to invest. Investors will be personally responsible for all tax return filing obligations in respect of their investment in the Capital Bonds, compliance with the financial arrangements rules (if applicable) and payment of provisional or terminal tax (if required) on interest derived.

For further information regarding Contact, visit www.nzx.com/companies/CEN.

RISKS

An investment in the Capital Bonds is subject to the risks that:

- (i) Contact becomes insolvent and is unable to meet its obligations under the Capital Bonds; and/or
- (ii) if the investor wishes to sell the Capital Bonds before maturity, the investor is unable to find a buyer or that the amount received is less than the principal amount paid for the Capital Bonds.

Investors should carefully consider the features of the Capital Bonds which differ from the features of a standard senior bond. Those features include the ability of Contact to defer interest, optional early redemption rights for Contact, a margin step-up, an election process and the subordinated nature of the Capital Bonds. Key risks concerning those features are set out in detail below.

This summary does not cover all of the risks of investing in the Capital Bonds. For example, whilst certain risks in relation to the Capital Bonds are set out in more detail below, those risks relating to Contact, rather than the Capital Bonds themselves, are not set out below on the basis that information relating to Contact and its operations is already disclosed to the market pursuant to Contact's continuous disclosure obligations under the NZX Listing Rules. Also, the summary below sets out the risks in relation to the Capital Bonds that differ from risks in relation to standard senior bonds. It does not cover the risks that are common to both the Capital Bonds and standard senior bonds (such as risks around liquidity and your ability to sell the Capital Bonds at a given price, or at all).

Investors should carefully consider those risk factors (together with the other information in this Terms Sheet) before deciding to invest in the Capital Bonds.

The statement of risks in this Terms Sheet also does not take account of the personal circumstances, financial position or investment requirements of any investor. It is important, therefore, that before making any investment decision, investors give consideration to the suitability of an investment in the Capital Bonds in light of his or her individual risk profile for investments, investment objectives and personal circumstances (including financial and taxation issues).

The interest rate for the Capital Bonds should also reflect the degree of credit risk. In general, higher returns are demanded by investors from businesses with higher risk of defaulting on their commitments. You need to decide whether the Offer of Capital Bonds is fair.

You should speak to your financial adviser about the risks involved with an investment in the Capital Bonds.

Deferral of interest payments

There is a risk that interest payments on the Capital Bonds will be deferred by Contact for a period of up to five years, as described in the paragraph headed "Discretionary deferral of interest" on page 4.

Contact has a broad discretion to defer the payment of interest on the Capital Bonds, and Bondholders will not have an immediate redemption right in those circumstances.

Redemption prior to the Maturity Date

Although the Capital Bonds have a term of 30 years, Contact may choose to Redeem the Capital Bonds early in certain circumstances.

Contact may elect to Redeem the Capital Bonds in the circumstances outlined in the paragraph headed "Optional early Redemption by Contact" on page 4. While some of those Redemption triggers may appear to be unlikely to occur, recent history suggests that such events can occur, and Contact will have the right to Redeem after five years and on each subsequent Reset Date.

If Contact is entitled to Redeem any of the Capital Bonds, the method and date by which Contact elects or is required to do so may not accord with the preference of individual Bondholders. This may be disadvantageous in light of market conditions or a Bondholder's individual circumstances.

Ranking

The Capital Bonds rank behind all of Contact's unsubordinated obligations. In a liquidation of Contact, the holders of the Capital Bonds would be paid only after all amounts owing by Contact to its bankers, holders of senior bonds (including green senior bonds), holders of US private placement notes, holders of commercial paper and general and trade unsubordinated creditors, have been paid. After payment of those amounts, there may be insufficient funds available to the liquidator to repay all or any of the amounts owing on the Capital Bonds.

Supervisor's enforcement rights

Investors should be aware that even if the right to seek repayment of the Capital Bonds is exercised following the occurrence of an Event of Default, the Supervisor has very limited powers to enforce these rights given the subordinated nature of the Capital Bonds. For example, the Supervisor has no ability to appoint a receiver with a view to recovering amounts owing to Bondholders and is only entitled to file a conditional claim in the event of the liquidation of the Issuer requiring repayment of the Capital Bonds after all prior ranking indebtedness has been repaid in full.

CBI disclaimer

The certification of the Capital Bonds as Climate Bonds by the Climate Bonds Initiative is based solely on the Climate Bonds Standard and does not, and is not intended to, make any representation, warranty, undertaking, express or implied, or give any assurance with respect to any other matter relating to the Capital Bonds, the Sustainable Finance Framework, any other Green Debt Instrument or Green Asset, including but not limited to this Terms Sheet, the Trust Documents, any transaction documents, Contact or the management of Contact.

The certification of the Capital Bonds as Climate Bonds by the Climate Bonds Initiative was addressed solely to the board of directors of Contact and is not a recommendation to any person to purchase, hold or sell the Capital Bonds (or any other Green Debt Instruments in the Sustainable Finance Framework) and such certification does not address the market price or suitability of the Capital Bonds or the Sustainable Finance Framework for a particular investor. Each potential purchaser of the Capital Bonds should determine for itself the relevance of this certification. Any purchase of Capital Bonds should be based upon such investigation that each potential purchaser deems necessary. The certification also does not address the merits of the decision by Contact or any third party to participate in the Capital Bonds, any other Green Debt Instruments or any Green Asset and does not express and should not be deemed to be an expression of an opinion as to Contact or any aspect of the Capital Bonds, any other Green Debt Instruments or any Green Asset (including but not limited to the financial viability of the Capital Bonds, any other Green Debt Instruments or any Green Asset) other than with respect to conformance with the Climate Bonds Standard.

In issuing or monitoring, as applicable, the certification, the Climate Bonds Initiative has assumed and relied upon and will assume and rely upon the fairness, accuracy, reasonableness and completeness in all material respects of the information supplied or otherwise made available to the Climate Bonds Initiative. The Climate Bonds Initiative does not assume or accept any responsibility or liability to any person for independently verifying (and it has not verified) such information or to undertake (and it has not undertaken) any independent evaluation of any Green Debt Instruments, Green Asset or Contact. In addition, the Climate Bonds Initiative does not assume any obligation to conduct (and it has not conducted) any physical inspection of any Green Debt Instruments or Green Asset. The certification may only be used with the Capital Bonds and may not be used for any other purpose without the Climate Bonds Initiative's prior written consent.

The certification does not, and is not in any way intended to, address the likelihood of timely payment of interest when due on the Capital Bonds (or any other Green Debt Instruments in the Sustainable Finance Framework) and/or the payment of principal at maturity or any other date.

The certification may be withdrawn at any time in the Climate Bonds Initiative's sole and absolute discretion and there can be no assurance that such certification will not be withdrawn.

Arranger and Joint Lead Manager important information

None of the Arranger, the Joint Lead Managers nor any of their respective directors, officers, employees and agents: (a) to the extent permitted by law, accept any responsibility or liability whatsoever for this Terms Sheet or any loss arising from this Terms Sheet or its contents or otherwise arising in connection with the offer of Capital Bonds; (b) authorised or caused the issue of, or made any statement in, any part of this Terms Sheet; and (c) make any representation, recommendation or warranty, express or implied regarding the origin, validity, accuracy, adequacy, reasonableness or completeness of, or any errors or omissions in, any information, statement or opinion contained in this Terms Sheet. This Terms Sheet does not constitute financial advice or a recommendation from the Arranger, any Joint Lead Manager or any of their respective directors, officers, employees, agents or advisers to purchase, any Capital Bonds. Each investor must make its own independent investigation and assessment of the financial condition and affairs of the issuer before deciding whether or not to invest in the Capital Bonds.

SCHEDULE - SELLING RESTRICTIONS

The Green Bonds may only be offered for sale or sold in New Zealand in conformity with all applicable laws and regulations in New Zealand.
