## Board and Management Functions

The Board seeks to identify the expectations of shareholders, as well as other regulatory and ethical expectations and obligations. The key purpose of the Board is to act in good faith and represent the best interests of shareholders as a whole in the direction and management of the Company. In addition, the Board is responsible for identifying areas of significant business risk and setting the risk appetite and framework within which management is to operate.

To ensure that the Board is well equipped to discharge its responsibilities, it has established guidelines for the nomination and selection of directors and for the operation of the Board.

The responsibility for the operation and administration of the Company is delegated, by the Board, to the Managing Director and the executive management team. Management is responsible for implementing the strategic objectives of the Company, instilling and reinforcing the Company’s values whilst operating within the values, Code of Conduct, budget and board-approved risk appetite, designing and implementing the risk management framework for the Company, and providing accurate, timely and clear information on the Company’s operations to enable the Board to perform its responsibilities. The Board ensures that the management team is appropriately qualified and experienced to discharge their responsibilities and has in place procedures to assess the performance of the Managing Director and the executive management team.

Whilst at all times the Board retains full responsibility for guiding and monitoring the Company, in discharging its stewardship it makes use of committees. Specialist committees are able to focus on a particular responsibility and provide informed feedback to the Board.

To this end the Board has established the following committees:

- Audit
- Nomination
- Remuneration

The roles and responsibilities of these committees are discussed throughout this Corporate Governance Statement.

The role and responsibilities of the Board and that of management are clearly set out in the Board Charter, which is available on the Company's website.

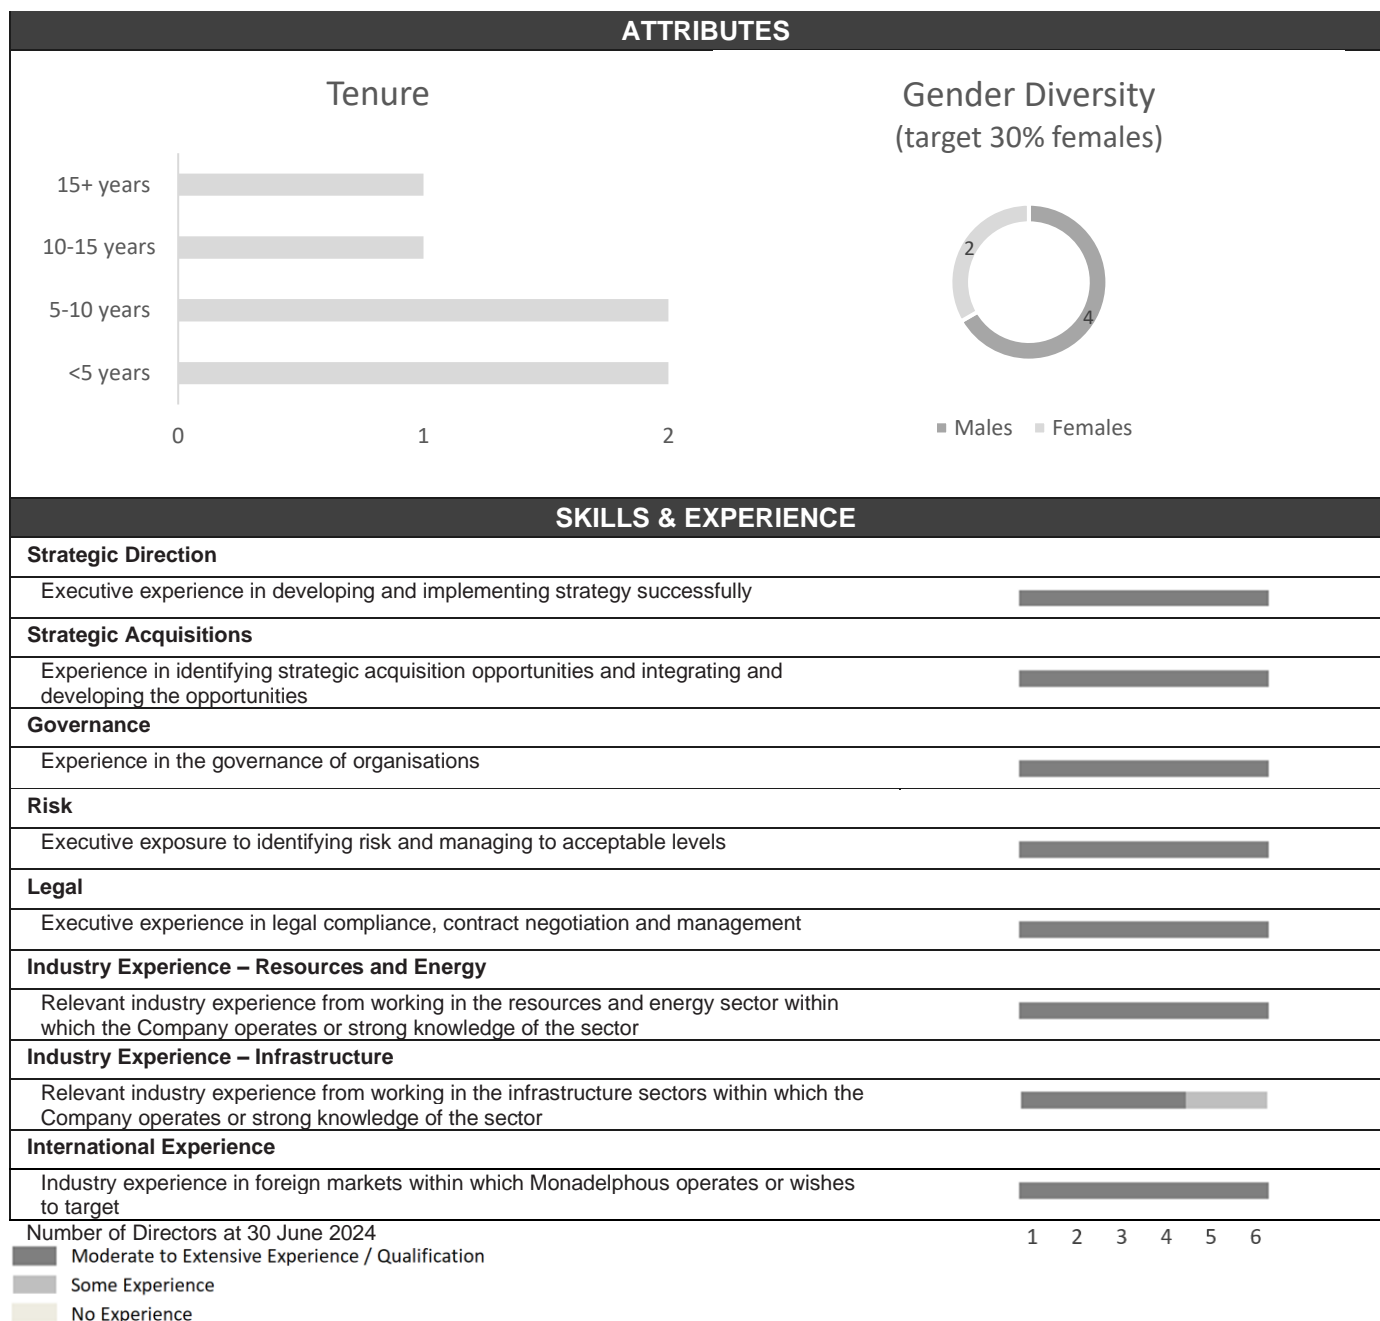

## Structure of the Board

### Board Skills and Experience

The skills, experience and expertise relevant to the position of director held by each director in office at the date of the annual report is included in the Directors' Report in the 2024 Annual Report. The Board considers that collectively it possesses the skills, knowledge and experience to effectively discharge its duties and add value.

The skills and experience required of the Board and its Committees is detailed in the Monadelphous Board Skills Matrix. The objective of the skills matrix is to align the skills and experience on the Board with the Company's strategic objectives. The Nomination Committee assists the Board with the regular review of its skills matrix, taking into consideration the qualifications, skills, competencies, experience, independence and diversity represented on the Board and its Committees, to ensure that it possesses the required skills to achieve its strategic objectives and address existing and emerging business and governance issues. Where gaps are identified, the Nomination Committee is responsible for identifying whether training or development is required, or recommending changes to the Board in relation to its structure, size and operation.

A summary of the key skills and experience required on the Board of Monadelphous, as detailed in the Monadelphous Board Skills Matrix, is as follows. Each director's skills and experience are assessed against these requirements and rated using a scale of no experience, some experience, moderate experience and extensive experience or qualification.

The Nomination Committee has identified a gap in the skills and experience of the directors on the Board in the area of Technology. However, the Nomination Committee is comfortable that the Company has suitably qualified and experienced information and operational technology and cyber security management and subject matter experts, and engages independent expert organisations on a regular basis, to identify, keep abreast of and address key risks in this constantly changing environment.

### Independence

Directors of Monadelphous are considered to be independent when they are not aligned with the interests of management or a substantial shareholder. Independent directors are free of any interest, position or relationship that might influence, or could reasonably be perceived to influence, in a material respect their capacity to bring an independent judgement to bear on issues before the Board and to act in the best interest of the Company as a whole, rather than in the interests of an individual shareholder or other party.

In the context of director independence, 'materiality' is considered from both the Company and individual director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. An item is presumed to be quantitatively immaterial if it is equal to or less than 5 per cent of the appropriate base amount. It is presumed to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 10 per cent of the appropriate base amount.

Qualitative factors considered include whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and any similar factors.

When assessing the independence of a Director, the Board considers the definition of independence and the factors set out in Box 2.3 of the ASX Corporate Governance Principles and Recommendations. In accordance with the definition of independence, and the materiality thresholds set, Ms Murphy, Mr Voss, Ms Gillies and Mr Buratto are all considered to be independent directors, representing the majority of the Board.

The Board believes that while the Chair is not independent, the current composition of the Board with its combined skills and capability, and its mix of experience, best serve the interests of the shareholders. The composition of the Board is reviewed at least annually.

The role of Chair and Chief Executive Officer are not exercised by the same individual. The role of the Chief Executive Officer is exercised by the Managing Director.

There are procedures in place, agreed by the Board, to enable directors, in furtherance of their duties, to seek independent professional advice at the Company's expense.

The term in office held by each director in office at the date of this report is as follows:

R. Velletri	32 years	Chair
Z. Bebic	2 years	Managing Director
S. L. Murphy AO	5 years	Deputy Chair / Lead Independent Non-Executive Director
D. R. Voss	10 years	Independent Non-Executive Director
H. J. Gillies	8 years	Independent Non-Executive Director
E. P. Buratto	3 years	Independent Non-Executive Director

## Nomination Committee

The Board has a Nomination Committee which operates under a charter and meets at least annually. The Nomination Committee is responsible for ensuring that the Board continues to operate within the established guidelines, including when necessary, selecting candidates for the position of director. During the year, the Nomination Committee was comprised of four independent non-executive directors and the Chair of the Board. Members of the Nomination Committee throughout the year were:

R. Velletri (Chair)  
D. R. Voss  
H. J. Gillies  
S. L. Murphy AO  
E. P. Buratto

Whilst the Chair of the Nomination Committee is not independent, the Board believes that Mr Velletri's extensive background, knowledge and experience of the Company and industry in which the Company operates, combined with the mix of qualifications, competencies and experience of the other Nomination Committee members, enable the Nomination Committee to effectively discharge its duties.

The Nomination Committee assists the Board with maintaining the board skills matrix and identifying gaps and professional development opportunities for directors throughout the year. It also assists with the selection of candidates for the position of director. Once a candidate has been identified, background checks are undertaken in accordance with the Monadelphous Director and Senior Executive Recruitment Checklist, including checks as to the person's character, experience, education, criminal record and bankruptcy history. The same process is applied to the recruitment of senior executives. All material information in the Company's possession relevant to a decision on whether or not to elect or re-elect a Director is provided to shareholders, via the Notice of Meeting, market disclosures

and the annual report. Upon appointment, the Director signs a written agreement setting out the terms of their appointment. The Director participates in a director induction process and is provided with information about Monadelphous, its operations, the Board, the Company's governance systems and any other information necessary to enable them to perform their role effectively. The induction also includes meetings with other Directors and executive management, as well as visits to operational locations. The induction is tailored towards the Director's existing skills, knowledge and experience, so may also include additional training associated with director legal duties and responsibilities, and accounting matters.

To ensure existing Directors continue to maintain the skills and knowledge needed to perform their role effectively, professional development opportunities are provided, including participation in Australian Institute of Company Directors courses, project site visits, project reviews, and attendance at a number of courses and workshops offered by a variety of professional services advisors. Additionally, the Board regularly receives briefings on material developments in laws, regulations and accounting standards relevant to the Company.

All directors and senior executives have terms of agreements or employment contracts, as relevant.

For details of directors' attendance at meetings of the Nomination Committee, refer to the Directors' Report in the 2024 Annual Report.

Please refer to the Company's website for the Nomination Committee Charter.

## **Audit Committee**

The Board has delegated responsibility for establishing and maintaining a framework of internal control, risk management and ethical standards to the Audit Committee. The Audit Committee is also responsible for overseeing the integrity of the Company's financial reporting systems, policies and processes.

All members of the Audit Committee are non-executive directors. The members of the Audit Committee during the year were:

The performance criteria against which the Board and executives are assessed are aligned with the financial and non-financial objectives of Monadelphous. The Board and Committees also conducted self-assessments to ensure that their performance accords with best practice. No material governance changes were required as a result of these reviews.

## Remuneration Committee

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and executive team by remunerating directors and key executives fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the Remuneration Committee links the nature and amount of executive directors' and officers' remuneration to the Company's financial and operational performance.

The expected outcomes of the remuneration structure are:

- retention and motivation of key executives;
- attraction of quality management to the Company; and
- incentives which allow executives to share in the rewards of the success of Monadelphous, contingent upon their performance in and contribution to, achieving that success.

The Company's remuneration structure does not reward conduct that is contrary to the Company's values, strategic objectives or risk appetite.

For full disclosure of the Company's remuneration philosophy and framework and the remuneration received by directors and executives in the current period, please refer to the Remuneration Report, which is contained within the Directors' Report in the 2024 Annual Report.

As a values-driven organisation, Monadelphous focuses on creating an environment which is safe, inclusive and respectful, and makes the Company a great place to work. Monadelphous' employees are expected to act in accordance with the Company's values out of respect for themselves and their teammates. The goal is to make every decision and every action something that everyone at Monadelphous can be proud of and that will promote and protect shareholder interests.

The Monadelphous Code of Conduct is underpinned by the Monadelphous values and provides guidance on the expected behaviour of all employees, so that decisions and actions reflect the highest standards of conduct. It is not intended to cover all possible circumstances that may arise during day-to-day business activities, but rather it provides a framework which can be applied to issues and circumstances so that all decisions align with the Company values.

The Code of Conduct applies to all Monadelphous employees, including directors, as well as contractors and representatives whose terms of engagement require compliance with the Code of Conduct.

The Monadelphous Code of Conduct outlines the Company's zero tolerance to any form of bribery and corruption in the conduct of its activities. This is also outlined in the Company's Anti-Bribery and Corruption Policy, which was reviewed during the year. No employee will suffer adverse consequences for refusing to participate in an act of bribery or corruption, or for reporting in good faith any suspected instances of bribery or corruption.

Monadelphous is committed to operating in accordance with the United Nations (UN) Universal Declaration of Human Rights and the UN Guiding Principles on Business and Human Rights. The Company does not accept any form of modern slavery in the conduct of its own operations or in its supply chain and is committed to ensuring that all workers are treated fairly, ethically and with respect. This commitment is also reflected in its Supplier Code of Conduct which outlines Monadelphous' minimum expectations of its suppliers in the areas of human rights, including compliance with laws on employment practices, zero use of forced or compulsory labour, equal opportunity in employment, health, safety and environmental impacts, business integrity and ethics.

The Company continued to refine its processes to address the potential risks of modern slavery in its operations and supply chain, with recent acquisitions, BMC and Melchor, also being integrated into the Company's modern slavery framework during the year. The Company updated its supplier self-assessment questionnaire process, which greatly improved transparency of modern slavery risks within its supply chain and the actions being taken by suppliers to address these risks. The Company's standard supplier terms and conditions were refined to strengthen the requirement for supplier compliance with the Monadelphous Supplier Code of Conduct and explicit prohibition of modern slavery practices.

The Company continued to engage with its direct supply chain, raising awareness of modern slavery risks and conducting onsite supplier capability reviews (inclusive of labour rights and specific modern slavery risks), with no material concerns identified. Modern slavery awareness training continued to be provided to all employees, with more detailed modern slavery training provided to those employees operating in high-risk geographies and those regularly interacting with suppliers and subcontractors.

Monadelphous has a confidential reporting framework through which employees, contractors and members of the public are able to report instances of actual or suspected unethical or unlawful conduct, without fear of recrimination or reprisal. The Company's Code of Conduct and Integrity and Whistleblower policies outline the procedure for reporting complaints and breaches, and these policies are regularly reviewed. The Company is committed to acting on all matters raised with integrity and fairness.

The Monadelphous Integrity Committee is responsible for ensuring the Company has an appropriate level of transparency and governance in place to effectively manage any high-level risks which may arise from actual or suspected breaches of the Company's Code of Conduct, as outlined in its charter. It monitors the investigation of any actual or suspected breaches of the Code (whether referred through internal channels or through the Company's Integrity Hotline), ensures that any identified improvements are actioned on a timely basis and provides governance and oversight in relation to the ethics and compliance requirements of the Code of Conduct. The Integrity Committee is also responsible for escalating matters as required. The Board is responsible for receiving and reviewing reports on material breaches, any non-compliance with material legal and regulatory requirements, as well as any matters that may have a significant financial or reputational consequence to the Company.

The Company continued to implement and embed its respectful behaviours program, Respect@Monadelphous, delivering on its commitment to maintaining safe, respectful and inclusive workplaces. Leadership commitment plays an important role in the program, with the Managing Director and senior management attending the inaugural Mining Industry Summit: Driving Respect, in Perth, Western Australia. Aspects of the program were also incorporated into existing Monadelphous leadership development tools and training, with annual Acceptable Workplace Behaviour and Code of Conduct training provided to employees. The Company participated in the Chamber of Minerals and Energy of Western Australia's (CMEWA's) Safe and Respectful Behaviours Working Group, and continued its ongoing partnerships with community-based domestic and family violence organisations, Starick and 4Voices, and leading national organisation for women in operations, National Association of Women in Operations (NAWO).

## Diversity and Inclusion

Monadelphous' workforce consists of people with diverse cultures, backgrounds and skills, and this diversity enriches the Company's breadth of knowledge, capabilities and experience, enabling it to provide enhanced and more innovative solutions to customers. Diversity in the workforce brings a broader range of perspectives and ideas together which create value for customers, shareholders and teams.

Monadelphous recognises that its success and reputation for delivery are underpinned by the quality of its people, and the Company is focused on retaining, attracting and developing people who are highly competent, live the Monadelphous values, and actively contribute to the long-term success of the business.

Monadelphous is committed to inclusion and equal opportunity across all facets of its operations regardless of gender, sexual orientation, gender identity, marital or family status, age, disability, pregnancy, family responsibilities, ethnicity, political or religious beliefs, cultural background, socio-economic background, perspective and experience.

This commitment is supported through, among other things:

- promoting the awareness of, and commitment to, workplace diversity and inclusion principles;
- implementation of a code of conduct, with mandatory training for all employees, which is underpinned by the Company's values and provides guidance on the behaviour of all employees, including in relation to equality in employment;
- recruitment and selection practices that ensure a diverse range of candidates are considered, and guard against any conscious or unconscious biases that might discriminate against certain candidates;
- policies, plans and activities which ensure all employees are valued, encouraged and provided with opportunities to develop to their full potential, and thereby assist in the development of a broader and more diverse pool of skilled and experienced employees;
- recognising that employees at all levels may have domestic responsibilities and adopt flexible work practices that will assist them to meet those responsibilities;
- providing opportunities for employees on extended parental leave to maintain their connection with the Company, including providing them with the option to receive all-staff communications and to attend work functions and training programs;
- establishing measurable objectives for achieving greater diversity through defined female participation targets within the composition of the Company's Board, early careers and key talent cohorts, Indigenous workforce participation targets, and annually reviewing those objectives and the progress made towards achieving them; and
- periodic review of the Company's diversity policy to ensure it is operating effectively.
