Pure-Play online retailer Harris Technology Group Limited (ASX: HT8) (“Harris Technology” or the “Company”) is pleased to provide its activity report for the September 2024 quarter (Q1 FY25).

Operations Update

Harris Technology generated sales revenue of \$3.4M in the September quarter which was in line with prior quarters through the subdued retail market for technology and IT products attributable to the macroeconomic headwinds.

A net operating cash outflow of \$436K was recorded in the quarter which included a seasonal increase of inventory purchased in readiness for the upcoming retail season that will include Black Friday, Cyber Monday, Christmas and Boxing Day sales during the December quarter.

Sales of refurbished tech products have continued their encouraging growth trajectory. The Company has increased refurbished tech product stock holding and expanded additional product ranges too. These refurbished products are being sold on the HT website and also on most of the major online marketplaces.

As of 30 September 2024, inventory on hand was \$3.4M, which reflected the seasonal increase of inventory purchased. This was flat on the \$3.5M reported at the end of June and included \$3.5M of purchased inventory during the September quarter while Harris Technology maintained \$838K of cash on hand with a \$5.9M undrawn on its finance facility.

Harris Technology CEO, Garrison Huang commented, “It has been pleasing to see sustained growth from our Refurbished business which is still less than one year old, delivering sound margins. While it has been frustrating that retail trading conditions continue to be challenging, we anticipate stronger retail sales coming into Christmas.”
