In particular, this presentation is not an offer to sell, or a solicitation of an offer to buy, securities in the United States.

Any shares described in this presentation have not been, and will not be, registered under the US Securities Act of 1933, as amended (US Securities Act) and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration of the US Securities Act and applicable US state securities law.

This presentation does not constitute an advertisement or a public offer of securities in any jurisdiction. Note, all figures are expressed in US dollars unless otherwise stated. You should be aware that the Company has its securities listed on the ASX and are also admitted to the Standard Segment of the Official List of the Financial Conduct Authority and to trading on the Main Market of the London Stock Exchange (LSE). The information in this presentation is subject to change without notice. Subject to any obligations under applicable law, the Company does not undertake any obligation to update any information in this presentation.

The Mineral Resource estimate for the Rupice underground deposit comprising part of the Vares Silver Project was announced in accordance with ASX Listing Rule 5.8 on 27 July 2023. The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

The Ore Reserve estimate for the Rupice deposit was announced in accordance with ASX Listing Rule 5.9 on 20 December 2023. The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

In accordance with ASX Listing Rule 5.19, the Company confirms that the production targets and forecast financial information for the Rupice deposit comprising part of the Vares Project disclosed in this presentation were first disclosed in accordance with ASX Listing Rules 5.16 and 5.17 in the Company's announcement dated 19 August 2021. The Company confirms that all the material assumptions underpinning the production target and the forecast financial information in the previous announcement continue to apply and have not materially changed.

The Company is required to report reserves and resources in accordance with JORC 2012. You should note that while the Company's reserve and resource estimates comply with the JORC 2012, they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators and (ii) subpart 1300 of Regulation S-K under the US Securities Act/Industry Guide 7, which governs disclosures of mineral reserves in registration statements filed with the US Securities and Exchange Commission. Information contained in this presentation describing the Company's mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws. In particular, Industry Guide 7 does not recognise classifications other than proven and probable reserves and, as a result, the SEC generally does not permit mining companies to disclose their mineral resources in SEC filings. You should not assume that quantities reported as (resources will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.

Certain economic, statistical and financial market information presented was obtained from published sources prepared by other parties. While these sources are believed to be reliable for the purpose used, none of the Company and any of its representatives assumes any responsibility for the accuracy of this information, and none has independently verified any of the information. None of these parties undertakes to revise or amend this information as it appears in this presentation if these sources prove unreliable.

This presentation contains certain statements which may constitute (forward looking statements). The forward looking statements in this presentation apply only as at the date of this presentation. Any forward looking statements in this presentation involve subjective judgment and analysis and are subject to significant uncertainties, risks and contingencies and other factors. Such risks may be outside the control of, and are unknown to the Company and its officers, employees, agents or associates. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Adriatic and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; possible variations of ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accident, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although Adriatic has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this presentation and Adriatic disclaims any obligation to update any forward looking statements, whether as a result of new information, future events or results or otherwise. In particular, no statement in these Presentation Materials is intended to be a profit forecast or profit estimate and no statement of a financial metric (including estimates of EBITDA, free cash flow or net debt) should be interpreted to mean that any financial metric for the current or future financial years would necessarily match or exceed the historical published position of the Company. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Adriatic undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements.

News releases, presentations and public commentary made by Adriatic and its officers may contain certain statements and expressions of belief, expectation or opinion which are forward looking statements, and which relate, inter alia, to interpretations of exploration results to date and the Company's proposed strategy, plans and objectives or to the expectations or intentions of the Company's directors. Such forward-looking and interpretative statements involve known and unknown risks, uncertainties and other important factors beyond the control of the Company that could cause the actual performance or achievements of the Company to be materially different from such interpretations and forward-looking statements. Accordingly, the reader should not rely on any interpretations or forward-looking statements; and save as required by the exchange rules of the ASX and LSE or by applicable laws, the Company does not accept any obligation to disseminate any updates or revisions to such interpretations or forward-looking statements. The Company may reinterpret results to date as the status of its assets and projects changes with time expenditure, market prices and other affecting circumstances.

Overview of the Vares Operation

Modern, efficient, high margin mine in Europe

	World-class operation	<ul style="list-style-type: none"> Fully-mechanised, modern underground mine with simple processing flow sheet Access to existing infrastructure in a historical mining district, including power, sealed roads, water and rail transport routes
	Robust economics	<ul style="list-style-type: none"> Outstanding economics and one of the lowest cost producers globally (US\$7.3/oz AISC^{1,2}) supported by a high-grade Reserve base underpinning an 18-year mine life Low capital cost due to the benefits of utilising existing infrastructure in the region
	Multi-commodity exposure	<ul style="list-style-type: none"> Nameplate production of 90ktpa zinc concentrate and 65ktpa silver-lead concentrate Additional concentrate value captured by gold and copper by-product credits Supportive macro backdrop and outlook for silver and zinc
	Organic growth potential	<ul style="list-style-type: none"> Resources and Reserves hosted within the Rupice and Rupice NW (RNW) deposits 44km² land package covering a 22km long district-scale corridor of high-grade targets Accelerated and expanded exploration program planned for 2024 and 2025
	Offtakes in place	<ul style="list-style-type: none"> Offtake agreements in place with Boliden, Trafigura, Glencore and Transamine for 82% of concentrate production over the first 24 months Remaining 18% intentionally reserved for advantageous spot market sales
	Local significance	<ul style="list-style-type: none"> One of the largest investments in Bosnia & Herzegovina, representing 25% of FDI in 2023 and was also granted the status of Project of Special Importance in 2023 Strives to be a fully compliant modern and sustainable mine in line with IFC/EBRD/World Bank standards

Vares Processing Plant, Aug 2024

Operating in Bosnia & Herzegovina

Attractive mining jurisdiction serving a regional supply chain

Bosnia – business & mining friendly

- Clear and concise mining code in a stable democracy
- Well-positioned in central Europe with extensive access to rail, European smelters and the seaborne market
- Strong mining history and highly skilled workforce
- Publicly supportive government
- 10% corporate tax rate
- Candidate status for EU membership

Rapid rate of project development – from discovery to production in seven years

- 2017 - Acquired assets, initial exploration commenced
- 2018 – ASX IPO, expansion of exploration program
- 2019 – Maiden resource, LSE listing
- 2020-2021 – PFS, DFS, permits received, project financing
- 2022-2023 – Project construction
- 2024 – Commissioning H1, commercial production in Q4

Mining & Processing

Reaching commercial production in Q4

- **Record ore production** of 63,100t at 289g/t Ag, 2.9g/t Au, 7.5% Zn, 5.1% Pb in Q3.
- **First stopes** brought into production in August 2024.
- **Development rates** increased to a record high of 318m in August.
- **Current ore stockpile** of approx. 48,000t at 262g/t Ag, 2.6g/t Au, 6.1% Zn and 4.3% Pb.
- **Ramp up at Vares Processing Plant** ongoing; processing of higher-grade feed has increased concentrate production.
- **Metal recoveries** recorded October month-to-date are 69% Zn, 68% Pb, 85% Ag and 60% Au.
- **Recoveries to improve** to: >70% for base metals through Q4 as plant moves to 24/7 operations, stabilised feed grade.

Tailings Storage Facility

Responsible Tailings Management

- All tailing storage facilities are **dry stack** with majority backfilled underground, minimising surface footprint. Tailings are designed and operated to GISTM.
- Current temporary tailing storage facility has capacity until Q1 2025.
- **Veovaca TSF** - Located ~2km from Vares Processing Plant in existing concession boundary.
 - Phase 1 - capacity to receive tailings for approx. 4-5 years of production.
 - Total Veovaca TSF will have capacity to receive tailings for over 10 years of production.
- **Permits received** for Veovaca TSF Phase I from FMERI on 24 Oct.
- Veovaca TSF construction to be completed by end of Q4 2024.

Veovaca Tailings Storage Facility, Oct 2024

Marketing & Concentrate Sales

Concentrate products being sold to offtakers

- Nameplate production of 800,000 tpa. Producing two concentrate products: 90,000tpa of zinc concentrate & 65,000tpa of silver/lead concentrate.
- **Concentrate grades:** above 50% Zn, 40% Pb + 2,000g/t Ag
- **Sales progressing well** with no issues on concentrate spec, with shipment volumes increasing.
- **First full train shipment** of 36 containers moved concentrate to port in September. Due to storm damage to railway line, concentrate is being trucked by road to port.
- In October, on average 15 containers have been trucked per day – demonstrating ability to meet production requirements at full throughput.
- Offtake allocated for 82% of production for first 24 months of production. **Offtake partners** – Trafigura, Glencore, Boliden and Transamine.

	Q3 2024	Q2 2024

Significant organic growth potential

Regional exploration across the Vares concession

- Mineral Reserve – 13.8Mt at 187g/t Ag, 5.2% Zn, 3.3% Pb, 1.4g/t Au, 0.5% Cu and 0.2% Sb. LOM of >18 years
- 44km² land package covering a 22km long district-scale corridor of high-grade targets
- Ongoing exploration programmes focused on new and existing targets across:
 - Rupice Northwest
 - Rupice South
 - Droskovac
 - Vares East
