SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2024

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-41279

5E ADVANCED MATERIALS, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

87-3426517
(I.R.S. Employer
Identification No.)

9329 Mariposa Road, Suite 210
Hesperia, CA
(Address of principal executive offices)

92344
(Zip Code)

(442) 221-0225
(Registrant's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

| Title of each class | Trading Symbol(s) | Name of each exchange on which registered |
|--------------------------------|----------------------|--|
| Common Stock, \$0.01 par value | FEAM | The Nasdaq Global Select Market |

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

| | | | |
|-------------------------|-------------------------------------|---------------------------|-------------------------------------|
| Large accelerated filer | <input type="checkbox"/> | Accelerated filer | <input type="checkbox"/> |
| Non-accelerated filer | <input checked="" type="checkbox"/> | Smaller reporting company | <input checked="" type="checkbox"/> |
| Emerging growth company | <input checked="" type="checkbox"/> | | |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 12, 2024, there were 68,883,030 shares of the Registrant's common stock, \$0.01 par value per share, outstanding.

References herein to the “Company,” “we,” “our,” “us,” and “5E” refer to 5E Advanced Materials, Inc. and its subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q for the period ended September 30, 2024 and documents incorporated by reference herein (this “Form 10-Q”) include statements that express our and our subsidiaries’ opinions, expectations, beliefs, plans, goals objectives, assumptions or projections regarding future events or future financial performance and results, financial condition, business strategy, including certain projections, milestones, targets, business trends and other statements that are not historical facts. These statements constitute forward-looking statements within the meaning of the Safe Harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms “believes,” “estimates,” “anticipates,” “expects,” “seeks,” “projects,” “forecasts,” “budgets,” “targets,” “aims,” “intends,” “plans,” “may,” “will,” “should,” “could,” “would,” “will be,” “will continue,” “will likely result” and similar expressions, and in each case including their negative or other variations of comparable terminology. However, not all forward-looking statements contain these identifying words. All statements other than statements of historical fact contained in this Quarterly Report, including without limitation, statements regarding our results of operations and financial position, business strategy, plans and prospects, our ability to secure additional financing and continue as a going concern, our ability to operate the SSF and the Project (each as defined herein), and our ability to maintain a minimum cash balance under the Convertible Notes. Forward-looking statements reflect management’s expectations regarding our future growth, results of operations, operational and financial performance and business prospects and opportunities. Such forward-looking statements are based on available current market material and management’s expectations, beliefs and forecasts concerning future events impacting our business.

The forward-looking statements in this Form 10-Q are only predictions. Forward-looking statements are based on our management’s beliefs and assumptions and on information currently available. These forward-looking statements are subject to a number of known and unknown risks, uncertainties, assumptions, and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including risks described under the heading “Item 1A. – Risk Factors” in this Quarterly Report on Form 10-Q, and in our Annual Report on Form 10-K for the fiscal year ended June 30, 2024, any of which could cause the Company’s actual results, performance or achievements, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

Other sections of this Quarterly Report on Form 10-Q include additional factors that could harm our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment.

You should not rely upon forward-looking statements as predictions of future events. We cannot assure you that the events and circumstances reflected in the forward-looking statements will be achieved or occur. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. Except as required by law, we undertake no obligation to update publicly any forward-looking statements for any reason after the date of this report or to conform these statements to actual results or to changes in our expectations. You should read this Quarterly Report on Form 10-Q and the documents that we reference or incorporate by reference in this Quarterly Report on Form 10-Q and have filed as exhibits to this report with the understanding that our actual future results, levels of activity, performance, and achievements may be materially different from what we expect. You are advised, however, to consult any additional disclosures we make in our reports to the U.S. Securities and Exchange Commission (the “SEC”). All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in our latest Annual Report on Form 10-K for the fiscal year ended June 30, 2024, and this Form 10-Q.

5E ADVANCED MATERIALS, INC.
NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Financial Statement Presentation

These unaudited condensed consolidated financial statements (herein after referred to as “financial statements”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and should be read in the context of the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2024, filed with the Securities and Exchange Commission (“SEC”) on September 9, 2024. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the Company’s financial position as of September 30, 2024, results of operations for the three months ended September 30, 2024 and 2023 and cash flows for the three months ended September 30, 2024 and 2023 have been included. Operating results for the three months ended September 30, 2024 are not necessarily indicative of the results that may be expected for the full fiscal year ending June 30, 2025.

Effective April 1, 2024, we placed our Small-Scale Facility (the “SSF”) into full commercial operation, and accordingly all direct operating costs associated with the SSF, including raw materials, labor and maintenance, have been separately classified as Small-scale operating costs within our condensed consolidated statements of operations after such date. Prior to April 1, 2024, these direct costs have not been reclassified and remain as either Project expenses or General and administrative costs, as appropriate.

Basis of Consolidation

The unaudited condensed consolidated financial statements comprise the financial statements of 5E Advanced Materials, Inc. and its wholly owned subsidiaries, American Pacific Borates Pty Ltd. and 5E Boron Americas, LLC (formerly Fort Cady (California) Corporation, (“5EBA”)), (collectively, “we,” “our,” or the “Company”). The Company holds 100% of the rights through ownership in the 5E Boron Americas (Fort Cady) Complex (the “Project”) located in southern California, through its ownership of 5EBA. In preparing the condensed consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-company transactions have been eliminated.

Going Concern

Management evaluated whether there are conditions and events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that these condensed consolidated financial statements are issued. When substantial doubt exists, management evaluates whether the mitigating effect of its plans sufficiently alleviates substantial doubt about the Company's ability to continue as a going concern. The mitigating effect of management's plans, however, is only considered if both (1) it is probable that the plans will be effectively implemented within one year after the date that the financial statements are issued, and (2) it is probable that the plans, when implemented, will mitigate the relevant conditions or events that raise substantial doubt about the Company’s ability to continue as a going concern for one year after the date that the condensed consolidated financial statements are issued. In performing this analysis, management concluded there continues to exist substantial doubt regarding the Company’s ability to continue as a going concern.

Although the August 2024 Equity Offering (as further described and defined in Note 10–Equity) provided net cash proceeds of approximately \$3.0 million (inclusive of amounts payable and accrued for third-party expenses as of September 30, 2024), and our issuance of the September 2024 Notes (as further described and defined in Note 7–Debt) provided net cash proceeds of approximately \$5.5 million (inclusive of amounts payable and accrued for third-party expenses as of September 30, 2024), each of which improved the Company’s cash position, and while the Company continues to operate under a business plan that includes reductions in certain spending, management anticipates the need for additional financing within the next twelve months to maintain a cash balance in excess of the \$7.5 million minimum cash covenant which goes into effect December 31, 2024 (as discussed in Note 7–Debt). If the Company is not able to secure additional financing and the Company’s cash balance falls below \$7.5 million after such date, an event of default under the amended and restated note purchase agreement, entered into on September 16, 2024 (as further described in Note 7–Debt) would occur if not cured after 30 days. An event of default would cause the Company’s senior secured Convertible Notes (as further described and defined in Note 7–Debt) balance outstanding to become immediately due and payable, for which the Company would not have the resources to repay without additional financing. The receipt of potential funding cannot be considered probable at this time because these plans are not entirely within management's control as of the date of these condensed consolidated financial statements. Therefore, there exists substantial doubt regarding the Company's ability to continue as a going concern. Even if additional financing is successfully consummated, available liquidity may still not be sufficient to eliminate the aforementioned substantial doubt regarding the Company's ability to continue as a going concern.

These financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the ordinary course of business and do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of the uncertainties described above.

Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, the Convertible Notes (as further described and defined in Note 7–Debt), vehicle notes, and accounts payable and accrued liabilities. Management believes the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these instruments, due to their short-term nature, with the exception of the Convertible Notes and vehicle notes, approximate their carrying value. See Note 7–Debt for fair value information related to the Convertible Notes.

Concentrations of Risk

The Company maintains cash deposits at several major banks, which at times may exceed amounts covered by insurance provided by the United States Federal Deposit Insurance Corporation. Management monitors the financial health of the banks and believes the Company is not exposed to any significant credit risk, and the Company has not experienced any such losses.

The Company's operations are predominately focused on the Project, which results in the Company being dependent upon a single mining operation in a single geographic region in the western United States in California. The geographic concentration of the Company's operations may disproportionately expose it to disruptions if the region experiences severe weather, transportation capacity constraints, constraints on the availability of required equipment, facilities, personnel or services, significant governmental regulation or natural disasters.

Risks and Uncertainties

The Company is subject to a number of risks that its management believes are similar to those of other companies of similar size and industry, including but not limited to, the success of its exploration activities, need for significant additional capital (or financing) to fund operating losses, competition from substitute products and services from larger companies, protection of proprietary technology, patent litigation, and dependence on key individuals. The Company currently generates no revenues from operations and will need to rely on raising additional capital or financing to sustain operations in the long-term. There can be no assurance that management will be successful in its efforts to raise additional capital on terms favorable to the Company, or at all, or in management's ability to adequately reduce expenses, if necessary, to maintain sufficient liquidity or capital resources. Refer to the Going Concern discussion above for additional details.

Reclassifications

Certain reclassifications have been made to prior years' reported amounts in order to conform to the current year presentation. These reclassifications did not impact our previously reported net income (loss), stockholders' equity or cash flows.

Recently Issued and Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") that are adopted by the Company as of the specified effective date. Unless otherwise discussed, management believes that the impact of recently issued standards did not or will not have a material impact on the Company's consolidated financial statements upon adoption.

In November 2023, the FASB issued Accounting Standards Update ("ASU") 2023-07, Segment Reporting (Topic 280) ("ASU 2023-07"). ASU 2023-07 is intended to enhance reportable segment disclosure requirements, including significant segment expenses and interim disclosures. The guidance allows for disclosure of multiple measures of a segment's profit or loss, and it requires that public entities with a single reportable segment provide all disclosures required by ASU 2023-07 and all existing disclosures required by the existing segment disclosure guidance. ASU 2023-07 is effective for annual reporting periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The amendments are to be applied retrospectively, and early adoption is permitted. The Company is currently evaluating the impact that ASU 2023-07 will have on the consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 is intended to improve income tax disclosures primarily through enhanced disclosure of income tax rate reconciliation items, and disaggregation of income (loss) from continuing operations, income tax expense (benefit) and income taxes paid, net disclosures by federal, state and foreign jurisdictions, among others. ASU 2023-09 is effective for annual reporting periods beginning after December 15, 2024, and early adoption is permitted. The Company is evaluating the impact that ASU 2023-09 will have on the consolidated financial statements and its plan for adoption, including the adoption date and transition method.

In November 2024, the FASB issued ASU 2024-03, Income Statement–Reporting Comprehensive Income–Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses ("ASU 2024-03"), which requires the disaggregation of certain expenses in the notes of the financials, to provide enhanced transparency into the expense captions presented on the face of the income statement. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027 and may be applied either prospectively or retrospectively. The Company is currently evaluating the impact that ASU 2024-03 will have on its related disclosures, including the adoption date and transition method.

2. Mineral Rights and Properties, Net

Mineral rights and properties, net consisted of the following at the end of each period presented.

| | September 30, 2024 | June 30, 2024 |

| Other plant and equipment | Straight-line | 5-10 | 740 | 729 |
| | | | <u>79,057</u> | <u>79,339</u> |
| Less accumulated depreciation | | | (10,434) | (5,467) |
| Properties, plant and equipment, net | | | <u>\$ 68,623</u> | <u>\$ 73,872</u> |

The Company recognized depreciation expense of \$5.0 million and \$47 thousand for the three months ended September 30, 2024 and 2023, respectively.

5. Asset Retirement Obligations

The change in the Company's asset retirement obligations during the period presented and the balance of its accrued reclamation liabilities at the end of the period are set forth below.

| | Three months ended September 30, 2024 |
|---|--|
| | (in thousands) |
| Asset retirement obligation — beginning of period | \$ 795 |
| Obligation incurred during the period | 23 |
| Revisions to previous estimates | — |
| Accretion | 19 |
| Asset retirement obligation — end of period | <u>\$ 837</u> |

6. Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities consisted of the following at the end of each period presented.

| | September 30, 2024 | June 30, 2024 |
|--|-----------------------|------------------|
| | (in thousands) | |
| Accounts payable - trade ⁽¹⁾ | \$ 1,481 | \$ 854 |
| Accrued expenses | 1,258 | 603 |
| Accrued capital expenditures | 2,944 | 3,309 |
| Accrued payroll | 702 | 2,263 |
| Accrued interest | 963 | 2,496 |
| Current portion of debt | 42 | 42 |
| Accounts payable and accrued liabilities | <u>\$ 7,390</u> | <u>\$ 9,567</u> |

(1) Includes \$129 thousand and \$235 thousand related to capital expenditures as of September 30, 2024 and June 30, 2024, respectively.

7. Debt

Long Term Debt

Long-term debt consisted of the following at the end of each period presented.

| | September 30, 2024 | June 30, 2024 |
|---------------------------------------|-----------------------|------------------|
| | (in thousands) | |
| August 2022 Notes | \$ 68,955 | \$ 65,671 |
| June 2024 Notes | 6,108 | 6,000 |
| September 2024 Notes | 6,000 | — |
| Vehicle notes payable | 98 | 108 |
| Total debt | 81,161 | 71,779 |
| Current portion of debt | 42 | 42 |
| Long-term debt | 81,119 | 71,737 |
| Unamortized convertible note discount | (5,525) | (4,035) |
| Unamortized debt issuance costs | (3,163) | (2,871) |
| Long-term debt, net | <u>\$ 72,431</u> | <u>\$ 64,831</u> |

As further discussed below, on September 16, 2024, the Company issued an additional \$6.0 million aggregate principal amount of September 2024 Notes. Additionally, on August 15, 2024, the Company elected to issue additional notes as payment for \$3.4 million of interest accrued during the period from February 16, 2024 through August 15, 2024.

Interest expense consisted of the following for each period presented.

| | Three months ended September 30, | |
|--|----------------------------------|-----------------|
| | 2024 | 2023 |
| | (in thousands) | |
| Convertible Notes interest | \$ 1,859 | \$ 940 |
| Vehicle notes payable interest | 1 | 1 |
| Amortization of debt issuance costs and discount — Convertible Notes | 324 | 1,452 |
| Other interest | — | 18 |
| Gross interest expense | 2,184 | 2,411 |
| Less: amount capitalized to construction in progress | 29 | 624 |
| Interest expense, net of amounts capitalized | <u>\$ 2,155</u> | <u>\$ 1,787</u> |

Effective interest rate — Convertible Notes ⁽¹⁾ 12.7% 23.2%

The effective interest rate represents a weighted-average interest rate applicable for the respective period. Interest expense utilized in the calculation is based upon the gross interest expense in the table above, and the principal balance utilized in the calculation is based on the ending net long-term debt applicable to each interest period inclusive of unamortized debt issuance costs and discount, changes in the principal balance resulting from the issuance of new Convertible Notes, interest paid-in-kind and any adjustments resulting from the Amended and Restated Note Purchase Agreement.

Convertible Notes

On August 11, 2022, the Company executed a \$60 million private placement of senior secured convertible notes (the “August 2022 Notes”) with Bluescape Special Situations IV (“Bluescape”). On January 18, 2024, the Company entered into an amended and restated note purchase agreement (the “January 2024 Amended and Restated Note Purchase Agreement”) which modified certain terms of the August 2022 Notes, including to extend the maturity date of the August 2022 Notes to August 15, 2028.

On May 28, 2024, the Company entered into a second amendment (“Amendment No. 2”) to the January 2024 Amended and Restated Note Purchase Agreement and agreed, among other things, to (i) issue and sell new senior secured convertible notes in substantially the same form and under the same terms as the August 2022 Notes, as amended, in an aggregate principal amount of \$6.0 million (the “June 2024 Notes”) to Bluescape and Ascend Global Investment Fund SPC for and on behalf of Strategic SP (“Ascend”), and (ii) amend and restate the January 2024 Amended and Restated Note Purchase Agreement in the form attached as Annex A to Amendment No. 2 (the “May 2024 Amended and Restated Note Purchase Agreement”).

On September 16, 2024, the Company entered into a third amendment (“Amendment No. 3”) to the January 2024 Amended and Restated Note Purchase Agreement and agreed, among other things, to (i) issue and sell new senior secured convertible notes in substantially the same form and under the same terms as the June 2024 Notes, in an aggregate principal amount of \$6.0 million (the “September 2024 Notes” and, together with the August 2022 Notes and the June 2024 Notes, the “Convertible Notes”) to Bluescape and Ascend, and (ii) amend and restate the January 2024 Amended and Restated Note Purchase Agreement in the form attached as Annex A to Amendment No. 3 (the “September 2024 Amended and Restated Note Purchase Agreement” and collectively with the January 2024 Amended and Restated Note Purchase Agreement and the May 2024 Amended and Restated Note Purchase Agreement, the “Amended and Restated Note Purchase Agreement”). As part of the January 2024, May 2024 and September 2024 Amended and Restated Note Purchase Agreements, the Company incurred approximately \$2.6 million, \$541 thousand and \$454 thousand of debt issuance costs.

At the Company’s election, the Convertible Notes bear interest at an annual rate of 4.50% if paid in cash, and 10.00% if paid through the issuance of additional notes. Interest is paid semi-annually on February 15 and August 15 of each year. The Convertible Notes contain a financial covenant requiring the Company to maintain a cash balance of at least \$7.5 million after December 31, 2024.

The Convertible Notes are secured by substantially all of the Company’s assets.

Convertible Notes - Conversion Terms

The Convertible Notes, including accrued interest paid-in-kind, may be converted into shares of the Company’s common stock, par value \$0.01 (the “Common Stock”) at any time before the Convertible Notes mature. The August 2022 Notes are convertible into the Company’s Common Stock based upon a conversion rate of 650.4065 shares of Common Stock per \$1,000 principal amount of Convertible Notes (the “Conversion Rate”), representing a conversion price of approximately \$1.5375 per share. The June 2024 Notes are convertible into the Company’s Common Stock based upon a Conversion Rate of 692.7990, representing a conversion price of approximately \$1.4434 per share. The September 2024 Notes are convertible into the Company’s Common Stock based upon a Conversion Rate of 1,066.6667 shares of Common Stock per \$1,000 principal amount of September 2024 Notes, representing a conversion price of approximately \$0.9375 per share. In addition, the Amended and Restated Note Purchase Agreement provides for certain adjustments to the Conversion Rate to increase the number of shares of Common Stock issuable upon conversion of the Convertible Notes (the “Additional Shares”) in the event of certain change of control transactions or other events specified in the Amended and Restated Note Purchase Agreement (a “Make-Whole Fundamental Change”). Accordingly, the Conversion Rate will increase by up to 325.2033, 346.3996 and 444.4445 Additional Shares per \$1,000 principal amount of August 2022 Notes, June 2024 Notes and September 2024 Notes, respectively, based on the timing of a Make-Whole Fundamental Change and the trading price of the Common Stock at such time or the cash received by holders of the Common Stock in connection with such Make-Whole Fundamental Change.

The Conversion Rate applicable to the June 2024 Notes and September 2024 Notes is subject to adjustment if, after the issuance date of the respective Convertible Notes and on or prior to December 31, 2024, the Company sells Common Stock or any other equity-linked securities in one or more transactions at an effective price per share that is less than the respective conversion price then in effect, subject to certain exemptions (a “Degressive Issuance”). In the event of a Degressive Issuance, the Conversion Rate applicable to the June 2024 Notes and September 2024 Notes will be adjusted based on the weighted average issuance price of the securities sold in such Degressive Issuance, as set forth in the Amended and Restated Note Purchase Agreement. Pursuant to the terms of the Amended and Restated Note Purchase Agreement, the Company will not be permitted to effect any Degressive Issuance that would result in an adjustment to the Conversion Rate that requires the approval of the Company’s stockholders pursuant to the listing standards of The Nasdaq Global Select Market, unless the Company has obtained such stockholder approval before such Degressive Issuance.

As part of the August 2024 Equity Offering (as further described and defined in Note 10–Equity), the Degressive Issuance provision applicable to the June 2024 Notes resulted in an adjustment to the Conversion Rate applicable only to the June 2024 Notes from

650.4065 to 692.7990, and a corresponding increase in the Conversion Rate in the event of a Make-Whole Fundamental Change from 325.2033 to 346.3996.

The September 2024 Amended and Restated Note Purchase Agreement also requires the Company to maintain the effectiveness of registration statements filed with the SEC relating to shares of the Company's Common Stock which may be received by the holders of the Convertible Notes if such Convertible Notes are converted into Common Stock. If the Company fails to maintain the effectiveness of such registration statements through the period in which the Convertible Notes may be converted, the interest rate applicable to the Convertible Notes may be increased by 0.5% per annum for each 90-day period where such registration statements are not effective, up to a maximum of 2.0% per annum.

Convertible Notes - Derivatives

The terms of the Amended and Restated Note Purchase Agreement permits a change to the Conversion Rates applicable to the June 2024 Notes and September 2024 Notes upon a Digressive Issuance by the Company on or before December 31, 2024. As a result, these conversion features were deemed to be embedded derivatives requiring bifurcation and separate accounting as stand-alone derivative instruments (the "June 2024 Convertible Note Derivative" and "September 2024 Convertible Note Derivative," respectively, and together, the "Convertible Note Derivatives"). The June 2024 Notes were initially recorded at their face amount of \$6 million less debt issuance costs of \$541 thousand and the fair value of the June 2024 Convertible Note Derivative, which was determined to be \$4.1 million. Similarly, the September 2024 Notes were initially recorded at their face amount of \$6 million less debt issuance costs of \$454 thousand and the fair value of the September 2024 Convertible Note Derivative, which was determined to be \$1.6 million.

The provisions that result in separate accounting for the Convertible Note Derivatives will expire on December 31, 2024, and accordingly, the fair value of the Convertible Note Derivatives, if any, on such date will be transferred to additional paid-in capital. Refer to Note 8—Convertible Note Derivatives and the discussion immediately below for additional details regarding the fair values of the Convertible Note Derivatives.

Convertible Notes - Fair Value

Fair value and carrying value information for the Convertible Notes at each period end follows.

| | Principal Amount | Unamortized Debt Discount and Issuance Costs | Net Liability Carrying Amount | Fair Value | |
|---|---------------------|---|-------------------------------------|----------------------|----------|
| | | | | Amount | Leveling |
| | (in thousands) | | | | |
| As of September 30, 2024 | | | | | |
| August 2022 Notes, due Aug. 15, 2028 | \$ 68,955 | \$ (2,197) | \$ 66,758 | \$47,532 | Level 2 |
| June 2024 Notes, due Aug. 15, 2028 | 6,108 | (4,414) | 1,694 | 2,413 ⁽¹⁾ | Level 2 |
| September 2024 Notes, due Aug. 15, 2028 | 6,000 | (2,077) | 3,923 | 3,615 ⁽¹⁾ | Level 2 |
| | <u>\$ 81,063</u> | <u>\$ (8,688)</u> | <u>\$ 72,375</u> | <u>\$53,560</u> | |
| As of June 30, 2024 | | | | | |
| August 2022 Notes, due Aug. 15, 2028 | \$ 65,671 | \$ (2,336) | \$ 63,335 | \$63,289 | Level 2 |
| June 2024 Notes, due Aug. 15, 2028 | 6,000 | (4,570) | 1,430 | 1,942 ⁽¹⁾ | Level 2 |
| | <u>\$ 71,671</u> | <u>\$ (6,906)</u> | <u>\$ 64,765</u> | <u>\$65,231</u> | |

(1) The reported fair value of the convertible note relates only to the debt component of such security and excludes the fair value associated with the related convertible note derivative that has been bifurcated and accounted for separately. Refer to Note 8—Convertible Note Derivatives for fair value information related to the Convertible Note Derivatives.

The valuation model for the Convertible Notes and related Convertible Note Derivatives require the input of subjective assumptions including expected share price volatility, risk-free interest rate and debt rate. Changes in the input assumptions as well as the Company's underlying share price can materially affect the fair value estimates. Changes in the reported fair value of the Convertible Notes between periods are not recognized in net income and therefore have no effect on reported net income (loss).

The significant assumptions used in the fair value model for the Convertible Notes and related Convertible Note Derivatives include the following, with changes in volatility, debt rate and stock price having the most significant impact on the related fair values.

| | Sep. 30, 2024 | Sep. 16, 2024 (Sep. 2024 Notes) | Jun. 30, 2024 |
|-------------------------|------------------------------|------------------------------------|------------------------------|
| Risk-free interest rate | 3.6% | 3.4% | 4.5% |
| Volatility | 65.0% | 60.0% | 50.0% |
| Debt rate | 22.6% - 33.6% ⁽¹⁾ | 23.7% | 28.7% - 36.7% ⁽²⁾ |
| Stock price per share | \$0.54 | \$0.50 | \$1.21 |

(1) Debt rates of 25.5%, 33.6% and 22.6% were utilized in the valuation of the August 2022 Notes, June 2024 Notes and September 2024 Notes, respectively.

(2) Debt rates of 28.7% and 36.7% were utilized in the valuation of the August 2022 Notes and June 2024 Notes, respectively.

8. Convertible Note Derivatives

The June 2024 Convertible Note Derivative and September 2024 Convertible Note Derivative, each which relate to the June 2024 Notes and September 2024 Notes, respectively, described above in Note 7—Debt, were valued upon initial recognition and at each reporting period at fair value using a with-and-without methodology utilizing a binomial lattice model (a model which utilizes Level 3 fair value inputs). Refer to Convertible Notes—Fair Value in Note 7—Debt for a table of certain inputs utilized in the valuation of the Convertible Notes and related Convertible Note Derivatives on certain dates. Changes in the fair value were recognized in Derivative gain (loss) in the statement of operations, but had no related impact on the Company’s cash position or cash flows. The provision that results in separate accounting for the June 2024 Convertible Note Derivative began June 11, 2024 in connection with the issuance of the June 2024 Notes, and on September 16, 2024 for the September 2024 Convertible Note Derivative in connection with the issuance of the September 2024 Notes. Each of these provisions will expire on December 31, 2024, and accordingly, the fair value of the June 2024 Convertible Note Derivative and September 2024 Convertible Note Derivative, if any, will be transferred to additional paid-in capital at that time.

The components of changes to the fair value of the Convertible Note Derivatives for the periods presented are summarized below.

| | Derivative (Asset)/Liability |
|--|---|
| | (in thousands) |
| Convertible note derivatives (asset) liability — June 30, 2024 | \$ 3,315 |
| Additions, at fair value, September 16, 2024 | 1,643 |
| Fair value adjustments (gain) loss, net | (2,187) |
| Convertible note derivatives (asset) liability — September 30, 2024 | \$ 2,771 |

9. Financial Instruments and Fair Value Measurements

At September 30, 2024, cash equivalents as well as trade and other payables approximate their fair value due to their short-term nature. Our financial instruments also consist of environmental reclamation bonds which are invested in certificates of deposit and money market funds which are classified as Level 1, the Convertible Notes which are classified as Level 2, and the Convertible Note Derivatives which were classified as Level 3. The reconciliation of changes in the fair value of the Convertible Note Derivative can be found in Note 8—Convertible Note Derivatives.

10. Equity

The Company is authorized to issue up to 360,000,000 shares of common stock, par value \$0.01 per share, and 20,000,000 shares of preferred stock, par value, \$0.01 per share. The Company has no outstanding shares of preferred stock.

On August 27, 2024, the Company completed an offering (the “August 2024 Equity Offering”) of (i) 5,333,333 shares (the “Shares”) of Common Stock, (ii) Series A warrants to purchase up to an aggregate of up to 5,333,333 shares of Common Stock (the “Series A Warrants”) and (iii) Series B warrants to purchase an aggregate of 5,333,333 shares of Common Stock (the “Series B Warrants”, and collectively with the Series A Warrants, the “Warrants”). The Shares and Warrants were offered and sold on a combined basis for consideration equating to \$0.75 for one Share and two Warrants. The exercise price for each of the Warrants is \$0.7981 per share. This transaction resulted in net proceeds to the Company of approximately \$3.0 million after deducting the placement agent’s fees and other offering expenses (inclusive of amounts payable and accrued as of September 30, 2024). The aggregate net proceeds and issuance costs associated with the August 2024 Equity Offering were allocated to the Shares and Warrants based upon the relative fair value of such items on the offering date.

The Series A Warrants and the Series B Warrants are initially exercisable on February 27, 2025. The Series A Warrants will expire on February 27, 2030 and the Series B Warrants will expire on February 27, 2027. The Warrants contain standard adjustments to the exercise price including for stock splits, stock dividends, rights offerings and pro rata distributions. The Warrants also include certain rights upon the occurrence of a “fundamental transaction” (as described in the Warrants), including the right of the holder thereof to receive from the Company or a successor entity the same type or form of consideration (and in the same proportion) that is being offered and paid to the holders of Common Stock in such fundamental transaction in the amount of the Black Scholes value (as described in the Warrants) of the unexercised portion of the Warrant on the date of the consummation of such fundamental transaction. The Warrants include cashless exercise rights to the extent the resale of the shares of Common Stock underlying the Warrants is not registered under the Securities Act.

During the three months ended September 30, 2024 and 2023, the Company issued approximately 231 thousand and 50 thousand shares of its Common Stock upon the vesting of equity awards. The vesting did not result in any cash proceeds to the Company.

2024 Equity Distribution Agreement

On March 28, 2024, the Company entered into an equity distribution agreement (the “Equity Distribution Agreement”) with Canaccord Genuity LLC and D.A. Davidson & Co. (the “Agents”) pursuant to which the Company may offer and sell up to \$15.0 million of shares of Common Stock from time to time through the Agents, acting as the Company’s sales agents, or directly to one or more of the Agents, acting as principal (the “ATM Program”).

Neither of the Agents is required to sell any specific number or dollar amount of shares of the Company’s Common Stock, but each has agreed, subject to the terms and conditions of the Equity Distribution Agreement, to use its commercially reasonable efforts, consistent with its normal trading and sales practices, to sell the shares of Common Stock on the terms agreed upon by such Agent and the Company.

The Company did not sell any shares of Common Stock nor receive any proceeds under the Equity Distribution Agreement during the three months ended September 30, 2024. As a result of the August 2024 Equity Offering we are precluded from utilizing the ATM Program for one year following the closing of the offering, and as a result approximately \$410 thousand of costs previously capitalized for the ATM Program were written-off to General and administrative expense during the three months ended September 30, 2024.

11. Share Based Compensation

Share based compensation expense is included in general and administrative expense and represents costs associated with restricted share unit (“RSU”), director restricted share unit (“DSU”) and performance share unit (“PSU”) activity and options. Share based compensation expense consisted of the following for the periods presented.

| | Three Months Ended September 30, | |
|--|----------------------------------|---------------|
| | 2024 | 2023 |
| | (in thousands) | |
| Share based compensation expense — service based | | |
| Employee share option plan | \$ 100 | \$ 96 |
| 2022 Equity Compensation Plan — Options | 21 | 133 |
| 2022 Equity Compensation Plan — PSUs | (9) | 48 |
| 2022 Equity Compensation Plan — RSU and DSUs | 1,238 | 322 |
| Total share based compensation expense | <u>\$ 1,350</u> | <u>\$ 599</u> |

As of September 30, 2024, the Company had approximately \$774 thousand of total unrecognized stock-based compensation expense related to unvested stock-based compensation awards that is expected to be recognized over a weighted average period of approximately 1.4 years.

Stock Options

Option grants are made under the 2022 Equity Compensation Plan and vest ratably over the vesting period which is generally three years or less. The significant assumptions used to estimate the fair value of stock option awards granted during the three months ended September 30, 2024 and 2023, using a Black-Scholes option valuation model are as follows.

| | Three months ended September 30, | |
|-------------------------|----------------------------------|--------|
| | 2024 | 2023 |
| Exercise price | \$1.27 | \$7.73 |
| Share price | \$0.51 | \$2.46 |
| Volatility | 99% | 99% |
| Expected term in years | 2.9 | 9.6 |
| Risk-free interest rate | 3.4% | 4.3% |
| Dividend rate | Nil | Nil |

The following table summarizes stock option activity for each of the periods presented.

| | Three months ended September 30, | | | |
|--|---------------------------------------|---------------------------------|-------------------|---------------------------------|
| | 2024 | | 2023 | |
| | Number of Options | Weighted Average Exercise Price | Number of Options | Weighted Average Exercise Price |
| | (In thousands, except per share data) | | | |
| Outstanding at beginning of the period | 4,001 | \$ 9.33 | 4,187 | \$ 10.91 |
| Granted | 301 | 1.27 | 300 | 7.73 |
| Exercised | — | — | — | — |
| Expired/forfeited | (1,660) | 5.26 | (278) | 25.49 |
| Outstanding at end of the period | <u>2,642</u> | <u>10.97</u> | <u>4,209</u> | <u>9.71</u> |
| Vested at the end of the period | 2,000 | 13.58 | 3,356 | 9.83 |
| Unvested at the end of the period | 642 | \$ 2.85 | 853 | \$ 9.25 |

The weighted average remaining life of vested options at September 30, 2024 and 2023 was approximately 2.3 years and 1.2 years, respectively. As of September 30, 2024 and 2023, the maximum expiration date for vested options was approximately 8.6 and 2.0 years, respectively.

As of September 30, 2024, there was approximately \$298 thousand of unrecognized compensation cost related to 642 thousand unvested stock options. This cost is expected to be recognized over a weighted-average remaining period of approximately 1.5 years. As of September 30, 2024 and 2023, the maximum expiration date for unvested options was approximately 2.8 and 9.6 years, respectively.

The following table summarizes the activity for unvested options for each of the periods presented.

| | Three months ended September 30, | | | |
|-------------------------------------|---------------------------------------|--|-------------------|--|
| | 2024 | | 2023 | |
| | Number of Options | Weighted Average Grant Date Fair Value per share | Number of Options | Weighted Average Grant Date Fair Value per share |
| | (In thousands, except per share data) | | | |
| Unvested at beginning of the period | 341 | \$ 1.79 | 838 | \$ 6.42 |
| Granted | 301 | 0.22 | 300 | 2.08 |
| Vested | — | — | (7) | 6.85 |
| Expired/forfeited | — | — | (278) | 10.48 |
| Unvested at end of the period | <u>642</u> | <u>\$ 1.05</u> | <u>853</u> | <u>\$ 3.57</u> |

As of September 30, 2024 and 2023, all outstanding stock options and vested stock options had no intrinsic value as the exercise prices of the respective options exceeded the Company's stock price on such dates. There were no options exercised during the three months ended September 30, 2024 and 2023.

Full Value Awards (Restricted Share Units, Director Share Units and Performance Share Units)

The following table summarizes RSU, DSU and PSU activity for each of the periods presented.

| | Serviced-Based Shares | Weighted Average Grant Date Fair Value per Share | Performance- Based Shares | Weighted Average Grant Date Fair Value per Unit | Total Shares |
|--|--------------------------|---|------------------------------|--|--------------|
| (In thousands, except per share data) | | | | | |
| Non-vested shares/units outstanding at June 30, 2024 | 367.8 | \$ 2.56 | 94.4 | \$ 5.73 | 462.2 |
| Granted | 353.0 | 0.52 | 455.3 ⁽¹⁾ | 0.51 | 808.3 |
| Vested | (323.5) | 1.95 | — | — | (323.5) |
| Forfeited | — | — | (22.9) | 2.46 | (22.9) |
| Non-vested shares/units outstanding at September 30, 2024 | <u>397.3</u> | <u>\$ 1.25</u> | <u>526.8</u> | <u>\$ 1.36</u> | <u>924.1</u> |

| | Serviced-Based Shares | Weighted Average Grant Date Fair Value per Share | Performance- Based Shares | Weighted Average Grant Date Fair Value per Unit | Total Shares |
|--|--------------------------|---|------------------------------|--|--------------|
| (In thousands, except per share data) | | | | | |
| Non-vested shares/units outstanding at June 30, 2023 | 209.8 | \$ 6.78 | 139.1 | \$ 7.20 | 348.9 |
| Granted | 186.6 | 2.46 | 121.6 ⁽²⁾ | 2.46 | 308.2 |
| Vested | (77.1) | 6.31 | — | — | (77.1) |
| Forfeited | (4.5) | 14.49 | (4.5) | 14.49 | (9.0) |
| Non-vested shares/units outstanding at September 30, 2023 | <u>314.8</u> | <u>\$ 4.23</u> | <u>256.2</u> | <u>\$ 4.82</u> | <u>571.0</u> |

(1) During the three months ended September 30, 2024, approximately 455.3 thousand PSUs were granted, which based on the achievement of certain financial and operational targets, could vest within a range of 0% to 100%. The targets are 1) construction of the large-scale commercial facility commencing prior to September 1, 2026; 2) an approved final investment decision in the large-scale commercial facility at a modeled internal rate of return of 20%; 3) achievement of an enterprise value in excess of \$200 million, and 4) achievement of an enterprise value in excess of \$300 million. The determination of the percentage of shares that ultimately vest will be made at the three-year anniversary of the grant date based upon achievement of the performance targets over the period.

(2) During the three months ended September 30, 2023, approximately 121.6 thousand PSUs were granted, which based on the achievement of certain financial and operational targets, could vest within a range of 0% to 100%. The targets are 1) construction of the large-scale commercial facility commencing prior to September 1, 2026; 2) the budget for the large-scale commercial facility remaining within a range of \$342-418 million; and 3) an approved final investment decision in the large-scale commercial facility at a modeled internal rate of return of 20%. The determination of the percentage of shares that ultimately vest will be made at the three-year anniversary of the grant date based upon achievement of the performance targets over the period.

During the three months ended September 30, 2024, the vesting of approximately 32 thousand RSUs was accelerated, and approximately 23 thousand PSUs were forfeited in accordance with the terms of a severance agreement with an employee. This resulted in approximately \$915 thousand of incremental share based compensation expense recognized during the quarter.

12. Earnings (Loss) Per Common Share

Basic loss per share is computed by dividing the net loss available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share reflects the potential dilution that could occur if DSUs, RSUs, PSUs, stock options and convertible securities such as the Convertible Notes (excluding any Additional Shares since the probability of a Make-Whole Fundamental Change cannot be predicted) and Warrants were exercised or converted into common stock at the end of the respective period. Diluted loss per share equals basic loss per share for the three months ended September 30, 2024 and 2023 as the effect of including dilutive securities in the calculation would be anti-dilutive.

For the three months ended September 30, 2024 and 2023, the following effects are excluded from the computation of dilutive loss per share as such effects would have an anti-dilutive effect.

| | Three Months Ended September 30, | |
|---|----------------------------------|----------|
| | 2024 | 2023 |
| (in thousands) | | |
| Interest expense on Convertible Notes | \$ 2,184 | \$ 2,393 |
| Derivative gain (loss) — Convertible Note Derivatives | \$ 2,187 | \$ — |
| Additional shares assuming conversion of Convertible Notes | 55,480 | 3,611 |
| Additional shares assuming exercise of Warrants | 10,667 | — |
| Stock options and unvested restricted stock units and performance share units | 3,566 | 4,780 |

13. Commitments and Contingencies

Purchase Obligations

As of September 30, 2024, the Company had purchase order commitments of approximately \$4.3 million primarily for engineering services for our proposed commercial-scale facility, drilling services related to wellfield development, raw materials for the operation of our SSF and other services.

Litigation

On July 17, 2023, the Company filed a complaint (the “Complaint”) against a previous construction contractor in the United States District Court for the Central District of California, Eastern Division, alleging, among other things, numerous breaches by the contractor of its contractual obligations to 5EBA under the Procurement and Construction Contract, effective April 26, 2022, by and between 5EBA and the contractor, relating to the construction of the SSF in California (the “Contract”). On August 10, 2023, the contractor filed an answer to the Complaint as well as a counterclaim for, among other things, alleged breaches by 5EBA of its contractual obligations to the contractor under the Contract and has requested relief in the approximate amount of \$5.5 million. The Company plans on filing a response disputing the counterclaims asserted by the contractor and reaffirming the grounds for recovery raised in the Complaint. Discovery has begun and is ongoing. An estimate of reasonably possible losses, if any, cannot be made at this time.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) summarizes the significant factors affecting the operating results, financial condition, liquidity and capital resources, and cash flows of our Company for the three months ended September 30, 2024 and 2023. This MD&A should be read in conjunction with, and is qualified in its entirety by, the unaudited condensed consolidated financial statements, the accompanying notes thereto and other financial information included in this Quarterly Report on Form 10-Q, and the consolidated financial statements and accompanying notes thereto and Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K, filed with the SEC on September 9, 2024 (the “Annual Report”). Except for historical information, this discussion and analysis contains forward looking statements that involve risks, uncertainties and assumptions and other important factors, which include, but are not limited to, the risks described elsewhere in this Form 10-Q under “Item 1A. Risk Factors” and elsewhere in our Annual Report filed with the SEC, any of which could cause the Company’s actual results, performance or achievements, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they are made. Additionally, you should refer to the “Cautionary Note Regarding Forward-Looking Statements.” References within this MD&A to the “Company,” “we,” “our,” and “us,” refer to 5E Advanced Materials, Inc. and its subsidiaries.

Overview

5E Advanced Materials, Inc. is focused on becoming a vertically integrated global leader and supplier of specialty boron and advanced boron derivative materials whose mission is to enable decarbonization, increase food security, and ensure domestic supply of critical materials. We hold 100% of the rights through ownership in the 5E Boron Americas (Fort Cady) Complex (the “Project”) through our wholly owned subsidiary 5E Boron Americas LLC. Our Project is underpinned by a mineral resource that includes boron and lithium, with the boron being contained in a conventional boron mineral known as colemanite. In 2022, our facility was designated as Critical Infrastructure by the U.S. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency. Our vision is to safely process boric acid and lithium carbonate through sustainable best practices to enable decarbonization, food security and domestic supply surety.

Recent Developments

Commercial Team Strategic Hires

During October 2024, we hired Mark Zamek as our Vice President of Commercial Products, and Kenneth Hoo as our Vice President of Commercial Products - APAC. Mr. Zamek has over 20 years of direct industry experience, having held various senior roles across sales and marketing functions at the largest global borate producers. Most recently, Mr. Zamek served as a consultant for Eti Maden, where he advised the U.S.-focused boron operations on commercial strategy and market expansion initiatives. Prior to that, Mr. Zamek served in numerous strategic sales and marketing roles for over twenty years with Rio Tinto’s U.S. Borax, most recently as Key Global Accounts Manager where he was responsible for managing the company’s largest global borates contract.

Mr. Hoo has over 17 years of borates industry experience, having held several roles in a sales capacity at the largest global borate producers, as well as consumers. Most recently, Mr. Hoo served as a Sales Manager at Rio Tinto Group, where he specialized in a variety of products, notably borates. Prior to that, Mr. Hoo served in numerous strategic sales roles at borate producers where he accumulated APAC supply chain and logistics expertise while focusing on developing commercial relationships in the Asian market.

We believe that the addition of Mr. Zamek and Mr. Hoo to our leadership team will progress our vision of becoming a leading global supplier of boric acid and boron specialty materials.

Highlights for the Three Months ended September 30, 2024

Operational Highlights

Operational Update

As of September 30, 2024, production rates at our Small-Scale Facility (the “SSF”) have steadied and, as of the date of this Quarterly Report, we are maintaining production of boric acid at one short ton per day with continuous improvement in production rates and product specification at the facility. Our operations team has successfully programmed crystallization to operate in automatic mode such that distillation occurs based on feed concentration, improving both boric acid consistency and quality. Recently, the SSF’s belt filter spray nozzle systems were optimized to maintain sulfur content below 100 ppm, which is lower than levels specified by customers in our qualification program.

As of the date of this Quarterly Report, we have begun to remove metal salts as calcium levels and metal salts have lagged boric acid leach rates. Calcium content as of October 2024 has increased to greater than 20,000 ppm, necessitating the production of a calcium-based by-product. As we assess commercial scale engineering, the anticipated recovery solution after removal of calcium is expected to reinforce our confidence levels of solution feed profiles that inform raw material utilizations that drive operating expenses, which we believe will enable us to have a more refined view of our future capital needs and operating expense profile. We continue to evaluate calcium chloride as a potential byproduct and have tested and produced samples of a 38% calcium chloride solution that we believe are representative of what could be produced on a commercial scale.

We anticipate maintaining boric acid production rates of one short ton per day for the foreseeable future while the SSF continues to provide the necessary data to inform and refine the design of our commercial-scale facility, explore ways to optimize our wellfield design and related capital costs, and progress our customer qualification program.

Financing Highlights

August 2024 Equity Offering

On August 27, 2024, we completed an offering (the “August 2024 Equity Offering”) of (i) 5,333,333 shares (the “Shares”) of our common stock, par value \$0.01 per share (“Common Stock”), (ii) Series A warrants to purchase up to an aggregate of up to 5,333,333 shares of Common Stock (the “Series A Warrants”) and (iii) Series B warrants to purchase an aggregate of 5,333,333 shares of Common Stock (the “Series B Warrants”, and collectively with the Series A Warrants, the “Warrants”). The Shares and Warrants were offered and sold on a combined basis for consideration equating to \$0.75 for one Share and two Warrants. The exercise price for each of the Warrants is \$0.7981 per share.

The Series A Warrants and the Series B Warrants are initially exercisable on February 27, 2025. The Series A Warrants will expire on February 27, 2030 and the Series B Warrants will expire on February 27, 2027. The Warrants contain standard adjustments to the exercise price including for stock splits, stock dividends, rights offerings and pro rata distributions. The Warrants also include certain rights upon the occurrence of a “fundamental transaction” (as described in the Warrants), including the right of the holder thereof to receive from the Company or a successor entity the same type or form of consideration (and in the same proportion) that is being offered and paid to the holders of Common Stock in such fundamental transaction in the amount of the Black Scholes value (as described in the Warrants) of the unexercised portion of the Warrant on the date of the consummation of such fundamental transaction. The Warrants include cashless exercise rights to the extent the resale of the shares of Common Stock underlying the Warrants is not registered under the Securities Act.

In connection with the August 2024 Equity Offering, we agreed not to issue any shares of Common Stock (or securities exercisable or exchangeable for Common Stock) for a period of 90 days following the closing of the offering, or to enter into any “variable rate transactions” for one year following the closing of the offering.

The net proceeds to us for the August 2024 Equity Offering were approximately \$3.0 million after deducting the placement agent’s fees and other offering expenses payable by us (inclusive of amounts payable and accrued as of September 30, 2024).

September 2024 Notes Offering

On September 16, 2024, pursuant to an amended and restated note purchase agreement (the “September 2024 Amended and Restated Note Purchase Agreement”), we issued and sold new senior secured convertible notes in an aggregate principal amount of \$6.0 million (the “September 2024 Notes”), comprised of \$3.0 million of September 2024 Notes to Bluescape Special Situations IV (“Bluescape”), and \$1.5 million of September 2024 Notes to each of Ascend Global Investment Fund SPC for and on behalf of Strategic SP (“Ascend”) and Meridian Investments Corporation (“Meridian”). The net proceeds to us for the September 2024 Notes Offering were approximately \$5.5 million after deducting issuance costs and fees payable by us (inclusive of amounts payable and accrued for third-party expenses as of September 30, 2024). For additional information, see “Note 7–Debt” to the unaudited condensed consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q.

EXIM Bank Letter of Interest

In September 2024, we received a non-binding Letter of Interest (“LOI”) from the Export-Import Bank of the United States (“EXIM”). The LOI outlines the potential for the creation of a debt facility of up to \$285 million, which would be utilized for commercial-scale development and construction of 5E’s Boron Americas Complex. The potential debt funding package would carry a repayment tenor of up to 15 years under EXIM’s Make More in America Initiative, a part of a whole-of-government effort to strengthen America’s supply chains, support American jobs and boost America’s ability to compete with countries like China, especially in sectors critical to national security. We believe the LOI demonstrates a growing awareness and commitment by the U.S. government to securing an integrated boron supply chain.

We expect to submit a formal application to EXIM in calendar year 2025, at which point we expect EXIM would begin the necessary due diligence to determine if a final commitment may be issued. A final commitment, if any, must comply with EXIM's policies and eligibility requirements, and will depend on meeting EXIM's underwriting criteria, authorization process, finalization and satisfaction of terms and conditions. The LOI does not represent a funding commitment nor an indication of financing or project viability and there is no guarantee that we will secure the EXIM funding commitment.

Financing Transactions — Liquidity Considerations

Although the August 2024 Equity Offering and issuance of September 2024 Notes improved our cash position by providing an aggregate of approximately \$8.6 million of net proceeds after issuance costs and fees to the Company (inclusive of amounts payable and accrued as of September 30, 2024), and we continue to operate under a business plan that includes reductions in certain spending, we will need additional financing in order to continue as a going concern and maintain a cash balance in excess of the \$7.5 million minimum cash covenant contained in the September 2024 Amended and Restated Note Purchase Agreement (as discussed in Note 7—*Debt* to the unaudited condensed consolidated financial statements). An event of default under the September 2024 Amended and Restated Note Purchase Agreement would cause all of our Convertible Notes to become immediately due and payable, for which we would not have the resources to repay without additional financing. The receipt of potential funding cannot be considered probable at this time because these plans are not entirely within management's control as of the date of the unaudited condensed consolidated financial statements. Therefore, there exists substantial doubt regarding our ability to continue as a going concern. Even if additional financing is successfully consummated, available liquidity may still not be sufficient to eliminate the aforementioned substantial doubt regarding our ability to continue as a going concern. Refer to the "Going Concern" discussion within Note 1—*Basis of Financial Statement Presentation* of the unaudited condensed consolidated financial statements and "Liquidity and Capital Resources" below for more information.

Results of Operations

The following table summarizes our results of operations for the periods presented.

| | Three Months Ended September 30, | | Change | |
|---------------------------------------|---|-------------|---------------|----------|
| | 2024 | 2023 | \$ | % |
| | (in thousands) | | | |
| COSTS AND EXPENSES | | | | |
| Project expenses | \$ 1,554 | \$ 1,583 | \$ (29) | -2% |
| Small-scale facility operating costs | 1,587 | — | 1,587 | N/A |
| General and administrative | 4,798 | 6,038 | (1,240) | -21% |
| Research and development | — | 39 | (39) | -100% |
| Depreciation and amortization expense | 4,972 | 53 | 4,919 | * |
| Total costs and expenses | 12,911 | 7,713 | 5,198 | 67% |
| LOSS FROM OPERATIONS | (12,911) | (7,713) | (5,198) | 67% |
| NON-OPERATING INCOME (EXPENSE) | | | | |
| Interest income | 23 | 132 | (109) | -83% |

* Represents a percentage change greater than +/- 300%

Comparison of the three months ended September 30, 2024 and 2023

Project expenses

Project expenses include drilling, plug and abandonment, site-preparation, engineering, consumables, testing and sampling, hydrology, permits, surveys, and other expenses associated with further progressing our Project. Prior to April 1, 2024, Project expenses also included non-labor related costs incurred to prepare for the operation of the SSF, as these costs were incurred prior to the SSF being placed into operation. For the three months ended September 30, 2024, project expenses decreased \$29 thousand, or 2%, versus the comparable period in the prior year. The decrease was primarily the result of (i) a decrease in Environmental Protection Agency compliance costs (\$0.4 million), (ii) a decrease in testing and analysis costs (\$0.2 million), (iii) a decrease in insurance costs (\$0.1 million), and (iv) a reduction in expenses incurred relating to our plug and abandonment program to prepare the wellfield for injection

operations (\$0.1 million). These decreases were offset by increases in (i) materials and drilling services for the installation of additional observation wells (\$0.5 million), and (ii) an increase in site related costs (\$0.2 million).

Small-scale facility operating costs

Small-scale facility operating costs consists of raw materials, salaries and benefits for employees that are directly responsible for the operation of the SSF and maintenance and upkeep related to the SSF after April 1, 2024. Prior to April 1, 2024, such costs were reported within either Project expenses or General and administrative expenses as the small-scale facility had not yet been placed into operation. For the three months ended September 30, 2024, Small-scale facility operating costs consisted of (i) salaries and benefits for our employees directly responsible for operating the SSF (\$1.2 million), (ii) raw materials necessary to operate the SSF and produce boric acid (\$0.2 million), and (iii) maintenance, upkeep and other costs incurred for the operation of the SSF (\$0.2 million). There were no comparable expenses for the prior year as the SSF had not yet been placed into service and such costs were reported as either Project expenses or General and administrative expenses, as appropriate.

General and administrative expenses

General and administrative expenses include professional fees, costs associated with marketing, on-going SEC and public company costs, public relations, rent, salaries, share-based compensation and other expenses. Prior to April 1, 2024, all salaries and benefits for the entire organization were reported in general and administrative expenses. After April 1, 2024, the date which we began commercial operation of the SSF, salaries and benefits for employees that are directly responsible for the operation of the SSF are reported in Small-scale facility operating costs. For the three months ended September 30, 2024, general and administrative expenses decreased \$1.2 million, or 21%, versus the comparable period in the prior fiscal year. The decrease was primarily due to (i) \$1.2 million of salaries and benefits for personnel responsible for the operation of the SSF, which are now reported as Small-scale facility operating costs, (ii) a reduction in professional and legal fees (\$0.4 million), (iii) a reduction on incentive compensation related costs (\$0.4 million), and (iv) a reduction in marketing related costs (\$0.1 million). These decreases were partially offset by an increase in share-based compensation costs, which was primarily the result of the acceleration of certain awards in accordance with an employee's severance agreement (\$0.8 million).

Research and development

Research and development expense includes costs incurred under research agreements with Georgetown University and Boston College that aim to enhance the performance of permanent magnets through increased use of boron. Both engagements were completed during the second fiscal quarter of 2024. Therefore, we incurred no research and development costs in the three months ended September 30, 2024.

Depreciation and amortization expense

Depreciation and amortization relates to use of our SSF, injection and recovery wells, owned or leased vehicles, buildings and equipment and the accretion of our asset retirement obligations. For the three months ended September 30, 2024, depreciation and amortization expense increased \$4.9 million versus the comparable period in the prior year. This increase was primarily due to placing the SSF and its related injection and recovery wells, facilities and equipment into service as of April 1, 2024 corresponding with the commencement of commercial operations.

Interest income

Interest income is derived from the investment of our excess cash and cash equivalents in short-term (original maturities of three months or less) investments of highly liquid treasury bills and certificates of deposit. For the three months ended September 30, 2024, interest income decreased \$109 thousand, or 83%, versus the comparable period in the prior fiscal year. Such decrease correspond to decreases in our average cash and cash equivalent balances between the periods.

Other income

Other income is derived from the third-party use of our hydrology wells and the sale of scrap and other materials. For the three months ended September 30, 2024, other income decreased \$2 thousand, or 67%, versus the comparable period in the prior fiscal year. The decrease primarily relates to reduced third-party use of our hydrology wells compared to the prior year.

Derivative gain

Derivative gain (loss) results from changes in the fair value of the embedded conversion features relating to degressive issuance provisions originally contained in the May 2024 Amended and Restated Note Purchase Agreement, and subsequently incorporated into and continue under the September 2024 Amended and Restated Note Purchase Agreement as it relates to the June 2024 Convertible Note Derivative and September 2024 Convertible Note Derivative that are required to be bifurcated and accounted for

separately as stand-alone derivative instruments (as discussed within Note 7 and Note 8 to the unaudited condensed consolidated financial statements).

The unrealized derivative gain (loss) during the three months ended September 30, 2024 was primarily due to a decrease in our stock price during the period, which resulted in a gain on the June 2024 Convertible Note Derivative. Our stock price on June 28, 2024 (the last trading day prior to the end of our prior fiscal year) and September 30, 2024 (the end of the current fiscal quarter) was \$1.21 and \$0.54, respectively. The observed decline in our stock price, particularly to a price below the Conversion Price for the June 2024 Notes, resulted in a decline in the value of the embedded conversion feature and a resulting derivative gain of \$2.4 million. This derivative gain was offset, to a lesser extent, by a loss with respect to the September 2024 Convertible Note Derivative during the same period. The unrealized derivative loss was primarily due to an increase in our stock price from \$0.50 on September 16, 2024 (the issuance date of the September 2024 Notes) to \$0.54 on September 30, 2024 (the end of the current fiscal quarter). There were no comparable embedded conversion features requiring bifurcation and separate accounting in the comparative period in the prior fiscal year and therefore there was no related Derivative gain (loss). Future changes in the fair value of the embedded conversion features prior to their expiration will affect future net income, but will not have any effect on cash flows. On December 31, 2024, the conversion features associated with the June 2024 Notes and September 2024 Notes that results in separate accounting will expire and the fair value of such derivatives, if any, will be transferred to additional paid-in capital on such date.

Interest expense

Interest expense primarily relates to interest expense incurred on the Convertible Notes and is net of amounts capitalized to construction-in-progress. Prior to the execution of an amended and restated note purchase agreement on January 18, 2024 (the “January 2024 Amended and Restated Note Purchase Agreement”), the August 2022 Notes accrued interest at a rate of 6% when interest was paid-in-kind through the issuance of additional notes. Subsequent to the January 2024 Amended and Restated Note Purchase Agreement and continuing under the September 2024 Amended and Restated Note Purchase Agreement, the August 2022 Notes accrue interest at a rate of 10% when interest is paid-in-kind through the issuance of additional notes, with such rate also applying to the June 2024 Notes and September 2024 Notes. We also recognize interest expense for the amortization of debt issuance costs and the amortization of debt discounts on the Convertible Notes. As part of the modification of the terms of our debt associated with the January 2024 Amended and Restated Note Purchase Agreement, the modified debt was recognized at fair value on our balance sheet which eliminated the prior debt discount that was amortized to interest expense.

For the three months ended September 30, 2024, interest expense increased \$0.4 million, or 21%, versus the comparable period in the prior fiscal year. This increase was primarily due to the combined effect of interest accruing (i) at 10% under the terms of our January 2024 Amended and Restated Note Purchase Agreement compared to 6% under our prior agreement in the prior period, (ii) on a \$12 million aggregate increase in the principal balance of Convertible Notes resulting from the issuance of the June 2024 Notes and September 2024 Notes, and (iii) on \$2.1 million and \$3.4 million of interest that was paid-in-kind during February of 2024 and August of 2024, respectively (for a combined impact of \$0.9 million increase in interest expense). Interest expense also increased as a result of capitalizing less interest expense to construction-in-progress between periods as a result of the SSF being placed into service on April 1, 2024 and therefore no longer eligible for interest capitalization (an impact of \$0.6 million increase in interest expense). These increases were partially offset by the effects of a reduction in the amount of debt discount and debt issuance costs amortization primarily resulting from the write-off of the remaining unamortized debt discount and debt issuance costs (established August 26, 2022) and corresponding elimination of the amortization of such amounts in connection with the accounting for the January 2024 Amended and Restated Note Purchase Agreement (\$1.1 million reduction in interest expense).

Liquidity and Capital Resources

Overview

As of September 30, 2024, we had cash and cash equivalents of \$6.9 million and working capital of \$0.6 million compared to \$4.9 million of cash and cash equivalents and a working capital deficit of \$2.9 million as of June 30, 2024. Our predominant source of cash has been generated through equity financing from issuances of our common stock and equity-linked securities, including our Convertible Notes. Since inception, we have not generated revenues, and as such, have relied on equity financing and equity-linked instruments to fund our operating and investing activities. We maintain the majority of our cash and cash equivalents in accounts with major U.S. and multi-national financial institutions, and our deposits at certain of these institutions may exceed insured limits. Market conditions can impact the viability of these institutions.

A summary of our cash flows for the three months ended September 30, 2024 and 2023 follows.

| | For the three months ended | | Change | |
|--|----------------------------|-------------------|------------------|--------------|
| | September 30, | | \$ | % |
| | 2024 | 2023 | | |
| | (\$ in thousands) | | | |
| Net cash used in operating activities | \$ (6,375) | \$ (6,886) | \$ 511 | -7% |
| Net cash used in investing activities | (400) | (1,631) | 1,231 | -75% |
| Net cash provided by financing activities | 8,730 | (10) | 8,740 | * |
| Net increase (decrease) in cash and cash equivalents | <u>\$ 1,955</u> | <u>\$ (8,527)</u> | <u>\$ 10,482</u> | <u>-123%</u> |

* Represents a percentage change greater than +/- 300%

Cash Flows Used For Operating Activities

Net cash used in operating activities for each of the above periods was primarily the result of general and administrative costs (exclusive of share-based compensation), costs incurred in furthering the Project, preparing us for the operation of the SSF, and operating costs of the SSF after commercial operations commenced on April 1, 2024. During the three months ended September 30, 2024, we used \$6.4 million of cash for operating activities, a decrease of approximately \$0.5 million or 7% compared to the comparable period in the prior fiscal year. The decrease in cash used in operations during the current period primarily results from the combined decrease in General and administrative and Small-scale facility operating costs, net of non-cash share-based compensation expense in fiscal year 2024 versus the prior fiscal year (refer to the discussion of year-over-year changes in Project expenses and General and administrative expenses above for additional details).

Cash Flows Used For Investing Activities

Our cash flows used for investing activities primarily relate to equipment purchases, engineering, the construction and commissioning of our SSF, and FEL-2 engineering related to our commercial-scale facility. During the three months ended September 30, 2024, we used \$0.4 million of cash for investing activities, a decrease of approximately \$1.2 million, or 75%, compared to the comparable period in the prior fiscal year. Net cash used in investing activities during the three months ended September 30, 2024 related to engineering services for FEL-2 engineering of our commercial-scale facility. Net cash used in investing activities during the three months ended September 30, 2023 primarily related to final construction and commissioning of our SSF.

Cash Flows From Financing Activities

Our cash flows from financing activities primarily relate to equity and equity-linked financing transactions to fund our business and operations. Cash flows provided by financing activities for the three months ended September 30, 2024 were the result of (i) approximately \$3.1 million of net proceeds received from the August 2024 Equity Offering, after recognition of the related costs and fees (exclusive of amounts payable and accrued as of September 30, 2024), and (ii) approximately \$5.7 million of proceeds received from the issuance of September 2024 Notes, after recognition of the related costs and fees (exclusive of amounts payable and accrued as of September 30, 2024). Cash flows used in financing activities during the comparable prior fiscal year were the result of payments on the Company's vehicle loans.

Convertible Notes Summary

As of September 30, 2024, we had an aggregate principal amount of Convertible Notes of approximately \$81.1 million outstanding. The Convertible Notes are convertible into shares of the Company's Common Stock, are secured by substantially all of the Company's assets and mature on August 15, 2028, as further described below. Additional details related to the Convertible Notes can be found in Note 7—*Debt* to the unaudited condensed consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q.

The August 2022 Notes are convertible into 66,261,621 shares of Common Stock (including principal and accrued interest paid-in-kind until maturity), and may be convertible into a maximum of an additional 33,130,816 Additional Shares upon the occurrence of a Make-Whole Fundamental Change.

The June 2024 Notes are convertible into 6,252,368 shares of Common Stock (including principal and accrued interest paid-in-kind until maturity), and may be convertible into a maximum of an additional 3,126,184 Additional Shares upon the occurrence of a Make-Whole Fundamental Change.

The September 2024 Notes are convertible into 9,380,671 shares of Common Stock (including principal and accrued interest paid-in-kind until maturity), and may be convertible into a maximum of an additional 3,908,615 Additional Shares upon the occurrence of a Make-Whole Fundamental Change.

Equity Offerings

On August 27, 2024, we completed the August 2024 Equity Offering of (i) 5,333,333 Shares of Common Stock, (ii) Series A Warrants to purchase up to an aggregate of up to 5,333,333 shares of Common Stock, and (iii) Series B Warrants to purchase an aggregate of 5,333,333 shares of Common Stock. The Shares and Warrants were offered and sold on a combined basis for consideration equating to \$0.75 for one Share and two Warrants.

The Series A Warrants and the Series B Warrants are initially exercisable on February 27, 2025. The Series A Warrants will expire on February 27, 2030 and the Series B Warrants will expire on February 27, 2027. The Warrants contain standard adjustments to the exercise price including for stock splits, stock dividends, rights offerings and pro rata distributions. The Warrants also include certain rights upon the occurrence of a “fundamental transaction” (as described in the Warrants), including the right of the holder thereof to receive from the Company or a successor entity the same type or form of consideration (and in the same proportion) that is being offered and paid to the holders of Common Stock in such fundamental transaction in the amount of the Black Scholes value (as described in the Warrants) of the unexercised portion of the Warrant on the date of the consummation of such fundamental transaction. The Warrants include cashless exercise rights to the extent the resale of the shares of Common Stock underlying the Warrants is not registered under the Securities Act.

2024 Equity Distribution Agreement

On March 28, 2024, we entered into an equity distribution agreement (the “Equity Distribution Agreement”) with Canaccord Genuity LLC and D.A. Davidson & Co. (the “Agents”) pursuant to which we may offer and sell up to \$15.0 million of shares of our Common Stock from time to time through the Agents, acting as our sales agents, or directly to one or more of the Agents, acting as principal (the “ATM Program”).

Neither of the Agents is required to sell any specific number or dollar amount of shares of our Common Stock, but each has agreed, subject to the terms and conditions of the Equity Distribution Agreement, to use its commercially reasonable efforts, consistent with its normal trading and sales practices, to sell the shares of Common Stock on the terms agreed upon by such Agent and the Company.

We did not sell any shares of common stock nor receive any proceeds under the Equity Distribution Agreement during the three months ended September 30, 2024. As a result of the August 2024 Equity Offering, we are precluded from utilizing the ATM program until after August 27, 2025.

Material Cash Requirements

Our material short-term cash requirements include general and administrative expenses including recurring payroll and benefit obligations for our employees, costs necessary to further engineering of our proposed commercial-scale complex, operating costs for the SSF, project related costs, payments under certain lease agreements and working capital needs. Our long-term material cash requirements from currently known obligations include repayment of outstanding borrowings and interest payment obligations under our Convertible Notes (which may be avoided to the extent the Convertible Notes are converted to shares of our Common Stock and/or interest is paid-in-kind) and future obligations to reclaim, remediate, or otherwise restore properties to a condition that existed prior to our operations. Refer to the “Construction in Progress,” “Asset Retirement Obligations,” “Accounts Payable and Accrued Liabilities,” “Long-term Debt” and “Commitments and Contingencies” footnotes in the unaudited condensed consolidated financial statements for more information on certain of these expenditures and obligations.

Contractual Commitments and Contingencies

Purchase Obligations

As of September 30, 2024, we had purchase order commitments of approximately \$4.3 million primarily for engineering services for our proposed commercial-scale facility, drilling services related to wellfield development, raw materials for the operation of our small-scale facility and other services.

Future Capital Requirements

Over the next 12 months we have the following plans that will require additional capital:

- Operate the SSF to provide the necessary data for our commercial-scale facility and progress our customer qualification program;
- Progress FEL-2, FEL-3, and detail engineering;
- Optimize well-field design in an effort to reduce future mining capital and operational expenditure through various drilling techniques such as directional, horizontal and radial drilling;

- Pursue and optimize infrastructure capital expenditures for our larger-scale facility which could include expansion of non-potable water resources, upgrading shore power, connection to a natural gas network, and constructing new access roads into and out of the location for our larger-scale facility; and
- Further define our advanced materials strategy with consideration to engineering and repurposing our SSF to produce boron advanced materials once sufficient data has been obtained for flow sheet optimization and the production of product for customer qualification.

Although the August 2024 Equity Offering and issuance of the September 2024 Notes, each discussed above, improved our cash position, and we continue to operate under a business plan that includes reductions in certain spending, we will need additional financing in order to continue as a going concern and maintain a cash balance in excess of the \$7.5 million minimum cash covenant contained in the Amended and Restated Note Purchase Agreement. Absent additional financing as outlined above, we may no longer be able to meet our ongoing obligations, continue operations or achieve the milestones outlined above. If we are not able to secure additional financing cash flows and our cash balance falls below \$7.5 million after December 31, 2024, an event of default under the Amended and Restated Note Purchase Agreement would occur if not cured after 30 days. An event of default would cause our Convertible Notes balance outstanding to become immediately due and payable, for which we would not have the resources to repay without additional financing.

We intend to explore different potential financing strategies to help support the growth of our business and execution of our business plan, including equity or debt financing, government funding or grants, private capital, royalty agreements or customer prepayments, or other strategic alliances with third parties. However, there is no assurance that we will be able to secure additional financing on adequate terms, in a timely manner, or at all.

The receipt of potential funding cannot be considered probable at this time because these plans are not entirely within management's control as of the date of the unaudited condensed consolidated financial statements. Therefore, there exists substantial doubt regarding our ability to continue as a going concern for a period of one year after the date that these financial statements are issued. Even if additional financing is successfully consummated, available liquidity may still not be sufficient to eliminate the aforementioned substantial doubt regarding our ability to continue as a going concern. Refer to the "Going Concern" discussion within Note 1 of the unaudited condensed consolidated financial statements for more information.

Critical Accounting Policies

A complete discussion of our critical accounting policies is included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2024. There have been no significant changes in our critical accounting policies during the three months ended September 30, 2024.

In November 2023, the FASB issued Accounting Standards Update ("ASU") 2023-07, Segment Reporting (Topic 280) ("ASU 2023-07"). ASU 2023-07 is intended to enhance reportable segment disclosure requirements, including significant segment expenses and interim disclosures. The guidance allows for disclosure of multiple measures of a segment's profit or loss, and it requires that public entities with a single reportable segment provide all disclosures required by ASU 2023-07 and all existing disclosures required by the existing segment disclosure guidance. ASU 2023-07 is effective for annual reporting periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The amendments are to be applied retrospectively, and early adoption is permitted. We are evaluating the impact that ASU 2023-07 will have on our consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 is intended to improve income tax disclosures primarily through enhanced disclosure of income tax rate reconciliation items, and disaggregation of income (loss) from continuing operations, income tax expense (benefit) and income taxes paid, net disclosures by federal, state and foreign jurisdictions, among others. ASU 2023-09 is effective for annual reporting periods beginning after December 15, 2024, and early adoption is permitted. We are evaluating the impact that ASU 2023-09 will have on our consolidated financial statements and our plan for adoption, including the adoption date and transition method.

In November 2024, the FASB issued ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses ("ASU 2024-03"), which requires the disaggregation of certain expenses in the notes of the financials, to provide enhanced transparency into the expense captions presented on the face of the income statement. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027 and may be applied either prospectively or retrospectively. We are evaluating the impact that ASU 2024-03 will have on our related disclosures, including the adoption date and transition method.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined in Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this Item 3.

Item 4. Controls and Procedures.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), our management evaluated, under the supervision and with the participation of our Chief Executive Officer and our Interim Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of September 30, 2024. Based on the evaluation of our disclosure controls and procedures, our Chief Executive Officer and Interim Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of September 30, 2024 to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in the evaluation for the quarter ended September 30, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

Except as disclosed in Note 13—*Commitments and Contingencies* in the unaudited condensed consolidated financial statements of this Quarterly Report on Form 10-Q, as of the date of this filing, we are not a party to any material pending legal proceedings, nor are we aware of any material civil proceeding or government authority contemplating any legal proceeding, and to our knowledge, no such proceedings by or against us have been threatened. We anticipate that we and our subsidiaries may from time to time become subject to various claims, legal proceedings, governmental inspections, audits, or investigations arising in the ordinary course of business. It is not feasible to predict the outcome of any such proceedings, and we cannot assure that their ultimate disposition will not have a material adverse effect on our business, financial condition, cash flows or results of operations.

Item 1A. Risk Factors.

Except as described below, there have been no material changes to the risk factors previously disclosed in Part I, Item 1A., “Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended June 30, 2024. You should carefully consider the factors discussed in Part 1, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended June 30, 2024, which could materially affect our business, financial condition, and future results. Additional risk and uncertainties not currently known to us may also materially adversely affect our business, financial condition, cash flows or results of operations.

Exercise of our outstanding Warrants will dilute the ownership interest of our existing stockholders or may otherwise depress the price of our Common Stock.

In August 2024, we issued and sold warrants to purchase an aggregate of 10,666,666 shares of our common stock at an exercise price of \$0.7981 per share, including 5,333,333 Series A Warrants and 5,333,333 Series B Warrants, which will be initially exercisable on February 27, 2025. The Series A Warrants will expire on February 27, 2030 and the Series B Warrants will expire on February 27, 2027.

The exercise of some or all of the warrants will dilute the ownership interests of existing stockholders and increase the number of shares of common stock eligible for resale in the public market. Any sales in the public market of the shares of common stock issuable upon such exercise of the warrants, or the anticipation of such exercises and sales, could adversely affect prevailing market prices of our common stock. Additionally, the existence of the warrants may encourage short selling by market participants because the exercise of the warrants could be used to satisfy short positions, or the anticipated exercise of the warrants for shares of common stock could depress the price of our common stock.

Nasdaq may de-list our securities from its exchange, which could limit investors’ ability to transact in our securities, subject us to additional trading restrictions and substantially increase the number of shares issuable upon conversion of our outstanding convertible notes .

We are required to meet the continued listing requirements of the Nasdaq Global Select Market and if we fail to satisfy such continued listing requirements, Nasdaq may take steps to delist our securities. For example, on September 12, 2024, we received written notice from Nasdaq (the “Notice”) notifying us that, for the prior 30 consecutive business days, the bid price for our common stock had closed below the \$1.00 minimum bid price requirement for continued listing on the Nasdaq Global Select Market (the “Minimum Bid Price Requirement”). The Notice had no immediate effect on the listing of our common stock. In accordance with Nasdaq Listing Rule 5810(c)(3)(A), we have a period of 180 calendar days, or until March 11, 2025, to regain compliance with the Minimum Bid Price Requirement. To regain compliance, the closing bid price of our common stock must be at least \$1.00 per share for a minimum of 10 consecutive business days as required under Nasdaq Listing Rule 5810(c)(3)(A) (unless the Nasdaq staff exercises its discretion to extend this ten-day period pursuant to Nasdaq Listing Rule 5810(c)(3)(H)) during the 180-day period prior to March 11, 2025).

If we do not regain compliance by March 11, 2025, we may be eligible for an additional 180-calendar day compliance period by transferring the listing of our common stock to the Nasdaq Capital Market and satisfying certain other requirements. If we fail to regain compliance during the compliance period (including a second compliance period provided by a transfer to the Nasdaq Capital Market, if applicable), then Nasdaq will notify us of its determination to delist our common stock, at which point we may appeal Nasdaq’s delisting determination to a Nasdaq hearing panel.

We intend to actively monitor the closing bid price of our common stock and will consider all available options to regain compliance with the minimum bid price requirement, which may include transferring the listing to the Nasdaq Capital Market and/or seeking stockholder approval to effect a reverse stock split. However, there can be no assurance that any such reverse stock split, if approved by the stockholders and implemented, would increase the market price of our common stock in proportion to the reverse split ratio or result in a sustained increase in the market price of our common stock. In addition, it is possible that the reduced number of issued shares of common stock resulting from such a reverse stock split could adversely affect the liquidity of our common stock. There can also be no assurance that we will regain compliance with the Minimum Bid Price Requirement during the 180-day compliance period,

secure a second 180-day period to regain compliance, maintain compliance with the other Nasdaq listing requirements, or be successful in appealing any delisting determination.

If our common stock is delisted from Nasdaq in the future, it is unlikely that we will be able to re-list our common stock on another national securities exchange and, as a result, we expect our securities would be quoted on an over-the-counter market. If this occurs, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our common stock;
- a determination that our common stock is a “penny stock” which will require brokers trading in our common stock to adhere to more stringent rules, which could result in a reduced level of trading activity in the secondary trading market for our common stock;
- more limited news and analyst coverage for us; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

Additionally, a delisting of our common stock from Nasdaq would constitute a Make-Whole Fundamental Change under our Amended and Restated Note Purchase Agreement (each as defined below), thereby substantially increasing the number of shares of common stock issuable upon exercise of our outstanding Convertible Notes.

Delisting also could result in, among other things, a loss of investor confidence or interest in strategic transactions or opportunities, us being subject to regulation in each state in which we offer our securities, and difficulty in recruiting and retaining personnel through equity incentive awards.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sale of Equity Securities

Except as previously disclosed in Current Reports on Form 8-K, there were no unregistered sales of equity securities for the three months ended September 30, 2024.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable as we do not currently operate any mines subject to the U.S. Federal Mine Safety and Health Act of 1977.

Item 5. Other Information.

(a) Disclosure in lieu of reporting on a Current Report on Form 8-K.

None.

(b) Material changes to the procedures by which security holders may recommend nominees to the board of directors.

None.

(c) Insider Trading Arrangements and Policies.

During the three months ended September 30, 2024, none of the Company's directors or executive officers (as defined in Rule 16a-1(f) under the Exchange Act) adopted or terminated any “Rule 10b5-1 trading arrangements” or “non-Rule 10b5-1 trading arrangements,” as each term is defined in Item 408(a) of Regulation S-K.

Item 6. Exhibits.

Exhibit Index

The following documents are filed as exhibits hereto:

| Exhibit Number | Exhibit Title |
|-------------------|---|
| 3.1 | Amended and Restated Certificate of Incorporation of 5E Advanced Materials, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on January 19, 2024). |
| 3.2 | Second Amended and Restated Bylaws of 5E Advanced Materials, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on form 8-K filed with the SEC on November 1, 2024). |
| 4.1 | Form of Series A Common Stock Purchase Warrant (incorporated by reference to Exhibit 4.1 to the Company's Current Report on Form 8-K filed with the SEC on August 28, 2024). |
| 4.2 | Form of Series B Common Stock Purchase Warrant (incorporated by reference to Exhibit 4.2 to the Company's Current Report on Form 8-K filed with the SEC on August 28, 2024). |
| 10.1 | Form of Securities Purchase Agreement (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on August 28, 2024). |
| 10.2 | Amendment No. 3 to the Amended and Restated Note Purchase Agreement, dated September 16, 2024 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on September 16, 2024). |
| 10.3 | Third Amended and Restated Investor and Registration Rights Agreement, dated September 16, 2024 (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed with the SEC on September 16, 2024). |
| 10.4 [^] | Independent Contractor Agreement with Malm Consulting LLC, dated September 9, 2024 (incorporated by reference to Exhibit 10.28 to the Company's Annual Report on Form 10-K filed with the SEC on September 9, 2024). |
| 31.1* | Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002. |
| 31.2* | Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002. |
| 32.1** | Certification of Principal Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. |
| 32.2** | Certification of Principal Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. |

CERTIFICATION

I, Paul Weibel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of 5E Advanced Materials, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
