

# ASX Announcement

## Victorian EGM technology trials

**Sydney: Tuesday, 26 November 2024**

Endeavour Group Limited (ASX:EDV) acknowledges the Victorian Government's introduction of procedural legislation relating to gaming regulation today. This legislation relates to details announced in July 2023 and confirms certain next steps, including technology trials.

In line with other jurisdictions, Endeavour Group will offer to participate in the Victorian Government's new technology trial for Electronic Gaming Machines (EGMs) due to commence in 2025.

Based on its success to date in South Australia, Endeavour is optimistic about the role Facial Recognition Technology (FRT) can play in harm minimisation, with trials conducted in ALH Hotels in other states as well.

As previously stated, Endeavour supports a reduction of cash load-up limits to \$100 for its Victorian EGMs, a measure already in place in South Australia. Further to this, EGMs in ALH Hotels in Victoria already operate with three-second spin rates.

Endeavour maintains an active and constructive dialogue with the Minister and Government on potential harm minimisation and anti-money laundering initiatives through a variety of forums, including the Government's technical working group.

Our membership of this working group is ongoing, and we confirm our continued commitment to engaging with regulators and governments in all jurisdictions, and participating in trials to provide key insights around the future use of technology.
