Commenting on the milestone and business update, CEO and Managing Director Matt Heine said:

Today marks our 25th anniversary and we are excited to announce that we have also reached a major milestone exceeding \$100 billion Funds Under Administration ('FUA').

Fittingly, today also marks the next evolution and launch of our new online platform experience which provides a modern, intuitive and interactive interface that will support the next chapter of our growth.

25 years ago, Netwealth was incorporated by our Founder and Director, Michael Heine, with a vision to create an innovative online wealth management platform.

In 2007, eight years later, thanks to a number of early supporters, we achieved our first billion dollars of FUA and today, as we continue our mission to improve the financial futures of one million Australians, we are proud to administer 100 times that on behalf of our investors and Superannuation members.

We are incredibly proud of what we have achieved as a business over the last 25 years but also the positive impact we have had on the industry, our employees, shareholders, the community and our clients.

Importantly, none of this would have been possible without the incredible support and guidance of our clients and partners or the commitment and hard work of the amazing Netwealth team who I am incredibly grateful to, and who I would like to thank on behalf of myself, Michael Heine and the Netwealth Board.'
