- ✓ a growing customer base, and
- ✓ an expanding product range.

The standout in the Group continues to be Breathe Life Science (**BLS**) Australia, Australia’s leading manufacturer and wholesaler of novel medicines, following the granting of its Good Manufacturing Practice (**GMP**) Licence to manufacture medical cannabis products (also Australia’s first licence to manufacture Psilocybin and MDMA) by the Therapeutic Goods Administration (**TGA**) in February 2024.

**Commenting on the activities for the Quarter, Bioxyne’s CEO, Sam Watson, stated:** *“It is again pleasing to comment on this stellar achievement. The team are to be commended for achieving this growth and simultaneously ensuring that our quality systems, business processes and risk management, are commensurate with building a high-performance enterprise.*

Achieving two quarters of positive cash flow has allowed us to invest in further capacity to grow the business and plan for expansion into UK and Europe, and further enhance the Dr Watson product range.”

The Company has continued to maintain rigorous control of its costs and has an objective to be cash flow positive and profitable in each remaining quarter of FY2025.

The half year results will be released by 28 February 2025.

The Company's expansion of its BLS manufacturing capacities for pastilles products will come online by mid-February 2025. This expansion will triple the current manufacturing output for pastilles and enable the Company to immediately increase the capacity of other product lines to meet growing demand.

BLS is projecting revenue growth in individual product categories in the next two quarters of between 30% to 50%. The Group expects to shortly receive ARTG Listing approval for the export of its Dr Watson Pharmaceutical products to the UK. The Company is also completing a business case for establishing a proposed GMP manufacturing facility in Europe to meet local demand.

### Corporate

The Group had a net operating cash positive inflow of \$1.5 million for the Quarter. The Company paid directors fees and salaries in the amount of \$151,000 for the Quarter. Cash balance at the end of the Quarter was \$2.7 million.

## Outlook

The Company is focussed on

- ✓ growing its manufacturing customer base,
- ✓ growing market share for its Dr Watson® branded pharmaceutical products in Australia,
- ✓ growing the Dr Watson branded health and wellness products in Europe, and
- ✓ the introduction of its proprietary PCC probiotic product into its existing global distribution channels.

The Company's current production order book continues to grow as it moves forward to scale up its operations while maintaining the high-quality standards that BLS has provided with its pharmaceutical-grade products to date.
