## Q2 FY25 Quarterly Activities Report

**Melbourne, Victoria** | [Alcidion Group Limited](#) (ASX:ALC) (**Alcidion** or **Company**) has today released its Appendix 4C for the quarter ended 31 December 2024 (Q2 FY25).

### Highlights:

- Q2 new sales of \$13.1M TCV with \$4.5M revenue expected to be recognised in FY25
- Q2 cash receipts of \$9.1M with an operating cash outflow of (\$0.26M), a material improvement when compared to Q2 FY24 (\$3.1M improvement)
- FY25 contracted (sold and renewal) revenue of \$30.8M at end of Q2
  - Excludes FY25 contribution from North Cumbria contract which is in the final stages of completion
- Cash balance of \$7.7M and no debt as of 31 December 2024
  - Debtor ledger of \$8.2M at end of Q2, heading into a strong H2 period for cash collections with an additional \$5.9M cash received in January 2025
- Maintaining expectation of EBITDA and cashflow positive in FY25, with EBITDA breakeven to occur upon achieving revenue of ~\$36.0M

**Alcidion CEO and Managing Director, Kate Quirke said:** “Q2 was a very active period for Alcidion delivering \$13.1M of new and renewal sales, with the majority being from new customers. In November, we signed two new contracts for Miya Precision. The first was a five-year partnership with Northern Adelaide Local Health Network (NALHN) for use of our Miya Precision platform to assist with patient flow and clinical operations including messaging.

The second contract was with Peninsula Health in Victoria, which similarly to NALHN, will see our technology help to improve patient flow throughout the hospital whilst assisting clinicians with mobile access to patient records. These new partnerships continue to validate the strength of our patient flow offering where we now have a material presence across the Australian acute healthcare market.

Adding to the new customer wins, we extended our ongoing relationship with Sydney LHD, which utilises Alcidion’s Miya Precision virtual care and remote patient monitoring offering. We also signed a two-year renewal for our PCS PAS module with Northumbria NHS Foundation Trust.”

**Kate Quirke, continued:** “In Q2, we experienced a modest operating cash outflow of \$0.26M, a material improvement on the same quarter last year, driven by an uplift in cash receipts from new business coupled with continued strong cost management disciplines.

Heading into the second half of the financial year, FY25 contracted revenue stands at approximately \$30.8M, which does not include any contribution from the North Cumbria contract or other new deals that may occur before the financial year end. We maintain our position of EBITDA breakeven occurring upon achieving revenue of approximately \$36.0M and as result of our continued sales progress we expect to be EBITDA and cashflow positive for FY25.

Furthermore, with the addition of several larger new contracts we continue to build our annually recurring revenue base which is increasingly valuable given the critical nature of our technology offering and long-standing nature of our customer relationships.”

## Financial Update

Alcidion generated Q2 new sales of \$13.1M with approximately \$4.5M expected to be recognised as revenue in FY25. Q2 new sales comprised 88% recurring product revenue and 12% non-recurring services (primarily product implementation) revenue.

Cash receipts from customers in Q2 were \$9.1M with operating cash outflow of (\$0.26M), a \$3.1M improvement over Q2 FY24.

Cash receipts in H1 FY25 were \$15.3M with an operating cash outflow of \$4.1M, an improvement of \$7.3M over the H1 FY24.

As noted in item 6 of the Company's 4C, payments made to related parties and their associates totalled \$0.24M for the quarter. These payments relate solely to Director's remuneration.

## Outlook

At the end of Q2, Alcidion had \$30.8M of contracted and scheduled renewal revenue able to be recognised over the course of FY25. Notably, this does not include any revenue from the North Cumbria contract or other potential new contract wins over the course of the second half of the financial year.

As illustrated by the graph of cash receipts (refer above), Q3 and Q4 are historically Alcidion's largest periods for customer receipts and as a result the Company would expect a material uplift in H2 customer receipts compared to H1.

Alcidion reconfirms its expectation to be EBITDA and cashflow positive in FY25, with EBITDA breakeven occurring upon achieving revenue of approximately \$36.0M.

As of 31 December 2024, the cash balance was \$7.7M with no debt.

The increased rate of larger contract signings has been the result of the execution of evolving and maturing pipeline opportunities, several of which are still progressing through the tender stage and into the selection stage of the procurement cycle. As referenceability of the Miya Precision platform continues to expand, particularly for larger scale deployments, so too does the engagement from a variety of new and existing customers.
