MASTERMYNE GROUP LIMITED (ASX CODE: MYE) OUARTERLY ACTIVITY REPORT – DECEMBER 2024

Highlights

- FY25 Q2 EBITDA of \$4.1 million 14% up on prior quarter (FY25 Q1: \$3.6 million), despite a 10% fall in revenue to \$56.2 million (FY25 Q1: \$62.5 million). The former being due to a different revenue mix and the latter a consequence of reduced manning levels from 1 September 2024 at Anglo American's Grosvenor mine following the underground fire event in June 2024.
- Net cash of \$31.9 million (FY25 Q1: \$25.8 million) underpinned by positive net cashflow from operating activities of \$6.7 million, being the fourth consecutive positive quarter, reflecting the benefits of the Company's refocus on its core operational capabilities.
- Successfully navigated the changes in manning at the Anglo American mines resulting from the Grosvenor event, with Mastermyne's contracts covering Moranbah North, Aquila and Grosvenor mines being extended to 5 April 2025. Discussions have commenced in relation to a potential further extension, with Anglo's Steel Making Coal sale to Peabody Energy expected to close in mid 2025.
- Contract executed in relation to Ventilation Control Devices Installation work scope at Peabody Energy's Centurion Mine, valued at approximately \$15 million over 3 years.
- Twelve month extension executed in relation to Mastermyne's contract for Longwall Services at Whitehaven's Narrabri Mine through to October 2025, with an annual value of approximately \$15 million. Mastermyne also continues to operate at Narrabri under its Development and Cut & Flit contracts.
- Mynesight successfully delivered an innovative digital training department solution for Coronado's new Mammoth mine.
- Several near-term contract opportunities spanning the range of Mastermyne's business units are under active discussion with a number of clients and targets.

Mastermyne Group Limited (ASX Code: MYE) ("Mastermyne" or "the Company"), a Mining Services business specialising in underground operations, is pleased to release its Quarterly Activities Report (including unaudited results) and Appendix 4C for FY25 Q2.

Operations

Revenue of \$56.2 million was \$6.3 million below the prior quarter, predominantly as a result of a full quarter impact from the suspension of our primary services at Grosvenor Mine (announced 31 July 2024). Despite the lower revenue, EBITDA increased to \$4.1 million (FY25 Q1: \$3.6 million) predominantly due to the revenue mix.

During the period, Anglo American announced the sale of its Steel Making Coal ('SMC') business to Peabody Energy on 25 November 2024. Mastermyne's Anglo contracts covering the Grosvenor, Aquila and Moranbah North mines, originally due to expire on 5 October 2024, were extended to 5 April 2025. Discussions have commenced in relation to a potential further extension, whilst the SMC sale process is expected to complete in mid 2025. Mastermyne is working towards retaining and potentially growing its ongoing work scope beyond FY25 Q3 as Peabody Energy takes ownership, through seeking to leverage our unparalleled credentials and depth of experience at these mines.

Our manning levels at Moranbah North mine, which had been approximately 225 roles prior to the Grosvenor fire, continue to be maintained, and our manning levels at Aquila mine have stabilized at 35-40 roles.

NSW operations, particularly ventilation works, continue to perform well and our Wilsons strata support business had a strong quarter, driven by robust demand for its products in supporting client operations.

MyneSight successfully launched an innovative, fully digital Training Department at Coronado's new Mammoth Underground mine, delivering the project on time and on budget. The project delivered significant administrative time savings to the client by streamlining processes with real-time competency tracking and automated compliance workflows.

In addition to the \$47 million secured in new contracts and contract extensions during the quarter, the value of Mastermyne's opportunity pipeline has increased. This pipeline includes a number of near-term contract opportunities under active discussion.

Quarterly cashflows

At the end of FY25 Q2, Mastermyne had \$35.2 million in cash and up to \$30.5 million of undrawn working capital facilities¹.

Overall net cash inflow for FY25 Q2 of \$4.6 million (FY25 Q1: \$4.5 million) represents the Group's continued commitment to operational stability and positive cashflow.

Net cashflow for Q2 comprised:

- Cash inflows from operating activities of \$6.7 million for the quarter, increased from \$3.9 million in the prior quarter.
- Cash flows from investing activities of \$(0.8) million.
- Cash flows from financing activities of \$(1.3) million relating to further debt reduction.

Please refer to the attached Appendix 4C for further details of the FY25 Q2 cashflows.

Debt facilities and position

There were no changes to the Group's working capital facilities during the current quarter. The maximum available working capital facilities remain at \$30 million, under the debtor financing facility provided by Scottish Pacific Business Finance Pty Ltd ('ScotPac') with a minimum remaining term of 19 months. As at 31 December 2024, the ScotPac facility was undrawn.

Net cash as at 31 December 2024 was \$31.9 million (FY25 Q1: Net cash \$25.8 million).

Refer to Section 7 (and Appendix 1) of the attached Appendix 4C for further details of the Group's borrowing facilities.

Approved for distribution by the Board of Directors of Mastermyne Group Limited.
