## Completion of acquisition of Uecomm

Superloop Limited (**ASX: SLC**) (“Superloop”) today announces it has completed the acquisition of Uecomm Pty Ltd (Uecomm) that was announced on [9 December 2024](#).

The acquisition of the fibre assets adds over 2,000 kilometres of high-capacity fibre assets (including 800 kilometres of owned duct) and provides access to more than 1,900 buildings and approximately 50 data centres. The acquisition also increases the size of Superloop’s network in Sydney, Melbourne and Brisbane/Gold Coast central business districts and metropolitan areas, complements our existing network, and expands our high-speed data and internet service offering across our three segments.

Superloop CEO and Managing Director, Paul Tyler said, “The addition of these fibre assets to our network supports our Smart Communities ambitions, lowering capex connections to new buildings and broadacre developments. Our focus for the next 12 to 15 months will be on transitioning operations, productising the asset, and realising on-net synergies across our existing building footprint. Superloop will continue to consider other opportunities to support the growth ambitions laid out in its three-year ‘Double Down’ strategy”.

Today’s announcement follows the release of Superloop’s strong H1 FY25 results on [21 February 2025](#).

ENDS

*Authorised and approved for release by the Superloop CEO and Managing Director.*

## About Superloop

Founded in 2014, and listed on the ASX since 2015, Superloop's purpose is to enable better internet for Australian homes and businesses. We enable challenger retail brands (including Superloop and Exetel brands) to take a larger share of the market, leveraging Superloop's Infrastructure-on-Demand platform. Superloop provides connectivity and services to customers in three segments of the market: Consumer, Business and Wholesale. Our offerings leverage Superloop's investments in physical infrastructure assets that include fibre, subsea cables and fixed wireless, as well as Superloop's software platforms. Hundreds of thousands of homes and businesses rely on Superloop and Exetel every day for their connectivity needs.
