Review of operations

Financial results

This financial report is presented in US Dollars, the functional and presentation currency for the parent entity of Energy World Corporation Ltd (EWC).

The profit for the Group after providing for income tax and non-controlling interest amounted to \$368,090,000 (31 December 2023: loss of \$8,826,000). This includes profit after income tax of \$10,714,000 arising from the sale of the Indonesian Gas Operations (note 7).

Revenue for the Group for the half-year ended 31 December 2024 (H1FY25) was \$325,000, which represents revenue in Australia arising from the Nacowlah Joint Venture with Santos in which we hold a 2% interest. This represents a 30% decrease in the revenue as compared to half-year ended 31 December 2023 (H1FY24) of \$462,000.

There is a \$377,213,000 gain that arises as the result of the Debt Restructuring Implementation Agreement signed between EWI, Slipform and EWC (note 13).

Refer to note 2 for the Directors' assessment of going concern.

Significant changes in the state of affairs

(a) EEES Long term gas sales and purchase agreement

On 14 August 2024, Energy Equity Epic (Sengkang) Pty Ltd (EEES) and its partner in the Sengkang PSBC PT Energi Maju Abadi (EMA) signed a long term Gas Sales and Purchase Agreement with PT PLN (Persero) and PT PLN Energi Primer Indonesia for the supply of gas from the Kampang Baru Gas Field Sengkang Working Area to the Sengkang Combined Cycle Gas Field Power Plant. This agreement replaces the various interim gas sales agreements previously signed and covers the period 21 March 2023 to 31 December 2030.

(b) Sale of EEES entities

On 25 October 2024, the Company completed the sale of its subsidiary, Energy Equity Epic (Sengkang) Pty Ltd (EEES) to PT EMP Energi Jaya, a related party to PT Energi Maju Abadi (EMA). This occurred by the sale of the two 100% wholly-owned subsidiaries, Energy Equity Holdings Pty Ltd and Epic Sulawesi Gas Pty Ltd, who owned the shares in Sengkang PSC.

For the sale the Company received cash consideration of US\$35,000,000.

(c) Slipform and Energy World International Limited (EWI) loan

On 31 October 2024, the Company entered into a Debt Restructuring Implementation Agreement (DRIA) with EWI, Slipform Engineering International (HK) Limited (SEIL), PT Slipform Indonesia (PTSI) and Swan Capital Limited, where the parties have agreed to a reduction in the debt repayment under the EWI Loan Agreements and Slipform Loan.

Under the terms of the DRIA, the principal amount of the loan has been reduced from US\$784,000,000 to US\$432,000,000. The loan has a sculpted profile and will be repaid as per an agreed payment schedule in monthly instalments for a total amount of US\$510,000,00 (including interest) commencing on 31 January 2025 completing on 31 December 2035.

As part of this arrangement, the related party capital commitment contracts and transactions between the Company, SEIL and EWI have also been terminated.

As a consequence of the EWI and Slipform loan restructuring, all related party transactions linked to EWI and Slipform have been terminated and Mr KP Wong retired from the Board on 28 November 2024.

(d) Passing of Mr. Stewart William George Elliott, Chairman, Managing Director and Chief Executive Officer

On 24 July 2024 Mr. Stewart William George Elliott passed away. The Board appointed Mr. Brian Jeffrey Allen to the role of interim Chairman and acting Chief Executive Officer (CEO) on 25 July 2024.

(e) Passing of Mr. Leslie James Charles, Independent Non-Executive Director

On 17 November 2024, Mr. Leslie James Charles passed away.

(f) Expiration of options

On 30 December 2024, 47,544,845 options issued under a non-renounceable pro-rate entitlement offer to shareholders of the Company expired.

(g) Closure of dormant entities

Since earlier 2024, the Company has been reviewing all its subsidiary companies and closing dormant entities. With the closure of Energy Equity (West Kimberly) Pty Ltd and Central Queensland Power Pty Ltd during the period, the Company has now closed all its dormant companies within the group.

(h) Board Committees

As part of the re-structuring of the Company, other announcements released to shareholders included the appointment of the two new Board members:

- Alan Jowell – Non Executive Director (Appointed 4 December 2024)
- Sean Gardiner – Non Executive Director (Appointed 4 December 2024)

The Company has also made changes to the following committee memberships:

Audit and Risk Committee

Chairman : Alan Jowell

Members : John Phipps and Michael O'Neill

Energy World Corporation Ltd

Remuneration and Nomination Committee

Chairman : John Phipps

Members : Sean Gardiner and Michael O'Neill

The Company also established an Investment Committee

Chairman : Sean Gardiner

Members : Alan Jowell, John Phipps and Michael O'Neill

The Investment Committee has been established to define and set the strategy to re-capitalise and monetise existing projects under development by the Company; and further to oversee management's execution of the agreed strategy.

There were no other significant changes in the state of affairs of the Group during the financial half-year.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Rounding of amounts

Amounts in this report have been rounded off in accordance with Corporations Instrument 2016/191 (issued by the Australian Securities and Investments Commission) to the nearest thousand dollars, or in certain cases, the nearest dollar.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' report.

Note 1. General information

The financial statements cover Energy World Corporation Ltd as a Group consisting of Energy World Corporation Ltd and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in US dollars, which is Energy World Corporation Ltd's functional and presentation currency.

Energy World Corporation Ltd is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of businesses are:

Registered office

Sydney
Level 8
210 George Street
Sydney NSW 2000

Principal place of business

Hong Kong
Suite 08, 48th Floor,
Sun Hung Kai Centre
30 Harbour Road
Hong Kong

A description of the nature of the Group's operations and its principal activities are included in the Directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 28 February 2025.

Note 2. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group for the half-year ended 31 December 2024 and are not expected to have a significant impact for the full financial year ending 30 June 2025.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standard is most relevant to the Group:

AASB 2020-1 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current and AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants

AASB 2020-1 was issued in March 2020 and is applicable to annual periods beginning on or after 1 January 2024, as extended by AASB 2020-6. Early adoption is permitted. AASB 2022-6 was issued in December 2022 and is applicable to annual periods beginning on or after 1 January 2024. Early adoption is permitted where AASB 2020-1 is also early adopted.

Note 2. Material accounting policy information (continued)

These standards amend AASB 101 'Presentation of Financial Statements' to clarify requirements for the presentation of liabilities in the statement of financial position as current or non-current. The amendments clarify that a liability is classified as non-current if an entity has the right at the end of the reporting period to defer settlement of the liability for at least 12 months after the reporting period. If the deferral right is subject to the entity complying with covenants in the loan arrangement based on information up to and including reporting date, the deferral right will exist where the entity is able to comply with the covenant on or before the end of the reporting date even if compliance is assessed after the reporting date. The deferral right will be deemed to exist at reporting date if the entity is required to comply with the covenant only after the reporting date based on post-reporting date information. Additional disclosure is required about loan arrangements classified as non-current liabilities in such circumstances which enables users of financial statements to understand the risk that the liabilities could become repayable within twelve months after the reporting period. Classification of a liability as non-current is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least 12 months after the reporting date or even if the entity settles the liability prior to issue of the financial statements. The meaning of settlement of a liability is also clarified.

Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, at 31 December 2024 the Group's consolidated statement of financial position shows a net current liability position of \$19,470,000 and net assets of \$320,281,000.

Within the borrowings shown in current liabilities, is an amount of \$18,642,000 which relates to a non-cash item. This amount arises due to the fair value adjustment recognised at initial recognition relating to the debt restructuring within the liability to reflect market interest rates and is subsequently amortised over the life of the loan (note 13).

The need to secure additional funding to complete the developments currently in progress indicates a material uncertainty that casts significant doubt about the Group's ability to continue as a going concern.

To address any going concern matters that may arise in the future the Company:

- is actively reviewing its options for potential additional funding to the Group in the form of Project, Equity and/or Debt for its developments in the Philippines and Indonesia and expects to be able to announce the appointment of a strategic advisor that will assist in this process in the current quarter;
- is also actively looking to dispose non-core assets; and
- reduce its capital expenditure.

Further, the Directors have considered the net proceeds raised from the sale of Energy Equity Epic (Sengkang) Pty Ltd in October 2024, (disclosed in note 7) that are the basis of the Company's reported cash position, and considered the Company's budget through FY2025 and are confident that the Company has sufficient resources to pay its debts as and when they fall due.

However and notwithstanding, the Directors are of the opinion that the Group can continue as a going concern and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not therefore include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

Discontinued operations

A discontinued operation is a component of the Group that has been disposed of and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the statement of profit or loss and other comprehensive income.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Income tax

The Group is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business and gain of derecognition of financial liabilities for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on the Group's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Note 4. Operating segments

Management has identified its operating segments based on geographic locations in which the Group operates, and the nature of the activity performed by the Group. Management has determined that it has three operating segments, being: oil and gas in Australia, gas in Indonesia, and project development. While project developments are based in different geographic locations, they are of the same nature of activity, which is assets under construction that are not yet operating. As these assets are not yet operating, they are more alike and suited to aggregation with one another than to the existing operating segments.

Discrete financial information about each of these operating businesses is reported to the executive management team on at least a monthly basis.

The reportable segments are based on aggregated operating segments determined by the similarity of the products produced and sold and/or the future products to be produced, as these are the sources of the Group's major risks and have the most effect on the rates of return. Intersegment transactions are eliminated on consolidation.

The accounting policies used by the Group in reporting segments internally are the same as those contained in this interim financial report and the annual financial report for the year ended 30 June 2024.

Intersegment loans receivable and loans payable

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Description

On 10 October 2024 Energy World Corporation Ltd (the 'Company') entered into a share purchase agreement with PT EMP Energi Jaya ('Jaya') for the sale of the Company's interests in Energy Equity Holdings Pty Ltd ('EEH'), Epic Sulawesi Gas Pty Ltd ('ESG') and Energy Equity Epic (Sengkang) Pty Ltd ('EEES') for US\$35,000,000. The statement of profit or loss and other comprehensive income for the comparative period has been restated for the effects of this discontinued operation.

On 25 October 2024 the sale was completed. Under the requirements of AASB 5 'Non-current Assets Held for Sale and Discontinued Operations', the disposal is accounted for as a discontinued operation because the subsidiaries represented a cash generating unit.

a) Assets under construction

Assets under construction consist of the following ongoing projects:

- Philippines LNG Hub Terminal - \$130,542,000
- Philippines Power Plant - \$616,263,000
- Sengkang LNG Facility - \$nil (fully impaired during previous reporting periods)
- Gilmore LNG Facility - \$nil (fully impaired during previous reporting periods)
- Australia Gas CGU - \$3,704,000

Assets under construction are tested annually for impairment, or more frequently if events or changes in circumstances indicates that they might be impaired. The recoverable amounts are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. As a result of the analyses, management did not identify an impairment for any of these ongoing projects. Refer to the 30 June 2024 Annual Report for details on key assumptions attributed to the projects.

Note 13. Borrowings (continued)

(a) Slipform Group US\$433 million term loan agreement

In prior years a term loan agreement was entered into between Slipform Engineering International (HK) Limited (SEIL), PT Slipform Indonesia (PTSI) and Energy World Corporation Limited (EWC) to convert the accounts payable related to projects under construction and accrued interest and fees into a term loan.

On 31 October 2024 a Debt Restructuring Implementation Agreement (DRIA) was signed between SEIL, PTSI, Energy World International Ltd (note (b)) and Swan Capital Limited. The combined debt was reduced to \$510million, to be repaid over 10 years commencing 31 January 2025.

The restructured loan (New Loan) replaced the outstanding balances as at 31 October 2024 of US\$107.3 million (EWI) and US\$700 million (Slipform), totalling US\$807.3 million, with a single consolidated loan of US\$510 million. The restructured loan, with total monthly repayments of US\$510 million comprising of USD \$432 million capital and USD\$78 million interest by 31 December 2034, is governed by a unified loan agreement administered by a facility agent on behalf of both lenders. This restructuring effectively nullifies the legacy agreements, aligning lender interests through common creditor rights, unified security arrangements, and the elimination of previously existing covenant clauses.

The New Loan is considered a substantial loan modification under AASB 9 due to significant changes in contractual arrangements, consolidation of loans and revised repayment schedules. Consequently, the legacy loans were derecognised, and the New Loan was recognised at fair value, with any resulting gain or loss recognised in profit or loss. The fair value adjustment recognised at initial recognition was capitalised within the liability to reflect market interest rates and is subsequently amortised over the life of the loan (31 Dec 2024: \$3,104,000).

(b) Energy World International Ltd (EWI) facilities

As stated in note (a), the loan was combined with Slipform Term Loan under the DRIA.

INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Energy World Corporation Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Energy World Corporation Ltd (the Company and its subsidiaries (the Group) which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group is not in accordance with the Corporations Act 2001 including

- (i) giving a true and fair view of the consolidated financial position as at 31 December 2024 and of its consolidated performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting and Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's report.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial report, which indicates that the Group incurred a profit of \$369.6 million during the half year ended 31 December 2024 and, as of that date, the Group's current liabilities exceeded its current assets by \$19.5 million. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may be unable to realise its assets, complete its assets under construction and discharge its liabilities in the normal course of business and at the amounts stated in the financial report. Our conclusion is not modified with respect to this matter.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
