ASX Release

12 March 2025

Update on Impact of Recent Weather Events

Coast Entertainment Holdings Limited (ASX: CEH) provides the following update on the impact of the recent significant weather events affecting South East Queensland and Northern NSW.

With safety our number one priority, we confirm that there have been no injuries to any guests, team members or animals. Our properties have experienced temporary closures due to the severe weather conditions, with Dreamworld, WhiteWater World and SkyPoint being closed for 7, 3 and 6 trading days respectively. While these closures have impacted trading, they have occurred during what is traditionally an off-peak period, which has lessened the financial impact to a degree.

We are pleased to report that our properties were not materially impacted by the storm, with damage being efficiently rectified by our facilities and engineering teams. This outcome stands in stark contrast to the significant weather events experienced in December 2023 and January 2024, which had a more substantial impact on our physical properties and operations.

This improved outcome can be partly attributed to Coast's major investment in facilities infrastructure over the last few years and the continuous improvement of comprehensive crisis preparedness plans, which have allowed our operations to emerge from this significant weather event relatively unscathed, short of the temporary trading loss.

Coast Entertainment is pleased to confirm the following reopening schedule for our attractions:

- SkyPoint: Reopened Tuesday, 11 March 2025
- Dreamworld: Reopening Wednesday, 12 March 2025
- Dreamworld Night Markets and WhiteWater World: Reopening Friday, 14 March 2025
