The directors will participate in the amount of \$110,000, subject to shareholder approval at the next meeting of shareholders.

Alpine Capital Pty Limited acted as Sole Lead Manager and Bookrunner to the Placement. Sam Watson, Bioxyne CEO commented, *“we are delighted with the support of institutional and sophisticated investors for this capital raise. While we received demand for well in excess of the amount raised, given that we are profitable and cash flow positive, we are of the view that it was important to limit the raise to the funds required for expansion as outlined in our strategic plan”.*

This announcement has been approved for release by the Board.
