Andromeda Metals Limited (ASX: **ADN**) (**Andromeda**, the **Company**) is pleased to announce that it has successfully undertaken a placement of new fully paid ordinary shares (**Placement**) raising approximately \$5 million before costs.

Firm commitments for 384.6 million new fully paid ordinary shares have been received from institutional and sophisticated investors (**New Shares**) at \$0.013 per New Share, after the offer was in strong demand, resulting in applications being scaled-back.

The price of \$0.013 per New Share, represents a discount of 23.5% to the previous closing price of \$0.017 (Wednesday, 7 May 2025). The Placement shares will come within the Company's placement capacity under Listing Rule 7.1.

Placement participants will also receive 3 free attaching options for every 4 New Shares allocated (**New Options**), subject to shareholder approval. Each New Option is exercisable at \$0.0195 for a fully paid ordinary share, expiring 2 years from the date of issue and otherwise on the terms set out in Annexure 1. Application will be made for quotation of New Options on ASX. If exercised, these New Options will provide an additional \$5.6 million in working capital for the Company.

The Company is pleased by the strong support shown from these new investors and welcomes them as shareholders of the Company.

Funds raised will be used to progress:

- The Great White Project, including early works, advanced plant design and engineering, and technical, financial and legal activities to support the funding process for project development;
- The Company's HPA project, including the Scoping Study and product and market development activities; and
- General working capital and the costs of the Placement.

The placement of New Shares will be issued in accordance with Andromeda's placement capacity under ASX Listing Rule 7.1 and shareholder approval will be sought for the issue of the New Options at a General Meeting (to be scheduled).

Settlement of the Placement is scheduled to occur on Monday 19 May 2025, with issue of the New Shares under the Placement scheduled to occur on Tuesday 20 May 2025. New Options will only be issued after shareholder approval is obtained.

Bell Potter and Canaccord Genuity are Joint Lead Managers to the Placement and are entitled to a fee of 6% on the funds raised, plus the issue of 5,000,000 options on the same terms as the New Options. The broker options will come within the Company's placement capacity under Listing Rule 7.1.

Sarah Clarke, Andromeda's Acting Chief Executive Officer said:

"We have experienced growing interest from a range of new investors seeking to invest in Andromeda, following recent announcements regarding the progress of our development funding process and our HPA breakthrough results.

"The significant interest saw robust demand in this Placement, demonstrating strong investor confidence in Andromeda's future.

"The funds raised from this capital raising will enable us to progress our Great White Project in anticipation of a final investment decision, including advanced plant design and early engineering works for Stage 1A+.

"The funds will also allow us to further progress our HPA project, through the completion of a Scoping Study and product development and marketing activities.

"The strong support for this Placement and the increased investor participation leaves Andromeda well placed to advance the Stage 1A+ project to a final investment decision while also progressing development of the exciting HPA opportunity."
