ASX Release

CARMEL MONAGHAN APPOINTED NON-EXECUTIVE DIRECTOR

EMVision Medical Devices Limited (ASX:EMV) (“EMVision” or the “Company”) is pleased to announce the appointment of Carmel Monaghan as an Independent Non-Executive Director, effective today.

Ms Monaghan is an accomplished healthcare leader being the Chief Executive Officer of Ramsay Healthcare Australia (ASX:RHC) since 2020. Ramsay is a leading private health operator with over 70 hospitals and 35,000 staff. Ms Monaghan has worked across hospital, corporate and global positions at Ramsay for almost three decades. Prior to her appointment as CEO of Ramsay Australia, Ms Monaghan was the Group Chief of Staff of Ramsay’s global operations, gaining extensive experience and a comprehensive understanding of health care operations and strategy both in Australia and overseas. Ms Monaghan also served as the Group Head of Marketing and Public Affairs, driving marketing, brand and communications strategy, during which the group grew to become one of the leading private healthcare operators globally.

Carmel Monaghan commented “I’m delighted to join the board of EMVision and look forward to working with management and fellow directors as the company enters a pivotal phase in its commercialisation journey. After more than three decades in healthcare leadership, I’m especially drawn to opportunities where innovation directly addresses unmet patient needs. Stroke and traumatic brain injury are leading causes of global disability and disease burden and will increase with an ageing population. Timely access to acute care and treatment are crucial in minimising the impact of stroke and so I’m excited by the transformative opportunity that EMVision’s point-of-care neurodiagnostic products represent to improve outcomes for patients.”

EMVision Chairman, John Keep, said “Carmel is an exceptional addition to our board. She brings a wealth of experience across clinician engagement, corporate strategy, marketing, procurement and government relations. With our pivotal trial for regulatory clearance underway, the board looks forward to Carmel’s contributions as EMVision progresses through to commercialisation and growth.”

Authorised for release by the Board of the Company.

About EMVision Medical Devices

EMVision Medical Devices Limited (ASX:EMV) is an innovative Australian medical device company developing a novel approach to looking inside the human body. Our product pipeline includes portable, non-invasive, affordable and safe neurodiagnostic devices.

Our vision is to help transform and improve the timely diagnosis and treatment of stroke and other time sensitive medical emergencies, at the point-of-care.

EMVision has offices in Sydney and Brisbane www.emvisionmedical.com

Forward-looking Statements

This release may contain certain forward-looking statements with respect to matters including but not limited to the financial condition, results of operations and business of EMVision and certain of the plans and objectives of EMVision with respect to these items. These forward-looking statements are not historical facts but rather are based on EMVision's current expectations, estimates and projections about the industry in which EMVision operates, and its beliefs and assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates", "guidance" and similar expressions are intended to identify forward looking statements and should be considered an at-risk statement. Such statements are subject to certain risks and uncertainties, particularly those risks or uncertainties inherent in the process of developing technology and in the endeavour of building a business around such products and services. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and other factors, some of which are beyond the control of EMVision, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. EMVision cautions shareholders and prospective shareholders not to place undue reliance on these forward-looking statements, which reflect the view of EMVision only as of the date of this release. The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made. EMVision will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.

Inherent risks of Investment in Medical Device development Companies

There are a number of inherent risks associated with the development of new medical device products to a marketable stage. The clinical trial process, which is often lengthy, is designed to assess the safety and efficacy of a device prior to commercialisation and there is no guarantee of achieving the outcomes necessary to generate a viable commercial product. Other risks include uncertainty of patent protection and proprietary rights, the obtaining of necessary regulatory authority approvals and the evolving competitive landscape. Companies such as EMVision are dependent on the success of their research and development projects, product development and on the ability to attract funding to support these activities. Investment in research and development and novel product development cannot be assessed on the same fundamentals as trading and manufacturing enterprises. Therefore investment in Companies specialising in such development must be regarded as speculative. EMVision recommends that professional investment advice be sought prior to such investments and cautions investors that the risks of an investment in an entity such as EMVision is not limited to the risks disclosed in this announcement.
