# Sustainability

Aligning our Sustainability Framework with HMC's evolution to continue creating meaningful and positive long-term impact

## Update

- ✓ Following strong growth in FY25, including new verticals in Energy Transition and Digital Infrastructure, HMC Capital is reviewing its sustainability objectives to align with its evolving business strategy
  - This includes reassessing whether the current Net Zero Emissions targets remain appropriate for the Group
- ✓ During the year, HMC also began a Double Materiality Assessment and broader ESG strategy review to strengthen ESG integration across all platforms
  - We expect to provide more detail following completion of this project

## Key FY25 highlights

### Environmental:

- For our Real Estate platform, we are on track to achieve ~32% reduction in scope 1 and scope 2 emissions (vs FY22 baseline)<sup>1</sup> achieved through smart Energy Management Systems (EMS) and solar roll out. If we were to recognise the benefits of the solar roll out, treatment of the solar benefit (embedded networks allocation) and recognition of Energy Efficient Certificates – the reduction in consumption compared to baseline would be ~50%<sup>1</sup>
- Exceeded FY25 solar roll out target of 65%, with ~70% of feasible sites across the real estate portfolio with solar installed<sup>2</sup>

### Social:

- Nine grants were made to charitable organisations through the **HMC Capital Foundation**
- Group Reflect **Reconciliation Action Plan** (RAP) initiatives are continuing to progress
- Continued to support our national charity partner, **Eat Up Australia**

### Governance:

- As of 2025, HMC Capital was reclassified to 'Asset Management & Custody Banks' and received an **MSCI ESG Rating** of 'A'<sup>3</sup>
- 63% **gender diversity** achieved for independent board director positions across the HMC Group, with 35% gender-diversity across the whole organisation<sup>4</sup>
- HMC to publish inaugural **Modern Slavery Statement** later this year

Notes: 1. Pending external audit. Like-for-like asset dataset: managed real estate assets within managed funds (including HomeCo Daily Needs REIT, HealthCo Health & Wellness REIT and Last Mile Logistics); a) excludes assets where the tenant is responsible for electricity consumption and has complete operational control of the property; b) includes assets where we have a full data set for the FY22 baseline year and FY25 and have been held in the portfolio for the duration of both these periods; c) excludes assets that were held for sale, acquired and divested during FY25 and since FY22 baseline was formed, and assets that were developed post-FY22 (as FY22 baseline is not an accurate reflection of the consumption profile); 2. Sites that are classified as feasible include assets within the real estate portfolio where we have operational control, and the building infrastructure and architecture is suitable for the solar initiative.; 3. # Outlook

# Outlook

HMC is well placed to maintain a strong operating EPS growth trajectory supported by scalable growth platforms and significant investment capacity

## FY26 Outlook

---

FY25 pre-tax earnings of 56.0 cps was influenced by the outsized performance from the private equity division's HMCCP fund

FY26 pre-tax earnings expected to be more influenced by organic growth in recurring funds management earnings from established divisions including:

- **Real estate:** +15% fund management EBITDA YoY growth
- **Private credit:** +20% funds management EBITDA YoY growth
- **Private equity:** normalised fund performance with a target of 15% p.a.

Digital and Energy Transition funds management divisions will target similar growth levels once operationalised.

FY26 pre-tax earnings target of at least 40 cps, representing 29% CAGR since FY20

- Includes investment income from HMC balance sheet co-investments which represent \$3.24 per share of NTA as at Jun-25

FY26 dividend guidance of 12 cents per share is consistent with our strategy to maintain the dividend at this level and re-invest retained earnings into value accretive growth opportunities
