20/08/2025

- Firm commitments received for an ~A\$80 million two-tranche institutional Placement at A\$0.190 per New Share. Tranche One of the Placement to raise ~A\$70.2 million and Tranche Two of the Placement, which is subject to shareholder approval, to raise ~A\$9.8 million.
- Existing shareholders will be eligible to participate in the capital raising via a non-underwritten SPP targeting to raise approximately A\$5 million at the same offer price as the Placement (A\$0.19 per New Share).
- The transaction received strong support from high-quality domestic and international institutional investors, as well as from existing shareholders, including Arafura's largest shareholder, Hancock Prospecting.
- Upon settlement of the Placement, Arafura will be well-capitalised with a cash balance of ~A\$107 million (before costs). Arafura intends to apply excess funds available upon reaching FID towards Nolans development.
- Arafura continues to make strong progress on its equity funding strategy, including its 60% cornerstone target, with key achievements noted below:
 - Australia's National Reconstruction Fund Corporation has provided a A\$200m (US\$133 million) equity-linked commitment;
 - German Raw Materials Fund has entered the appraisal phase for a potential equity investment of up to ~€100 million (~US\$113 million);
 - Export Finance Australia has provided a non-binding conditional Letter of Interest in relation to a potential equity investment with a substantial commitment being negotiated; and
 - Discussions with other parties, including potential customers and major shareholders, remain ongoing.

Arafura Rare Earths Limited (ASX: ARU) (Arafura or the Company) is pleased to announce that it has received firm commitments to raise ~A\$80 million (before costs) via a two-tranche institutional placement (**Placement**). Under the Placement, the Company expects to issue approximately 421.1 million new fully paid ordinary shares (**New Shares**) at an offer price of A\$0.190 per New Share (**Offer Price**).

In addition to the Placement, the Company is also undertaking a share purchase plan (**SPP**) targeting to raise approximately A\$5 million. Shares will be offered under the SPP to existing shareholders at the same price as under the Placement, being A\$0.190 per New Share.

Together, the Placement and SPP (if the SPP is fully subscribed) is expected to raise total gross proceeds of approximately ~A\$85 million (before costs).

Commenting on the capital raising, Arafura's Managing Director, Darryl Cuzzubbo, said:

"This inbound led Placement partially de-risks the final equity raise while also enhances the Company's negotiating leverage as we look to close out discussions with a range of potential strategic equity partners and deliver on the equity funding strategy.

Arafura has taken the opportunity expand its register ahead of a final investment decision (FID) with strong demand from high quality new and existing institutional investors. The interest is a testament to the high-quality nature of the Nolans Rare Earth Project (Nolans) and the significant work undertaken by the Company to advance and de-risk its development.

Whilst this Placement strengthens our balance sheet, the majority of proceeds will be used to accelerate main construction at FID.

In addition, the strong tailwinds for Western supply of rare earths, highlighted by MP Materials recent partnership with the U.S. Department of Defence, gives Arafura confidence that it can finalise its equity funding package in a timely and attractive manner.

We are also pleased to offer our existing eligible shareholders the opportunity to participate in this equity raising via the SPP, which is expected to open on Wednesday, 27 August 2025.

On behalf of Arafura's Board and management team, I wish to extend a warm welcome to our new shareholders and thank all of our existing shareholders for their continued support."

Use of Funds

Proceeds from the Placement and SPP provide Arafura with an extended cash runway, while de-risking the overall equity funding requirement for Nolans. Arafura will apply proceeds from the capital raising, together with existing cash on hand, towards the following purposes:

- Corporate, working capital and transaction costs; and
- Allocation to project development capital upon FID.
