Cautionary statement

This presentation contains only a brief overview of Regis Resources Limited and its associated entities (“Regis or RRL”) and their respective activities and operations. The contents of this presentation, including matters relating to the geology of Regis’ projects, may rely on various assumptions and subjective interpretations which it is not possible to detail in this presentation and which have not been subject to any independent verification.

This presentation contains a number of forward-looking statements that are subject to risk factors associated with gold exploration, mining and production businesses. It is believed that the forward looking statements in this presentation are reasonable based on information available as at the date of this presentation but known and unknown risks and uncertainties, and factors outside of Regis’ control, may cause the actual results, performance and achievements of Regis to differ materially from those expressed or implied in this presentation. These risk factors include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation. Readers are cautioned not to place undue reliance on forward looking statements. No representation or warranty, express or implied is made as to the accuracy, currency or completeness of the information in this presentation, nor the future performance of Regis. Except as required by applicable law or regulations, Regis does not undertake to publicly update or review any forward-looking statements, whether as a result of new information or future events. Current and potential investors and shareholders should seek independent advice before making any investment decision in regard to Regis or its activities.

Mineral Resources, Ore Reserves and Exploration Results are extracted from the Mineral Resource and Ore Reserve Statement released to the ASX on 20 May 2025, (the Relevant ASX Announcements).

In each case, appropriate Competent Person’s consents were obtained for the release of that information in the Relevant ASX Announcements and those consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Relevant ASX Announcements and in each case the Production Targets, forecast financial information and estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning that information in the Relevant ASX Announcements, continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original ASX announcement.

This presentation uses Mineral Reserves and Mineral Resources classification terms that comply with reporting standards in Australia. These standards differ significantly from the requirements of the United States Securities and Exchange Commission that are applicable to domestic United States reporting companies and, therefore, are not comparable.

Past performance and pro-forma financial information given in this document, including in relation to upgrades to resources and reserves, is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance, nor of Regis’ views on the Company’s future financial performance or condition. Investors should note that past performance of Regis, including the historical trading prices of its shares, cannot be relied upon as an indicator of and provides no guidance as to Regis’ future performance, including the future trading price of its shares. The historical information included in this presentation is, or is based on, information that has previously been released to the market.

As noted above, an investment in Regis shares is subject to known and unknown risks, some of which are beyond the control of Regis. Regis does not guarantee any particular rate of return or the performance of the Company, nor does it guarantee the repayment of capital from Regis or any particular tax treatment.

The distribution of this presentation (including an electronic copy) outside of Australia (including the United States) may be restricted by law and any such restrictions should be observed. Any non-compliance with these restrictions may contravene applicable securities laws.

References to Tropicana are at 30% ownership unless otherwise noted. Regis is an Australian company which reports in AUD.

Cash and bullion¹ movements for FY25

Strong gold sales and record gold prices drive record operating cash flows and delivers record cash and bullion balance

Note: Errors of summation may occur due to rounding.

1. Gold bullion on hand at 30 June 2025 of 2,324 valued at a spot gold price of \$5,019/oz.

2. "Operations" cash flows on this chart differ to the \$821M statutory "Cash flows from operating activities" on the Consolidated Statement of Cash Flows in the audited financial report . The statutory amounts include Corporate & Interest and McPhillamys (shown separately above) and excludes bullion on hand at market value movements and AASB 16 Finance Lease payments (the latter of which is shown in "Cash flows from financing activities" on the statutory Consolidated Statement of Cash Flows in the audited financial report).

Note: Errors of summation may occur due to rounding.

- Gold sales were up 30% on record gold prices, partially offset by lower gold production.
- Corporate and other costs were 54% lower, with higher interest earned and the reduction in a rehabilitation provision at Duketon.
- D&A was 14% higher driven by increased amortisation of the Ben Hur and Tropicana open pits.
- Exploration and evaluation costs relate to McPhillamys costs that were expensed through profit and loss in FY25.
- Tax expense of \$109M, with a resulting current tax payable estimate of ~\$100M to be paid in Q3 FY26.

Statutory cash flow statement highlights for FY25

Consistent operational delivery and leverage to the gold price highlights the significant cash generation of our assets.

🔗 The statutory Consolidated Statement of Cash Flows excludes bullion on hand at 30 June 2025 of 2,324 valued at a spot gold price of \$5,019/oz (\$12M). Cash and bullion (at market) at 30 June was \$517M.

	Unit	FY25	FY24
Opening cash balance at 1 July	\$M	278	205
Cash flows from operating activities	\$M	821	475
Cash flows from investing activities	\$M	(274)	(274)
Cash flows from financing activities	\$M	(319)	(128)
Cash at 30 June	\$M	505	278

🔗 Cash inflows from operations up 73% YoY, underpinned by the average realised gold sales price in FY25 being \$4,387/oz, up 47% from FY24.

🔗 Cash outflows from investing activities remained broadly in-line with FY24.

🔗 The primary driver of FY25 cash outflows from financing activities is the \$300M debt repayment.

FY26 Guidance

Leveraging opportunistic ounces to generate cash

	FY26 Guidance		
	Group	Duketon	Tropicana
Production (koz)	350 – 380	220 – 240	130 – 140
AISC (\$/oz)	2,610 – 2,990 ¹	2,790 – 3,200 ²	2,240 – 2,560 ³
Growth Capital (\$M)	180 – 195	165 – 175	15 – 20
Exploration (\$M)	50 – 60	-	-
McPhillamys (\$M)	10 – 20	-	-

➤ High profitability has returned Regis to return to a tax payable state.

➤ An FY25 tax provision of ~\$100M expected to be paid out in Q3 FY26.

➤ Growth capital primarily relates to ongoing development of the Duketon underground projects and development of new open pits.

1. Group FY26 AISC includes ~\$170/oz of non-cash costs related to stockpile value adjustments.
2. Duketon FY26 AISC includes ~\$210/oz of non-cash costs related to stockpile value adjustments.
3. Tropicana FY26 AISC includes ~\$115/oz of non-cash costs related to stockpile value adjustments.

FY25 Summary

- Gold sales of \$1,647M from 375koz of gold sold at an average price of \$4,387/oz

Notes

The above data has been rounded, and errors of summation may occur due to rounding.

1. Ore Reserves are reported separately for open pits, underground and stockpiles.

2. Cut-off grades vary according to oxidation and lithology domains. Listed cut-offs are the weighted average of these various cut-off grades for that project classification.

3. Regis owns 70% of the King John project - part of the DSO operations. Only 70% of Regis share has been included in the above table.

4. Tropicana reported Reserves and Resources in ASX Release "Mineral Resource and Ore Reserve Update at Tropicana" dated 20 February 2025, reported as nearest 1,000,000 tonnes, 0.1 g/t gold grade and 1,000,000 ounces.
