Delivering sustainable growth

MRR excl. GST

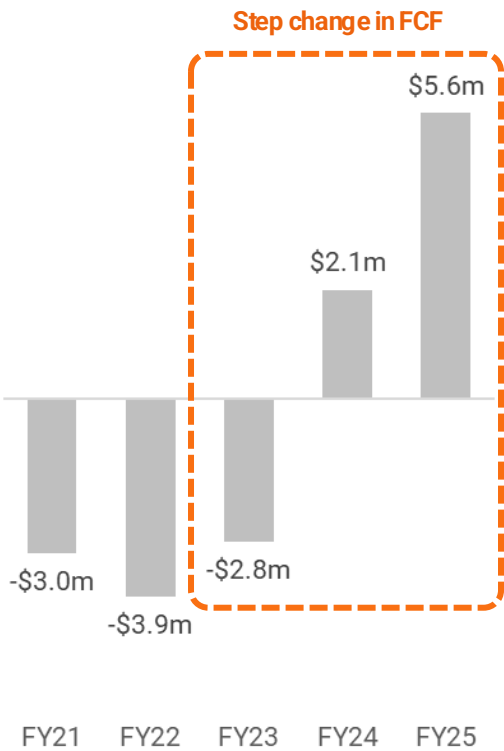

Total Revenue

EBITDA

Free Cash Flow

Double-digit MRR growth continues

hipages Group MRR (excl. GST)

MRR growth driven by:

- Record new business yields underpinned by migration to higher STP price plans
- Existing customers ascending to higher price points due to:
 - **Job leads pricing** based on supply/demand dynamics driving ascensions to higher price tiers
 - **Strong marketplace activity**, with high supply and demand driving near-record connections
- Business model change to full subscription for hipages New Zealand
- Further opportunity ahead from migrating 19% of Australian customers on legacy pricing and continued pricing optimisation

Record EBITDA margin driven by emerging operating leverage

Group operating expenses¹ as % of total revenue

Sales

- Sales employment costs +12% driven by filling vacancies and new roles to support NZ growth

Marketing

- Marketing investment stable as % of revenue with disciplined spend in H2 following planned additional creative and brand spend in H1

Operations and Administration

- Prudent cost management and operating leverage delivered record 24% EBITDA margin

Refer to Appendix for detailed P&L

¹ Operating expenses after capitalisation of Technology Development spend. Before capitalisation, total Technology Development spend was 24% of Revenue in FY25 (25% in pcp)

Technology spend reducing as % of revenue

Group technology development spend (in \$m)¹

Technology spend continues to reduce as % of revenue

- Continued development of tradie platform alongside marketplace optimisation
- FY25 tech investment focused on developing and implementing the single tradie platform
- Disciplined capitalisation approach with detailed activity-based tracking (development vs. maintenance), amortised over 3 years
- Expect total tech spend to continue to gradually reduce as % of revenue over medium- to long-term as we deliver our roadmap

¹ Technology and software development spend based on profit and loss reporting (accrual based), not reflecting actual timing of cash flows

Australian Operations

Exceptional marketplace experience for homeowners and tradies

Connection¹ volume remains strong (after record pcg)
as we focus on growing connection value

hipages Australia tradie-homeowner connections

- In value, connections increased 16% vs. pcg reflecting the business' focus on yield optimisation during the period

Job connection rate remains at record levels,
reflecting exceptional marketplace experience

hipages Australia % of total jobs connected

- High connection rate supported by continued improvements to our job/tradie matching engine

¹ Connections occur when a tradie claims a job, triggering usage of their lead credits included in their subscription

² Connection rate defined as # jobs with at least 1 tradie-homeowner connection as a % of total # jobs posted on hipages (Australia)

ARPU growth reflects enhanced value proposition

hipages Australia ARPU (\$)

Key drivers:

- New customers joining STP at higher yields
- Migration of existing customers to new plans (to complete by October 2025)
- Continued optimisation of job lead prices, coupled with AI driven matching engine driving increased credit usage, ascensions and lead pack purchases¹

¹ 'Lead Packs' are a transactional product offering tradies extra credit on a one-off basis, as an alternative to ascending to a higher price point (subscription product with 12 months commitment)

Solid platform for subscriber growth with STP migration complete

hipages Australia subscription tradie number ('000)

Key drivers:

- Successfully executed platform migration while delivering continued volume and price growth
- Opportunity to accelerate subscription growth (Refer slide 26)

Retention stable and ARPU growth maintained through STP migration

hipages Australia MRR retention rate¹ and ARPU

- MRR retention remained stable through STP migration (>33k tradies)
- Increased retention from early STP user cohorts
- Focus remains on driving adoption of job management features to enhance retention
- Continued ARPU growth driven by:
 - Subscription price increases (new packages)
 - Lead price increases and AI matching engine enhancements

¹ Last 12-months MRR Retention rate (in %) for hipages Australia
² hipages FY19 customer base: 40% transactional/60% subscription

Significant opportunity from increased STP engagement

Further ARPU growth to be driven by migration of tradies to new pricing plans

Increased engagement expected to drive higher retention over time

¹ MAU: Monthly Active User defined as a subscription tradie account who used at least 1 job management feature during the month

hipages is the #1 destination for homeowners to connect with tradies and for tradies to grow their businesses

HOMEOWNER

- **Continuation of strong partnership with The Block (Channel 9)**
More value and stronger integration versus previous years with a total reach of 13.6m¹
- **68% brand awareness²** among homeowners
- **# 1 place to connect with tradies¹** – for homeowners
- **Increased repeat jobs** by 8% YoY

TRADIE

- **Multi-channel Tradie campaigns** across radio, on-demand streaming **platforms**, YouTube and TV
- **68% brand awareness²** among tradies
- **#1 place to grow your business³** – for tradies
- Launched **Tradie Education** and grew enrolments to over 2,000 in the first 12 months

Focus on driving app downloads to boost homeowner engagement with marketing creative targeted towards app benefits

FY26 focus:

- **Marketplace experience:** new team to improve homeowner web & app experience
- **Trust & quality** for homeowners: enhanced tradie verification, profile trust badges and self-service FAQs

New Zealand Operations

NZ ARPU growth driven by transition to full subscription model

hipages New Zealand (Builderscrack) tradie mix

Successful business model evolution with 100% of NZ tradies now on a full subscription model

- FY25 revenue up 23% driven by higher yields from new subscription model
- Subscription model provides enhanced value for tradies and higher retention
- **FY25 ARPU exit run rate of \$1,536¹**

¹ ARPU for the month of June 2025, i.e. after the 100% completion to the subscription model; ARPU shown in the graph is for FY25, which had a mix of transactional and subscription tradie in the first half.

Strategic evolution

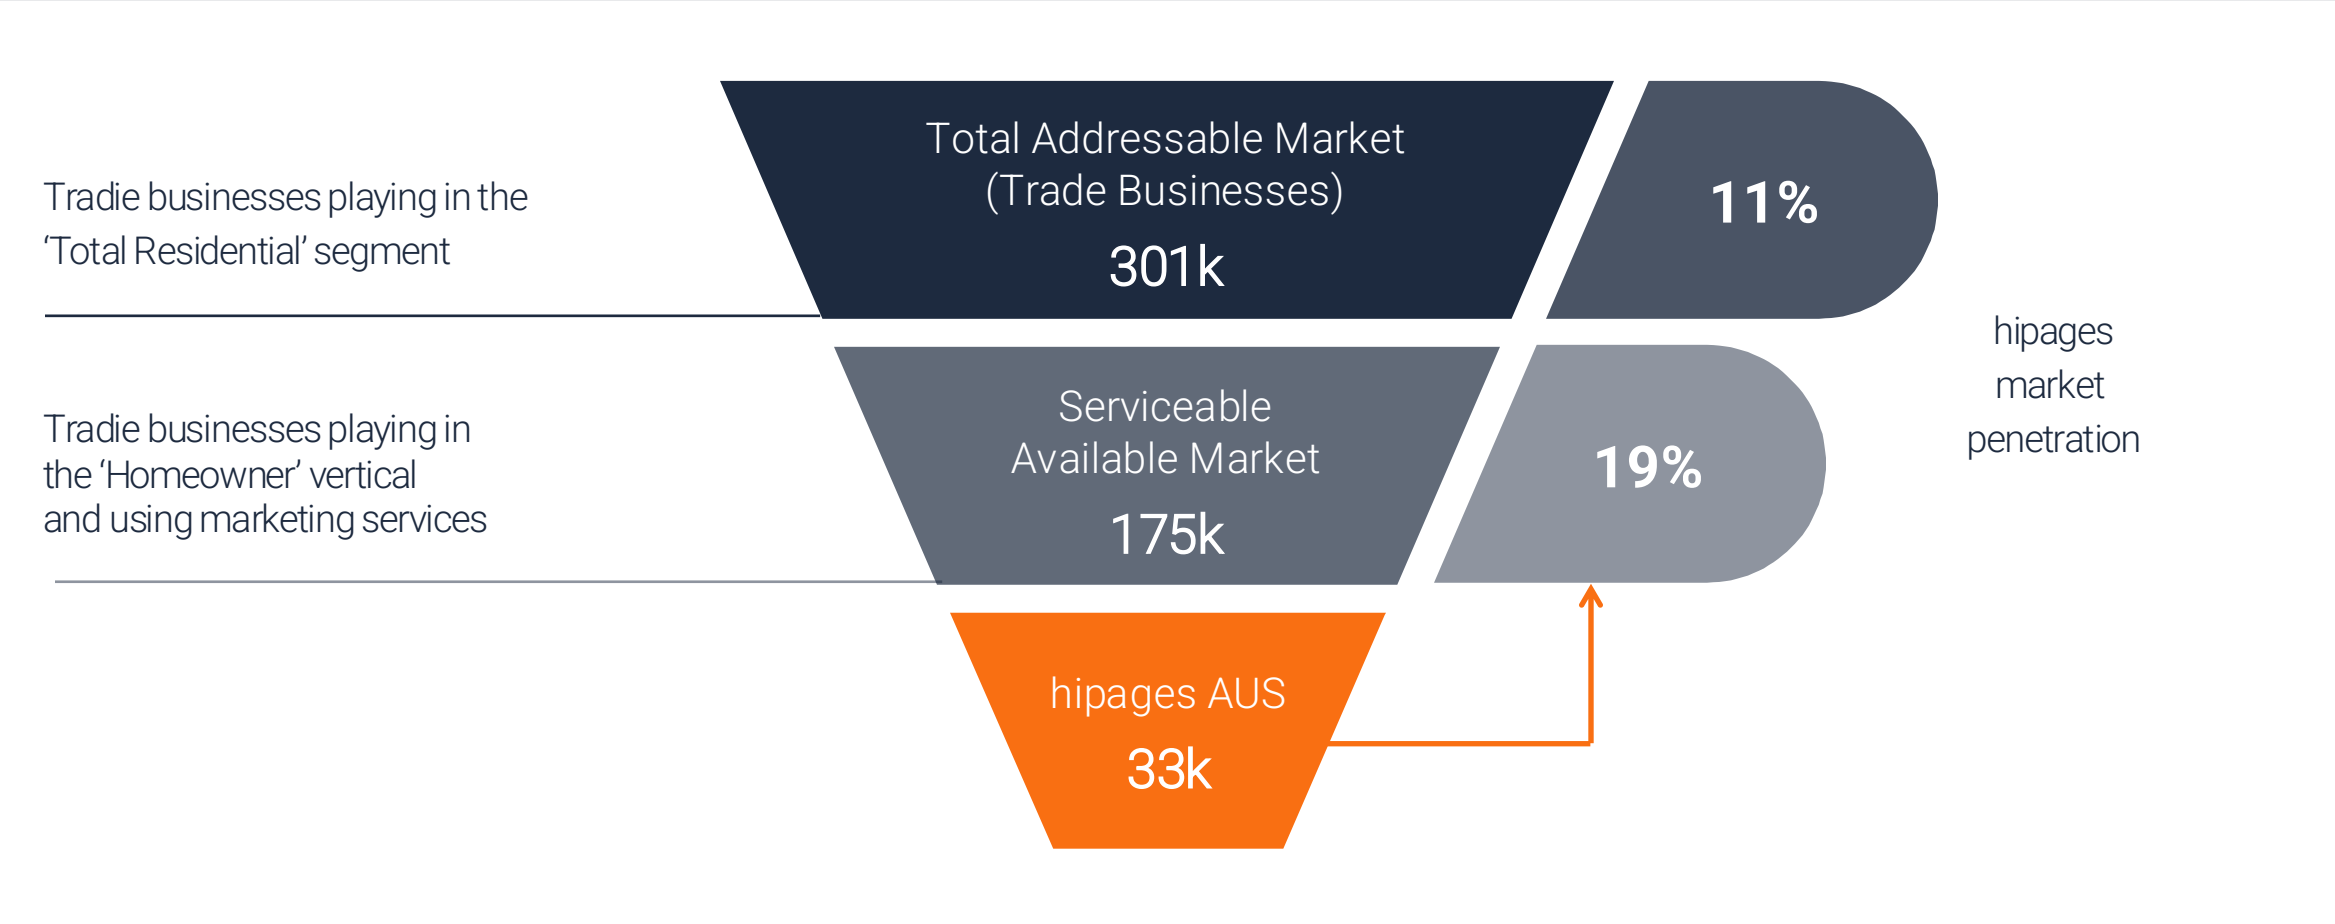

ROBY SHARON-ZIPSER
CEO & Co-Founder

Well positioned to capture larger proportion of TAM

Multi-product platform more appealing to a broader tradie base

Opportunity to deepen engagement with ~50k paying tradies

Paying Tradies¹ serviced over each FY

('000s)

Opportunity to elevate user experience and engagement:

- Enhanced platform experience designed to make hipages indispensable to tradies
- Expansion of value-added services (e.g. Toolbox, education, financial solutions)
- Flexible subscription tiers to meet a wider range of tradie needs
- Targeted in-app features and campaigns to strengthen ongoing engagement

¹ Tradies who were on a subscription product at some stage during the FY. In FY25, hipages had 33.3k tradie customers at the end of June out of a total of 48.8k tradies serviced over the period.

Unrivalled customer value underpins confidence in strategy

hipages ROI materially higher than peers¹

Translating to lowest take rate of GMV^{1,2}

- hipages delivers strongest return on investment for tradespeople at \$32 for every \$1 spent on the platform
- Reinforcing hipages as the most effective channel for lead generation among digital lead generation channels
- Opportunity to surface value to customers more effectively through STP analytics and itemised billing

FY26 targets¹: continued strong growth in revenue, profitability and cash

- Total revenue growth

10% - 12%

- EBITDA margin²

24% - 26%

- Free Cash Flow

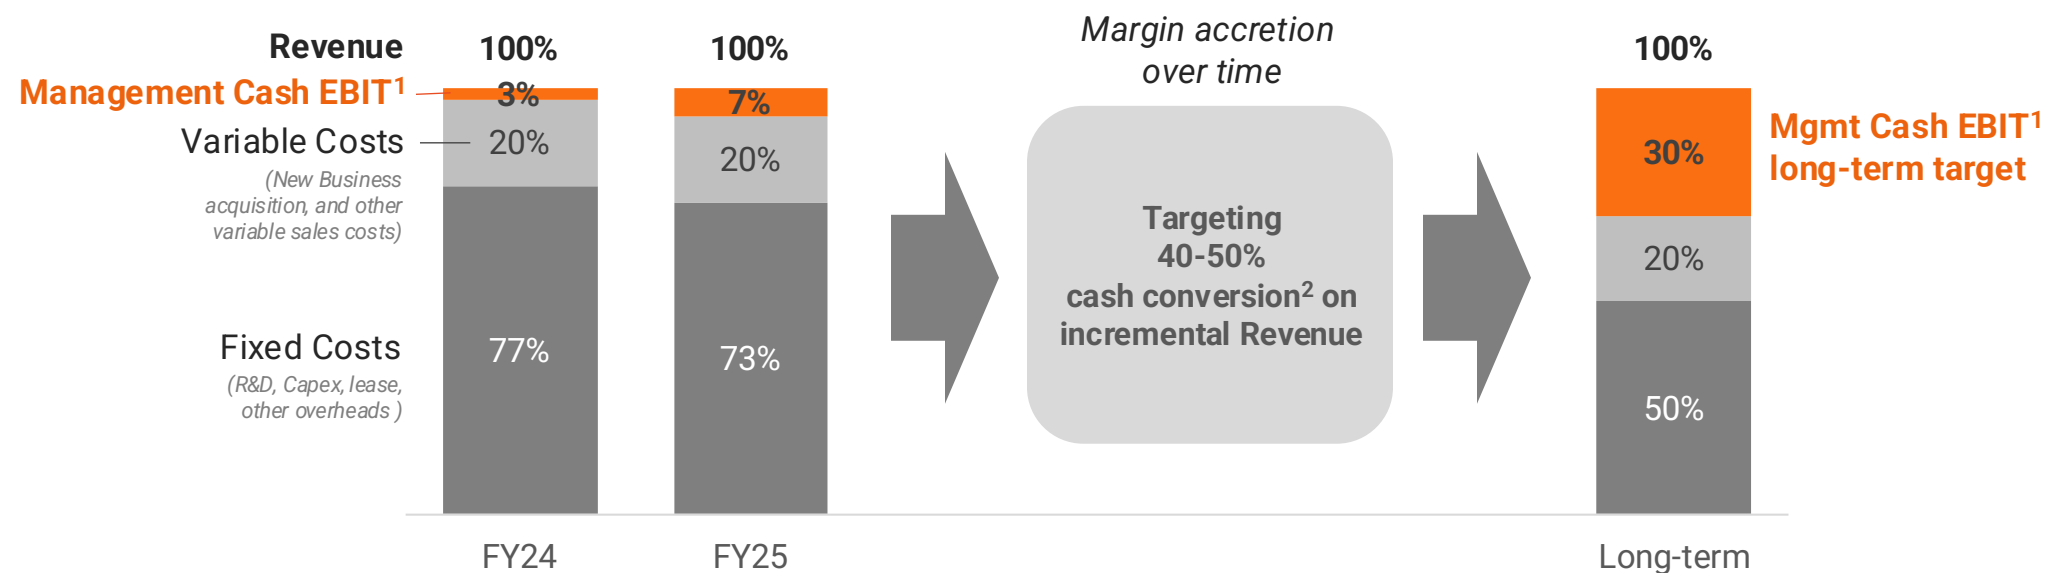

\$8m - \$10m

¹ Assuming no material deterioration in macroeconomic conditions impacting the Group's key markets under the existing strategy

² EBITDA margin before significant items

Long-term potential profitability at scale

HPG's fixed cost profile amplifies operating leverage and unlocks significant profitability as the business scales

¹ Includes capitalised and non-capitalised technology spend, and leases

² 47% in FY25. See page 7.

Glossary and definitions

Annual revenue per user (ARPU)

The annual operating revenue divided by the average of the opening and closing number of total hipages Australia and hipages NZ (Builderscrack) tradies for the period. For FY25, hipages Group ARPU of \$2,267 is the blended result of hipages' ARPU of \$2,381 and Builderscrack's ARPU of \$1,190.

Gross profit margin

Includes total revenue less cost of sales (homeowner and tradie SEM spend and merchant fees).

Free cash flow (FCF)

Operating cash flow less lease repayment, less payments for intangible assets and PPE. Cash flows related to M&A and bank guarantee release are not considered part of free cash flow calculations.

Monthly recurring revenue (MRR)

Monthly recurring revenue refers to the committed monthly subscription revenue from tradies (excluding GST) at the end of the period (i.e. June 2025 for FY25). It is calculated as the number of tradie accounts multiplied by their monthly subscription price excluding GST.

Paid connections

Paid connections occur when a tradie claims a lead on a job posted on the hipages platform, resulting in lead credit usage. Every job posted is connected with up to 3 tradies.

Subscription tradies

Refers to customer tradies in AUS (hipages) and NZ (Builderscrack) committed to a monthly subscription product.

Tradie-homeowner connection

Jobs posted by homeowners on the hipages marketplace appear as leads to relevant tradies (according to our job-matching algorithm). Up to 3 tradies can successfully claim a lead: this results in a tradie-homeowner connection. Connections are the trigger for lead credit consumption.
