

ASX ANNOUNCEMENT

DESPATCH OF SHARE PURCHASE PLAN DOCUMENTS

27/08/2025

Arafura Rare Earths Limited (ASX: ARU) (“Arafura” or the “Company”) advises its share purchase plan (“SPP”) offer opens today following despatch to eligible shareholders. Attached is:

- a copy of the letter being sent to eligible Arafura shareholders (“**SPP Offer Letter**”); and
- a copy of the SPP offer booklet, which is available for download at www.arutld.com.

Eligible shareholders who have provided an e-mail address will be sent an e-mail communication regarding the SPP. Eligible shareholders who have not provided an e-mail address or who have requested physical copies of documents will receive the SPP Offer Letter and personalised application form via post.

-ENDS-

27/08/2025

Dear Shareholder,

ARAFURA RARE EARTHS LIMITED (ASX: ARU) SHARE PURCHASE PLAN

On 20 August 2025, **Arafura Rare Earths Limited (ASX: ARU) (Arafura, or the Company)** announced that it was conducting a Share Purchase Plan (**SPP**) targeting a raise of A\$5 million (before costs).

The SPP offers Eligible Shareholders (defined below) the opportunity to apply for parcels of new fully paid ordinary shares in Arafura ("**New Shares**") worth up to A\$30,000 without incurring brokerage or other transaction costs. New Shares will be issued at an issue price of A\$0.19, being the same issue price as under the institutional placement announced on 20 August 2025.

In respect of the SPP, **Eligible Shareholders** are shareholders who:

1. were shareholders on the Company's share register at 7.00pm (AEST) on 19 August 2025 with a registered address in Australia or New Zealand;
2. are not in the United States nor acting for the account or benefit of a person in the United States; and
3. do not hold Arafura shares on behalf of another person who resides outside Australia or New Zealand.

Eligible Shareholders may apply for New Shares in parcels valued at A\$2,500, A\$5,000, A\$10,000, A\$20,000, A\$25,000 or A\$30,000. Participation in the SPP offer is optional.

The SPP is subject to the terms and conditions set out in the SPP Offer Booklet. A copy of the SPP Offer Booklet, along with instructions on how to apply for New Shares under the SPP and submit payment for New Shares is available online at events.miraql.com/aru-spp/. Shareholders that have requested physical copies of documents have been sent a copy of the SPP Offer Booklet and their personalised application form via post.

Arafura notes that it issued shares under a previous share purchase plan on 11 September 2024. In order to fall within ASX Listing Rule 7.2, Exception 5, Arafura is restricted from issuing or agreeing to issue any shares under the offer contained in the SPP until after 11 September 2025.

Accordingly, application monies received under the SPP before 12 September 2025 will be held on trust by Arafura until 12 September 2025 and applications received before that date will only be deemed to be received by Arafura under the SPP on 12 September 2025. Applicants who have made an application under the SPP before 12 September 2025 may withdraw their application (and receive a full refund) by lodging a signed Withdrawal Form with the Share Registry by no later than 5:00pm (AEST) on 11 September 2025. After this time, you will not be able to withdraw your application, and any Withdrawal Forms received after this time will be disregarded.

You can obtain a Withdrawal Form by contacting the Arafura Shareholder Information Line on (+61) 1300 551 627 (toll free within Australia) from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays).

This letter is to notify you that the SPP is now open and to provide you with instructions as to how to obtain a copy of the SPP Offer Booklet and your personalised application form.

How to obtain a copy of the SPP Offer Booklet and your personalised application form

- PAPER** - You can request a paper copy of the SPP Offer Booklet and your personalised application form by contacting the Arafura Shareholder Information Line on (+61) 1300 551 627 (toll free within Australia) from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays) during the SPP offer period.

Please note that if you request a paper copy of the SPP Offer Booklet and personalised application form, there may be some delays in delivery of the SPP Offer Booklet and your personalised application form via post. You are encouraged to access the SPP Offer Booklet and your personalised application form online by following the instructions on the offer website (see below).

- ONLINE** - The SPP Offer Booklet and your personalised application form are available to view online at events.miraqle.com/aru-spp/. To access this website you will need your SRN or HIN, and must follow the following steps:
 - Log in to the SPP Offer Website accessible through the Company's website at events.miraqle.com/aru-spp/ and enter your exact registered details.
 - Enter your HIN/SRN, Surname/Company Name and your postcode (applicable only in Australia).
 - Read the SPP Booklet in its entirety. If you are in doubt about what to do, consult your professional advisor.
 - Download your personalised application form with payment details.
 - Make your payment of total application monies via BPAY® (or, for Eligible Shareholders in New Zealand, via BPAY® or electronic funds transfer) for the amount of New Shares that you wish to apply for, available in the following six parcels: \$2,500, \$5,000, \$10,000, \$20,000, \$25,000 or \$30,000.

The SPP is scheduled to close at 5.00pm (AEST) on Friday, 3 October 2025. Payment must be received before this time

You should read the SPP Offer Booklet carefully and in its entirety before deciding whether to participate in the SPP.

Key Dates for the SPP*

Time (AEST) and Date	Event
7:00pm, Tuesday, 19 August 2025	SPP Record date The date and time at which Arafura determines who is eligible to participate in the SPP.
Wednesday, 27 August 2025	SPP opening date Applications will be processed following this date.
7:00pm, Friday, 3 October 2025	SPP closing date Application monies must be received by this time and date.
Friday, 10 October 2025	Announcement of results of SPP Issue of New Shares under SPP
Tuesday, 14 October 2025	Commencement of trading of New Shares issued under SPP
Wednesday, 15 October 2025	Despatch date of holding statements in respect of New Shares issued under the SPP

* Subject to change. The Company reserves the right to withdraw the SPP or vary the above dates at its discretion.

Action required by Eligible Shareholders

Eligible Shareholders may participate in the SPP by submitting a payment in accordance with the instructions set out in the SPP Offer Booklet and on your personalised application form.

Application monies must be received before 5.00pm (AEST) on Friday, 3 October 2025.

Enquiries

If you have any questions, please visit www.arultd.com or call the Arafura Shareholder Information Line on (+61) 1300 551 627 (toll free within Australia) from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays) during the SPP offer period. Alternatively, contact your stockbroker, solicitor, accountant or other professional adviser.

Yours sincerely

Matthew Foy

Company Secretary

Arafura Rare Earths Limited

Not for release to US wire services or distribution in the United States

This document has been prepared for publication in Australia and may not be released to US wire services or distributed in the United States. This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction. Any securities described in this announcement have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, registration under the US Securities Act and applicable US state securities laws.

Arafura Rare Earths Limited Share Purchase Plan

Not for release to US wire services or distribution in the United States

27 August 2025

Dear Shareholder

OFFER TO PARTICIPATE IN SHARE PURCHASE PLAN

The Directors of Arafura Rare Earths Limited (ASX: ARU) (**Arafura** or the **Company**) are pleased to offer you the opportunity to participate in the Arafura Share Purchase Plan (**SPP**).

Under the SPP, the Company offers eligible shareholders who were registered holders of fully paid ordinary shares (**Shares**) in the Company as at 7:00pm (AEST) on Tuesday 19 August 2025 (**Record Date**), and whose registered address is in Australia or New Zealand, the opportunity to apply for parcels of new Shares (**New Shares**) in Arafura of up to A\$30,000 without paying brokerage or other transaction costs.

The SPP follows the Company's recent announcement in relation to its institutional placement to raise A\$80 million (**Placement**). The issue price for the New Shares is A\$0.19 per share, which is the same issue price as under the Placement. The issue price represents a 9.2% discount to the volume weighted average price of Arafura shares calculated over the last 5 days on which sales in the Shares were recorded before the day on which the SPP was announced.

The SPP is not underwritten. Arafura is targeting to raise approximately A\$5 million (before costs) under the SPP and, depending on demand, may scale back applications or (to the extent permitted by the ASX Listing Rules) raise a higher amount, at its absolute discretion.

Funds raised under the SPP will provide Arafura an extended cash runway while de-risking the overall equity funding requirement for the Nolans Rare Earths Project. Arafura will apply proceeds from the SPP and its existing cash (including funds raised under the Placement) towards the following purposes:

- corporate, working capital and transaction costs; and
- allocation to project development capital upon a final investment decision.

If Arafura does not raise the full amount targeted under the SPP, Arafura intends to apply the gross proceeds received firstly towards meeting the costs of the SPP, and then towards the above items to the extent possible.

The SPP will open on Wednesday 27 August 2025 and will remain open until 5:00pm (AEST) on Friday 3 October 2025 (unless extended, withdrawn or closed early by the Company). As soon as practicable (and in any event no later than 5 business days) after the close of the SPP, Arafura will make an ASX announcement as to the outcome of the SPP and the number of New Shares to be issued.

The offer of New Shares is made under an SPP Offer Booklet. To apply for a parcel of New Shares, please follow the instructions set out in the SPP Offer Booklet and on the Application Form.

Further information and application instructions for the offer under the SPP, as well as the risks associated with investing in New Shares, are detailed in this SPP Offer Booklet. These documents are important and should be read thoroughly in conjunction with the publicly available information relating

to Arafura. If you are unsure about whether to participate, please contact your stockbroker, solicitor, accountant or other professional adviser. If you have any queries or require further information, please visit www.arultd.com or contact the Arafura Shareholder Information Line on 1300 551 627 (within Australia) or (+61) 1300 551 627 (outside of Australia) between 8:30am and 5:30pm (AEST) Monday to Friday (excluding public holidays) during the SPP offer period.

On behalf of the Board, I encourage you to consider this opportunity to increase your investment in Arafura.

Yours sincerely

Mark Southey
Chairman
Arafura Rare Earths Limited

Key Dates*

Date (and time if relevant)	Event
7:00pm AEST, Tuesday 19 August 2025	Record Date The date and time at which Arafura determines who is eligible to participate in the SPP.
Wednesday 27 August 2025	Opening Date Applications will be processed following this date.
7:00pm AEST, Friday 3 October 2025	Closing Date Application monies must be received by this time and date.
Friday 10 October 2025	Announcement of Results
Friday 10 October 2025	Issue Date The date on which the New Shares are expected to be issued and any scale back of the New Shares is announced.

* Arafura may change any of the Key Dates at its discretion (even if the offer has opened or applications have been received).

Instructions

The SPP opens on 27 August 2025 and under the offer you may only apply for a parcel of New Shares as set out in the table below. Fractional entitlements to New Shares will be rounded up to the nearest whole share.

Application options
A\$2,500 of New Shares
A\$5,000 of New Shares
A\$10,000 of New Shares
A\$20,000 of New Shares
A\$25,000 of New Shares
A\$30,000 (maximum) of New Shares

Details of the offer and how to participate are set out in this document. This document and the Application Form are also accessible at www.arultd.com.

If you are unable to access the website online you can request a copy of the SPP Offer Booklet and the personalised Application Form to be posted or emailed to you by contacting the Arafura Shareholder Information Line on 1300 551 627 (within Australia) and (+61) 1300 551 627 (outside of Australia).

To apply and pay for your New Shares, you must make a payment by BPAY®¹ in accordance with the instructions on your personalised Application Form. However, if you are an Eligible Shareholder in New

¹ ® Registered to BPAY Pty Ltd ABN 69 079 137 518.

Zealand, you may make a payment by BPAY® or electronic funds transfer in accordance with the instructions on your personalised Application Form. There is no need to return your Application Form if paying by BPAY®. The Company will not accept any payment method other than BPAY® (or, for Eligible Shareholders in New Zealand, BPAY® or electronic funds transfer) and payments by cash, cheque, electronic funds transfer (other than as referred to above), bank draft or money order will not be accepted. If you are an Eligible Shareholder in Australia and would like to participate but do not have access to BPAY®, please contact your bank or financial institution for assistance with making payment by BPAY®.

Timing

Application monies must be received before 5:00pm (AEST) on Friday 3 October 2025. It is the responsibility of the applicant to ensure that application monies are received by this time.

Arafura notes that it issued shares under a previous share purchase plan on 11 September 2024. In order to fall within ASX Listing Rule 7.2, Exception 5, Arafura is restricted from issuing or agreeing to issue any shares under the offer contained in this SPP until after 11 September 2025.

Accordingly, application monies received under the SPP before 12 September 2025 will be held on trust by Arafura until 12 September 2025 and applications received before that date will only be deemed to be received by Arafura under the SPP on 12 September 2025. Applicants who have made an application under the SPP before 12 September 2025 may withdraw their application (and receive a full refund) by lodging a signed Withdrawal Form with the Share Registry by no later than 5:00pm (AEST) on 11 September 2025. After this time, you will not be able to withdraw your application, and any Withdrawal Forms received after this time will be disregarded.

You can obtain a Withdrawal Form by contacting the Arafura Shareholder Information Line on 1300 551 627 (within Australia) and (+61) 1300 551 627 (outside of Australia), from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays).

Questions

If you have any questions, please contact your professional adviser or the Arafura Shareholder Information Line on 1300 551 627 (within Australia) and (+61) 1300 551 627 (outside of Australia), from 8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays) during the SPP offer period.

No offer outside Australia and New Zealand

This document may not be released to US wire services or distributed in the United States or any country other than Australia and New Zealand. This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any country other than Australia and New Zealand. In particular, any securities described in this document have not been, and will not be, registered under the US Securities Act of 1933 (as amended) and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements under the US Securities Act and applicable US state securities laws.

Terms and Conditions

IMPORTANT NOTICE: The market price of Arafura shares may rise or fall from now to when the New Shares are issued to you under the SPP. Therefore, if you apply for and Arafura issues to you New Shares under the SPP, the offer price for those New Shares may be more than, or less than, the market price of Arafura shares you could buy at that time. By making a payment for New Shares, you acknowledge this risk. Arafura encourages you to contact your professional adviser regarding whether to participate in the SPP and how much to contribute.

Offer timetable

- (a) The offer timetable is set out in the Key Dates above and is included in these Terms and Conditions.
- (b) Application monies may not be processed and may not be valid if they have not been received by or on behalf of Arafura by the time and date specified for the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment, and you should take this into consideration when making payment.
- (c) Arafura expects to send a transaction confirmation or holding statement to you on or around the Despatch Date.
- (d) Arafura expects that the New Shares will be issued under the SPP on the Issue Date and will commence trading on ASX on the Trading Date. You must confirm your holding before trading in any New Shares you believe have been issued to you under the SPP.
- (e) At any time, Arafura can change the Closing Date, the Issue Date, the Trading Date and the Despatch Date (even if the offer has opened or application monies have been received) by lodging a revised timetable with ASX.

Eligible Shareholders

You are eligible to participate in the SPP (an **Eligible Shareholder**) if you were a registered holder of Arafura ordinary shares with a registered address in Australia or New Zealand as at 7:00pm (AEST) on Tuesday 19 August 2025 (being the Record Date) unless:

- (a) you are in the United States or acting for the account or benefit of a person in the United States; or

- (b) you hold Arafura shares on behalf of another person who resides outside Australia or New Zealand,

in which case you will not be eligible to participate in respect of the shares of that person.

Arafura has determined that it is not practical for holders of Arafura shares with registered addresses in other countries to participate.

Participation by Eligible Shareholders

- **Holders receiving more than one offer:** If you are the only registered holder of Arafura shares, but you receive more than one offer under the SPP (due to multiple registered holdings), you may only contribute a maximum of A\$30,000 in applying for New Shares.
- **Joint Holders:** If two or more persons are recorded in the register of members of Arafura as jointly holding Arafura shares, they are considered to be a single registered holder for the purposes of the SPP and as joint holders they are entitled to participate in the SPP in respect of that single holding only. If as joint holders you receive more than one offer under the SPP due to multiple identical holdings, you may still only contribute a maximum of A\$30,000 in applying for New Shares.
- **Custodians, trustees and nominees:** If you are a custodian, trustee or nominee within the definition of "custodian" in *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (Custodian)*, and hold Arafura shares on behalf of one or more Beneficiaries (as defined below) on whose behalf you are participating in the offer (each a **Participating Beneficiary**), or on behalf of a "downstream custodian" within the definition of *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547* who holds the beneficial interest in Arafura shares on behalf of a Participating Beneficiary, you may apply

for up to a maximum of A\$30,000 worth of New Shares for each Participating Beneficiary, subject to providing Arafura with a Custodian Certificate in accordance with paragraph (e) of “Significance of applying for New Shares” below. A Custodian has the discretion to extend the offer to the Beneficiaries. A **Beneficiary** is a person who resides in Australia or New Zealand for whom a Custodian (being an Eligible Shareholder) held Arafura ordinary shares on the Record Date and who is not in the United States and who is not acting for the benefit of or the account of a person in the United States. If you are not a Custodian, the rules for multiple single holdings (and joint holdings) apply and you may only contribute a maximum of A\$30,000 in applying for New Shares. You are not eligible to participate on behalf of a person who resides outside Australia and New Zealand.

Participation is optional

Participation in the SPP is entirely optional. If you are an Eligible Shareholder, you can choose whether or not to participate.

How much can you invest?

- (a) Arafura is targeting to raise approximately A\$5 million (before costs) under the SPP. Depending on demand, Arafura may scale back applications or (to the extent permitted by the ASX Listing Rules) raise a higher amount, at its absolute discretion.
- (b) If you are an Eligible Shareholder, you may apply to buy a parcel of New Shares by contributing a set amount of either A\$2,500, A\$5,000, A\$10,000, A\$20,000, A\$25,000 or A\$30,000.
- (c) Your application may be subject to scaleback and/or rounding. Arafura reserves absolute discretion regarding the amount raised under the SPP and exercise of its right to accept additional funds or to scaleback applications. If there is a scaleback, Arafura may in its absolute discretion determine to apply the scaleback to the extent and in the manner that it sees fit.
- (d) Unless you are applying as a Custodian, the maximum amount of A\$30,000 applies even if you receive more than one Application Form or if you hold

shares in Arafura in more than one capacity (for example, if you are both a sole and joint holder of shares in Arafura - see “Eligible Shareholders” above) and irrespective of the number of Arafura shares you hold on the Record Date. Arafura can reject any application for New Shares if Arafura believes you have not complied with this condition.

How to apply for New Shares

An electronic copy of this SPP Offer Booklet, along with the Application Form, is accessible at www.arultd.com. You will need the details of your registered holding to access these documents.

If you are unable to access the website online you can request a copy of the SPP Offer Booklet and the personalised Application Form to be posted or emailed to you by contacting the Arafura Shareholder Information Line on 1300 551 627 (within Australia) and (+61) 1300 551 627 (outside of Australia).

If you would like to participate in the SPP, you must make a payment by BPAY® or electronic funds transfer in accordance with the instructions on your personalised Application Form. Electronic funds transfer payments are only available to Eligible Shareholders in New Zealand (in addition to BPAY®). The Company will not accept any payment method other than BPAY® (or, for Eligible Shareholders in New Zealand, electronic funds transfer) and payments by cash, cheque, electronic funds transfer (other than as referred to above), bank draft or money order will not be accepted. If you are an Eligible Shareholder in Australia and would like to participate but do not have access to BPAY®, please contact your bank or financial institution for assistance with making payment by BPAY®. BPAY® customers must use the customer reference number shown on the Application Form which is required to identify your holding. When paying by BPAY®, you do not need to return your Application Form. However, Custodians applying for Beneficiaries must still complete and return a Custodian Certificate in accordance with paragraph (e) of “Significance of applying for New Shares” below.

IMPORTANT NOTE: By making a payment for New Shares, you represent that the total of the application price for the following does not exceed A\$30,000 (even if you have received more than one offer under the SPP or have received offers in more than one capacity):

- (a) the New Shares the subject of this application;
- (b) any other shares applied for under this SPP, or shares or interests in the class issued under a similar arrangement in the 12 months before this application;
- (c) any other shares or interests in the class which you have instructed a Custodian to acquire on your behalf under this SPP; and
- (d) any other shares or interests in the class issued to a Custodian under an arrangement similar to this SPP in the 12 months before this application as a result of you instructing the Custodian or another Custodian, which resulted in you holding a beneficial interest in the shares or interests.

Payment for New Shares may not be processed and may not be valid if it has not been received by Arafura by the time and date specified for the Closing Date. You should be aware that your financial institution may implement earlier cut-off times regarding electronic payment, and you should consider this when making payment.

Arafura's discretion regarding applications

Arafura may reject applications for New Shares under the SPP, including if:

- (a) an Application Form is incorrectly completed, incomplete or otherwise determined by Arafura to be invalid;
- (b) you are a Custodian, and Arafura is not satisfied with your certification for any reason;
- (c) the correct amount corresponding to your application is not provided with the payment;
- (d) a payment is not received or is incomplete or invalid;
- (e) unless you are applying as a Custodian, an applicant appears to be contributing more than A\$30,000 under the SPP;
- (f) an application is received after the time and date specified as the Closing Date. Arafura has a discretion whether or not to accept late payments; or

- (g) Arafura believes you are not an Eligible Shareholder,

and Arafura must reject applications if required to do so under *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547*.

Arafura reserves the right to refund your payment and not issue you any New Shares.

Offer price

The New Shares under the SPP will be issued at A\$0.19 per share, which represents a 9.2% discount to the volume weighted average price of Arafura shares calculated over the last 5 days on which sales in the Shares were recorded before the day on which the SPP was announced.

The number of New Shares issued to an applicant will be determined by dividing their application monies by the issue price. If this calculation produces a fractional number, the number of New Shares will be rounded up to the nearest whole share.

Applications may be scaled back

- (a) Arafura may, in its absolute discretion, issue to you less than the number of New Shares you have applied for depending on demand (**Scaleback**). If there is a Scaleback, Arafura may in its absolute discretion determine to apply the Scaleback to the extent and in the manner that it sees fit, including by taking into account a number of factors (but without limiting Arafura's absolute discretion) that include the size of your shareholding as at the Record Date and the total applications received from Eligible Shareholders.
- (b) If there is a Scaleback you may not receive all the New Shares for which you have applied. If a Scaleback produces a fractional number when applied to your parcel, the number of New Shares you will be issued will be rounded up to the nearest whole share.
- (c) Arafura will refund to you by direct credit deposit to your nominated bank account (where you have given your nomination to the Share Registry) or by cheque to your postal address as recorded by the Share Registry (in all other cases), the difference between your application money and the total offer price for the

New Shares issued to you (without interest).

No other participation costs

No brokerage, commission or other participation costs are payable by you to acquire New Shares under the SPP.

No interest

No interest will be paid on any application money returned to you.

You cannot transfer your rights under this SPP

Your rights under this offer are personal to you and non-renounceable. This means you cannot transfer your right to purchase New Shares under this SPP to anyone else.

Equal ranking

New Shares issued under the SPP will, at the time of issue, rank equally with existing Arafura shares quoted on ASX, with the same voting rights, dividend rights and other entitlements.

ASX Listing Rule 7.2, Exception 5 and withdrawal rights

Arafura notes that it issued shares under a previous share purchase plan on 11 September 2024. In order to fall within ASX Listing Rule 7.2, Exception 5, Arafura is restricted from issuing or agreeing to issue any shares under the offer contained in this SPP until after 11 September 2025.

Accordingly, application monies received under the SPP before 12 September 2025 will be held on trust by Arafura until 12 September 2025 and applications received before that date will only be deemed to be received by the Company under the SPP on 12 September 2025. Applicants who have made an application under the SPP before 12 September 2025 may withdraw their application (and receive a full refund) by lodging a signed Withdrawal Form with the Share Registry by no later than 5:00pm (AEST) on 11 September 2025. After this time, you will not be able to withdraw your application, and any Withdrawal Forms received after this time will be disregarded.

You can obtain a Withdrawal Form by contacting the Arafura Shareholder Information Line on 1300 551 627 (within Australia) and (+61) 1300 551 627 (outside of Australia), from

8.30am to 5.30pm (AEST) Monday to Friday (excluding public holidays).

Significance of applying for New Shares

If you apply to participate in the SPP:

- (a) and made an application under the SPP before 12 September 2025, you may withdraw your application if the Share Registry receives a signed Withdrawal Form before 5:00pm (AEST) on 11 September 2025 (and you will receive a full refund of your application money without interest);
- (b) you agree that, other than in the circumstance described in paragraph (a) above, once you have made your payment, you cannot withdraw or cancel your application and your application is unconditional;
- (c) you confirm that you are an Eligible Shareholder and that you are lawfully permitted to accept the offer under the SPP and participate in the SPP in accordance with these Terms and Conditions and any applicable laws;
- (d) you certify that, even if you have received more than one offer under the SPP or received offers in more than one capacity, the total of the application price for the following does not exceed A\$30,000:
 - the New Shares the subject of this application;
 - any other shares applied for under this SPP, or shares or interests in the class issued under a similar arrangement in the 12 months before this application;
 - any other shares or interests in the class which you have instructed a Custodian to acquire on your behalf under this SPP; and
 - any other shares or interests in the class issued to a Custodian under an arrangement similar to this SPP in the 12 months before this application as a result of you instructing the Custodian or another

Custodian, which resulted in you holding a beneficial interest in the shares or interests;

- (e) if you are a Custodian and are applying for New Shares with a total application price exceeding A\$30,000, you may only do so subject to you providing a notice in writing to Arafura certifying the matters required by *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547* at section 8(3) (**Custodian Certificate**). Custodians should request a pro forma Custodian Certificate when making an application on behalf of Participating Beneficiaries. To request a Custodian Certificate or if you would like further information on how to apply, you should contact the Arafura Shareholder Information Line;
- (f) you agree to these Terms and Conditions and you agree not to do anything which would be contrary to the spirit, intention or purpose of the SPP;
- (g) you agree to be bound by the Constitution of Arafura;
- (h) you agree that your application is only effective when received by (or deemed to be received by) or on behalf of Arafura;
- (i) you accept the risks associated with any refund that may be sent to you by direct credit to your account as nominated to the Share Registry or cheque to your address shown on Arafura's register;
- (j) you agree that Arafura and the Share Registry have not provided you with investment or financial product advice, and that they have no obligation to provide advice to you about your decision to apply for and be issued New Shares;
- (k) you agree that Arafura is not liable for any exercise of its discretions referred to in these Terms and Conditions; and
- (l) you are not in the United States and are not acting for the benefit of or the account of a person in the United States.

Notice to shareholders in New Zealand

The New Shares are not being offered or sold to the public within New Zealand other than to existing shareholders of Arafura with registered addresses in New Zealand to whom the offer of New Shares is being made in reliance on the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021* (New Zealand).

This document has not been registered, filed with or approved by any New Zealand regulatory authority under the *Financial Markets Conduct Act 2013* (New Zealand). This document is not a product disclosure statement, an investment statement or prospectus or other disclosure document under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement, investment statement, prospectus or other disclosure document under New Zealand law is required to contain.

No US offer

If you apply to participate in the SPP or instruct a Custodian to do so on your behalf, you acknowledge and agree that:

- (a) the New Shares have not been, and will not be, registered under the US Securities Act, or the securities laws of any state or other jurisdiction in the United States, except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any other applicable securities laws;
- (b) the New Shares may only be offered and sold outside the United States in "offshore transactions" (as defined and in reliance on Regulation S under the US Securities Act);
- (c) you are not in the United States and are not acting on behalf of or for the account of a person in the United States;
- (d) you must not send copies of these Terms and Conditions or any other material relating to the SPP to any person in the United States or elsewhere outside Australia and New Zealand;
- (e) you must not make a payment for New Shares for any person resident outside Australia or New Zealand;

- (f) if you are acting as a trustee, nominee or Custodian, each beneficial holder on whose behalf you are participating is resident in Australia or New Zealand and is not in the United States; and
- (g) if you do not comply with these restrictions, it may result in violations of applicable securities laws.

Withdrawal, waiver, suspension and termination

Arafura reserves the right to withdraw the offer at any time up to the Issue Date.

Arafura reserves the right at any time to:

- (a) waive compliance with any provision of these Terms and Conditions;
- (b) amend or vary these Terms and Conditions; and
- (c) suspend or terminate the SPP.

Any amendment, variation, suspension or termination is binding on all Eligible Shareholders even if Arafura does not notify you of the event.

Settling disputes

Arafura may settle, in any manner it deems appropriate, any difficulties, anomalies or disputes which may arise in connection with, or by reason of, the operation of the SPP whether generally or in relation to any participant or any application for New Shares. Arafura's decision shall be conclusive and binding on all participants and other persons to whom the determination relates.

The powers of the Company under this SPP Offer Booklet may be exercised by Arafura's Board or any delegate or representative of the Board.

Governing law

These Terms and Conditions are governed by the laws in force in Western Australia. By accepting this offer, you submit to the non-

exclusive jurisdiction of the courts in Western Australia.

Not underwritten

The SPP is not underwritten.

Interpretation

The term "these Terms and Conditions" includes terms and conditions in the Application Form, Instructions and Key Dates. The Application Form forms part of this offer document.

Risk factors

You should be aware that being issued New Shares involves various risks. This section discusses some of the key risks associated with an investment in New Shares. A number of risks and uncertainties, which are both specific and of a more general nature, may adversely affect the operating and financial performance or position of Arafura, which in turn may affect the value of New Shares and the value of an investment in Arafura.

The risks and uncertainties described below are not an exhaustive list of the risks facing Arafura or associated with an investment in Arafura. Additional risks and uncertainties may also become important factors that adversely affect Arafura's operating and financial performance or position.

This document is not financial product advice and has been prepared without taking into account your investment objectives or personal circumstances. Before investing in New Shares, you should consider whether an investment in New Shares is suitable for you. Potential investors should consider publicly available information on Arafura (such as that available on the websites of Arafura and ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

Company specific risks

Funding risk

The Nolans Project is a large and complex project with total capital expenditure currently estimated at US\$1.2 billion (refer to the Company's ASX announcement "Arafura achieves major debt funding milestone presentation" dated 23 July 2024). The business of the Company and its subsidiaries

(Group), and the ability of the Group to procure the finance required to develop the Nolans Project, relies on access to debt and equity funding.

As rare earths (including Neodymium-Praseodymium (**NdPr**)) are not traded on any commodity exchange, traditional debt and equity market sources may not be available which may make it difficult for financiers and investors to assess and understand market risk. Therefore, the Group has sought to fund a significant portion of the Nolans Project's capital expenditure through Export Credit Agencies. There can be no assurance that additional debt, equity or other forms of funding (including by way of government grants) will be available to the Group (over any timeframe) on favourable terms or at all.

The Company has received conditional credit approvals from several financiers for US\$775 million in senior debt facilities, an additional US\$80 million for a cost overrun facility (**COF**) and a further US\$200 million in the form of a standby liquidity facility (**SLF**). The COF and SLF are to be used to manage any increases in capital expenditure and operating costs incurred during ramp up. The credit approvals received for these facilities have expiry dates and while a number have been extended, there remains a risk that further extensions may not be obtained as and when required.

Customary terms of the debt financing require the Company to raise a significant portion of the capital cost required to fund the Nolans Project from the equity market before debt drawdowns will be available. No assurance can be given that the required equity component of the Nolans Project financing will be raised by the Company in full or at all. Failure to obtain sufficient funds from the equity market or failure to achieve other conditions precedent customary for secured project financing arrangements of this nature, such as final loan documentation and satisfaction of other conditions to drawdown (including providing an updated financial model based off, amongst other things, independent commodity price forecasts which demonstrate compliance with financial ratios and debt sizing criteria, entry into material project contracts with associated tripartite agreements, project authorisations, representations and undertakings) may preclude the Company from being able to drawdown on the financing facilities it has secured. Any additional equity financing, if secured, may dilute existing shareholdings.

Failure to obtain debt, equity and/or other forms

of financing may cause the Group to postpone any development plans, forfeit rights to some or all of its projects or reduce its operating structures, including staff and overhead levels, which may delay or suspend the Group's business strategy, have a material adverse effect on the Group's activities or require the Group to sell down an interest in its projects or assets. This may adversely impact the Group's financial condition and the value of the Company's shares, and could ultimately result in the Group being unable to develop the Nolan's Project. In addition, any delays in obtaining debt, equity and/or other forms of financing, or any delays in receiving (or the non-receipt of) anticipated government grants, may require the Company to decrease its planned expenditure on certain project related activities while such funding is being secured. This may lead to scheduling disruptions, timetable overruns and an overall delay in the execution of the Nolans Project.

Offtake

The Company must secure sufficient binding offtake volumes to comply with its offtake policy, which requires that at least 80% of planned production be covered by binding offtake agreements (**Binding Offtake Target**). Compliance with the offtake policy is a condition precedent to the financing facilities for the Nolans Project. Additionally, certain financing facilities which have been conditionally approved by export credit agencies require offtake volumes to be placed into specific jurisdictions. Failure to comply with the offtake policy or to meet the jurisdictional placement requirements may preclude the Company from accessing these financing facilities.

To date, the Company has secured binding offtake agreements covering 66% of its Binding Offtake Target. These agreements are subject to conditions precedent, including the delivery of first product by specified sunset dates. There is a risk that the Company may be unable to satisfy these conditions. The Group may also fail to meet the product quality requirements and material specifications of its offtake partners.

Communicable disease outbreaks

The outbreak of communicable diseases around the world (such as COVID-19) may lead to interruptions in operations, exploration, development and production activities, inability to source supplies or consumables and higher volatility in the global capital markets and price of rare earth elements or demand for the product of the Group, which may materially and

adversely affect the Group's business, financial condition and results of operations.

In addition, such outbreaks may result in restrictions on travel and public transport and prolonged closures of facilities or other workplaces which may have a material adverse effect on the Group and the global economy more generally. Any material change in the Group's operating conditions, the financial markets or the economy as a result of these events or developments may materially and adversely affect the Group's business, financial condition and results of operations.

Exploration, production and project development

The future profitability of the Group is directly related to the results of exploration, development and production activities and costs. Exploration, project development and production involves significant risk.

Exploration is a speculative endeavour with an associated risk of not discovering NdPr and other products in economic quantities and/or grades. There are also risks associated with development of a project to exploit any such discovery of NdPr or other products. No assurances can be given that funds spent on exploration and development will result in discoveries or projects that will be commercially viable. During each stage of a project's development there is a risk that forecast capital or operating expenditure estimates may increase, rendering a discovery uneconomic.

Development and production of NdPr and other mining projects may be exposed to low side reserve outcomes, cost and timetable overruns, production decreases or stoppages, which may be the result of commissioning, facility shutdowns, mechanical or technical failure, scheduling disruptions (which may result from delays to funding or decreased spend while funding is secured), technical risks and other unforeseen events. Few rare earths processing plants have been constructed and commissioned outside of the People's Republic of China and, as a result, there may be increased execution risk for the Nolans Project. A significant poor development outcome or failure to maintain production could result in the Group lowering reserve and production forecasts, loss of revenue, increased working capital requirements, and additional operating costs to restore production.

In some instances, a loss of production may result in additional capital expenditure being

incurred, which could require the Group to seek additional funding, which may not be available on favourable terms (or at all).

Volatility of the price of rare earth elements

NdPr and other rare earth products are not exchange traded commodities. The Group will require contracts for sale of these mineral commodities. There is no guarantee the Group will secure contracts on terms favourable to the Group or at all.

NdPr and other rare earth product prices will depend on available markets at acceptable prices and distribution and other costs. Pricing of NdPr can also be impacted by government intervention in NdPr markets, such as through direct or indirect support of producers and exporters of NdPr, stockpiling of NdPr, and trade policies, barriers and sanctions. Historically (and at present), the supply of NdPr has been dominated by producers in the People's Republic of China. Policy changes, actions or events that affect that supply may have a significant effect on NdPr prices. Further uncertainty in the forecast price of NdPr has been introduced by recent geopolitical activity including trade tariffs imposed by the United States of America (**US**), the transaction between the US Department of Defense and US-based rare earths producer MP Materials, and rare earth export controls introduced by the People's Republic of China.

Additionally, technological developments may result in substitution risk and decrease the demand for (and therefore the price of) NdPr and other rare earth products. Demand for NdPr and other rare earth products may also be impacted by demand for downstream products incorporating rare earths, including (but not limited to) hybrid and electric vehicles, wind turbines, robotics, permanent magnets, medical equipment, military equipment and other high-growth advanced motion technologies as well as demand in the general automotive and electronic industries.

Any substantial variation in the price of NdPr and other rare earth products or an increase in the cost of production could have a material impact on the Group.

Metallurgy and hydrometallurgy

Metallurgical testwork is used to develop the mineral processing and hydrometallurgical processes required to convert ore into final products. Scale up, technology and materials handling risks remain as the Group moves from

development to construction, commissioning and production. Product recoveries are dependent upon the mineral processing and hydrometallurgical processes, and by their nature contain elements of significant risk such as:

- developing and identifying mineral processing and hydrometallurgical processes through testwork to produce a saleable product;
- scale-up and design of novel processes into a commercial flowsheet based on laboratory and pilot scale testwork results;
- the representative nature of the samples used for the metallurgical testwork of the ore that is mined for processing over the life of mine;
- developing an economic process route to produce a saleable product; and
- changes in mineralogy in the ore deposit result in inconsistent product recovery, adversely affecting the economic viability of the Nolans Project.

Capital cost risk

While the Group has completed Front End Engineering and Design activities and is continuing detailed design and tendering activities for procurement and construction contracts (including infrastructure contracts) as part of advancing the design and cost of the Nolans Project. Until such time a design definition is complete and construction contracts are signed, there is a risk that the capital expenditure for the Nolans Project increases above the previous disclosed capital requirements (refer to the Company's ASX announcements "Nolans Project Update" dated 11 November 2022 and "Arafura achieves major debt funding milestone presentation" dated 23 July 2024) due to various macro-economic factors that have directly or indirectly impacted the construction industry.

In addition, even following the completion of design and the execution of construction contracts, there is a risk of a cost overrun on the Nolans Project given the inflationary environment which may impact on labour costs, supply costs, transport costs and other costs associated with the construction of the Nolans Project. The Group is following an industry standard contracting approach to execution which will likely include the use of a specialised

project management organisation. There are cost and schedule risks to a successful project outcome if the project management organisation does not effectively manage all aspects of the project delivery.

The Company continues to monitor capital cost market trends.

Operating Cost risks

As the Nolans Project progresses towards production, there is a risk that ongoing operating costs may exceed prior estimates (refer to the Company's ASX announcements "Nolans Project Update" dated 11 November 2022 and "Arafura achieves major debt funding milestone presentation" dated 23 July 2024). This may arise due to sustained inflationary pressure on inputs such as reagents, consumables, energy, labour, and logistics. Any significant increase in operating costs could adversely impact the economic performance of the Nolans Project and its ability to meet financing and offtake obligations.

The Company continues to monitor operating cost market trends.

Operating risks

Industry operating risks include, but are not limited to, fires, explosions, environmental hazards, technical failures, unusual or unexpected geological conditions, adverse weather conditions and other accidents. The occurrence of any of these risks could result in substantial losses to the Group due to:

- injury or loss of life;
- damage to or destruction of property, natural resources or equipment;
- pollution or other environmental damage;
- clean-up responsibilities;
- regulatory investigation and penalties; or
- suspension of operations.

Damages occurring to third parties as a result of such risks may also give rise to claims against the Group.

The occurrence of any of these circumstances could result in the Group not realising its operational or development plans or in such plans costing more than expected or taking

longer to realise than expected. Any of these outcomes could have an adverse effect on the Group's financial and operational performance.

Reliance on key personnel and advisors

The ability of the Group to achieve its objectives depends on the engagement of key employees, directors and external contractors that provide management and technical expertise.

If the Group cannot secure external technical expertise (for example to carry out development activities) or if the services of the present management or technical team cease to be available to the Group, this may affect the Group's ability to achieve its objectives either fully or within the timeframes and the budget that it has forecast. Additionally, industrial disruptions, work stoppages and accidents in the course of operations may adversely affect the Group's performance.

Reliance on third party infrastructure

The Group will rely on third party transportation and other infrastructure, primarily in order to deliver its products to the market and incoming reagents and supplies to the Nolans Project site. Any delay or failure to access or properly maintain operating infrastructure or shared facilities may have a material adverse effect on the Group.

Reserves and resource estimates

Mineral reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates may change or become uncertain when new information becomes available on the tenements through additional exploration, investigations, research, testing or engineering over the life of a project. This applies equally to the Group's production targets in relation to the Nolans Project and any forecast financial information derived from a production target.

In addition, reserve and contingent resource estimates (and production targets and forecast financial information derived from a production target) are necessarily imprecise and depend to some extent on interpretations, which may prove inaccurate. The actual reserves or contingent resources may differ from those estimated which may result in the Group altering its plans which could have either a positive or negative effect on its operations.

Changes in reserve or resource estimates could

also impact the Group's ability to maintain its borrowing capacity with lenders.

Native Title

The *Native Title Act 1993* (Cth), Northern Territory Native Title legislation, Aboriginal land rights and Aboriginal heritage legislation may affect the Group's ability to gain access to prospective exploration areas or obtain any additional mineral leases required. The Group has entered into a Native Title Agreement with the Nolans Project's native title holders and the Central Land Council under which the native title holders provide their consent to the grant of the primary mineral lease, ancillary mineral leases and related access authorities for the Nolans Project (refer to the Company's ASX announcement "Native Title Agreement Executed for Nolans Project" dated 26 June 2020). An amendment to the Native Title Agreement was subsequently executed with the native title holders to cover the mineral leases and extractive mineral permits, the explosives magazine, the proposed stage 1 solar farm, the borrow pits and to effect minor changes to various access authorities.

On 22 July 2020, the Company announced that the mineral leases for the Nolans Project had been granted by the Northern Territory Government and, on 9 February 2021, the Company announced that the mineral leases for areas supporting the Nolans Project (which will host the Nolans borefield) had been granted by the Northern Territory Government (refer to the Company's ASX announcements "Nolans Mineral Leases granted by NT Government" dated 22 July 2020 and "Mineral Leases granted by NT Government secures Borefield" dated 9 February 2021). The Group will need to comply with the Native Title Agreement to avoid any potentially adverse consequences.

The Group may, from time to time, need to negotiate with native title claimants for access rights to certain tenements, or for certain activities or granting of additional leases, outside those covered by the Native Title Agreement. There may be significant delays and costs associated with these negotiations and to reach agreement acceptable to all relevant parties. At this stage, it is not possible to quantify the potential impact that these developments may have on the operations of the Group.

Environmental

The Group's exploration, development and production activities are subject to legislation

regarding environmental matters.

The legal framework governing this area is complex and constantly developing. There is a risk that the environmental regulations may become more onerous, making the Group's operations more expensive and/or subject to potential delays. The Group may become subject to liability for pollution, CO₂ emissions or other hazards against which it is not insured or cannot insure, including those in respect of past activities for which it was not responsible.

The Group's operations are subject to the Northern Territory and Commonwealth laws and regulations regarding the environment, including hazards and discharge of hazardous waste and materials. The mining and processing of Normally Occurring Radioactive Materials (NORM) and the disposal of radioactive waste is subject to additional laws and regulations regarding environmental matters. The cost of compliance with these laws and regulations may impact the cost of exploration, development, construction, operation of the production facilities and mine closure costs and may result in these costs exceeding what has been allowed for in the estimates used to develop forward looking statements around the economic performance of the Nolans Project.

Tenure

Securing and maintaining tenure over mining tenements is critical to the future development of the Group's projects. All mining tenements which the Group may acquire either by application, sale and purchase or by way of farm-in arrangements are regulated by the applicable state or territory mining legislation.

There is no guarantee that future applications for ungranted tenements will be granted as applied for (although the Group has no reason to believe that any tenements required for the Nolans Project or identified as being required in the future will not be granted in due course). Various conditions may also be imposed as a condition of grant. In addition, the relevant minister may need to consent to any transfer of a tenement to the Group.

Renewal of titles is made by way of application to the relevant department. There is no guarantee that a renewal will be automatically granted other than in accordance with the applicable state or territory mining legislation. In addition, the relevant department may impose conditions on any renewal, including relinquishment of ground.

Under the *Mineral Titles Act 2010* (NT) (**MT Act**), a 'person who has an interest in land' (as defined in the MT Act) is entitled to compensation from the holder of a mineral title for:

- damage to the land, and any improvements on the land, caused by activities conducted under the title; and
- any loss suffered as a result of that damage.

The compensation to which a person is entitled depends upon the type of land in question (for example, whether it is freehold land or a pastoral lease) and the nature of the activities that caused the damage to the land (for example, whether they were exploration activities or mining activities). The MT Act does not require the Group to enter into landholder agreements with all or any of the persons who have interests in the land, prior to the commencement of development of, or operations for, the Nolans Project.

The Group has a right of access to its mineral titles and a right to occupy and use its mineral titles in accordance with their terms, the MT Act, the *Mining Management Act 2001* (NT) and the *Environmental Protection Act 2019* (NT). Should the Group not be able to enter into a landholder agreement with a person who has an interest in any relevant land, that person will be entitled to compensation as described above. Such persons will be able to apply to the Northern Territory Civil and Administrative Tribunal for a decision in respect of the compensation payable to the person (and associated matters) in the event that the parties are unable to reach agreement on the compensation payable by the Group to the person. There is a risk that the compensation payable to the persons who have interests in the relevant land may exceed the estimates included in the operating cost estimates used to develop forward looking statements around the Nolans Project's economic performance.

Legislative changes, government policy and approvals

The Group requires government regulatory approvals for its operations. Changes in government, monetary policies, taxation and other laws in Australia or internationally may impact the Group's operations.

The impact of actions by state, territory and federal governments may affect the Group's

activities including such matters as access to lands and infrastructure, compliance with environmental regulations, production and exploration activities. This may from time to time affect timing and scope of work to be undertaken. No guarantee can be given that all necessary permits, authorisations, agreements or licences will be provided to the Group by government bodies, or if they are, that they will be renewed or not revoked if already granted.

The Group has received environmental approval from the Australian Government and the Northern Territory Environment Protection Authority under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth).

The Group has received approval from the Northern Territory Government for its Mining Management Plan, which provides its Mining Authorisation for the Nolans Project.

The Group's Groundwater Extraction Licence relating to the water supply for the Nolans Project was approved in March 2023 for a period of 10 years after which extension of the approval is required.

There is a risk that non-compliance by the Group with all issued approvals will result in fines, disciplinary action and/or loss of social licence to operate, and a risk that all approvals or licences with expiry dates will not be able to be extended or re-negotiated.

Occupational health and safety

Exploration and production activities may expose the Group's staff and contractors to potentially dangerous working environments. Occupational health and safety legislation and regulations differ in each jurisdiction. If any of the Group's employees or contractors suffers injury or death, compensation payments or fines may be payable and such circumstances could result in the loss of a licence or permit required to carry on the business. Such an incident may also have an adverse effect on the Group's business (including financial position) and reputation.

Third party risk

The Group will rely significantly on strategic relationships with other entities and on a good relationship with regulatory and government departments and other interest holders. The Group will also rely on third parties to provide essential contracting services. There can be no assurance that its existing relationships will be

maintained, or that new ones will be successfully formed. The Group could be adversely affected by changes to such relationships or difficulties in forming new ones.

Insurance

Insurance of all risks associated with mineral exploration and production is not always available and, where available, the cost can be high. The Group maintains insurance within a coverage range that it considers to be consistent with industry practice and appropriate for its needs and will update this insurance as required as Group activities evolve through the development and operation of the Nolans Project. The occurrence of an event that is uninsurable, not covered, or only partially covered by insurance could have a material adverse effect on the Group's business and financial position.

Litigation risks

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employment claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

Climate change risk

Climate change is a risk the Group has considered, particularly related to its operations in the mining industry. A key climate change risk particularly attributable to the Group include the emergence of new or expanded regulations associated with transitioning to a lower-carbon economy and market changes related to climate change mitigation.

The Group may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Group and its profitability.

While the Group will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Group will not be impacted by these occurrences and

climate change may cause certain physical and environmental risks that cannot be predicted by the Group, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.

All risks associated with climate change may significantly change the industry in which the Group operates.

Financial risks

The Group's activities expose it to a variety of financial risks, including:

- *Market risk:* The risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, interest rate risk, price risk, credit risk and liquidity risk (maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities). The Group's future activities will be subject to volatility and fluctuations in those particular areas.
- *Foreign exchange/currency risk:* The Group operates internationally and is exposed to foreign exchange risk arising from currency exposures with respect to changes in foreign exchange rates. The Group's future commercial transactions include product sales, capital expenditure, purchase of foreign sourced inputs and debt facilities. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency.
- *Interest rate and credit risk:* This relates to the risk that interest rates applicable to the Group may fluctuate and have an impact on the value of the Group's assets and liabilities.
- *Liquidity risk:* This relates to the ability of the Group to maintain sufficient cash and the availability of funding through an adequate amount of committed credit facilities to support the Group's operations.

General risks

Potential for dilution

A shareholder's percentage holding in the Company will be diluted by not participating in the SPP.

It is not possible to predict what the value of the Company or its Shares will be following the completion of the SPP and the Directors do not make any representation as to such matters.

The historical trading price of the shares on ASX prior to this SPP is not a reliable indicator as to the potential trading price of shares after completion of the SPP.

General market and economic factors

The operating and financial performance of the Group is influenced by a number of general economic and business conditions.

Generally applicable factors which may affect the operating and financial performance of the Group include:

- general movements in Australian and international stock markets;
- investor sentiment;
- Australian and international economic conditions and outlook;
- commodity prices;
- changes in interest rates and the rate of inflation;
- changes in government legislation and policies, including taxation laws, the imposition of tariffs and foreign investment legislation;
- announcement of new technologies; and
- geo-political instability, including international hostilities and acts of terrorism.

Further, the effect of these conditions on the Group's ability to obtain new debt financing, and the terms on which any such financing can be obtained, is uncertain. If these conditions result in the Group being unable to obtain new debt financing, or to do so on reasonable terms, this may have an adverse impact on its financial position, financial performance and/or share price. The Group's operational and financial performance and position may be adversely affected by a worsening of international economic and market conditions and related factors. It is also possible that new risks might emerge as a result of global markets experiencing extreme stress, or existing risks may manifest themselves in ways that are not

currently foreseeable.

Dividends

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

Taxation

The disposal of New Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All investors are urged to obtain independent financial advice about the consequences of disposing of New Shares from both a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of acquiring or disposing of New Shares under this equity raising.

Competition

The Company will compete with other companies, including major mining companies in Australia and internationally. Some of these companies will have greater financial and other resources than the Group and, as a result, may be in a better position to compete for future business opportunities. There can be no assurance that the Group can compete effectively with these companies.

Force majeure

The Group's projects now or in the future may be adversely affected by risks outside the control of the Group, including fires, labour unrest, civil disorder, war, subversive activities or sabotage, floods, pandemics, explosions or other catastrophes, epidemics or quarantine restrictions.

Russia-Ukraine and Israel-Palestine conflict

The ongoing Russia-Ukraine and Israel-Palestine conflicts have had and will continue to have a significant impact on global economic markets. Although the Group considers the current impact of the conflicts on the Group to

be limited, given that the conflicts are ongoing and volatile in nature, the future effect of the conflicts on the Group is uncertain. The conflicts may have an adverse effect on the Company's share price or operations which will likely be out of the Group's control.

Data and information technology

The Group's computer systems are subject to the risks of unauthorised access, computer hackers, computer viruses, malicious code, organised cyber-attacks and other security problems and system disruptions, including possible unauthorised access to proprietary or classified information. Any of these events could damage the Group's reputation and have a material adverse effect on its business, reputation, results of operations and financial condition. There is also a risk that the Group's systems for capturing data and intellectual property for project development are ultimately not effective.

Speculative investment

The above list of risk factors ought not to be taken as an exhaustive list of the risks faced by the Group or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Group and the value of the Company's securities. An investment in the Company is speculative and investors should consult their professional adviser before applying for or disposing of securities in the Company.
