

Commentary on FY2025 financial result

The Board of Directors of 333D Ltd (ASX:T3D or “**Company**”), a company specialising in the creation and management of digital assets, is pleased to provide commentary on its financial result for the year ending 30 June 2025 (the “**Period**”).

Revenue up 426% from previous corresponding period

The Company has continued to pursue its digital asset management strategy during the financial year delivering revenue of \$1,001,873 for the 12 months ending 30 June 2025 (2024: \$190,310) and positive operating cashflow of \$70,681. The profit after income tax was \$143,777 earning a NPAT margin of 14.3% (2024: loss \$506,606).

Since announcing its digital asset management contracts on 31 July 2024, the Directors are confident the digital asset management strategy has resulted in a marked turnaround for the Company delivering both a profitable and cashflow positive result within the first year.

Reliable and growing monthly cashflows

As evidenced by the Company’s recent *Appendix 4C Quarterly Cash Flow Reports*, the digital asset management contracts are delivering a reliable and growing monthly cashflow.

The Company’s debtor collection remains below 30 days, and the Company remains debt free.

During the Period, the Company expended more than \$600,000 in software development for its digital asset management platform, expanding the capacity and capability of its systems and positioning for future revenue growth.

- END -

The release of this announcement was **authorised by the Board of Directors** of the Company.

About 333D Limited

333D Limited is a company that seeks to capitalise upon opportunities in the digital line of business as new technologies are developed from both digital capture and digital creation perspectives, that will lend themselves for use in a myriad of interfaces, both physical (3D printed) and/or across other or additional digital platforms. 333D specialises in the digital capture of a subject matter; digital creation of data files incorporating diagnostic or medical imaging in DICOM format, 2D, 3D and animated digital content including still photography, digital design and motion video; and encoding data files using artificial intelligence such that a digitally created file is generated that is viewable in a 3D format and capable of being printed by a 3D printer. 333D Limited also provides bespoke design and management of digital assets (including 3D print files) and bespoke 3D printing bureau services
