- Information in this presentation is provided as at the date of the presentation unless specified otherwise. It should be read in conjunction with The Star Entertainment Group Limited's (TSEG, The Star or the Group) Appendix 4E for the twelve months ended 30 June 2025 (Preliminary Final Report (unaudited) and the unaudited Preliminary Financial Report) and other disclosures made via the Australian Securities Exchange

Independent auditor's report

• The Preliminary Financial Report (unaudited) for the year ended 30 June 2025 is in the process of being audited. The audited accounts are expected to include an emphasis of matter in relation to Going Concern and Regulatory and legal matters

Going Concern

- There remains material uncertainty regarding the Group's ability to continue as a going concern. Key interdependent events and initiatives in the near term which are critical to the Group's liquidity and financial outlook include:
 - the quantum and timing of the AUSTRAC penalty, with judgement expected to be released anytime from September 2025 onwards;
 - obtaining required financial covenant waivers from lenders, including for 30 September 2025;
 - completing the Bally's and Investment Holdings \$300 million strategic investment, including obtaining outstanding regulatory approvals and receipt of the remaining \$67 million from Bally's payable no later than 9 October 2025;
 - completing the transaction entered into with the joint venture partners to exit the DBC joint venture and consolidate the Gold Coast assets. The exit from DBC is dependent on the satisfaction of various conditions precedent, a number of which are outside the control of the Group, including releasing the Company from its Parent Company Guarantee (~\$0.7 billion The Star share of drawn DBC debt);
 - the Group's ability to restore its casino licences. The Group is committed to deliver on the remainder of its remediation plan and has provided submissions on its suitability to hold a casino licence to the OLGR on 31 July 2025 and will provide submissions to the NICC by 31 August 2025. The return to suitability is also dependent on satisfying our regulators that the Group has a pathway to a viable financial future; and
 - driving revenue growth through customer-focused initiatives and implementing further cost out during FY26
- At the date of this release, there is no certainty that each of these matters can be satisfactorily resolved and in a sufficiently timely manner
- The Group will include a detailed assessment of going concern considerations in its audited FY25 financial statements which it is targeting to lodge with the ASX by 30 September 2025

Regulatory and Legal Provisions and Contingent Liabilities

• The Group is subject to ongoing regulatory and legal matters which may have a material impact on the Group's financial position. Further information is included in the Preliminary Financial Report (unaudited), note B3

COMMENTARY

- Group revenue declined 29%, due primarily to a 37% decrease in gaming revenue which
 was impacted by regulatory reforms, implementation of The Star's remediation program
 and a loss in market share. The decrease in gaming revenue also reflects the closure of
 the Treasury Brisbane Casino, with revenues from The Star Brisbane now recognised as
 equity accounted profit / (loss) from associates
 - Excluding the Treasury Brisbane Casino closure, gaming revenue declined 22%, split evenly between PGR and MGF revenue
- Operating expenses including corporate were down \$109 million driven by the closure of the Treasury Brisbane Casino and The Star's cost-out program, partially offset by increased costs associated with investment in risk management, controls and IT
- Depreciation & amortisation decreased by \$56 million, primarily reflecting the reduced asset base following impairments in prior periods
- Loss from associates of \$48 million was primarily driven by the recognition of a \$46 million loss on The Star's 50% interest in The Star Brisbane
- Net funding costs increased by \$14 million, reflecting the revised debt package executed in November 2024 resulting in a fixed rate above the previous floating rates in FY24
- Significant items are comprised of:
 - Impairment of investment in DBC (50% interest in The Star Brisbane): \$107.6 million
 - Group funding costs: \$71.1 million²
 - Regulatory, fines, penalties, duty, consultant, legal and other costs: \$20.0 million
 - Redundancy costs: \$13.2 million
 - Other costs associated with the transaction to exit DBC and profit on sale of assets

Notes: (1) Net revenue excludes \$174.8 million of contracted cost recovery revenue from DBC (2) Group funding costs include: previously unamortised borrowing costs associated with the Syndicated Facility Agreement (SFA), released on amendment in November 2024 of \$26.9 million; costs incurred for the amendment of the SFA in November 2024 of \$20.5 million; and debt refinancing costs in 2H FY2025 of \$23.7 million,

- Treasury Brisbane Hotel and Car Park continue to operate. These assets are proposed to be sold to The Star's Joint Venture Partners, Chow Tai Fook Enterprises Limited and Far East Consortium International Limited, as part of the agreement to exit DBC and consolidate assets on the Gold Coast

COMMENTARY

OPERATOR FEE REVENUE:

- \$29.6 million revenue comprises the operator fee paid by DBC to The Star since the property opened on 29 August 2024
- Following announcement of the DBC transaction (agreement signed 12 August 2025), The Star will no longer receive the operator fee provided under the DBC Casino Management Agreement (CMA). Instead, it will receive a fixed operator fee of:
 - \$5 million per month until 30 June 2026
 - \$6 million per month from 1 July 2026 to 30 June 2027
 - \$7 million per month from 1 July 2027 to 30 June 2028
- The Star will continue to receive the fixed operator fee until the appointment of a replacement casino operator and for a minimum period to 31 March 2026
- After 30 June 2028, the amendments made to the CMA that give effect to the fixed operator fee will be unwound and the fee will revert to the arrangements that existed prior to the fixed fee arrangements being put in place

OPERATOR FEE ESCROW:

- For the period between 1 March 2025 to completion of the exit of DBC, the difference between the operator fee that The Star would be entitled to receive under the current formulation of the CMA and the higher fixed fee under the new arrangements (Operator Fee Delta) will be placed into escrow each month. These amounts will be released from escrow at the earlier of 31 March 2026 and three months after the nomination of a replacement operator (but not before completion of the DBC stage of the transaction)
- Upon nomination of a replacement casino operator by the Joint Venture Partners, payment
 into escrow of the Operator Fee Delta will resume for a three month period. These amounts

GROUP CORPORATE OVERHEAD EXPENSES (\$M)

COMMENTARY

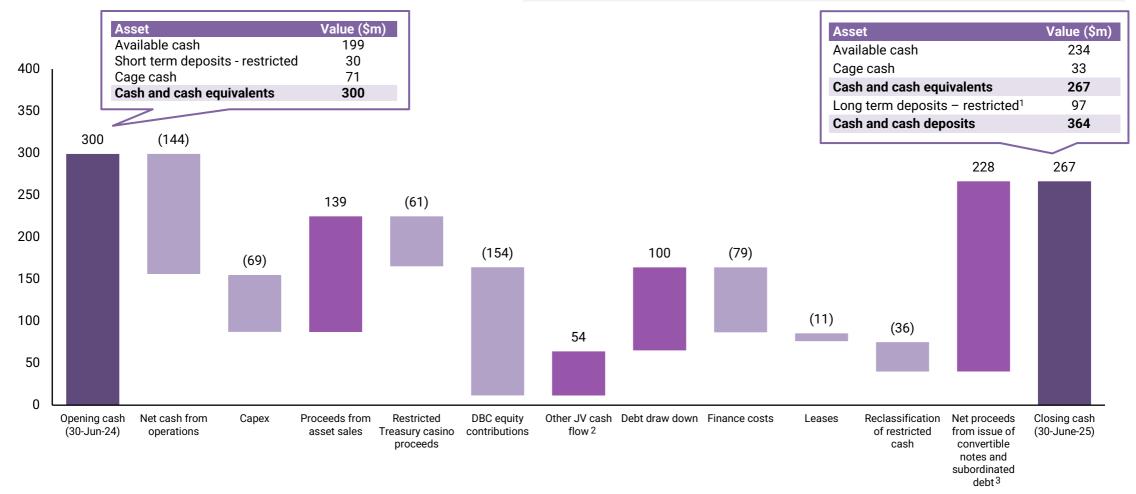

- Over the period of FY22 to FY24, The Star's corporate costs increased by \$86 million driven by increased spend on transformation and remediation related activities
- At The Star's FY24 results announcement in September 2024, management outlined a targeted cost-out program of \$100 million
- In 1Q25, The Star's annualised corporate costs were \$375 million versus \$256 million for 4Q25, a \$119 million or 32% reduction
- The reduction in corporate costs reflects The Star achieving its \$100 million annualised cost-out target¹ with the balance representing the decentralisation of certain costs into the properties
