Managing Director's Letter

29 August 2025

Dear Fellow Shareholder,

The Aspermont Share Purchase Plan (SPP) is an opportunity to participate on the same price as recent institutional investors

Last week, we outlined a significant step in Aspermont's evolution. We launched Mining-IQ.com, our new proprietary data and intelligence platform, commencing with World Risk Analytics. This marks the beginning of the next chapter as we pivot from information and research to data and intelligence services for the global resources sector.

In parallel, we signed a strategic agreement with Rio Tinto to digitise and structure approximately 200 years of our Mining Journal and Mining Magazine archives into an enterprise-grade, LLM-powered search platform. The initial agreement value is ~A\$550,000, and Rio Tinto will have six months' exclusive access following completion, after which the platform is intended to be commercialised as a subscription product.

To support these initiatives, we completed a placement of A\$1.75 million to leading European institutions at A\$0.007 per share, representing a ~40% premium to the most recent trading price prior to the halt. We also announced our intention to offer an SPP for eligible existing shareholders at the same price as the placement.

In our Q3 FY25 Trading Update, we also reported continued progress on our subscriptions, events, and marketing agency strategy.

Why We Are Undertaking the SPP

The SPP gives existing shareholders the opportunity to participate at the same price as the recent placement, while providing additional capital to strengthen Aspermont's balance sheet. The funds raised will enable us to:

- scale the Mining-IQ platform and accelerate product development;
- invest in digitisation and AI-driven data initiatives; and
- maintain financial flexibility to support future growth opportunities.

We believe these investments will position Aspermont to deliver sustainable, recurring revenue growth in line with our long-standing strategy and heritage in premium B2B content, data and intelligence. While we remain disciplined in capital allocation, we are confident that this raising will enhance the long-term value of our brands, data assets, and client relationships.

Directors and Management Participation

All eligible board and executive team members are intending to take up their offer of new fully paid ordinary shares in the SPP up to the maximum of \$30,000.

A message from the Managing Director

The institutional placement at A\$0.007 per share and the support we have received from European investors underscore confidence in Aspermont's strategy and assets. The SPP gives you, our existing shareholders, the opportunity to participate at the same price. Your continued support is important as we scale Mining-IQ, deliver on the archive digitisation program, and advance our transition to a data-and-intelligence-led business.

We remain focused on execution, prudent investment, and transparent reporting. Thank you for your ongoing trust and support.

Yours faithfully,

Alex Kent
Managing Director
Aspermont Limited

Details of the SPP

Under the SPP, Eligible Shareholders (defined below) may apply for new fully paid ordinary shares (**New Shares**) in Aspermont up to a maximum of \$30,000 worth of Shares (when combined with any Shares issued under any share purchase plan in the 12 months preceding the date of the SPP) at an issue price of A\$0.007 per Share (**Price**), being the same issue price as the Shares offered to sophisticated and professional investors under the Placement.

The Price is 81.4% of the Volume Weighted Average Price (**VWAP**) of the Shares over the last five trading days on which sales in the Shares were recorded before the day on which the SPP was announced 28 August 2025. The VWAP was \$0.0086 per Share.

The SPP entitles Eligible Shareholders, to submit applications for parcels valued between A\$2,000 and A\$30,000, irrespective of the size of their shareholding in the Company, without incurring brokerage or transaction costs. Partial shares will be rounded down.

Participation is optional and non-renounceable. This means shareholders cannot transfer their right to participate in the Offer to another party.

The Company is seeking to raise approximately A\$1.25 million (before costs). Should demand exceed this amount, the Board reserves the right to scale back applications at its absolute discretion. Any scale-back will be applied fairly and consistently across applications, with surplus funds refunded without interest.

The SPP is not underwritten. However, Aspermont may, at its discretion, conduct a shortfall placement of any unsubscribed Shares to sophisticated or professional investors. This will be undertaken in consultation with Veritas Securities Limited (**Lead Manager**), appointed as Lead Manager. The Lead Manager will receive a 4% fee in respect of any funds introduced by the Lead Manager into a SPP shortfall placement.

The directors of the Company who are Eligible Shareholders may participate in the SPP subject to the Listing Rules.

The SPP is made in accordance with ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (**ASIC CI 2019/547**) and therefore does not require a prospectus under Chapter 6D of the Corporations Act.

All New Shares issued under the SPP will rank equally with existing Shares in the capital of the Company and will carry the same rights, including dividend and voting entitlements, from the date of issue.

Placement Capacity and Lead Manager

In addition to the SPP, Aspermont may undertake a shortfall placement of any Shares not taken up under the Offer, subject to compliance with all necessary legal requirements. Such a placement would be conducted with professional and sophisticated investors, using the Company's existing capacity under Listing Rules 7.1 and 7.1A. Where the shortfall exceeds the Company's available placement capacity, the shortfall will only be placed if shareholder approval is obtained. The final size of any shortfall placement will depend on demand and the discretion of the Board, in consultation with the Lead Manager.

The Lead Manager is not underwriting the Offer. Veritas Securities has been engaged to assist with any placement of shortfall securities and will receive a 4% fee on any funds introduced by the Lead Manager into the Capital Raising.

No agreements have been entered into for investors to subscribe under a shortfall placement at the date of this document. Aspermont provides no assurance that any funds will be raised through such activities.

The Offer and any associated shortfall placement are not expected to materially affect control of the Company. The Board is committed to ensuring that allocations are managed in a manner consistent with the Listing Rules and that existing shareholder interests are protected.

The Company confirms that any issue of New Shares under this SPP, together with any shortfall placement, will remain within the limitations prescribed by the Corporations Act and the Listing Rules, including that the number of New Shares issued under the SPP will not exceed 30% of the Company's existing issued capital.

Eligible Shareholders and Jurisdictions

The maximum amount which any shareholder may subscribe for in any consecutive 12-month period is \$30,000. The directors of the Company may also determine in their discretion the minimum amount for participation, the multiple of Shares to be offered under the SPP and the period the offer is available to Eligible Shareholders.
