Directors' Report

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Focus Minerals Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 30 June 2025.

Directors

Wanghong Yang	Chairman – Executive
Lingquan Kong	Director – Executive
Gerry Fahey	Director – Independent
Richard O'Shannassy	Director – Independent
Zhongshan Song	Director – Non-Executive

All directors held their position as a director throughout the entire period and up to the date of this report unless otherwise stated.

Principal Activities

The principal activities of the Group during the period were exploration, mine development, mine operations and ore processing in Western Australia. There were no significant changes to these activities during the period.

Review of Operations

Coolgardie Gold Project

- Three Mile Hill plant processed a total of 712,711 tonnes of ore during the period, of which 544,920 tonnes were the Company's own ore and 167,791 tonnes were toll treatment ore.
- Gold sales for the period were 11,326 ounces with an average price of A\$4,803 per ounce. The Company has also sold 1,037 ounces of silver credits.
- Mill production remained stable and efficient throughout the period. Toll milling was strategically utilised to maintain effective mill utilisation at 90%, and to support the consistent monthly mill throughput rate of above 120,000 tonnes.
- Mining at Greenfields pit was completed in May 2025 and the pit was successfully transitioned to an in-pit tailing storage facility, providing approximately 4 years of tailings storage capacity for the TMH plant. Open pit ore production is now focusing on Alicia and Dreadnought.
- At Bonnie Vale Underground Mine, key infrastructure such as 72m raise-bore ventilation shaft, permanent power station, underground substation, and pump station were installed.
- Whilst at development stage, Bonnie Vale Underground Mine produced 11,371 tonnes of development ore at 8.26 g/t for 3,022 ounces. Development at Bonnie Vale progressed ahead of plan, with stoping or ore scheduled to commence in October.
- Phase one grade control drilling for CNX is completed. CNX is now fully permitted for development, which is set to commence in September 2025.
- Greater Undaunted is a targeted area within the Coolgardie Gold project for future development planning purposes. The area consists of the Cookes, Lady Loch, Lady Maude, Adelaide, and Friendship deposits. The Company will focus on grade control drilling and resource definition to progress the deposits within this area towards production ready.

Laverton Gold Project

During the period, the Company entered into an agreement with Genesis Minerals Limited for the sale for the Laverton Gold Project for \$250 million cash. The sale was completed on 4 June 2025. As part of its capital management initiative, Focus has repaid its major shareholder, Shandong Gold, of all outstanding loans plus interest of approximately \$174.8 million using proceeds from the sale.

Corporate

For the 6-month period ended 30 June 2025, the Group generated a profit of \$221.40 million (incurred a loss for the 6 months ended 30 June 2024: \$2.78 million (Restated)), which includes a gain on disposal of the Laverton Gold Project of \$207.154 million.

As at 30 June 2025, the Group has net assets of \$317.02 million (31 December 2024: \$95.63 million) and a cash balance of \$74.18 million (31 December 2024: \$16.5 million).

Risk Management

Focus is exposed to a number of financial risks. The key risks that could adversely affect Focus' financial assets, liabilities or future cash flows are:

a) Commodity and other price risks

All of Focus' gold production is sold to the Perth Mint. The market price of gold is key driver of Focus' capacity to generate cash flow. Focus is an unhedged producer and provides its shareholders with exposure to changes in the market price of gold. Focus may look into partially hedging its gold production in due course.

b) Foreign currency risk

Focus has repaid all the loans by June 2025.

Focus' loans were in USD or RMB. Focus' costs (including capital expenditure) are in Australian dollars. Hence, Focus can be affected materially by movements in the AUD:USD or AUD:RMB exchange rates. Measuring the exposure to foreign exchange risk is achieved by regularly monitoring the foreign exchange movements and potentially utilising currency swaps in due course.

c) Interest rate risk

Focus' exposure to the risk of changes in market interest rates primarily relates to the debt obligations that have floating interest rates. As of June 2025, Focus doesn't have any outstanding debts.

Auditor's Independence Declaration

The declaration required under Section 307C of *the Corporations Act 2001* is set out on Page 7.

Significant changes in the state of affairs

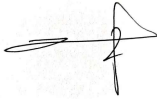

There were no significant changes in the state of affairs of the consolidated entity during the financial half-year.

Rounding of Amounts

The Company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to the 'rounding off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, to the nearest dollar.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

Notes to the Consolidated Interim Financial Report

Note 1: Material Accounting Policy Information

These general-purpose financial statements of Focus Minerals Limited (the “Company”), together with its controlled entity (the “Group”) for the interim half-year reporting period ended 30 June 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 ‘Interim Financial Reporting’ and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 ‘Interim Financial Reporting’.

These general-purpose financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, these financial statements are to be read in conjunction with the Annual Report for the year ended 31 December 2024 and any public announcements made by Focus Minerals Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of previous financial year and corresponding interim reporting period, unless otherwise noted below.

(a) New or amended Accounting Standards and Interpretations adopted

The Group has adopted all the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (“AASB”) that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(b) Going Concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

(c) Income tax

AASB Interpretation 23 Uncertainty over income tax treatments (“AASB Interpretation 23”) provides clarification on how to apply recognition and measurement requirements when there is uncertainty over income tax treatments. Under AASB Interpretation 23, if an entity concludes that it is probable that the tax authority will accept an uncertain tax treatment, the entity shall determine its accounting for income taxes consistently with that tax treatment. If an entity concludes that it is not probable that the treatment will be accepted, the entity shall reflect the effect of the uncertainty in its income tax accounting in the period in which that determination is made. An entity shall reflect the effect of uncertainty for each uncertain tax treatment by using either the most likely amount method or the expected value method, depending on which method the entity expects to best predict the resolution of the uncertainty.

Note 2: Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director.

All of Focus Minerals Limited's subsidiaries are wholly owned. The Group has three reportable segments, as described below, which are the Group's strategic business units. The business units are managed separately as they require differing processes and skills. The Managing Director reviews internal management reports on a monthly basis.

Mine properties includes aggregate expenditure in relation to mine construction, mine development, exploration and evaluation expenditure where a development decision has been made and acquired mineral interests. Expenditure includes direct cost of construction, drilling costs and removal of overburden to gain access to the ore and an appropriate allocation of attributable overheads.

Mine development costs are amortised on a units-of-productions basis over the life of mine to which they relate.

Note 7: Exploration and Evaluation Assets

	Consolidated	
	As at 30 June 2025 \$'000	As at 31 December 2024 \$'000

Less – tenements disposal in discontinued operations	(61,679)	-
Carrying amount at the end of the period	66,854	126,002

The value of the Group's interest in exploration expenditure is dependent upon:

- the continuance of the Group's rights to tenure of the areas of interest;
- the results of future exploration;
- the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale; and
- no significant changes in laws and regulations that greatly impact the Group's ability to maintain tenure.

Note 12: Restatement of comparatives**Adjustments of allocation in accounting for Greenfield TSF cost**

During the year ended 31 December 2024, the Company capitalised certain stripping and mining costs related to the Greenfield project into the Greenfield Tailings Storage Facility ("TSF") asset.

The capitalisation resulted in a reclassification of costs that would otherwise have been expensed in the period. Accordingly, the treatment has had an impact on the Group's consolidated statement of profit or loss for the half year ended 30 June 2024. The impact of the capitalisation is summarised below:

- Operating costs: Decreased due to the reclassification of eligible stripping and mining costs to capitalised development assets.
- Mine properties: Increased as a result of the capitalisation to the Greenfield TSF asset.
- Profit/(loss) before tax: Increased as a direct consequence of the reduction in operating costs.
- Future impact: The capitalised costs will be depreciated or amortised over the expected useful life of the Greenfield TSF, thereby impacting future periods' profit or loss.

Significant estimate – uncertain tax position

During the half-year, the Group disposed of Focus Minerals (Laverton) Pty Ltd for a consideration of \$250,000,000 and an accounting profit of \$207,154,000 (Note 11). The group has assessed the taxable outcomes of this transaction and is bringing to account tax losses of approximately \$253,512,000 to reduce current tax payable to \$Nil. The tax losses include losses utilised under the Continuity of Ownership Test (COT) and the Business Continuity Test (BCT).

In connection with this transaction, the Company received a pre-lodgment income tax review request from the Australian Taxation Office (ATO). The Company has provided a submission to the ATO. This remains under review by the ATO.

The utilisation of losses is subject to the Group satisfying the COT and BCT tests, which involves significant judgement and interpretation of tax law. The Group has assessed this position, in consultation with its tax advisor, in accordance with AASB Interpretation 23 and has concluded that it is probable the ATO will accept the treatment adopted. Accordingly, no additional current tax liability has been recognised in these financial statements.

If both COT and SBT losses were not available, the Group estimates an additional current tax of approximately \$76million (before any interest and penalties and subject to confirmation of capital loss balances).

Directors' Declaration

The directors of the Company declare that:

1. The financial statements and notes are in accordance with the *Corporations Act 2001*, including:
 - a. Complying with Australian Accounting Standards AASB 134 'Interim Financial Reporting', the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - b. Giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the half-year ended on that date.
2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors in accordance with section 303(5)(a) of the *Corporations Act 2001*.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Focus Minerals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Focus Minerals Limited, which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising material accounting policy information and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Focus Minerals Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Focus Minerals Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibility for the Half-Year Financial Report

The directors of Focus Minerals Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2025 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
