Our capital relief warehouse facility with Bendigo Bank supports prime assets, while the \$500m (off balance sheet) specialist residential warehouse with Goldman Sachs further strengthens our funding diversity and enhances recurring income streams.

FY25 Highlights

Delivering on the Strategy, Driving value for shareholders

- ✓ Strategic shift is delivering results across profit, net interest income and margins
- ✓ Diversified Revenue streams, underpinned by the **Robusta securitisation** of Goldman Sachs warehouse assets and the **partial sale of Bendigo prime warehouse assets**, both unlocking value and generating recurring servicing income.
- ✓ Higher margin assets now represent close to 28% of the total portfolio, approaching our initial goal of 30%.
- ✓ No immediate capital needs as Capital Adequacy Ratio of 29.0% provides capacity to pursue strategic direction.
- ✓ Operational Foundations for Future Growth - FY25 laid groundwork for future scalability, including early-stage investment in technology transformation and continued enhancement of regulatory and compliance frameworks.

BNK made meaningful progress in FY25, delivering a clear turnaround and building momentum across the business. Our focus on higher-margin, capital-efficient assets, combined with disciplined cost and balance sheet management, is driving sustainable performance. During the year, we also executed some key strategic initiatives including the optimisation of our warehouse assets, contributing to a more diversified earnings base.
