On behalf of the Board, I am pleased to invite you to participate in a 1 for 1 non-renounceable pro-rata entitlement offer of fully paid ordinary units in TCF (**New Units**) at an offer price of A\$5.94 per New Unit (**Offer Price**) to raise up to \$45.2 million (**Entitlement Offer**) as announced on Thursday, 11 September 2025.

Offer Price

The Offer Price under the Entitlement Offer is A\$5.94 per New Unit in the Trust, equal to the net asset value (**NAV**) per unit of the Trust. The Offer Price represents an approximate 0.7% discount to the ASX closing price of the Trust's units on 10 September 2025 and a 1.3% and 1.4% discount to the 10 and 30 trading day VWAP respectively as of 10 September 2025.

New Units issued under the Entitlement Offer will not be entitled to receive the forecast monthly distribution for the month ending 30 September 2025. New Units will rank equally with existing following the issue of the New Units on 7 October 2025 and will be eligible for the October 2025 monthly distribution.

Entitlement Offer

Eligible Unitholders who take up the New Units available to them under the Entitlement Offer may also apply for additional New Units in excess of their Entitlement at the same Offer Price (**Additional New Units**) pursuant to an oversubscriptions facility (**Oversubscription Facility**).

If there remains any shortfall of New Units which are not taken up by Eligible Unitholders under the Entitlement Offer (including after the uptake of Additional New Units under the Oversubscription Facility), then the Board reserves the right to issue any such shortfall of New Units at its discretion, including to new certain Wholesale and Institutional Investors (see section 3.7.5 for further details) under a shortfall offer (**Shortfall Offer**).

The allocation of New Units and Additional New Units, including those under the Shortfall Offer, and any scale back will be in the Board's absolute discretion.

All New Units and any Additional New Units will rank equally with existing units in all respects from date of quotation.

The Entitlement Offer closes at 5.00pm (Sydney time) on Tuesday, 30 September 2025 (unless extended).

Use of proceeds

The majority of the proceeds from the Entitlement Offer are intended to be used to invest in new loan investments currently under due diligence.

3 Offer Details & How to Apply

3.1 Overview of the Entitlement Offer

The Entitlement Offer made under this Entitlement Offer Booklet is an offer to raise up to approximately \$45.2 million worth of New Units in the Trust to be issued at a price of \$5.94 per New Unit. The offer of 1 New Unit for every 1 existing unit has been made to Eligible Unitholders who have a registered address in Australia or New Zealand on the Record Date.

No brokerage, commission or stamp duty is payable by Applicants on acquisition of New Units under the Entitlement Offer.

3.2 Who may apply under the Entitlement Offer

Eligible Unitholders may apply for New Units under the Entitlement Offer. An Eligible Unitholder is a Unitholder who is:

- registered as holder of Units as at the Record Date, being 7.00pm (Sydney time) on Tuesday, 16 September 2025 who has a registered address on the Units register in Australia or New Zealand;
- not in the United States and is not acting for the account or benefit of a person in the United States (to the extent a Unitholder holds Units for the account or benefit of such person in the United States, the Unitholder will not be eligible to participate on behalf of such person); and

- is eligible under all applicable securities law to receive an offer under the Entitlement Offer.

Eligible Unitholders are being offered the opportunity to subscribe for 1 New Unit for every 1 existing unit held at 7.00pm (Sydney time) on the Record Date at the Offer Price of \$5.94 per New Unit (rounded up to the nearest whole Unit).

If Eligible Unitholders do not take up all or part of their Entitlements under the Entitlement Offer, any associated right to participate will lapse.

If you are an Eligible Unitholder, your Entitlements are set out on the personalised Entitlement and Acceptance Form.

If you have more than one holding of existing units, you will be sent more than one personalised Entitlement and Acceptance Form. Each separate holding will have separate Entitlements which you will be unable to combine when making an Application as part of the Entitlement Offer.

3.3 Nominees

The Entitlement Offer is only being made to Eligible Unitholders as referred to above. The Responsible Entity or Trust is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of existing units. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Entitlement Offer is compatible with applicable foreign laws. Return of a duly completed Entitlement and Acceptance Form or receipt of Application Monies by BPAY will constitute a representation that there has been no breach of such regulations. Unitholders who are nominees are therefore advised to seek independent advice as to how they should proceed.

Without limiting the above, any person in the United States with a holding through a nominee may not participate in the Entitlement Offer and the nominee must not take up any Entitlement in respect of that person or send any materials relating to the Entitlement Offer into the United States. The Responsible Entity and the Trust are not able to advise on foreign laws.

3.4 Your Entitlement

Your Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form and calculated on the basis of 1 New Unit for every 1 existing unit you hold as at the Record Date (rounded up to the nearest whole number of New Units).

If you have more than one registered holding of units, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding. New Units and any Additional New Units issued under the Entitlement Offer will be fully paid and rank equally in all respects with existing units from the time of issue.

3.5 Consider the Entitlement Offer carefully in light of your particular investment objectives and circumstances

The Entitlement Offer is being made pursuant to provisions of the Corporations Act which allow entitlement offers to be made without a product disclosure statement. This Entitlement Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an application for New Units and any Additional New Units under the Entitlement Offer.

As a result, it is important for you to read carefully and understand the information on TCF and the Entitlement Offer that has been made publicly available, prior to deciding whether to take up all or part of your Entitlement, apply for any Additional New Units, or do nothing in respect of your Entitlement. In particular, please refer to this Entitlement Offer Booklet, the investor presentation and other announcements made available on the ASX website relating to TCF.

Please consult with your stockbroker, accountant or other professional adviser if you have any queries or are uncertain about any aspect of the Entitlement Offer. You should also refer to the “Key Risks” in the Investor Presentation at Section 4 of this Entitlement Offer Booklet.

3.6 Use of proceeds

The majority of proceeds from the Entitlement Offer are intended to be used to invest in new loan investments currently under due diligence which will allow the Trust to continue to diversify its loan portfolio in line with its strategy.

An overview of the sources and uses of proceeds in respect of the transactions is set out below:

Sources of proceeds	\$m
Entitlement Offer proceeds	45.2
Use of funds	\$m
New loans	45.2

3.7 Options available to you

3.7.1 If you wish to take up all or part of your Entitlement

If you wish to take up all or part of your Entitlement, please pay your Application Monies via BPAY® by following the instructions set out on the personalised Entitlement and Acceptance Form by no later than 5.00pm (Sydney time) on Tuesday, 30 September 2025.

The Responsible Entity will treat you as applying for as many New Units as your payment will pay for in full. When you pay by BPAY®, please make sure to use the specific biller code and unique reference number on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the reference number specific to the Entitlement on that Entitlement and Acceptance Form.

If you take up and pay for all of your Entitlement before the close of the Entitlement Offer, or you only take up and pay for part of your Entitlement, it is expected that you will be issued New Units on Tuesday, 7 October 2025.

The Responsible Entity's decision on the number of New Units to be issued to you will be final. TCF also reserves the right (in its absolute discretion) to reduce the number of New Units issued if it believes an applicant's claim to be overstated or if an applicant or their nominees or custodians fail to provide information to substantiate their claims to the Responsible Entity's satisfaction.

3.7.2 If you wish to take up all of your Entitlement and apply for Additional New Units

If you wish to take up all of your Entitlement and apply for Additional New Units, please either:

- complete and return the personalised Entitlement and Acceptance Form (indicating the number of New Units and Additional New Units you would like to apply for if they are available under the Oversubscription Facility) with the requisite Application Monies; or
- pay your Application Monies via BPAY® by following the instructions set out on the personalised Entitlement and Acceptance Form,

in each case, by no later than 5.00pm (Sydney time) on Tuesday, 30 September 2025.

The Responsible Entity will treat you as applying for as many New Units and Additional New Units as your payment will pay for in full.

Additional New Units will only be available under the Oversubscription Facility to the extent that there are Entitlements which are not taken up by other Eligible Unitholders. For further details on the allocation of any Additional New Units, please see Section 3.7.4.

If you take up and pay for all of your Entitlement (and apply and pay for your Additional New Units) before the close of the Entitlement Offer, it is expected that you will be issued New Units and any Additional New Units on Tuesday, 7 October 2025.

3.7.3 If you wish to do nothing, your Entitlement will lapse and you will receive no value for those lapsed Entitlements

The Entitlement Offer is non-renounceable. If you take no action you will not be allocated New Units and your Entitlement will lapse. Unitholders who do not take up their Entitlements will not receive any payment or value for those Entitlements they do not take up.

Eligible Unitholders who do not participate fully in the Entitlement Offer will have their percentage holding in TCF diluted.

Any New Units that are not taken up by Eligible Unitholders pursuant to their Entitlements will be made available to other Eligible Unitholders under the Oversubscription Facility and, if not taken up, may be made available under the Shortfall Offer, please see Section 3.7.5.

3.7.4 Additional New Units

Eligible Unitholders may also apply for Additional New Units in excess of their Entitlement at the same offer price of \$5.94 per New Unit under an Oversubscriptions Facility.

Additional New Units will be drawn from New Units that relate to Entitlements which have not been taken up by other Eligible Unitholders under the Entitlement Offer.

There is no guarantee regarding the number of Additional New Units (if any) that will be available to Eligible Unitholders under the Oversubscriptions Facility, in addition to their Entitlement under the Entitlement Offer. This will depend on how many Entitlements are taken up. If all Entitlements are taken up under the Entitlement Offer then there will be no Additional New Units available.

An Eligible Unitholder will not be issued any Additional New Units under the Oversubscriptions Facility if the issue of such Additional New Units would cause TCF or that Eligible Unitholder to breach any applicable law.

In the event that demand for Additional New Units under the Oversubscriptions Facility exceeds the number of Additional New Units that are available then, subject to the above, the number of Additional New Units issued to Eligible Unitholders under the Oversubscriptions Facility will be scaled back.

If, following the issue of New Units and any Additional New Units to Eligible Unitholders, there is any shortfall under the Entitlement Offer, certain Wholesale and Institutional Investors will be invited by the Responsible Entity to subscribe for New Units under the Shortfall Offer, please see Section 3.7.5.

Decisions regarding the operation of the Oversubscriptions Facility (including the issue of any Additional New Units) and any necessary scale back will be made by the Board in its absolute discretion having regard to the pro rata entitlement of Eligible Unitholders who apply for Additional New Units.

3.7.5 Shortfall Offer

If there remains any shortfall of New Units taken up by Eligible Unitholders under the Entitlement Offer (including after the uptake of Additional New Units under the Oversubscriptions Facility), the Board reserves the right to issue any such shortfall of New Units at its discretion under the Shortfall Offer.

The allocation policy in respect of the Shortfall Offer is to encourage the introduction of new investors into the Trust by placing the New Units to certain new Wholesale and Institutional Investors.

Any New Units subscribed under the Shortfall Offer may be issued progressively and must be issued not later than 3 months after the close of the Entitlement Offer. The issue price of New Units comprising the Shortfall Offer must not be less than the price at which New Units are offered under the Entitlement Offer.

3.8 Ineligible Unitholders

All Unitholders who are not Eligible Unitholders are Ineligible Unitholders. Ineligible Unitholders will not be entitled to participate in the Entitlement Offer.

Under the Entitlement Offer, TCF expects to be able to make offers to Eligible Unitholders holding units in TCF at 7.00pm (Sydney time) on the Record Date.

3.9 Payment

You can pay in the following ways:

- by BPAY®; or
- by cheque; or
- as otherwise authorised by TCF.

Cash payments will not be accepted. Receipts for payment will not be issued.

The Responsible Entity will treat you as applying for as many New Units (up to your Entitlement) or Additional New Units as your payment will pay for in full.

Any Application Monies received for more than your final allocation of New Units and any Additional New Units will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on your personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your application will not be recognised as valid.

Please note that where you pay by BPAY®:

- you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Units which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Registry by no later than 5.00pm (Sydney time) on the Entitlement Offer Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment.

Payment – overseas residents

If you are a New Zealand resident Unitholder, you are unable to pay by BPAY® unless you have an Australian bank account. However, you are able to pay by international electronic funds transfer (**EFT**). A separate letter will be sent to New Zealand resident Unitholders providing clear instructions on how to make your payment by EFT.

Payment by cheque or bank draft

For payment by cheque or bank draft, you should complete your personalised Entitlement and Acceptance Form in accordance with the instructions on the form and return it accompanied by a cheque in Australian currency for the amount of the Application Monies, payable to “*360 Capital FM Limited as Responsible Entity for the 360 Capital Mortgage REIT*” and crossed “Not Negotiable”.

Your cheque must be:

- for an amount equal to \$5.94 multiplied by the number of New Units and any Additional New Units that you are applying for; and
- in Australian currency drawn on an Australian branch of a financial institution. Payment cannot be made in New Zealand dollars. New Zealand resident Unitholders must arrange for payment to be made in Australian dollars.

You should ensure that sufficient funds are held in relevant account(s) to cover the Application Monies, as your cheque will be processed on the day of receipt. If the amount of your cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay in full for the number of New Units and any Additional New Units you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower whole number of New Units and any Additional New Units as your cleared Application Monies will pay for (and to have specified that number of New Units and any Additional New Units on your personalised Entitlement and Acceptance Form). Alternatively, your application will not be accepted.

3.10 Mail

To participate in the Entitlement Offer, your payment must be received no later than the Entitlement Offer Closing Date, being 5.00pm (Sydney time) on Tuesday, 30 September 2025. If you make payment via cheque, you should mail your completed personalised Entitlement and Acceptance Form together with Application Monies to:

- BY MAIL to the following address:

360 Capital Mortgage REIT
Attn: Boardroom Pty Limited
GPO Box 3993
Sydney NSW 2000

For the convenience of Eligible Unitholders in Australia, who elect to receive communication via mail, a reply paid envelope addressed to the Registry will be included with your personalised Entitlement and Acceptance Form. If mailed in any country outside of Australia, correct postage must be affixed. Applications will only be accepted by the methods above. Applications will not be accepted in person.

As described above, where you have more than one holding of existing units, you will be sent more than one personalised Entitlement and Acceptance Form and must complete the relevant Entitlement and Acceptance Form for each separate Entitlement you hold.

3.11 Foreign persons

The Offer Booklet and the Entitlement and Acceptance Form do not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. By submitting an Entitlement and Acceptance Form and / or paying or transferring Application Monies you represent and warrant that there has been no breach of such laws.

The distribution of this Entitlement Offer Booklet outside of Australia or New Zealand may be restricted by law and persons who come into possession of it should seek advice and observe any such restrictions. Any failure to comply with such restrictions may contravene applicable securities laws. The Responsible Entity disclaims all liabilities to such a person.

Why we're different

Real Estate Experts

- We assess loans as property professionals, focusing on asset quality and execution, not just valuations.
- Deep experience in managing through real estate cycles, asset management, and turnarounds to structure risk-adjusted loans.

Transparency and Disclosure

- All loans exposures are fully disclosed, including commercial terms, loans and security type and loan covenants.

Quality Over Scale

- We don't compete on risk; we focus on high-quality loans over volume.

Deep Relationships

- Our reputation as real estate investors, not just lenders, gives us access to off-market opportunities.

Strict Lending Discipline

- We favour owner-builders, avoid large multi-stage projects where time kills returns, and ensure builders and project sponsors have the financial strength and track record to deliver.
- Currently no site finance, minimal mezzanine exposure, and all loans have a clear exit and downside mitigation.
- We are not developers, so we don't compete with our customers.

Appendix A. Key risks

Key risks

- **Market risk:** Market risk is the risk that investment returns from the Trust may be affected by negative movements in general market conditions and may decline over short or extended periods due to market sentiment, economic, technological, legal, social and/or political factors. Factors that influence markets generally can include business confidence and government and central bank policies, including the level and direction of interest rates, natural disasters and man-made disasters beyond the control of the Responsible Entity.
- **Security risk:** A security property may be damaged or destroyed, and the insurance cover may prove to be insufficient to cover the full amount of the loan. Where the underlying security is real property, which is illiquid, there is also a risk that delays could occur between a loan going into default and the sale of the security property. These delays may affect the payment of distributions to Unitholders and the ability of the Responsible Entity to make withdrawal offers due to insufficient cash being available.
- **Property liquidity:** If it becomes necessary for the Trust to dispose of one or more of the Trust's loans there is a risk that the Trust may not be able to realise sufficient loan assets in a timely manner or at a price which achieves the outstanding loan principal. This may adversely affect the Trust's NAV per Unit or trading price per Unit.
- **Junior lender risk:** If the Trust holds a real property mortgage which ranks in priority behind a senior lender's mortgage, in the event of a default by the borrower, the ability to recover the amount owing under the loan agreement will be affected by the actions of the senior lender. Generally, the senior lender will have the right to take possession of, and deal with, the security property and assets of the borrower if various covenants of the senior lender's loan facility are not met. Because in this situation the Trust's security will rank behind the senior lender, if the borrower defaults under any of the loan facilities and the senior lender exercises its security, the trustee of the Trust will not have day-to-day control over the borrower's assets. This will generally mean that the Responsible Entity will be unable to exercise its rights in respect of the relevant security until the senior lender has been paid in full. In addition, any money available to the Trust in these circumstances would be limited to what is recovered after the senior lender (and any other priority lenders) have been paid in full.
- **Investment specific risk:** Investment specific risks refer to the risks that apply to only a particular investment, as opposed to general sector, systemic or market risks that are more broadly applicable. For example, an investment specific risk may be the risk of losing an investment or an investment value decreasing because of the characteristics a specific property or the commercial terms that apply to a particular investment.
- **No guarantee the Investment Manager will find appropriate investments or deploy capital within the Investment Timeline** The Investment Manager intends that, subject to market conditions and available investment opportunities, the Trust will be substantially invested or committed in accordance with its Investment Strategy over the Investment Timeline (which may actually be earlier or longer). There is no guarantee that the Investment Manager will find sufficient investments for the Trust at suitable returns or to fully deploy the Trust's capital in order to achieve the Trust's Target Return and investment objectives. Once suitable investment opportunities are identified, it may take longer than anticipated for capital to be invested into these opportunities. An inability to invest in opportunities which are consistent with the Investment Strategy or deploy capital within the Investment Timeline is likely to have an adverse impact on the Trust and the value of Units.
- **Responsible Entity risk:** There is a risk that the Responsible Entity's investment strategy will not achieve its performance objectives or produce returns that compare favourably against its peers. Many factors can negatively impact the Responsible Entity's ability to generate acceptable returns (e.g. loss of key staff). In addition, the Responsible Entity's fee may be related to the performance of the Trust, in particular the rate of return received. This type of fee incentivises the Responsible Entity to endeavour to improve the Trust's performance. However, there is a risk that such fee may encourage the Responsible Entity to make riskier decisions regarding its management of the Trust's investments with the object of improving the Trust's performance in the short term.
- **Responsible Entity risk:** There is a risk 360 Capital FM Limited ACN 090 664 396 may be replaced as responsible entity of the Trust or its key personnel may change.
- **Key person risk:** The Responsible Entity relies on a small number of professionals. In particular, if one or more key members of the Responsible Entity's investment team leaves, a suitable replacement may not be achieved within a reasonable time frame, and any replacement would be subject to similar risks.
- **Diversification risk:** The Trust has a relatively concentrated loan portfolio across a small number of borrowers, locations, loan types and expiries. As a result of this relative concentration, the risk of an adverse impact of one loan within the loan portfolio will have a greater impact due to its high correlation across a certain borrower, loan type, location, etc.
- **Lost opportunity risk:** This risk relates to the early repayment of a loan by a borrower, which may reduce the investment period and consequently reduce the return to investors as their capital will not be invested for the projected period. It is possible that an investor such as the Trust who has their capital returned early will not be able to find a replacement investment providing a similar return profile, leading to a loss of anticipated return. Most loans will include a minimum interest amount payable by a borrower if there is an early repayment of a loan which can minimise the possible lost opportunity risk.

Key risks

- **Borrower risk:** If the borrower is a company, and that company becomes insolvent or undergoes external administration, then the loan will go into default. If the loan goes into default, the payment of any interest distributions will cease, and the recoverability of the payments will depend upon the money that can be realised from selling the security property and if necessary, pursuing the borrower and any guarantor. Further, a borrower may delay or stop payment on a loan or default on the loan. There is no guarantee nor warranty as to any protection from late payment and/or default, and as such you may suffer financial loss of both interest and principal if the security property(s) is sold for less than the total amount owing on the loan.
- **Valuation risk:** Although the Responsible Entity takes precautions to ensure that all internal property value assessments and external valuations it relies on are accurate, there is a risk that estimated property values or values provided by external valuers will be fundamentally flawed. The valuation of the security property for a loan may be inaccurate or may not accurately reflect its true value at the time the valuation is undertaken. If the valuation of the security property for a loan is incorrect, then the amount realised on the sale of a security property may not cover the amount lent to the borrower. If the estimated value or external value is wrong, then part or all of the loan, may be effectively unsecured. This means that in the event of default and the security property has to be sold, there may be a partial or total loss of the Trust's investment. Further, as with any investment, there is always risk that the value of the security property falls and no longer represents the value as assessed at the time of foreclosure or default. Should this occur, this may diminish the amount of principal and outstanding interest that can be repaid to Unitholders. Where a building is under construction, the property will be valued on an 'as if complete' basis. These valuations assume that the relevant building is complete, has been built in accordance with the agreed specifications and that the leases commence as expected and on the agreed terms. 'As if complete' valuations also assume that property market conditions remain constant. As a result, with 'as if complete' valuations there is a risk that, on practical completion of any relevant building, the valuation will not be the same.
- **Interest rate risk:** Fluctuations in market interest rates may impact your investment in the Trust. For example, rising market interest rates may increase a variable loan borrower's interest costs, making it more difficult to make regular payments. Similarly, falling interest rates may lead a fixed rate borrower to repay a loan in order to refinance at a cheaper rate. Generally, the loans intended to be offered to borrowers will be granted on a fixed interest rate basis with a minimum interest payment which will limit the risk of early repayments by borrowers through refinance where rates fall.
- **Development and construction risk:** The Trust may lend money for property development or construction projects and there are specific risks associated with this type of loan. These risks include:
 - a) construction or development costs can exceed budgeted costs and the borrower may be unable to complete the project unless the borrower can obtain further funds;
 - b) the funds kept in reserve to complete the project being insufficient to meet the cost of completion;
 - c) the builder is unable to complete the project and needs to be replaced;
 - d) union activity could delay the timing to complete the construction of a property development project and/or increase its cost;
 - e) development approvals may not be obtained within expected timeframes, may not be granted in the form anticipated, or may not be granted at all; and
 - f) a change in market conditions could result in the project's value on completion being worth less than anticipated, or in lower sale rates and prices than expected.

Further, completion of buildings under contract could be delayed due to the fault of the particular developer or other unforeseen events. If that occurs, the borrower might not be in a position to repay the loan provided when due.

Delays may also increase holding costs, including interest which will erode the money that is finally recovered from the sale of the security property and could result in loss of interest and capital distributions to Unitholders.
- **Documentation risk:** A deficiency in documentation could, in certain circumstances, adversely affect the return on a loan. This may make it difficult for the Trust to enforce its security against the borrower.
- **Term risk:** A loan may not be repaid or refinanced in a timely fashion, which may cause a delay or potential loss of capital. The Responsible Entity seeks to manage this risk through the initial loan approval process as well as managing maturing loans in a timely fashion.

Key risks (cont'd)

- **Default and credit risk:** A borrower or a borrower's guarantor(s) may not be able to meet their financial obligations. This may be for a wide range of reasons, including:
 - (a) a change in the financial or other circumstances of the borrower; or
 - (b) a change in the economic climate generally that adversely affects all borrowers.

The Responsible Entity seeks to manage and minimise these risks by only permitting loans to borrowers that meet the Trust's lending criteria.

Investments in the Trust are not capital guaranteed. During the life of a loan made by the Trust, factors outside the control of the Responsible Entity such as economic cycles, property market conditions, government policy, inflation and general business confidence can affect property values and a borrower's ability to continue to service a loan.

If a security property is required to be sold to recover a debt, Unitholders' capital may be diminished or lost if the sale fails to realise sufficient funds to satisfy the loan balance and any capitalised interest and costs. Enforcement costs may not be recoverable in part or in full, in these circumstances.

Where a loan is not renewed, the return of investment capital may be delayed until the loan is either refinanced or repaid. Interest is charged to the time of repayment of the loan.

The Responsible Entity manages this risk by applying the lending guidelines and employing collection and management systems. All loans and valuations are subject to periodic review.
- **Enforcement risk:** If a borrower defaults under a loan, then the Trust may have to enforce its security to recover the loan secured by it, any unpaid interest and costs. The Trust will have to use its own resources to pay for those enforcement costs (such as the costs of appointing a receiver, legal fees in enforcing against the borrower, agent's commissions for sale of the security property etc.). This will most likely lead to a reduction in distributions paid to Unitholders and, depending on whether the enforcement costs can ultimately be repaid out of the proceeds from the sale of the security property, may result in a loss.
- **Regulatory risk:** The Trust's operations may be negatively impacted by changes to government policies, regulations and taxation laws. These are factors that the Responsible Entity are not able to influence.
- **General economic risk:** General economic factors including (but not limited to) equity and credit market cycles and interest rate movements may have an adverse effect on the profitability of investments and the performance of the Trust.
- **Taxation treatment of Units may change:** Unitholders should be aware that changes in Australian taxation law (including changes in interpretation or application of the law by the courts or taxation authorities in Australia) may materially affect the taxation treatment of an investment in units in the Trust, the holding or disposal of units or the treatment of distributions and the financial performance, financial position, cash flows, distributions, growth prospects and the quoted price of units.
- **Due diligence risk:** In all investments there exists a risk that material items that could affect the performance of individual investments are not identified during the investment analysis process and that these risks are not mitigated by the Responsible Entity.
- **Unforeseen risk and insurance risk:** Unforeseen extraordinary events such as natural phenomena, pandemics, attacks or other like events may affect the Trust's assets or the underlying funds in which the Trust invests. These may be events for which insurance cover is either not available, or the Trust does not have cover. The performance of the Trust may be adversely affected where any unforeseen event results in losses to Trust assets due to uninsurable risks, uninsured risks or underinsured risks, or the cost of the insurance premiums being in excess of those forecasts. Occurrence of these events could also lead to insurance becoming unavailable for such events in the future, or premiums increasing above levels expected by the Responsible Entity.
- **Building risk:** Property assets naturally deteriorate over time and are subject to disasters, which can damage the structure of the building. There is a risk that the value of a property could diminish if the building on the properties forming the security property deteriorate or are damaged.
- **Environmental risk:** The valuation of security property could be adversely affected by discovery of environmental contamination or the incorrect assessment of costs associated with an environmental contamination, as well as restrictions associated with flora and fauna conservation.

Notice under section 1012DAA(2)(f) of the *Corporations Act 2001* (Cth)

This notice is given by 360 Capital FM Limited (**Responsible Entity**) (ABN 15 090 664 396) (AFSL 221474) as responsible entity for 360 Capital Mortgage REIT (ARSN 115 632 990) (**TCF**), under section 1012DAA(2)(f) of the *Corporations Act 2001* (Cth) as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73) (**Corporations Act**).

The Responsible Entity has today announced a pro rata non-renounceable entitlement offer (the **Entitlement Offer**) of 1 new fully paid ordinary unit in TCF (**New Units**) for every 1 fully paid ordinary unit in TCF held as at 7.00pm (Sydney time) on Tuesday, 16 September 2025.

The Responsible Entity confirms the following:

- (a) the New Units will be offered for issue by the Responsible Entity without disclosure to investors under Part 7.9 of the Corporations Act and without a product disclosure statement for the New Units being prepared or lodged with ASIC;
- (b) this notice is being given under section 1012DAA(2)(f) of the Corporations Act;
- (c) as a disclosing entity, TCF is subject to regular reporting and disclosure obligations;
- (d) as at the date of this notice, the Responsible Entity has complied with:

 - (ii) sections 674 and 674A of the Corporations Act as they apply to TCF; and
- (e) as at the date of this notice, there is no excluded information of the type referred to in sections 1012DAA(8) and 1012DAA(9) of the Corporations Act.

The potential effect that the issue of New Units will have on the control of TCF, and the consequences of that effect, will depend on a number of factors, including investor demand, and existing unit holdings. However, given:

- (a) the structure of the Entitlement Offer as a pro rata issue with an oversubscription facility;
- (b) the Responsible Entity's intention to place any residual shortfall that remains following the operation of the oversubscription facility; and

- (c) the current holdings of substantial holders (based on substantial holding notices that have been given to TCF and lodged with ASX on or prior to the date of this notice),

the Responsible Entity does not expect that the Entitlement Offer will have a material effect on the control of TCF and, as such, does not expect any material consequences to flow from that. Refer to Section 6 of the Entitlement Offer Booklet for further detail.

Company Secretary

360 Capital Mortgage REIT (ASX:TCF)
Non-renounceable pro rata Entitlement Offer
Notification to Ineligible Unitholders

Page 1 of 2

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

On 11 September 2025, 360 Capital FM Limited ACN 090 664 396, AFSL 221474 as responsible entity (**Responsible Entity**) for the 360 Capital Mortgage REIT, ARSN 115 632 990 (**Trust**) announced that it was undertaking a 1 for 1 non underwritten, non-renounceable entitlement offer to raise up to \$45.2 million (**Entitlement Offer**).

Details of the Entitlement Offer

The Entitlement Offer is being made in accordance with section 1012DAA of the Corporations Act 2001 (Cth) (the **Corporations Act**) as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73), meaning that no product disclosure statement (**PDS**) needs to be prepared.

Documents relating to the Entitlement Offer, including an offer booklet, have been lodged with the ASX and have been provided to Eligible Unitholders.

The Entitlement Offer is being made to Eligible Unitholders on the basis of 1 New Unit for every 1 existing Unit held at 7.00pm (Sydney time) on Tuesday, 16 September 2025 (**Record Date**).

Eligibility Criteria

A unitholder is an Eligible Unitholder and eligible to participate in the Entitlement Offer if the unitholder meets all of the following requirements:

- is a unitholder of the Trust at 7.00pm (Sydney time) on the Record Date;
- has a registered address in Australia or New Zealand or in any other jurisdiction agreed by the Responsible Entity;
- is not in the United States and are not acting for the account or benefit of a person in the United States; and
- is eligible under all applicable securities laws to receive an offer under the Entitlement Offer without a PDS, disclosure document or any lodgement, filing, registration or qualifications.

The Responsible Entity has determined, pursuant to section 9A(3) of the Corporations Act and ASX Listing Rule 7.7.1(a), that it would be unreasonable to make offers to Unitholders in connection with the Entitlement Offer who are not Eligible Unitholders (**Ineligible Unitholders**). This is due to the legal and regulatory requirements and the potential costs to the Responsible Entity of complying with these requirements, compared with the relatively small number of Unitholders otherwise, the relatively small

number of existing Units they hold and the relatively low value of Units to which those Unitholders would otherwise be entitled to subscribe for.

The Responsible Entity disclaims any liability in respect of any determination as to eligibility, to the maximum extent permitted by law.

In compliance with ASX Listing Rule 7.7.1(b) and section 9A(3) of the Corporations Act, the Responsible Entity advises that it will not be extending the Entitlement Offer to Ineligible Unitholders and Ineligible Unitholders will not be able to subscribe for Units under the Entitlement Offer. Ineligible Unitholders will not be sent the documents relating to the Entitlement Offer or be able to subscribe for Units under the Entitlement Offer.

Non-renounceable offer

As the Entitlement Offer is non-renounceable, Ineligible Unitholders will not be entitled to receive any payment or value for entitlements in respect of any Units that would have been offered to them if they were eligible. Entitlements are not tradeable on ASX or otherwise transferrable.

5 Australian Tax Considerations

5.1 Introduction

Set out below is a summary of the Australian income tax, Australian Capital Gains Tax (**CGT**), goods and services tax (**GST**) and stamp duty implications of the Entitlement Offer for Eligible Unitholders who are residents of Australia for income tax purposes and who hold their TCF units (and will hold their New Units and Additional Units (if applicable)) on capital account.

The summary below does not apply to Eligible Unitholders who:

- are not residents of Australia for Australian tax purposes;
- hold their TCF units (or will hold their New Units and Additional Units (if applicable)) as revenue assets (such as assets used in carrying on a business of unit trading, banking or insurance), or as trading stock or those who have acquired TCF units for the purpose of on-sale at a profit;
- acquired the TCF units in respect of which their Entitlements are issued under any employee share scheme or where New Units and Additional Units (if applicable) are acquired pursuant to any employee share scheme;
- may be subject to special tax rules, such as insurance companies, partnerships, tax exempt organisations, trusts (except where expressly stated), superannuation funds (except where expressly stated); or
- are subject to the “TOFA provisions” in Division 230 of the Income Tax Assessment Act 1997 (Cth) in relation to their TCF units.

This taxation summary is based on the Australian tax law as it applies as at the date of this Entitlement Offer Booklet. Other than as expressly discussed or specified, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time. Unitholders should be aware that any changes (with either prospective or retrospective effect) to the Australian taxation laws, regulations and administrative practices may affect the taxation treatment described in this summary.

This summary also does not take account of any individual circumstances of any particular Eligible Unitholder and does not constitute tax advice or financial product advice (as defined in the Corporations Act). It does not purport to be a complete analysis of the potential tax consequences of the Entitlement Offer and is intended as a general guide to the Australian tax implications. Eligible Unitholders should seek specific advice applicable to their own particular circumstances from their own financial or tax advisors.

The Responsible Entity, the Investment Manager, TCF and its and their officers, employees, taxation or other advisers do not accept any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

5.2 Issue of Entitlements

An Entitlement issued to an Eligible Unitholder is a “CGT asset” in the hands of the Eligible Unitholder, being a right to subscribe for New Units.

The issue of an Entitlement should not, of itself, result in any amount being included in your assessable income.

5.3 Exercise of Entitlements

You will acquire New Units where you exercise all or part of your Entitlements under the Entitlement Offer. You may acquire Additional New Units where you exercise all of your Entitlements and also apply for Additional New Units in excess of your Entitlement under the Entitlement Offer.

You should not derive any assessable income, or make any capital gain or loss, at the time of exercising (i.e. taking up) your Entitlement. For CGT purposes, the New Units or Additional New Units will be acquired on the day that you exercise your Entitlement. If you exercise all or part of your Entitlement, the cost base of New Units or Additional New Units for CGT purposes will be equal to the Offer Price payable by you for those New Units or Additional New Units plus certain non-deductible incidental costs you incur in acquiring them. You will need to apportion any non-deductible incidental costs incurred in relation to exercising your Entitlement across each New Unit and any Additional New Units on a reasonable basis.

5.4 Lapse of Entitlement

If you do not take up all or part of your Entitlement in accordance with the instructions set out above, then that Entitlement will lapse and you will not receive any consideration for your Entitlement that is not taken up. There should be no tax implications for you from the lapse of your Entitlement.

5.5 Distribution on New Units

Any future distributions made in respect of New Units or Additional New Units will be subject to the same income taxation treatment as dividends or other distributions made on TCF units held in the same circumstances.

5.6 Disposal of New Units

Each New Unit or Additional New Unit will constitute a separate CGT asset. The disposal of a New Unit or Additional New Unit will constitute a disposal for CGT purposes.

On disposal of a New Unit or Additional New Unit, you will make a capital gain if the capital proceeds on disposal exceed the cost base of the New Unit or the Additional New Unit (as the case may be). You will make a capital loss if the capital proceeds are less than the reduced cost base of the New Unit or Additional New Unit. The cost base of New Units and Additional New Units is described above in Section 5.3.

If you are an individual, trustee or complying superannuation entity that has held New Units or Additional New Units for 12 months or more at the time of disposal (not including the date of acquisition or disposal) you may be entitled to apply the applicable CGT discount factor to reduce the capital gain (after offsetting capital losses). The CGT discount factor is one half for individuals and trustees and one third for complying superannuation entities. Trustees should seek specific tax advice regarding the tax consequences arising to beneficiaries because of the CGT discount.

You will be taken to have acquired the New Units or the Additional New Units on the day you exercise your Entitlement. Accordingly, to be eligible for the CGT discount, you must have held New Units or Additional New Units for at least 12 months after the date that you exercised your Entitlement.

If you make a capital gain, the total capital gain for the year should be reduced by any capital losses made in the income year or carried forward from a prior income year. The resulting capital gain (if any) should be included in your assessable income for the relevant income year, after applying the applicable CGT discount.

If you make a capital loss, you can only use that loss to offset other capital gains; i.e. the capital loss cannot be used against taxable income on revenue account. However, if the capital loss cannot be used in a particular income year, you can carry it forward to use in future income years, providing certain loss utilisation tests are satisfied.

5.7 Provision of TFN and/or ABN

If an Eligible Unitholder has quoted their Australian business number (**ABN**), tax file number (**TFN**) or an exemption from quoting their tax file number in respect of existing units, this quotation or exemption will also apply in respect of any New Units acquired by that Eligible Unitholder.

Tax may need to be withheld by CFML from any distributions at the highest marginal tax rate if an ABN or TFN has not been quoted, or an appropriate TFN exemption has not been provided.

5.8 GST

The taking up of the New Units or the Additional New Units will be classified as a "financial supply" for Australian GST purposes.

Accordingly, Australian GST should not be payable in respect of amounts paid for the acquisition of the New Units or the Additional New Units. Subject to certain requirements, there may be a restriction on the entitlement of Eligible Unitholders to claim an input tax credit for any GST incurred on costs associated with the acquisition of New Units or Additional New Units.

5.9 Stamp Duty

Stamp duty should not be payable by Eligible Unitholders in respect of the taking up of New Units or Additional New Units on the assumption that all acquisitions occur when all of the Units in TCF are quoted on the market operated by the ASX and no Unitholder (together with interests of associated persons and interests acquired under associated transaction) holds an interest of 90% or more in TCF.

6 Important Information for Unitholders

You should read this Entitlement Offer Booklet carefully and in its entirety before deciding how to deal with your Entitlement. In particular, you should consider the Key Risks section of the Investor Presentation enclosed at Section 4 of this Entitlement Offer Booklet, any of which could affect the operating and financial performance of TCF or the value of an investment in TCF.

You should consult your stockbroker, accountant or other professional adviser to evaluate whether or not to participate in the Entitlement Offer.

6.1 Eligible Unitholders

This Entitlement Offer Booklet contains an offer of New Units to Eligible Unitholders and has been prepared in accordance with section 1012DAA of the Corporations Act as modified by ASIC Corporations Instruments 2016/84 and 2016/73.

Eligible Unitholders are those persons who:

- are a Unitholder of TCF at 7.00pm (Sydney time) on the Record Date who have a registered address on the Units register in Australia or New Zealand;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent a Unitholder holds Units for the account or benefit of such person in the United States, the Unitholder will not be eligible to participate on behalf of such person); and
- are eligible under all applicable securities laws to receive an offer under the Entitlement Offer without a prospectus, disclosure document or any lodgement, filing, registration or qualifications.

Unitholders who are not Eligible Unitholders are Ineligible Unitholders.

The Responsible Entity reserves the right to determine whether a Unitholder is an Eligible Unitholder or an Ineligible Unitholder.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Unitholder. Nominees and custodians are therefore advised to seek independent professional advice as to how to proceed.

Under the Entitlement Offer, the Responsible Entity expects to be able to make offers to all Eligible Unitholders holding units in TCF at 7.00pm (Sydney time) on the Record Date.

6.2 Ranking of New Units

New Units and any Additional New Units issued under the Entitlement Offer will be fully paid and rank equally in all respects with existing units from the time of issue. The rights and liabilities attaching to the New Units and any Additional New Units are set out in TCF's constitution.

6.3 Key Risks

Key Risks are described in the Investor Presentation which is enclosed at Section 4 of this Entitlement Offer Booklet. The Key Risks detail important factors and risks that could affect the operating and financial performance of TCF or the value of an investment in TCF. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Entitlement. You should also consider general risks applicable to all investments in listed securities.

6.4 Holding statements

Holding statements are expected to be dispatched to Eligible Unitholders on Wednesday, 8 October 2025 in respect of New Units issued under the Entitlement Offer.

It is the responsibility of each applicant to confirm their holding before trading in New Units. Any applicant who sells New Units before receiving confirmation of their holding in the form of their holding statement will do so at their own risk.

CFML and its affiliates and related bodies corporate each disclaim all liability whether in negligence or otherwise (and to the maximum extent permitted by law) to persons who trade New Units before receiving their holding statements, whether on the basis of confirmation of the allocation provided by CFML, the Registry or otherwise.

6.5 No cooling off rights

Cooling off rights do not apply to an investment in New Units and any Additional New Units. You cannot withdraw your application once it has been accepted.

6.6 No Entitlements trading

Entitlements are non-renounceable and cannot be traded on ASX or any other exchange, nor can they be privately transferred.

6.7 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Units.

6.8 Notice to nominees and custodians

The Entitlement Offer is being made to all Eligible Unitholders. Nominees with registered addresses in the eligible jurisdictions may also be able to participate in the Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Units, provided that the applicable beneficiary would satisfy the criteria for an Eligible Unitholder.

Nominees and custodians who hold TCF units as nominees or custodians will have received, or will shortly receive, a letter from TCF in respect of the Entitlement Offer. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Entitlement Offer is not available to, and they must not purport to accept the Entitlement Offer in respect of:

- beneficiaries on whose behalf they hold Units who would not satisfy the criteria for an Eligible Unitholder; or
- Unitholders who are not eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

Persons acting as nominees for other persons must not take up any Entitlements on behalf of, or send any documents related to the Entitlement Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States.

CFML is not required, and does not undertake to, determine whether or not any Unitholder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of existing units or Entitlements. Where any person is acting as a nominee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Entitlement Offer by the beneficiary complies with applicable foreign laws.

CFML is not able to advise on foreign laws.

Eligible Unitholders who are nominees or custodians are therefore advised to seek independent advice as to how to proceed.

6.9 Not investment advice

This Entitlement Offer Booklet is not a prospectus under the Corporations Act and has not been lodged with ASIC. It also is not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. TCF is not licensed to provide financial product advice in respect of the New Units or any Additional New Units. This Entitlement Offer Booklet does not purport to contain all the information that you may require to evaluate a possible application for New Units or Additional New Units, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with TCF's other periodic statements and continuous disclosure announcements lodged with ASX, which are available on the ASX website at www.asx.com.au.

Before deciding whether to apply for New Units and any Additional New Units, you should consider whether they are a suitable investment for you in light of your own investment objectives and financial circumstances and having regard to the merits or risks involved. If, after reading the Information, you have any questions about the Entitlement Offer, you should contact your stockbroker, accountant or other professional adviser.

6.10 Quotation and trading

The Responsible Entity has applied to the ASX for official quotation of the New Units and any Additional New Units in accordance with the ASX Listing Rule requirements. If ASX does not grant quotation of the New Units or any Additional New Units, TCF will repay all Application Monies (without interest).

Subject to approval being granted, it is expected that normal trading of New Units and any Additional New Units allotted under the Entitlement Offer will commence on Wednesday, 8 October 2025.

6.11 Continuous disclosure

TCF is a 'disclosing entity' under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports.

TCF is required to notify the ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the stock markets conducted by the ASX. In particular, TCF has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities. That information is available to the public from the ASX and can be accessed at www.asx.com.au.

Some documents are required to be lodged with ASIC in relation to TCF. These documents may be obtained from, or inspected at, an ASIC office.

The information in this Entitlement Offer Booklet does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Entitlement Offer, the Entitlements, the New Units, any Additional New Units, in any jurisdiction outside of Australia or New Zealand. The distribution of this Entitlement Offer Booklet (including an electronic copy) outside Australia and New Zealand may be restricted by law. If you come into possession of this Entitlement Offer Booklet, you should observe such restrictions and should seek your own advice on such restrictions. No person is authorised to give any information, or to make any representation, in connection with the Entitlement Offer that is not contained in this Entitlement Offer Booklet.

Any information or representation that is not in this Entitlement Offer Booklet may not be relied on as having been authorised by the Responsible Entity, the Investment Manager, TCF, or its or their related bodies corporate, in connection with the Entitlement Offer. Except as required by law, and only to the extent so required, none of the Responsible Entity, the Investment Manager, TCF, nor any other person, warrants or guarantees the future performance of TCF or any return on any investment made pursuant to this Information or its content.

6.16 Withdrawal of the Entitlement Offer

The Responsible Entity reserves the right to withdraw all or part of the Entitlement Offer and this Entitlement Offer Booklet at any time, subject to applicable laws, in which case TCF will refund Application Monies in relation to New Units and any Additional New Units not already issued in accordance with the Corporations Act and without payment of interest.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to TCF will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to CFML as responsible entity of TCF.

6.17 Privacy

As a Unitholder, CFML and the Registry have already collected certain personal information from you. If you apply for New Units, CFML and the Registry may update that personal information or collect additional personal information for the purposes of:

- processing your application and assessing your acceptance of the New Units;
- servicing your needs as a unitholder and providing facilities and services that you request; and
- carrying out appropriate administration.

Company and tax laws require some of the information to be collected. If you do not provide your personal information we may not be able to process your application.

CFML and the Registry may disclose this information for these purposes to its subsidiaries and relevant organisations involved in providing, managing or administering your product or service such as third party suppliers, other organisations, loyalty and affinity partners, printers, posting services, call centres, and our advisers. We run our business in Australia and overseas, so we might need to share some of your information with organisations outside Australia.

Where personal information is disclosed, CFML will seek to ensure that the information is held, used or disclosed consistently with the *Privacy Act 1988* (Cth) and any other applicable privacy laws and codes. You can ask us to access information that we hold about you or to correct information we hold about you by telephoning or writing to CFML through the Registry as follows:

Boardroom Pty Limited
GPO Box 3993
Sydney NSW 2001
1300 082 130 (within Australia)
+61 2 8016 2884 (outside Australia)

6.18 Consents

Statements included in this Entitlement Offer Booklet, or any statement on which a statement in this Entitlement Offer Booklet is based, are not made by the directors, officers, employees, partners, agents and advisers of CFML, but by CFML itself.

To the maximum extent permitted by law each of these parties expressly disclaims and takes no responsibility for any statements in or omissions from this Entitlement Offer Booklet other than references to its name.

6.19 Capital structure

Assuming all New Units are subscribed for under the Entitlement Offer, the capital structure of TCF is expected to be as follows:

Units on issue as at the date of this Entitlement Offer Booklet	7,605,652
Maximum number of New Units to be issued under the Entitlement Offer	7,605,652
Total Units on issue on completion of the Entitlement Offer	15,211,304

6.20 Potential control effect of the Entitlement Offer

The Entitlement Offer is structured as a pro-rata issue and if all of the Trust's existing Unitholders take up their entitlements under the Entitlement Offer, the Entitlement Offer will have no effect on the control of the Trust.

The potential effect that the issue of the New Units will have on the control of the Trust, and the consequences of that effect, will depend on a number of factors including but not limited to investor demand under the Entitlement Offer and the amount of any Entitlement Offer shortfall. Nevertheless, the Responsible Entity does not expect the Entitlement Offer to have any further control implications for the Trust.

360 Capital FM Limited atf 360 Capital Investment Trust holds 839,462 units being 11.04% of the total units on issue in TCF. 360 Capital FM Limited atf 360 Capital Investment Trust has indicated that it will not be taking up its entitlement under the Entitlement Offer on the basis that it will increase the free float and therefore may improve the liquidity of units traded in the Trust. If the Entitlement Offer is fully subscribed, 360 Capital FM Limited atf 360 Capital Investment Trust's unitholding in the Trust would decrease to 5.52%. It is noted that entities associated with Tony Pitt currently own or control 0.33% of the units in TCF.

The potential effect of the Entitlement Offer on control is summarised below:

- If all Eligible Unitholders take up their full entitlement under the Entitlement Offer, then the Entitlement Offer will have no significant effect on the control of TCF and Eligible Unitholders percentage ownership interest (and voting power) in TCF will remain the same; and
- If an Eligible Unitholder does not take up all of their entitlement, their percentage ownership interest (and voting power) in TCF will be diluted.

The New Units offered under the Entitlement Offer will represent 100% of the total number of Units in TCF (post equity raising).

Ineligible Unitholders are not entitled to participate in the Entitlement Offer and their percentage holding in TCF will be diluted should the Entitlement Offer proceed.

6.21 Design and distribution obligations

The design and distribution obligations in the Corporations Act (**DDO Obligations**) are intended to help consumers obtain appropriate financial products by requiring issuers and distributors to have a consumer-centric product. The DDO Obligations require product issuers to make publicly available a target market determination that explains the target market, any distribution conditions, and any information related to reviewing and monitoring conduct in relation to the target market determination.

TCF's target market determination is available on TCF's website at <https://www.360capital.com.au/tcf-investor-centre>.
