## BEAM DENTAL BIDCO PTY LTD OFF-MARKET TAKEOVER BID FOR PACIFIC SMILES GROUP LIMITED

Dear securityholder,

We refer to the off-market takeover bid by Beam Dental Bidco Pty Ltd (ACN 676 303 254) (**Bidco**) under Chapter 6 of the *Corporations Act 2001* (Cth) (**Corporations Act**) to acquire all of the fully paid ordinary shares that it does not already own in Pacific Smiles Group Limited (ACN 103 087 449) (ASX: PSQ) (**Pacific Smiles**) (**Offer**). Capitalised terms used in this email have the meaning given in the Bidder's Statement released to the ASX on 10 October 2025, unless the context otherwise requires.

Bidco is making an Offer to acquire all of your Shares by way of an all cash off-market takeover bid. The Offer Consideration is \$2.20 per Pacific Smiles Share. The Offer Consideration is best and final and will not be increased, in the absence of a Competing Proposal.

The Offer is unconditional. You may accept this Offer in respect of all of Your Shares only.

The Independent Expert has concluded that the Offer is fair and reasonable to Non-Associated Shareholders, as detailed in the Independent Expert's Report attached to the Target's Statement released to the ASX on 10 October 2025.

The Pacific Smiles Independent Board Committee has unanimously recommended that you accept the Offer, in absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

### IMPORTANT INFORMATION

In accordance with section 110D of the Corporations Act and your communication preferences, this email provides instructions as to how you can access the Bidder's Statement lodged by Bidco with the Australian Securities and Investments Commission and ASX on 10 October 2025 and the Target's Statement lodged by Pacific Smiles on the same date. # 1 Letter to Pacific Smiles Shareholders

---

10 October 2025

Dear Pacific Smiles Shareholder

## All cash Offer to acquire Your Shares

On behalf of Beam Dental Bidco Pty Ltd, I am pleased to provide you with this **unconditional, all cash Offer** to acquire your shares in Pacific Smiles Group Limited (ACN 103 087 449) for \$2.20 cash per Share, in accordance with the terms of the Offer.

The Independent Board Committee established by the Pacific Smiles Board has recommended that you **accept** this Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

The full terms and conditions of the Offer are set out in Section 11.

## Why you should accept the Offer

The key reasons for Pacific Smiles Shareholders to accept the Offer are summarised as follows:

- the Offer provides you with a liquidity event to exit your investment in Pacific Smiles, achieve certainty of value and remove your exposure to the risks associated with holding Your Shares;
- the Offer Consideration of \$2.20 per Share is best and final and will not be increased, in absence of a Competing Proposal;
- it is very unlikely that a Competing Proposal will emerge during the Offer Period as, at the date of this Bidder's Statement, Bidco controls 89.27% of the voting power in Pacific Smiles;
- the Offer has been determined fair and reasonable to Non-Associated Shareholders by the Independent Expert, as set out in the Independent Expert's Report attached to the Target's Statement. The Offer Consideration falls within the range of values considered to be 'fair' by the Independent Expert;
- the Offer Consideration represents an attractive premium of 37.5% to the last closing price of Shares on 9 October 2025, being the trading day immediately prior to the announcement of the Offer;
- the price of Shares may fall after the Offer closes and Pacific Smiles Shareholders may face a lack of liquidity; and
- there is no stamp duty or brokerage fees payable if you accept the Offer.

## Bidder's and Target's Statement

This Bidder's Statement contains detailed information relevant to the Offer, its terms, Bidco and Genesis Capital and how to accept the Offer in respect of all of Your Shares.

The Target's Statement has been prepared by Pacific Smiles, and includes further information about Pacific Smiles as required by the Corporations Act, including attaching the Independent Expert's Report.

## Next Steps

I encourage you to read this Bidder's Statement carefully and in full, and to **accept the Offer** for the reasons outlined in this Bidder's Statement.

The Offer is open for Acceptance until 7:00pm (Sydney time) on 17 November 2025, unless extended or withdrawn. If you wish to accept the Offer, please follow the instructions in this Bidder's Statement and the accompanying Acceptance Form.

If you have any questions about the Offer, please call the Bidco Offer Information Line on 1300 101 594 (for calls made within Australia) or +61 2 8072 1412 (for calls made outside Australia) or contact your Broker or legal, financial or other professional adviser.

Yours sincerely,

  - **Contact your Controlling Participant:** alternatively, you can accept the Offer by instructing your Controlling Participant (normally your Broker) to accept the Offer on your behalf, before the Offer closes.

### Participants

If you are a participant, your Acceptance must be initiated in accordance with rule 14.14 of the ASX Settlement Operating Rules before the Offer closes.

Full details on how to accept the Offer are set out in Section 11.5.

---

#### Can I accept the Offer for part of my shareholding?

No. You may accept the Offer only for all your shareholding.

---

#### What happens if I do not accept the Offer?

You will remain a Pacific Smiles Shareholder and will not receive any Offer Consideration.

If Bidco becomes entitled under Part 6A.1 of the Corporations Act to exercise rights to compulsorily acquire Your Shares, it intends to exercise those rights and proceed with the compulsory acquisition.

If Your Shares are compulsorily acquired by Bidco under Part 6A.1 of the Corporations Act in connection with the Offer, you will be paid the same consideration for each Share as is being offered under the Offer – that is, you will be paid the Offer Consideration for each Pacific Smiles Share compulsorily acquired from you.

If Your Shares are compulsorily acquired by Bidco, you may receive your consideration later than if you accept the Offer.

If Bidco does not become entitled to exercise compulsory acquisition rights under Part 6A.1 of the Corporations Act it may, as further described in Section 10.3(b), alternatively have the right to compulsorily acquire Shares under Part 6A.2 of the Corporations Act.

---

#### Are there any risks

Yes, there are risks associated with rejecting the Offer and holding Pacific Smiles or accepting the Offer.

---

**associated with the Offer?** The risks associated with rejecting the Offer and holding Pacific Smiles Shares are outlined in Section 3 and described in detail in section 7.2 of the Target's Statement.

The risks associated with accepting the Offer include:

- you will not be able to withdraw your acceptance under any circumstances;
- you will not be able to accept an alternative proposal should one emerge. For the reasons given in this Bidder's Statement, Bidco considers it very unlikely that any such proposal will emerge;
- the tax consequences of disposing of Your Shares. For additional information, please refer to the row in this Section 2 entitled "*What are the tax implications of accepting the Offer?*" and to Section 9; and
- you will no longer have a right to receive any dividend declared on Your Shares.

Section 7.3 of the Target's Statement also provides information about the risks associated with accepting the Offer.

---

**Will I need to pay brokerage or stamp duty on acceptances?** If Your Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Bidco, you will not incur any brokerage fees or be obliged to pay stamp duty in connection with your Acceptance.

If Your Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Shares are registered in the name of a Broker, bank, custodian, or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, but you should ask your Controlling Participant (usually your Broker) or that nominee whether it will charge any transactional fees or service charges in connection with Acceptance.

---

**What are the tax implications of accepting the Offer?** A general description of the Australian taxation treatment for certain Pacific Smiles Shareholders accepting the Offer is set out in Section 9.

The description in Section 9 is a general description only and not advice. It does not take into account your particular circumstances or needs. You should not rely on that description as advice for your own affairs.

You should consult your taxation adviser for detailed taxation advice before making a decision as to whether or not to accept the Offer for Your Shares.

---

**What if I am a foreign shareholder?** Foreign shareholders are persons whose address as shown in the Register is a jurisdiction other than Australia and its external territories.

Foreign shareholders will be paid the same cash consideration as stipulated under the Offer. However, the tax implications under the Offer for those foreign shareholders may be different from those relating to Australian resident shareholders.

---

**Where do I go  
if I have  
further  
questions?**

For queries on how to accept the Offer using the physical Acceptance Form, see the accompanying Acceptance Form.

For any further queries on how to accept the Offer, or for any other queries in relation to the Offer, please contact the Bidco Offer Information Line on 1300 101 594 (for calls made within Australia) or +61 2 8072 1412 (for calls made outside Australia) between 8:30am and 7:00pm (Sydney time), Monday to Friday.

For queries in relation to Your Shares, call 1300 288 664 (for calls made within Australia) or +61 2 9698 5414 (for calls made outside Australia).

Please note that the above calls may be recorded.

### 3 Why you should accept the Offer

---

Bidco is offering to acquire 100% of Your Shares for the Offer Consideration of \$2.20 cash per Share, as adjusted under and subject to the terms of the Offer.

The key reasons to accept the Offer are summarised below:

**1. The Offer provides you with a liquidity event to exit your investment in Pacific Smiles**

Bidco currently holds 89.27% of the Shares, with the next largest Pacific Smiles Shareholder holding 10.01% of the Shares. All other Pacific Smiles Shareholders, together, hold 0.72% of the Shares. A high concentration in the Pacific Smiles Shareholder base contributes to the low liquidity of the Shares, which may make it difficult for an investor to find counterparties to buy Shares from or sell Shares to.

The Offer is a liquidity event that allows Pacific Smiles Shareholders to sell their Shares and exit their investment in Pacific Smiles. If you do not accept the Offer (and Bidco is unable to compulsorily acquire Your Shares), your ability to exit your investment in Pacific Smiles may be limited.

If Bidco is not successful in meeting the thresholds for compulsory acquisition as a result of the Offer, it may, subject to the requirements of the Corporations Act, Listing Rules and the constitution of Pacific Smiles, seek to have Pacific Smiles removed from the official list of ASX. Any such delisting would further limit the future liquidity of Shares.

**2. The Offer Consideration of \$2.20 per Share is best and final and will not be increased in absence of a Competing Proposal**

The Offer of \$2.20 per Share is best and final. Bidco will not increase the Offer Consideration except in the unlikely event that a Competing Proposal emerges.

**3. It is very unlikely that a superior or alternative proposal will emerge**

At the date of this Bidder's Statement, Bidco has voting power of 89.27% in Pacific Smiles. As a result, Bidco can, on its own, prevent any other potential bidder from acquiring a controlling interest in Pacific Smiles (that is, greater than 50% of the Shares). Accordingly, it is very unlikely that any third-party proposal will emerge during the Offer Period.

**4. The Independent Expert has determined that the Offer is fair and reasonable to Non-Associated Shareholders**

The Offer has been determined fair and reasonable to Non-Associated Shareholders by the Independent Expert, as set out in the Independent Expert's Report attached to the Target's Statement. The Offer Consideration falls within the range of values considered to be 'fair' by the Independent Expert.

**5. The Offer Consideration represents an attractive premium of 37.5% to the last closing price**

The Offer provides a compelling opportunity for Pacific Smiles Shareholders to realise certain cash value for their Shares.

The Offer Consideration represents an attractive premium of 37.5% to the last closing price of Shares on ASX prior to the announcement of this Offer.

**6. The Offer Consideration provides you certainty of value**

The Offer Consideration provides each Pacific Smiles Shareholder with certainty of the value of the consideration being offered for their Shares.

The Offer is unconditional. If you accept the Offer in accordance with the instructions contained in the Offer and the Acceptance Form, you will be paid the Offer Consideration for each Share that you own by no later than the earlier of:

- one month after you accept this Offer; and
- 21 days after the end of the Offer Period.

**7. The price of Shares may fall if the Offer is not successful**

The last closing price of Shares on ASX at the close of trading on 9 October 2025, being the last trading day before the Announcement Date, was \$1.60. Given Pacific Smiles Shareholders are being offered a premium for their Shares under the Offer and that a competing bid is very unlikely, the Share price may fall once the Offer has lapsed and trade at a material discount to the amount of the Offer Consideration (although this is difficult to predict with any degree of certainty).

**8. Accepting the Offer removes your exposure to the risks associated with remaining a minority shareholder in Pacific Smiles**

As a Pacific Smiles Shareholder, you are subject to a number of risks, some of which have been outlined above, that may affect the market price of Shares. These risks include, but are not limited to:

- the future market price of Shares is uncertain, in the absence of the Offer and/or any Superior Proposal;
- the market for Shares may become even less liquid;
- Pacific Smiles' dividend policy may change; and
- Bidco may seek to compulsorily acquire Your Shares should it have a right to do so and/or have Pacific Smiles removed from the official list of ASX.

Section 7.2 of the Target's Statement sets out a detailed list of risks associated with rejecting the Offer and holding Pacific Smiles Shares. By accepting the Offer, you will realise a certain cash amount for your Shares and remove your exposure to these risks.

**9. No stamp duty or brokerage fees in accepting the Offer**

You will not be obliged to pay stamp duty if you accept the Offer.

If Your Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Bidco, you will not incur any brokerage fees or be obliged to pay stamp duty in connection with your Acceptance.

If Your Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Shares are registered in the name of a Broker, bank, custodian, or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, but you should ask your Controlling Participant (usually your Broker) or that nominee whether it will charge any transactional fees or service charges in connection with Acceptance.

## 4 Information on the Bidder Group

---

This Section 4 has been prepared by Bidco. This Section 4 provides information about Genesis Capital and the Bidder Group. Information on the sources of Offer Consideration and Bidco's intentions should the Offer proceed are set out in Sections 7 and 8 respectively.

The information concerning Genesis Capital and any Bidder Group Member is the responsibility of Bidco.

### 4.1 Overview of Genesis Capital

Genesis Capital Manager I Pty Ltd (the "**Manager**") is the manager of entities comprising the Bidder Group and is a member of the Genesis Capital group.

Established in 2018, Genesis Capital is one of Australia's leading healthcare specialist private equity firms.

Over the past 17 years, the partners at Genesis Capital have (both with Genesis Capital and in other professional contexts) invested in 21 healthcare platforms, and over 40 bolt on acquisitions. Genesis Capital is differentiated from other investment managers due to its focus on and deep knowledge of the healthcare sector, experience executing growth strategies in partnership with management, and deep operating expertise. Genesis Capital investors include a mix of global and Australian institutional investors, leading Australia and New Zealand family offices and the Genesis Capital partners and team.

More information about Genesis Capital is available at [www.genescapital.com.au](http://www.genescapital.com.au).

### 4.2 Overview of the Bidder Group

The Bidder Group was established for the sole purpose of acquiring shares in Pacific Smiles. Bidco obtained control of Pacific Smiles following its off-market takeover bid for Pacific Smiles, announced on 17 September 2024 ("**2024 Offer**"). In the period between the 2024 Offer and the date of this Bidder's Statement, the activities of the Bidder Group have related exclusively to holding its interest in Pacific Smiles. This includes obtaining acquisition financing to fund the consideration under the 2024 Offer.

(a) **Bidco**

Bidco is an Australian proprietary company limited by shares that was incorporated on 3 April 2024. Bidco is a wholly owned subsidiary of Subco.

At the date of the Bidder's Statement, Bidco has two directors, Michael Caristo and Christopher Yoo. Michael and Christopher are also current directors of Pacific Smiles.

(b) **Subco**

Subco is an Australian proprietary company limited by shares that was incorporated on 3 April 2024 and became the holder of all of the shares in Bidco on that date. Subco is a wholly owned subsidiary of Midco.

At the date of the Bidder's Statement, Subco has two directors, Michael Caristo and Christopher Yoo.

(c) **Midco**

Midco is an Australian proprietary company limited by shares that was incorporated on 3 April 2024 and became holder of all of the shares in Subco on that date. Midco is a wholly owned subsidiary of Holdco.

At the date of the Bidder's Statement, Midco has two directors, Michael Caristo and Christopher Yoo.

(d) **Holdco**

Holdco is an unlisted Australian public company limited by shares that was incorporated on 3 April 2024 for the purposes of holding all of the shares in Midco and issuing Holdco shares to Genesis shareholders and eligible Pacific Smiles shareholders who made valid all scrip consideration or mixed consideration elections pursuant to the 2024 Offer.

At the date of the Bidder's Statement, Holdco has four directors, Michael Caristo, Christopher Yoo, Tara Hariharan and Alexander Abrahams.

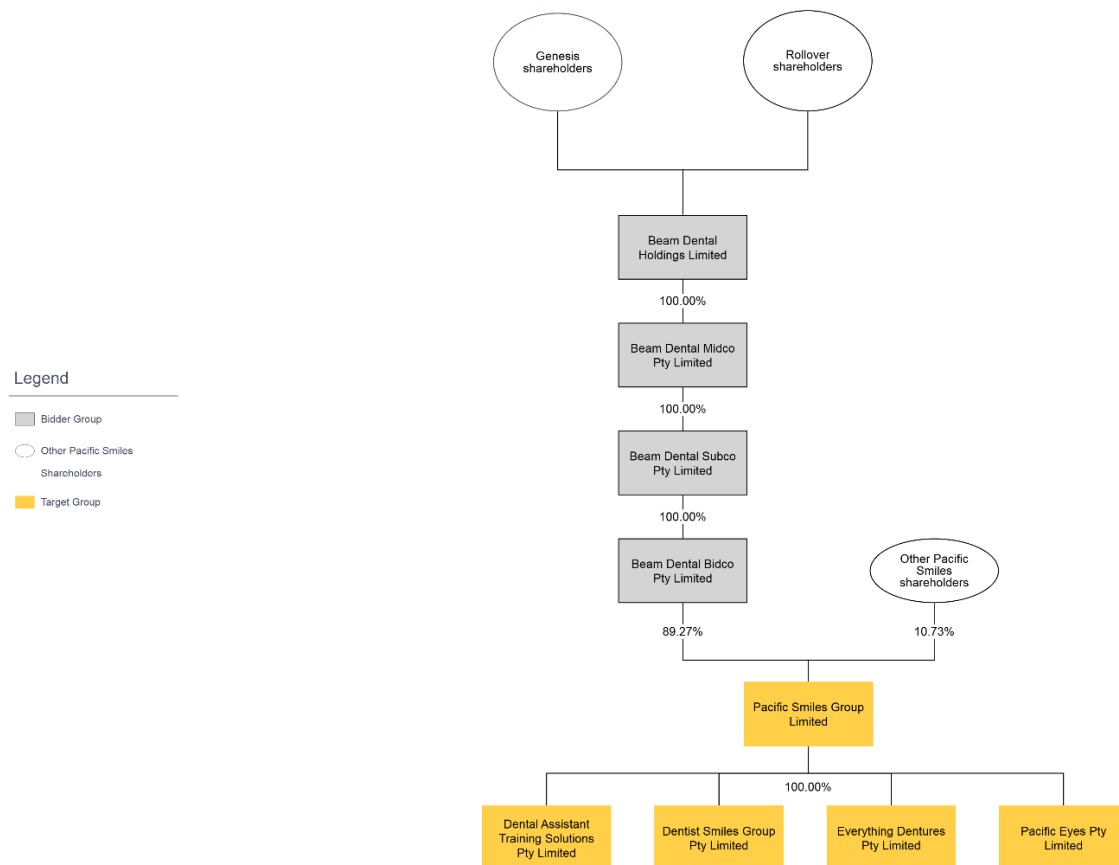

(e) **The Manager and management fees**

Genesis Capital, or the Manager, is a Sydney-based Australian healthcare focused investment manager and is the manager and adviser of Genesis Fund co-investor vehicles and the entities comprising the Bidder Group. This management relationship is defined by management (or other) agreements in place between the respective entities and the Manager. The Manager is an active investor and expects to work closely with Pacific Smiles' management team to identify and execute strategic performance opportunities within the business.

Holdco and the other members of the Bidder Group do not currently pay any management fees to the Manager.

## 4.3 Bidder Group Structure Diagram

Set out below is the current structure diagram of the Bidder Group:

## 5 Information on Pacific Smiles

---

### 5.1 Overview of Pacific Smiles

Pacific Smiles Group (ASX: PSQ) is an Australian public company which was founded in 2002.

Pacific Smiles Group is the largest branded Dentist Service Organisation in Australia, currently operating 137 dental centres containing more than 545 active dental chairs. These dental centres include 11 nib branded centres which are owned and operated by Pacific Smiles, and 10 HBF dental centres which are operated by Pacific Smiles. Pacific Smiles provides dentists with fully serviced and equipped facilities including support staff, materials, marketing and administrative services. Pacific Smiles is largely engaged by dentists under its standard services and facilities agreements (SFAs), pursuant to which the dentists are charged service fees for the provision of these fully serviced dental facilities. Pacific Smiles' revenue consists mostly of these service fees, however there are also revenues derived through direct patient fees incurred through dental services provided by dentists engaged or employed by Pacific Smiles.

More information about Pacific Smiles is available on its website:

[www.pacificsmilesdental.com.au](http://www.pacificsmilesdental.com.au).

### 5.2 Directors of Pacific Smiles

As at the date of this Bidder's Statement, the Pacific Smiles Board comprises the following directors:

(a) **Gary Carroll (Managing Director and Chief Executive Officer)**

Gary Carroll is a seasoned senior executive with significant experience in stabilising, growing and transforming companies with large-scale, distributed networks. He has held a number of senior roles in multi-site organisations where he's been responsible for optimising sites through operational and cultural transformations. He has particular expertise using marketing, customer and consumer insights to drive growth. Most recently, Gary was CEO of MindChamps Australia, a premium early learning centre group. Most notable is Gary's time at ASX-listed G8 Education where he joined as CFO in 2016, and 6 months later was appointed as CEO and successfully led Australia's largest provider of quality early childhood education and care with over 400 centres nationwide until 2022.

Prior to G8, Gary spent ten years at ASX-listed Super Retail Group in a range of senior management roles, including Group CFO and Chief Supply Chain Officer. During this time, Super Retail Group more than trebled in size, which was driven by network growth and a number of critical development projects that transformed and grew the network.

Gary is a member of the Pacific Smiles Independent Board Committee.

On 3 October 2025, Pacific Smiles announced that Gary has resigned as Managing Director and Chief Executive Officer of Pacific Smiles, with his

resignation to be effective 31 October 2025. Michelle Dries will be appointed as Chief Executive Officer, effective 20 October 2025.<sup>2</sup>

Gary will remain as a director of Pacific Smiles and as a member of the Pacific Smiles Independent Board Committee until his resignation takes effect.

(b) **Michael Caristo (Non-Executive Chair)**

Michael Caristo is a Founding Partner of Genesis Capital. Prior to founding Genesis Capital, Michael was an investment professional at Crescent Capital Partners. Michael represented Crescent as a non-executive director on several of its portfolio businesses, including Cover-More, National Home Doctor Service, SunDoctors and LifeHealthcare (previously ASX:LHC). Michael began his career at Bain & Co, where he specialised in transaction services.

Michael holds a Bachelor of Science (Honours) and a Bachelor of Medicine and Surgery (Honours) from the University of New South Wales. He is also a published contributor in the field of stem-cell research.

Michael is currently director of Genesis Capital portfolio companies Sana Health Group, Impression Dental, Crux Biolabs, Syntro, Evaris Pharma, Ochre and Momentum Research as well as a former director of Avance, Agilex and SmartClinics.

Michael is also a director of Bidco and other members of the Bidder Group.

(c) **Chris Yoo (Non-Executive Director)**

Chris Yoo is a Founding Partner of Genesis Capital. Prior to Genesis Capital, he was a Partner and member of the investment committee at Crescent Capital Partners, a Principal at Bain Capital and a Senior Associate at Bain & Co. Chris has held numerous directorships and board roles at companies including: Cover-More (previously ASX:CVO), MyHealth Medical Centres, Australian Clinical Labs, NZ Panel Group, National Dental Care and LifeHealthcare (previously ASX:LHC). Chris is currently a Director of Genesis Capital portfolio companies Kinyara, AHTG, HealthBright, Lifecare Consultants and Kanda.

Chris holds a Bachelor of Engineering and Bachelor of Laws from the University of Sydney.

Chris is also a director of Bidco and other members of the Bidder Group.

(d) **Tara Hariharan (Non-Executive Director)**

Tara Hariharan is an Associate Director at Genesis Capital. Prior to this she was a management consultant at Bain & Company, and has worked across the healthcare, financial services, and not for profit sectors. Tara holds a Bachelor of Laws and Bachelor of Commerce from the University of Sydney. She received Honours (First Class) in Health Economics for her work on the early-childhood determinants of adulthood outcomes and has published papers in this field.

Tara is currently a director of Genesis portfolio company Impression Dental Group and is also a director of Holdco.

(e) **Steven Rubic (Non-Executive Director)**

Steven has over 30 years of health care executive leadership experience including CEO roles of Healthscope, I-MED Radiology Network and St Vincent's & Mater Health. Steven is currently a Non-Executive Director of Healthscope,

---

<sup>2</sup> For further details, please refer to the market announcement dated 3 October 2025.

the Mercy Partners, Mater Misericordiae Limited, Invocare Ltd and Catholic Healthcare Limited. Steven was previously the Chair of Monte Sant' Angelo Mercy College, a past board Director of the Garvan Institute of Medical Research, the Chris O'Brien Lifehouse, the Macquarie University Council and the NSW Private Hospitals Association.

Steven has an MBA and is a Fellow of the AICD and Fellow of ACHSM. He has worked closely with boards and private equity firms over the last 11 years, growing a number of businesses with a focus on commercial outcomes and delivering strong returns to shareholders.

Steven is the chair of the Pacific Smiles Independent Board Committee.

(f) **Brent Cubis (Non-Executive Director)**

In his executive career, Brent was Chief Financial Officer at a number of healthcare and multi-site businesses including Cochlear Ltd, National Home Doctor Service Ltd, Fitness First Ltd and Chris O'Brien Lifehouse Ltd. Following his executive career, he has held a number of non-executive director roles and is currently a Non-Executive Director on the boards of AI Media, ARN Media and Silverchain Group and is the Chair of the Audit & Risk Committee for each of these companies.

Brent has a Bachelor of Commerce and is an Australian Chartered Accountant and a Graduate Member of the Australian Institute of Company Directors. In his spare time, he sits on the board of not-for-profit Canteen, the only organisation in Australia dedicated to providing tailored support for young people impacted by cancer.

Brent is a member of the Pacific Smiles Independent Board Committee.

Each of Dr Michael Caristo, Mr Christopher Yoo and Ms Tara Hariharan have advised Pacific Smiles of their conflict of interest in respect of the Offer, and offered to recuse themselves from all Pacific Smiles board and committee meetings considering this Offer, other than those that all directors are required by law to attend to determine a particular matter, for the duration of the Offer.

Dr Michael Caristo will continue to act in his role as Non-Executive Chair of Pacific Smiles and Mr Christopher Yoo and Ms Tara Hariharan as directors on all Pacific Smiles board and committee meetings not specifically considering the Offer, in each case to the extent they would ordinarily attend such meetings.

The Offer will be considered by the Independent Board Committee as chaired by Mr Steven Rubic.

### 7.1 Provision of Offer Consideration

On the basis of the arrangements described in this Section 7, Bidco is of the opinion that it has a reasonable basis for forming the view, and holds the view, that it will be able to provide 100% of the cash required for the acquisition of Shares pursuant to the Offer as and when it falls due for payment and will be able to satisfy its obligations under the Offer and will also meet its costs associated with the Offer.

The Offer Consideration for the acquisition of the Shares to which the Offer relates will be satisfied wholly by the payment of cash (in Australian dollars).

As at the close of trading on the day prior to the date of this Bidder's Statement, according to documents provided by Pacific Smiles to ASX, there were 17,341,632 Shares on issue that are not owned by Bidco and to which this Offer relates.<sup>6</sup> If Acceptances are received for all Shares on issue as at the date of this Bidder's Statement not already owned by Bidco, the aggregate amount of cash consideration that Bidco would be required to pay would be approximately \$38.152 million.<sup>7</sup>

Bidco has access to sufficient funds to pay for all Shares it does not already own. It will fund the aggregate Offer Consideration from its existing, binding committed Loan Facility, which has sufficient undrawn commitments available for the purpose of funding the Offer Consideration in full.

The ability to draw the Loan Facility to fund the Offer Consideration is subject to the following conditions (which Bidco considers to be on customary certain funds terms for a facility of this nature and capable of being satisfied):

- (a) delivery of a duly completed utilisation request at least 12 Loan Facility Business Days prior to the drawdown date;
- (b) no major representation is untrue or misleading in any material respect or unable to be made by Subco or Bidco;
- (c) no actual or potential major default with respect to Subco or Bidco is continuing at the drawdown date or would result from the loan being advanced;
- (d) it is not unlawful for the lenders to perform their obligations or advance the loan; and
- (e) no change of control or initial public offering has occurred in respect of Subco or Bidco.

As of the date of this Bidder's Statement, Bidco is not aware of any reason why any of the conditions described above will not be satisfied in time to allow the Loan Facility to be drawn by Bidco to pay the Offer Consideration as and when required.

---

<sup>6</sup> Based on the total number of Shares on issue as disclosed by Pacific Smiles on 15 August 2025 and calculated by subtracting the number of Shares held by Bidco from the total number of Shares on issue.

<sup>7</sup> Calculated by multiplying the sum of the total number of Shares on issue less the number of Shares held by Bidco, by \$2.20, being the Offer Consideration.

## 8 Bidco's intentions in relation to Pacific Smiles

---

### 8.1 Background

This Section 8 sets out Bidco's intentions for Pacific Smiles. These intentions have been formed on the basis of facts and information concerning Pacific Smiles, and the general business environment, which are known at the time of preparing this Bidder's Statement. Final decisions will only be reached by Bidco in light of material information and circumstances at the relevant time. Accordingly, the statements set out in this Section 8 are statements of current intention only and accordingly, may vary as new information becomes available or circumstances change.

### 8.2 Intentions for Pacific Smiles if Bidco acquires a Relevant Interest in 90% or more of Shares

This Section 8.2 describes Bidco's intentions if it acquires a Relevant Interest in 90% or more of Shares and has acquired at least 75% (by number) of Shares that Bidco has offered to acquire under the bid (whether the acquisitions happened under the bid or otherwise), and so becomes entitled to proceed to compulsory acquisition of any outstanding Shares in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, Bidco's current intentions are as follows:

#### (a) Corporate matters

Bidco intends to:

- (1) proceed with compulsory acquisition of the outstanding Shares in accordance with the provisions of Part 6A.1 of the Corporations Act;
- (2) apply for termination of the official quotation of Shares on the ASX and arrange for Pacific Smiles to be removed from the official list of the ASX; and
- (3) consider replacing or removing some of the members of the Pacific Smiles Board following removal of Pacific Smiles from the official list of the ASX.

In addition, if Bidco becomes entitled to exercise the general compulsory acquisition right under Part 6A.2 of the Corporations Act, it may exercise those rights to compulsorily acquire Shares in accordance with the provisions of Part 6A.2 of the Corporations Act.

#### (b) General operational overview

Bidco's immediate intention following Completion is to focus on the operations and business of the Pacific Smiles Group as it is currently constituted.

#### (c) Future growth opportunities

Bidco may review opportunities to grow the business of the Pacific Smiles Group by way of acquisition. Any potential opportunity to undertake an acquisition would be assessed on its merits at the relevant time.

If a potential acquisition opportunity involved a related party of a Holdco shareholder or Genesis Capital (such as Impression Dental Group), then such transaction would need to be conducted in a manner consistent with the related party transaction requirements applicable to Holdco (including, without

limitation, those contained in Chapter 2E of the Corporations Act, while Holdco is a public company).

(d) **Impact on employees**

After the Offer Period, Bidco intends to continue business operations as they are currently constituted and it intends to maintain Bidco's organisational structure to ensure that it has the level of employees and skills required to implement those operations.

It is possible that particular job losses may occur associated with redundant functions such as, but not limited to, the activities associated with maintenance of an ASX listing. Bidco will seek to provide continued employment to Pacific Smiles' existing workforce.

### **8.3 Intentions for Pacific Smiles if Bidco does not acquire a Relevant Interest in 90% or more of the Shares**

This Section 8.3 describes Bidco's intentions if Bidco does not obtain a Relevant Interest in 90% or more of Shares.

In that circumstance, Bidco's current intentions are as follows:

(a) **Corporate matters**

After the end of the Offer Period, Bidco may apply for termination of the official quotation of the Shares on the ASX and arrange for Pacific Smiles to be removed from the official list of the ASX.

In this regard, ASX guidance indicates that the usual conditions that the ASX would expect to be satisfied in order for it to approve the removal of Pacific Smiles from the official list in the context of a successful takeover bid include:

- at the end of the Offer, Bidco owns or controls at least 75% of the Shares and the Offer has remained open for at least two weeks after Bidco has attained ownership or control of at least 75% of the Shares; and
- the number of Pacific Smiles Shareholders (other than Bidco and its Associates) having holdings with a value of least \$500 is fewer than 150,

and, in such case, the ASX will not usually require Pacific Smiles Shareholder approval for Pacific Smiles to be removed from the official list of the ASX.

In addition, ASX may, even if the above conditions are not satisfied, approve an application for Pacific Smiles to be removed from the official list of the ASX with Pacific Smiles Shareholder approval and, where such removal is sought later than 12 months after the close of the Offer, subject to the ASX's discretion, Bidco may be entitled to vote on the resolution approving the removal. Relevant to the exercise of ASX's discretion, the 2024 Offer, which resulted in Bidco obtaining an interest in more than 75% of the Shares, closed in February 2025.

If Pacific Smiles is removed from the official list of the ASX, there may be risks related to remaining as a minority shareholder in Pacific Smiles. These include reduced or non-existent liquidity if Pacific Smiles Shareholders wish to sell their Shares.

Further, even if Bidco does not acquire a Relevant Interest in 90% or more of the Shares under the Offer (and accordingly, is not entitled to proceed to compulsory acquisition under Part 6A.1 of the Corporations Act), it is possible that it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act. As described

further in Section 10.3, in this scenario, Bidco intends to proceed with compulsory acquisition as soon as it becomes entitled to do so.

(b) **General operational review**

Bidco's immediate intention following Completion is to focus on the operations and business of the Pacific Smiles Group as it is currently constituted.

## **8.4 Limitations in giving effect to intentions**

The ability of Bidco to implement the intentions set out in this Section 8 will be subject to the legal obligations of Pacific Smiles directors to have regard to the interests of Pacific Smiles and all Pacific Smiles Shareholders, and the requirements of the Corporations Act and the Listing Rules relating to transactions between related parties. Bidco will only make a decision on the above mentioned courses of action following legal and/or financial advice in relation to those requirements.

## 9 Tax considerations

---

### 9.1 Introduction

The following is intended only as a general guide of the Australian income tax, GST and stamp duty consequences for Pacific Smiles Shareholders who dispose of Shares in conjunction with the Offer. The comments set out below are also relevant to those Pacific Smiles Shareholders who do not accept the Offer if Bidco proceeds to compulsorily acquire their shares upon meeting the requisite thresholds under the Corporations Act.

The comments set out below are relevant only to those Pacific Smiles Shareholders who hold their Shares on capital account for tax purposes.

The comments below are not relevant to Pacific Smiles Shareholders who:

- hold their Shares as revenue assets or as trading stock;
- acquired their Shares pursuant to an employee share, option or rights plan;
- are subject to the taxation of financial arrangement rules in Division 230 of ITAA 1997 in relation to gains and losses on their Shares;
- are non-residents of Australia who hold their Shares in carrying on a business through a permanent establishment in Australia;
- are financial institutions, insurance companies, partnerships, tax exempt organisations, sovereign entities, trusts or superannuation funds; or entities subject to the Investment Manager Regime under Subdivision 842-I of the ITAA 1997 in respect of their shares; or
- are temporary tax residents of Australia or have changed their tax residence while holding Shares.

This guide does not consider the individual circumstances of a particular Pacific Smiles Shareholder. This guide does not constitute tax advice. It does not purport to be a complete analysis of all the potential tax consequences of the Offer and is intended as a general guide to the Australian income tax, GST and stamp duty implications. It is recommended that the Pacific Smiles Shareholders should seek advice from an appropriate professional tax adviser with regard to the tax implications of the Offer in light of current tax laws and based on their own individual circumstances.

The comments also do not take into account tax legislation of any country other than Australia. Pacific Smiles Shareholders who are tax residents of a country other than Australia (whether or not they are also Australian tax residents, or are temporary tax residents of Australia) should take into account the tax consequences under the laws of their country of tax residence, as well as under Australian tax law, and any applicable tax treaty between Australia and that country, of acceptance of the Offer.

The following description is based upon the Australian tax law and administrative practice in effect at the date of this Bidder's Statement, but the descriptions are general in nature and are not intended to be an authoritative or complete statement of the tax laws applicable to the particular circumstances of every Pacific Smiles Shareholder. Other than as expressly discussed or specified, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time.

## 9.2 Australian resident shareholders

### (a) Shareholders who accept the Offer

If the Offer becomes unconditional, acceptance of the Offer will involve the disposal by Pacific Smiles Shareholders of their Shares by way of transfer to Bidco. This will constitute a capital gains tax ("**CGT**") event for Australian tax purposes.

The date of disposal for CGT purposes will be the date the contract to dispose of the Shares is formed.

### (b) Shareholders whose Shares are purchased through compulsory acquisition

If a Pacific Smiles Shareholder does not dispose of their Shares under the Offer and their Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, those Pacific Smiles Shareholders will also be treated as having disposed of their Shares for CGT purposes. In that case, the date of disposal for CGT purposes will be the date when Bidco becomes the owner of the Shares.

### (c) CGT

Australian resident Pacific Smiles Shareholders may make a capital gain or capital loss on the disposal of Shares. Pacific Smiles Shareholders will make a capital gain to the extent that their capital proceeds from the disposal of the Shares exceeds their cost base. Conversely, Pacific Smiles Shareholders will make a capital loss to the extent that the capital proceeds are less than their reduced cost base of those Shares.

The cost base of the Shares generally includes the cost of acquisition and any incidental costs of acquisition and disposal that are not deductible to the shareholder. The reduced cost base of a Share is usually determined in a similar, but not identical, manner.

The capital proceeds will be the cash received per Share.

Individuals, complying superannuation entities or trustees that have held Shares for at least 12 months before the date of disposal may be entitled to a discount from the disposal of Shares (50% discount for individuals and trusts (except a trust that is a complying superannuation entity) or 33 1/3% for complying superannuation entities of the amount of the capital gain (after application of capital losses)).

Pacific Smiles Shareholders should seek tax advice on the availability of the CGT discount. Capital gains and losses of a taxpayer in a year of income are aggregated to determine whether there is a net capital gain. Any net capital gain (after discount) is included in assessable income and is subject to income tax at the taxpayer's marginal tax rate. Capital losses may not be deducted against other income for income tax purposes. However, capital losses may be carried forward to offset against future capital gains (subject to the satisfaction of any applicable loss utilisation tests).

## 9.3 Non-resident shareholders

For a Pacific Smiles Shareholder who:

- is not, and has not been, a resident of Australia for Australian tax purposes;
- holds their Shares on capital account; and

- does not hold their Shares in carrying on a business through a permanent establishment in Australia,

the disposal of Shares will generally only result in Australian CGT implications if those Shares constitute an “indirect Australian real property interest” (“**IARPI**”). The Shares will constitute an IARPI if:

- that Pacific Smiles Shareholder together with its Associates held 10% or more of the Shares at the time of the CGT event or throughout any 12-month period within two years preceding the CGT event; and
- more than 50% of the market value of Pacific Smiles' assets comprise direct or indirect interests in Australian real property assets (which includes Australian mining and exploration leases and licences).

Bidco is obligated to pay an amount equal to 15% of the consideration payable to Pacific Smiles Shareholders to the Australian Taxation Office in certain circumstances if those Shares constitute an IARPI. Bidco, in co-operation with Pacific Smiles, may seek to clarify the status of particular Pacific Smiles Shareholders and require these Pacific Smiles Shareholders to provide Bidco with a declaration that they are an Australian tax resident or that their Shares are not IARPI.

Pacific Smiles Shareholders that hold a non-portfolio interest in Pacific Smiles or have carried on business in Australia at any time through a permanent establishment should contact their taxation adviser to determine if any capital gain on the disposal of the Shares is taxable.

Pacific Smiles Shareholders should also seek advice from their taxation adviser as to the taxation implications of accepting the Offer in their country of residence.

## 9.4 **Stamp Duty**

Pacific Smiles Shareholders should not be liable to pay any stamp duty on the disposal of their Shares under the Offer, nor should they be liable to pay any stamp duty arising on the acquisition of the Shares by Bidco.

## 9.5 **GST**

Pacific Smiles Shareholders should not be liable to pay GST on the disposal of the Shares.

Pacific Smiles Shareholders may not be entitled to claim full input tax credits in respect of any GST included in the price of costs incurred in connection with a disposal of the Shares. Separate GST advice should be sought by Pacific Smiles Shareholders in respect to their particular circumstances.

## 10 Other material information

---

### 10.1 Bid Implementation Agreement

Bidco and Pacific Smiles entered into a Bid Implementation Agreement in respect of the Offer on the date of this Bidder's Statement. The Bid Implementation Agreement sets out the basis on which Bidco will make the Offer and the respective obligations of Bidco and Pacific Smiles in relation to the Offer.

A summary of the key elements of the Bid Implementation Agreement are as follows:

- (a) Bidco has agreed to make the Offer on the terms set out in this Bidder's Statement;
- (b) Bidco and Pacific Smiles have agreed to finalise the Bidder's Statement and Target's Statement and to lodge each statement with ASIC on the date of the Bid Implementation Agreement and dispatch each statement earlier than provided under the Corporations Act;
- (c) Pacific Smiles has provided various representations and warranties as to the intention of the members of the Independent Board Committee to recommend the Offer, subject to the qualifications as set out in this Bidder's Statement and the Target's Statement; and
- (d) Bidco and Pacific Smiles have agreed to make certain public announcements in respect of the Offer, to be agreed between the parties.

A full copy of the Bid Implementation Agreement was released to the ASX on the date of this Bidder's Statement.

### 10.2 Date for determining holders of Shares

For the purposes of section 633 of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of subsection 633(1) is the Register Date.

### 10.3 Compulsory acquisition

If Bidco becomes entitled to compulsorily acquire outstanding Shares under the provisions of either Part 6A.1 or Part 6A.2 of the Corporations Act, Bidco presently intends to proceed with the compulsory acquisition of those Shares in the manner described in this Section 10.3.

Bidco may proceed with the compulsory acquisition in one of two ways:

(a) **Compulsory acquisition under Part 6A.1 of the Corporations Act**

Part 6A.1 of the Corporations Act provides that if during or at the end of the Offer Period, Bidco, together with its Associates, have a Relevant Interest in at least 90% (by number) of Shares, and Bidco has acquired at least 75% (by number) of Shares that Bidco has offered to acquire under the bid (whether the acquisitions happened under the bid or otherwise), Bidco may compulsorily acquire any remaining Shares not accepted into the Offer.

Bidco currently owns 89.27% of the issued capital of Pacific Smiles.

If these two conditions to compulsory acquisition are satisfied, Bidco intends to proceed with compulsory acquisition of Pacific Smiles under Part 6A.1 of the Corporations Act shares as soon as practicable, whether or not that is during

the Offer Period. That process requires, amongst other things, that Bidco give a compulsory acquisition notice to remaining Pacific Smiles Shareholders in accordance with the requirements of the Corporations Act informing those Pacific Smiles Shareholders that Bidco is entitled to acquire their Shares and of their rights under Part 6A.1 of the Corporations Act.

When the compulsory acquisition notice is given to Pacific Smiles Shareholders and lodged with ASIC, Bidco may proceed with compulsory acquisition of Shares before the end of 14 days after the end of one month after the notice is lodged with ASIC (or, if a request has been made by one or more Pacific Smiles Shareholders for details of other minority shareholders under section 661D, 14 days after the last statement was given, or, if a shareholder has made an application to the Court to stop the compulsory acquisition, 14 days after final determination of the application that allows the compulsory acquisition to proceed).

Compulsory acquisition under this regime would result in remaining Pacific Smiles Shareholders having to claim the consideration for their Shares. The consideration received will be the same as the Offer Consideration that would have been paid. However, payment of that consideration would likely occur later than if the Offer had been accepted by a Pacific Smiles Shareholder.

(b) **Compulsory acquisition under Part 6A.2 of the Corporations Act**

Part 6A.2 of the Corporations Act provides that if a person (together with their related body corporates) is a "90% holder" in relation to a class of securities of a company they may compulsorily acquire all the securities in that class if either the holders of securities in that class who object to the acquisition hold less than 10% by value of the remaining securities at the end of a specified notice period or the acquisition is approved by the Court.

If Bidco becomes entitled to exercise general compulsory acquisition rights pursuant to Part 6A.2 of the Corporations Act at or before the close of the Offer Period, it currently intends to exercise those rights if it could not proceed with compulsory acquisition under Part 6A.1 of the Corporations Act as described above and may choose to exercise those rights during the Offer Period prior to it becoming entitled to proceed with compulsory acquisition under Part 6A.1 of the Corporations Act. Bidco will be entitled to give notices to compulsorily acquire Shares under Part 6A.2 within 6 months of having become a 90% holder.

Further, even if Bidco does not acquire a Relevant Interest in 90% or more of the Shares under the Offer, it is possible that it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act after the Offer has closed. If this occurs, Bidco intends to exercise such compulsory acquisition rights as soon as it becomes entitled to do so. The procedure for compulsory acquisition under these alternative provisions differ from the procedures referred to above in relation to Part 6A.1 of the Corporations Act.

Bidco presently intends to offer the amount equivalent to the Offer Consideration as the applicable cash sum if it exercises the compulsory acquisition right under Part 6A.2 of the Corporations Act.

## **10.4 Regulatory and other approvals**

The Offer is not subject to any regulatory or other governmental approval.

## **10.5 Acceptance results in power of attorney being granted to Bidco**

Section 11.8(d) provides that your Acceptance results in the appointment of Bidco as your attorney from the date of your Acceptance. Bidco would then have the power to attend and vote at any meeting of Pacific Smiles Shareholders (including any court convened meeting of Pacific Smiles and its 2025 annual general meeting to be held on 31 October 2025). Notwithstanding this, Bidco currently holds 89.27% of the Shares on issue and can therefore pass ordinary and special resolutions (on which it is entitled to vote) on its own, without the support of other Pacific Smiles Shareholders.

## **10.6 Modifications to and exemptions from the Corporations Act**

ASIC has published various instruments providing for modifications and exemptions that generally apply to all persons including Bidco, in relation to the operation of Chapter 6 of the Corporations Act. Bidco may rely on the relief afforded by these instruments.

## **10.7 Social security and superannuation implications of the Offer**

Acceptance may have implications under your superannuation or pension arrangements or on your social security entitlements. If in any doubt, Pacific Smiles Shareholders should seek specialist advice before accepting the Offer.

## **10.8 Withholding of Offer Consideration**

Bidco is not currently aware of any amounts that are or would be treated as withholding amounts under Section 11.11(d). However, it is possible that Bidco may become aware of an obligation in this regard after the date of this Bidder's Statement.

For example, under section 255 of the *Income Tax Assessment Act 1936* (Cth), the ATO may notify Bidco that all or part of the Offer Consideration otherwise payable under the Offer to Pacific Smiles Shareholders who are non-residents of Australia is to be retained by Bidco, or paid to the ATO, instead of being paid to the relevant Pacific Smiles Shareholders. Similarly, under section 260-5 of Schedule 1 to the TAA, the ATO may require Bidco to pay to the ATO all or part of the Offer Consideration otherwise payable under the Offer to Pacific Smiles Shareholders who owe tax-related debts to the Australian Government. Furthermore, under Subdivision 14-D of Schedule 1 to the TAA, Bidco may be required to pay to the ATO an amount in respect of the disposal of Your Shares on account of foreign resident capital gains withholding tax.

## **10.9 Consents to be named**

This Bidder's Statement includes or is accompanied by statements which are made in or based on statements made in documents lodged with ASIC or on the company announcement platform of ASX.

Each of Clifford Chance, Automic Group, the Manager and the Loan Facility Lenders have given and have not, before lodgement of this Bidder's Statement with ASIC, withdrawn their consent to the inclusion of:

- (a) references to its name;
- (b) each statement it has made; and
- (c) each statement which is based on a statement it has made,

in the Bidder's Statement (and, in the case of Clifford Chance, in the covering page to this Bidder's Statement dispatched to Pacific Smiles Shareholders) in the form and context in

which those statements appear and to the maximum extent permitted by law expressly disclaims and takes no responsibility for any part of this Bidder's Statement other than any statement which has been included in this Bidder's Statement with the consent of that party.

Each person who is named in this Bidder's Statement as acting in a professional capacity for Bidco in relation to the Offer (including, without limitation, Clifford Chance, Automic Group and the Loan Facility Lenders):

- (a) does not make, or purport to make, any statement in this Bidder's Statement or any statement on which a statement in this Bidder's Statement is based; and
- (b) to the maximum extent permitted by law, expressly disclaims and takes no responsibility for any part of this Bidder's Statement.

#### **10.10 No other material information**

Except as set out in this Bidder's Statement, there is no information material to the making of a decision by an offeree whether or not to accept the Offer, being information that is known to Bidco and has not previously been disclosed to the holders of Shares.

## 11 The terms and conditions of the Offer

---

### 11.1 Offer for Your Shares

- (a) Bidco offers to acquire all of Your Shares on the terms and conditions set out in this Section 11.
- (b) If Bidco acquires Your Shares under this Offer, Bidco is also entitled to all Rights in respect of those Shares (see Section 11.8(j) and Section 11.8(k)). For the avoidance of doubt, Rights do not include any franking credits attached to any dividend.
- (c) This Offer is being made to each person registered as the holder of Shares in the Register on the Register Date (other than Bidco). It also extends to any person who becomes registered, or entitled to be registered, as the holder of Your Shares during the Offer Period (other than Bidco).
- (d) If, at the time the Offer is made to you, or at any time during the Offer Period, another person (other than Bidco) is, or is entitled to be, registered as the holder of some or all of Your Shares, then:
  - (1) a corresponding offer on the same terms and conditions as this Offer will be deemed to have been made to that other person in respect of those Shares;
  - (2) a corresponding offer on the same terms and conditions as this Offer will be deemed to have been made to you in respect of any other Shares you hold to which the Offer relates; and
  - (3) this Offer will be deemed to have been withdrawn immediately at that time.
- (e) If at any time during the Offer Period you are registered, or entitled to be registered, as the holder of one or more parcels of Shares as trustee or nominee for, or otherwise on account of, another person, you may accept as if a separate and distinct offer on the same terms and conditions as if this Offer had been made in relation to each of those distinct parcels and any distinct parcel you hold in your own right. To validly accept the offer for each parcel, you must comply with the procedure in section 653B(3) of the Corporations Act. If, for the purposes of complying with that procedure, you require additional copies of this Bidder's Statement and/or the Acceptance Form, please call the Offer Information Line on 1300 101 594 (for calls made within Australia) or +61 2 8072 1412 (for calls made from outside Australia), to request those additional copies.
- (f) If Your Shares are registered in the name of a Broker, investment dealer, bank, trust company or other nominee, you should contact that nominee for assistance in accepting the Offer.
- (g) Offers on terms and conditions identical to those contained in this Offer have been dispatched or will be dispatched to all holders of Shares registered in the Register on the Register Date (other than Bidco).
- (h) The Offer is dated 15 October 2025.

### 11.2 Consideration for the Offer

- (a) Subject to the terms of this Offer, the Offer Consideration offered by Bidco for Your Shares to which the Offer relates is \$2.20 per Share.

- (b) If you would otherwise become entitled to a fraction of a cent as a result of your acceptance of the Offer, any such fractional entitlements will be rounded to the nearest whole number of cents, with an entitlement of 0.5 rounded down.

### 11.3 Conditions

- (a) There are no conditions to the Offer.

### 11.4 Offer Period

- (a) Unless extended (or withdrawn under Section 11.14(b)) in accordance with the Corporations Act, this Offer is open for acceptance during the period that begins on the date of this Offer and ends at 7:00pm (Sydney time) on 17 November 2025.
- (b) Bidco reserves the right, exercisable in its discretion, to extend the Offer Period in accordance with the Corporations Act.

### 11.5 How to accept this Offer

- (a) **Accept for all Your Shares**

You may only accept this Offer during the Offer Period for all, and not some only, of Your Shares. You will be taken to have accepted the Offer for all Your Shares plus any additional Shares held by you (on Bidco's copy of the Register) on the date your Acceptance is processed (despite any difference between that number and the number of Shares specified on your Acceptance Form when you accept this Offer).

- (b) **Issuer Sponsored Holdings and other holdings**

If Your Shares are held on the Pacific Smiles issuer sponsored subregister (in which case Your Securityholder Reference Number ("SRN") will commence with 'I') to accept this Offer you must accept the Offer either online or by completing and returning the enclosed Acceptance Form:

- (1) **Online:** To accept the Offer online, you must follow the instructions below:
  - (A) Go to <https://portal.automic.com.au/investor/home>.
  - (B) Click "Register" then select "Pacific Smiles Takeover Offer" from the dropdown list in the Issuer Name Field.
  - (C) Enter your Securityholder Reference Number (SRN) as shown on your most recent holding statement.
  - (D) Enter your postcode OR country of residence (only if outside Australia).
  - (E) Tick the box "I'm not a robot" and then select "Next".
  - (F) Complete the prompts to set up your username and password details.
  - (G) Once you are logged in, select "Offers" from the left-hand vertical menu and follow the prompts; or
- (2) **Acceptance Form:** to accept the Offer using a physical Acceptance Form, complete the enclosed Acceptance Form in accordance with the instructions on it and return it to the address on the Acceptance

Form so that it is received before 7:00pm (Sydney time) on the last day of the Offer Period.

(c) **CHESS Holdings**

If Your Shares are in a CHESS Holding (in which case your Holder Identification Number or HIN will commence with 'X'), to accept this Offer, you must either accept the Offer online, or by contacting your Controlling Participant (usually your Broker), or by completing and returning the enclosed Acceptance Form:

- (1) **Online:** To accept the Offer online, you must follow the instructions below:
  - (A) Go to <https://portal.automic.com.au/investor/home>.
  - (B) Click "Register" then select "Pacific Smiles Takeover Offer" from the dropdown list in the Issuer Name Field.
  - (C) Enter your Holder Identification Number (HIN) as shown on your most recent holding statement or trading account.
  - (D) Enter your postcode OR country of residence (only if outside Australia).
  - (E) Tick the box "I'm not a robot" and then select "Next".
  - (F) Complete the prompts to set up your username and password details.
  - (G) Once you are logged in, select "Offers" from the left-hand vertical menu and follow the prompts; or
- (2) **Contact your Controlling Participant:** contact your Controlling Participant (usually your Broker) and instruct them to accept the Offer on your behalf so that it is processed before 7:00pm (Sydney time) on the last day of the Offer Period. This is the quickest and most effective way for CHESS holders to accept the Offer; or
- (3) **Acceptance Form:** to accept the Offer using a physical Acceptance Form, complete the enclosed Acceptance Form in accordance with the instructions on it and return it to the address on the Acceptance Form. For the return of a CHESS Acceptance Form to be an effective acceptance of the Offer, it must be received in time for the Registry to give instructions to your Controlling Participant and for your Controlling Participant to carry out those instructions before the end of the Offer Period.

You must comply with any other applicable ASX Settlement Operating Rules and the terms of the sponsorship agreement between you and the Controlling Participant.

If you are a Controlling Participant, you must yourself initiate acceptance under rule 14.14 of the ASX Settlement Operating Rules so as to be effective before the end of the Offer Period.

(d) **Separate holdings**

If some of Your Shares are in an Issuer Sponsored Holding and some of Your Shares are in a CHESS Holding your acceptance of this Offer will require separate action in relation to the separate portions of Your Shares.

(e) **Risk in Acceptance Form**

The transmission of an Acceptance Form and any documents that accompany that form to Bidco is at your risk. Neither Bidco, nor anyone on its behalf, will acknowledge receipt of those documents to you.

## **11.6 Effect of Acceptance Form**

By signing and returning the Acceptance Form or otherwise accepting this Offer, you irrevocably authorise Bidco and each of its officers and agents to:

- (a) alter the Acceptance Form on your behalf by inserting correct details of Your Shares and filling in any blanks remaining on the form;
- (b) correct any errors in, or omissions from, the Acceptance Form necessary to:
  - (1) make it an effective acceptance of this Offer for Your Shares; and
  - (2) enable the transfer of Your Shares to Bidco; and
- (c) if any of Your Shares are in a CHESS Holding:
  - (1) instruct your Controlling Participant to effect your acceptance of this Offer for Your Shares under rule 14.14 of the ASX Settlement Operating Rules; and
  - (2) give to your Controlling Participant on your behalf any other instructions in relation to those Shares which are contemplated by the sponsorship agreement between you and your Controlling Participant or otherwise, as determined by Bidco acting in its own interest as beneficial owner of those Shares.

## **11.7 Validation of Acceptance Form**

Subject to this Section 11.7, Bidco may (except in relation to Shares in a CHESS Holding) treat the receipt by it of a signed Acceptance Form before the end of the Offer Period as valid even though it does not receive the other documents required by the instructions on the Acceptance Form or there is not compliance with any one or more of the other requirements for acceptance.

If Bidco does treat such an Acceptance Form as valid, subject to Section 11.11, Bidco will not be obliged to give the Offer Consideration to you until Bidco receives all those documents and all of the requirements for Acceptance referred to in Section 11.5 and in the Acceptance Form have been met (other than the requirement of your Acceptance Form to be received before the end of the Offer Period).

## **11.8 Your agreement**

By carrying out the instructions in Section 11.5 on how to accept this Offer:

- (a) you irrevocably accept this Offer in respect of all of Your Shares, including all Shares held by you at the date your Acceptance is processed, despite any difference between that number and the number of Shares specified in the Acceptance Form;
- (b) you represent and warrant to Bidco as a fundamental condition going to the root of the contract resulting from your Acceptance that, at the time of your Acceptance and at the time of transfer of Your Shares to Bidco:
  - (1) all Your Shares are and will upon registration be fully paid up;

- (2) Bidco will acquire good title to and beneficial ownership of Your Shares, free from Encumbrances or restrictions on transfer of any kind; and
  - (3) you have full power and capacity to sell and transfer Your Shares (including any associated Rights) and that you have paid all amounts which at the time of Acceptance have fallen due for payment in respect of Your Shares (including any Rights);
- (c) you transfer, or consent to the transfer in accordance with the ASX Settlement Operating Rules of, Your Shares to Bidco in accordance with this Offer and subject to the terms as set out in the constitution of Pacific Smiles;
- (d) with effect from your Acceptance, you irrevocably appoint Bidco and each director of, and any nominee of, Bidco jointly and each of them severally as your attorney (with full powers of substitution) to exercise all powers and rights which you could lawfully exercise as the registered holder of Your Shares or in exercise of any right derived from the holding of Your Shares, including, without limiting the generality of the foregoing:
  - (1) requesting Pacific Smiles to register Your Shares in the name of Bidco or its nominee;
  - (2) attending and voting in respect of Your Shares at all general and class meetings of Pacific Smiles, demanding a poll for any vote taken at or proposing or seconding any resolutions to be considered at any general or class meeting of Pacific Smiles and requisitioning or convening any general or class meeting of Pacific Smiles;
  - (3) executing all forms, notices, documents (including a document appointing a director of Bidco as a proxy for any of Your Shares) and resolutions relating to Your Shares;
  - (4) perform such actions as may be appropriate in order to vest good title in Your Shares in Bidco; and
  - (5) doing all things incidental or ancillary to any of the foregoing.

You will have, or will be deemed to have, acknowledged and agreed that in exercising such powers the attorney may act in the interests of Bidco as the intended registered holder of those Shares. This appointment will terminate on the registration of Bidco as the holder of Your Shares;

- (e) you agree that, in exercising the powers conferred by the power of attorney in Section 11.8(d), Bidco and each of its directors and its nominees are entitled to act in the interests of Bidco;
- (f) you agree not to exercise or to purport to exercise (in person, by proxy or otherwise) any of the powers conferred on Bidco and any director or nominee of Bidco by or under Section 11.8(d);
- (g) you authorise Bidco to transmit a message to ASX Settlement in accordance with rule 14.17.1 of the ASX Settlement Operating Rules so as to enter Your Shares which are in a CHESS Holding into Bidco's Takeover Transferee Holding or submit a transfer of your Issuer Sponsored Holdings regardless of whether it has provided the Offer Consideration due to you under this Offer;
- (h) you agree to do all such acts, matters and things that Bidco may require to give effect to the matters the subject of this Section 11.8;
- (i) you agree to indemnify Bidco and each of its agents and nominees in respect of any claim or action against it or any loss, damage or liability incurred by it as a

result of you not producing your HIN or SRN or in consequence of the transfer of Your Shares being registered by Pacific Smiles without production of your HIN or SRN;

- (j) you irrevocably authorise and direct Pacific Smiles to pay to Bidco or to account to Bidco for all Rights in respect of Your Shares, subject, however, to any such Rights received by Bidco being accounted for by Bidco to you in the event that this Offer is withdrawn or avoided;
- (k) except where Bidco has received the value of a Right in respect of Your Shares, you irrevocably authorise Bidco to deduct from any cash amount payable in respect of Your Shares by the value of the Right received by you (or any previous owner of Your Shares). Where the Right takes a non-cash form, your Offer Consideration will be reduced by an amount equal to the value of the Right as reasonably assessed by Bidco;
- (l) you irrevocably authorise Bidco to notify Pacific Smiles on your behalf that your address for the purpose of serving notices upon you in respect of Your Shares is the address specified by Bidco;
- (m) you have represented and warranted to Bidco that, if you are the legal owner but not the beneficial owner of Your Shares:
  - (1) the beneficial holder has not sent a separate Acceptance in respect of the Shares;
  - (2) the number of Shares you have specified as being the entire holding of Shares you hold on behalf of a particular beneficial holder is in fact the entire holding; and
  - (3) that you are irrevocably and unconditionally entitled to transfer Your Shares, and to assign all of the beneficial interest therein, to Bidco; and
- (n) you agree that the undertakings and authorities in this Section 11.8 will remain in force after you receive your Offer Consideration for Your Shares and after Bidco becomes registered as the holder of Your Shares.

## **11.9 No revocation of Acceptance**

If you accept the Offer, you will be unable to revoke your Acceptance and the contract resulting from your Acceptance will be binding on you. You will therefore be unable to withdraw Your Shares from the Offer or otherwise dispose of those Shares.

## **11.10 Powers of attorney and deceased estates**

When accepting this Offer, you should forward for inspection:

- (a) if the Acceptance Form is executed by an attorney, a certified copy of the power of attorney; and
- (b) if the Acceptance Form is executed by the executor of a will or the administrator of the estate of a deceased Pacific Smiles Shareholder, the relevant grant of probate or letters of administration.

## 11.11 Payment of Offer Consideration

### (a) When will Bidco pay you?

Subject the terms of this Offer and the Corporations Act, if you accept this Offer, Bidco will pay you any Offer Consideration that you are entitled to for Your Shares to which Bidco acquires good title on or before the earlier of:

- (1) one month after this Offer is accepted; and
- (2) 21 days after the end of the Offer Period.

Under no circumstances will interest be paid on the Offer Consideration, regardless of any delay in making payment or extension of the Offer Period.

### (b) Acceptance Form requires additional documents

Where documents are required to be given to Bidco with your Acceptance to enable Bidco to become the holder of Your Shares (such as a power of attorney, grant of probate or letters of administration):

- (1) if the documents are given to Bidco with your Acceptance and before the end of the Offer Period, Bidco will pay you any Offer Consideration that you are entitled to in accordance with Section 11.11(a);
- (2) if the documents are given to Bidco after your Acceptance and before the end of the period referred to in Section 11.11(a), Bidco will pay you any Offer Consideration that you are entitled to in accordance with Section 11.11(a); or
- (3) if the documents are given to Bidco after your Acceptance and after the end of the period referred to in Section 11.11(a), Bidco will pay you any Offer Consideration that you are entitled to on or before the date that is 10 Business Days after Bidco is given the documents.

### (c) Payment of cash

Payment of any cash amount to which you are entitled under the Offer will be made in the following manner:

- (1) if you have previously nominated account details to Pacific Smiles and these details are provided to Bidco, payment will be made electronically to that account. You can verify and update any existing account details online at <https://portal.automic.com.au/investor/home>, once you have registered for the Offer. If you have not previously nominated account details to Pacific Smiles and want to be paid electronically, you must provide your details via <https://portal.automic.com.au/investor/home> prior to accepting the Offer;
- (2) if you have not previously nominated account details to Pacific Smiles or these details are not provided to Bidco, you will be paid by cheque in Australian currency. Cheques will be posted to you at your risk by ordinary mail (or in the case of overseas shareholders, by airmail) at the address shown in the register copy supplied by Pacific Smiles from time to time; and
- (3) if Your Shares are held in a joint name, any cheque issued will be in the name of the joint holders and forwarded to the address that appears first in the Register.

(d) **Non-Australian residents**

If, at the time you accept this Offer or at the time the Offer Consideration is provided under it:

- (1) any authority or clearance of the Reserve Bank of Australia or the ATO or other Public Authority is required for you to receive any Offer Consideration; or
- (2) you are located in or a resident of a place to which, or you are a person to whom any of the following applies:
  - (A) the *Autonomous Sanction Regulations 2011* (Cth);
  - (B) the *Charter of the United Nations Act 1945* (Cth), the *Charter of the United Nations (Dealing with Assets) Regulations 2008* (Cth) or any other law or regulation made under that act; or
  - (C) any other law of Australia or elsewhere that would make it unlawful for Bidco to provide the Offer Consideration for Your Shares,

then your Acceptance does not create or transfer to you any right (contractual or contingent) to receive the Offer Consideration specified in this Offer unless and until you obtain all requisite authorities or clearances.

(e) **Withholding required by law**

If any amount ("**withholding amount**") is determined by Bidco as being required under any law or by any Public Authority to be:

- (1) withheld from any Offer Consideration otherwise payable to you under this Offer and paid to a Public Authority; or
- (2) retained by Bidco out of any Offer Consideration otherwise payable to you under this Offer, Bidco may withhold or retain the withholding amount and the withholding or retention by Bidco of the withholding amount (as applicable) will constitute full discharge of Bidco's obligation to pay the Offer Consideration to you to the extent of the withholding amount.

## **11.12 Costs and stamp duty**

- (a) Bidco will pay all costs and expenses of the preparation and circulation of the Offer and any stamp duty payable on the transfer of any Shares to Bidco.
- (b) If Your Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Bidco, you will not incur any brokerage in connection with your Acceptance of this Offer.

## **11.13 Shares subject to Pacific Smiles transfer restrictions**

If at any time during the Offer Period some of Your Shares are subject to transfer restrictions imposed by Pacific Smiles (for example, because you hold some of Your Shares under an employee incentive plan), then you may accept this Offer in respect of those Shares as if a separate offer in the form of this Offer had been made in relation to the balance of Your Shares. Acceptance for the balance of Your Shares is ineffective unless you give Bidco notice stating the number of Your Shares that are subject to a

transfer restriction and explaining the nature of the restriction, and your Acceptance specifies the balance of Your Shares.

#### **11.14 Variation and withdrawal of Offer**

(a) **Variation**

Bidco may vary this Offer in accordance with the Corporations Act.

(b) **Withdrawal**

In accordance with section 652B of the Corporations Act, this Offer may be withdrawn with the written consent of ASIC, which consent may be subject to conditions. If so, Bidco will give notice of the withdrawal to ASX and will comply with any other conditions imposed by ASIC.

#### **11.15 Notices**

Any notices to be given by Bidco to you under the Offer may be given to you by sending them by pre-paid ordinary post or courier, or if your address is outside Australia, by prepaid airmail or courier, to your physical address or by providing electronic notice to your electronic address, in each case as disclosed to Bidco by Pacific Smiles under section 641 of the Corporations Act and subject to any election you have made under section 110E of the Corporations Act (disregarding subsection 110E(8)) that has been disclosed to Bidco by Pacific Smiles.

#### **11.16 Governing law**

This Offer and any contract resulting from acceptance of it are governed by the law in force in New South Wales, Australia.

## Takeover Acceptance Form – CHESS Holders

**Your acceptance must be received in sufficient time to be processed by your Controlling Participant by no later than the end of the Offer Period, which is 7:00pm (Sydney time) on the last day of the Offer Period, being 17 November 2025 (unless extended or withdrawn by the Bidder).**

This form and the Bidder's Statement are important documents that require your immediate attention. This form relates to an offer (**Offer**) by Beam Dental Bidco Pty Ltd ACN 676 303 254 (**Bidco**), to purchase all of your fully paid ordinary shares in Pacific Smiles Group Limited ACN 103 087 449 (**Pacific Smiles**), the terms of which are set out in Section 11 of the bidder's statement dated 10 October 2025 (**Bidder's Statement**). Capitalised terms used in this form have the same meaning as in the Bidder's Statement, unless otherwise defined.

If you are in doubt about how to deal with this Offer, please contact your financial or other professional advisor.

Note this form can only be used in relation to the Pacific Smiles shareholding represented by the details printed above and overleaf.

### Registration name and Offer details

The consideration for your accepted Pacific Smiles Shares will be paid to the name(s) as they appear on the Register, as provided to Bidco. The current address recorded on Bidco's copy of the Register is printed above and overleaf. If you have recently bought or sold Pacific Smiles Shares your holding may differ from that shown. If you have already sold all your Pacific Smiles Shares, do not complete or return this form.

### Step 1: Accept the Offer

Only sign and return this form if you wish to accept the Offer for all of your Pacific Smiles Shares.

As your Pacific Smiles Shares are in a CHESS holding, you may contact your Controlling Participant directly (normally your stockbroker) with instructions to accept the Offer. If you do this, your Controlling Participant will provide you with details as to what they require in order to accept the Offer on your behalf. If you want Bidco to contact your Controlling Participant on your behalf, sign and return this form to the address above so that it is received in sufficient time to allow your instruction to be acted upon by the close of the Offer Period. This will authorise Bidco and the Registry to request your Controlling Participant to initiate acceptance of the Offer on your behalf.

You should allow sufficient time for your Controlling Participant or Bidco to initiate the acceptance of the Offer on your behalf. Neither Bidco nor the Registry will be responsible for any delays incurred by the process of requesting your Controlling Participant to accept the Offer.

## Important Information

### Nature of this document

This document is a Target's Statement issued by Pacific Smiles Group Limited (ABN 42 103 087 449) (**Pacific Smiles**) under Part 6.5 of the Corporations Act in response to the off-market takeover bid announced on 10 October 2025 by Beam Dental Bidco Pty Ltd (ACN 676 303 254) (**Genesis Bidco**) for all of the fully paid ordinary shares in Pacific Smiles that it does not already own.

This Target's Statement is important and requires your immediate attention. You should read it carefully and in its entirety before deciding whether to accept or reject the Offer. If you are in doubt as to what you should do, you should consult your legal, financial or other professional adviser.

If you have sold all your Pacific Smiles Shares, please disregard this Target's Statement.

### ASIC and ASX disclaimer

A copy of this Target's Statement has been lodged with ASIC and released to ASX on 10 October 2025. Neither ASIC, ASX nor any of their respective officers takes any responsibility for the content of this Target's Statement.

### No account of personal circumstances

The information contained in this Target's Statement does not constitute personal or financial product advice. In preparing this Target's Statement, Pacific Smiles has not taken into account the investment objectives, financial situation or particular needs of individual Shareholders or any other person. It is important that you consider the information in this Target's Statement in light of your particular circumstances. This Target's Statement should not be relied on as the sole basis for any investment decision. You should seek advice from your financial, legal or other professional adviser before deciding whether to accept or reject the Offer.

### Forward-looking statements

Some of the statements in this Target's Statement may be in the nature of forward-looking statements. Forward-looking statements are subject to known and unknown

risks, uncertainties, assumptions and other important factors that could cause the actual results, performances or achievements of Pacific Smiles to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which Pacific Smiles will operate in the future. Those risks, uncertainties, assumptions and other important factors include those specific to the industry in which Pacific Smiles operates as well as general economic conditions, prevailing exchange rates, interest rates and conditions in the financial markets. Actual events, results or outcomes may differ materially from the events, results or outcomes expressed or implied in any forward-looking statement. None of Pacific Smiles, its Related Bodies Corporate or any of its officers or employees, nor any persons named in this Target's Statement or any person involved in the preparation of this Target's Statement makes any representation or warranty (express or implied) as to the accuracy or likelihood of fulfilment of any forward-looking statement, or any events or results expressed or implied in any forward-looking statement, except to the extent required by law.

You are cautioned not to place undue reliance on any forward-looking statement. You should note that the historical performance of Pacific Smiles is no assurance of future financial performance. The forward-looking statements in this Target's Statement reflect views held only as at the date of this Target's Statement. Except as required by applicable law or the Listing Rules, Pacific Smiles does not undertake to update or revise these forward-looking statements nor any other statements (written or oral) that may be made from time to time by or on behalf of Pacific Smiles, whether as a result of new information, future events or otherwise.

### Disclaimer as to information on Genesis Bidco

Pacific Smiles has not independently verified the information contained in this Target's Statement relating to Genesis Bidco, Genesis Capital or the Bidder Group, including information regarding Genesis Bidco's intentions in respect of the Offer. Accordingly, subject to the Corporations Act, Pacific Smiles does not make any representation or warranty

(express or implied) as to the accuracy or completeness of such information.

### **Risk factors**

You should note that there are a number of risk factors attached to your investment in Pacific Smiles and other risks which apply in the event you accept the Offer or you choose not to accept the Offer and remain a Shareholder. Section 7 of this Target's Statement sets out further information regarding those risks.

### **Foreign jurisdictions**

The release, publication or distribution of this Target's Statement may be restricted by law or regulation in some jurisdictions outside Australia. Accordingly, persons outside Australia who come into possession of this Target's Statement should seek advice and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable laws or regulations. Pacific Smiles disclaims all liabilities to such persons.

If you are resident outside of Australia, or you are a nominee, trustee or custodian for a beneficial holder resident outside Australia, you are encouraged to seek independent advice as to how you should proceed (including specific taxation advice in relation to the Australian and overseas tax implications of accepting or rejecting the Offer).

This Target's Statement has been prepared in accordance with Australian law in effect as at the Last Practicable Date and the information contained in this Target's Statement may not be the same as that which would have been disclosed if this Target's Statement had been prepared in accordance with laws and regulations applicable in other jurisdictions.

The financial information included in this Target's Statement is based on financial statements that have been prepared in accordance with Australian equivalents to International Financial Reporting Standards, which may differ from generally accepted accounting principles in other jurisdictions. No action has been taken to register or qualify this Target's Statement in any jurisdiction outside Australia.

### **Taxation considerations**

Section 8 of this Target's Statement provides a general summary of some Australian tax consequences for Shareholders who transfer their Pacific Smiles Shares to Genesis Bidco under the Offer. The summary is based upon the Australian tax law and the ATO's publicly known administrative practices in effect as at the date of this Target's Statement.

This Target's Statement does not constitute tax advice and should not be relied upon as such. Given its general nature, it cannot address all possible tax consequences and cannot consider the circumstances of any or all Shareholders.

You should seek independent professional advice in relation to your own particular circumstances.

### **Presentation of financial information**

Section 5.7 of this Target's Statement contains financial information relating to Pacific Smiles for the financial years ended 30 June 2025 and 30 June 2024.

The financial information in Section 5.7 of this Target's Statement is a summary only and has been prepared and extracted for the purposes of this Target's Statement only. The information has been extracted from the audited financial reports of Pacific Smiles for the financial years ended 30 June 2025 and 30 June 2024.

## Letter from the Chair of the Independent Board Committee

Dear Shareholder,

Our largest Shareholder, Beam Dental Bidco Pty Ltd (**Genesis Bidco**) (an associate of Genesis Capital Manager I Pty Ltd (**Genesis Capital**)) has today released a Bidder's Statement containing its offer to acquire all Pacific Smiles Shares it does not already own for \$2.20 cash per Pacific Smiles Share under an off-market takeover bid (**Offer**).

Genesis Bidco has a Relevant Interest in 89.27% of Pacific Smiles Shares on issue as at the Last Practicable Date, and has appointed three Directors to the Pacific Smiles Board – Dr Michael Caristo (Non-Executive Chair), Mr Christopher Yoo (Non-Executive Director) and Ms Tara Hariharan (Non-Executive Director) (**Nominee Directors**).

To manage potential conflicts of interest of the Nominee Directors, your Pacific Smiles Board has established an Independent Board Committee for the purposes of evaluating and negotiating the Offer, and preparing this Target's Statement. The Independent Board Committee comprises Mr Gary Carroll, Mr Steven Rubic and Mr Brent Cubis (**Independent Directors**).

The Independent Board Committee has carefully considered the Offer to assess whether it is in the best interests of Shareholders other than Genesis Bidco and its Associates.

The Independent Board Committee unanimously recommends that Shareholders **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

You may accept the Offer by following the steps set out in Section 4.6 of this Target's Statement before the Offer closes at 7:00pm (Sydney time) on 17 November 2025 (unless extended or withdrawn).

### Reasons why you should **ACCEPT** the Offer

This Target's Statement sets out the Independent Board Committee's formal response to the Offer, and sets out the reasons for our unanimous recommendation to **ACCEPT**, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

In reaching our conclusion, the Independent Directors considered a number of factors, including:

- the Offer represents a significant and attractive premium for your Pacific Smiles Shares;
- the cash Offer Price (\$2.20 cash per Pacific Smiles Share) provides certainty of value for your Pacific Smiles Shares;
- the Independent Directors have engaged Deloitte to prepare an Independent Expert's Report opining on whether the Offer is fair and reasonable to Non-Associated Shareholders, and the Independent Expert has concluded the Offer is fair and reasonable to Non-Associated Shareholders;
- if Genesis Bidco meets the thresholds for compulsory acquisition, it intends to compulsorily acquire your Pacific Smiles Shares and will pay you the Offer Price at a later date than if you had accepted the Offer;

- if Genesis Bidco does not meet the thresholds for compulsory acquisition, you will remain a minority Shareholder in an entity controlled by Genesis Bidco; and
- the Independent Directors consider it is highly unlikely that a superior proposal will emerge.

Section 1.3 sets out further information in relation to each of these reasons.

### **How to ACCEPT the Offer**

If you wish to **ACCEPT** the Offer, you should follow the steps set out in Section 4.6 of this Target's Statement and section 11.5 of the Bidder's Statement.

I urge you to read this Target's Statement, including the Independent Expert's Report contained at Attachment A, in full and to seek advice from your financial, legal or other professional adviser before deciding whether to accept or reject the Offer.

If you have any questions about the Offer, please contact Pacific Smiles on 02 4930 2000 between 8.30am and 5.30pm (Sydney time), Monday to Friday (excluding public holidays), or email [investor.relations@pacificsmiles.com.au](mailto:investor.relations@pacificsmiles.com.au).

Thank you for your continued support.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'S. Rubic', followed by a period.

**Mr Steven Rubic**

Chair of the Independent Board Committee  
Non-Executive Director

# 1 Details regarding the Independent Board Committee's unanimous recommendation

## 1.1 The Independent Board Committee's unanimous recommendation

Based on the information currently available to it, the Independent Board Committee unanimously recommends that you **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

In considering whether to **ACCEPT** the Offer, the Independent Board Committee encourages you to read the whole of this Target's Statement and the Bidder's Statement, have regard to your individual risk profile, portfolio strategy, tax position and financial circumstances and seek advice from your financial, legal or other professional adviser.

The Independent Board Committee's recommendation is given as at the date of this Target's Statement, and the Independent Directors reserve the right to change their recommendation if circumstances change.

## 1.2 Summary of reasons to **ACCEPT** the Offer

The Independent Board Committee has carefully considered the Offer to assess whether it is in the best interests of Non-Associated Shareholders.

The reasons for the Independent Board Committee's recommendation to **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders, are:

- ✓ **The Offer represents a significant and attractive premium for your Pacific Smiles Shares**
- ✓ **The cash Offer Price provides certainty of value for your Pacific Smiles Shares**
- ✓ **The Independent Expert has concluded the Offer is fair and reasonable to Non-Associated Shareholders**
- ✓ **If Genesis Bidco meets the thresholds for compulsory acquisition, it intends to compulsorily acquire your Pacific Smiles Shares and will pay you the Offer Price at a later date than if you had accepted the Offer**
- ✓ **If Genesis Bidco does not meet the thresholds for compulsory acquisition, you will remain a minority Shareholder in an entity controlled by Genesis Bidco**
- ✓ **It is highly unlikely that a superior proposal will emerge**

Further information in relation to each of these reasons is set out below in Section 1.3 of this Target's Statement.

The Independent Directors acknowledge that there may be risks involved in accepting the Offer, as outlined in Section 7.3 of this Target's Statement.

### **1.3 Further information on reasons to **ACCEPT** the Offer**

#### **(a) The Offer Price represents a significant and attractive premium for your Pacific Smiles Shares**

The Offer Price of \$2.20 cash per Pacific Smiles Share represents a significant and attractive premium to recent trading and the price offered to Shareholders under the Original Genesis Bidco Bid, in particular the Offer Price represents:

- a 12.82% premium to the final cash consideration of \$1.95 per Pacific Smiles Share offered under the Original Genesis Bidco Bid which closed on 11 February 2025 (which excluded the cash value of the dividend paid to Shareholders during that bid period); and
- a 37.5% premium to the last closing price on 9 October 2025 (being the Last Practicable Date).

Further, the Independent Expert's Report notes that Pacific Smiles Shares have not traded above the Offer Price since 3 May 2022 (being more than three years ago).

Genesis Bidco has declared the Offer Price to be best and final and that it will not be improved, in the absence of a Competing Proposal.

#### **(b) The cash Offer Price provides certainty of value for your Pacific Smiles Shares**

Since the close of the Original Genesis Bidco Bid on 11 February 2025, trading in Pacific Smiles Shares on the ASX has been limited.

Over the six months to 31 August 2025, an average of 27,795 Shares were traded per month and during this period, there were 57 trading days with no trading in Shares. This represents a material decline compared with the same period a year earlier, when average monthly trading volume was 8,507,297 Shares. By way of further comparison, average monthly trading volume over the six months to 31 August 2023, prior to the initial approach from Genesis Capital in December 2023, was 3,791,819 Shares, reflecting the undisturbed trading levels in Pacific Smiles Shares.

If the Pacific Smiles Shares remain quoted on the ASX, they will continue to be subject to market volatility, which may have a more pronounced impact on the Pacific Smiles Share price given this recent low liquidity.

The Offer Price is \$2.20 in cash per Pacific Smiles Share, and therefore provides each Shareholder who accepts the Offer with certainty of value for their Pacific Smiles Shares during a period of limited liquidity and potential market volatility.

The Offer is unconditional, and therefore, if you accept the Offer, Genesis Bidco will pay the Offer Price for your Pacific Smiles Shares on or before the earlier of:

- one month after submitting your acceptance; and

- 21 days after the end of the Offer Period.

**The Independent Expert has concluded the Offer is fair and reasonable to Non-Associated Shareholders**

The Independent Expert has assessed the value of a Pacific Smiles Share to be in the range of \$2.13 to \$2.56 on a controlling interest basis and otherwise on the basis set out in the Independent Expert's Report contained at Attachment A to this Target's Statement.

Therefore, the Offer Price is within the range that the Independent Expert has determined to be fair and reasonable to Non-Associated Shareholders.

**(c) If Genesis Bidco meets the thresholds for compulsory acquisition, it intends to compulsorily acquire your Pacific Smiles Shares and will pay you the Offer Price at a later date than if you had accepted the Offer**

Genesis Bidco has a Relevant Interest in 89.27% of Pacific Smiles Shares on issue as at the Last Practicable Date.

If Genesis Bidco and its Associates acquire (during or within a month after the end of the Offer Period) Relevant Interests in:

- at least 90% (by number) of the Pacific Smiles Shares on issue; and
- 75% (by number) of the Pacific Smiles Shares that Genesis Bidco has offered to acquire under the Offer,

Genesis Bidco will be entitled to compulsorily acquire the remaining Pacific Smiles Shares under the post-bid compulsory acquisition power in Part 6A.1 of the Corporations Act by following the process described in Section 4.11 of this Target's Statement. Genesis Bidco has stated in sections 8.2, 8.3 and 10.3 of its Bidder's Statement that it intends to do so if it meets the relevant thresholds.

Even if Genesis Bidco does not meet those thresholds, it may proceed with compulsory acquisition under Part 6A.1 with Court approval (if granted) or under the general compulsory acquisition power in Part 6A.2 of the Corporations Act where the applicable thresholds under that Part are met.

In any scenario where Genesis Bidco is entitled to proceed with compulsory acquisition, even if you have chosen to reject the Offer, your Pacific Smiles Shares will be acquired at the Offer Price, but you will receive consideration at a later time than if you had accepted the Offer.

**(d) If Genesis Bidco does not meet the thresholds for compulsory acquisition, you will remain a minority Shareholder in an entity controlled by Genesis Bidco**

Genesis Bidco has a Relevant Interest in 89.27% of Pacific Smiles Shares on issue as at the Last Practicable Date.

Genesis Bidco's intentions in relation to Pacific Smiles if it does not meet the compulsory acquisition thresholds under Part 6A.1 of the Corporations Act are set out in section 8.3 of the Bidder's Statement. In this scenario, the implications on

the remaining Pacific Smiles Shareholders who do not accept the Offer may include the following:

- Genesis Bidco remains in a position to cast the majority of votes at a general meeting of Pacific Smiles Shareholders or pass a special resolution on its own, which in turn enables it to control the composition of the Board and senior management, amend the Pacific Smiles constitution, determine Pacific Smiles' dividend policy and control the strategic direction of the businesses of the Pacific Smiles Group;
- further, following the announcement of the resignation of Mr Gary Carroll as Managing Director and Chief Executive Officer with effect from 31 October 2025, the Nominee Directors appointed by Genesis Bidco will comprise the majority of the Pacific Smiles Board, and can (subject to excusing themselves where appropriate, including in respect of potential conflicts of interest) pass resolutions of Pacific Smiles Directors without the support of the independent Pacific Smiles Directors;
- while liquidity in Pacific Smiles Shares has been low since close of the Original Genesis Bidco Bid on 11 February 2025, following close of the current Offer, the liquidity in Pacific Smiles Shares may be even lower; and
- if the number of Pacific Smiles Shareholders is less than that required by the Listing Rules to maintain an ASX listing, Genesis Bidco has stated in the Bidder's Statement that it may seek to procure that Pacific Smiles is removed from the official list of the ASX. If this occurs, Pacific Smiles Shareholders will not be able to sell their Pacific Smiles Shares on the ASX.

**(e) It is highly unlikely that a superior proposal will emerge**

Any alternative proposal for Pacific Smiles Shares or the Pacific Smiles business will require the cooperation and support of Genesis Bidco, as holder of 89.27% of the Pacific Smiles Shares on issue as at the Last Practicable Date.

Therefore, the Independent Directors consider it highly unlikely that any superior proposal will emerge. The Independent Expert's Report also notes that the likelihood of an alternative superior offer emerging and being capable of being successfully executed is low.

**1.4 Reasons why you may not choose to accept the Offer**

You may decide that, notwithstanding the unanimous recommendation of the Independent Board Committee, you do not wish to accept the Offer, for example because:

- (a) you wish to retain exposure to the Pacific Smiles business, and any future dividends or capital returns;
- (b) you consider there is potential for appreciation of Pacific Smiles Shares in the future (though the Independent Directors can give no assurances and make no forecast of whether this will occur);
- (c) you consider there is potential for an alternative proposal to emerge (however, the Independent Directors consider this is highly unlikely given this would require the cooperation of Genesis Bidco, which has a Relevant Interest in 89.27% of the Pacific Smiles Shares on issue as at the Last Practicable Date); or

- (d) the taxation consequences of disposing your Pacific Smiles Shares pursuant to the Offer do not suit your particular circumstances.

If you do not accept the Offer, there are risks associated with remaining a Shareholder in Pacific Smiles, which are summarised in Section 7.2 of this Target's Statement. These risks include a scenario where Genesis Bidco meets the thresholds for compulsory acquisition, in which case, Genesis Bidco will be entitled to acquire your Pacific Smiles Shares for the Offer Price of \$2.20 per Pacific Smiles Share but at a later time than if you had accepted the Offer (see details regarding the compulsory acquisition process in Section 4.11).

### **1.5 The Nominee Directors' reasons for not making a recommendation**

The Pacific Smiles Board established the Independent Board Committee for the purposes of evaluating and negotiating the Offer and preparing this Target's Statement. The Independent Board Committee comprises each of Mr Gary Carroll (Managing Director & Chief Executive Officer), Mr Steven Rubic (Non-Executive Director) and Mr Brent Cubis (Non-Executive Director).

The Independent Board Committee was established to manage potential conflicts of interest of each of Dr Michael Caristo (Non-Executive Chair), Mr Christopher Yoo (Non-Executive Director) and Ms Tara Hariharan (Non-Executive Director), each of whom were appointed as nominees of Genesis Bidco.

Accordingly, each of Dr Michael Caristo, Mr Christopher Yoo and Ms Tara Hariharan were not involved in Pacific Smiles' evaluation of the Offer, have not participated in any Pacific Smiles Board or Independent Board Committee deliberations regarding the Offer and do not make a recommendation to Shareholders regarding the Offer.

In addition, this Target's Statement does not contain information which is known only to Dr Michael Caristo, Mr Christopher Yoo or Ms Tara Hariharan as Pacific Smiles has received in-principle approval from ASIC regarding a modification of the relevant sections of the Corporations Act (see Section 9.7 for further information).

## 2 Frequently asked questions

This Section answers some frequently asked questions about the Offer. It is not intended to address all relevant issues, and should be read together with all other parts of this Target's Statement.

### 3 Your choices

The Independent Board Committee has carefully considered the Offer to assess whether it is in the best interests of Non-Associated Shareholders.

The Independent Board Committee unanimously recommends that you **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders. The reasons for the Independent Board Committee's recommendation are set out in Section 1.2 of this Target's Statement.

You are encouraged to consider your personal risk profile, investment objectives and tax and financial circumstances before making any decision in relation to your Pacific Smiles Shares.

You have the following three choices available in relation to the Offer:

#### 3.1 Option 1 – **ACCEPT** the Offer

The Independent Board Committee unanimously recommends that you **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders.

You may only accept the Offer with respect to all, and not some, of your Pacific Smiles Shares.

Shareholders who wish to accept the Offer should refer to section 11.5 of the Bidder's Statement for further instructions on how to do so.

If you accept the Offer, you will:

- (a) be paid cash consideration of \$2.20 per Pacific Smiles Share by Genesis Bidco;
- (b) not be able to withdraw your acceptance; and
- (c) no longer be a Shareholder, and will therefore not retain any exposure to the Pacific Smiles business, or any alternative proposal which may emerge (however, the Independent Directors consider it highly unlikely that any superior proposal will emerge given that would require the cooperation of Genesis Bidco).

You may also be liable to pay tax on the disposal of your Pacific Smiles Shares under the Offer (refer to Section 8 of this Target's Statement for further details).

#### 3.2 Option 2 – **Seek to sell your Pacific Smiles Shares on market**

You can still seek to sell your Pacific Smiles Shares on market at any time if you have not already accepted the Offer. If you sell your Pacific Smiles Shares on market, you:

- (a) will receive the prevailing market price for your Pacific Smiles Shares;
- (b) no longer be a Shareholder, and will therefore not retain any exposure to the Pacific Smiles business, or any alternative proposal which may emerge (however, the Independent Directors consider it highly unlikely that any superior proposal will emerge given that would require the cooperation of Genesis Bidco);
- (c) may incur a brokerage charge; and

- (d) may be liable for tax on gains you make on the sale. You should seek your own specific professional advice regarding the taxation consequences of selling your Pacific Smiles Shares on market.

While you may seek to sell your Pacific Smiles Shares on-market, the Independent Directors note there has been limited liquidity for Pacific Smiles Shares and the cash consideration under the Offer represents a premium of:

- a 12.82% premium to the final cash consideration of \$1.95 per Pacific Smiles Share offered under the Original Genesis Bidco Bid which closed on 11 February 2025 (which excluded the cash value of the dividend paid to Shareholders during that bid period); and
- 37.5% to the last closing price on 9 October 2025 (being the Last Practicable Date).

### **3.3 Option 3 – Take no action**

If, despite the unanimous recommendation of the Independent Board Committee, you decide to reject the Offer, you can take no action during the Offer Period.

You should note that, notwithstanding your decision not to accept the Offer, if Genesis Bidco and its Associates acquire (during or at the end of the Offer Period) Relevant Interests in:

- at least 90% (by number) of the Pacific Smiles Shares on issue; and
- 75% (by number) of the Pacific Smiles Shares that Genesis Bidco has offered to acquire under the Offer,

Genesis Bidco will be entitled to compulsorily acquire the Pacific Smiles Shares that it does not already own, subject to the process described in Section 4.11.

As at the Last Practicable Date, Genesis Bidco has a Relevant Interest in 89.27% of the Pacific Smiles Shares on issue, and has stated that it intends to exercise those rights if it becomes entitled to do so (see section 10.3 of the Bidder's Statement).

If Genesis Bidco is entitled to proceed to compulsory acquisition, Genesis Bidco will be entitled to acquire your Pacific Smiles Shares once the process described in Section 4.11 is complete. In that scenario, Genesis Bidco will pay you the Offer Price of \$2.20 per Pacific Smiles Share, but at a later time than if you had accepted the Offer.

## 4 About the Offer

### 4.1 Summary of the Offer

On 1 October 2024, Genesis Bidco opened the Original Genesis Bidco Bid at \$1.90 cash per Pacific Smiles Share (with mixed and scrip alternative forms of consideration also), which was later increased to \$1.95 per Pacific Smiles Share (excluding the cash value of a dividend paid to Shareholders during that bid period).

At the time the Original Genesis Bidco Bid closed on 11 February 2025, Genesis Bidco had a Relevant Interest in 89.27% of Pacific Smiles Shares.

On 10 October 2025, Genesis Bidco announced its off-market takeover bid for all of the Pacific Smiles Shares that it does not already own for \$2.20 cash per Pacific Smiles Share.

The full terms of the Offer are set out in section 11 of the Bidder's Statement.

### 4.2 Date for determining holders of Shares

For the purposes of section 633 of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of subsection 633(1) is the Register Date, being 7:00pm (Sydney time) on 10 October 2025.

### 4.3 Offer Period

The Offer is open for acceptance from 15 October 2025 until 7:00pm (Sydney time) on 17 November 2025, unless extended or withdrawn.

Pursuant to the Corporations Act, Genesis Bidco may announce an extension to the Offer Period at any time before the closing date.

Genesis Bidco may only withdraw the Offer in respect of any unaccepted offers with the written consent of ASIC and subject to the conditions (if any) specified in that consent. Any withdrawal of the Offer must be announced to the ASX.

### 4.4 Offer Price

The Offer Price is \$2.20 cash per Pacific Smiles Share.

Genesis Bidco has declared the Offer Price to be best and final and that it will not be improved, in the absence of a Competing Proposal.

### 4.5 Conditions to the Offer

The Offer is not subject to any conditions.

### 4.6 How to **ACCEPT** the Offer

(a) Issuer sponsored shareholders

If your Shares are registered in an Issuer Sponsored Holding (such holdings will be evidenced by your Securityholder Reference Number or SRN commencing with an 'I'), you may accept the Offer either online or by using the physical Acceptance Form by following the instructions set out in section 11.5 of the Bidder's Statement.

- (b) CHESS shareholders

If your Shares are registered in a CHESS Holding (such holdings will be evidenced by your Holder Identification Number or HIN commencing with an 'X'), you may either accept the Offer online, by using the physical Acceptance Form, or by instructing your Controlling Participant yourself by following the instructions set out in section 11.5 of the Bidder's Statement.

#### **4.7 Effect of an acceptance**

The effect of accepting the Offer is described in Section 3.1 of this Target's Statement and section 11.6 of the Bidder's Statement.

Shareholders should read these sections in full to understand the effect that acceptances will have on their ability to exercise the Rights attaching to their Pacific Smiles Shares and the representations and warranties which they give by accepting the Offer.

#### **4.8 Timing for payment to Shareholders who accept the Offer**

If you accept the Offer, Genesis Bidco will pay the Offer Price for your Pacific Smiles Shares on or before the earlier of:

- (a) one month after you submit your acceptance; and
- (b) 21 days after the end of the Offer Period.

Under no circumstances will any interest be paid on the Offer Price, regardless of any delay in making payment or extension of the Offer Period.

Refer to section 11.11 of the Bidder's Statement for further details on when you will be paid the Offer Price.

#### **4.9 Your ability to withdraw your acceptance**

As the Offer is unconditional, you will not be able to withdraw your acceptance under any circumstances.

#### **4.10 Variation of the Offer**

Genesis Bidco may vary the Offer in accordance with the Corporations Act.

#### **4.11 Genesis Bidco's intentions where it becomes entitled to compulsorily acquire the remaining Pacific Smiles Shares**

As at the Last Practicable Date, Genesis Bidco has a Relevant Interest in 89.27% of the Pacific Smiles Shares on issue.

Genesis Bidco's intentions with respect to compulsory acquisition are set out in sections 8.2, 8.3 and 10.3 of the Bidder's Statement. In summary, Genesis Bidco has stated that if, it becomes entitled to compulsorily acquire outstanding Shares under the provisions of either Part 6A.1 or Part 6A.2 of the Corporations Act, it presently intends to proceed with the compulsory acquisition of those Shares.

A summary of the processes for compulsory acquisition under Part 6A.1 or Part 6A.2 of the Corporations Act are set out below.

*Post-bid compulsory acquisition under Part 6A.1 of the Corporations Act*

If Genesis Bidco and its Associates acquire (during or within a month after the end of the Offer Period) Relevant Interests in:

- at least 90% (by number) of the Pacific Smiles Shares on issue; and
- 75% (by number) of the Pacific Smiles Shares that Genesis Bidco has offered to acquire under the Offer,

Genesis Bidco will be entitled to compulsorily acquire the remaining Pacific Smiles Shares under Part 6A.1 of the Corporations Act in the following manner:

- providing compulsory acquisition notices to remaining Shareholders, offering to acquire their Pacific Smiles Shares at the Offer Price of \$2.20 per Pacific Smiles Share, Genesis Bidco has disclosed in its Bidder's Statement that it intends to proceed with compulsory acquisition of Pacific Smiles shares as soon as practicable; and
- before the end of 14 days after the end of one month after the date of sending those notices, subject to any Shareholder objections to the Court on the basis that the Offer Price is not fair value for Pacific Smiles Shares, Genesis Bidco will acquire all remaining Pacific Smiles Shares for the Offer Price.

Alternatively, Genesis Bidco may be entitled to utilise compulsory acquisition powers under the post-bid compulsory acquisition powers in Part 6A.1 of the Corporations Act after the Offer Period with the approval of the Court (if granted), even where it has not met the appropriate thresholds noted above.

*General compulsory acquisition powers under Part 6A.2 of the Corporations Act*

Part 6A.2 of the Corporations Act provides that if a person (together with their related body corporates) is a "90% holder" in relation to a class of securities of a company they may compulsorily acquire all the securities in that class if either the holders of securities in that class who object to the acquisition hold less than 10% by value of the remaining securities at the end of a specified notice period or the acquisition is approved by the Court.

Genesis Bidco has disclosed in its Bidder's Statement that, if Genesis Bidco becomes entitled to exercise general compulsory acquisition rights under Part 6A.2 of the Corporations Act at or before the close of the Offer Period, it currently intends to exercise those rights if it could not proceed with compulsory acquisition under Part 6A.1 of the Corporations Act as described above and may choose to exercise those rights during the Offer Period prior to it becoming entitled to proceed with compulsory acquisition under Part 6A.1 of the Corporations Act.

Where the above requirements are met, Genesis Bidco will be entitled to proceed with compulsory acquisition under Part 6A.2 of the Corporations Act in the following manner:

- providing compulsory acquisition notices to remaining Shareholders within six months of becoming a 90% holder setting out the terms of the offer for compulsory acquisition (which must be cash only, and Genesis Bidco has disclosed in its Bidder's Statement that it intends to offer the Offer Price of \$2.20 cash per Pacific Smiles Share);

- the notice provided to remaining Shareholders will specify a period of at least one month during which Shareholders may object to the compulsory acquisition; and
- if Shareholders who hold at least 10% of the Shares under the compulsory acquisition notice (that is, 10% of the Shares held by all remaining Shareholders) object to the compulsory acquisition, Genesis Bidco may apply to the Court for approval of the compulsory acquisition within one month of the end of the objection period.

#### **4.12 Genesis Bidco's intentions where it does not become entitled to compulsorily acquire the remaining Pacific Smiles Shares**

If Genesis Bidco and its Associates do not meet the thresholds to compulsorily acquire the remaining Pacific Smiles Shares noted in Section 4.11 above, it has stated in section 8.3 of the Bidder's Statement that it may seek to delist Pacific Smiles when legally permissible and consistent with ASX guidance.

## 5 Information relating to Pacific Smiles

### 5.1 Overview of Pacific Smiles

Pacific Smiles is a leading Australian branded dental group, currently operating 137 dental centres containing more than 545 active dental chairs. These dental centres include 11 nib branded centres which are owned and operated by Pacific Smiles, and 10 HBF dental centres which are operated by Pacific Smiles.

Pacific Smiles provides dentists with fully serviced and equipped facilities including support staff, materials, marketing and administrative services. Pacific Smiles is largely engaged by dentists under services and facilities agreements (**SFAs**), pursuant to which the dentists are charged service fees for the provision of these fully serviced dental facilities. Pacific Smiles' revenue consists mostly of these service fees, however there are also revenues derived through direct patient fees incurred through dental services provided by dentists engaged or employed by Pacific Smiles.

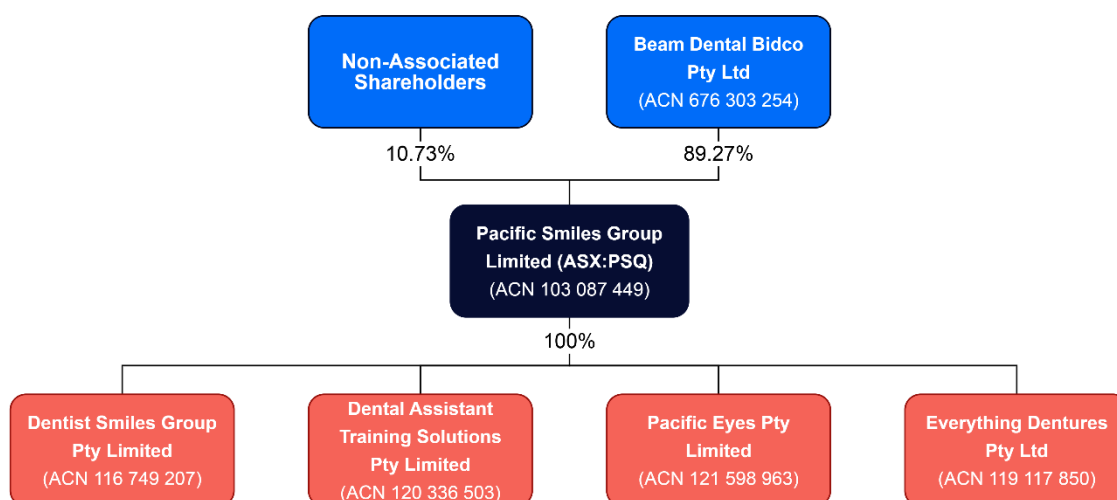

As at 30 June 2025, Pacific Smiles provided services to approximately 800 active dental practitioners, assisted by more than 1,600 support staff and attended to approximately 1,100,000 patient appointments in the preceding 12 months.

On 13 August 2025, Pacific Smiles released its financial results for FY25. Highlights included:

- (a) patient fees of \$317.1 million, up 8.7% vs FY24;
- (b) underlying EBITDA of \$31.6 million, up 12.1% vs FY24; and
- (c) net cash of \$21.4 million at 30 June 2025, up 20.9% from the net cash position of \$17.7 million at 30 June 2024.

## **5.8 Significant events since 30 June 2025**

The Historical Financial Information provided in Section 5.7 provides the income statement, balance sheet and statement of cash flows for Pacific for the financial years ended 30 June 2025 and 30 June 2024 (as appropriate).

The Independent Directors confirm there have been no significant events from an income statement, balance sheet and statement of cash flows perspective that have occurred since 30 June 2025. For completeness, the Company notes that, since 30 June 2025, it has opened one new dental centre in Cheltenham and relocated its nib Brisbane and Blacktown dental centres.

## **5.9 Publicly available information about Pacific Smiles**

Pacific Smiles is a listed disclosing entity for the purposes of the Corporations Act and as such is subject to regular reporting and disclosure obligations. Specifically, as a listed company, Pacific Smiles is subject to the Listing Rules which require continuous disclosure of any information Pacific Smiles has concerning it that a reasonable person would expect to have a material effect on the price or value of its securities (subject to certain exceptions).

ASX maintains files containing publicly disclosed information about all listed companies. Pacific Smiles' file is available for inspection at ASX during normal business hours. Pacific Smiles' recent ASX announcements are available from the ASX website ([www2.asx.com.au](http://www2.asx.com.au)).

In addition, Pacific Smiles is required to lodge various documents with ASIC, copies of which may be obtained from, or inspected at, an ASIC office.

A substantial amount of information about Pacific Smiles is also available in electronic form at <https://investors.pacificsmilesgroup.com.au/Investors/>.

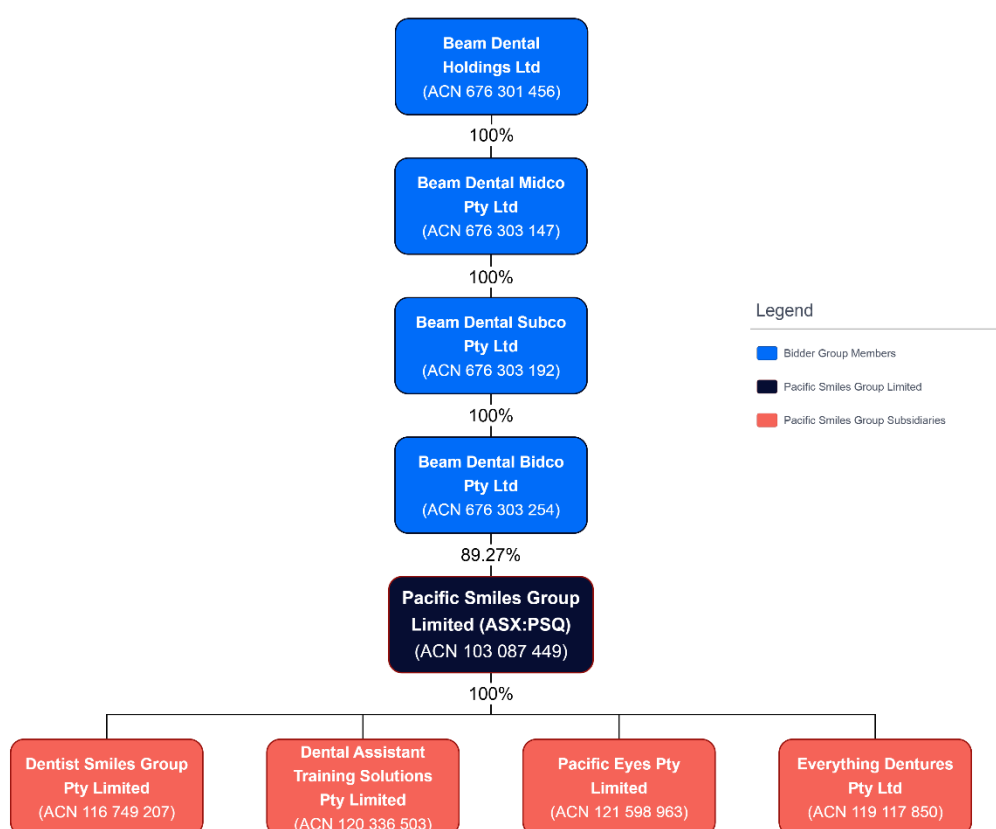

## 6 Information relating to Genesis Bidco and the Bidder Group

### 6.1 Disclaimer

The following information about Genesis Bidco and the Bidder Group has not been independently verified by Pacific Smiles. Pacific Smiles does not make any representation or warranty, express or implied, as to the accuracy or completeness of this information. The information regarding Genesis Bidco in this Target's Statement should not be considered comprehensive. Further information about Genesis Bidco is set out in the Bidder's Statement.

### 6.2 Bidder Group corporate structure

Provided below is a structure diagram of the Bidder Group and Pacific Smiles Group as at the Last Practicable Date.

### 6.3 Overview of Bidder Group

#### (a) Genesis Capital

Genesis Capital is the manager of entities comprising the Bidder Group and is a member of the Genesis Capital group. Genesis Capital is an Australian private equity firm that was established in 2018. Refer to the Bidder's Statement for further details regarding the background and business of Genesis Capital.

Genesis Capital manages numerous portfolio companies, including Impression Dental Group, which is a competitor of Pacific Smiles.

More information about Genesis Capital is set out in section 4.1 of the Bidder's Statement.

(b) Genesis Bidco

Genesis Bidco is an Australian proprietary company limited by shares that was incorporated on 3 April 2024 for the purpose of acquiring Pacific Smiles Shares.

On 1 October 2024, Genesis Bidco opened the Original Genesis Bidco Bid at \$1.90 cash per Pacific Smiles Share (with mixed and scrip alternative forms of consideration also), which was later increased to \$1.95 per Pacific Smiles Share (after deducting the cash value of a dividend paid to Shareholders during the offer period).

The Original Genesis Bidco Bid closed on 11 February 2025 with Genesis Bidco having a Relevant Interest in 89.27% of Pacific Smiles Shares.

From the Original Genesis Bidco Bid opened until the Last Practicable Date, the activities of Bidco have related exclusively to holding its interest in Pacific Smiles.

At the Last Practicable Date, Genesis Bidco has two directors, Dr Michael Caristo and Mr Christopher Yoo.

(c) Other entities in the Bidder Group

Section 4.2 of the Bidder's Statement sets out further details regarding the other entities in the Bidder Group.

#### **6.4 Genesis Bidco's interest in Pacific Smiles**

Genesis Bidco has a Relevant Interest in 144,273,813 Pacific Smiles Shares as at the Last Practicable Date, being 89.27% of the Pacific Smiles Shares on issue.

The circumstances surrounding Genesis Capital's acquisition of this Relevant Interest in Pacific Smiles Shares are set out in further detail in Section 4.1 above.

#### **6.5 Genesis Bidco's funding of the Offer Price**

(a) Maximum aggregate cash consideration payable

As at the Last Practicable Date, there were 17,341,632 Pacific Smiles Shares not already owned by Genesis Bidco, and no other securities in Pacific Smiles on issue.

If acceptances are received for all Pacific Smiles Shares on issue as at the Last Practicable Date that Genesis Bidco does not already own, the aggregate amount of cash consideration that Genesis Bidco would be required to pay would be approximately \$38.15 million.<sup>1</sup>

(b) Funding

Bidco has disclosed in section 7.1 of its Bidder's Statement that it has access to sufficient funds to pay for all Shares it does not already hold, and will fund the Offer consideration from its existing, binding committed facility which Genesis Bidco confirms has sufficient

<sup>1</sup> Calculated by multiplying the total number of Pacific Smiles Shares on issue which are not held by Genesis Bidco as at the Last Practicable Date by the Offer Price of \$2.20 per Pacific Smiles Share.

undrawn commitments available for the purpose of funding the maximum aggregate consideration under the Offer in full. The conditions to Genesis Bidco drawing the facility are disclosed in section 7.1 of the Bidder's Statement, which Genesis Bidco considers to be on customary funds terms for a facility of this nature and capable of being satisfied.

## 7 Risk factors

### 7.1 Overview

There are various risks associated with either accepting the Offer, or rejecting the Offer and continuing to hold Pacific Smiles Shares. Some of these risks are specific to Pacific Smiles, while others are risks of a more general nature that apply to any investment in a listed company. Some of these risks can be adequately mitigated by using safeguards and appropriate systems, but many are beyond the control of Pacific Smiles and its Directors and cannot be mitigated.

The risks summarised below are not exhaustive and do not consider the personal circumstances of Shareholders. Prior to deciding whether to accept or reject the Offer, you should read this entire Target's Statement to gain an appreciation of Pacific Smiles, its activities, operations, financial position and prospects, including the risks set out in this Section 7, and should seek professional advice if you have any doubt about the risks associated with accepting or rejecting the Offer, having regard to your investment objectives and financial circumstances.

The options which you have in relation to the Offer are set out in Section 3 of this Target's Statement.

### 7.2 Risks associated with rejecting the Offer and holding Pacific Smiles Shares

If, despite the unanimous recommendation of the Independent Board Committee that you **ACCEPT** the Offer, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Offer is fair and reasonable to Non-Associated Shareholders, you decide to reject the Offer, the following risks may apply to you.

#### (a) Compulsory acquisition

If Genesis Bidco and its Associates acquire (during or within a month after the end of the Offer Period) Relevant Interests in:

- at least 90% (by number) of the Pacific Smiles Shares on issue; and
- 75% (by number) of the Pacific Smiles Shares that Genesis Bidco has offered to acquire under the Offer,

Genesis Bidco will be entitled to compulsorily acquire the remaining Pacific Smiles Shares under Part 6A.1 of the Corporations Act by following the process described in Section 4.11 of this Target's Statement.

Even if Genesis Bidco does not meet those thresholds, it may proceed with compulsory acquisition under the post-bid compulsory acquisition powers in Part 6A.1 of the Corporations Act with Court approval (if granted) or under the general compulsory acquisition power in Part 6A.2 of the Corporations Act where the applicable thresholds under that Part are met.

In any scenario where Genesis Bidco is entitled to proceed with compulsory acquisition, even if you have chosen to reject the Offer, your Pacific Smiles Shares will be acquired at the Offer Price, but you will receive consideration at a later time than if you had accepted the Offer.

#### (b) Minority ownership consequences

Genesis Bidco has a Relevant Interest in 89.27% of Pacific Smiles Shares on issue as at the Last Practicable Date.

Genesis Bidco's intentions in relation to Pacific Smiles if it does not meet the compulsory acquisition thresholds under Part 6A.1 of the Corporations Act are set out in sections 8.3 and 10.3(b) of the Bidder's Statement. In this scenario, the implications on the remaining Pacific Smiles Shareholders who do not accept the Offer may include the following:

- (i) it is highly unlikely that another party will seek to acquire all of the Pacific Smiles Shares in the future, given this would require the cooperation of Genesis Bidco;
- (ii) Genesis Bidco remains in a position to cast the majority of votes at a general meeting of Pacific Smiles Shareholders or pass a special resolution on its own, which in turn enables it to control the composition of the Board and senior management, amend the Pacific Smiles constitution, determine Pacific Smiles' dividend policy and control the strategic direction of the businesses of the Pacific Smiles Group;
- (iii) further, following the announcement of the resignation of Mr Gary Carroll as Managing Director and Chief Executive Officer with effect from 31 October 2025, the Nominee Directors appointed by Genesis Bidco will comprise the majority of the Pacific Smiles Board, and can (subject to excusing themselves where appropriate, including in respect of potential conflicts of interest) pass resolutions of Pacific Smiles Directors without the support of the independent Pacific Smiles Directors;
- (iv) while liquidity in Pacific Smiles Shares has been low since close of the Original Genesis Bidco Bid on 11 February 2025, following close of the current Offer, the liquidity in Pacific Smiles Shares may be even lower; and
- (v) if the number of Pacific Smiles Shareholders is less than that required by the Listing Rules to maintain an ASX listing, Genesis Bidco has stated in the Bidder's Statement that it may seek to procure that Pacific Smiles is removed from the official list of the ASX. If this occurs, Pacific Smiles Shareholders will not be able to sell their Pacific Smiles Shares on the ASX. This may also have adverse impacts on Pacific Smiles' existing or new leases, where landlords might be entitled to request bank guarantees or impose other more onerous obligations on Pacific Smiles where it is not listed.

**(c) No consideration and drop in Pacific Smiles Share price**

Pacific Smiles Shareholders who do not accept the Offer will not receive the Offer Price of \$2.20 per Pacific Smiles Share. The Offer Price represents certain cash value for Pacific Smiles Shares, representing a premium of:

- a 12.82% premium to the final cash consideration of \$1.95 per Pacific Smiles Share offered under the Original Genesis Bidco Bid which closed on 11 February 2025 (which excluded the value of the dividend paid to Shareholders during that bid period); and
- 37.5% to the last closing price on 9 October 2025 (being the Last Practicable Date).

Further, the Independent Expert has concluded the Offer is fair and reasonable to Non-Associated Shareholders.

Further, if the Offer closes without Genesis Bidco satisfying the thresholds for compulsory acquisition, the Pacific Smiles Share price could well fall. In the absence of any other proposals for Pacific Smiles' business, the Pacific Smiles Shares will remain quoted on

the ASX (in the absence of any de-listing where the conditions are met) and will continue to be subject to market volatility, which may have a more pronounced impact on the Pacific Smiles Share price given the recent low liquidity of the register. This market volatility may include general stock market movements and the impact of general economic conditions.

There is also a risk that Pacific Smiles could be fully or partially removed from certain ASX indices due to a lack of free float and/or liquidity. In addition, research analysts may cease coverage of Pacific Smiles, reducing the information available to Shareholders and potentially further reducing liquidity.

**(d) Changes in the market and patient trends**

Pacific Smiles' continued success depends in part on its ability to anticipate, gauge and respond to industry trends and changes in patient preferences and attitudes towards different dental treatments. If Pacific Smiles is unable to anticipate and respond to trends in the dental industry and changing patient demands in a timely fashion, its financial results may deteriorate.

Patient behaviour and spending in the dental industry may also be affected by the state of the broader economy. If Australian economic conditions worsen, there is a risk that patients will delay or skip treatments, defer more expensive complex procedures or redirect their spending on dental services given the discretionary nature of some of these services, which may result in a reduction in Pacific Smiles' revenue and may have a material adverse effect on Pacific Smiles' financial performance and financial position. Additionally, a higher inflationary environment may drive up Pacific Smiles' costs that are unable to be fully passed on to consumers, creating pressure on operating margins.

**(e) Loss of key contracts and leases**

If you remain a Pacific Smiles Shareholder and Genesis Bidco does not satisfy the thresholds for compulsory acquisition, this may result in termination rights arising under certain of Pacific Smiles' key contracts if Genesis Bidco pursues a delisting of Pacific Smiles (and meets the conditions to do so), including its debt facility (which Bidco may seek to replace with its own debt arrangements) and various lease agreements.

**(f) Changes to the dental and private health insurance industries**

While the patients of dental practitioners who engage the services and facilities of Pacific Smiles are comprised of a mixture of privately insured and non-insured individuals, Pacific Smiles is indirectly susceptible to factors adversely affecting the membership and profitability of private health insurers. These private health insurers may, from time to time, seek to renegotiate the terms of their arrangements with Pacific Smiles to seek to improve the offering to their members.

Membership of private health insurance funds in Australia is supported by a number of Commonwealth Government policies, including the Private Health Insurance Rebate and Medicare Levy Surcharge. To the extent that these policies change, or new policies are enacted, this may reduce incentives to hold private health insurance and the level of private health insurance in Australia may fall. Patients without private health insurance wishing to visit dentists who practice at Pacific Smiles' centres may experience higher out-of-pocket expenses, which may adversely affect the affordability and demand for dental services and, therefore, the frequency of visits to Pacific Smiles dental centres. A decline in the profitability of private health insurance funds or the inability of private health insurance funds to obtain premium increases may result in Pacific Smiles' inability to achieve growth in the funding it receives from private health insurance funds or its inability to renew contracts with private health insurance funds on suitable terms.

(g) **Payroll tax compliance in respect of SFAs with dentists**

Most of the dentists who choose to practice at Pacific Smiles dental centres operate under an SFA. Pacific Smiles considers dentists who operate under SFAs to be principals who are operating their own dental practice; they are not considered to be employees or contractors of Pacific Smiles. Historically, payments under the SFAs were not treated as subject to payroll tax (unlike payments to employees and contractors of Pacific Smiles which are subject to payroll tax). However, the recent NSW Court of Appeal decision in *Chief Commissioner of State Revenue v Uber Australia Pty Ltd* contributes further case law to the position that SFA payments to dentists are taxable for payroll tax purposes.

Presently, and on a go-forward basis, Pacific Smiles is treating SFA payments as subject to payroll tax and is calculating and paying payroll tax in all relevant jurisdictions using an apportionment methodology.

While Pacific Smiles has obtained legal advice (including relating to indirect tax legislation) on the apportionment approach, there is a risk one or more revenue offices may prefer a different calculation methodology, potentially leading to reassessments for payroll tax amounts retrospectively (which differs by jurisdiction). The status of Pacific Smiles' engagement with the state revenue offices as at the Last Practicable Date is as follows:

- **Revenue NSW:** as announced on 16 May 2023, Pacific Smiles received a determination from Revenue NSW which indicated it considered the SFAs for dentists in NSW were subject to payroll tax. Revenue NSW later issued a payroll tax assessment for the four financial years from 2019 to 2022 (inclusive) in the aggregate amount of \$966,320 (as announced on 14 June 2023), which Pacific Smiles has paid (notwithstanding it disagreed with that assessment and reserved its rights in relation to future periods). From financial years 2023 onwards, payroll tax on SFAs has been paid on an apportioned basis.
- **ACT Revenue:** on 16 May 2023, Pacific Smiles wrote to ACT Revenue to advise it had received the Revenue NSW determination. ACT Revenue subsequently issued two payroll tax assessments in the aggregate amount of \$1,154,517 for the 2019 to 2023 financial years (notably using a different calculation methodology to Revenue NSW). Pacific Smiles has since paid the amount under both assessments, but has lodged objections with respect to those assessments. If the objections are allowed, Pacific Smiles expects it will receive a refund for some or all amounts paid, however there is no guarantee that the objections will be allowed or, if allowed, the quantum of any refund. From financial years 2024 onwards, payroll tax on SFAs has been paid on an apportioned basis.
- **Queensland Revenue Office:** the Queensland Revenue Office has implemented a payroll tax amnesty for contracted dentists covering payments from 1 July 2018 to 30 June 2025, provided eligible clinics registered and made a voluntary disclosure by 30 June 2025. On 27 June 2025, Pacific Smiles submitted an amnesty application, confirming it would include contracted dentists in QLD payroll tax returns from 1 July 2025 and apply an apportionment method to net SFA payments going forward. The Queensland Revenue Office has acknowledged the submission and advised the matter is under review.
- **Victorian State Revenue Office:** at the same time Pacific Smiles advised ACT Revenue of the NSW Revenue determination, it also advised the Victorian State Revenue Office. As at the Last Practicable Date, Pacific Smiles has not received any requests for information, determinations or assessments from the Victorian State Revenue Office. Notwithstanding this, it is possible

they may do so in the future and, therefore, a risk that payroll tax assessments for dentists in Victoria may arise for historical periods.

**(h) Brand or reputational damage**

Pacific Smiles' ability to maintain its reputation is critical to the perception of its centres and offerings. A number of factors as set out in this Section 7.2 may adversely impact Pacific Smiles' brand name and general reputation, which may consequently adversely impact its financial performance, condition and future prospects.

These factors include serious or unexpected side effects experienced by patients from the provision of Pacific Smiles' dental services (which may or may not be the fault of Pacific Smiles or its dental practitioners), failure to maintain consistent and high standards across its network of dental centres, inadvertent breach of privacy obligations leading to the disclosure of patient personal or sensitive information, potential disputes or litigation with suppliers, private health funds, patients, dental practitioners, employees or other third parties and other risks to Pacific Smiles' brand and reputation that are beyond Pacific Smiles' control, including any adverse publicity in relation to the dental industry.

Damage to the reputation of Pacific Smiles' main third party equipment and product suppliers (which may be affected by matters outside of Pacific Smiles' control) could have an adverse effect on Pacific Smiles' operations and ability to execute its growth strategy. This could result in an adverse impact on Pacific Smiles' financial performance, condition and future prospects.

**(i) Personnel risk**

The successful operation of Pacific Smiles is reliant on its ability to attract and retain experienced, skilled and high performing personnel (including key management, noting Pacific Smiles has had two changes in its Chief Executive Officer in the past 12 months, as well as a change in its Chief Financial Officer in light of the corporate activity over the same period).

Failure to attract and retain such personnel may adversely affect Pacific Smiles' operations and ability to execute its business strategy, which may, in turn, result in a material increase in the cost of obtaining appropriately qualified and experienced personnel and affect Pacific Smiles' financial performance and position. In light of this, Pacific Smiles has in place measures to incentivise and retain its key personnel.

**(j) Material contracts**

Pacific Smiles has contracts in place regarding its relationship with HBF (including relating to the management of the HBF Dental Centres) and nib. These contracts are material to the continued success of Pacific Smiles, including its financial performance and position. Pacific Smiles also has in place a number of other contracts which are not considered to be individually material, but which support its business model and operations, including its leases for dental centres, agreements with other private health insurers and supply agreements.

While Pacific Smiles' material contracts are generally agreed for a long term, there is the risk, as a result of the Offer or any resultant delisting of Pacific Smiles, these contracts will be terminated prior to the end of their contract term or will not be renewed on terms favourable to Pacific Smiles or at all. There is also the possibility that the counterparties under the material contracts approach Pacific Smiles to seek amendment to key commercial terms, including exclusivity periods.

Any such termination of a contract or renegotiations may, depending on the nature of the contract, have a material adverse effect on Pacific Smiles' operations and consequently

on its financial performance and position. The Independent Directors note however that, following close of the Original Genesis Bidco Bid, Pacific Smiles has maintained positive relationships with its key counterparties and stakeholders.

In certain circumstances, Pacific Smiles may be required to indemnify a counterparty for any loss, damage or claim suffered or incurred by that counterparty in connection with a breach of the relevant contract by Pacific Smiles or the operator of one of its dental centres.

**(k) Non-compliance with regulations and regulatory changes**

There is a risk that Pacific Smiles may fail to comply with applicable laws and regulations in operating its business (including in relation to privacy, employment and internal governance). A compliance framework is in place to ensure protocols are established and followed including through Pacific Smiles' Dental Advisory Committee and internal clinical governance committee, and that Pacific Smiles' dental practitioners are well credentialed. Notwithstanding this, Pacific Smiles may be liable for breaches of laws and regulations by dental practitioners where it has failed to take reasonable steps to ensure compliance by those practitioners with applicable laws and regulations. In addition, there are various federal, state and territory laws and regulations that govern the dental industry in Australia, which impact Pacific Smiles and the dental practitioners based at Pacific Smiles' dental centres.

Due to the nature of the services offered by Pacific Smiles, consumer confidence in Pacific Smiles and its dental centres is important to retaining and attracting new patients. Non-compliance with applicable laws and regulations and associated adverse publicity could damage Pacific Smiles' brand and reputation and result in loss of patients and reduced demand for Pacific Smiles' services. Other adverse consequences for Pacific Smiles include loss of regulatory licences, regulatory penalties or other litigation, as well as costs associated with dealing with such adverse consequences (such as legal costs), which could materially affect Pacific Smiles' financial performance and position.

Pacific Smiles has in place a robust risk management framework that considers the risks which may affect Pacific Smiles' business, including due to changes in laws and regulations. Notwithstanding this, Pacific Smiles is unable to predict the effect of any additional laws and regulations that may be adopted in the future, or any changes in current regulation or interpretation that apply to Pacific Smiles' operations or the dental industry generally, including in respect of climate change and greenhouse gas emissions. No assurance can be given as to the effect that any such laws or regulations or changes may have on Pacific Smiles' business operations, financial performance and financial position.

**(l) Ability to attract and remain engaged by dentists**

Dental practitioners are the main customer of Pacific Smiles. Pacific Smiles relies on their continuing engagement of its services. The success of the dentists drives patient attendances and thereby revenue for Pacific Smiles. The success of Pacific Smiles' business is heavily reliant on its ability to continue to provide facilities and services to appropriately qualified and experienced dental practitioners who want to conduct their practice from Pacific Smiles' various dental centres.

Dentist engagement, and dentists' ongoing retention of the Company to provide facilities and services, is a priority for Pacific Smiles. It is tracked and reported on regularly. However, there is a risk that dental practitioners may cease to practice at Pacific Smiles' centres due to a range of factors, including competition and the quality of Pacific Smiles' facilities and equipment (compared to those offered by competitors). Further, some dentists may prefer to move away from the SFA model and instead work as an employee dental practitioner or be a sole operator. Under Pacific Smiles' SFAs, the dental

practitioners may terminate their service arrangements for convenience with varying notice periods.

Pacific Smiles' service fee revenues are determined based on the dental practitioner's patient revenues. The ability of the dental practitioners to continue to generate revenue from patients will be instrumental in the continued growth and profitability of Pacific Smiles. Given the personal and sensitive nature of certain services offered by dental practitioners from a Pacific Smiles dental centre, patients may tend to be loyal to a particular dental practitioner or dental centre location, rather than to Pacific Smiles and its business more generally. Pacific Smiles' ongoing success depends on its continued engagement by dentists who maintain a dedicated patient base and are capable of attracting new patients.

**(m) Ability to attract and retain dental assistants**

Unlike the SFA model which Pacific Smiles operates for its dentists, all dental assistants are employed by the Pacific Smiles Group. The success of Pacific Smiles' business is reliant on its ability to attract, develop and retain skilled dental assistants. There is a risk that dental assistants may seek employment elsewhere due to a range of factors, including dissatisfaction with the dentists engaged by Pacific Smiles, lack of recognition or appreciation, the salary offered by Pacific Smiles or stress levels.

The Fair Work Commission is currently proposing changes to the Health Professionals and Support Services Award applicable to dental assistants. In connection with these proposed changes, a Fair Work Commission wage claim process has been commenced with respect to the employment of dental assistants covered by the Award, including those employed by Pacific Smiles. That process is currently at the submissions stage, with evidence provided by employee interest groups and unions for revised classification and salaries for dental assistants employed by Pacific Smiles. A hearing is anticipated in mid to late October. As a result of that hearing, the Fair Work Commission may determine that the salary payable to dental assistants is increased, however the materiality of any such increase and the timing for such changes to take effect is currently unknown.

**(n) Clinical conduct risks**

Failure to recognise and manage risks in practice can result in disciplinary action against offending dental practitioners by regulatory and governing bodies, which could result in the suspension of registration of the dental practitioners, conditions on practising or even de-registration on grounds of unprofessional conduct. Any such disciplinary action may have an adverse impact on Pacific Smiles' reputation, financial performance and financial position. Pacific Smiles conducts regular audits on all of the practitioners that contract for its services as part of its accreditation process to ensure that a high standard of care is being delivered to patients that visit Pacific Smiles dental centres.

**(o) Treatments and safety risks**

Transfer of infection to individuals due to safety or sterilisation breaches in a dental centre may lead to harm to individuals and negative reputational impacts, as well as negative economic consequences, on Pacific Smiles. Pacific Smiles has a clinical governance framework that governs infection control management procedures, including a training program. Treatment and safety risks are coordinated and managed by a dedicated clinical specialist team and monthly audits are undertaken. There is a close focus on internal procedures and clinical governance by management and the Board. This has been further enhanced by internal and external appointments to the Dental Advisory Committee and the clinical governance and infection prevention and control committees.

**(p) Renewal of lease arrangements**

Pacific Smiles' dental centres operate from leased premises. These leases have differing terms, expiry dates and renewal options. Pacific Smiles also, in the ordinary course of business, frequently opens new dental centres or relocates existing dental centres which, in each case, requires the negotiation of new lease agreements. There is a risk that one or more of these leases may not be renewed on terms acceptable to Pacific Smiles, at the same premises currently leased by Pacific Smiles, or at all. There is a heightened risk for new lease agreements in a scenario where Pacific Smiles is delisted from the ASX given landlords might be entitled to request bank guarantees or impose other more onerous obligations on Pacific Smiles.

If Pacific Smiles is unable to renew its existing lease agreements or enter into new lease agreements on acceptable terms, this may increase Pacific Smiles' operating costs and adversely affect its financial performance and position. Further, any failure by Pacific Smiles to comply with the terms of its leases, deterioration in relationships with its landlords or other actions taken by landlords may negatively impact the security of tenure of Pacific Smiles' dental centres.

While Pacific Smiles remains listed on the ASX, any new leases, or renewals of existing leases in certain circumstances, will not be covered by retail leases legislation in certain states and territories, and landlords will be able to pass relevant costs on to Pacific Smiles which they may not otherwise be able to do to non-ASX listed lessees. This may lead to increased outgoings for Pacific Smiles and may have an adverse impact on its financial and operating performance.

**(q) Cybersecurity and IT systems**

Pacific Smiles retains personal information about its patients, dentists and employees in its systems, including relating to patients' health and sensitive information regarding treatments. If the data was to be illegally obtained and publicly disclosed, this would have a severe impact on Pacific Smiles' reputation and clients may seek compensation.

Pacific Smiles continues to implement cybersecurity controls aligned to the achievement of prescribed standards of the Australian Signals Directorate to minimise technology related business interruptions and to assure the privacy of patient information. However, adverse actors can be highly sophisticated and it is not possible to completely eliminate this risk.

Pacific Smiles relies on third party providers and it is possible that they could be impacted by unforeseen events such as power outages, hardware failures, computer viruses, attacks by hackers, telecommunication failures, user errors or other unforeseen events. If Pacific Smiles' information technology systems suffer severe damage, disruption or shutdown, Pacific Smiles' operations may be materially and adversely affected, and fines may be payable by Pacific Smiles which may have an adverse effect on its financial position.

**(r) Increased competition**

The market for the provision of dental services is subject to significant competition. Dental practitioners generally compete with one another on factors such as price, convenience of location, responsiveness, range of services available and quality of service. Existing competitors or new entrants to markets in which Pacific Smiles currently operates may be successful in taking market share from Pacific Smiles. Notwithstanding this, Pacific Smiles considers it provides an attractive option to dentists and patients based on convenience, value, access and overall experience.

**(s) Inconsistency of patient experience between dental centres**

Pacific Smiles' network of dental centres operates in different locations, and in connection with different private health insurers. The dental centres which Pacific Smiles operates comprise a mixture of dental centres owned by Pacific Smiles and HBF Dental Centres. Pacific Smiles also, in the ordinary course of business, frequently opens new dental centres, relocates existing dental centres and closes underperforming dental centres.

Patients may have differing experiences of service and quality of care from centre to centre, which may impact Pacific Smiles' brand and reputation. Poor patient experience at any one dental centre may have adverse consequences for patient loyalty to the dentist and the potential for further appointment visitations. Where dental centres are closed, there is also a risk that Pacific Smiles is unable to retain patients at its other dental centres.

**(t) Reliance on third party suppliers**

Pacific Smiles relies on third party suppliers for equipment, personal protective equipment and dental consumables. Pacific Smiles also relies on third party providers for various services including point of sale software, online training platforms, online accounting platforms and online marketing platforms. A disruption to the operations of any of Pacific Smiles' third party suppliers could restrict, interrupt or otherwise adversely affect Pacific Smiles' operations. These may be for reasons including a shortage of key medical consumables, a production or systems outage or significant disputes (including with Pacific Smiles), lack of availability of maintenance services, material damage or destruction of a supplier's facilities, a significant workplace safety incident or a compliance or cyber breach.

In respect of physical material supplies, Pacific Smiles has long-term relationships with national and international suppliers and has identified alternate suppliers where appropriate. Additionally, Pacific Smiles seeks to hold enough necessary supplies and diversify its suppliers for its key categories. However, there is a risk that Pacific Smiles may fail to manage its inventory appropriately or achieve such diversity in its supply relationships at all times. There is no guarantee that Pacific Smiles will be successful in securing an appropriate substitute for these third party suppliers at short notice. There is also a risk that Pacific Smiles may not be able to retain its existing arrangements with its third party suppliers and any new arrangements may not be as favourable to Pacific Smiles. This may have an adverse impact on Pacific Smiles' financial performance and future prospects.

Pacific Smiles maintains relationships with its equipment, maintenance and consumables suppliers in particular, which provides Pacific Smiles with opportunities to capitalise on purchasing benefits and gain access to a broad catalogue of supplies, services and other innovative opportunities that benefit its business. If there is a breakdown in Pacific Smiles' relationships with any of these suppliers, Pacific Smiles would need to seek alternative relationships and it is not assured that these alternative relationships will be as advantageous to Pacific Smiles or enable Pacific Smiles to maintain its performance.

**(u) Failure to implement business model and framework successfully**

While Pacific Smiles has significant experience as a greenfield developer and operator of dental centres, there is no guarantee that it will be able to continue to implement its organic growth model as planned. For instance, Pacific Smiles may not be able to grow beyond its existing dental centres due to weaker than anticipated demand for Pacific Smiles' services by patients or dentists, adverse changes in the perception of Pacific Smiles' brand or due to other risks noted in this Section. For this reason, Pacific Smiles assesses on an ongoing basis the performance of individual dental centres and may determine it is appropriate to close underperforming dental centres.

Additionally, Pacific Smiles' ability to open new centres may be affected by a number of factors, including availability of suitable sites which fit within its business model and framework, such as appropriate shopping centres. Pacific Smiles' growth model is also dependent on its ability to reach agreement with landlords in relation to lease terms, and its ability to continue to be engaged by dental practitioners. Any failure to successfully implement its business model and framework may have an adverse effect on Pacific Smiles' future financial performance and growth prospects.

**(v) Insurance**

Pacific Smiles currently has in place what it believes are adequate levels of insurance for property, industrial and special risks (including business interruption), public liability, directors' and officers' liability, medical malpractice and workers' compensation to protect Pacific Smiles from potential losses and liabilities. However, there is a possibility that events may arise which are not adequately covered by Pacific Smiles' existing insurance policies and Pacific Smiles cannot guarantee that its existing insurance will be available or offered in the future. An inability of Pacific Smiles to maintain such cover in the future could limit the ability of Pacific Smiles to conduct its business, which could have a negative impact on the financial results and prospects of Pacific Smiles. Further, there is a risk that insurance premiums may increase to a level where Pacific Smiles considers it is unreasonable or not in its interests to maintain insurance cover or not to a level of coverage which is in accordance with current industry practice.

**(w) Access to funding and service of debt financing**

There is a risk that Pacific Smiles may not be able to raise debt finance or new equity in the future to continue to pursue its business strategy and grow its business. Pacific Smiles' ability to raise additional funds on favourable terms, or at all, will be subject to, among other things, factors beyond the control of Pacific Smiles and the Directors, including cyclical factors affecting the economy and share markets generally.

**(x) Litigation or other disputes**

From time to time, Pacific Smiles may be involved in litigation, claims or other disputes relating to matters such as personal injury (for example, in relation to adverse reactions to services provided), privacy breaches, intellectual property, contractual matters, employee and workplace health and safety, Fair Work Commission and union matters and other claims arising in the ordinary course of Pacific Smiles' business or otherwise.

Litigation may adversely impact upon the operational, reputational and financial performance of Pacific Smiles, and may also negatively impact on the price of Pacific Smiles Shares. Should Pacific Smiles pursue claims against a third party, such process may utilise significant management and financial resources, and a positive outcome for Pacific Smiles cannot be guaranteed. Even if Pacific Smiles is successful in obtaining a judgment against a third party, Pacific Smiles may be unable to recover any monies from that party (for example, if the relevant third party has inadequate financial resources to cover any damages judgment awarded in favour of Pacific Smiles).

Adverse litigation outcomes could negatively impact Pacific Smiles' business, financial condition and reputation.

**(y) Unique business intelligence**

The value of Pacific Smiles' services is dependent on its ability to continue to capitalise on its unique operating model and business intelligence related to its greenfield roll-out model, including its business processes and know-how. While Pacific Smiles does not consider it has any material intellectual property, it has certain intellectual property rights which are used in its operations and marketing, including business names, copyrights

and trademarks. There is a risk that Pacific Smiles may be unable to detect the unauthorised use of its intellectual property rights in all instances and, if it decides to enforce such rights, this may be challenging and expensive.

Additionally, Pacific Smiles' commercial success is dependent on its ability to operate without infringing, misappropriating or otherwise violating the intellectual property rights of others (either inadvertently or otherwise). Third parties may allege that Pacific Smiles has infringed, misappropriated or otherwise violated intellectual property rights in an attempt to gain a competitive advantage. Defending against allegations and litigation could be expensive, take significant time and divert management's attention. Pacific Smiles may also be required to pay substantial damages or be subject to court orders prohibiting Pacific Smiles and its dental practitioners from engaging in certain activities. This could have a material adverse effect on Pacific Smiles' business, financial condition and the results of its operations.

### **7.3 Risks associated with accepting the Offer**

If you accept the Offer, the following risks may apply to you.

#### **(a) No withdrawal rights**

As the Offer is unconditional, you will not be able to withdraw your acceptance under any circumstances and will therefore lose your exposure to the Pacific Smiles business, any right to participate in an alternative proposal or to receive any further dividends (as discussed further below).

#### **(b) Possibility of alternative proposal emerging**

If you accept the Offer, you will not be able to accept any alternative proposal that may be made.

However, given that Genesis Bidco has a Relevant Interest in 89.27% of the Pacific Smiles Shares on issue as at the Last Practicable Date, the Independent Directors consider it highly unlikely that any superior proposal will emerge given this would require the cooperation of Genesis Bidco. The Independent Expert's Report also notes that the likelihood of an alternative superior offer emerging and being capable of being successfully executed is low.

#### **(c) Taxation consequences of accepting the Offer**

The taxation consequences of disposing of your Pacific Smiles Shares pursuant to the Offer depend on a number of factors and your particular circumstances. A general outline of certain Australian tax considerations of such a disposal is set out in Section 8 of this Target's Statement. You should seek your own specific professional tax advice as to the taxation implications applicable to your circumstances.

#### **(d) Possible appreciation of Pacific Smiles Shares in the future**

You may be able to sell your Pacific Smiles Shares in the future for more valuable consideration than the Offer Price (though the Independent Directors can give no assurances and make no forecast of whether this will occur, and note the Offer Price represents a 37.5% premium to the last closing price on 9 October 2025 (being the Last Practicable Date)).

#### **(e) No right to further dividends**

If you accept the Offer, you will have no right to receive any further dividends from Pacific Smiles, or participate in any other capital returns to Shareholders.

## 8 Taxation considerations

### 8.1 Introduction

This Section 8 is a general summary of some Australian tax consequences for some Shareholders of transferring their Pacific Smiles Shares to Genesis Bidco under the Offer.

It does not constitute tax advice and should not be relied upon as such. Given its general nature, it cannot address all possible tax consequences and cannot consider the circumstances of any or all Shareholders.

The summary is based upon the Australian tax law and the ATO's publicly known administrative practices in effect as at the date of this Target's Statement.

Shareholders should seek independent professional advice in relation to their own particular circumstances.

Shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes), or who hold their Pacific Smiles Shares in connection with a taxable presence in another country, should take into account the tax consequences under the laws of those other countries, as well as under Australian law.

### 8.2 Guide for certain Shareholders only

The summary below is relevant to Shareholders who currently hold their Pacific Smiles Shares directly in their own names and on "capital" account (but it may not apply to any particular Shareholder in their personal circumstances).

The summary is not relevant to and does not apply to Shareholders who:

- (a) currently hold their Pacific Smiles Shares on "revenue" account. This includes for the purposes of a business of dealing in securities, including by making a gain on disposal;
- (b) acquired their Pacific Smiles Shares pursuant to an employee share, option or rights plan;
- (c) are financial institutions, insurance/life insurance companies, partnerships, superannuation funds, tax exempt organisations, temporary residents or other entities or persons to whom specific tax rules apply;
- (d) are Australian residents who currently hold their Pacific Smiles Shares as part of an enterprise carried on at or through a permanent establishment in a foreign country; or
- (e) change or changed their tax residence while holding Pacific Smiles Shares.

This list of excluded Shareholders is not intended to be exhaustive. Shareholders should seek independent professional advice in relation to their own particular circumstances.

### 8.3 Australian resident Shareholders – disposal of Pacific Smiles Shares

The following is a general summary of some Australian income tax implications expected to arise for some Australian resident Shareholders on disposal of their Pacific Smiles Shares under the Offer.

(a) Disposal of Pacific Smiles Shares

The disposal of Pacific Smiles Shares by Shareholders to Genesis Bidco will constitute a disposal (or CGT event) for CGT purposes. The time of the disposal for CGT purposes is:

- in the case of a Pacific Smiles Shareholder who accepts the Offer, the date that the Shareholder accepts the Offer; and
- in the case of a Shareholder whose Pacific Smiles Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, the date when Genesis Bidco becomes the owner of the shares.

(b) Calculating a capital gain or loss

***Making a capital gain or loss***

A Shareholder will make:

- a capital gain if the “capital proceeds” from the disposal of their Pacific Smiles Shares are greater than the “cost base” of the Pacific Smiles Shares; or
- a capital loss if the “capital proceeds” from the disposal of their Pacific Smiles Shares are less than the “reduced cost base” of the Pacific Smiles Shares.

A Shareholder who acquired Pacific Smiles Shares at different times may make capital gains on some shares and capital losses on other shares. Capital gains and losses must be calculated separately for each tranche of Pacific Smiles Shares.

***Capital proceeds***

The capital proceeds received for the disposal of a Shareholder’s Pacific Smiles Shares is the Offer Price of \$2.20 cash per Pacific Smiles Share.

***Cost base and reduced cost base***

The cost base (and reduced cost base) of the Pacific Smiles Shares should generally be their cost of acquisition and certain non-deductible incidental costs of acquisition, ownership and disposal. Certain costs are excluded from the calculation of the reduced cost base. A Shareholder who acquired Pacific Smiles Shares at different times may have different cost bases (and reduced cost bases) for each tranche of Pacific Smiles Shares.

***CGT discount***

Individuals, complying superannuation entities or trustees (other than of complying superannuation entities) that have held the Pacific Smiles Shares for at least 12 months (excluding the days of acquisition and disposal) prior to the CGT event may be entitled to discount the amount of any capital gain (after application of capital losses, whether from Pacific Smiles Shares, other assets or brought forward from prior years).

The discount is half ( $\frac{1}{2}$ ) in the case of individuals and trustees (other than of complying superannuation entities) and one-third ( $\frac{1}{3}$ ) for complying superannuation entities.

Whether a beneficiary of a trust (other than of complying superannuation entities) will be entitled to retain the trustee’s CGT discount will depend on the particular circumstances of the beneficiaries.

Companies that hold Pacific Smiles Shares are not eligible for a CGT discount.

### ***Capital gains subject to tax***

As noted above, capital losses from the same and prior years are deducted from the capital gains before the application of the CGT discount.

If the capital gains exceed the capital losses, the discount (if any) is applied and the discounted net capital gains are included in the assessable income of the relevant Pacific Smiles Shareholder and is subject to income tax. If the capital losses from the current year exceed the capital gains, the net capital losses cannot be deducted against other income for income tax purposes, but can be carried forward to offset future capital gains (subject to satisfaction of loss recoupment tests for certain taxpayers).

#### **8.4 Non-resident Shareholders – disposal of Pacific Smiles Shares**

Shareholders who are not residents of Australia for Australian tax purposes and do not hold their Pacific Smiles Shares in carrying on a business at or through a permanent establishment in Australia will generally not have to pay Australian tax on any capital gain when they dispose of their Pacific Smiles Shares as Pacific Smiles does not expect that the “principal asset test” will be met. The principal asset test requires that the market value of Pacific Smiles’ direct and indirect interests in Australian land (including leases) is more than the market value of its other assets on the day that Genesis Bidco becomes the owner of the Pacific Smiles Shares.

Even if the principal asset test is met, non-resident Shareholders who do not hold their Pacific Smiles Shares in carrying on a business at or through a permanent establishment in Australia and who, together with their associates, do not hold at least a 10% interest in Pacific Smiles:

- on the day that Genesis Bidco becomes the owner of the Pacific Smiles Shares; or
- for a continuous period of 12 months in the two years ending on that date,

(the “non-portfolio interest test”) will generally not have to pay Australian tax on any capital gain when they dispose of their Pacific Smiles Shares.

#### **8.5 Withholding tax – disposal of Pacific Smiles Shares**

Genesis Bidco may have an obligation to withhold an amount of up to 15% of the consideration payable to Shareholders and pay such amount to the ATO.

Genesis Bidco should not have an obligation to withhold tax if either the principal asset test or the non-portfolio interest test is not met. The Bidder’s Statement states that Genesis Bidco is not currently aware of any amounts that are or would be treated as withholding amounts under the terms of the Offer, but notes it is possible that Genesis Bidco may become aware of an obligation in this regard and reserves the right to withhold.

#### **8.6 GST**

Shareholders should not be liable for GST in respect of a disposal of their Pacific Smiles Shares. However, Shareholders may be charged GST on costs relating to their participation in the Offer (such as adviser fees). Shareholders that are registered for GST may be entitled to input tax credits or reduced input tax credits for such costs.

#### **8.7 Stamp duty**

Shareholders should not be liable for any stamp duty in any Australian State or Territory in relation to the disposal of their Pacific Smiles Shares.

## 9 Additional information

### 9.1 Bid Implementation Agreement

On 10 October 2025, Pacific Smiles and Genesis Bidco entered into a Bid Implementation Agreement, pursuant to which Genesis Bidco agreed to make its unconditional off-market takeover bid to acquire all of the Pacific Smiles Shares that it does not already own for \$2.20 cash per Pacific Smiles Share.

A summary of the key terms of the Bid Implementation Agreement is set out in section 10.1 of the Bidder's Statement, and a full copy of the Bid Implementation Agreement was released to the ASX on the date of this Target's Statement.

### 9.2 Interests of Directors in Pacific Smiles

As at the Last Practicable Date, none of the Directors had a Relevant Interest in Pacific Smiles Shares.

Further, none of the Directors have acquired or disposed of interests in Pacific Smiles Shares in the four months ending on the date of this Target's Statement.

### 9.3 Interests of Directors in Genesis Bidco

As at the Last Practicable Date, the Directors had the following Relevant Interests in the securities of Genesis Bidco or any Related Body Corporate of Genesis Bidco.

Director	Relevant Interest
Mr Gary Carroll	Nil
Dr Michael Caristo	Nil
Mr Christopher Yoo	Nil
Ms Tara Hariharan	Nil
Mr Steven Rubic	Nil
Mr Brent Cubis	Nil

Additionally, each of Dr Michael Caristo, Mr Christopher Yoo and Ms Tara Hariharan were appointed as Directors of Pacific Smiles by Genesis Bidco, and have the following roles within the Bidder Group:

- Dr Michael Caristo and Mr Christopher Yoo are each founding partners of Genesis Capital and current directors of various Genesis Capital portfolio companies, including Genesis Bidco; and
- Ms Tara Hariharan is employed as an investment manager at Genesis Capital and is a current director of Genesis Capital and its portfolio company, Impression Dental Group.

Accordingly, the Pacific Smiles Board established the Independent Board Committee (comprising only the Independent Directors) for the purposes of evaluating and negotiating the Offer and preparing this Target's Statement.

#### **9.4 Impact of the Offer on Pacific Smiles' senior employee and Director arrangements**

The Offer will not have any impact on Pacific Smiles' arrangements for its senior employees or Directors.

#### **9.5 Material litigation**

As at the Last Practicable Date, Pacific Smiles is not aware of any material disputes or litigation being undertaken, commenced or threatened against any member of the Pacific Smiles Group.

#### **9.6 Consents**

##### **(a) Independent Directors' consent**

Each of the Independent Directors has given and not withdrawn their consent to:

- being named in this Target's Statement in the form and context in which they are named; and
- statements attributable to them being included in this Target's Statement in the form and context in which they appear.

##### **(b) Pacific Smiles' consent**

The Independent Directors have consented to the dispatch of the Bidder's Statement to Shareholders earlier than 14 days after the date it was given to Pacific Smiles.

##### **(c) Third parties**

The following parties have given, and have not withdrawn before the lodgement of this Target's Statement with ASIC, their written consent to be named in this Target's Statement in the form and context in which they are so named and to the inclusion of statements attributable to them in the form and context in which they appear:

- Gilbert + Tobin, to being named in this Target's Statement, and the covering page to this Target's Statement dispatched to Shareholders, as Australian legal advisers to Pacific Smiles; and
- Automic Pty Ltd (ACN 152 260 814), to being named in this Target's Statement as share registry to Pacific Smiles.

Additionally, Deloitte Corporate Finance Pty Limited has given (in its Independent Expert's Report), and has not withdrawn before the Last Practicable Date, its consent to:

- be named in this Target's Statement as the Independent Expert in the form and context in which it is named;
- the inclusion of the Independent Expert's Report in the form and context in which it is included in this Target's Statement; and
- the inclusion of statements and references in this Target's Statement which are based on or referable to statements made in the Independent Expert's Report in the form and context in which each such reference is included.

None of the persons named above have caused or authorised the issue of this Target's Statement, nor makes or purports to make any statement in this Target's Statement or any statement on which a statement in this Target's Statement is based or takes any responsibility for any part of this Target's Statement, other than any reference to its name.

(d) Publicly available information

As permitted by *ASIC Corporations (Takeover Bids) Instrument 2023/683*, this Target's Statement may include or be accompanied by statements which are made in documents lodged with ASIC or ASX. Provided this Target's Statement fairly represents such statements, the consent of the parties making those statements is not required for, and those parties have not consented to, the inclusion of such statements in this Target's Statement.

Shareholders may, during the Offer Period, obtain a copy of the documents (free of charge) in which the aforementioned statements appear (or in which statements based on those statements appear, as the case may be), or the relevant part(s) of any of those documents, by contacting Pacific Smiles on 02 4930 2000 between 8.30am and 5.30pm (Sydney time), Monday to Friday (excluding public holidays), or email [investor.relations@pacificsmiles.com.au](mailto:investor.relations@pacificsmiles.com.au).

In addition, as permitted by *ASIC Corporations (Consents to Statements) Instrument 2016/72*, this Target's Statement may include or be accompanied by statements fairly representing a statement by an official person, or statements from a public official document or a published book, journal or comparable publication.

## 9.7 ASIC modifications

Pacific Smiles has received in-principle approval from ASIC for an exemption from the requirements of section 638 of the Corporations Act so that this Target's Statement does not need to contain information to the extent that it is known only to Dr Michael Caristo, Mr Christopher Yoo or Ms Tara Hariharan for the reasons set out in Section 1.5 of this Target's Statement. This is on the basis that each of the Nominee Directors have been appointed as Directors of Pacific Smiles by Genesis Bidco, and may therefore have a potential conflict of interest in respect of the Offer.

The Pacific Smiles Board established the Independent Board Committee comprising only the Independent Directors for the purposes of evaluating and negotiating the Offer and preparing this Target's Statement. Accordingly, each of the Nominee Directors were not involved in Pacific Smiles' evaluation of the Offer, have not participated in any Pacific Smiles Board or Independent Board Committee deliberations regarding the Offer and this Target's Statement.

In addition, ASIC has published various instruments which modify the Corporations Act and provide exemptions to certain provisions of the Corporations Act, including those in Chapter 6 of the Corporations Act. These instruments apply generally to all persons, including Pacific Smiles.

Amongst others, Pacific Smiles has relied on *ASIC Corporations (Takeover Bids) Instrument 2023/683*, which permits this Target's Statement to include or be accompanied by statements which are made in documents lodged with ASIC or ASX, without the consent of the parties making those statements, provided this Target's Statement fairly represents such statements.

## 9.8 No other material information

This Target's Statement is required to include all information that Shareholders and their professional advisers would reasonably require to make an informed assessment whether to accept the Offer, but:

- only to the extent to which it is reasonable for investors and their professional advisers to expect to find the information in this Target's Statement; and
- only if the information is known to any of the Independent Directors.

As noted in Section 9.7 above, Pacific Smiles has received in-principle approval from ASIC for an exemption from the requirements of section 638 of the Corporations Act to the extent that it would require the disclosure of information that is known only to the Nominee Directors.

Therefore, the Independent Directors are of the opinion that the information that Shareholders and their professional advisers would reasonably require to make an informed assessment of whether to accept the Offer is the information contained in:

- the Bidder's Statement (to the extent that the information is not inconsistent with or superseded by information in this Target's Statement);
- Pacific Smiles' releases to ASX before the date of this Target's Statement;
- documents lodged by Pacific Smiles with ASIC before the date of this Target's Statement; and
- this Target's Statement.

The Independent Directors have assumed, for the purposes of preparing this Target's Statement, that the information contained in the Bidder's Statement is accurate (unless they have expressly indicated otherwise in this Target's Statement). However, the Independent Directors do not take any responsibility for the contents of the Bidder's Statement and are not to be taken as endorsing, in any way, any or all of the statements contained in it.

In deciding what information should be included in this Target's Statement, the Independent Directors have had regard to:

- the nature of the Pacific Smiles Shares (being fully paid ordinary shares);
- the matters which Non-Associated Shareholders may reasonably be expected to know;
- the fact that certain matters may reasonably be expected to be known to the professional advisers of Shareholders; and
- the time available to Pacific Smiles to prepare this Target's Statement.

Independent expert's report and Financial Services Guide

10 October 2025

# Financial Services Guide (FSG)

## What is an FSG?

An FSG is designed to provide information about the supply of financial services to you.

## Why are we providing this FSG to you?

Deloitte Corporate Finance Pty Limited (DCF) (AFSL 241457) has been engaged by Pacific Smiles Group Limited (PSQ) to prepare an independent expert's report (our **Report**) in connection with a takeover offer from Beam Dental Bidco Pty Ltd (**Genesis Bidco**) to acquire all remaining PSQ shares it does not already own (**Takeover**). PSQ will provide our Report to you.

Our Report provides you with general financial product advice. This FSG informs you about the use of general financial product advice, the financial services we offer, our dispute resolution process and our remuneration. Our contact details are in the document that accompanies this FSG.

## What financial services are we licensed to provide?

We are authorised to provide financial product advice to wholesale clients in relation to derivatives, government debentures, stocks or bonds, interests in managed investment schemes, securities, and regulated emissions units (i.e. Australian carbon credit units and eligible international emissions units). We can also provide general financial product advice to retail clients in relation to the above financial products except for regulated emissions units.

We are also authorised to arrange for another person to deal in financial products in relation to:

- securities, interests in managed investment schemes, government debentures, stocks or bonds, and regulated emissions units and related derivatives to wholesale clients; and
- derivatives to retail and wholesale clients.

## We are providing general financial product advice

In our Report, we provide general financial product advice as we have **not** taken into account your personal objectives, financial situation or needs, and you would not expect us to have done so. You should consider whether our advice is appropriate for you, having regard to your own personal objectives, financial situation or needs.

If our advice is provided to you in connection with the acquisition of a financial product, you should read the relevant offer document carefully before making any decision about whether to acquire that product.

## How are we remunerated?

Our fees are usually determined on a fixed fee or time cost basis plus reimbursement of any expenses incurred in providing the services. Our fees are agreed with, and paid by, those who engage us. You are not responsible for our fees.

We will receive a fee of approximately \$200,000 exclusive of GST in relation to the preparation of this report. This fee is not contingent on the outcome of the Takeover. We also prepared an independent expert's report in respect of a prior offer received from entities associated with Crescent Capital in 2024. We received a fee of \$200,000 exclusive of GST in relation to the preparation of that report.

Apart from these fees, DCF, our directors and officers, and any related bodies corporate, affiliates or associates, and their directors and officers, do not receive any commissions or other benefits.

All employees receive a salary, and, while eligible for annual salary increases and bonuses based on overall performance, they do not receive any commissions or other benefits as a result of the services provided to you. The remuneration paid to our directors reflects their individual contribution to the organisation and covers all aspects of performance. We do not pay commissions or provide other benefits to anyone who refers prospective clients to us.

## Associations and relationships

The Deloitte member firm in Australia (Deloitte Touche Tohmatsu) controls DCF. Please see [www.deloitte.com](http://www.deloitte.com) for a detailed description of the legal structure of Deloitte Touche Tohmatsu.

We, and other entities related to Deloitte Touche Tohmatsu, do not have any formal associations or relationships with any entities that are issuers of financial products. However, we may provide professional services to issuers of financial products in the ordinary course of business.

## What should you do if you have a complaint?

Dear IBC members,

## Re: Independent expert's report

## Introduction

Pacific Smiles Group Limited (**PSQ**) has received a takeover offer from Beam Dental Bidco Pty Ltd (**Genesis Bidco**) to acquire all the PSQ shares it does not already own (the **Takeover**) for \$2.20 cash each (the **Proposed Consideration**). Genesis Bidco is an entity associated with Genesis Capital Manager I Pty Ltd (which, together with other entities associated with Genesis Capital Manager I Pty Limited, is referred to as **Genesis Capital**).

An overview of the Takeover is provided in Section 1 of our report, and full details are included in the Target's Statement, which PSQ expects to lodge with ASIC and the ASX on 10 October 2025.

## Purpose of the report

Under Section 640 of the Corporations Act 2001 (Cth) (**Section 640**), a Target's Statement given in response to a takeover offer must include, or be accompanied by, an independent expert's report if either the bidder's voting power in the target is 30% or more, or the bidder and target have one or more common directors, to assist non-associated shareholders in their decision whether to accept or reject the Takeover.

Genesis Capital (through Genesis Bidco) currently owns 89.27% of the shares in PSQ and have common directors. An independent expert's report is therefore required under Section 640.

The Independent Board Committee of PSQ (**IBC**) has requested Deloitte Corporate Finance Pty Limited (**Deloitte Corporate Finance**) to provide an independent expert's report advising whether, in our opinion, the Takeover is fair and reasonable so far as PSQ shareholders not associated with Genesis Capital are concerned (**Non-Associated Shareholders**).

## Basis of evaluation

In preparing this report, we have had regard to the ASIC Regulatory Guide 111 in relation to the content of the expert's reports and ASIC Regulatory Guide 112 in respect of the independence of the experts.

Further information on the basis of the evaluation is set out in Section 2.

## Summary and conclusion

In our opinion, the Takeover is fair and reasonable to Non-Associated Shareholders. In arriving at this opinion, we have had regard to the following:

### The Takeover is fair

According to ASIC Regulatory Guide 111, in order to assess whether a Takeover is fair, the independent expert is required to compare the market value of a PSQ share on a control basis with the consideration being offered. The Takeover is fair if the value of the consideration is equal to or greater than the value of a PSQ share. Set out in the table below is our comparison:

**Table 1: Comparison of our valuation of a PSQ share to the Proposed Consideration**

\$	Section	Low	High
Estimated market value of one PSQ share	4.1	2.13	2.56
Proposed Consideration	1.1	2.20	2.20

Source: Deloitte Corporate Finance analysis

The consideration offered is within the range of our estimate of the market value of a PSQ share. Accordingly, it is our opinion that the Takeover is fair.

### Valuation of a PSQ share

We have estimated the enterprise value of PSQ by applying the market multiples and the discounted cash flow approaches, as set out in the table below.

**Table 2: Valuation of a PSQ share**

\$m (unless otherwise stated)	Section	Low	High
Market multiples approach (primary approach)	4.3	324.0	360.0
Discounted cash flow approach (secondary approach)	4.4	360.0	400.0
<b>Enterprise value (selected)</b>		<b>330.0</b>	<b>400.0</b>
Add/(less): Surplus assets/(liabilities)	4.5	-	-
Add: Net cash	4.6	13.5	13.5
<b>Equity value (control basis)</b>		<b>343.5</b>	<b>413.5</b>
Number of shares (No.)	4.7	161.6	161.6
<b>Equity value per share (\$)</b>		<b>2.13</b>	<b>2.56</b>

Source: Deloitte Corporate Finance analysis

Under the market multiples approach (which is our primary approach), we have estimated earnings before interest, tax, depreciation and amortisation (**EBITDA**) to be \$36.0m on a pre-Australian Accounting Standards Board 16 Leases (**AASB 16**) basis. This estimate is based on our analysis of a normalised, underlying EBITDA for PSQ, and having regard to the current market environment, management of PSQ's (**Management**) plan for the business and certain costs we consider that a market participant would be able to avoid by taking the business private. The selected earnings multiple of 9.0x to 10.0x was based on the earnings multiples observed from transactions and share market trading in publicly listed companies in the dental services and broader health services sector.

The discounted cash flow approach (which has been used as a secondary approach) requires the determination of an appropriate discount rate and the projection of future cash flows. We selected a nominal after tax discount rate in the range of 10.5% to 11.5% to discount the estimated future cash flows to their present value. We considered a number of scenarios having regard to PSQ's performance to date, the latent capacity within existing centres and the opportunity for further centre rollouts, which PSQ has historically undertaken but paused during FY24 and FY25.

We have selected an enterprise value range of between \$330.0m and \$400.0m. We consider that the top end of this range reflects the value of the platform embedded in PSQ, which could be realised over the medium to long term.

Our valuation takes account of benefits available to market participants, including listed company cost savings and cost synergies which PSQ shareholders will not benefit from if the Takeover is unsuccessful.

Additional details of our valuation of PSQ are set out in Section 4.

### **The Takeover is reasonable**

In accordance with ASIC Regulatory Guide 111 an offer is reasonable if it is fair. On this basis, in our opinion the Takeover is reasonable.

We also highlight the following that Non-Associated Shareholders may wish to consider in their assessment of the Takeover.

#### **Non-Associated Shareholders are receiving a premium for control and a premium to the share price of PSQ prior to the announcement of the Takeover**

The Proposed Consideration represents a substantial premium over recent trading in PSQ shares.

We highlight that since the original takeover offer by Genesis Capital closed in February 2025 (which resulted in it acquiring an 89.27% interest), ASX trading volumes in PSQ has been low.

PSQ shares have not traded above \$2.20 (being the Proposed Consideration) since 3 May 2022 (more than 3 years ago) and have underperformed the broader Australian share market in recent periods.

As outlined above, we have estimated the market value of a PSQ share on a control basis. Notwithstanding that Genesis Capital already has control (and therefore Non-Associated Shareholders individually or collectively do not have control), given the Proposed Consideration falls within our estimated market value range for a PSQ share, we consider that Non-Associated Shareholders are receiving a control premium.

#### **The Proposed Consideration is higher than any formal offer that has been received for control of PSQ**

During 2024, there was a price discovery process that resulted in a number of offers being made for control of PSQ. A discussion of these offers is provided in Section 3.9.1. The Proposed Consideration exceeds all of the offers received in that period.

#### **There is certainty in the cash consideration**

The Takeover represents an opportunity for Non-Associated Shareholders to realise their investment at \$2.20 per share. If the Takeover is unsuccessful, Non-Associated Shareholders will continue to be exposed to the risks and rewards associated with an investment listed on the ASX. This applies to:

- opportunities to the upside, such as:
  - to the extent that Management is able to successfully realise the benefits of the embedded capacity in existing centres through growing the number of chairs
  - the successful optimisation of currently underperforming centres and newer cohorts which are yet to ramp up
  - market conditions improving such that the business is able to return to consistently investing in the greenfield model for growth (further discussed in Section 3.3).
- downside risks, such as:
  - an inability to increase the profitability of underperforming or loss generating centres
  - unfavourable changes to material contracts
  - continued elevated levels of cost inflation which are not capable of being recovered through fees
  - sustained economic downturn and reluctance on the part of consumers to spend, noting the discretionary nature of dental services expenditure
  - the possibility of further negative assessments or determinations in respect of payroll tax
  - the directors of PSQ electing not to declare dividends
  - the possibility that PSQ may be delisted from trading of its shares on the ASX.

We highlight that PSQ is in a strong financial position with net cash on hand. As such, in the absence of a downturn in operations or Management electing to pursue a growth strategy that requires substantial investment, it is in a position to continue paying dividends (subject to the Directors declaring such dividends).

**Genesis Capital already has control and is influencing the operations and activities of PSQ**

Genesis Capital already owns 89.27% of the shares in PSQ. In addition, following the resignation of Gary Carroll, Genesis Capital representatives will comprise the majority of the board of PSQ.

Genesis Capital is already significantly influencing the operations and activities of PSQ. They have the rights to further influence the operations and activities of PSQ and it could be the case that such decisions may not align with the interests of Non-Associated Shareholders.

**The likelihood of an alternative superior offer emerging is low**

PSQ was subject to a public process which resulted in offers from Genesis Capital and NDC Bidco Pty Ltd (**NDC**), an entity associated with Crescent Capital (another private equity firm), in 2024. Genesis Capital initially offered a price of \$1.40 per share and subsequently revised their offer to \$1.75 per share.

Following a competing proposal from NDC, PSQ entered into a scheme of arrangement with NDC in April 2024 under which PSQ's shares would be acquired at \$1.90 per share. This was later revised to \$1.91 per share in July 2024.

In response, Genesis Capital submitted a counteroffer of \$1.90 per share. NDC then increased its offer to \$2.05 in August 2024. However, NDC was unable to obtain the requisite level of shareholder support (partly because Genesis Capital voted against the proposal) and the scheme of arrangement with NDC was terminated later that month.

In October 2024, Genesis Capital made a takeover offer of \$1.95 per share (excluding a \$0.0325 fully franked dividend that was declared by PSQ) payable in cash, stub equity in a new holding company or a combination of both. Through a combination of on-market acquisitions and acceptances of its offer, Genesis Capital controlled 89.27% of PSQ shares by the time of the close of the offer in February 2025.

As such, with Genesis Capital having control, holding 89.27% of the PSQ shares on issue, and given the historical price discovery process, the likelihood of an alternative superior offer emerging and being capable of being successfully executed is low.

**PSQ's share price may decline if the Takeover is not successful**

Since the close of the prior takeover offer in February 2025, PSQ's shares have traded at a discount to the Proposed Consideration. Since 30 June 2025, they have not traded above \$1.66 per share.

We also highlight that our valuation of PSQ, which has been undertaken on a control basis, accounts for certain benefits that PSQ would not be able to realise on a standalone, ASX listed basis.

Noting the above factors, in the event the Takeover is unsuccessful and in the absence of an alternative offer, we consider that PSQ's share price may decline to the levels observed prior to the announcement of the Takeover. Whilst a buyback or capital return may be an option (given the company has a strong cash position) and could potentially support the share price, this would risk further reducing the liquidity of shares over the long-term.

**Genesis Capital may be able to proceed to compulsory acquisition**

Dr Alison Hughes, who at the time of this report holds 10.01% of shares in PSQ, has not indicated she will vend her shares into the Takeover and accept the Proposed Consideration. However, if she chooses to do so, given the substantial shareholdings of Genesis Capital and Dr Alison Hughes, Genesis Capital will own more than 90% of the shares in PSQ, which would then allow it to proceed to compulsorily acquire all remaining shares. Whilst this would ultimately achieve the same outcome as selling shares into the Takeover, the receipt of the proceeds under a compulsory buyback will take longer.

**Genesis Capital may be able to realise additional benefits from the acquisition of PSQ**

Genesis Capital may be able to realise additional synergies from owning 100% of PSQ. Whilst our valuation accounts for certain synergies available to a buyer of PSQ, it is possible that Genesis Capital may be able to extract additional synergies that are unique to them and over and above those factored into our valuation of PSQ.

**Opinion**

In our opinion, the Takeover is fair and reasonable, and therefore in the best interests of, PSQ shareholders in the absence of a superior proposal.

An individual shareholder's decision in relation to the Takeover may be influenced by their particular circumstances. If in doubt the shareholder should consult an independent adviser, who should have regard to their individual circumstances.

This opinion should be read in conjunction with our detailed report which sets out our scope and findings.

Yours faithfully

**Tapan Parekh**

# 1 Overview of the Takeover

## 1.1 The Takeover

The Takeover to acquire all the issued shares in PSQ that Genesis Capital does not already own at \$2.20 per share is expected to be made on or around 10 October 2025. Genesis Capital has a pre-existing interest that represents 89.27% of the issued shares of PSQ.

Trading in PSQ shares on the ASX is infrequent. However, the last trade occurred on 25 September 2025, and it occurred at a price of \$1.525 per share.

The members of the IBC have not been advised by major shareholder Alison Hughes (who owns 10.01% of the issued shares of PSQ) whether she intends to accept the Takeover by accepting all of the shares she owns or controls into the Takeover.

The IBC has unanimously recommended that Non-Associated Shareholders accept the Takeover in the absence of a Superior Proposal (as defined in the Target's Statement) and subject to the independent expert concluding that the Takeover is fair and reasonable to the Non-Associated Shareholders. More details on the IBC's considerations are set out in Section 1 of the Target Statement.

## 1.2 Background to Genesis Capital

Genesis Capital, founded in 2018 and headquartered in Sydney, is an Australian private equity firm with a portfolio of 10 healthcare companies across the Asia Pacific region.

Further details on Genesis Capital are included in Section 4 of the Bidder's Statement and Section 6 of the Target's Statement.

Genesis Capital made a takeover offer, priced at \$1.95 per share, in October 2024 and controlled 89.27% by the time of the close of the offer in early 2025. This followed an unsuccessful takeover proposal from NDC in respect of which Deloitte Corporate Finance prepared an independent expert's report. Further details of the offers from NDC and Genesis Capital is set out in Section 3.9.

## 1.3 Key conditions of the Takeover

There are no material conditions attaching to the Takeover. Further details of the terms and conditions of the Takeover are set out in Section 11 of the Bidder's Statement.

The Bidder's Statement highlights that if Genesis Capital becomes entitled to compulsorily acquire outstanding shares under the provisions of either Part 6A.1 or Part 6A.2 of the Corporations Act, Genesis Capital presently intends to proceed with the compulsory acquisition of those Shares.

## 2 Basis of evaluation

### 2.1 Guidance

Section 640 of the Corporations Act 2001 requires an independent expert's report in connection with a takeover offer to state whether, in the expert's opinion, the takeover offer is fair and reasonable.

In undertaking the work associated with this report, we have had regard to ASIC Regulatory Guide 111 in relation to the content of expert's report. ASIC has also issued Regulatory Guide 112 in respect of the independence of experts, but this provides very little guidance in respect of evaluating transactions.

#### ASIC Regulatory Guide 111

This regulatory guide provides guidance in relation to the content of independent expert's reports prepared for a range of transactions.

ASIC Regulatory Guide 111 refers to a 'control transaction' as being the acquisition (or increase) of a controlling stake in a company that could be achieved, for example, by way of a takeover offer (under Section 640 of the Corporations Act), scheme of arrangement, approval of an issue of shares using item 7 of Section 611 of the Corporations Act, a selective capital reduction or selective buy back under Chapter 2J.

In respect of control transactions, under ASIC Regulatory Guide 111 an offer is:

- fair, when the value of the consideration is equal to or greater than the value of the shares subject to the takeover offer. The comparison must be made assuming 100% ownership of the target company.
- reasonable, if it is fair, or, despite not being fair, after considering other significant factors, shareholders should accept the takeover offer, in the absence of any higher bids before the close of the offer.

To assess whether the Takeover is in the best interests of PSQ shareholders, we have adopted the tests of whether the Takeover is either fair and reasonable, not fair but reasonable, or neither fair nor reasonable, as set out in ASIC Regulatory Guide 111.

### 2.2 Approach to evaluation of fairness

ASIC Regulatory Guide 111 defines an offer as being fair if the value of the offer price is equal to or greater than the value of the securities subject to the offer. The comparison must be made assuming 100% ownership of the target company.

Accordingly, we have assessed whether the Takeover is fair by comparing the consideration offered with the value of a share in PSQ on a control basis.

PSQ shares have been valued at market value, which we have defined as the amount at which the shares would be expected to change hands between a knowledgeable and willing but not anxious buyer and a knowledgeable and willing but not anxious seller, neither of whom is under any compulsion to buy or sell.

Special purchasers may be willing to pay higher prices to reduce or eliminate competition, to ensure a source of material supply or sales, or to achieve cost savings or other synergies arising on business combinations, which could only be enjoyed by the special purchaser. Our valuation of a PSQ share has not been premised on the existence of a special purchaser.

We have assessed whether the Takeover is fair by comparing the value of a PSQ share to the value of the consideration to be received from Genesis Capital. We have assessed the value of each PSQ share by estimating the current value of PSQ on a control basis and dividing this value by the number of shares on issue.

If PSQ shareholders are receiving equal to, or more than, our assessment of the market value of PSQ shares, then the Takeover would be fair. If the consideration is less than our assessment of the market value of PSQ shares, then the Takeover would be not fair.

## 2.3 Approach to evaluation of reasonableness

ASIC Regulatory Guide 111 considers an offer in respect of a control transaction, to be reasonable if either:

- the offer is fair
- despite not being fair, but considering other significant factors, shareholders should accept the offer in the absence of any higher bid before the close of the offer.

To assess the reasonableness of the Takeover we considered the following factors in addition to determining whether the Takeover is fair:

- the extent to which Non-Associated Shareholders are receiving a premium for control and to the share price of PSQ prior to the announcement of the Takeover
- the likely market price and liquidity of PSQ shares in the absence of the Takeover
- cash flows or other benefits available to Genesis Capital upon achieving 100% ownership of PSQ
- the fact that the Takeover allows Non-Associated Shareholders to realise their investment in PSQ and removes uncertainty regarding the execution of Management's strategy
- the likelihood of an alternative offer being made
- whether any other alternatives exist and the advantages and disadvantages of such alternatives
- other implications associated with Non-Associated Shareholders rejecting the Takeover.

## 2.4 Limitations

This report should be read in conjunction with Appendix 5.

PSQ operates 127 dental centres across Australia under two brands, Pacific Smiles Dental (**PSD**) centres and nib dental centres. PSQ also manages 10 HBF dental centres in Western Australia. The vast majority of these centres have been the result of a greenfield roll out (as opposed to acquisition or roll-up) strategy that PSQ has deployed since being founded.

PSQ has almost 800 active dentists, in addition to more than 1,700 employees, including dental assistants, clinical support and other staff, which enabled PSQ centres to service approximately 1.1 million patient appointments in FY25.

PSD branded centres are focused on Eastern Australia, whilst the HBF agreement provides PSQ exposure to Western Australia. PSQ dental centres are situated in both regional and metropolitan areas, with a roughly 50:50 split. Set out in the figure below is a map of the current geographic distribution of PSQ centres in Australia.

Figure 1: Centre locations

Note:

## 3.2 Operational overview

PSQ derives revenue from three key sources:

- **dental service fees:** charged to dentists for the provision of fully serviced dental facilities, in addition to fees generated directly from patients via locums and employed practitioners. This represented 98.6% of total revenue in FY25
- **dental product sales:** this represented 0.2% of total revenue in FY25
- **management fees:** for the management of HBF dental centres. This represented 1.2% of total revenue in FY25.

Under the Services and Facilities Agreements (SFAs), PSQ provides dentists with fully serviced and equipped facilities, including support staff, training, marketing, administrative and operational support services, along with PSQ's proprietary IT platform. The PSQ business model is designed to allow dentists to focus on practicing clinical dentistry, enabling them to maximise time with patients without the distraction of owning and operating a dental centre. Further details of the key terms of the SFAs are discussed in Section 3.2.2.

### 3.2.1 Key partnerships

PSQ has developed strategic relationships with major private health insurers and other partners that have underpinned its revenue growth and business expansion. The key partnerships are summarised in the table below.

Table 4: PSQ Partnerships

Partner with number of members (where relevant) in brackets	Details of partnership arrangement

In July 2024, the agreement was amended for the provision of a gap-free offering to nib members across the whole PSQ network for 2 years</li> <li>• both nib and PSQ have agreed to certain minimum marketing activities</li> </ul>

Source: Annual General Meeting Presentation, Management

Whilst PSQ has partnerships with specific health funds as described above, members of other health funds (or, more generally, anyone else) can get treatment at PSD and nib dental centres. Approximately one third of patient fees are derived through two private health insurers, almost half derived from other private health insurers and other funders, and the balance from private customers.

### 3.2.2 Dental practitioners and staff

Under the PSQ model, dental practitioners operate under SFAs which set out the key terms under which they can operate their business in a PSQ centre. The agreement outlines the services and support provided by PSQ, in exchange for a service fee. The service fee is paid monthly and is calculated based on an agreed proportion of fees charged to patients by dentists who operate their practice in a PSQ centre.

Under the SFAs, dentists generally have the right to cancel the agreement with a one to three month notice period, without penalty. As at H1 FY25, the PSQ business had 799 active dentists, with no dentist contributing more than 1% of total patient fees. On average, dentists do not work full-time at a specific PSQ centre with many working part-time and others distributing their workload across a variety of centres (including non-PSQ centres).

PSQ also employs various other professionals as set out in the table below:

**Table 5: PSQ employees (excluding dental practitioners operating under SFAs)<sup>1</sup>**

	Number
Dental assistants	1,466
Clinical support <sup>2</sup>	251

PSQ dental staff, including dental assistants, clinical support staff and support office staff, are typically employed under the terms of either the Health Professionals and Support Services Award 2020 or the DEP Enterprise Agreement 2013, which cover a broad range of matters, including rates of pay and employment conditions. On 3 June 2024, the Fair Work Commission announced a 3.75% increase to minimum award rates which was applied across the majority of the PSQ workforce, effective from 1 July 2024. A subsequent 3.5% increase to minimum award rates was announced on 3 June 2025, effective from 1 July 2025. The Fair Work Commission has also received proposals for further increases in future years, which it is in the process of considering.

### 3.2.3 Profile of dental centres

Approximately 50% of dental chairs are located in centres that are more than 10 years old. PSQ leases all of its dental centres. Dental centres are typically leased under agreements of between five and 10 years with, in some cases, options to extend the lease term. The majority of leases are priced with fixed growth rates, with the remaining linked to CPI.

Set out in the figure below is the average number of chairs by cohorts (which represents a grouping of centres based on the financial year in which they opened). Although new centre openings were initially planned for FY24 and FY25, no new centres were opened due to restrictions imposed under the scheme implementation deed entered into with NDC in April 2024. The scheme of arrangement was later terminated. Refer to Section 3.9.1 for further details on the agreement.

Figure 2: Average chairs per centre by cohorts

Notes:  
Green shaded area represents average chairs per centre. Grey shaded area represents average chair capacity per centre.  
Source: Management

The older cohort of centres tend to be larger, driven by:

- **maturity:** the greenfield model for growth allows for growth optionality with new chairs added once existing chairs are sufficiently utilised. As such, older centres have had a longer time to fill initial capacity and expand
- **location:** PSQ's strategy of primarily greenfield rollouts in shopping centres since FY15 has lent itself to small format leases and less chairs per centre. The current strategy targets five chairs per centre at maturity, starting with three chairs on opening, noting that this has changed from smaller four chair capacity centres primarily opened from FY15 to FY19.

As noted in Section 3.3 below, centres typically open with five surgeries, three to four of which have had chairs installed, with the balance of chairs being installed in the vacant surgeries over time as the centres mature. This is evident in the figure above, but also illustrates the degree of additional chair capacity currently available in the newer cohorts.

The profile of centre locations by cohort is set out in the figures below.

Figure 3: Centre locations – regional vs metro

Figure 4: Centre locations – shopping centres vs other locations

In the earlier years, PSQ focused its expansion in regional areas, however, this has shifted to metropolitan areas in recent years, with a particular preference for shopping centre locations. Further details of PSQ's expansion strategy are set out in Section 3.3.

### 3.2.4 Operational metrics

As mentioned above, PSQ has a long-established organic growth track record. This is evident in the figures below which present growth in number of centres, in addition to growth in number of chairs and active dentists.

**Figure 5: No. of centres<sup>1</sup>**

Management continued with new centre openings until FY23, following which PSQ was restricted from opening new centres under the scheme implementation deed entered into with NDC in April 2024 as outlined in Section 3.2.3. Since FY23, Management has focused their efforts on improving the utilisation of existing centres. As part of Management's strategy to optimise the portfolio and improve long-term profitability, the Singleton and Toronto centres were closed in FY25 due to their poor performance.

The number of active dentists within the business has continued to increase over the historical period, reflecting the opportunities provided by PSQ including flexibility, clinical autonomy, business support and full patient books. In H1 FY25, the number of active dentists increased significantly despite no new centres opening and the number of dental chairs remaining broadly consistent, reflecting Management's ongoing focus on optimising utilisation of existing chairs. The relatively stable number of chairs across FY23 to FY25, relative to the growth observed in preceding periods, is a function of the centre closures and consolidations that occurred during FY24 and FY25.

Presented in the figures below is an overview of average patient fees per chair and chair utilisation (and consequently profitability) across FY19 to FY25.

**Figure 7: Average patient fees per chair**

Source: Annual reports

**Figure 8: Chair utilisation**

Source: Management

Average patient fees per chair have continued to grow each year post COVID-19 reflecting improved utilisation and inflationary growth in pricing. Utilisation rates have increased each year post COVID-19 with the key drivers behind this trend being:

- marketing efforts focused on acquiring new patients by expanding booking channels and promoting the use of the PSQ proprietary online booking tool and targeted brand campaigns aimed at increasing awareness
- an extension of dentist hours leading to more patient appointments
- declining failure-to-attend and unable-to-attend rates due to enhanced patient communications and appointment confirmations.

One measure of operational efficiency is the staff to dental practitioner ratio. This ratio is calculated by comparing the number of hours worked by staff to the number of hours worked by dentists with a lower ratio suggesting greater operational efficiency. This ratio (as set out in Figure 9 below) experienced a significant increase during the COVID-19 pandemic, as managing appointment cancellations and reduced services became more challenging. This resulted in a higher proportion of employee expense incurred as a percentage of total patient fees. This ratio is closely monitored by Management and has returned to pre-COVID-19 levels in FY24 and continued to decrease in FY25.

Whilst maintaining a low staff to practitioner ratio remains a key priority for Management, employment costs as a percentage of patient fees have increased in FY25 reflecting the Fair Work Commission determinations. These determinations are likely to continue to place upward pressure on the employee costs to patient fee ratio (refer to Section 3.2.2).

**Figure 9: Staff to practitioner ratio**

Source: Management

**Figure 10: Employment costs % patient fees**

Given the greenfield model for growth, there is a distinction between the profitability of centres depending on the period of time they have been open. The financial performance of centre cohorts, grouped by the financial years in which they opened, is set out in the figure below.

**Figure 11: Cohort performance data for the financial year ended 30 June 2025<sup>1</sup>**

Note:

1. excludes HBF dental centres

2. EBITDA margin calculated as a percentage of patient fees.

Source: Management

As illustrated in the figure above, the more mature cohorts achieve higher revenue (as measured by average patient fees) and higher profitability (as measured by EBITDA margin) as compared to newer cohorts. Centres typically take a period of five years to ramp up to being operationally efficient as discussed in Section 3.3, with profitability and margins of new centres expected to improve over that period as the number of appointments increases and chair utilisation improves.

Centres that were opened between FY20 and FY23 also experienced a delay in achieving their ramp up profile due to COVID-19 disruptions, which impacted their ability to attain target profitability. Post-pandemic, these newer cohorts have been gradually moving towards the expected ramp up profile (outlined in the section below) with fees and profit margins trending towards the five-year target, noting that these new centres have now had c. four years of post-pandemic trading.

### 3.3 The greenfield model for growth

PSQ's growth model is focused on opening new centres rather than acquisitions. Management considers such a growth model to be a predictable and repeatable formula for network expansion. Key attributes of the model include:

- **convenience proposition:** based on location and community by targeting regions under-served by dentists and localised regions and clusters to create scale and efficiency
- **standardisation:** of centre layout, brand, culture, people and systems including implementation of a common patient management system across all centres
- **mobility of staff, patients and dentists:** by sharing resources between centres to increase efficiency, streamline labour management and achieve greater satisfaction for both practitioners and patients
- **growth focus:** driven by establishment of new centres, adding capacity in existing centres, and uplifting utilisation by retention of existing patients and acquisition of new patients.

PSQ's greenfield model is premised on detailed site selection and assessment prior to investment decision. PSQ also follows a well-developed pre-marketing campaign targeting new patients when a new centre opens. Typically, PSQ targets 400+ appointments pre-opening of a new centre and 1,500 appointments within the first six months of opening a new centre.

New centres typically open with three chairs and have a capacity for five. Depending on utilisation and centre growth, a 4<sup>th</sup> chair will be added in years two to four and a 5<sup>th</sup> chair in year five, with capacity for further growth beyond year five. Profitability (as measured by EBITDA) is targeted to be achieved after 12 months of operation with capital payback after five years. New centres are expected to reach target patient fees of \$2.5m per annum by year five and target EBITDA margin (pre corporate overheads) of c. 20% by year 10.

### 3.4 Key management and directors

Management has undergone considerable change in recent years, with Gary Carroll being appointed Chief Executive Officer (**CEO**) in October 2024, Martin White appointed Chief Financial Officer (**CFO**) in April 2025, Lisa Skene appointed to Chief Operating Officer (**COO**) in April 2025 and Troy Wright appointed Chief People Officer in April 2025.

Set out below is the leadership team of PSQ:

**Table 6: PSQ's management team**

Name and current position	Experience	Time in role
<b>Gary Carroll</b> Managing Director & CEO (until 31 October 2025)	Gary Carroll has over 15 years' experience in senior leadership/executive roles across consumer, education, and health-related sectors. Gary was previously CEO of MindChamps Australia, operating childcare and early learning centres in NSW and Victoria. Prior to that, he was CEO and Managing Director of G8 Education Ltd from 2017 to 2022, having first joined the company as CFO in 2016. Earlier in his career, Gary held executive roles at Super Retail Group, including CFO and General Manager of Group Development. PSQ has six directors:

- the Managing Director and CEO, Gary Carroll
- two independent non-executive directors – Steven Rubic and Brent Cubis
- three representatives of Genesis Capital – Michael Caristo (also Chairman of the Board), Christopher Yoo and Tara Hariharan.

Following the resignation of Gary Carroll, Genesis Capital representatives will comprise the majority of the board of PSQ.

## 3.5 Capital expenditure

### 3.5.1 Centre capital expenditure

Set out in the figure below is the capital expenditure incurred by PSQ in recent years.

**Figure 12: Capital expenditure profile**

Source: Annual reports, FY23 Results presentation, Management

The opening of new centres has contributed to the largest proportion of capital expenditure. As noted earlier, new centre capital expenditure was moderated in FY24 following the significant expansion profile in previous years. While no new centres were opened in FY25, construction of the Cheltenham centre commenced in FY25, and this centre was opened in September 2025.

### 3.5.2 Systems and technology program

In recent years, PSQ has strengthened its core technology foundations and expanded the available digital products and services. As shown in Figure 12, PSQ has invested \$8.2m in technology upgrades since FY20 across cloud infrastructure, cyber security and data governance. These upgrades are beneficial to both patient and practitioner experiences allowing enhanced efficiency and cost effectiveness across the network. Recently, PSQ implemented a single patient record and management system which consolidates records into one system, enabling patients to manage their health information, book appointments at any PSQ centre and have their records be digitally available to both the centre and practitioner. PSQ has also implemented Salesforce's Agentforce AI platform in FY25 to automate patient inquiries, assist with scheduling and predicting patient needs. This investment in technology is expected to improve the patient experience to deliver personalised care (thereby assisting with attraction and retention of patients) and improve efficiency (which should also assist in recruiting and retaining dentists and other employees).

## 3.6 Payroll tax

During 2023, PSQ received notices from various state revenue offices claiming payment shortfalls on the basis that the revenue offices considered fees charged to patients and retained by dentists who operate their practice within PSQ under an SFA should be subject to payroll tax. As at 30 June 2025, PSQ has made a provision of \$0.7m to cover this potential payroll tax liability in QLD and VIC. From FY23 onwards, PSQ has been making payroll tax payments based on legal advice relating to the apportionment method for valuing services provided to PSQ under and SFA contracts. Further detail is provided in section 7.2 of the Target's Statement.

## 3.7 Financial performance

The summarised financial performance of PSQ for the financial years ended 30 June 2023 to 30 June 2025 is set out below:

The growth in dental service revenue of 19.2% observed in FY23 reflects PSQ's operations coming out of pandemic-influenced operating challenges, such as reduced appointment attendance and increased practitioner absences. As outlined in Section 3.2.4, centre numbers declined across FY23 to FY25 and dentist chair numbers have remained broadly consistent. This reflected efforts to close unprofitable centres whilst also increasing capacity in profitable centres (through more chairs). The key driver of the increase in revenue in both FY24 and FY25 (7.6% and 8.7%, respectively) was improvements in utilisation (refer to Section 3.2.4 for further analysis of historical utilisation).

Management fees increased from \$1.8m in FY24 to \$2.4m in FY25 due to growth in appointment numbers across the network, including from the two new HBF dental centres that opened.

The decline in direct expenses observed between FY24 and FY25 of 14.7%, despite revenue growth, was due to FY24 including \$1.0m of payroll tax payments for SFAs to the ACT Revenue Office (refer to Section 3.6 for further details on payroll tax payments).

Increases in employee expenses across the historical period can be attributed to several factors, including the Fair Work Commission decision of a 5.75%<sup>1</sup> increase to modern award rates applicable to employees in the majority of PSQ dental centres in FY24. Additional contributing factors include ongoing wage inflation in FY25 and the continued growth in the proportion of weekend appointments, which incur higher employee-related costs.

The significant increase in administration and other costs between FY24 and FY25 was largely driven by costs of \$11.6m associated with takeover offers received. We have analysed these costs further in our normalisation of EBITDA in the following section.

Depreciation largely relates to right-of-use-assets (i.e. leases over the centres) and, to a lesser extent, leasehold improvements, plant and equipment. Amortisation expenses relate to acquired software, rights and licenses.

Net finance costs mainly comprise of interest on lease liabilities which have continued to decline across the historical period (refer to Table 10 for further details).

Whilst a dividend was paid in FY25, this was in respect of FY24 results. The Board of PSQ resolved to pay no dividend in respect of FY25, recognising the need to fund growth and to create a suitable cash buffer.

### 3.7.1 Underlying EBITDA

Set out in the table below is Management's assessment of underlying EBITDA for the financial years ended 30 June 2023 to 30 June 2025:

**Table 8: Underlying EBITDA**

Presented in the table below is an overview of Management's underlying EBITDA adjustments in the table above.

**Table 9: Adjustments to arrive at underlying EBITDA**

Note	Overview
1	Primarily reflects the cash lease expenses related to dental centre leases, which are not reflected under AASB 16.
2	FY24 statutory earnings include a credit (i.e., income) related to unvested incentives. The \$2.1m FY25 expense is due to all performance rights vesting as part of the Genesis Capital takeover.
3	Payments made to state revenue offices for retrospective payroll tax amounts and associated legal costs
4	Costs, including break fees and adviser fees, associated with the takeover offers from Genesis Capital and NDC to acquire PSQ.
5	In FY24, PSQ implemented revised processes and internal controls for recording dental centre consumables, including enhanced estimations of cost and inventory quantities at individual clinic locations. The application of these revised methodologies resulted in a non-cash accounting credit.
6	Includes one-off or abnormal expenses such as termination and redundancy severance expenses, costs associated with the extraordinary general meeting, write-offs and insurance recoveries relating to flooding at the Lismore dental centre.

Source: Annual Reports, Management, Deloitte Corporate Finance analysis

The underlying EBITDA margin has continued to increase from 8.9% in FY23 to 11.0% in FY25. The improvement in margin is a function of PSQ not having opened new centres (which are typically loss-making during the ramp up phase), the closure of unprofitable centres and increased utilisation at existing centres.

In addition to the above, the following items which are not expected to be incurred as part of normal business operations but were incurred in FY25:

- SaaS implementation costs of \$1.3m
- recruitment and termination costs of \$0.7m
- consulting costs paid to Bain & Company associated with the development of the Value Creation Plan (VCP) of \$0.8m. Refer to Section 3.10.1 for further details on the VCP
- fees paid to Genesis Capital for consulting and advisory services related to cost reduction and process improvement projects of \$0.4m.

### 3.8 Financial position

The summarised financial position of PSQ as at 30 June 2023 to 30 June 2025 is set out below.

Source: Annual reports, Deloitte Corporate Finance analysis

The 29.0% increase in trade and other payables observed between FY24 and FY25 was driven by a combination of new facility investment costs, employee related expenses associated with revenue growth and one-off expenses which we have considered in Section 4.3.1.

Other current assets and liabilities primarily comprise of prepayments and employee benefits provisions.

Property, plant and equipment primarily comprise of plant and equipment and leasehold improvements. Property, plant and equipment declined across FY23 to FY25 reflecting the impact of the slowdown in the rollout of new centres, which has resulted in lower capital expenditure additions, relative to the depreciation of existing centres.

Right-of-use assets and lease liabilities relate to the operating lease agreements in respect of dental centres, as described in Section 3.2.3.

Other non-current assets and liabilities primarily comprise deferred tax assets and lease make good provisions. Deferred tax assets primarily relate to lease liabilities and right-of-use assets. Lease make good provisions represents the costs associated with the future restoration of leased premises (e.g. removal of leasehold improvements and repair of any associated damage) at the end of the respective lease terms of PSQ's operated premises.

Net cash, as set out above, comprises of cash, payments due to dentists, borrowings, and net income tax receivable and payable. Payments due to dentists relates to amounts owing to dentists under the SFA contracts. The increase in the balance is due to larger amounts owing to dentists as a result of increased patient fees. Borrowings have historically been used to finance the roll-out of new centres. However, in FY23, the borrowings were paid down due to Management's slowdown of centre roll out and the improvement in financial performance.

Net cash also includes a payroll tax liability related to notices referred to in Section 3.6. As at 30 June 2025, PSQ has accrued a tax liability of \$0.7m, primarily in respect of the ACT assessment and estimated potential payroll tax liability in other states. PSQ had no borrowings as at 30 June 2025, however, had access to an undrawn bank facility with a \$0.5m limit.

## 3.9 Shareholders and capital structure

### 3.9.1 Substantial shareholders

The substantial shareholders are set out below.

On 18 December 2023, Genesis Capital indicated that they held an economic interest of 18.75% of PSQ shares.

In December 2023, Gensis Capital initially proposed a takeover offer for 100% of Pacific Smiles Group shares at \$1.40 per share. They subsequently increased the offer to \$1.75 per share in March 2024. Following a competing proposal from NDC, PSQ entered into a scheme of arrangement with NDC in April 2024 under which all shares would be acquired at \$1.90 per share. This was later revised to \$1.91 per share in July 2024. We note that under the scheme implementation deed, PSQ agreed to conduct business in the ordinary and usual course consistent with the prior 24 months until implementation. This included restrictions on committing to new sites as well as other transformative corporate actions without bidder consent.

In response, Genesis Capital submitted a counteroffer of \$1.90 per share. NDC then increased its offer to \$2.05 in August 2024, however NDC was unable to obtain the requisite level of shareholder support and the scheme of arrangement was terminated later that month.

In October 2024, Genesis Capital made an offer of \$1.95 per share (excluding a \$0.0325 fully franked dividend that was declared by PSQ) payable in cash, stub equity in a new holding company or a combination of both. Through a combination of on-market acquisitions and acceptances of its offer, Genesis Capital controlled 89.27% of PSQ shares by the time the takeover offer closed in February 2025.

In June 2025, PSQ undertook an unmarketable parcels buyback offer where it bought back unmarketable parcels of shares for \$1.6886 per share. As a result of this offer, the number of shares on issue reduced slightly and the number of shareholders reduced from 349 to 252.

### 3.9.2 Capital structure

The issued shares as at the date of this report are set out below.

**Table 12: Number of securities in PSQ**

Security type	Total (m)
Ordinary shares	161.6
<b>Total</b>	<b>161.6</b>

Sources: Annual reports

Historically, PSQ has issued performance rights to employees. During FY25, all outstanding performance rights either vested or lapsed due to the off-market takeover bid from Genesis Capital.

As at 30 June 2025, PSQ had a \$20m variable rate loan facility (all funds drawn during the year were repaid). The facility is due to expire on 30 September 2027. As at 30 June 2025, PSQ also had an undrawn bank facility (\$0.5m limit) and had given bank guarantees of \$3.7m to various landlords as security for leased premises.

### 3.9.3 Share price performance

The share price has underperformed the broader Australian share market, largely due to the financial impact of COVID-19 and lower than expected profitability of newer centre cohorts, partially offset by takeover offers. The share price has declined from a high around \$1.90 during the takeover period in mid-2024 and was trading between \$1.55 and \$1.70 prior to the announcement of the current offer. This is summarised in the figure and table below.

**Table 13: Key events and announcements**

Ref	Announcement
1	H1 FY21 results announced with underlying EBITDA increasing by 65% from the prior corresponding period. An interim dividend of 2.4 cents per share was declared, in line with the prior corresponding period.
2	Capital raising of \$20m at an offer price of \$2.60 announced to provide funding to accelerate growth opportunities and increase liquidity. The offer price represents a 3.7% discount to last closing price of \$2.70 on 1 March 2021 and 9.4% discount to the 5-day volume weighted average price.
3	FY21 earnings guidance affirmed, with expectation to report underlying EBITDA at the top end of the previously advised range.
4	Change of interests of substantial shareholder TDM Growth Partners Pty Ltd from 25% to 15%.
5	Updated earnings guidance provided for FY21. Underlying EBITDA was anticipated to be at the low end of previously advised range, with patient attendance being impacted by COVID-19 lockdown restrictions.
6	FY21 results announced in line with prior earnings guidance announcements. No dividend was declared and no FY22 earnings guidance was provided due to continued uncertainty as a result of COVID-19.
7	Disposal of shares by substantial shareholder TDM Growth Partners. HBF became a substantial shareholder by acquiring 10% interest in PSQ.
8	FY22 earnings guidance provided and expectation for PSQ to pay interim dividend for FY22.
9	Trading update provided for H1 FY22 with underlying EBITDA anticipated to be below earnings guidance, largely due to the sudden onset and rapid spread of the COVID-19 Omicron variant. Given uncertain trading conditions, PSQ withdrew previously advised earnings guidance for FY22.
10	H1 FY22 results announced with PSQ reporting an underlying net loss of \$1.5m for the period. No interim dividend declared for H1 FY22.
11	Decreases reflect the market's reaction to monthly patient fee performance disclosures. Furthermore, equity markets were impacted by central banks globally signalling tightening of monetary policy to curb inflation. There was an expectation that consumer sentiment would soften, resulting in a decline in the share price of companies that provide discretionary products and services.
12	FY22 results announced with underlying EBITDA decreasing by 66% from the prior corresponding period, largely attributed to ongoing COVID-19 disruptions. No final dividend was declared.
13	PSQ announced that it received a notice from Dr. Abrahams requesting the convening of a general meeting (an Extraordinary General Meeting) to consider the removal of each of the current seven directors and proposed appointment of four new directors. In December 2022, following the EGM, PSQ announced that all the resolutions proposed were not carried with the exception of one resolution relating to the removal of one director.

Ref	Announcement
14	PSQ confirmed its earnings guidance for FY23, with trading conditions recovering from previous COVID-19 related lockdowns. Newer centres remain unprofitable due to slower ramp up profile as a result of COVID-19 disruptions.
15	PSQ announced voting results at Extraordinary General Meeting that the resolutions to remove the directors were not successful, with the exception of removal of Andrew Knott as a director.
16	H1 FY23 results announced with an update on expectations that full year earnings would sit at the low end of the earnings guidance due to slower than expected recovery from COVID-19 and earnings drag related to new centres. An interim dividend of 0.35 cents per share was declared.
17	PSQ announced that it received a determination letter from Revenue NSW in relation to payroll tax (refer to Section 3.6 for further details).
18	Trading updated provided for FY23, reaffirming previous earnings guidance.
19	PSQ announced the resignation of Managing Director and CEO, Mr Phil McKenzie.
20	FY23 results announced with underlying EBITDA increasing by 20% from the prior corresponding period. Patient volumes recovered as operating conditions return to post COVID-19 levels.
21	PSQ announced that it received a reassessment letter from ACT Revenue Office in relation to payroll tax (refer to Section 3.6 for further details).
22	PSQ received non-binding indicative offer from Genesis at a price of \$1.40 per share.
23	PSQ announced appointment of Mr Andrew Vidler as CEO.
24	PSQ announced rejection of proposal from Genesis Capital. PSQ also provided separate earnings guidance for FY24.
25	H1 FY24 results announced with underlying EBITDA increasing by 10% from the prior corresponding period, reaffirming prior earnings guidance. PSQ announced an interim dividend of 2.1 cents per share.
26	PSQ received revised non-binding proposal from Genesis Capital at a price of \$1.75 per share.
27	PSQ entered into a Scheme Implementation Deed with NDC to acquire 100% shares in PSQ by way of a scheme for cash consideration of \$1.90 per share.
28	Genesis Capital submitted a proposal to acquire all of the shares of PSQ via a scheme arrangement for cash consideration of \$1.90 per share, following which NDC submitted a counterproposal at \$2.05 per share.
29	Shareholders of PSQ voted against the NDC Scheme and the Board announced the resignation of Non-Executive Director Mark Bloom with immediate effect.
30	Genesis Capital proposes to acquire 100% of the shares in PSQ by way of an off-market takeover bid for \$1.90 per PSQ share.
31	Following an initial recommendation to reject the Genesis Capital offer at \$1.90 per share, the Board unanimously recommend, in the absence of a superior proposal emerging, that PSQ shareholders accept the Genesis Capital cash offer.
32	Genesis Capital disclosed that it has voting power of approximately 59.2% in PSQ and company intends to appoint three nominees of Genesis Capital following three directors of the Board stepping down.
33	PSQ reported strong financial performance for H1 FY25, improving operational efficiency and utilisation within existing centres.
34	PSQ announced it intends to undertake minimum holding buy-back of ordinary shares for shareholders of less than a marketable parcels of shares in the company.
35	FY25 Results were released, with patient fees up 8.7% and underlying EBITDA up 12.1% compared to FY24.

### 3.9.4 Share trading liquidity

Liquidity in PSQ shares has always been low due to the founders having historically held a substantial number of shares. ASX trading of PSQ shares reduced further in FY24 when Genesis Capital initially acquired a 19.9% interest and subsequently increased their interest to 89.27% by February 2025. As a reflection of this, during the 6-month period to 30 September 2025, the average number of shares traded was 1,967 (0.001% of the shares on issue) and there were 70 days where there was no trading in PSQ shares.

## 3.10 Strategy and outlook

### 3.10.1 Value Creation Plan

After Genesis Capital acquired its 89.27% interest in PSQ in early 2025 they, together with external advisers, commenced working with Management on a VCP which is based upon the following key levers:

- effective patient acquisition and retention strategies
- optimising the mix of high value dental work
- optimisation of private health insurance relationships and reimbursement rates through strategic negotiation and rate analysis
- dentist recruitment and improvement of broader recruitment strategies
- development and implementation of employee value propositions
- ensuring best pricing practices and cost improvement

- network optimisation and expansion.

The aim of the VCP is to provide support for Management's broader future growth drivers:

- **embedded capacity:** increase utilisation of existing centres and grow higher value procedures in well-established centres
- **cohort maturation:** adopt similar strategy and invest in more chairs to increase capacity of newer centres
- **network growth:** achieve self-funded growth through new centres.

### 3.10.2 FY26 Budget

In developing their annual budgets, Management undertakes a detailed review of operations and financial performance. The PSQ budgeting process typically commences in March prior to financial year end. Budgets are prepared at a bottom-up, centre-by-centre level, having regard to centre-specific performance and opportunities. This is developed by the Finance team (at the corporate level), before it is socialised with the Board for initial feedback. This also involves consideration around strategic initiatives and the investment required to support such initiatives. After this, and following input from each centre, the budgets at the centre level are consolidated and reviewed by the field leaders within each region. It is then presented to the Board for final approval.

Set out below are the key considerations in Management's development of the FY26 budget:

- Management intends to remain focused on its current portfolio optimisation strategy, which prioritises increasing appointment volumes within existing centres. This approach is expected to involve limited growth in the number of chairs within existing locations. In parallel, Management plans to pursue expansion through new centres, consistent with its greenfield growth model
- while labour cost inflation is expected to drive overall cost growth, Management is targeting EBITDA margin accretion primarily through increased growth in attended appointments per chair and higher service fees per appointment. Margin improvements are also expected to be supported by active management of staff utilisation, control of the broader operating cost base and corporate cost efficiencies arising from the implementation of the VCP
- capital expenditure is expected to increase from FY25 as a result of a higher level of refurbishments and proposed centre relocations.

The FY26 Budget was approved by the Board of PSQ on 25 June 2025.

Whilst FY25 has been, and FY26 is expected to be, largely focused on improving utilisation of existing centres and improving profitability of the existing network, there is an expectation of a return to opening of new centres. In line with this, at the time of development of the FY26 Budget, there was an expectation of the opening of 3 new centres in FY26 and then 5 new centres per annum from FY27 onwards. PSQ management is of the view that whilst one new centre was opened in September 2025, it is currently unlikely that another 2 new centres will have opened by the end of FY26.

### 3.10.3 Equity research analysts' forecasts

Since Genesis Capital acquired 89.27% of PSQ, no equity research analyst forecasts have been published.

## 4 Valuation approach and assumptions

### 4.1 Valuation summary

We have estimated the enterprise value of PSQ to be in the range of \$330m to \$400m. After adding net cash, this implies a value of between \$2.13 and \$2.56 per share. A summary of our valuation is set out in the following table:

**Table 14: PSQ valuation summary**

	Section	Low	High
Market multiples approach (primary approach)	4.3	324.0	360.0
Discounted cash flow approach (secondary approach)	4.4	360.0	400.0
<b>Enterprise value (selected)</b>		<b>330.0</b>	<b>400.0</b>
Add/(less): Surplus assets/(liabilities)	4.5	-	-
Add: Net cash	4.6	13.5	13.5
<b>Equity value (control basis)</b>		<b>343.5</b>	<b>413.5</b>
Number of shares	4.7	161.6	161.6
<b>Equity value per share</b>		<b>2.13</b>	<b>2.56</b>

Source: Deloitte Corporate Finance analysis

In estimating the enterprise value of PSQ, we have had primary regard to the market multiples approach but have also considered the discounted cash flow approach. Our rationale for selecting these approaches is as follows:

- the market multiples approach confers the benefit of having valuation reference points of comparable businesses. However, it still requires exercise of judgement to reflect the differences between the comparable businesses
- the discounted cash flow approach allows for significantly more flexibility in evaluating medium to long-term financial projections. However, it presents challenges with respect to being able to accurately project medium to long-term cash flows, especially due to difficulties with forecasting the impact of future centre growth and profitability.

We have selected an enterprise value range of between \$330m and \$400m. We consider that the top end of this range reflects the value of the platform embedded in PSQ which could be realised over the medium to long term.

The selected enterprise valuation range is higher than that assessed by us in June 2024 of \$280m to \$340m. The improvement in PSQ's earnings in the interim period has resulted in our assessed EBITDA increasing from \$29m to \$36m (c. 24%) and on this basis we consider the increase on our assessed enterprise valuation range to be reasonable.

We have added to this enterprise value the estimated value of net cash to arrive at the equity value of PSQ. The equity value has then been translated into a value per PSQ share based on the number of shares expected to be on issue. This valuation considers market participant benefits, which includes listed company cost savings and cost synergies which PSQ shareholders do not benefit from.

The analysis supporting the valuation is set out in the following sections.

### 4.2 Selection of valuation methodologies

We estimated the enterprise value of PSQ using the market multiples method as the primary approach and discounted cash flow method as the secondary approach, before adding net cash. Refer to Appendix 2 for a brief discussion of the various valuation methodologies which can be adopted in valuing entities and businesses.

The market multiples approach involves applying an appropriate multiple to estimated earnings. In this regard, we note:

- there have been two transactions involving businesses with operations sufficiently comparable to PSQ from which a meaningful comparison can be made and an appropriate multiple can be ascertained. Furthermore, there are a number of ASX listed companies in the Australian health services industry against which comparisons can be made

- as outlined in Section 3.9.1, Genesis Capital increased its ownership of PSQ to 89.27% in early 2025. Given the recency of this transaction and the competitive bidding process undertaken with NDC, we have considered this transaction in our analysis
- PSQ is a mature and established business and, although there is an element of maturity and growth potential in the existing portfolio, we consider this can be reflected in the market multiples methodology.

Our discounted cash flow analysis has incorporated cash flow projections initially developed by Management. We considered various scenarios to reflect the various cash flow (and consequently value) drivers in the business and uncertainty related to future business performance.

Our valuation of PSQ has been undertaken on a control basis, consistent with the requirements of ASIC RG111.

## 4.3 Market multiples approach

Set out below is a summary of the valuation outcome under the market multiples approach.

**Table 15: Valuation based on earnings multiple**

	Section	Unit	Low	High
EBITDA	4.3.1	\$m	36.0	36.0
Earnings multiple	4.3.3	Times	9.0x	10.0x
<b>Enterprise value</b>		<b>\$m</b>	<b>324.0</b>	<b>360.0</b>

Source: Deloitte Corporate Finance analysis

We have selected EBITDA as an appropriate measure of earnings because earnings multiples based on EBITDA are less sensitive to different financing structures, depreciation and amortisation accounting policies and effective tax rates than multiples based on EBIT or NPAT. This allows for a better comparison with earnings multiples of other comparable companies.

Notwithstanding that PSQ is required to adopt prevailing accounting standards under IFRS (including AASB 16), we selected EBITDA on a pre-AASB 16 basis (i.e. after deducting rent expense) given PSQ leases a number of stores and that the expenses associated with these leases are material. EBITDA on a pre-AASB 16 basis is based on statutory EBITDA less rent expense which is a real cost to the business. Excluding this rent expense (by adopting statutory EBITDA) has a disproportionate impact on PSQ's EBITDA relative to the comparable businesses which could lead to an inaccurate valuation of PSQ's shares. Consequently, adopting a pre-AASB 16 EBITDA as the basis of valuation allows for a better comparison with the earnings multiples of other comparable companies.

The adopted EBITDA reflects a market participant level of earnings (i.e. including cost savings and synergies that may be available to a market participant) and differs from the earnings achieved by PSQ under the current operating environment.

#### 4.3.1 Assessment of EBITDA

Set out in the table below is our assessment of normalised underlying EBITDA for the periods ended 30 June 2023 to 30 June 2025 based on the underlying EBITDA of PSQ, adjusted for abnormal or non-recurring revenue and expenses:

**Table 16: Normalised underlying EBITDA**

\$m (unless otherwise stated)	FY23	FY24	FY25	Note
<b>Underlying EBITDA<sup>1</sup></b>	<b>24.1</b>	<b>28.2</b>	<b>31.6</b>

One-off SaaS implementation costs	-	-	1.3	3
One-off consulting costs	-	-	0.8	4
Other one-off costs	-	-	0.7	5
<b>Normalised underlying EBITDA</b>	<b>23.4</b>	<b>28.2</b>	<b>34.7</b>

2. normalised underlying EBITDA divided by patient fees.

Presented in the table below is an overview of the normalisation EBITDA adjustments in the table above:

**Table 17: Adjustments to arrive at normalised underlying EBITDA**

Note	Overview
1	While long-term management incentive costs are excluded in Management's assessment of FY23 underlying EBITDA, we have not excluded such costs in the normalised underlying EBITDA as we consider these costs to be incurred as a result of normal business operations and should be captured within employee expenses.
2	Fees paid to Genesis Capital for consulting and advisory services related to cost reduction and process improvement projects. We consider these to be once-off in nature and therefore have disregarded them in our calculation of normalised underlying EBITDA.
3	Software as a Service ( <b>SaaS</b> ) implementation costs incurred during FY25 associated with Workday and Salesforce Practitioner Portal. We consider these to be once-off in nature and therefore have disregarded them in our calculation of normalised underlying EBITDA.
4	Consulting fees paid to Bain & Company associated with the development of the VCP. We consider these to be once-off in nature and therefore have disregarded them in our calculation of normalised underlying EBITDA.
5	Recruitment and termination costs incurred in FY25, that were not adjusted back in calculating underlying EBITDA. These costs relate to an unusually high amount of turnover in the senior management team and consequently we consider it appropriate to adjust for them when considering normalised underlying EBITDA.

Source: Annual Reports, Management, Deloitte Corporate Finance analysis

In selecting the EBITDA to apply in our valuation of PSQ, we considered the following:

- the historical normalised underlying financial performance of PSQ from FY23 through to FY25, as presented above
- Management's FY26 budget that was approved by the Board
- FY26 year-to-date financial performance
- the potential to reduce costs that PSQ currently incurs as a result of being a listed company
- cost synergies that market participants may be able to achieve.

We also highlight the following in respect of our assessment of EBITDA:

- does not include any future acquisitions or disposals
- represents EBITDA on a pre-AASB 16 basis, that is, inclusive of cash rental costs.

Based on the above considerations, we have selected EBITDA of \$36.0m for the purpose of our valuation. Our selected EBITDA of \$36.0m is higher than the FY25 normalised underlying EBITDA of \$34.7m as it considers the impact of listed company cost savings, market participant synergies and FY26 year-to-date financial performance. Our selected EBITDA does not reflect the potential upside in respect of the maturation of newer centre cohorts or the opportunities and risks associated with PSQ resuming its greenfield model for growth on the basis that we consider these factors are reflected in the assessment of the earnings multiple.

### 4.3.2 Assessment of earnings multiple

In selecting an appropriate earnings multiple, we considered multiples observed from share market prices of listed companies with operations in the health services industry and the implied multiples paid to acquire companies with operations similar to PSQ.

There are two recent transactions involving Australian dental service providers (1300smiles and Abano) which we consider very comparable to PSQ, as well as the recent transaction in PSQ by Genesis Capital. We have also identified transactions and listed companies in the broader Australian health services sector, which we consider provide relevant valuation reference points. In respect of transactions, we limited transactions to those after 2020, due to the impact that COVID-19 has had on the sector.

The transactions and listed companies that we consider most relevant are set out in the table below, and the full list is set out in Appendix 3 and Appendix 4.

**Table 18: Selected valuation metrics**

	Metric type	Revenue (\$m)	EBITDA margin <sup>1</sup>	EBITDA multiple <sup>1</sup>	
		Historical	Historical	Historical	Adjusted <sup>2</sup>
Pacific Smiles	Transaction (Nov-2024)	180	16%	10.4x	
Abano	Transaction (Dec-2020)	244	7%	15.8x	8.2x
1300smiles	Transaction (Dec-2021)	45	27%	13.5x	11.5x
SILK	Transaction (Nov-2023)	98	19%	9.9x	
Healthia	Transaction (Dec-2023)	256	15%	9.5x	
		Historical	Historical	Historical	Current
Ramsay Health Care <sup>3</sup>	Listed company	8,452	10%	9.9x	9.0x
Integral Diagnostics	Listed company	627	15%	13.9x	9.3x
Pathology service providers (Healius, Australian Clinical Labs and Sonic)	Listed company	742 – 9,624 (Avg = 3,903)	2% – 14% (Avg = 8%)	7.2x – 20.1x (Avg = 12.4x)	6.8x – 9.1x (Avg = 8.2x)

As noted above in the note to the table, the references to EBITDA in the table above are to EBITDA after deductions for rent expenses (referred to as pre-AASB 16 EBITDA). Further discussion as to why we have adopted this approach is set out in Section 4.3 above. The basis of calculation is also set out in Appendix 3 and Appendix 4.

The EBITDA multiples implied by the comparable transactions would likely include premiums paid by the acquirers to access cost and revenue synergies, part of which may be specific to them. In contrast, the EBITDA multiples implied by listed companies typically would not include premiums for control. However, we note that the concept of control premium should not be confused with takeover premiums (which are evident in takeovers of listed companies) and it would be inappropriate to attempt to translate a takeover premium into a control premium other than to highlight that a control premium would be lower than a takeover premium.

Our key considerations in respect of the comparable transactions are:

- PSQ operates and manages 127 centres across Eastern Australia, plus 10 HBF dental centres managed in Western Australia. Based on FY25 historical results, PSQ achieved revenue of c. \$196m, and an underlying EBITDA margin of c. 16% of revenue
- as outlined in Section 3.9.1, the Genesis Capital acquisition of PSQ shares for \$1.95 per share in late 2024 was the outcome of a highly competitive process with NDC. The \$1.95 offer price per share implies a 10.4x EBITDA multiple, based on PSQ's FY24 underlying EBITDA of \$28.2m but, based on normalised underlying EBITDA as assessed by us in our previous independent expert report, it was 10.1x. In addition, the earnings growth that was expected in FY25 at that

time has been realised and so, all things being equal, this would suggest that the multiple that should apply to the business today should be lower

- acquired in December 2022, Abano was larger than PSQ with 239 centres, a portfolio balanced between New Zealand and Australia and ownership of c. 45% of its centres
- Abano's FY20 margins were low at 7%, reflecting the impacts of COVID-19 during that period. In the preceding financial year, Abano achieved an underlying EBITDA margin of 12%. Additionally, the business had high levels of gearing (50%), impacting the free cash available to reinvest in growth
- Abano's observed multiple of 15.8x reduces to 8.2x when based on FY19 underlying EBITDA, which we consider a more accurate reflection of the business's normalised earnings
- 1300smiles was acquired in December 2021. At the time of the transaction, it was smaller than PSQ with 32 centres, however, it generated a higher EBITDA margin (27%), which the independent expert in the transaction attributed to a leaner corporate structure (than PSQ) and active management of underperforming centres. The 1300smiles business was also heavily weighted to the QLD market which, at the time of the transaction, was relatively less impacted by COVID-19 lockdowns
- the multiple implied for 1300smiles of 13.5x reflects FY21 underlying EBITDA, which 1300smiles management adjusted to exclude the Jobkeeper subsidy. If this subsidy was included, on the basis that it was a subsidy to support employee costs (which were not adjusted), this would result in an EBITDA multiple of 11.5x. With the change in interest rates and economic environment, we consider the multiple would translate into a lower multiple today
- we also had regard to the acquisition of Healius GP and dental clinics which share similar operating dynamics, being health services provided by qualified healthcare professionals. General practitioner services are considered non-discretionary and funded by Medicare (as opposed to private health insurance). In addition, the transaction was completed in the midst of COVID-19 with GP appointments increasing during this period due to patients experiencing COVID-19 symptoms and the roll-out of the vaccine. Whilst no EBITDA multiple was disclosed for this transaction, Healius management disclosed that the transaction implied an EBIT multiple of 13.3x, which we estimate translates to an EBITDA multiple of 8.2x
- of the remaining transactions, we had regard to Healthia and SILK. Healthia is a network of healthcare services providers, including optometry, podiatry and physiotherapy clinics across Australia and New Zealand. SILK is a network of beauty clinics, providing various non-surgical products and services, including cosmetic injectables, laser hair removal, skin treatment and fat reduction. SILK owns c. 50% of the clinics it operates, and, all other things being equal, ownership of property would result in a higher multiple. Overall, these businesses could be viewed as being broadly comparable to PSQ given they involve the provision of health-related services from qualified professionals, but with greater exposure to consumer discretionary spending. These transactions occurred at valuations implying multiples of historical EBITDA of 9.5x and 9.9x
- we also note that Integral and Capitol Health merged in December 2024 (further information on this transaction is set out in Appendix 4). Whilst these businesses also operate in the health services sector, we do not consider the multiple implied by their merger relevant as the merger only involved scrip (being shares in Integral) consideration and because radiology businesses are more capital-intensive enterprises (as compared to a dental services business).

We have also considered listed comparable companies. Apart from PSQ, there are currently no other listed Australian dental services providers, and, as such, we had regard to the broader Australian health services sector. We summarise our considerations in respect of these companies below:

- operators in this group are generally exposed to similar macro-economic factors, including an ageing population and, more recently, cost inflation driven by wage increases in the health sector. Having said this, dental services business such as PSQ have greater exposure to consumer discretionary expenditure when compared to providers of other health services
- Ramsay is a hospital operator and provider of health services, including acute care, imaging and diagnostics, primary care, pharmacy and out of hospital care. The business operates across Australia, UK, Europe and Asia. Relative to PSQ, Ramsay is significantly larger, more diversified, and has a significant amount of owned land and buildings. All else being equal, these factors suggest that a higher multiple would be applicable to Ramsay. However, this business is significantly more capital intensive and has a higher level of gearing, which would partially offset the support for a higher multiple
- Sonic, Healius, and Australian Clinical Labs, all of which are considerably larger than PSQ as measured by enterprise value, are pathology services providers with operations in Australia. Sonic also has operations in North America and Europe. Compared to dental services, pathology has less discretionary demand and a different funding structure. The earnings of these companies have historically benefited from the impacts of COVID-19 which resulted in an increase in COVID-19 related testing
- Integral Diagnostics, which operates in Australia, provides medical imaging services, such as X-ray, MRI and ultrasounds. Compared to dental services, radiology has less discretionary demand and a different funding structure with a different capital intensity of operations. In addition, the multiples quoted are unlikely to take account of the full benefit of synergies expected to be realised from the merger of Integral and Capitol which occurred in December 2024. On this basis, we have placed less emphasis on this business as a benchmark.

### 4.3.3 Selected multiple

We have selected an EBITDA multiple in the range of 9.0x to 10.0x having regard to the following:

- it has been selected by us inclusive of a control premium but also noting that some of the direct benefits associated with control have been factored into our assessment of EBITDA in Section 4.3.1 above. In respect of this, we highlight that we have been cognisant of the risk of double-counting the control premium (through the selected EBITDA and the selected multiple). Further, we note the quantification of a control premium is judgemental in nature given the inability to determine the portion of a takeover premium is attributable to a control premium from the comparable transactions, or to observe what portion of a comparable company's share price may already reflect a control premium
- as outlined in Section 3.9.1, a takeover offer from Genesis Capital was made in October 2024. The 10.1x implied EBITDA multiple we have calculated is based on a normalised underlying EBITDA assessed by us in our previous independent expert report. The PSQ FY25 budget outlined a portfolio optimisation strategy focusing on increasing appointment volumes within existing centres, with minimal expansion in chair numbers or new centre openings. We consider that the 10.1x multiple incorporated the upside associated with this strategy which has, in part, been realised in FY25. This is evidenced by the 12.1% increase in underlying EBITDA in FY25, relative to FY24, despite no growth in centres or chairs
- at the time of the transaction, Abano was larger and more diversified than PSQ from a centre perspective, however, operated with higher levels of gearing, reducing free cashflow for investment. The EBITDA margin achieved by PSQ in FY25 of 16% was considerably greater than the 12% achieved by Abano in the period preceding the transaction. Based on the factors note above, we consider that PSQ would warrant a higher multiple than the adjusted 8.2x
- compared to 1300smiles, PSQ is larger, more diversified and has higher embedded capacity. However, PSQ's FY25 underlying EBITDA margin of 16% is substantially lower than the 27% achieved by 1300smiles at the time of the transaction. The relatively lower margins can largely be attributed to centres that opened within the COVID-19 period not yet having reached maturity. Since the Genesis Capital transaction, loss making centres have been actively managed (two centres closed in FY25) and improvements to the corporate cost structure have started being implemented
- PSQ's greenfield growth model has historically moderated margins, as newer centres are unprofitable during their ramp-up phase. This creates embedded earnings growth potential both in existing chairs that have yet to ramp up and in existing centres with further upside potential, where additional utilisation would generate higher marginal profitability. Despite no new centres being opened in FY24 and FY25, several centres opened within the COVID-19 period are still yet to reach maturity. These factors warrant a slightly higher multiple as they have not been reflected in the selected EBITDA
- notwithstanding improvements in the financial performance of Integral Diagnostics following its merger with Capitol Health, and Australian Clinical Labs which operates as a more specialised business, EBITDA multiples of listed health services providers more broadly have declined over the past 18 months as a result of underperformance relative to expectations. Wage inflation has exceeded expectations while reimbursement rates from insurers and government programs have generally not increased in line with inflation
- we note that it would be inappropriate to directly compare any listed company multiple with our selected multiple because the earnings base used in respect of the calculation of the multiple for the listed company does not include the benefits of control which have been factored into our assessment of earnings (specifically our selected EBITDA for PSQ as set out in Section 4.3.1 includes listing and other cost savings).

The selected range of multiples is slightly lower than the range we selected when evaluating the offer from NDC in June 2024. We consider this reasonable as valuation multiples in the healthcare services sector, on the whole, have reduced due to concerns over payor reimbursement inflation not keeping pace with staff wage inflation.

## 4.4 Discounted cash flow method

The discounted cash flow approach estimates enterprise value by discounting future cash flows to their net present value provided that the future cash flows that are expected to be derived from a business are capable of being estimated with a reasonable degree of confidence.

The discounted cash flow method requires the determination of the following:

- future cash flows of the business
- an estimate of the terminal value growth rate
- an appropriate discount rate to be applied to the future cash flows.

Our considerations on each of these factors are presented below.

#### 4.4.1 Future cash flows

The starting point of the cash flow projections was the PSQ Board approved FY26 budget. The cash flows are then projected, having regard to key drivers, for a period of 3 years and are extrapolated for a further 5 years.

In assessing the enterprise value of PSQ under the discounted cashflow approach we have had regard to forecast cashflow profiles provided by Management. In considering the future cashflows, we considered various scenarios which capture the value under different possible outcomes. The scenarios are set out in the table below.

**Table 19: Valuation scenarios**

Scenario name	New centres (FY25 to FY35)	Active chairs to chair capacity ratio <sup>1</sup>	Growth in number of attended appointments (FY25 to FY29 CAGR <sup>2</sup> )
Scenario A	3 in FY26 and 5 each year thereafter	89.4% by FY29	5.3%
Scenario B	3 in FY26	89.4% by FY29	4.0%
Scenario C	3 in FY26	85.7% by FY29	3.3%
Scenario D	3 in FY26	85.7% by FY29	2.7%
Scenario E	3 in FY26	85.7% by FY29	2.2%

Notes:

1. ratio only considers centres forecast to open in FY26 and those opened before FY26

2. compound annual growth rate.

Source: Deloitte Corporate Finance analysis

- We note the following with respect to the scenarios adopted:
- PSQ has opened 37 centres between FY19 and FY25 (net of closures), noting that the greenfield model for growth was paused following COVID-19 and more specifically from FY23 to FY25
- at 30 June 2019 (pre-COVID-19) and 30 June 2025, active chairs as a percentage of chair capacity was 80.0% and 84.4%, respectively
- the compound annual growth rate (CAGR) in the number of appointments between FY19 and FY25 was 6.2% and between FY23 and FY25 (period during which no new centres were opened and few chairs were added) was 4.3%
- utilisation across all centres decreased from 62.0% in FY19 to 53.1% in FY25
- Scenario A reflects the most aggressive growth scenario. In addition to the increase in chair capacity and a 5.9% CAGR in the number of attended appointments between FY25 to FY29, this scenario includes the impact of the opening of 3 new centres in FY26 and 5 centres per annum between FY27 and FY35. For each new centre, we assume a ramp up profile consistent with Management's view (as described in Section 3.3), and additional capital expenditure and corporate overheads to support the new centres. Utilisation is expected to increase marginally to 54.8% in FY29, impacted by new centres and new chairs ramping up
- Scenario B reflects a more moderate growth scenario, when compared to Scenario A, with no new centres opened after FY26, the same growth in active chairs and a lower FY25 to FY29 number of attended appointments CAGR of 4.0%. Utilisation is expected to increase to 55.4% in FY29, impacted by new chairs ramping up
- Scenario C assumes no new centres are added after FY26, fewer chairs are added to existing centres and a lower FY25 to FY29 number of attended appointments CAGR of 3.3%. Utilisation is expected to increase to 55.7% in FY29, impacted by fewer new chairs ramping up
- Scenarios D and E are variations of Scenario C, with the same assumptions but lower CAGRs over FY25 to FY29 for the number of attended appointments of 2.7% and 2.2%, respectively. Utilisation is expected to increase to 54.5% in FY29 under Scenario D and 53.3% under Scenario E

The high and low range within each scenario reflects the low and high of the adopted discount rate range.

#### 4.4.2 Terminal growth rate

We have estimated a terminal value at the end of the forecast period using the perpetuity growth formula and a long-term growth rate of 2.5%. Our assessment of the terminal growth rate has had regard to long term inflation forecasts in Australia.

#### 4.4.3 Discount rate

The discount rate used to equate the future cash flows to a present value reflects the risk adjusted rate of return demanded by a hypothetical investor.

Discount rates are determined based on the cost of an entity's debt and equity weighted by the proportion of debt and equity selected. We have used the modified Capital Asset Pricing Model to assess the cost of equity. This model calculates the minimum rate of return that the company must earn on the equity financed portion of its capital. We are of the opinion that the modified Capital Asset Pricing Model is appropriate as this takes account of company specific factors though the company specific risk premium. We used the following inputs in applying this model:

- a cost of equity of 11.4% to 12.4% based on:
  - a risk-free rate of 4.3% based on the five-day average of the ten-year Australian government bond as at 30 September 2025. A risk-free rate compensates the investor for the time value of money and the expected inflation rate over the investment period
  - an equity market risk premium of 5.25% based on Deloitte Corporate Finance's current view on the market cost of equity
  - an unlevered beta of 0.8 to 0.9 having regard to the betas of the comparable companies identified in Appendix 3. We also had regard to the industry betas published by Aswath Damodaran<sup>2</sup> for the Hospitals/Healthcare and Healthcare Support Services sectors. Whilst the comparable companies have different risk profiles, this has been reflected in the company specific risk premium (below). This results in a levered beta of 0.9 to 1.0
  - company specific risk premium of 2.5% to 3.0% to reflect factors not otherwise reflected in the discount rate inputs referred to above, including PSQ being less diverse, the risks associated with reliance on key partnerships, and the discretionary nature of the services offered by PSQ and more generally the dental sector. The increase in the company specific risk premium range of 0.5%, relative to our previous independent expert report, reflects the relative inherent risk associated with the more aggressive cashflow projections and limited evidence to date that such growth can be sustained over the medium to long-term
- a net debt to enterprise value ratio of 10% based on gearing levels observed for comparable companies (noting that a number of these companies own substantial property, plant and equipment which is available as asset backing for debt funding), current and projected levels of PSQ net cash, gearing levels of 1300smiles at acquisition (c. 0%), as well as capacity to service debt
- a pre-tax cost of debt of 5.8%. We had regard to Deloitte's long-term view on base rates, along with the spreads we normally observe for similar companies and the cost of debt on PSQ's existing debt facilities
- a tax rate of 30%, which is consistent with the Australian corporate tax rate at the date of this report.

We also had regard to:

- the discount rate adopted by PSQ for impairment testing purposes (10.5% in FY25). We note that the cash flow projections this discount rate was applied to were prepared in line with accounting standards, assuming no new centres are opened from FY26 onwards, and therefore reflect a different risk profile
- the discount rate adopted in the independent expert's report for 1300smiles of 8.0% to 8.5%, noting that this was assessed in a different economic environment, and specific to the opportunities and risk of 1300smiles.

Based on the above, we have selected a base discount rate in the range of 10.5% to 11.5%.

#### 4.4.4 Conclusion on discounted cash flow valuation

The valuation range for each of the scenarios described above is presented in the figure below.

**Figure 14: Outputs of discounted cash flow valuation**

Source: Deloitte Corporate Finance analysis

The selected enterprise value using a discounted cash flow approach ranges from \$360m to \$400m. In selecting this range, we had regard to the following:

- since FY23, Management has paused the roll out of new centres and addition of chairs to existing centres. Scenario A, which assumes the immediate roll-out of several new centres and the addition of chairs to existing centres in the short-term can be considered optimistic and presents the most aggressive view of future performance. Our selected range captures the bottom end of Scenario A reflecting a balanced view that considers both Management's historical capability in rolling out new centres and the relatively aggressive nature of the forecast centre rollout profile, particularly in light of only one new centre having been opened over the past three years
- our selected range captures more of Scenario B than Scenario A, acknowledging that whilst no new chairs were added to existing centres in FY24 and FY25, the utilisation of latent chair capacity is considered a reasonable assumption. Compared to the addition of new centres, the addition of chairs is relatively capital-light and can be perceived as lower risk
- our selected range captures the majority of Scenario C and Scenario D and the top of Scenario E. These scenarios assume no new centres will be opened and that chair additions to existing centres will occur at a slower rate. Under these scenarios, Management can continue to focus on the existing portfolio optimisation strategy, which has proven successful throughout FY24 and FY25. The forecast number of appointments CAGR from FY25 to FY29 is also considered to be reasonable, given the historical growth rates. However, it is important to acknowledge that the majority of this growth is expected to be derived from mature centres that have been operating for several years and have traded in a post-COVID-19 environment for the past four years
- in addition to the above, each scenario presents a unique EBITDA margin profile, all of which capture expected operational efficiencies and corporate cost savings as the VCP initiatives continue to be implemented. The projected EBITDA margins under each scenario have also informed our selected range.

## 4.5 Other assets/(liabilities)

No surplus assets or liabilities have been identified.

## 4.6 Net cash

PSQ's net cash position, inclusive of cash (less restricted cash) and payroll tax provisions, is projected to be \$13.5m. This reflects expectations on operational cash flows, payments to dentists, STI payments to senior executives and payment of costs related to the Takeover that will be incurred regardless of whether the transaction proceeds.

## 4.7 Number of shares outstanding

As discussed in Section 3.9.2, the number of shares issued is 161.6m with no performance rights in existence.

## Appendix 1: Industry considerations

### COVID-19 impacts on the sector

Early in the COVID-19 pandemic, the Australian Health Protection Principal Committee issued advice to the National Cabinet that dental practices implement restrictions to defer all routine examinations and treatments unless treatments do not generate aerosols or generate limited aerosols. While these restrictions were implemented and eased at various times over the course of the pandemic, many Australians deferred dental visits in light of Government mandated restrictions and regional lockdown measures. It was estimated that around 1 in 8 (12%) adults aged 15 years and over delayed seeing or did not see a dental professional at least once in the last 12 months due to COVID-19 disruptions during 2020 to 2021<sup>3</sup>. This resulted in a backlog of appointments and residual demand, including more expensive restorative procedures as a result in delayed dental appointments. This also led to volatility in industry revenue and growth, as illustrated in Figure 15.

Figure 15: Industry revenue (FY25 real basis)

Source: IBISWorld

### Growing and ageing population

Compared to younger cohorts, older people have higher rates of tooth decay and tooth wear. This is partly due to lower dental health standards of the older generations and lack of preventative care when they were younger. As a result, older people tend to require more expensive dental work when compared to younger demographics. With the Australian population set to increase at an annual rate of between 1% to 2% until June 2032 and the median age projected to increase from approximately 39 years to between 44 to 48 years<sup>4</sup>, an ageing and growing Australian population is anticipated to provide growth opportunities to the dental services industry.

### Industry structure

The Australian dental services industry is highly fragmented, predominantly made up of independent sole proprietors that operate relatively small-scale dental practices, with approximately 93% of dental services enterprises generating less than \$2.0m in annual revenue<sup>5</sup>. As such, competition is fragmented. Set out in the table below are key peers of PSQ.

<sup>3</sup> Australian Institute of Health and Welfare, Oral health and dental care in Australia report, dated 21 November 2023

National Dental Care	90+
Primary Dental	62
Ekeru Dental	54

Source: Management, Deloitte Corporate Finance analysis

Whilst dental costs are largely privately funded, the industry structure is supported by certain factors, including:

- private Health Insurance participation rates. In Australia private health insurance is voluntary, with 55.1% of the population having some form of general treatment cover (including dental)<sup>6</sup>. Depending on the type of cover, private health insurance can cover additional costs not covered by Medicare, such as dental extras, making the costs associated with dental treatments more affordable
- access to preferred provider agreements provides health fund members with favourable rates, which helps limit out of pocket expenses for members and thereby increasing the likelihood to dental visits
- child dental benefit scheme provides financial support funded by the Government for eligible children to access dental care
- cosmetic dentistry continues to increase demand for orthodontic procedures, teeth whitening, veneers and crowns.

#### Industry margin pressure

The Australian dental services industry revenue grew at a compound annual growth rate (real) of 3.1% in 2025, and 3.5% across the five-year period to 2025<sup>7</sup>. Industry revenue growth has historically been below CPI. With dental services largely privately funded, consumers often have a choice of dental service provider. Furthermore, the industry's high fragmentation maintains price pressure on operators.

The current cost of living crisis has also led to consumers taking steps to reduce health expenses, while the same inflationary pressure elevates operating costs of dental services operators. In particular, rising employee costs, with recent Fair Work Australia award rate increases has challenged margins in the industry. In response, industry players have been focused on streamlining systems and processes to drive efficiencies and implementing cost-reduction measures.

#### Cost of living pressures

In the period following COVID-19, the consumer price index (CPI) increased significantly, with key underlying drivers including housing, utilities, food, and transport costs. This illustrates the rising cost of living in Australia, putting pressure on household finances and discretionary income. For sectors such as the dental services sector, where expenditure is largely considered discretionary, such pressures may impact sector volumes going forward. Although CPI has eased in recent quarters reverting back to pre-pandemic levels, certain cost categories are still elevated compared to what households were used to before the pandemic. Many households are still feeling the cost-of-living effects and this sentiment may be having a lagged effect on discretionary spending.

## Appendix 2: Valuation methodologies

Common market practice and the valuation methodologies which are applicable to corporate entities and businesses can be categorised under one of the following three approaches.

### Market approach

The market approach involves the determination of fair value having regard to pricing and other metrics implied by market trading or transactions of comparable assets. Valuation methods commonly adopted under the market approach include:

- earnings multiples
- analysis of an entity's recent share trading history
- industry specific methods.

The earnings multiple method estimates fair value as the product of an entity's earnings and an appropriate earnings multiple. An appropriate earnings multiple is derived from market trading and/or transactions involving comparable companies. The earnings multiple method is appropriate where the entity's earnings are relatively stable.

The most recent share trading history provides evidence of the fair value of the shares in an entity where they are publicly traded in an informed and liquid market.

Industry specific methods estimate market value using rules of thumb for a particular industry. Generally, rules of thumb provide less persuasive evidence of the market value of an entity than other valuation methods because they may not account for entity specific factors.

### Income approach

The income approach involves the determination of fair value based on the present value of future amounts. The discounted cash flow method estimates fair value by discounting an entity's future cash flows using an appropriate cost of capital to reflect the risks of the cash flows, to a net present value. This method is appropriate where a projection of future cash flows can be made with a reasonable degree of confidence, and is commonly used to value early stage companies or projects with a finite life.

Other methods under the income approach include option pricing models (such as Black Scholes-Merton formula or a binomial model) and the multi-period excess earnings method in the case of valuing intangible assets.

### Cost approach

The cost approach involves the determination of fair value based on the cost of replacement. Valuation methods under the cost approach estimate the fair value of an entity's shares based on the realisable value of its identifiable net assets, and typically comprise:

- orderly realisation of assets method
- liquidation of assets method
- net assets on a going concern basis.

The orderly realisation of assets method estimates fair value by determining the amount that would be distributed to shareholders, after payment of all liabilities including realisation costs and taxation charges that arise, assuming the entity is wound up in an orderly manner. The liquidation method is similar to the orderly realisation of assets method, except that it assumes the assets are sold in a shorter time frame. Since wind up or liquidation of the entity may not be contemplated, these methods in their strictest form may not necessarily be appropriate. The net assets on a going concern basis method estimates the fair value of the net assets of an entity, after deduction for the costs of operating the net assets of the business but does not take account of realisation costs.

These methods ignore the value of intangible assets such as customer lists, management, supply arrangements and goodwill which may not be recognised on the balance sheet. Asset based methods are appropriate when companies are not profitable, or a significant proportion of an entity's assets are liquid, or for asset holding companies.

1. EBITDA represents underlying operating pre-AASB 16 EBITDA, as disclosed by Management. Management excludes Jobkeeper support from their EBITDA disclosure. The adjusted multiple includes Jobkeeper support in EBITDA

2. EBITDA based on Management pre-NZ IFRS 16 disclosure. Adjusted multiple was calculated using FY19 underlying EBITDA (based on the view that such earnings were more reflective of normalised earnings for the business)

3. enterprise value and EBITDA based on disclosures by Capitol management

4. pre-AASB 16 EBITDA estimated based on disclosures by the company

5. based on disclosures by Integral management, and excludes earn-outs and contingent consideration

6. based on disclosures by Integral management and excludes earn-outs and contingent consideration. Disclosures do not specify treatment of AASB 16

7. enterprise value based on disclosures by Integral management and excludes earn-outs and contingent consideration. EBITDA is based on mid-point of disclosed range

8. based on disclosures by Australian Clinical Labs' management and excludes earn-outs and contingent consideration. Disclosures do not specify treatment of AASB 16

9. based on disclosure by Healius (seller) management

10. enterprise value based on disclosures by Integral management and excludes earn-outs and contingent consideration. EBITDA is based on mid-point of disclosed range.

## Appendix 5: Context to the report

The report has been prepared at the request of the IBC and is to be included in the Target's Statement to be given to PSQ shareholders. Accordingly, it has been prepared only for the benefit of the IBC and the Non-Associated Shareholders in their assessment of the Takeover and should not be used for any other purpose. Neither Deloitte Corporate Finance, Deloitte Touche Tohmatsu, nor any member or employee thereof, undertakes responsibility to any person, other than the Non-Associated Shareholders and the IBC, in respect of this report, including any errors or omissions however caused.

The report represents solely the expression by Deloitte Corporate Finance of its opinion as to whether the Takeover is fair and reasonable to Non-Associated Shareholders as a whole.

This engagement has been conducted in accordance with professional standard APES 225 Valuation Services issued by the Accounting Professional and Ethical Standards Board Limited.

### Individual circumstances

We have evaluated the Takeover for Non-Associated Shareholders as a whole and have not considered the effect of the Takeover on the particular circumstances of individual shareholders. Due to their particular circumstances, individual shareholders may place a different emphasis on various aspects of the Takeover from the one adopted in this report. Accordingly, shareholders may reach different conclusions to ours on whether the Takeover is fair and reasonable. If in doubt shareholders should consult an independent adviser, who should have regard to their individual circumstances.

### Limitations

Our opinion is based on the prevailing economic, market and other conditions as at the date of this report. Such conditions can change significantly over relatively short periods of time.

Statements and opinions contained in this report are given in good faith but, in the preparation of this report, Deloitte Corporate Finance has relied upon the completeness of the information provided by PSQ and its officers, employees, agents or advisors (as set out below in 'Sources of Information'). Deloitte Corporate Finance does not imply, nor should it be construed, that it has carried out any form of audit or verification on the information and records supplied to us. Drafts of our report were issued to Management for confirmation of factual accuracy.

In recognition that Deloitte Corporate Finance may rely on information provided by PSQ and its officers, employees, agents or advisors, PSQ has agreed that it will not make any claim against Deloitte Corporate Finance to recover any loss or damage which PSQ may suffer as a result of that reliance and that it will indemnify Deloitte Corporate Finance against any liability that arises out of either Deloitte Corporate Finance's reliance on the information provided by PSQ and its officers, employees, agents or advisors or the failure by PSQ and its officers, employees, agents or advisors to provide Deloitte Corporate Finance with any material information relating to the Proposed Scheme.

To the extent that this report refers to prospective financial information we have considered the prospective financial information and the basis of the underlying assumptions. The procedures involved in Deloitte Corporate Finance's consideration of this information consisted of enquiries of PSQ personnel and analytical procedures applied to the financial data. These procedures and enquiries did not include verification work nor constitute an audit or a review engagement in accordance with standards issued by the Auditing and Assurance Standards Board or equivalent body and therefore the information used in undertaking our work may not be entirely reliable.

Based on these procedures and enquiries, Deloitte Corporate Finance considers that there are reasonable grounds to believe that the prospective financial information for PSQ included in this report has been prepared on a reasonable basis in accordance with ASIC Regulatory Guide 111. In relation to the prospective financial information, actual results may be different from the prospective financial information of PSQ referred to in this report since anticipated events frequently do not occur as expected and the variation may be material. The achievement of the prospective financial information is dependent on the outcome of the assumptions. Accordingly, we express no opinion as to whether the prospective financial information will be achieved.

### Qualifications

Deloitte Corporate Finance holds the appropriate Australian Financial Services licence to issue this report and is owned by the Australian Partnership Deloitte Touche Tohmatsu. The employee of Deloitte Corporate Finance principally involved in the preparation of this report was Tapan Parekh, Authorised Representative, B.Bus, M.Comm, CA, F.Fin. Tapan has many years' experience in the provision of corporate financial advice, including specific advice on valuations, mergers and acquisitions, as well as the preparation of expert reports.

### Consent to being named in disclosure document

Deloitte Corporate Finance Pty Limited (ACN 003 833 127) of 50 Bridge Street, Sydney, NSW, 2000 acknowledges that:

- PSQ proposes to issue a Target's Statement in respect of the Takeover
- the Target's Statement will be issued in hard copy and be available in electronic format
- it has previously received a copy of the draft Target's Statement (Draft Target's Statement) for review
- it is named in the Target's Statement as the 'independent expert' and the Target's Statement includes its independent expert's report in Attachment A of the Target's Statement.

On the basis that the Target's Statement is consistent in all material respects with the Draft Target's Statement received, Deloitte Corporate Finance Pty Limited consents to it being named in the Target's Statement in the form and context in which it is so named, to the inclusion of its independent expert's report in Attachment A of the Target's Statement and to all references to its independent expert's report or references to statements made in its independent expert's report in the form and context in which they are included, whether the Target's Statement is issued in hard copy or electronic format or both.

Deloitte Corporate Finance Pty Limited has not authorised or caused the issue of the Target's Statement and takes no responsibility for any part of the Target's Statement, other than any references to its name and the independent expert's report as included in Attachment A.

### Sources of information

In preparing this report we have had access to the following principal sources of information:

- Draft Bidder's Statement
- Draft Target's Statement
- audited financial statements for PSQ for the years ending 30 June 2020 to 30 June 2025
- management analysis and information in respect of operating metrics of centres/cohorts
- financial models prepared by PSQ
- budget for PSQ for the year ending 30 June 2026
- PSQ board reports dated from April 2022 to August 2025.

We also used information available in the public domain and information available through subscription services.

In addition, we have had discussions and correspondence with the IBC and executives of PSQ in relation to the above information and to current operations and prospects.
