Corporate Governance Statement

30 June 2025

This Corporate Governance Statement of Aura Energy Limited (the “Company”) is prepared in accordance with ASX Listing Rule 4.10.3. It is for the financial year ended 30 June 2025 and is accurate and up to date as at 15 October 2025 and has been approved by the Board.

Introduction

The Board and Management of the Company are committed to maintaining high standards of ethics, integrity and statutory compliance in all Company dealings, and all dealings of its controlled entities, collectively referred to as the “Group”. The Company recognises that it has responsibilities to its shareholders and personnel, as well as to the communities in which it operates.

The Corporate Governance Statement describes the Company’s Corporate Governance Framework in accordance with the ASX Corporate Governance Council’s Corporate Governance Principles and Recommendations (4th Edition) published on 27 February 2019 (“the ASX Principles and Recommendations”), by reference to each of the stated principles. The Corporate Governance Statement identifies where certain recommendation were not followed for the entire reporting period.

The Company is also listed on the London Stock Exchange AIM Market (AIM: AURA) and complies with the AIM Rules for Companies (“AIM Rules”).

The Corporate Governance Statement complements, and should be read in conjunction with, information contained in the Company’s Annual Report and governance documents, which are available on the Company’s website at www.auraenergy.com.au.

Principle 1: Lay solid foundations for management and oversight

The Board

The Board is responsible for the overall governance, management and strategic direction of the Group. The responsibilities of the Board are described in the

Board Charter, which is available at <https://auraenergy.com.au/our-company/corporate-governance/>. The Board delegates responsibility for the day-to-day management of the Company and its businesses to the Executive Chair and Managing Director & CEO which it undertakes within a framework of specific delegated authority and approval limits.

The Board undertakes appropriate checks before appointing a person as a Director, or putting forward to shareholders a candidate for election as a Director. The Company provides shareholders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a Director. The Company has a written agreement with each Director and senior Executive setting out the terms of their appointment, noting that the contract reflecting Mr Mitchell’s transition from Non-Executive Chair to Executive Chair, is currently being finalised.

All Directors have access to the Company Secretary, who is appointed and dismissed by the Board. The Company Secretary is accountable to the Board, through the Chair, on all governance matters and the proper functioning of the Board.

Board Performance

The Board considers the ongoing development and improvement of its own performance, the performance of Board committees and individual Directors and as critical to effective governance.

The performance of the Board, Board committees and individual Directors is intended to be reviewed at least once a year by the Board as a whole and assists with the review of the current and anticipated future composition and skills mix of the Directors of the Company. A detailed internal review took place in May 2025 and has resulted in:

- i) The transition of Phil Mitchell from Non-Executive Chair to Executive Chair on 10 June 2025, to join the executive team and work in close partnership with Andrew Grove MD & CEO to help accelerate progress on the Tiris Uranium Project in Mauritania

ii) Increased diversity on the Board with the appointments of two Non-Executive Directors:

- a. Ousmane M Kane, a distinguished Mauritanian national, appointed on 10 July
- b. Michelle Ash, with a depth of experience in global mining, innovation and technology strategy and transformational leadership, appointed on 16 September 2025

Performance of Executives

The performance of each Executive is formally assessed each year and reviewed by the Remuneration and Nomination Committee and the Board. A detailed performance review was undertaken during FY2025, comprising self-assessment against defined criteria, one on one interviews with an upline manager for detailed personal feedback and recommendations for improved performance. Performance criteria for the following financial year were also agreed with their manager.

Diversity

The Company's Diversity Policy is available on the Company's website at <https://auraenergy.com.au/our-company/corporate-governance/>. The Policy is reviewed by the Board annually to ensure it remains appropriate and is operating effectively.

The Company values diversity amongst its personnel and the valuable contribution that diversity can make to the Company.

The Company is an equal opportunity employer and aims to recruit staff at all levels from as diverse a pool of qualified candidates as reasonably possible based on their skills, qualifications and experience. Executive and Board positions are filled by the best candidates available without bias or discrimination.

The Board believes that multicultural diversity and other diversity factors are equally important as gender diversity within the organisation. Significant progress has been made in increasing multicultural diversity, with Mauritanian nationals appointed to all in-country Mauritanian positions. Some important progress with gender diversity has been made with the appointment of a female director (September 2025), a senior female senior executive (October 2024) and a female workforce participation of 32% (2025).

Whilst the Board plans to further increase female participation at key levels of the Company, the Board has not set measurable objectives with regard to gender diversity for 2026 as the Board is currently satisfied with the level of diversity within the Company and noting the very small number of personnel (27) in the organisation.

Gender diversity of the Company's workforce at the date of this report appears in the table below.

	Total	No. of males	% male	No. of females	% female
Directors (including MD & CEO)	7	6	86	1	14
Senior Executives	8	7	88	1	13
Employees	13	6	46	7	54
Whole organisation	28	19	68	9	32

The Company is below the threshold of 100 employees for reporting under the Workplace Gender Equality Act 2012.

Principle 2: Structure the Board to add value

As noted in response to 'Principle 1: Lay solid foundations for management and oversight' above, the Board operates in accordance with its charter which is available at <https://auraenergy.com.au/our-company/corporate-governance/>.

It is Board policy that a majority of Non-Executive Directors, including the Chairman, should be independent and free of any relationship that may conflict with the interests of the Company. At the date of this report, all Non-Executive Directors are considered to be independent.

Each Director is required to provide advance notice of any actual or potential conflict of interest relating to

business planned to be considered by the Board.

Skills, experience, expertise of each Director

As noted in response to Principle 1 above, the Board annually reviews its own composition, skills and capability. The Company encourages and supports Directors to maintain and expand their own professional development consistent with the needs of the Company. The Company has a programme for inducting new Directors.

Details of each current Director's skills, experience and expertise is set out in the Directors' Report along with the term of office held by each of the Directors and whether the Company considers the Director to be independent. The depth and diversity of Board skills have been significantly enhanced with the recent appointments of Ousmane M Kane and Michelle Ash as Non-Executive Directors.
