Andromeda Metals Limited (ASX: **ADN**) (**Andromeda**, the **Company**) is pleased to announce that it has successfully undertaken a placement of new fully paid ordinary shares (**Placement**) raising approximately \$13 million before costs.

Firm commitments for 742.9 million new fully paid ordinary shares have been received from new institutional and sophisticated investors (**New Shares**) at \$0.0175 per New Share under the Placement.

The price of \$0.0175 per New Share, represents a discount of:

- 16.7% to the previous closing price of \$0.021 on Wednesday, 15 October 2025;
- and
- 9.8% to the 15 trading day volume weighted average price of \$0.0194, calculated up to and including Wednesday 15 October 2025.

Placement participants will also receive 3 free attaching options for every 5 New Shares allocated (**New Options**), subject to issue of a prospectus and shareholder approval. Each New Option is exercisable at \$0.026 for a fully paid ordinary share, expiring 2 years from the date of issue and otherwise on the terms set out in Annexure 1. Application will be made for quotation of New Options on ASX. If exercised, these New Options will provide an additional \$11.6 million in capital for the Company.

The Company is pleased by the strong support shown from these new investors and welcomes them as shareholders.

The placement of New Shares will be issued in accordance with Andromeda's placement capacity under ASX Listing Rule 7.1 and Listing Rule 7.1A (with 361,189,503 shares coming under Listing Rule 7.1 and 381,667,640 shares coming within Listing Rule 7.1A). Shareholder approval will be sought for the issue of the New Options at a General Meeting (to be scheduled).

Settlement of the Placement is scheduled to occur on Thursday 23 October 2025, with issue of the New Shares under the Placement scheduled to occur on Friday 24 October 2025. New Options will only be issued after shareholder approval is obtained.

Bell Potter and Canaccord Genuity are Joint Lead Managers to the Placement and are entitled to a fee of 6% on the funds raised, plus the issue of 13 million options on the same terms as the New Options.

Funds raised will be used towards the development of the Great White Project and advancement of HPA, including early works, equipment procurement, product marketing (including HPA), general working capital and costs of the capital raise.

In support of securing the balance of funding required for a final investment decision for Stage 1A+ of the Great White Project, the Company is progressing discussions with a cornerstone investor for an investment at the asset level. Finalisation of this process remains subject to due diligence, approvals and agreement on terms.

Per the Company's prior announcements¹, A\$90 million is required for Stage 1A+ capital expenditure and working capital. Financing and cash reserving costs will be additional to the A\$90m and include:

- Capitalised interest during development;
- Cash reserving (Debt Service Reserve Account and Cost Overrun); and
- Upfront fees for equity and debt.

Sarah Clarke, Andromeda's Acting Chief Executive Officer said:

"This capital raise is a strategic step to accelerate the initial development of Stage 1A+ of the Great White Project, whilst we progress discussions for a cornerstone investment at the asset level for both the Great White Project and the HPA Project.

This will allow us to progress equipment procurement for the balance of the plant, commence site preparation activities for Stage 1A+. In addition, marketing activities in support of the commercialisation of our innovative high purity alumina technology will be undertaken, following completion of the scoping study demonstrating market leading economics and the initiation of pilot scale testwork to generate samples for customer engagement.

"The strong support for this Placement and the increased investor participation positions Andromeda well to advance Stage 1A+ towards a final investment decision while also progressing development of the exciting HPA opportunity."

The trading halt can now be lifted.
