Quarterly Activity Report: July – September 2025

Highlights:

- **Q1 FY26 sales of \$3.8M**
- **Q1 FY26 net operating cash flow breakeven**
- **\$1.8M cash on hand and \$6.1M undrawn on financing facility**
- **\$2.8M of inventory on hand (inc. purchases of \$3.3M in Q1 FY26)**
- **3rd consecutive quarter of \$1M+ in sales from Refurbished tech division**

Pure-play online retailer Harris Technology Group Limited (ASX: HT8) ("Harris Technology" or the "Company") is pleased to present its activity report for the September 2025 quarter (Q1 FY26).

Operations Update

Harris Technology generated sales revenue of \$3.8M in the September 2025 quarter (+20% QoQ) and breakeven operating cash flow.

The Refurbished tech division continued its sales momentum with monthly sales having surpassed \$0.5M in both July and September. This is reflective of increased resourcing diverted to the refurbishment team to capitalise on the consumer patterns and strong product margins.

As Harris Technology progresses toward being one of leading players in Australia's refurbished tech space, the Company has strengthened relationships with existing supply partners through volume buying, as well as securing several new suppliers during the quarter.

Notably, there is now a stream of Apple products which Harris Technology previously had little exposure to. Once refurbished, these Apple products will be listed on online marketplaces, where Harris Technology holds Authorised Reseller status, and Company-owned channels at a fraction of their new product alternatives which continues to appeal to price-conscious customers.

As of 30 September 2025, inventory on hand was \$2.8M, down from \$3.1M reported at the end of June, as a net balance that includes \$3.3M of purchases during the September quarter.

New IT product supply continues to be managed with Harris Technology anticipating that sales revenue from new tech products will decrease on previous years as resources are allocated towards the higher margin Refurbished division.

Harris Technology closed the quarter with \$1.8M of cash on hand with \$6.1M undrawn on its finance facility.

Harris Technology CEO, Garrison Huang, commented, "As we have adapted to changes in consumer trends, refurbished tech product sales have been the fastest growing segment across the Company and showing no signs of slowing down. With this sales growth and increased resources, it has been pleasing to strengthen existing supplier relationships, while leveraging our buying power to secure more supply which now also includes a broad range of Apple products.

"If the Refurbished division continues this sales growth trajectory, we are on track to hit a milestone where margin contribution has Harris Technology on the path back to profitability."

Expenditure incurred during the quarter

Expenditure Category	Amount \$ (,000)
Purchase of Inventory	3,332
Advertising	3
Staff Administrative and Corporate Costs	1,103

The amount included in section 6.1 of the Appendix 4C is the payment of rents and fees to directors or entities controlled by them.
