

ASX ANNOUNCEMENT

29 October 2025

Funds under management as at 30 September 2025

Pacific Current Group Limited (**ASX:PAC**), a global multi-boutique asset management firm, is reporting total Funds under Management (**FUM**) managed by boutique asset managers within Pacific Current Group's portfolio decreased to A\$29.8b from A\$30.0b for the quarter ended 30 September 2025.

Aggregate FUM decline of 0.9% in AUD was primarily driven by net outflows at IMC Global, while Pennybacker, Astarte, and Roc recorded FUM increases.

Pacific Current Group's executive director and acting CEO, Michael Clarke, noted, "Funds under management remained stable during the quarter, with Pennybacker, Roc, and Astarte contributing to modest net FUM inflows. IMC Global had outflows that were offset to some extent by inflows and increases related to market performance."

FUM flows and balances as at 30 June 2025 and 30 September 2025, by boutique are shown in the Appendix attached.

Other Considerations

The relationship between the boutiques' FUM and the economic benefits received by PAC can vary dramatically based on factors such as:

- the fees charged by each boutique on the assets it manages, including one-time, up-front fees;
- the varying size of PAC's ownership interest in each boutique; and
- the unique economic terms negotiated between PAC and each boutique including the manner in which PAC expects to realize value from its investment.

Accordingly, PAC cautions against simple extrapolation of PAC's projected results based on FUM trends.
