

# ASX Grant Waiver of Listing Rule 7.1 for Share Purchase Plan

*Not for release to US wire services or distribution in the United States*

Rox Resources Limited (**Rox** or the **Company**) (**ASX:RXL**) is pleased to announce that the ASX has approved the waiver sought in relation to the Share Purchase Plan (**SPP**) launched on 14 November 2025. As previously announced, Rox applied for the waiver under ASX Listing Rule 7.1 as the offer price of \$0.35 per share under the SPP was less than 80% of the 5-day volume weighted average price (**VWAP**) per share prior to the announcement date of the SPP on 14 November 2025.

As a result of the waiver granted by the ASX, the SPP will not utilise the Company's available placement capacity under Listing Rule 7.1 and will not require shareholder approval.

The waiver from the ASX has been provided on the following conditions:

- the issue price of the shares offered under SPP will be no less than A\$0.35, being the same issue price of shares issued under the placement (**Placement**) announced by Rox on 14 November 2025; and
- the number of shares to be issued under the SPP must not exceed 30% of the number of fully paid ordinary shares of Rox already on issue.

## Nature and effect of the waiver

The Company sought the waiver from the ASX to the extent necessary to permit the Company to issue, without obtaining shareholder approval, shares under the SPP on the same terms as the Placement at an issue price of A\$0.35, which is less than 80% of the Company's VWAP per share over the 5 trading days prior to the announcement date of the SPP on 14 November 2025.

The effect of the waiver from ASX Listing Rule 7.1 is that the Company will be permitted to issue shares under the SPP at an issue price of A\$0.35 per Share, which is less than 80% of the Company's VWAP over the preceding five trading days (without first obtaining shareholder approval).

Absent the waiver, the Company would be required to obtain shareholder approval before issuing Shares under the SPP at A\$0.35, which would delay the SPP and prevent the Company from offering shares to eligible shareholders on the same terms as those offered under the Placement.

The waiver therefore enables the SPP to proceed efficiently and ensures that eligible shareholders have the opportunity to participate in the capital raising at the same price as institutional and sophisticated investors, without materially altering the dilutionary impact of the transaction.

## Reasons for seeking the waiver

The Company sought a waiver from ASX Listing Rule 7.1 to the extent necessary to permit the Company to issue shares under the SPP at an issue price of A\$0.35 per Share, being the same price as shares issued under the Placement, which is at a discount of 20.3% to the Company's VWAP over the five trading days immediately prior to the announcement of the SPP on 14 November 2025. Therefore, the issue price of A\$0.35 per Share did not satisfy the pricing requirement in Listing Rule 7.2 Exception 5.

The Company sought the waiver on the basis that:

- the Company considers it appropriate and equitable that eligible shareholders participating in the SPP are afforded the opportunity to subscribe for shares at the same price offered to sophisticated and institutional investors under the Placement;
- without the waiver, the Company would not be unable to offer shares under SPP at the same price as the Placement without obtaining shareholder approval. This would likely delay the timetable of the capital raising and increase costs;
- the issue price is a 19.9% discount to the Company's VWAP over the 15 trading days immediately prior to the announcement of the SPP on 14 November 2025;
- the waiver will not materially prejudice existing shareholders, as participation in the SPP is voluntary, subject to application limits, and the overall dilution from the SPP will be approximately 2.5%, prior to issuance of Tranche 2 of the Share Placement announced on 14 November 2025;
- the terms of the SPP will comply with the terms and conditions in ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 and save for pricing, will comply with Listing Rule 7.2 Exception 5; and
- ASX has granted several waivers to other ASX listed entities in analogous circumstances to Rox.

For these reasons, the Company submitted that the waiver is appropriate in the circumstances, supports equal opportunity for shareholders, and facilitates the timely and efficient completion of the capital raising.

#### SPP timetable

With the receipt of the waiver from the ASX, the timetable for the SPP is as follows:
