LETTER TO SHAREHOLDERS

1 December 2025

Dear Shareholder,

On behalf of the Board of the Company, I am delighted to invite you to participate in a three for thirty-five renounceable pro rata entitlement offer of new fully paid ordinary shares in the Company (**New Shares**) at an issue price of A\$1.37 per New Share (**Offer Price**) to raise gross proceeds of up to approximately A\$10,030,532 (**Entitlement Offer**).

Under the Entitlement Offer, Eligible Shareholders are entitled to acquire three New Shares for every thirty-five existing fully paid ordinary shares in the Company (**Shares**) held on the record date, being 7.00pm (AEDT) on Thursday, 4 December 2025 (**Record Date**). New Shares issued under the Entitlement Offer will rank equally with existing Shares.

The Entitlement Offer may raise up to approximately A\$10,030,532 (before costs).

Refer to Section 4 for the Offer Launch Announcement and Investor Presentation which contain further details regarding the Entitlement Offer and the intended use of net proceeds.

Underwriting, Sub-underwriting and Shareholder support

The Entitlement Offer is fully underwritten by Petra Capital Pty Ltd ACN 110 952 782 (**Petra** or the **Underwriter**) pursuant to the terms of the Underwriting Agreement (as defined in Section 5.1) entered into between the Company and Petra. Petra is an Australian institutional stockbroking firm and does not hold Shares in the Company.

The NAOS Sub-Underwriters have agreed to sub-underwrite the Entitlement Offer pursuant to the terms of its Sub-Underwriting Agreement between NAOS Asset Management Limited and the Underwriter (as defined in Section 5.2). The NAOS Sub-Underwriters have committed to sub-underwrite up to 100% of the New Shares under the Entitlement Offer.

The NAOS Sub-Underwriters are a substantial holder in the Company, currently holding 29,032,433 Shares, representing a 34.0% voting power in the Company and have committed to subscribe for their entitlement under the Entitlement Offer.

In the unlikely event that no Eligible Shareholders participate in the Entitlement Offer, the NAOS Group's (as defined in Section 5.3) voting power in the Company may increase to a maximum of 36.4% upon the close of the Entitlement Offer as a result of its participation in the Entitlement Offer and sub-underwriting.

For more details regarding the Underwriter, the NAOS Sub-Underwriters, the terms of the Underwriter Agreement, the terms of the Sub-Underwriter Agreement and the control implications of the Entitlement Offer, please refer to Sections 5.1, 5.2, 5.3, 5.4 and 6.4.

Entitlement Offer details

Eligible Shareholders who take up their entitlements to subscribe for New Shares pursuant to the Entitlement Offer (being their Entitlements) in full may also apply for additional New Shares in excess of their Entitlements at the Offer Price (subject to compliance with applicable laws and to the terms set out in this Entitlement Offer Booklet) (**Top Up Facility**).

The availability of additional New Shares under the Top Up Facility will be limited to the Entitlements which are not taken up for the issue of New Shares (including any Ineligible Shares as detailed in Section 6.1) and will be subject to the Board's discretion in relation to the allocation of the Shortfall Shares. No Eligible Shareholder will be permitted to increase their voting power in the Company above 20% through the allocation of Shortfall Shares through the Top Up Facility. Refer to the shortfall allocation policy in Section 6.4 for details of the proposed allocation of the Shortfall Shares, including (after the Top Up Facility). In addition, the Board intends to invite third party sophisticated and professional investors to participate in the shortfall of the Entitlement Offer ahead of the sub-underwriting by the NAOS Sub-Underwriters.

The Directors who hold, or control, interests in Shares (being Mr John Lorente, Mr Martin Monro, Mr Alexander (Sandy) Beard and Mr Brad Soller) have committed to taking up, or to procuring the taking up of, their Entitlements under the Entitlement Offer. However, the Directors will not participate in the Top Up Facility.

The Entitlement Offer to which this Entitlement Offer Booklet relates closes at 5.00pm (AEDT) on Wednesday, 17 December 2025 (unless extended).

Accompanying this Entitlement Offer Booklet is your personalised entitlement and acceptance form (**Entitlement and Acceptance Form**), which is also available online at events.miraqle.com/bri-offer/. It details your Entitlement and can be completed in accordance with the instructions provided on the form and the instructions in this Entitlement Offer Booklet under "How to Apply".

To participate, you must ensure that you have completed your application by paying application monies by BPAY®, or alternatively for Eligible Shareholders registered outside of Australia by paying via Electronic Funds Transfer (**EFT**), so that it is received by MUFG Corporate Markets (AU) Limited (the Company's registry provider) before 5.00pm (AEDT) on Wednesday, 17 December 2025.

If you do not wish to take up any of your Entitlement, you do not have to take any action. Entitlements are renounceable, which means that Eligible Shareholders may sell or transfer all or any part of their Entitlement in order to seek to realise the value which may attach to their Entitlement. Entitlement trading is expected to commence on Wednesday, 3 December 2025 and conclude on Wednesday, 10 December 2025. If you do not take up your full Entitlement and do not trade the Entitlements which you do not take up, those Entitlements that you do not take up or trade will lapse and you will not receive any payment or value for them.

The Company has, subject to ASIC approval, appointed Petra to act as nominee (the **Ineligible Holder Nominee**) for the Ineligible Shareholders, to arrange for the sale of the Entitlements which would have been offered to them had they been eligible to participate in the Entitlement Offer (as detailed in Section 6.1).

Further information and application instructions for the Entitlement Offer, as well as key risks associated with investing in the Entitlement Offer are set out in this Entitlement Offer Booklet (including in the "Key Risks" section of the Investor Presentation) which you should read carefully and in its entirety, along with the Company's other ASX announcements (including announcements which may be made by the Company after publication of this Entitlement Offer Booklet).

Yours faithfully,

John O'Connor

The Entitlement Offer is being made to all Eligible Shareholders (as defined in Section 2.1). See Section 6.10 for further information.

3.2 Consider the Entitlement Offer in light of your particular investment objectives and circumstances

The Entitlement Offer is being made pursuant to provisions of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73) which allows entitlement offers to be made without a prospectus. This Entitlement Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an application for New Shares offered under the Entitlement Offer. As a result, it is important for you to carefully read and understand the information on the Company and the Entitlement Offer made publicly available and other Company ASX announcements, prior to accepting or trading all or part of your Entitlement or doing nothing in respect of your Entitlement. If you are an Eligible Shareholder, you may do any one of the following:

- take up all of your Entitlement and apply for additional New Shares, in excess of your Entitlement, under the Top Up Facility;
- take up all of your Entitlement but not apply for additional New Shares under the Top Up Facility;

- sell all or a proportion of your Entitlement on ASX (or other than on ASX) and allow any balance to lapse;
- take up a proportion of your Entitlement and sell the balance on ASX (or sell the balance other than on ASX);

- do nothing, in which case your Entitlement will lapse and you will receive no value for those lapsed Entitlements.

(a) **If you wish to take up all of your Entitlement and also apply for additional New Shares in the Top Up Facility or if you wish to take up all of your Entitlement only**

If you decide to take up all of your Entitlement, or take up all of your Entitlement and participate in the Top Up Facility, please either:

If you apply to take up all of your Entitlement, you may also apply for additional New Shares under the Top Up Facility (subject to compliance with applicable laws and to the terms set out in this Entitlement Offer Booklet). Amounts received by the Company in excess of the Offer Price multiplied by your Entitlement may be treated as an application to apply for as many additional New Shares as your application monies will pay for in full.

If you are paying by BPAY®, please make sure to use the specific Biller Code and unique Customer Reference Number on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Customer Reference Number specific to the Entitlement on that Entitlement and Acceptance Form.

If you take up all of your Entitlement (and if you apply for additional New Shares under the Top Up Facility) and if your application is successful (in whole or in part) you will be issued your New Shares on or about Wednesday, 24 December 2025. The Company's decision on the number of New Shares to be issued to you will be final. If you apply for additional New Shares under the Top Up Facility, there is no guarantee that you will be allocated any additional New Shares. You may alternatively be allocated zero additional New Shares or less additional New Shares than you applied for. Refer to Section 6.4 for details in respect to the shortfall allocation policy.

Any New Shares not taken up by 5:00pm (AEDT) on the Closing Date may be made available (in whole or in part) to those Eligible Shareholders who took up their full Entitlement and applied for additional New Shares under the Top Up Facility (or may be made available to other investors at the Board's discretion, as detailed in Section 6.4). There is no guarantee that such Shareholders will receive the number of New Shares

applied for under the Top Up Facility, or any. Additional New Shares under the Top Up Facility will only be allocated to Eligible Shareholders if available and to the extent that the Board so determines, in its absolute discretion.

The Board also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if the Board believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to the Board's satisfaction.

(b) If you wish to take up part of your Entitlement

If you decide to take up part of your Entitlement, please either:

- pay your application monies via BPAY® by following the instructions set out on the personalised Entitlement and Acceptance Form (also available online at events.miraql.com/bri-offer/); or
- if you are a Shareholder registered outside of Australia, without an Australian bank account, pay your application monies via EFT to the Offer Bank Account detailed on your personalised Entitlement and Acceptance Form available at events.miraql.com/bri-offer/,

so that it is received by the Share Registry by no later than 5:00pm (AEDT) on the Closing Date.

The Company will treat you as applying for as many New Shares as your payment will pay for in full. If you are paying by BPAY®, please make sure to use the specific Biller Code and unique Customer Reference Number on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Customer Reference Number specific to the Entitlement on that Entitlement and Acceptance Form.

If you take up and pay for part of your Entitlement before the close of the Entitlement Offer you will be issued your New Shares on or about Wednesday, 24 December 2025. The Company's decision on the number of New Shares to be issued to you will be final.

The Board also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if the Board believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to the Board's satisfaction.

Eligible Shareholders who do not participate fully in the Entitlement Offer are expected to have their percentage holding in the Company reduced by the Entitlement Offer (including by the issues of New Shares pursuant to Entitlements taken up and by the issues of Shortfall Shares).

(c) Selling all or a proportion of your Entitlement on ASX

The Entitlements under the Entitlement Offer are renounceable which means that all or part of an Eligible Shareholder's Entitlements under the Entitlement Offer may be traded on ASX. If you wish to sell part or all of your Entitlement on ASX, you should provide instructions to your stockbroker regarding the Entitlement you wish to sell on ASX. Trading of Entitlements will commence on ASX on Wednesday, 3 December 2025 and will cease at the close of trading on Wednesday, 10 December 2025. If you wish to sell all or part of your Entitlement on the ASX you must do so **by no later than 4.00pm AEDT on Wednesday, 10 December 2025.**

If you purchase additional Entitlements on-market, and you were an Eligible Shareholder at the Record Date who received an Entitlement, you can use the same personalised

payment details (relevant to each separate holding you have) available to you at events.miraqle.com/bri-offer/.

If you purchase Entitlements on-market and you were not an Eligible Shareholder at the Record Date but would have been an Eligible Shareholder if you held Shares on the Record Date and you want to accept those purchased Entitlements, please ensure that you take steps to accept those Entitlements, by making a payment of the Offer Price of \$1.37 per New Share. Your broker may assist you with this as part of your on-market purchase, however if you do not pay your broker for the acceptance of your acquired Entitlements you will need to obtain a Standard Acceptance Form – Rights from events.miraqle.com/bri-offer/ and e-mail the completed form in accordance with the instructions on the form and request electronic transfer details for payment. You will need to lodge your completed form and make payment so cleared funds are received by the Share Registry no later than **5:00pm (AEDT) on the Closing Date**.

All Applicants should be aware of their financial institution's cut-off time and it is the Applicant's responsibility to ensure funds are submitted, processed and received correctly by 5:00pm (AEDT) on the Closing Date.

There is no guarantee that an Eligible Shareholder will be able to sell all or any part of their Entitlement on ASX or that any particular price will be paid for any Entitlements sold on ASX.

(d) Selling all or a proportion of your Entitlement other than on ASX

You may elect to transfer all or a proportion of your Entitlement to another person other than on ASX. If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

If you are a Shareholder on the issuer sponsored sub-register who wish to sell or transfer all or part of your Entitlement to another person or party other than on-market through ASX, then you must do the following:

- complete a standard renunciation form (which you should be able to obtain from your stockbroker or is available at events.miraqle.com/bri-offer/); and
- e-mail the completed form in accordance with the instructions on the form and request EFT details for the transferee to make a payment of the Offer Price of \$1.37 per New Share.

Both the transferor and the transferee must be issuer sponsored. If either party is CHESSE sponsored, they will need to arrange the transfer of Entitlements through their sponsoring broker.

The transferee's address must be an address in Australia or New Zealand.

Payment by the transferee via EFT referred to above must also be received in cleared funds by the Share Registry by no later than **5:00pm (AEDT) on the Closing Date**.

All Applicants should be aware of their financial institution's cut-off time and it is the Applicant's responsibility to ensure funds are submitted, processed and received correctly by 5:00pm (AEDT) on the Closing Date.

If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESSE sub-register you must engage your CHESSE controlling participant (usually your stockbroker). If the transferee wants to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf by no later than **5:00pm (AEDT) on the Closing Date**.

If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

(e) Allow all or part of your Entitlement to lapse

Shareholders should be aware that their Entitlement may have value. Entitlements are renounceable, which enables Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement as detailed above.

If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, your Entitlement will lapse and you will not receive any value for your Entitlement.

Eligible Shareholders who do not participate fully in the Entitlement Offer are expected to have their percentage holding in the Company reduced by the Entitlement Offer (including by the issues of New Shares pursuant to Entitlements taken up and by the issues of Shortfall Shares).

3.4 Payment

The method of acceptance of the Entitlement Offer will depend on your method of payment being:

- by BPAY® (all Eligible Shareholders); or
- by EFT (for Eligible Shareholders registered outside of Australia).

Cheque or cash payments will not be accepted. Receipts for payment will not be issued.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement plus (if applicable) additional New Shares under the Top Up Facility.

Any application monies (greater than A\$2.00) received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any application monies received or refunded.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form available at events.miraql.com/bri-offer/ (which includes the Biller Code and your unique Customer Reference Number). You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

Please note that should you choose to pay by BPAY®:

- you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations, representations and warranties on that personalised Entitlement and Acceptance Form and in this Section 3 and Section 6 of this Entitlement Offer Booklet; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your application monies.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5:00pm (AEDT) on the Closing Date. You should be aware that your financial

institution may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment.

Please make sure you use the specific Biller Code and your unique Customer Reference Number on your personalised Entitlement and Acceptance Form. If you have more than one holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Customer Reference Number specific to the Entitlement on that Entitlement and Acceptance Form.

Any application monies (greater than A\$2.00) received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid on any application monies received or refunded.

Payment by Electronic Funds Transfer (EFT)

For payment by EFT, you should make your payment in accordance with the instructions using the unique reference number provided on the personalised Entitlement and Acceptance Form available at events.miraqle.com/bri-offer/

Your EFT payment must be:

- for an amount equal to A\$1.37 multiplied by the number of New Shares that you are applying for; and
- in Australian currency drawn on an Australian branch of a financial institution. Payment cannot be made in New Zealand dollars, nor in other foreign currencies. Shareholders must arrange for payment to be made in Australian dollars. Shareholders should also consider any fees that may be deducted in making an EFT payment from overseas.

If the amount of your EFT payment received is insufficient to pay for the number of New Shares you have applied for in your personalised Entitlement and Acceptance Form in full, you will be taken to have applied for such lower number of whole New Shares as your cleared application monies will pay for (and taken to have specified that number of New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your application will not be accepted. Please note that if you pay application monies by EFT you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations, representations and warranties on that personalised Entitlement and Acceptance Form and in this Section 3 and Section 6 of this Entitlement Offer Booklet.

Any application monies (greater than A\$2.00) received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid on any application monies received or refunded.

Big River will undertake a fully underwritten ~\$10 million pro rata renounceable entitlement offer of new fully paid ordinary shares in Big River (New Shares) (Entitlement Offer) to partially fund the Acquisition. The balance will be funded with from existing debt facilities and cash and the issue of new shares to the vendor.

Big River Industries CEO and Managing Director, John Lorente, said: "John's Building Supplies is a high-quality Western Australian business with deep customer relationships and a strong reputation built over many decades. This acquisition expands our presence in an important growth region and strengthens our position in key trade-focused market segments.

I want to acknowledge and thank John Lindsay and his family for the way they have built the business and created a culture that strongly aligns with Big River's focus on service, reliability and long-standing customer partnerships. Acquisition Details

Big River has entered into a business purchase deed to acquire 100 percent of the business and assets of John's Building Supplies for a total consideration of up to \$17.0 million.

This includes an upfront consideration of \$15.0 million, comprising \$13.0 million in cash and \$2.0 million in Big River shares issued at the 10 day VWAP immediately prior to completion (Consideration Shares). The Consideration Shares will be issued out of the Company's existing Listing Rule 7.1 placement capacity. Half of the Consideration Shares will be subject to a 12-month escrow and the remainder of the Consideration Shares will be subject to a 24 month-escrow. A further \$2.0 million consideration may be payable on the achievement of defined EBITDA thresholds. Completion is expected on or around 15 December 2025, subject to customary conditions precedent. The Acquisition will be funded ahead of completion of the Entitlement Offer through cash and existing bank facilities.

Entitlement Offer Details

The Entitlement Offer is available to all registered shareholders with an address in Australia or New Zealand at 7.00pm Sydney time (AEDT) on 4th December 2025 (Record Date).

Eligible Shareholders may subscribe for 3 New Shares for every 35 existing fully paid ordinary shares in Big River (Shares) held on the Record Date at an issue price of \$1.37 per New Share (Offer Price) to raise approximately \$10 million (before costs). The Offer Price represents a 2.1 percent discount to the 10-day VWAP of A\$1.40 to 28 November 2025.

Under the Entitlement Offer, Big River expect to issue a maximum of 7,321,556 (subject to rounding of entitlements), resulting in the total share capital of Big River after the completion of the Entitlement Offer increasing to 92,739,710 Shares (not including the Consideration Shares).

Each New Share will rank equally with existing fully paid ordinary shares in Big River. Big River will apply for quotation of New Shares on the ASX.

Trading of Entitlements

Entitlements are renounceable (**Entitlements**) and will be tradeable on ASX or transferable off market. This provides shareholders with the opportunity to sell some or all of their Entitlements in order to realise value for those Entitlements.

Trading of Entitlements on ASX is expected to commence on 3rd December 2025 (on a deferred settlement basis) and conclude on the close of trading on 10th December 2025 (Entitlement Trading Period).

It is the responsibility of the purchaser of Entitlements to inform themselves of the eligibility criteria for exercise of the Entitlements, as outlined in the Offer Booklet. If holders of Entitlements after the end of the Entitlement Trading Period do not meet the eligibility criteria, they will not be able to exercise the Entitlements. In the event the holders are not able to take up their Entitlements, those Entitlements will lapse and holders may receive no value for them.

Top Up Facility

Eligible Shareholders will have the opportunity to apply for additional New Shares, in excess of their entitlement, at the Offer Price under the Entitlement Offer Top Up Facility. The Board maintains absolute discretion in relation to any scaling of applications under the Entitlement Offer Top Up Facility.

Underwritten Offer

Big River's three major shareholders, Naos, Anacacia and MA financial together with all the Directors and Key Management Personnel have each committed to subscribing for their Entitlements, representing at least 70% of the Entitlement Offer.

The Entitlement Offer is fully underwritten by Petra Capital Pty Ltd (Underwriter). After accounting for the Entitlement Offer Top Up Facility participation, the Underwriter intends to complete a Shortfall Placement of any Entitlement Offer shortfall to sophisticated or professional investors with the prior approval of Big River. Any

shortfall remaining after the Shortfall Placement will be allocated to sub-underwriters. Petra has appointed Naos to act as a sub-underwriter to sub-underwrite up to 100% of the Entitlement Offer.

Nominee for Ineligible Foreign Shareholders

The Entitlement Offer is only made to shareholders with registered addresses in Australia and New Zealand. Subject to ASIC approval, Big River will appoint the Underwriter for ineligible foreign shareholders to arrange for the sale of Entitlements that would have been offered to ineligible shareholders had they been eligible to participate in the Entitlement Offer, with net proceeds of any sale distributed to those shareholders. 17 Key Risks

Set out in this section are potential risks associated with the Company and the Acquisition, the Entitlement Offer and an investment in the Company's shares. It is not an exhaustive list of every risk faced by the Company now or in the future.

Acquisition completion risk	The Acquisition is subject to conditions precedent, typical for a transaction of this nature. Any failure to complete, or delay in completing the Acquisition may have a material impact on the operating and financial position of the Company. In the event that the Acquisition does not complete, the Company intends to apply the funds raised under the Entitlement Offer to working capital, including potential future acquisitions.
Acquisition due diligence risk	The Company undertook a due diligence process in relation to the Acquisition, which relied on information provided by the Acquisition. Whilst the Company believes the due diligence process undertaken was appropriate, the Company is not able to verify the accuracy, reliability of completeness of all the information provided to it against independent dates. If any information provided to and relied on by the Company in its due diligence process and its preparation of this Presentation process to be incomplete, incorrect, inaccurate or misleading, there is a risk that the financial position and performance of the Company may differ (including in a material adverse way) from the descriptions provided in this Presentation. Investors should also note that there is no assurance that the due diligence conducted was conclusive and that all materials issues and risks in respect of the Acquisition have been identified or addressed. Therefore, there is a risk that unforeseen issues and risks may arise, which might have a material adverse impact on the Company.
Key personnel	The Company's success is dependent upon the Group's ability to attract and retain key team members, including key management. The key management have extensive experience in and knowledge of the Australian building materials industry and of the Company's business. The loss of key management and other team members and the inability to recruit suitable replacements or additional personnel may adversely affect the Company's future financial performance.
Dilution risk	On completion of the Entitlement Offer, the Company will issue c7.3 million New Shares, increasing the total shares on issue in the Company to 92.7 million. To the extent shareholders do not participate in full in the Entitlement Offer, their percentage shareholding in the Company following completion of the Entitlement Offer will reduce.
Underwriting risk	The Company has entered into an underwriting agreement with the Underwriter to fully underwrite the Entitlement Offer, subject to the terms and conditions of that agreement. In the event that any of the termination events in the underwriting agreement are triggered, and the Underwriter elects to terminate the underwriting agreement, the Company will be required to fund the Acquisition through existing cash and available debt facilities.
Insurance	The Company and Acquisition have in place a level of insurance considered suitable for their current business operations. There is a risk that the insurance in place is not sufficient to adequately protect against liability for all losses.
Global economic conditions	Changes in general economic factors such as economic growth, interest rates, exchange rates, inflation and business and consumer confidence and general market factors may have an adverse impact on the Company's and the Group's earnings.
Share price fluctuations	The value of the Company's shares will be determined by the stock market and will be subject to varied and often unpredictable influences in the share market beyond the Company's control and the last trading price of the Company's shares on ASX prior to the presentation is not a reliable indicator as to the potential trading price of the Company in the future. These factors include, but are not limited to, the demand for, and availability of the Company's shares, movements in interest rates, exchange rates, and rates of inflation, fluctuations in the Australian and international stock markets, changes in fiscal, monetary and regulatory policies, and general domestic and international and economic activity. Depending on general market conditions and the Company's share price, the Company may not be able to attract new investors or raise capital as and when required.
Industrial disputes	A proportion of the Company's operational employees and sub-contractors are members of trade unions, and the Company has experienced union action and industrial disputation in the past. If any material disputes were to arise, this could disrupt the Company's operations and adversely impact its financial performance. There has been no time lost to industrial disputes over the last 5 years.

18 Key Risks continued

Taxation	Changes to corporate income tax, import duties, property tax, excise tax, withholding tax or any other applicable taxation legislation or policies in Australia, or other jurisdictions where the Company operates or procures supply may adversely affect the Company's financial profitability, net assets and cash flow and the returns to investors. The countries in which the Company operates or procures supply may impose additional taxes on the Company. The recoupment of taxation losses accrued by the Company from any future revenues is subject to the satisfaction of tests outlined in taxation legislation or regulations in relevant jurisdictions. There is no guarantee that the Company will satisfy all these requirements at the time it seeks to recoup its tax losses which may impact on the financial performance and cash flows of the Company.
Cyber risk	Like other entities the Company may be exposed to the risk of cyber attacks on its systems and operations. Such attacks may involve a denial of service, corruption of data, exposure of private data in breach of regulations or requests for payment of monies. The Company believes it has appropriate data security mitigations in place, however no guarantee that this will be sufficient to prevent a successful attack can be given.
Litigation risk	Legal proceedings may arise from time to time in the course of the Company's business. The Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute, if proven, may impact adversely on the Company's operations, financial performance and financial position.
Regulations	The Company's operations are subject to government laws, regulations and policies governing (among other things) taxation, exploration, production, exports, labour standards, occupational health and safety and environmental protection. Any future changes in these laws, regulations or policies may adversely affect the Company's operations. As an Australian domiciled company listed on the ASX, changes in relevant taxation, interest rates, other legal, legislative and administrative regimes, and Government policies in Australia, may have an adverse effect on operations and ultimately the financial performance of the Company and the market price of its securities.
Acquisition and divestment risk	From time to time, the Company evaluates opportunities for acquisition and divestment of assets and participates in discussions with third parties on a confidential basis. Neither the opportunities nor the negotiations will be disclosed publicly until such time as the prospects of transacting are sufficiently certain and the materiality of any transaction has been determined. The execution and implementation of transactions of this nature may impact the Company's operations, financial performance and financial position and lead to a change in the Company's future capital, operating expenditure and funding requirements. However, there is no guarantee that any such transaction will emerge or be consummated.
Operational and controls risk	Operational risk relates to the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events which impact on Big River's business. Big River is exposed to operational risks including risks arising from process error, fraud, system failure, failure of security and physical protection systems including cyber security and any pricing errors. Big River has specific operational exposures in connection with product disclosure statements, legal and regulatory compliance, product commitments and others. Operational risk has the potential to have an effect on Big River's financial performance and position as well as reputation.
Loss of customers or contracts	Big River must maintain and support its existing customer relationships to ensure they continue into the future. A loss of customers or contracts could lead to a decline in revenue and resulting deterioration in the financial performance of Big River.
General conditions in the construction industry	Big River's business is highly dependent on the activity levels in the residential, non-residential and infrastructure construction industry (comprising both new builds and additions and alterations) in Australia. The industry is cyclical and is highly sensitive to a broad range of economic and other factors that are beyond Big River's control. These factors include: general economic and market conditions; housing demand from population growth, household formation and other demographic trends which, in turn, drives new builds and additions and alterations; commercial leasing market conditions and commercial site vacancy levels; Government plans for infrastructure investment; house prices; prevailing interest rates; inflation or deflation; Government or Reserve Bank policies (for example, lending restrictions tied to loan to value ratios or tax deductibility of investment loans); State and local Government policies relating to residential housing construction, land release or programmes or regulations relating to energy efficiency; changes in consumer spending; personal income tax rates; employment levels and job and personal income growth; and business and consumer confidence generally, including the confidence of potential homebuyers in particular. Big River's business will continue to be affected by the level of construction activity in Australia. Lower levels of construction activity, including as a result of any negative trends in any of the factors referred to above, could lead to a significant reduction in demand for the Group's products and services. This could reduce Big River's revenues and profits.
Product liability exposure	The Company may, from time to time, experience manufacturing defects or other claims relating to its products and services. Defects in the Group's products could be difficult or costly to correct, cause significant customer relations and business reputation problems, harm its financial results and result in damage to or claims by its customers. Any such claim could also result in increased challenges on obtaining insurance on comparatively reasonable terms.

19 Key Risks continued

Health & Safety	The Company may, from time to time, experience manufacturing defects or other claims relating to its products and services. Defects in the Group's products could be difficult or costly to correct, cause significant customer relations and business reputation problems, harm its financial results and result in damage to or claims by its customers. Any such claim could also result in increased challenges on obtaining insurance on comparatively reasonable terms.
Brand Maintenance	The Company believes the reputation of its products and brands is key to its success. The Group's reputation and the value of its brands may be damaged as a result of negative customer or end-user experiences due to poor product performance or product failures, adverse media coverage or other publicity (in relation to such matters as manufacturing defects, product recalls, warranty issues or product liability litigation), or disputes with customers, suppliers, landlords or employees. Erosion of the Company's reputation as a result of one or a combination of these factors may reduce demand for its products, diminish the value of its brands, or adversely impact relationships with key customers, suppliers or employees. This in turn may adversely impact the Company's net sales and profitability.
Supplier & buyer agent relationships	The Company has a number of longstanding supplier and buyer agent relationships, which are often governed by individual purchase orders and invoices and are based upon many years of mutually beneficial trade. The key risks associated with these relationships are that the purchasing arrangements can be changed without incurring significant penalties, the supplier may cease trading, price levels may change, production difficulties or delays may occur and orders may be unable to be shipped in the required timeframes. If any of these events occur and the Company is unable to make acceptable alternative arrangements, the Company may incur stock shortages, a reduction in sales and a loss of market share which may adversely affect its future financial performance. The Company also has longstanding log supply contracts. An interruption or failure to renew these contracts could have a materially negative impact on the Company's manufacturing operations.
Disruptions to production	Due to the high fixed-cost nature of the building materials industry, interruptions in production capabilities at the Company's sites or in its logistics supply chain may have a material adverse effect on the productivity and results of the Company's operations during the affected period. The Group's manufacturing processes and related services are dependent upon critical pieces of equipment. This equipment may on occasion be out of service as a result of industrial action or unrest, unanticipated failures, accidents or force majeure events. In addition, there is a risk that equipment or production facilities may be damaged or destroyed by such events. Similarly, disruptions in the Company's logistics chain would impact continuity of supply, which may have an adverse effect on its business, financial condition or results of operation.
Growth strategies	The Company has a number of strategies to support future growth and earnings. There is a risk that the implementation of these strategies will be subject to delays or cost overruns and there is no guarantee that these strategies will generate the full benefits anticipated or result in future sales and earnings growth. Furthermore, the implementation of these growth strategies may lead to changes to the Company's business or the customer experience which may result in unintended adverse consequences if such changes affect customer preferences.
New technology / industrial change	Industries in which the Company competes, including building products and construction materials, may be subject to disruptive change from new technologies if the Group is not able to develop or access new technologies and anticipate or respond to disruptions in the markets in which it competes, the Group may suffer a decrease in the demand for its goods and services. This may have a material adverse effect on results of its operations, financial condition and business.
Increase in competition	The building materials market is highly competitive. The actions of an existing competitor or the introduction of a new competitor in the building materials market may make it difficult for the Group to grow its revenue which in turn, may have an adverse effect on its profitability.
Financial risks	While the Company believes it will have sufficient funds to meet all of its growth and capital requirements for the near term, the Company may seek to exploit opportunities of a kind that will require it to raise further additional capital from equity or debt sources in the future. There can be no assurance that the Company will be able to raise such capital on favourable terms or at all. If the Company is unable to obtain such additional capital, it may be required to reduce the scope of its anticipated activities which could adversely affect its business, financial condition and operating results. It is possible that an unforeseen circumstance or event may cause covenants in favour of the Group's lenders to be breached. Any breach in the debt covenants may result in a lender enforcing its security over the relevant assets. A breach in covenants may result in the need to sell the assets at an earlier time to enable a repayment of a facility. Such a sale may be at a price lower than the optimal sale price. There are a number of other consequences as a result of any default which are not individually outlined in this Investor Presentation.

20 Key Risks continued

IT system failure and cyber security risks	Any information technology system is potentially vulnerable to interruption and/or damage from several sources, including but not limited to computer viruses, cyber security attacks and other security breaches, power, systems, internet and data network failures, and natural disasters. The Group is committed to preventing and reducing cyber security risks through ongoing management of the risks and continuous review.
Climate risks	There may be climate related factors which impact the Group's operations in both the near and longer term. For example, these impacts could be in areas such as availability and cost of materials used in the Group's products or manufacturing processes, transport, and/or occurrence of extreme weather events. Any significant or sustained impacts could adversely affect the Group's financial performance and/or financial position. The Group has begun developing a comprehensive Scopes 1 & 2 Emissions Inventory in line with the Greenhouse Gas Protocol, integrating management and reduction strategies across all sites to meet reporting obligations. ESG reporting will commence in the 2027 Annual Report.
Environmental risks	Environmental risk in the Company's sales and distribution sites is regarded as minimal, as no dangerous goods are marketed for sale and no manufacturing activities are undertaken at these sites. While the manufacturing sites do not perform any kind of umber treatment or preservation (which requires specific licensing), the sites do involve large equipment and machinery that require hydraulic oil and various commonly used maintenance products. The Company considers that this creates minimal environmental risk given these functions occur predominantly in enclosed warehouses. However, any issues that may arise could involve clean-up, residual testing and or remediation work.
Natural phenomena	Events may occur within or outside Australia that could impact upon the Australian economy, the operations of the Company and the Group and the price of the Shares. These events include but are not limited to acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease or other natural or manmade events or occurrences that can have an adverse effect on the demand for the Company's products and its ability to conduct its business.
Asset Impairment	The Company's board regularly monitors impairment risk. Following a sustained market downturn and challenging trading conditions, the Company conducted a recent review of the carrying value of its assets. As a result, a non-cash impairment charge of \$20 million in relation to intangible assets was recognised in the first half of the 30 June 2025 financial year. Consistent with accounting standards, the Company is periodically required to assess the carrying values of its assets. Where the value of an asset is less than its carrying value, the Company is obliged to recognise an impairment charge in its profit and loss account. Impairment charges are a non-cash item.

21 Risks specific to the Acquisition and Entitlement Offer

Acquisition

- (a) **Completion of the acquisition of John's Building Supplies is subject to various conditions**
Completion of the Acquisition is subject to a number of conditions precedent. There can be no certainty, nor can the Company provide any assurance, that the conditions to the Acquisition will be satisfied or waived (where applicable), or when the conditions will be satisfied or waived (where applicable). In addition, there are conditions precedent to the Acquisition which are outside the control of the Company. If, for any reason, the condition to the Acquisition are not satisfied or waived (where applicable) and the Acquisition is not completed, the market price for the Company's shares may be adversely affected.
- (b) **Termination rights under the Business Purchase Deed**
John's Building Supplies and the Company each have the right to terminate the Acquisition Agreement in certain circumstances. Accordingly, there is no certainty that the Acquisition Agreement will remain on foot and not terminate before completion of the Acquisition.
- (c) **Integration Risk**
The long-term success of the Company will depend, amongst other things, on the success of management in integrating John's Building Supplies operations and the strength of the Company's management. There is no guarantee that John's Building Supplies operations will be able to be integrated successfully within a reasonable period of time. There are risks that any integration of John's Building Supplies operations may take longer than expected and that anticipated efficiencies and benefits of that integration may be less than estimated. These risks include the inability to achieve benefits and cost savings and the potential loss of key personnel.
- (d) **Change in risk profile**
If the Acquisition is completed, there will be a change in the risk profile of the Company to which Shareholders are exposed. Shareholders are currently exposed to various risks as a result of their investment in the Company. If the Acquisition completes, Shareholders will also be exposed to additional risks relating to John's Building Supplies operations.
- (e) **Failure to realise benefits of the Acquisition**
After completion of the Acquisition, the Company will seek to pursue the strategies, operational objectives and benefit as described in this presentation. There is a risk that the Company will be unable to realise the strategies, operational objectives and benefits outlined in this presentation, or that they will not materialise or will not materialise to the extent that the Company anticipates (for whatever reasons, including matters beyond the control of the Company), or that the realisation of the strategies, operational objectives and benefits outlined in this presentation are delayed, which could have an adverse impact of the Company's operations, financial performance, financial position and prospects.
- (f) **Other risks**
Additional risks and uncertainties not currently known to the Company may also have a material adverse effect of the Company's business and the information set out above does not purport to be, nor should it be construed as representing, an exhaustive list of the risks of the Company.

Underwriting & Dilution risk

- (a) **Underwriting risk**
The Company has entered into an underwriting agreement pursuant to which the Underwriter has agreed to underwrite the Entitlement Offer, subject to the terms and conditions of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur, the Underwriter may terminate the Underwriting Agreement. Termination of the Underwriting Agreement would have an adverse impact on the proceeds capable of being raised under the Entitlement Offer and completion of the Acquisition. If the Underwriting Agreement is terminated, at any time, and the Company does not raise the full amount under the Entitlement Offer, the Company would need to find funding alternatives to complete the Acquisition. There is no guarantee that alternative funding could be sourced, either at all or on satisfactory terms and conditions.
- (b) **Potential for dilution**
Upon completion of the Entitlement Offer, assuming no performance rights are exercised or converted prior to 7.00pm (AEDT) on the record date, the number of Shares in the Company will increase from 85,418,154 to 92,739,710. This increase equates to approximately 8.6% of all the issued Shares in the Company following completion of the Entitlement Offer. This means that each Share will represent a lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Entitlement Offer and the Directors do not make any representations with respect to such matters.
The last closing trading price of Shares on ASX on the day prior to the date of announcement of the Entitlement Offer of \$1.30 is not a reliable indicator as to the potential trading price of Shares following completion of the Entitlement Offer.

5.4 Effect on Control

The potential effect that the Entitlement Offer will have on the control of the Company and the consequences of that effect will depend on a number of factors, such as investor demand, existing shareholdings and the extent to which Shortfall Shares are available and ultimately taken up (in accordance with the shortfall allocation policy detailed in Section 6.4).

Following the Entitlement Offer and upon completion of the underwriting pursuant to the Underwriting Agreement and the sub-underwriting pursuant to the Sub-Underwriting Agreement, the voting power in the Company held by the NAOS Group and its associates could increase from the level of 34.0% to up to a maximum of 36.4%.

The Underwriter does not hold Shares in the Company or have a relevant interest in the Company. No Shareholder (other than the NAOS Group) will obtain a relevant interest above 20% of the New Shares as a result of participating in the Entitlement Offer.

The NAOS Group may increase its voting power to this extent by relying on the exception contained in item 10 of section 611 of the Corporations Act in respect of taking up its Entitlements under the Entitlement Offer.

No forecast is made on whether the NAOS Group's voting power in the Company will otherwise change in the future, whether pursuant to other acquisitions or disposals of Shares or otherwise (for example relying on any other applicable items in section 611 of the Corporations Act).

It is a term of the Sub-Underwriting Agreement that the NAOS Sub-Underwriters will not sell or purchase any entitlements to participate in the Entitlement Offer during the rights trading period.

The following tables show the indicative number of Shares to be held by, and the approximate indicative voting power in the Company of the NAOS Group, the Anacacia Group and the MAF Group upon completion of the Entitlement Offer, the underwriting and the sub-underwriting, under certain pro forma scenarios:

MAF Group	5,335,073	6.2%	5,792,365	6.2%

MAF Group	5,792,365	6.2%	5,792,365	6.2%

Notes:

1. In calculating the potential outcomes in the two tables immediately above, the Company has included the issue of any New Shares which would have been offered to Ineligible Shareholders (had they been Eligible Shareholders), on the assumption that those Entitlements are sold by the Ineligible Holder Nominee and taken up by the transferees of those Entitlements not associated with the Underwriter and the NAOS Sub-Underwriters. No forecast is made of whether any such Entitlements will be sold, as this inclusion is made for pro forma illustrative purposes only.
2. In calculating the potential outcomes in the table immediately above, when calculating the total percentage of Entitlements assumed to be accepted in each column of the table, the Company has assumed that the NAOS Group, the Anacacia Group and the MAF Group take up their Entitlements in full (but no assurance is given of whether that will occur). In any event, the Entitlement Offer is fully underwritten by the Underwriter pursuant to the Underwriting Agreement and sub-underwritten by the NAOS Sub-Underwriters pursuant to the Sub-Underwriting Agreement.

The potential effect which the issue of New Shares pursuant to the Entitlement Offer (including the Shortfall Shares) will have on the control of the Company is as follows:

- if all Eligible Shareholders take up their Entitlements under the Entitlement Offer, the New Shares issued under the Entitlement Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer;
- in the more likely event that there is a shortfall in the Entitlement Offer, Eligible Shareholders who do not subscribe for their full Entitlement of New Shares under the Entitlement Offer (such as those who sell their Entitlements under the Entitlement Offer) will be diluted relative to those Eligible Shareholders who subscribe for some or all of their Entitlement, and will be diluted by any take up of Shortfall Shares; and
- the voting power held in the Company by the NAOS Group could increase from 34.0% to up to a maximum of 36.4%, assuming that the NAOS Group, the Anacacia Group and the MAF Group are the only Shareholders that subscribe for their Entitlement.

The potential consequences of the effect which the issue of New Shares pursuant to the Entitlement Offer may have on the control of the Company is that there may be an increase in the NAOS Group's ability to influence the composition of the Company's board and the Company's management and strategic direction and to impact the outcome of resolutions of Shareholders.

For example, the NAOS Group may have the ability to prevent a special resolution from being passed by the Company (such resolution requiring at least 75% of the votes cast by members entitled to vote on the resolution) and may have the de facto ability to pass ordinary resolutions of the Shareholders, or to prevent ordinary resolutions from being passed, given that less than 100% of Shareholders are expected to vote at any general meeting.

Control will ultimately be affected by the level of applications under the Entitlement Offer. The final percentage interests held by Shareholders are dependent on, among other things, the extent to which Eligible Shareholders take up their Entitlements.

No Shortfall Shares will be issued to an Eligible Shareholder or another applicant for Shortfall Shares if, in the view of the Directors, to do so would increase that Eligible Shareholder's or that other applicant's voting power in the Company to above 20%. Additionally, the Directors reserve the right to reject an application for Shortfall Shares and any issue of Shortfall Shares if, without limitation, such issue would, in the view of the Directors, result in a breach of the ASX Listing Rules, the Corporations Act, FATA or any other applicable law.

The information in this Section 5.4 is the Company's estimates only, based on the information available to it. Actual outcomes may vary.

5.5 Potential Dilution Effect

If you do not participate in the Entitlement Offer, your holdings in the Company will be diluted as a result of the Entitlement Offer (compared with your position before the Entitlement Offer), after the issue of New Shares under the Entitlement Offer.

The following are examples of how any dilution may impact you if you do not participate in the Entitlement Offer, assuming the maximum number of New Shares are issued:

Example Shareholder	Holdings as at Record Date	% as at Record Date	Entitlements Under the Entitlement Offer (subject to rounding)	Holdings if Entitlement not taken up by the Shareholder	% if the maximum number of New Shares is issued pursuant to the Entitlement Offer (subject to rounding)
Shareholder 1	50,000,000	58.54%	4,285,714	50,000,000	53.92%
Shareholder 2	10,000,000	11.71%	857,143	10,000,000	10.78%
Shareholder 3	1,000,000	1.17%	85,714	1,000,000	1.08%
Shareholder 4	100,000	0.12%	8,571	100,000	0.11%
Shareholder 5	10,000	0.01%	857	10,000	0.01%

Note: The dilutionary effect shown in the table assumes that any Entitlements not taken up are dealt with as Shortfall Shares and are placed by the Company or taken up by the Underwriter pursuant to the Underwriting Agreement and the NAOS Sub-Underwriters pursuant to the Sub-Underwriting Agreement. It also assumes the issue of any New Shares which would have been offered to Ineligible Shareholders (had they been Eligible Shareholders), on the assumption that those Entitlements are sold by the Ineligible Holder Nominee and taken up by the transferees of those Entitlements, or are dealt with as Shortfall Shares and are placed by the Company or taken up by the Underwriter pursuant to the Underwriting Agreement and the NAOS Sub-Underwriters pursuant to the Sub-Underwriting Agreement.

5.6 Capital structure on completion of the Entitlement Offer

On the basis that the Company completes the Entitlement Offer and issues the estimated maximum number of New Shares, the Company's capital structure will be as follows (subject to rounding and subject to no further issues having occurred):

	Number of Shares (subject to rounding)	Performance Rights
Balance as at the date of this Entitlement Offer Booklet	85,418,154	2,573,382
Entitlement Offer	7,321,556	-
Total upon completion of the Entitlement Offer	92,739,710	2,573,382

Note: For the avoidance of doubt, the Company reserves the right to issue further securities from time to time.

6. IMPORTANT INFORMATION

This Entitlement Offer Booklet and enclosed personalised Entitlement and Acceptance Form (**Information**) have been prepared by the Company. This Information is current as of 1 December 2025. This Information remains subject to change without notice and the Company is not responsible for updating this Information.

There may be additional announcements made by the Company after the date of this Entitlement Offer Booklet and throughout the period that the Entitlement Offer is open that may be relevant to your consideration of whether to take up or do nothing in respect of your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by the Company (by visiting the ASX website at www.asx.com.au) before submitting your application to take up your Entitlement.

No party other than the Company has authorised or caused the issue of this Information, or takes any responsibility for, or makes, any statements, representations or undertakings in this Information.

This Information is important and requires your immediate attention.

You should read this Information and the Company's other ASX announcements carefully and in their entirety before deciding how to deal with your Entitlement. In particular, you should consider the risk factors outlined in the "Key Risks" section of the Investor Presentation (a copy of which is included in this Entitlement Offer Booklet) any of which could affect the operating and financial performance of the Company or the value of an investment in the Company.

You should consult your stockbroker, accountant or other independent professional adviser to evaluate whether or not to participate in the Entitlement Offer.

Trading of New Shares

It is the responsibility of each applicant to confirm their holding before trading in New Shares. Any applicant who sells New Shares before receiving written confirmation of their holding will do so at their own risk.

The Company disclaims all liability whether in negligence or otherwise (to the maximum extent permitted by law) to persons who trade New Shares before receiving their holding statement for New Shares, whether on the basis of confirmation of the allocation provided by the Company or the Share Registry or otherwise, or who otherwise trade or purport to trade New Shares in error or which they do not hold or are not entitled to.

If you are in any doubt as to these matters, you should first consult with your stockbroker, accountant or other independent professional adviser.

6.1 Eligible Shareholders and Ineligible Shareholders

This Information contains an offer of New Shares to Eligible Shareholders and has been prepared in accordance with section 708AA of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73). Accordingly, neither this Entitlement Offer Booklet nor the Entitlement and Acceptance Form are required to be lodged or registered with ASIC and no prospectus for the Entitlement Offer will be prepared. These documents do not contain, or purport to contain, all of the information that a prospective investor may require in evaluating a possible investment in the Company. They do not and are not required to contain all of the information which would be required to be disclosed in a prospectus.

If you are a Shareholder who does not satisfy each of the criteria to be an Eligible Shareholder (as defined in Section 2.1), you are an **"Ineligible Shareholder"**. Where the Entitlement Offer Booklet has been despatched to Ineligible Shareholders, the Entitlement Offer Booklet is provided for

information purposes only. The Company reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

By making a payment by BPAY® or EFT, you will be taken to have represented and warranted that you satisfy each of the criteria listed in Section 2.1 to be an Eligible Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

The Company has decided that it is unreasonable to make offers under the Entitlement Offer to Ineligible Shareholders, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. In considering compliance with applicable securities laws, the Company may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand.

Foreign Shareholders and Ineligible Holder nominee

This Entitlement Offer Booklet and accompanying Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such offers.

The Company has (subject to ASIC approval) appointed Petra to act as nominee (the **Ineligible Holder Nominee**) for the Ineligible Shareholders, to arrange for the sale of the Entitlements which would have been offered to them had they been eligible to participate in the Entitlement Offer.

If there is a viable market for those Entitlements and a premium over the expenses of their sale can be made, the Ineligible Holder Nominee's role is to arrange the sale of the Entitlements which would have been attributable to Ineligible Shareholders. The Ineligible Holder Nominee will distribute to the Share Registry or to the Company directly the net proceeds (if any) of the sale of Entitlements of Ineligible Shareholders (after deducting costs and expenses), to be distributed to the Ineligible Shareholders in proportion to their respective Entitlements at the Record Date. The fees payable to Petra by the Company under the Underwriting Agreement, being \$200,000, is inclusive of the fees payable to Petra for the services to be provided in its capacity as the Ineligible Holder Nominee. The Company has also agreed to indemnify the Ineligible Holder Nominee and its related bodies corporate and directors, employees and agents against certain losses, claims and other customary matters.

The Ineligible Holder Nominee will have absolute and sole discretion to determine the price for which the Entitlements of Ineligible Shareholders may be sold, as well as the timing and manner of such sale (if any). Neither the Company nor the Ineligible Holder Nominee will be subject to any liability to Ineligible Shareholders (or any other party) for failure to sell the Entitlements of Ineligible Shareholders or for failure to sell them at a particular price.

If, as a result of the Ineligible Holder Nominee offering to sell or being invited to sell the Entitlements of Ineligible Shareholders, the Ineligible Holder Nominee forms the reasonable opinion that there is not a viable market for the Entitlements or a surplus of sale proceeds over expenses from the sale cannot be obtained for the Entitlements that would otherwise have been offered to the Ineligible Shareholders then those Entitlements will be allowed to lapse. In such circumstances, no money will be payable to Ineligible Shareholders.

To the extent that any Entitlements that would have been offered under the Entitlement Offer to Ineligible Shareholders (had they been entitled to participate in the Entitlement Offer) are not taken up for the issue of New Shares (including pursuant to the Ineligible Holder Nominee process above) (**Ineligible Shares**), those Ineligible Shares will be Shortfall Shares which are subject to the shortfall allocation policy detailed in Section 6.4. The price at which those Ineligible Shares would be issued is the same as the Offer Price. Accordingly there will be no net proceeds from those issues in excess of the Offer Price under the Entitlement Offer and Ineligible Shareholders will not receive any payment or value in connection with those Ineligible Shares.

6.2 Ranking of New Shares

New Shares issued under the Entitlement Offer will rank equally with existing Shares. New Shares will be entitled to any dividends on ordinary shares with a record date after the issue of the New Shares (although no forecast is made of whether, or when, any dividends may be declared). The rights and liabilities attaching to the New Shares are set out in the Company's constitution, a copy of which is available at www.asx.com.au.

6.3 Minimum Subscription

There is no minimum subscription for the Entitlement Offer.

6.4 Shortfall allocation policy

Unless otherwise determined by the Company, to the extent of any New Shares (including Ineligible Shares as detailed in Section 6.1) for Entitlements not taken up under the Entitlement Offer (together, the **Shortfall Shares**) the Company proposes to allocate Shortfall Shares according to the following priority (subject to the Board's discretion detailed below):

- (a) firstly, to each Eligible Shareholder (other than the NAOS Group and the Anacacia Group) who has applied for Shortfall Shares through the Top Up Facility (subject to compliance with applicable laws and to the terms set out in this Entitlement Offer Booklet);
- (b) secondly, to any other sophisticated or professional investors (at the Board's discretion), provided that no investor will increase their voting power in the Company above 20% through the allocation of those Shortfall Shares; and
- (c) if following the allocation in paragraphs 6.4(a) and 6.4(b) (if applicable) there remains unallocated Shortfall Shares, the Shortfall Shares will be allocated to the Underwriter who will allocate the Shortfall Shares to:
 - (i) any sub-underwriters or other sophisticated or professional investors (other than the NAOS Group and the Anacacia Group) as agreed by the Board; and
 - (ii) the NAOS Sub-Underwriters in accordance with its Sub-Underwriting Agreement.

This shortfall allocation policy has been structured to allow each Eligible Shareholder to apply to participate in priority to third parties and to seek to disperse the Shortfall Shares across a potentially broad number of Eligible Shareholders (if Shortfall Shares are applied for through the Top Up Facility) and potentially other applicants prior to the underwriting pursuant to the Underwriting Agreement and sub-underwriting pursuant to the Sub-Underwriting Agreement. The Company reserves the right to issue, at its sole discretion, to an Eligible Shareholder who has applied for Shortfall Shares a lesser number of Shortfall Shares than the number applied for (or no Shortfall Shares), issue part or all of the Shortfall Shares to new investors, reject an application or not proceed with the issuing of the Shortfall Shares or part thereof.

In the event it is necessary to scale back applications for Shortfall Shares by Eligible Shareholders, then the scale back will be on a pro rata basis, based on the Entitlements of Eligible Shareholders.

The Directors also reserve, subject to compliance with applicable laws and the ASX Listing Rules, the right to place (for example, as detailed above) any or all of the Shortfall Shares to one or more investors within three months of the Closing Date at a price not less than the Offer Price. Such investors may include professional or sophisticated investors, or other investors identified by the Company (or potentially identified by stockbrokers for a fee).

The Directors reserve the right to issue the Shortfall Shares at their discretion and to pay fees to stockbrokers and others as part of that issue, at the Directors' discretion.

The Directors are not entitled to participate in the Top Up Facility.

The Directors will seek to ensure that no person will be issued Shortfall Shares if such issue will result in that person's voting power in the Company exceeding 20% or increasing at all, if they already hold voting power in the Company above 20% other than the NAOS Sub-Underwriters pursuant to the terms of the Sub-Underwriting Agreement.

6.5 Reconciliation and the rights of the Company

The Entitlement Offer is a complex process and, in some instances, investors may believe that they own more Shares than they ultimately did as at the Record Date or are otherwise entitled to more New Shares than initially offered to them. These matters may result in a need for reconciliation. If reconciliation is required, it is possible that the Company may need to issue additional New Shares to ensure that the relevant investors receive their appropriate allocation of New Shares. The price at which these additional New Shares would be issued would be the Offer Price.

The Company also reserves the right to reduce the size of an Entitlement or number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders or other applicable investors, if the Company believes in its complete discretion that their claims are overstated or if they or the Company nominees fail to provide information requested to substantiate their claims. In that case, the Company may, in its discretion, require the relevant Shareholder to transfer excess New Shares to a third party, such as a stock broker, at the Offer Price per New Share. If necessary, the relevant Shareholder may need to transfer existing Shares held by them or to purchase additional Shares on-market to meet this obligation. The relevant Shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Entitlement and any actions they are required to take in this regard.

By applying under the Entitlement Offer, those doing so irrevocably acknowledge and agree to do the above as required by the Company in its absolute discretion. Those applying acknowledge that there is no time limit on the ability of the Company to require any of the actions set out above.

6.6 Taxation

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares under the Entitlement Offer. The implications associated with participation in the Entitlement Offer will vary depending upon the individual circumstances of individual Eligible Shareholders.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with subscribing for New Shares.

6.7 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw an application once it has been accepted.

6.8 Entitlements Trading

The Entitlements under the Entitlement Offer are renounceable. Accordingly, there will be trading of Entitlements (including on ASX) and you may dispose of your rights to subscribe for New Shares comprising part or all of your Entitlement to any other party (subject to compliance with applicable laws). Entitlement trading is expected to commence on Wednesday, 3 December 2025 and conclude at the close of trading on Wednesday, 10 December 2025. If you do not take up your full Entitlement and do not trade the Entitlements which you do not take up, those Entitlements that you do not take up or trade will lapse and you will not receive any payment or value for them. See Section 3 for further details.

There is no guarantee that there will be a liquid market in traded Entitlements. A lack of liquidity may impact your ability to sell your Entitlements on ASX and the price you may be able to achieve.

6.9 Risks

The Investor Presentation details important factors and risks that could affect the financial and operating performance of the Company and an investment in Shares (including New Shares). Please refer to the "Key Risks" section of the Investor Presentation for details. You should consider these risks carefully in light of your personal circumstances, including financial and taxation issues, before making an investment decision in connection with the Entitlement Offer.

6.10 Notice to nominees and custodians

Nominees and custodians may not distribute this Entitlement Offer Booklet (nor any part of it), and may not permit any beneficial Shareholder to participate in the Entitlement Offer, in any country outside Australia or New Zealand except, with the consent of the Company, to beneficial Shareholders resident in certain other countries where the Company may determine it is lawful and practical to make the Entitlement Offer.

6.11 Continuous Disclosure

The Company is a "disclosing entity" under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports.

The Company is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock market conducted by ASX. In particular, the Company has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of Shares. That information is available to the public from ASX.

This Information is not a prospectus under the Corporations Act and has not been lodged with ASIC. Prospective investors should conduct their own independent investigation and assessment of the Entitlement Offer and the information contained, or referred to, in this Entitlement Offer Booklet. An investment in the Company is subject to investment risk such as possible loss of principal invested. Before deciding whether to apply for New Shares, you should consider all materials sent to you in relation to the Entitlement Offer and all relevant materials lodged with ASX (including materials which may be lodged with ASX after publication of this Entitlement Offer Booklet), and whether the New Shares are a suitable investment for you in light of your own investment objectives, financial circumstances and investment needs (including financial and taxation issues) and having regard to the merits or risks involved (including the "Key Risks" set out in the Investor Presentation). If, after reading the Information, you have any questions about the Entitlement Offer, you should contact your stockbroker, accountant or other independent professional adviser or call the Company on 1800 653 805 (within Australia) or +61 1800 653 805 (outside Australia) from 9:00am to 4:00pm (AEDT), Monday to Friday. For other questions, you should consult your broker, solicitor, accountant, financial adviser, or other professional adviser during the Entitlement Offer period.

6.13 Rounding of Entitlements

Where fractions arise in the calculation of Entitlements, they will be rounded up to the nearest whole number of New Shares.

6.14 Quotation and trading

The Company will apply to the ASX for official quotation of the New Shares in accordance with the ASX Listing Rules requirements. Application money will be held on trust in a subscription account until allotment. No interest earned on application monies will be paid by the Company, irrespective of whether allotment takes place.

If ASX does not grant quotation of the New Shares, the Company will return all application monies (without interest).

Subject to approval being granted, it is expected that normal trading of New Shares allotted under the Entitlement Offer will commence on or around Monday, 29 December 2025.

Persons considering acquiring Entitlements during the period of Entitlement trading should be aware of the risk that in the event that the Board withdraws the Entitlement Offer, the holders of such Entitlements will not be able to exercise those Entitlements and consequently may receive no value for those Entitlements (and will not be able to recover the funds they paid to acquire those Entitlements).
