

INVESTOR WEBINAR INVITATION

ABx Group (ASX: ABX) ("ABx" or "the Company") is pleased to invite shareholders to attend an upcoming investor webinar to be held:

Wednesday 3rd December 2025

12:00pm AEDT / 9am AWST

Register here:

https://us02web.zoom.us/webinar/register/WN_YY9qXTJJbKSgLPenE09qQ

ABx Group Managing Director and CEO Dr Mark Cooksey will provide an overview of the Company's first mixed rare carbonate (MREC) sample which was produced from its Deep Leads resource located 45 km west of Launceston in northern Tasmania.¹

The ABx MREC contains 4.0% dysprosium (Dy) and 0.7% terbium (Tb) as a percentage of total rare earth oxides (TREO), more than twice that of any other peer MREC. Furthermore, the ABx MREC also contains the highest amounts of other valuable heavy rare earths and very low impurities, including aluminium, uranium and thorium.

The high proportions of these high value rare earths means the ABx MREC basket price is 17% to 51% higher than peer MRECs.

Following the presentation, Dr Cooksey will participate in a moderated Q&A session which will allow investors to put questions directly to management.

A recorded copy of the webinar will be made available following the event.

This announcement is approved for release by the board of ABx Group Limited.

About ABx Group Limited

ABx Group Limited (ABx) is a uniquely positioned Australian company delivering materials for a cleaner future.

The three priority projects are:

- **Heavy rare earths:** Supplying light and heavy rare earths from Tasmania into Western supply chains
 - Maiden mixed rare earth carbonate produced
 - Processing Options Analysis conducted in partnership with external experts
- **Clean fluorine chemical production:** Producing industrial chemicals from aluminium smelter by-product (ALCORE)
 - Continuous pilot plant under construction in Bell Bay, Tasmania
- **Near-term bauxite production:** Mining bauxite resources for the aluminium, cement and fertiliser industries
 - Agreements executed with Good Importing International for bauxite projects in Queensland and New South Wales, and \$2.7 million initial payment has been received
 - Approvals well advanced for DL130 bauxite project in northern Tasmania

ABx endorses best practices on agricultural land and strives to leave land and environment better than we find it. We only operate where welcomed.
