Pure-play online retailer Harris Technology Group Limited (ASX: HT8) ("Harris Technology" or the "Company") is pleased to present its activity report for the December 2025 quarter (Q2 FY26).

Operations Update

Harris Technology generated sales revenue of \$4.4M in the December 2025 quarter (+16% QoQ) and delivered \$0.7M positive operating cash flow.

Higher quarterly sales were reflective of the busy retail holiday period which included Black Friday, Cyber Monday, Christmas and Boxing Day. As per Harris Technology's strategic transition into higher margin products led by the Refurbished tech division, resources were channelled towards the better performing divisions rather than new IT products as in previous years.

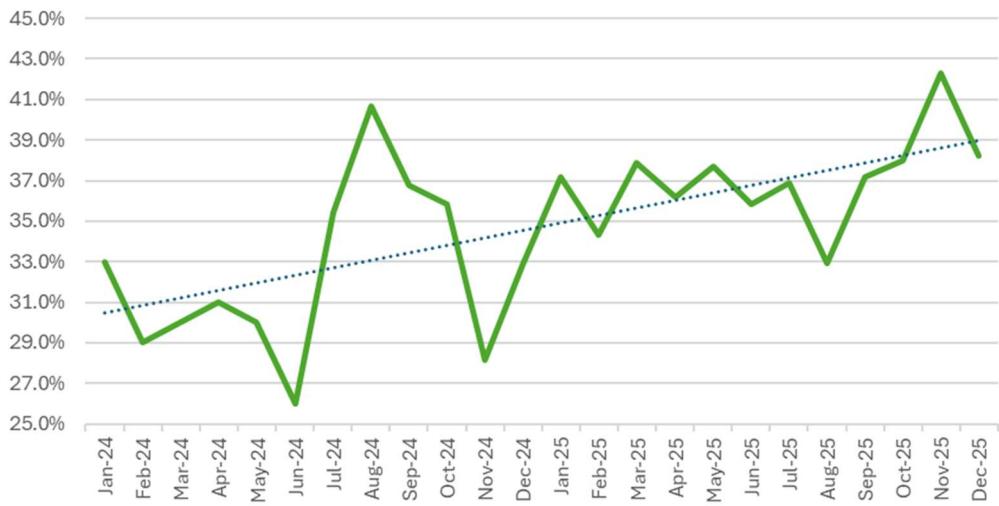

This initiative saw sales of Refurbished tech sales exceed \$0.5M in each of the reporting period months. Sales have been supported by Harris Technology's increased buying power through the upscaling of the division and strengthened supplier relationships.

While the retail season had traditionally been strong for new tech sales, the performance of refurbished products through the period further validated Harris Technology's resource allocation where cost-conscious customers consistently purchased refurbished products at attractive prices compared to their new alternatives.

Refurbished Apple products saw strong demand since supply was secured in Q1 FY26 with low inventory hold times for MacBooks and iPads while Harris Technology seeks to increase its revenue from the brand.

With the increasing contribution of revenue from refurbished products, the Company generated sales at 37.2% gross margin across H1 FY26, a rising trend that increased from 35.7% in H2 FY25 and 34.9% in H1 FY25.

HT8 Monthly Gross Margin % - Jan 2024 to Dec 2025

As of 31 December 2025, inventory on hand was \$3.0M, marginally higher than \$2.8M reported at the end of September.

Harris Technology closed the quarter with \$2.3M of cash on hand with \$1.2M undrawn on its finance facility. This included the closure of a \$5M facility provided by Marketlend that Harris Technology opted not to renew.

Harris Technology CEO, Garrison Huang, commented, "Refurbished tech sales have taken another leap forward during the quarter with each month exceeding \$0.5M in sales for the first time.

"As sales continued to rise and contribute to \$0.7M positive operating cash flow for the quarter, we have been able to purchase greater volumes of used tech where consistently low inventory hold times illustrate more growth opportunities for Harris Technology and our profitability."

Expenditure incurred during the quarter

Expenditure Category	Amount \$ (,000)
Purchase of Inventory	2,609
Advertising	7

The amount included in section 6.1 of the Appendix 4C is the payment of rents and fees to directors or entities controlled by them.
