Letter from the Chair

Wednesday, 28 January 2026

Dear Shareholder,

On behalf of the Directors of 29Metals Limited (**29Metals**), it is my pleasure to invite you to participate in a fully underwritten pro rata accelerated non-renounceable entitlement offer of new shares in 29Metals (**New Shares**) at an issue price of \$0.40 per New Share (**Entitlement Offer**).

Successful execution of the Entitlement Offer is expected to allow ongoing investment in Gossan Valley, progression of a Restart Definitive Feasibility Study at Capricorn Copper and drilling of exploration targets across the portfolio.

Details of the Entitlement Offer

Under the Entitlement Offer, eligible Shareholders are entitled to acquire 1 New Share for every 3.66 existing 29Metals ordinary shares held on the record date, being 7.00pm (Sydney, Australia time) on Thursday, 22 January 2026 (**Record Date**). The pro-rata nature of the Entitlement Offer provides an equitable mechanism for Shareholders to maintain their level of ownership in 29Metals.

New Shares issued will rank equally with existing ordinary shares from their time of issue.

The Offer Price of \$0.40 per New Share represents a 30.2% discount to the theoretical ex-rights price (**TERP**)² of \$0.57 and a discount of 35.5% to 29Metals' closing price of \$0.62 on the ASX on Monday, 19 January 2026, the last trading day before the Entitlement Offer was announced.

The Entitlement Offer comprises an institutional component (**Institutional Entitlement Offer**) and a retail component (**Retail Entitlement Offer**). The Institutional Entitlement Offer closed on Tuesday, 20 January 2026, and raised approximately \$119 million.

The Retail Entitlement Offer is expected to raise approximately \$31 million. This Retail Offer Booklet relates to the Retail Entitlement Offer and Entitlements allotted under it (**Retail Entitlements**). Under the Retail Entitlement Offer, Eligible Retail Shareholders have the opportunity to invest at the Offer Price, which is the same price as the institutional investors who participated in the Institutional Entitlement Offer.

Accompanying this Retail Offer Booklet is your personalised Entitlement and Acceptance Form which contains details of your Entitlement. It is important that you determine whether to take your Entitlement up or do nothing in respect of your Entitlement (see Section 2.7).

The Retail Entitlement Offer closes at 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026. To participate, you need to ensure that you have completed your Application by paying Application Monies by BPAY before this time in the manner described in this Retail Offer Booklet. If you are unable to pay by BPAY (for example if you are a New Zealand based Shareholder without an Australian bank account) or are having difficulty paying by BPAY please call the 29Metals Offer Information Line on 1300 420 709 (within and outside Australia), as you may be able to pay by International Electronic Funds Transfer (**EFT**). Please carefully read this Retail Offer Booklet in its entirety and consult your stockbroker, solicitor, accountant or other professional adviser before making your investment decision. In particular, you should read and consider Appendix B: 'Key Risks' of the Investor Presentation (enclosed in Section 4), which contains a summary of some of the key risks associated with an investment in 29Metals.

2 How to apply

2.1 Overview

29Metals intends to raise approximately \$150 million under the Entitlement Offer.

29Metals is offering eligible Shareholders the opportunity to subscribe for 1 New Share for every 3.66 Existing Shares held on the Record Date. The Offer Price per New Share is \$0.40.

The Entitlement Offer comprises two components:

- **Institutional Entitlement Offer** – under which Eligible Institutional Shareholders were invited to take up all or part of their Entitlement, and a process to sell New Shares in respect of Entitlements not taken up by Eligible Institutional Shareholders as well as New Shares in respect of Entitlements of Ineligible Institutional Shareholders at the Offer Price to Eligible Institutional Shareholders who applied for New Shares in excess of their Entitlement, as well as certain other institutional investors, was carried out. The Institutional Entitlement Offer raised approximately \$119 million; and
- **Retail Entitlement Offer** – under which Eligible Retail Shareholders have access to this Retail Offer Booklet, together with a personalised Entitlement and Acceptance Form (also available online via <https://events.miraql.com/29m-offer>), and are being invited to take up all or part of their Retail Entitlements. The Retail Entitlement Offer is expected to raise approximately \$31 million.

Both the Institutional Entitlement Offer and the Retail Entitlement Offer are non-renounceable.

The Entitlement Offer is fully underwritten by Macquarie. Further details on the Entitlement Offer are set out below.³

Refer to the ASX Announcement and the Investor Presentation set out in Section 4 for information on the purpose of the Entitlement Offer, the application of the proceeds of the Entitlement Offer and for information on 29Metals' business, performance and strategy. You should also consider other publicly available information about 29Metals, including information available at www.asx.com.au and www.29Metals.com.

2.2 Institutional Entitlement Offer

On Tuesday, 20 January 2026, 29Metals successfully conducted the Institutional Entitlement Offer at the Offer Price of \$0.40 per New Share, raising approximately \$119 million. Please refer to 29Metals' ASX announcement dated Wednesday, 21 January 2026, for further information about the outcome of the Institutional Entitlement Offer.

New Shares to be issued under the Institutional Entitlement Offer (including those issued in connection with the Institutional Shortfall Bookbuild) are expected to be issued and commence trading on the ASX on Thursday, 29 January 2026.

2.3 Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders are invited to apply for 1 New Share for every 3.66 Existing Shares held as at the Record Date at the Offer Price of \$0.40 per New Share.

The offer ratio and Offer Price under the Retail Entitlement Offer are the same as that applied to the Institutional Entitlement Offer.

The Retail Entitlement Offer opens on Wednesday, 28 January 2026, and will close at 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026.

³ Refer to page 29 and 49 of the Investor Presentation in Section 4 for details of the sub-underwriting arrangement with BUMA.

2.4 Shortfall under the Retail Entitlement Offer

If any Eligible Retail Shareholders do not take up their full Entitlement under the Retail Entitlement Offer, the New Shares that are not taken up by them will form part of the Shortfall.

Shortfall Shares will be allocated to institutional investors and other institutional shareholders who have entered into sub-underwriting arrangements with Macquarie at the discretion of Macquarie, on terms not less than the price and terms offered to Eligible Retail Shareholders under the Entitlement Offer.

Pursuant to the Underwriting Agreement, Macquarie may at any time appoint a sub-underwriter or sub-underwriters to sub-underwrite the Entitlement Offer and to subscribe, bid, apply for, or nominate places of, any of the Shortfall.

Please refer to section 5.8 for further details of the potential impact on control of 29Metals.

2.5 Your Retail Entitlements

Your Retail Entitlement is set out on the personalised Entitlement and Acceptance Form and has been calculated as 1 New Share for every 3.66 Existing Shares you held as at the Record Date (with fractional entitlements rounded up, if necessary, to the nearest whole number of New Shares).

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Retail Entitlement for each separate holding.

You can also view details of your Retail Entitlements online at <https://events.miraqle.com/29m-offer>.

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally in all respects with Existing Shares.

Eligible Retail Shareholders should be aware that an investment in 29Metals involves risks. The key risks identified by 29Metals are set out in Appendix B of the Investor Presentation (enclosed in Section 4).

2.6 Consider the Retail Entitlement Offer carefully in light of your particular investment objectives and circumstances

The Retail Entitlement Offer is being made pursuant to provisions of the Corporations Act which allow entitlement offers to be made without a prospectus, provided certain conditions are satisfied.

This Retail Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an Application for New Shares offered under the Retail Entitlement Offer. As a result, it is important for you to read carefully and understand the information on 29Metals and the Retail Entitlement Offer made publicly available, prior to deciding whether to take up all or part of your Retail Entitlements, or do nothing in respect of your Retail Entitlements. In particular, please refer to this Retail Offer Booklet and other announcements by 29Metals made available at www.asx.com.au (including announcements which may be made by 29Metals after publication of this Retail Offer Booklet).

Please consult with your stockbroker, solicitor, accountant or other professional adviser if you have any queries or are uncertain about any aspect of the Retail Entitlement Offer. You should also refer to Appendix B: 'Key Risks' of the Investor Presentation included in Section 4 of this Retail Offer Booklet.

2.7 Options available to you

If you are an Eligible Retail Shareholder, you may take any of the following actions. Each of these options may have a materially different outcome on any value you receive in respect of your Retail Entitlements:

1. Take up all or part of your Retail Entitlements (see Section 2.8); or
2. Do nothing and let your Retail Entitlements lapse (see Section 2.9).

29Metals reserves the right to reject any Application that is received after the Closing Date.

The Closing Date for acceptance of the Retail Entitlement Offer is **5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026** (however, that date may be varied by 29Metals in accordance with the Listing Rules and the Underwriting Agreement).

2.8 Option 1: If you wish to take up all or part of your Retail Entitlements

If you wish to take up all or part of your Retail Entitlements, please pay your Application Monies via BPAY by following the instructions set out on your personalised Entitlement and Acceptance Form. Payment is due by no later than 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026. If you are unable to pay by BPAY, please refer to Section 3.2 below.

If you take up and pay for all or part of your Retail Entitlements before the close of the Retail Entitlement Offer, it is expected that you will be issued New Shares on Wednesday, 18 February 2026. 29Metals' decision on the number of New Shares to be issued to you will be final.

If you only take up part of your Retail Entitlements, those Retail Entitlements not taken up will lapse and you will not receive any payment or value for them.

If you do not take up your Retail Entitlements in full, your shareholding in 29Metals will be diluted as a result of the Entitlement Offer.

29Metals reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if 29Metals believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to 29Metals' satisfaction (refer to Section 5.4).

2.9 Option 2: Do nothing and let your Retail Entitlements lapse

If you do nothing, you will not be allocated New Shares and your Retail Entitlements will lapse. Your entitlement to participate in the Retail Entitlement Offer is non-renounceable, which means your Retail Entitlements are non-transferable and cannot be sold or traded on ASX or any other exchange, nor can they be privately transferred.

By allowing your Retail Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Retail Entitlement and you will not receive any value for your Retail Entitlement. Your interest in 29Metals will also be diluted to the extent of New Shares issued under the Entitlement Offer.

2.10 Ineligible Retail Shareholders

Ineligible Retail Shareholders are retail Shareholders as at the Record Date who are not Eligible Retail Shareholders.

3 Payment

29Metals will treat you as applying for as many New Shares as your payment will pay for in full up to your Retail Entitlement.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to Applicants on any Application Monies received or refunded. Refund amounts, if any, will be paid in Australian dollars. You will be paid either by direct credit to the nominated bank account as noted on the 29Metals share register as at the Closing Date or by cheque sent by ordinary post to your address as recorded on the 29Metals share register (the registered address of the first-named in the case of joint holders). If you wish to advise or change your banking instructions with the Share Registry you may do so by going to <https://au.investorcentre.mpms.mufig.com/Login/Login> and updating your banking instructions by 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026.

Payment should be made using BPAY if possible. New Zealand Shareholders who do not have an Australian bank account and other Eligible Retail Shareholders who are unable to pay by BPAY, please refer to Section 3.2 below.

Cash payments will not be accepted. Receipts for payment will not be issued.

3.1 Payment by BPAY

For payment by BPAY, please follow the instructions on the personalised Entitlement and Acceptance Form or on the Offer Website (<https://events.miraql.com/29m-offer>). You can only make payment via BPAY if you are the holder of an account with an Australian financial institution that supports BPAY transactions.

If you are paying by BPAY, please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form accessible on the Offer Website. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Retail Entitlements in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your Application will not be recognised as valid.

Please note that by paying by BPAY:

- (a) you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 3.3; and

- (b) if you do not pay for your full Retail Entitlement, you are deemed to have taken up your Retail Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY payment is received by the Share Registry by no later than 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment.

3.2 If you are unable to pay by BPAY

If you are unable to pay by BPAY, you can make payment by International Electronic Funds Transfer (EFT). Please see below for more information. 29Metals encourages payments by BPAY if possible.

Payment by EFT

If you are a Shareholder who does not have an Australian bank account, and cannot make the payment through BPAY, please contact the 29Metals Offer Information Line on 1300 420 709 (within or outside Australia) between **8:30am to 5:30pm** (Sydney, Australia time) on Monday to Friday or email capital.markets.au@cm.mpms.mufig.com for details on how to make the payment through EFT. Please include your SRN/HIN as reference for the payment.

Please note that by paying by EFT:

- (a) you are required to complete and submit your personalised Entitlement and Acceptance Form once your payment has been made by email to capital.markets.au@cm.mpms.mufig.com and are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 3.3; and
- (b) if you do not pay for your full Retail Entitlement, you are deemed to have taken up your Retail Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your EFT payment is received by the Share Registry by no later than 5.00pm (Sydney, Australia time) on Wednesday, 11 February 2026. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment.

3.3 Entitlement and Acceptance Form is binding

A payment made through BPAY, EFT or a completed and lodged Entitlement and Acceptance Form together with the payment of requisite Application Monies constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Retail Offer Booklet and, once lodged or paid, cannot be withdrawn. If the Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid Application for New Shares. 29Metals' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By making a payment by BPAY or EFT or by completing and returning your personalised Entitlement and Acceptance Form with the requisite Application Monies, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

- (a) you have received and read, and understand this Retail Offer Booklet and your personalised Entitlement and Acceptance Form in their entirety;
- (b) you agree to be bound by the terms of the Retail Entitlement Offer, the provisions of this Retail Offer Booklet, and 29Metals' constitution;

3.5 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians who hold Shares as nominees or custodians will have received, or will shortly receive, a letter from 29Metals. Nominees and custodians should carefully consider the contents of that letter and note in particular that the Retail Entitlement Offer is not available to:

4 ASX Announcement and Investor Presentation

ASX ANNOUNCEMENT

Tuesday, 20 January 2026

EQUITY RAISING TO SUPPORT EXECUTION OF GROWTH INITIATIVES

29Metals Limited (ASX:29M) (**'29Metals'** or, the **'Company'**) is pleased to announce the launch of a fully underwritten 1 for 3.66 accelerated pro rata non-renounceable entitlement offer to raise \$150 million (before costs) (**'Equity Raising'** or the **'Offer'**). The Offer comprises an accelerated institutional component (**'Institutional Entitlement Offer'**) and a retail component (**'Retail Entitlement Offer'**).

Key Points

- Xantho Extended seismic events during 2025 impacts CY25 and CY26 metal production. On track to recommence mining at Xantho Extended in April 2026.
- Proceeds of the Equity Raising will be used for working capital for the impact of Xantho Extended seismicity to facilitate ongoing investment in Gossan Valley, progression of Capricorn Copper towards restart including a Restart Definitive Feasibility Study and drilling of exploration targets across the portfolio.
- The Equity Raising will be conducted at an offer price of \$0.40 per share, representing a 30.2% discount to TERP¹ of \$0.57, 35.5% discount to last close of \$0.62 per share and 26.6% discount to 30-day VWAP of \$0.55 on 19 January 2026.
- 29Metals' substantial shareholders, BUMA and AustralianSuper have committed to take up their entitlements and subscribe for \$29.2 million and \$26.8 million respectively.
- If any shortfall remains under the Offer, BUMA has agreed to acquire any excess entitlements directly from Macquarie. If no shortfall remains, BUMA will not acquire any shares. However, as a result of this, the maximum interest that BUMA may have in 29Metals following completion of the Offer is expected to be approximately 25.8%.
- The Equity Raising is fully underwritten by Macquarie Capital (Australia) Limited. Macquarie Capital (Australia) Limited and Morgans Corporate Limited are acting as joint lead managers and bookrunners.

29Metals has made good progress on growth priorities through 2025, with the Gossan Valley project at Golden Grove on track for \$112 million capital expenditure to first ore by end 2026, and progression of the imperatives for a successful and sustainable restart of production at Capricorn Copper. Proceeds from the Equity Raising are expected to enable ongoing investment in the Company's strategic growth objectives, which would otherwise require curtailment or deferral whilst production from Xantho Extended is being reestablished post impact of seismic events during 2025.

¹ The Theoretical Ex-Rights Price (**'TERP'**) is the theoretical price at which 29Metals shares should trade immediately after the ex-date for the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equate to TERP. TERP is calculated by reference to 29Metals' closing price of \$0.62 on 19 January 2026.

Commenting on today's announcement, Chief Executive Officer, James Palmer, said:

"We have a clear plan to recommence mining at Xantho Extended in April 2026. In the meantime, this equity raising is expected to allow us to maintain our commitments to our strategic growth objectives to accelerate value realisation across the portfolio. Specifically, the ongoing investment in Gossan Valley, progression of a Restart Definitive Feasibility Study at Capricorn Copper and drilling to test priority exploration targets across the portfolio."

Equity Raising

The Equity Raising will be conducted through an underwritten 1 for 3.66 accelerated non-renounceable entitlement offer, resulting in the issue of approximately 375.0 million New Shares, representing approximately 27.3% of the current issued capital of 29Metals.

The Offer price of \$0.40 per share represents a:

- 30.2% discount to TERP of \$0.57 based on the last closing price on 19 January 2026;
- 35.5% discount to the last closing price of \$0.62 on 19 January 2026; and
- 26.6% discount to the 30-day VWAP of \$0.55 on 19 January 2026.

Each New Share issued under the Offer will rank equally with existing fully paid ordinary shares of 29Metals. 29Metals will, upon issue of the New Shares under the Offer, seek quotation of the New Shares on the ASX.

Major shareholder participation and Director commitments:

- 29Metals' substantial shareholders, BUMA and AustralianSuper have committed to take up their entitlements and subscribe for \$29.2 million and \$26.8 million respectively, resulting in a pro forma holding in 29Metals of approximately 20% for BUMA and 18% for AustralianSuper.
- EMR is not in a position to participate in the Equity Raising, however remain highly supportive of 29Metals and continue to endorse the Gossan Valley project and the progression of Capricorn Copper studies. EMR Capital will continue to be a substantial shareholder with a pro-forma holding of ~18.0% post Equity Raising.
- The Directors intend to participate in the Entitlement Offer for some or all of their entitlement in respect of shares they hold.

Underwriting and sub-underwriting commitment:

- The Equity Raising is fully underwritten by Macquarie Capital (Australia) Limited ('**Macquarie**').
- BUMA has also separately entered into an agreement with Macquarie ('**Purchase Agreement**') under which:
 - The joint lead managers will conduct a bookbuild and seek institutional and sub-underwriting demand from the broader market to take up any shortfall of the Retail Entitlement Offer.
 - In the event that any shortfall arises, BUMA has agreed to purchase allocation interests from Macquarie with respect to:
 - any shortfall under the Institutional Entitlement Offer not taken up after participation on a pro-rata basis by other institutional shareholders; and
 - any shortfall remaining under the retail tranche to the extent not taken up by other investors during the bookbuild process;
 up to a maximum amount of \$41.5 million ('**Maximum Purchase Amount**').
 - If no shortfall remains, BUMA will not acquire any shares under the Purchase Agreement.
- Impact on control:
 - If there is sufficient shortfall that BUMA purchases the Maximum Purchase Amount from Macquarie, following completion of the Equity Raising (including as part of taking up its entitlement), BUMA's interest in 29Metals would increase to a maximum of 25.8%. Whether and

to what extent BUMA purchases allocation interests under the Purchase Agreement can only be determined once the shortfall, if any, has been determined.

- If there is a shortfall but it is less than the Maximum Purchase Amount, BUMA will end up with an interest less than 25.8% in 29Metals, although the final number will depend upon the exact shortfall amount.
- See the notice lodged with ASX today by 29Metals under section 708AA(7) of the Corporations Act, which also contains details about the potential impact of the Purchase Agreement on BUMA's shareholding levels following completion of the Entitlement Offer.

The Equity Raising is non-renounceable, and entitlements will not be tradeable on the ASX or be otherwise transferable. Shareholders who do not take up their full entitlement will not receive any payment or value in respect to entitlements they do not take up and their percentage equity interest in 29Metals will be diluted.

Institutional Entitlement Offer

Eligible institutional shareholders will be invited to participate in the Institutional Entitlement Offer. Eligible shareholders will be invited to subscribe for 1 New Share for every 3.66 29Metals shares held, as at 7:00pm (Sydney time) on 22 January 2026 ('**Record Date**'). Entitlements that eligible institutional shareholders do not take up by the close of the Institutional Entitlement Offer, and Entitlements that would otherwise have been offered to ineligible institutional shareholders, will be offered to certain new and existing institutional investors concurrently with the Institutional Entitlement Offer.

Retail Entitlement Offer

Eligible Retail Shareholders (as defined below) will be invited to participate in the Retail Entitlement Offer. The Retail Entitlement Offer will open on 28 January 2026 and close at 5.00pm (Sydney time) on 11 February 2026.

Xantho Extended seismic events have impacted group liquidity

Good progress made on 2025 priorities. However, lower metal production due to impact of seismicity means additional liquidity is required to maintain pace of growth expenditures across the Group – i.e. Gossan Valley, Capricorn Copper and exploration.

Funding to support ongoing execution of our plans and to accelerate growth

In the absence of additional liquidity, growth expenditures across the Group would require curtailment or deferral whilst production from Xantho Extended is reestablished.

Additional funding to support ongoing investment at Gossan Valley and accelerate value realisation across the portfolio

Execute Our Plan

- **Ongoing optimisation of Golden Grove:**
 - Clear plan to recommence mining at Xantho Extended in April 2026.
 - Gossan Valley project remains on track for \$112 million capital expenditures to first ore by end 2026, to provide production flexibility from an additional independent and relatively shallow mining front.
 - First production from Oizon, a new Gossan Hill ore source, during 2026 to further optimise milled grades.
- **Acceleration of production restart at Capricorn Copper:**
 - Restart Definitive Feasibility Study to commence in readiness for Final Investment Decision ('FID') upon Tailings Storage Facility approvals, which remains in progress.
 - Asset produced 24kt of copper production at AISC of US\$3.71/lb copper sold, for \$66 million of EBITDA in last full year of operation.

Deliver Organic Growth

- **Golden Grove exploration:**
 - Test potential extensions to existing ore sources at Gossan Hill.
 - Targets informed by exploration success through 2025¹.
- **Capricorn Copper exploration:**
 - Esperanza South Resource Conversion to inform a Restart Definitive Feasibility Study.
 - Esperanza South and Mammoth North Resource Extension drilling to test mine life extension potential.
 - Resource Extension drilling to potentially convert Woolly mineralised area² into Mineral Resource estimates³.

External Growth

- Logical regional bolt-on opportunities
- M&A to expand and upgrade to portfolio

1. Refer ASX release "High-grade copper intercepts highlight Golden Grove growth potential" dated 9-Sep-2025 and ASX release "High-Grade Copper Intercepts at Golden Grove" dated 4-Nov-2025.

Refer to Important Information on slide 4 of this presentation. Further information regarding 29Metals' Mineral Resource and Ore Reserve estimates is set out in Appendix A on slides 32 to 35.

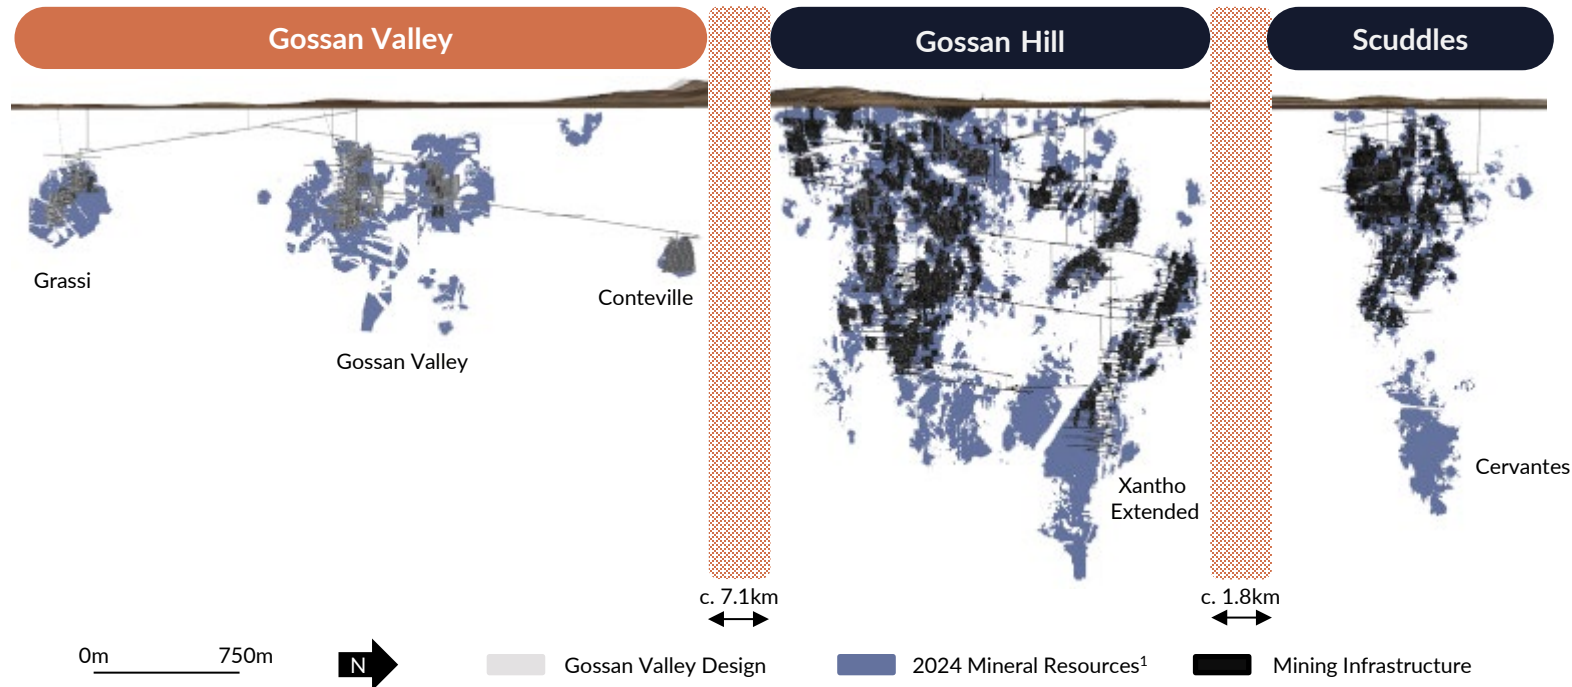

Clear plan to recommence mining at Xantho Extended in April 2026

Works underway to upgrade ground support for specific areas of the existing Xantho Extended mine workings, informed by outcomes of internal investigations and review by external subject matter experts - expected implementation cost ~\$7 million. Updated structural geological and numerical modelling to inform ongoing mine development designs.

Gossan Valley an independent mining front

Recent Xantho Extended challenges highlight the importance of Gossan Valley as an independent, relatively shallow, mining front to provide production flexibility at Golden Grove.

Optimisation of Golden Grove mine plan from end 2026

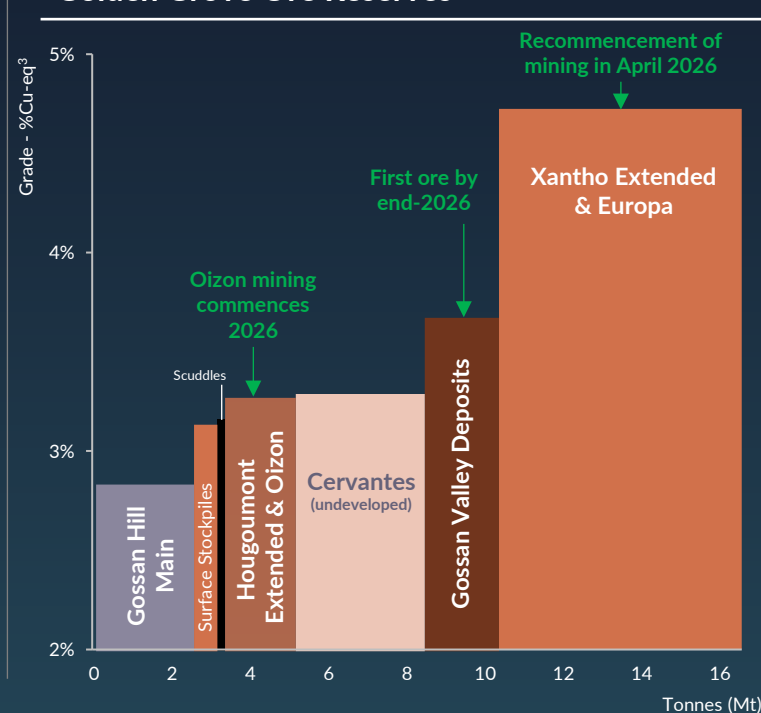

Golden Grove's two highest-grade ore sources - Xantho Extended and Gossan Valley – expected to feed the mill from late 2026. Oizon, a new Gossan Hill ore source, planned from 2026 to further optimise mill feed grades.

- 2026 metal production guidance reflects recommencement of mining at Xantho Extended in April 2026, with 2026 metal production H2 weighted.
- Indicative ore sources to 2029 assumes Xantho Extended ramp-up to ~600ktpa steady state mining rate; with potential for higher tonnage pending ongoing review of controls.
- Gossan Valley project remains on track for \$112 million capital expenditures to first ore by end 2026, with project capital weighted to 2026. Golden Grove capital expenditures expected to ramp down post 2026.

1. Mine sequencing and 2026 metal production outlook is indicative and subject to refinement through ongoing mine scheduling optimisation and 29Metals' annual planning processes. Changes to mine sequencing has potential to impact indicative production outlook. Indicative ore sources to 2029 have relative portions of ore by category of: 2026 - 89% Proved, 11% Probable; 2027 - 68% Proved, 31% Probable, 1% Inferred; 2028 - 48% Proved, 49% Probable, 3% Inferred; 2029 - 54% Proved, 41% Probable, 5% Inferred. The Company is satisfied that the proportion of Inferred Mineral Resources is not the determining factor in project viability. Gossan Valley first ore expected during by end 2026, subject to delivery on the construction and operational milestones within the timeframes as outlined on page 22 of ASX announcements platform on 3 December 2024 entitled "Debt Refinancing & Equity Raising Investor Presentation".

2. In this announcement, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2024 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February and 28 February 2025. Refer to the important information section on page 4 of this announcement for further information. Further information regarding 29Metals' Mineral Resource and Ore Reserve estimates is set out in Appendix A on slides 32 to 35.

3. The copper equivalent equation used is: Cu-eq (%) = (Cu grade (%) x Cu recovery x Cu price (\$/t) + metal grade x metal recovery x metal price (\$/t)) / (Cu price (\$/t) x Cu recovery). Metal grades as per 2024 Mineral Resource & Ore Reserve estimates. Metal prices applied (US\$3.75/lb Cu, US\$1.25/lb Zn, US\$1,800/oz Au, US\$23/oz Ag, US\$1.0/Pb). Metal recoveries applied as per 2024 Golden Grove actuals (86.6% Cu, 83.6% Zn, 63.9% Au, 68.0% Ag, and 24.9% Pb). Golden Grove is an operating asset with a history of recovering metal from ore to produce saleable products. It is the Company's opinion that the elements included in copper equivalent calculations has a reasonable potential to continue to be recovered and sold.

Imperatives for restart of operations

Continued successful 2025/2026 wet season and derisking of regulatory approvals for a long-term TSF required to enable a restart of operations.

	Progress to Dec-Qtr-2025
#1 Water inventory reductions	<ul style="list-style-type: none"> Water level reductions are being progressed via evaporation (natural and mechanical) and treated water releases to Gunpowder Creek. Treated water releases only possible when Gunpowder Creek flows – typically during wet season only (November – April). Heavy rainfall conditions during the Dec-Qtr-2025 were successfully managed, with all opportunities utilised for treated water releases to Gunpowder Creek, resulting in an approximately neutral site water balance versus the prior quarter. Surface water levels continue to be maintained substantially below the Maximum Operating Level².
#2 Long-term tailings storage solution	<ul style="list-style-type: none"> Request for Information ('RFI') from the Regulator in relation to the Tailings Storage Facility ('TSF') 3 application was received in line with normal process and progressed during the quarter.

Rebuilding a resilient Capricorn Copper

Appropriately capitalising the asset for its Northwest Queensland location and climate

Fit for purpose water treatment plant

- Previous water treatment plant was damaged in the 2023 Extreme Weather Event.
- New water treatment plant to be sized approximately 2 times larger than previous plant to accommodate site water treatment requirements and located in area resilient to future rainfall events.

Increased mechanical evaporation capacity

- Increased number of mechanical evaporators to facilitate dry season water level reductions.
- All evaporators operating on mains electricity – cost and operating efficiencies versus previous diesel generation power operation of units.

Upgraded water diversion infrastructure

- Upgraded infrastructure to divert water flows during rainfall events away from mining fronts and regulated water storage structures.

Low capital intensity, high-grade brownfields opportunity

The restart of Capricorn Copper benchmarks favourably to Australian development projects, with low estimated capital intensity, a unique combination of meaningful scale and a high-grade copper Resource, and ability to leverage existing infrastructure

Retail Entitlement Offer	<ul style="list-style-type: none"> The Retail Entitlement Offer will open at 9:00am (Sydney time), 28 January 2026 and close at 5.00pm (Sydney time), 11 February 2026.
Ranking	<ul style="list-style-type: none"> New shares issued will rank equally with existing ordinary shares on issue.
Major shareholder and director commitments	<ul style="list-style-type: none"> 29Metals’ substantial shareholders, BUMA and AustralianSuper have committed to take up their entitlements and subscribe for \$29.2 million and \$26.8 million respectively, resulting in a pro forma holding in 29Metals of approximately 20% for BUMA and 18% for AustralianSuper. EMR is not in a position to participate in the Equity Raising, however remain highly supportive of 29Metals and continue to endorse the Gossan Valley project and the progression of Capricorn Copper studies. EMR Capital will continue to be a substantial shareholder with a pro-forma holding of ~18.0% post Equity Raising. The Directors intend to participate in the Entitlement Offer for some or all of their entitlement in respect of shares they hold.
Underwriting and Sub-underwriting	<ul style="list-style-type: none"> The Entitlement Offer is fully underwritten by Macquarie. BUMA has also separately entered into an agreement with Macquarie (Purchase Agreement²) under which: <ul style="list-style-type: none"> Macquarie will conduct a bookbuild and seek institutional and sub-underwriting demand from the broader market to take up any shortfall of the retail offer In the event that any shortfall arises, BUMA has agreed to purchase allocation interests from Macquarie with respect to: <ul style="list-style-type: none"> any shortfall under the Institutional Entitlement Offer not taken up after participation on a pro-rata basis by other institutional shareholders; and any shortfall remaining under the retail tranche to the extent not taken up by other investors during the bookbuild process, up to a maximum amount of \$41.5 million (Maximum Purchase Amount). If no shortfall remains, BUMA will not acquire any shares. Impact on control: <ul style="list-style-type: none"> If there is sufficient shortfall that BUMA purchases the Maximum Purchase Amount from Macquarie, following completion of the Entitlement Offer (including as part of taking up entitlement), BUMA’s interest in 29Metals would increase to a maximum of 25.8%. Whether and to what extent BUMA purchases allocation interests can only be determined once the shortfall, if any, has been determined. If no shortfall remains, BUMA will not acquire any shares. If there is a shortfall but it is less than the Maximum Purchase Amount, BUMA will end up with less than 25.8% interest in 29Metals, although the final number will depend upon the exact shortfall amount. See the notice lodged with ASX today by 29Metals under section 708AA(7) of the Corporations Act, which also contains details about the potential impact of the Purchase Agreement on BUMA’s shareholding levels following completion of the Entitlement Offer.
Support from senior lenders	<ul style="list-style-type: none"> Senior lenders have provided key covenant relief for 31 December 2025 and 30 June 2026, and have amended the Debt Service Coverage Ratio and Net Total Leverage covenant calculations for 31 December 2026 on the basis of a 6 month look back period to accommodate the ramp-up of Golden Grove in H2 2026.

1. The Theoretical Ex-Rights Price (“TERP”) is the theoretical price at which 29Metals shares should trade after the ex-date for the Entitlement Offer. TERP is calculated by reference to 29Metals’ closing share price of \$0.62 per share, being the last trading day prior to the announcement of the Entitlement Offer of \$0.40 per share. TERP is a theoretical calculation only and the actual price at which 29Metals shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not be equal to TERP.

2. This agreement is of the type contemplated by, and entered into in reliance on, Exception 2 in Listing Rule 7.2; Exception 2 in Listing Rule 10.12 and item 10A of section 611 of the Corporations Act. Details of the key terms of this agreement are set out in Annexure D.

Appendix A: Capricorn Copper Mineral Resources and Ore Reserve Estimates

29Metals announced the suspension of production at Capricorn Copper on 26 March 2024 and production continues to be suspended. See 29Metals announcement, “Capricorn Copper – Suspension of Operations” dated 26 March 2024. Due to the suspension of operations and curtailment of drilling activity there has been no material changes to the 31 December 2023 Mineral Resources estimates released 22 February 2024. The 31 December 2024 Mineral Resources estimates for Capricorn Copper set out in the table below incorporate the 31 December 2023 Mineral Resources estimates depleted for mining and processing activity completed between 1 January – 31 March 2024. The 31 December 2024 Ore Reserves estimates for Capricorn Copper are set out below and incorporate changes to the Capricorn Copper Mineral Resources estimates (refer above), depletion for mining and processing, changes to cut-off grades and economic parameters, changes to stope and sub-level cave designs.

Appendix B: Key Risks

29Metals is subject to a variety of risk factors. This section discusses some of the key risks associated with an investment in New Shares in 29Metals. Some of these are specific to its business activities, while others are of a more general nature. Individually, or in combination, these risk factors may adversely affect the operating and financial performance or position of 29Metals, which in turn may affect the value of New Shares and the value of an investment in 29Metals.

The risks outlined below are not intended to be an exhaustive list of the risks associated with an investment in 29Metals, either now or in the future, and this information should be considered in conjunction with all other information in this Presentation. Additional risks and uncertainties that 29Metals may be unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect 29Metals' operating and financial performance or position. Many of the risks described below are outside the control of 29Metals, its Directors and management. There is no guarantee that 29Metals will achieve its stated objectives or that any forward looking statements or forecasts will eventuate.

Business Risks

A. Metal price volatility

29Metals' revenue is dependent upon the market prices for the metals that 29Metals produces from its mining operations (in the form of mineral concentrates). Market prices for metals are subject to fluctuation, including material fluctuations, due to a range of factors outside of 29Metals' control, including changes in the current or forecast supply and demand for relevant metals, the availability and cost of substitute products, currency exchange rates, inventory levels maintained by users, the cyclical nature of consumption, actions of other participants in commodities markets, adverse weather incidents and operational challenges which affect supply, general global, regional and local economic activity, and other international macroeconomic and geopolitical events. These metals price fluctuations may have an adverse impact on the operating performance and financial condition of 29Metals.

29Metals' exposure to commodity prices may be exacerbated by:

- the nature of contractual arrangements for the sale of mineral concentrates, which typically apply a quotational periods concept where the price received by 29Metals is determined as the price prevailing in the months (typically 1 to 3 months) following shipment. As a result, the realised metal price for 29Metals' products will generally differ (potentially materially) from the market price for the relevant metals at the time of production out-turn and shipment; and
- the charges that 29Metals pays for the treatment and refining of mineral concentrates ("TCRCs") which may have a link with underlying commodity prices. As a result, if underlying commodity prices increase, the price paid for TCRCs may also increase.

B. Changes in currency foreign exchange rates

29Metals' mineral concentrate products are priced in US dollars while its operating costs are primarily Australian dollar costs. In addition, 29Metals has debt facilities denominated in US dollars and its cash reserves comprise a combination of Australian and US dollars. As a result, 29Metals' financial performance is exposed to relative movements in the US dollar to Australian dollar exchange rate and any adverse movements may therefore adversely affect the operational performance and financial condition of 29Metals.

C. Regulatory approvals

29Metals' mining operations are subject to a range of regulatory approval and licencing requirements prescribed under applicable laws in each jurisdiction in which 29Metals operates. 29Metals' business performance and future operating and financial results are dependent upon 29Metals obtaining, in a timely fashion, and maintaining regulatory approvals and licences required to support current and future mining operations.

Regulatory frameworks are complex and subject to change, including as a result of changes in government or government policy, changes in community expectations, and the intervention of the Courts. In addition, regulatory approval and licencing processes may be protracted due to internal government decision-making processes (which involve the exercise of discretion and may be unpredictable), and statutory and other rights of stakeholders, including the public, non-government organisations and anti-mining groups, in relation to proposed approvals and licences.

29Metals has ongoing regulatory approval processes for each of its existing and proposed operating sites, including (in particular), approvals that will be required to support the production outlook for Golden Grove and at Capricorn Copper, a restart of operations will require approval for new tailings storage infrastructure (amongst other things). Additionally, there are several environmental compliance related applications in progress to amend certain conditions of the Environmental Authority and establish the progressive rehabilitation and closure plan. Failures or delays in obtaining relevant regulatory approvals and licences in a timely manner, or failures to maintain relevant regulatory approvals and licences, may result in a range of adverse impacts on 29Metals, including:

- delays or changes to development plans (including in relation to Gossan Valley, delays to the current project development schedule, which contemplates achieving production of first ore by the end of 2026);
- delays to a restart decision of Capricorn Copper, which could incur additional holding costs until such approvals are granted;
- changes to the economic viability of 29Metals' development projects which, in turn, may adversely impact 29Metals' growth objectives and result in a revision of Mineral Resources and Ore Reserves estimates, or an impairment of the carrying value of 29Metals' assets; and
- any failure or delay to obtain or maintain relevant regulatory approvals and licenses which causes any of the above events may adversely impact 29Metals' operational and financial position.

Appendix B: Key Risks

D. Underground mining risks

29Metals undertakes mining operations by applying underground mining techniques. Underground mining operations are subject to various risks, including geotechnical risks and seismicity, factors affecting productivity (including ventilation) and maintaining development rates to provide access to ore for mineral processing.

Geotechnical and seismicity risks

29Metals is subject to geotechnical risks which arise from changes in the stresses, seismicity and/or stability of the rock formations that surround ore and waste material once that material has been extracted by mining, along with general seismicity risks which may result in sudden movement of underground workings. In particular, the Xantho Extended orebody has experienced multiple seismic events in the past 12-months which have resulted in disruption to production and restricted access to the ore while upgrades to ground support are being undertaken. Geotechnical conditions can be unpredictable and failures in current or historic mined areas, in the form of material collapsing into stopes or development voids, may occur without warning. In particular, there is a risk of further seismic events at Xantho Extended and that the further steps the Company is taking to address those risks may not be sufficient should further seismic activity occur. These events are beyond the control of 29Metals and their occurrence may result in property or equipment damage, injury to employees, major operational disruptions, the incurring of additional costs to restore access to affected areas and financial or regulatory penalties. There is no guarantee that no further disruption, damage or loss will occur.

Productivity risks

Productivity in underground mining operations is subject to various factors, including labour and equipment availability. In addition, to maintain productivity, 29Metals must extend and expand infrastructure to support underground mining operations, notably ventilation infrastructure to ensure that temperature and air quality in the underground mining operations are suitable for human health and safety. Maintaining adequate ventilation infrastructure to support 29Metals' underground mining operations, particularly as development and mining activity progresses to greater depths, is, in turn, dependent on the availability and timely supply of ventilation assets by suppliers, and the ability to successfully operate ventilation assets to meet 29Metals' requirements. An inability to maintain adequate ventilation may adversely impact 29Metals' ability to continue its underground mining operations, or to continue underground mining at planned mining rates, and accordingly impact its revenue, operational performance and financial condition as a result.

Development rate risks

29Metals' underground mining operations rely upon development activities to progressively access new production areas in accordance with the mine plan and schedule. 29Metals' ability to execute planned development activities is dependent upon a number of factors, including labour availability, the performance of mining equipment and the availability and performance of mining contractors. If 29Metals is unable to access new production areas, it may require adjustments to the mine plan and schedule which may impact 29Metals' ability to meet its production estimates and adversely affect its future financial performance.

E. Extreme weather events

The frequency and severity of extreme weather or natural environmental disasters, such as heavy rainfall and flooding, including as a result of climate change, are difficult to predict. Extreme weather events may impact 29Metals operations directly or indirectly, adversely impacting 29Metals' operating and financial performance. For example, an Extreme Weather Event in March 2023 at Capricorn Copper resulted in flooding of the Esperanza South sub-level cave underground mine and caused major damage and/or loss to key site infrastructure such as the workshop, warehouse and water treatment plant, as well as a significant increase in mine-affected water inventory held on site. Further accumulation of water following the 2023-2024 wet season resulted in the suspension of operations. Further adverse weather may impact the water management activities at Capricorn Copper, which may increase operating expenditure and delay the restart of operations. Extreme weather events such as the Capricorn Copper event, or other extreme weather events of a different nature which may occur in the future, may have a material adverse effect on 29Metals' cash flow, operating performance and financial condition.

F. Debt facilities and future covenants

29Metals' ability to service its debt depends upon its financial position, performance and cash flows which to some extent are subject to factors beyond the control of 29Metals. If 29Metals is unable to meet its repayment obligations, it may face additional financial penalties, higher interest rates or difficulty obtaining further funding in the future. There is also a risk that any covenants related to financial performance and position may be breached and the facility may be repayable sooner than anticipated.

As described in the Company's 2023 Annual Financial Report and 2024 Annual Financial Report, 29Metals has been granted certain covenant waivers in prior reporting periods, in connection with the extreme weather event at Capricorn Copper in March 2023 which resulted in flooding of the operation. Due to the multiple seismic events and suspension of mining activity at Xantho Extended in 2025, 29Metals has sought, and received certain covenant relief in respect of applicable covenants for the periods ending of 31 December 2025 and 30 June 2026 as well as a modification to the Debt Service Coverage Ratio and Net Total Leverage covenant calculations for 31 December 2026 on the basis of a 6 month look back period. Should 29Metals require further covenant waivers beyond those already agreed to by its lenders, there is no guarantee that any such request will be granted.

In connection with the financial covenant relief first provided in June 2023, future dividends are subject to obtaining the consent of the Senior Lenders (which must not be unreasonably withheld or delayed), which remains on foot. There is also a risk that any covenant waivers which 29Metals may request in the future will require further additional conditions to be agreed to by 29Metals in order to obtain the relevant waivers.

29Metals is also subject to the risk that it may not be able to refinance its debt facilities when they fall due or that the terms (including in relation to pricing) on refinancing will be less favourable than the existing terms. If there is a deterioration in the level of debt market liquidity, this may prevent 29Metals from being able to refinance some or all of its debt.

Appendix B: Key Risks

G. Operating costs and capital expenditure

29Metals' business, operating performance and financial performance may vary according to a variety of factors, including the cost of key production inputs and factors specific to each mine site (such as changing ore characteristics, metallurgy and geotechnical conditions). Many of these factors are beyond the control of 29Metals. The price of key production inputs is driven by changes in international markets (including commodity prices, exchange rate movements and capital markets conditions) and domestic markets (including wage increases and general cost escalation) and are outside of 29Metals' control. For example, demand for key production inputs and consumables or general cost inflation of such inputs may result in price increases for which impacts may include:

- changes in operating plans to reduce production input and consumable requirements;
- delays to development projects and/or deferral of investment decisions by 29Metals;
- changes to the economic assumptions underpinning 29Metals Ore Reserves and Mineral Resources estimates which, in turn, may result in an adverse revision of mineral inventory; and
- review of the carrying value of its assets, which may result in impairment charges.

As such, macroeconomic factors influencing demand for key production inputs mean that 29Metals could face higher operating and capital costs in the future, which could adversely impact its profitability.

If 29Metals operating costs and capital expenditure exceed budgeted amounts this could adversely impact its liquidity, financial position and its reputation.

H. Regulatory compliance

29Metals' business activities are subject to a complex regulatory compliance framework, including regulation covering environmental matters, native title, mining permitting and licensing, employment, workers compensation, health and safety matters, and corporate reporting. The regulatory requirements applying to 29Metals vary between the jurisdictions in which 29Metals conducts its business and are subject to change as a result of a number of factors, including changes in government, changes in government policy and interpretation, and community expectations. Any failure to comply with applicable laws and regulations (including environmental regulations) may damage 29Metals' reputation and brand, including through negative publicity and disputes, investigations and prosecutions, which may result in fines or penalties being imposed, require costly remediation or the adoption of revised practices, any of which could adversely affect its financial performance and share price.

In addition to the financial and reputational consequences of non-compliance, there are material costs associated with the increasingly complex compliance requirements, including costs associated with addressing additional sustainability reporting and long term compliance challenges that are a result of long-term mining operations. Significant increases in compliance costs may be difficult to absorb for 29Metals and may adversely affect its operational and financial performance.

I. Occupational health and safety

Site safety and occupational health and safety outcomes are critical to 29Metals' reputation and its ability to retain necessary regulatory approvals. Certain events (including accidents, seismic events and underground fires) may be outside the control of 29Metals, and a serious site incident could have adverse operational and financial impacts upon 29Metals' business, as well as its personnel and reputation.

In addition, 29Metals's business is subject to various OH&S legislative and regulatory requirements, which may become more stringent or the subject of stricter interpretation or enforcement. If 29Metals fails to comply with these requirements, it could result in fines, penalties and compensation for damages as well as reputational damage to 29Metals, and possible suspension of operations.

Mining and exploration activities have inherent hazards and risks. 29Metals is committed to providing a safe and healthy workplace for its personnel contractors and visitors. A serious safety incident onsite at either Golden Grove or Capricorn Copper could result in significant penalties and delays and 29Metals may be liable for compensation. These liabilities may not be covered by 29Metals' insurance policies, or, if they are covered, may exceed 29Metals' policy limits or be subject to significant deductibles. Also, any claim under 29Metals' insurance policies could increase 29Metals' future costs of insurance. Accordingly, any liabilities for onsite safety incidents could have a material adverse impact on 29Metals. Hazards and incidents require early identification, root cause analysis and a response strategy. Whilst 29Metals has a major focus on safety there can be no guarantee that injuries or fatalities will not occur.

J. Access to capital and capital management

To maintain operations and meet its growth objectives, 29Metals may, in the future, require access to debt and/or equity capital markets. Access to capital markets may be impacted by a variety of factors, including 29Metals' track record of operating and financial performance, existing levels of financial indebtedness, general changes in global capital markets and changes in lending criteria in relation to sustainability and ESG performance. Many of these factors are outside of 29Metals' control, and an inability to access additional funding, either through debt or equity capital markets, may limit 29Metals' flexibility in planning for, or reacting to, changes in 29Metals' industry, increase its vulnerability to general adverse economic, industry and regulatory conditions, limit its ability to fund future working capital, capital expenditure, general corporate requirements, to engage in future development activities, or place 29Metals at a competitive disadvantage compared to its competitors that have less debt or fewer financial commitments. The occurrence of any of the above factors may have a material adverse effect on the financial and operating performance of 29Metals.

29Metals has a strategic objective to restart Capricorn Copper operations. Accordingly, the Company may, in future, seek additional funding for the capital requirements necessary to achieve a restart of operations. There can be no guarantee that 29Metals will have access to funding to the extent required to fund a restart of Capricorn Copper or as to the terms on which such funding may be available to 29Metals.

Appendix B: Key Risks

K. Attracting and retaining a qualified and experienced workforce

29Metals' business is dependent upon 29Metals' ability to attract and retain a workforce with the appropriate skills and experience to execute its business plans and ensure the Company meets its obligations. The market for personnel with the requisite skills and experience is highly competitive, particularly in Western Australia, and is subject to general labour market conditions and other factors, such as changes in Government policy regarding skilled migration, which are outside of 29Metals' control. Tight general labour market conditions are expected to remain in the nearer term.

Impacts associated with attracting and retaining a suitably skilled and experienced workforce include:

- changes to 29Metals' operating plans to manage available human resources;
- risks associated with staff turnover, including additional costs to train new personnel and the potential for health and safety incidents as a result of new personnel being unfamiliar with the specific environment and risks at 29Metals' operating sites; and
- incurring additional costs to implement attraction and retention strategies in the competitive landscape.

Each of the above factors may adversely affect 29Metals' operational performance, margin or otherwise effect its overall financial condition.

L. Reliance on contractual counterparties

29Metals is reliant upon contractual counterparties, both in the delivery of 29Metals' operating and business plans, and the sale of 29Metals' mineral concentrate products.

Contractors and suppliers

29Metals utilises contractors to plan and execute its current and future mineral exploration and mining operations activities, including for the performance of specialised services (such as drilling and specialised maintenance) and for the supply of equipment, infrastructure and parts (for example, ventilation assets). Notably, 29Metals has also deployed contract mining at its Golden Grove operation and Gossan Valley project.

29Metals relies on these contractors and suppliers to provide the equipment and human resources to execute the contracted activities.

Contractors and suppliers are also subject to labour market pressures (impacting the ability to attract and retain suitably skilled and experienced personnel), supply chain risks (impacting on the availability of equipment) and costs inflation as 29Metals, which contractors and suppliers may seek to pass on to 29Metals, including via contractual rise and fall terms. 29Metals does not have control over the price at which it sells its concentrates. Accordingly, 29Metals cannot directly pass on price increases from its suppliers to its customers. In such circumstances, 29Metals' profitability and margin may be adversely impacted which, in turn, may result in a failure to meet forecasts, and adversely affect 29Metals' share price, financial performance and prospects. In addition, any renewal on unfavourable terms, or any failure to renew or other early termination, of material contracts may have an adverse impact on 29Metals' operating and financial performance.

Customers

29Metals relies on its customers performing their obligations under 29Metals' concentrate offtake arrangements. 29Metals' mineral concentrate products are committed to a small number of contractual counterparties. Given this significant level of customer concentration, if counterparties were to terminate its existing offtake arrangements, this may have a significant adverse impact on 29Metals' financial performance and prospects. There is no certainty that 29Metals would be able to sell its concentrates on comparable terms. Offtake agreements may be entered into on less favourable terms than used in estimates used in this Presentation and are subject to counterparty and performance risk. While 29Metals expects to achieve offtake agreements with standard market reference prices, competitive pressure in the market may result in poorer agreements for 29Metals.

Any renewal on unfavourable terms, or any failure to renew or other early termination, of 29Metals' concentrate sales contracts could have an adverse impact on 29Metals' operating and financial performance. Further, 29Metals is exposed to credit risk in relation to its customers. If amounts due to 29Metals under its sales contracts are not paid in a timely manner or at all, it may have adverse consequences for 29Metals' cash flow and broader financial position.

M. Unexpected failure of equipment

29Metals' mines and associated processing plant and equipment are subject to general risks arising from incidents such as critical mechanical failures, fire, damage via corrosion of aged infrastructure, loss of power supply, failure to meet contractual specifications (including in relation to performance) and difficulties during commissioning. The occurrence of any such incidents could interrupt 29Metals' operations and adversely affect 29Metals operating and financial performance.

The impact of equipment failure is also influenced by the availability and performance of specialised suppliers and contractors to repair or replace damaged equipment, including lead times, as well as 29Metals' ability to exercise its contractual rights (which is subject to the liquidity and financial strength of its counterparties). Unexpected costs or delays in replacing or repairing the specialised equipment used in operations may impact 29Metals' ability to meet its forecasts and profitability and may have a material adverse effect on 29Metals' financial performance, general prospects and competitive position.

Appendix B: Key Risks

N. Climate change

Climate change exposes 29Metals to a range of risks, as well as opportunities associated with the global transition to a greener economy. Risks to 29Metals as a direct or indirect result of climate change may include:

- increases in the frequency or severity of extreme weather events or natural disasters (refer to section E. Extreme weather events above);
- changes to the regulatory environment for 29Metals' business, including the inclusion of climate change considerations in regulatory approvals, and the imposition of tariffs and other imposts on cross border supply chains; and
- changes to the availability and accessibility of debt capital and insurance.

Direct impacts of climate change are likely to be geographically specific, and may include one or more of changes in rainfall patterns, drought-induced water shortages, increases in the occurrence and intensity of extreme weather events (including bushfires, storms and floods), and rising temperatures. The occurrence of such events, or an increase in the frequency and severity of such events, could result in damage to 29Metals' mine sites and equipment, interruptions to critical infrastructure such as transport, water and power supply, or loss of productivity, and increased competition for, and the regulation of, limited resources (such as power and water). Each of the above events, either individually or in aggregate, may have a material adverse effect on 29Metals' operational condition and financial performance.

O. First Peoples, host communities and other stakeholders

29Metals' relationships with the community and other stakeholders, including First Peoples and regulatory authorities, are critical to the continuation and long-term success of 29Metals' business. Fostering and maintaining a social licence to operate in respect of a mining project is a key component of sustainability & ESG, without which it can be very difficult to, among other things, secure necessary permits or arrange financing. Although 29Metals is committed to building and maintaining positive relationships with the communities near its mines, it may engage in activities that have, or are perceived to have, adverse impacts on local communities and other stakeholders, cultural heritage, human rights, and the environment, which may delay or prevent 29Metals from acquiring the relevant permits and approvals to comply with its regulatory obligations. Any failure to acquire the relevant approvals may result in suspension or delay in mining operations which would adversely affect 29Metals' operational and financial performance.

In addition, 29Metals' current operating assets are mature assets with long operating histories. Perceptions and expectations of stakeholders may change over time, including changes in aspirations and the expectations of local communities with respect to 29Metals' contributions to employee health and safety, infrastructure, community development, and environmental management. In turn, community and other stakeholder attitudes to 29Metals' business and operations may have an impact on 29Metals' ability to secure and maintain regulatory approvals, which may subsequently adversely affect 29Metals' operational and financial performance.

P. Cultural heritage

29Metals must ensure that its operations do not interfere with or impact upon identified sites of cultural significance to First Peoples. Following the events at Juukan Gorge in Western Australia, the risk to projects associated with Aboriginal heritage and cultural values has increased. While changes to Aboriginal cultural heritage legislation in Western Australia have been repealed, there remains a risk of changes to processes and approvals in the jurisdictions that 29Metals conducts its business that require significant engagement and preferably agreement with First Peoples groups may be required in the future, which may increase the timeframe and cost of project development, and potentially impact ongoing project activities where there is further surface disturbance.

29Metals does not have formal heritage agreements with traditional owners, which means there is no agreed heritage management process for identifying and addressing potential impacts on Aboriginal heritage and managing the impacts of activities on Aboriginal heritage values. However, 29Metals manages this risk through heritage management plans prepared in consultation with traditional owner groups, and heritage clearances have been obtained for all areas of disturbance at 29Metals' operating sites. However, if 29Metals' were to breach or otherwise fail to comply with cultural heritage regulations or these plans, the cost of curing a breach or resolving associated enforcement actions initiated by government authorities may be significant and may adversely impact 29Metals' reputation and financial position.

Appendix B: Key Risks

Q. Mineral exploration and project development

29Metals aims to grow its production and extend mine-life through its pipeline of organic growth opportunities. The time between discovery of economically viable deposits to commercial production is highly variable and has been extending in recent years as a result of various factors, including capital requirements, changes to regulatory approval requirements and the complexity and depth of target deposits. Expansion of existing operations and development of new projects are capital intensive and often involve significant expenditure prior to a final decision to proceed, including significant investment in studies and regulatory approval requirements. While the exploration and development phases of a project are both time and capital intensive, there is no guarantee that an investment by 29Metals in mineral exploration and project development will result in a profitable mining operation.

The actual costs to expand operations or develop a new project, along with the operating performance once brought into commercial production, may also vary significantly from estimates, reflecting the duration of the period between an estimate and commencing commercial production, and changes in material considerations (for example, changes in market conditions, commodity prices and capital costs) over that period. Cost overruns and delays in the project development phase may adversely affect 29Metals' profitability, operational performance and financial position.

R. Mineral resources and ore reserve estimates

29Metals reports Ore Reserves and Mineral Resources estimates in accordance with the JORC Code. The estimation of Mineral Resources and Ore Reserves is imprecise and involves:

- interpretation of geological data obtained through exploration drilling and other exploration activities;
- the exercise of technical judgement and material assumptions regarding (among other things) future commodity prices, operating costs, and capital costs, orebody characteristics and metallurgical recovery performance; and
- statistical and other analyses.

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate

There can be no guarantee that 29Metals' mineral resources estimates will be converted to ore reserves, or that material included in 29Metals' ore reserves estimates will be successfully produced. Nor can there be any guarantee that 29Metals' exploration activities will result in the discovery of new material, or reclassification of material previously discovered, to be included in mineral resources and ore reserves estimates. In addition, changes in factors outside of 29Metals' control, such as adverse changes to long term forecasts of commodity prices, may result in an adverse change to 29Metals mineral resources and ore reserves estimates. Any adverse changes to 29Metals' mineral resources and ore reserves estimates (or failure to realise those estimates from mine production), may adversely affect 29Metals' business and operations, financial condition, share price and prospects.

S. Restarting operations at Capricorn Copper

As announced on 26 March 2024, the Company suspended operations at Capricorn Copper following an extended period of rainfall (which followed an earlier extreme weather event in March 2023). While, as announced on 26 August 2025, the Department of Environment, Tourism, Science and Innovation ('DETSI') has confirmed the Company's application in relation to the approvals for a long term Tailings Storage Facility as being "properly made", the duration of the suspension remains dependent on a number of factors, including continued reduction in the water levels held on site and securing regulatory approvals required to set Capricorn Copper on a sustainable footing.

The nature, extent and timing of the work required to recommence mining operations at Capricorn Copper is uncertain and subject to risks which are customary to restarting mining operations (including the risk factors set out elsewhere in this Presentation).

T. Impairment

Assets on 29Metals' balance sheet, including plant and equipment, mine properties, mineral rights, exploration and evaluation, and inventory, and other assets such as deferred tax assets, may be subject to impairment risk.

Impairment assessments require the use of estimates and assumptions such as long-term commodity prices (considering current and historical prices, price trends and related factors), discount rates, operating costs, future capital requirements, closure and rehabilitation costs, exploration potential, reserves, operating performance (which includes mine production and sales volumes, suspensions of operations as well as restart costs and restart timing), and future recoverability. These estimates and assumptions are subject to risk and uncertainty. Therefore, there is a possibility that changes in circumstances will impact these projections, which may impact the recoverable amount of assets and/or cash generating units. In such circumstances, some or all of the carrying amount of the assets/cash generating units may be impaired, with the impact recognised in the Consolidated Statement of Comprehensive Income. For example, Capricorn Copper's carrying value as at 30 June 2025 assumes a restart to operations at the end of calendar year 2027. Any delays to that restart timing may adversely impact the carrying value of Capricorn Copper. Similarly, Golden Grove's carrying value at 30 June 2025 made certain assumptions in respect of production levels from Xantho Extended. Any material changes to Xantho Extended production rates may adversely impact the carrying value of Golden Grove.

Appendix B: Key Risks

U. Future rehabilitation liabilities

29Metals is required to include provisions in its financial statements for future rehabilitation and remediation costs. Estimating the likely quantum of such costs involves making assumptions as to mine life (which, in turn, is influenced by estimates regarding future commodity prices), the extent of disturbance and contamination, and the forecast cost of future rehabilitation and closure activities. As such, no assurance can be given as to the accuracy of 29Metals' current provisions for future rehabilitation and closure costs, and actual costs may be substantially greater. Increases in future rehabilitation and closure costs may impact 29Metals via:

- adversely impacting the overall financial position of 29Metals;
- adversely impacting the economic assumptions underpinning Mineral Resources and Ore Reserves estimates, in turn resulting in an adverse revision to estimates which underpin mine life; and
- review of the carrying value of 29Metals' assets, which may result in impairment charges.

In certain jurisdictions where 29Metals conducts mining operations now or in the future, such as Queensland where Capricorn Copper is located, 29Metals may be required to provide a surety against future rehabilitation and closure liabilities, in the form of performance bonds or bank guarantees. The quantum of the surety is determined by the relevant regulatory authority having regard to an assessment of disturbance and contamination, and other criteria determined by the regulatory authority (from time to time).

V. Geopolitical conditions

29Metals' business may be impacted directly or indirectly by geopolitical factors outside of 29Metals' control. For example, under 29Metals' mineral concentrate sales arrangements, 29Metals' may be required to deliver concentrate to ports in China which presents risks given ongoing geopolitical tension between Australia and China.

Historically, it has been reported that unofficial restrictions have been in place for several Australian commodities, including copper concentrates. It was subsequently reported that these unofficial restrictions were removed and imports from Australia to China resumed. While the customer under 29Metals' mineral concentrate contracts may elect for one or more shipments of 29Metals' mineral concentrates to be delivered to ports outside of China (such as South Korea), under the relevant offtake agreements 29Metals assumes the risk and the costs for changes in shipment locations, which may result from new instances of import restrictions being imposed. The costs associated with such an election by the customer may be material, and as a result may adversely affect 29Metals' profitability, operational performance and overall financial position.

W. Employment laws

29Metals is mindful of recent instances in the Australian mining sector where there has been non-compliance with statutory and award obligations (including annual leave entitlements and payment obligations) owed by employers to employees. 29Metals has processes in place to monitor compliance with employment laws and takes its obligations to its workforce seriously. Notwithstanding this, 29Metals is not exempt from the risk of unintentional non-compliance issues arising in relation to employment matters, including matters with respect to annual leave-related underpayments. Given the large scale of 29Metals operations and the mines it operates, the significant size of its workforce, the varying workplace arrangements of its employees, the identification of any historical and systemic non-compliance with employment laws and underpayment of employees has the potential to have a material adverse effect on 29Metals' brand, reputation and financial position, even if such non-compliance is relatively minor on a quantitative basis.

Offer and Underwriting Risks

A. Underwriting risks

29Metals has entered into an underwriting agreement under which the Sole Underwriter has agreed to underwrite the Offer, subject to the terms of that agreement (Underwriting Agreement).

The occurrence of certain events, or the non-satisfaction of certain conditions, may mean that the Sole Underwriter terminates the Underwriting Agreement. Those termination events are summarised in Appendix D of this Presentation.

The termination of the Underwriting Agreement, or the non-satisfaction of certain conditions precedent to the Sole Underwriter's underwriting obligations, may have an adverse impact on the amount of funds raised under the Offer. If this were to occur, 29Metals may need to take other steps to raise additional capital which may not be available on favourable terms, if at all. Any decrease in the amount of funds raised under the Offer may have an adverse impact on the operational performance and financial condition of 29Metals.

If the Sole Underwriter terminates the Underwriting Agreement, 29Metals will not be required to pay the Sole Underwriter any fees which are not payable or accrued prior to the date of the termination.

The Underwriting Agreement also contains customary representations, warranties, indemnities and undertakings by 29Metals in favour of the Sole Underwriter.

Appendix B: Key Risks

B. Dilution risks

Upon completion of the Offer, the number of New Shares in 29Metals will increase from 1,372,336,435 to up to approximately 1,747,291,746. This equates to approximately 27.3% of the issued shares in 29Metals immediately following completion of the Offer. This means that to the extent Shareholders do not participate in the Offer, their percentage holding in 29Metals will be lower following completion of the Offer.

General Investment Risks

A. Share market conditions

The value of quoted securities is subject to fluctuations in response to market forces, which cannot be controlled or accurately predicted, and prevailing market sentiment and overall share market performance may adversely impact the price of 29Metals' Shares, irrespective of 29Metals' underlying operational performance.

Sudden and dramatic movements in stock markets can occur due to changes in or occurrences of:

- global macroeconomic conditions;
- industry cycles and trends;
- interest and exchange rate levels;
- geopolitical events;
- force majeure events, including an outbreak of war, disease or act of terrorism;
- law and policy;
- commodity prices; and
- natural disasters or pandemics.

B. Future dividends

There can be no assurance regarding the payment of future dividends by 29Metals. 29Metals is a holding company without any direct operations, meaning its ability to pay dividends depends on the ability of its subsidiaries to make cash available to it, and its ability to satisfy the requirements of the Corporations Act with respect to dividends. If 29Metals lacks sufficient cash and does not receive payments from its subsidiaries sufficient to pay dividends, 29Metals will need to obtain additional funds from other sources.

C. Economic conditions and other global issues

General economic conditions, laws relating to taxation, royalty regimes, new legislation, trade barriers, movements in interest and inflation rates, currency exchange rates, national and international political circumstances (including wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemic and pandemics, may have an adverse effect on 29Metals' operations.

Appendix B: Key Risks

D. Market liquidity

While 29Metals' Shares are listed on ASX, there can be no assurance of an active market for 29Metals Shares or that price of 29Metals' Shares will increase. There may be relatively few potential buyers or sellers of the 29Metals' shares at any time, particularly given the relatively high proportion of 29Metals' Shares held by a small number of major shareholders, which may be exacerbated if a shortfall shares in relation to the Offer are allocated to an existing shareholder under the sub-underwriting arrangements described at slide 29. This may increase the volatility of the market price of 29Metals' Shares and may also affect the prevailing market price at which shareholders are able to sell their Shares. In recent years, capital markets have experienced a high level of price and volume volatility, and the market price of securities of many companies have experienced wide fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in price will not occur.

Additionally, given the relatively high proportion of shares held by a small number of shareholders, there is a risk that the prevailing market price may be adversely affected should one of those shareholders seek to dispose of some or all of its holding, particularly in circumstances where there are limited active buyers.

E. Litigation and dispute risks

29Metals is exposed to possible litigation risks including civil liability claims, criminal claims, environmental and native title matters, health and safety matters, workers' compensation claims, regulatory and administrative proceedings, government investigations, tort claims, contract claims, tax investigations and labour disputes.

29Metals is also exposed to the risk of disputes with contract counterparties and other persons. Any disruption to the ordinary course of business as a consequence of dispute may materially and adversely affect 29Metals' business, financial condition and reputation.

Although 29Metals' may defend any such matters and make insurance claims when possible, the outcome of any such claim or dispute is difficult to predict and could materially or adversely affect 29Metals' business, financial condition and reputation.

The Company's wholly owned subsidiary, Capricorn Copper Pty Ltd has received a writ and summons from the Queensland DETSI for enforcement proceedings. The writ and summons follows the investigation conducted by the DETSI and relates to alleged failure to meet the regulated water level in the EPit, and other matters which relate to non-compliances during and following the Extreme Weather Event at the Capricorn Copper mine in March 2023. The enforcement proceedings are ongoing. It is too early to determine the prospects and potential outcomes of the enforcement proceedings.

F. Insurance risks

29Metals insures its operations in accordance with industry practice. However, in certain circumstances, 29Metals' insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance may have a material adverse effect on the business, financial condition and results of 29Metals. Insurance against all risks associated with mining exploration and production is not always available and when available the costs can be prohibitive. In addition, following the submission of claims under a relevant policy of insurance, the process for the assessment and resolution of those claims may be complex and may continue for an extended period before final resolution is achieved.

G. Changes in taxation and accounting standards

Changes to tax legislation, the interpretation of tax legislation by the courts, the administration of tax legislation by the relevant tax authorities and the applicability of such legislation may affect 29Metals' financial performance or the tax treatment of an investment in 29Metals Shares, including any returns on 29Metals Shares (for example, any franked dividends).

Additionally, accounting standards may change which may affect the reported earnings of 29Metals and its financial position.

Appendix C: International Offer Restrictions

This document does not constitute an offer of new ordinary shares (“New Shares”) of the Company in any jurisdiction in which it would be unlawful. In particular, this document may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

In accordance with Article 1(4)(a) of the Prospectus Regulation, an offer of New Shares in the European Union is limited to persons who are “qualified investors” (as defined in Article 2(e) of the Prospectus Regulation).

Hong Kong

WARNING: This document has not been, and will not be, registered as a prospectus under the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong, nor has it been authorised by the Securities and Futures Commission in Hong Kong pursuant to the Securities and Futures Ordinance (Cap. 571) of the Laws of Hong Kong (the “SFO”). This document is issued on a confidential basis in the United Kingdom to "qualified investors" within the meaning of Article 2(e) of the UK Prospectus Regulation. This document may not be distributed or reproduced, in whole or in part, nor may its contents be disclosed by recipients, to any other person in the United Kingdom.

United States

Accordingly, neither the New Shares nor the entitlements may be offered or sold, directly or indirectly, in the United States unless they have been registered under the US Securities Act (which the Company has no obligation to do or procure) or are offered or sold pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and applicable securities laws of any state or other jurisdiction of the United States. This document may not be distributed or released in the United States. There will be no public offering of securities referred to in this Presentation in the United States. Appendix C: International Offer Restrictions

Canada (British Columbia, Ontario and Quebec)

This document constitutes an offering of New Shares only in the Provinces of British Columbia, Ontario and Quebec (the “Provinces”), only to persons to whom New Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to investors that are both (i) “accredited investors” (as defined in National Instrument 45-106 – Prospectus Exemptions) and (ii) “permitted clients” (as defined in National Instrument 31-103 – Registration Requirements, Exemptions and Ongoing Registrant Obligations).

No securities commission or authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of New Shares and any representation to the contrary is an offence. No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Statutory rights of action for damages and rescission

Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser’s Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations

Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as there are Canadian tax implications for investors in the Provinces.

Language of documents in Canada

Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu’il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d’achat ou tout avis) soient rédigés en anglais seulement.

ASX ANNOUNCEMENT

Wednesday, 21 January 2026

SUCCESSFUL COMPLETION OF INSTITUTIONAL ENTITLEMENT OFFER

29Metals Limited (ASX:29M) (**'29Metals'** or the **'Company'**) is pleased to announce that it has successfully completed the institutional component (**'Institutional Entitlement Offer'**) of its underwritten 1 for 3.66 accelerated non-renounceable entitlement offer (**'Entitlement Offer'**) of new 29Metals fully paid ordinary shares (**'New Shares'**), as announced on Tuesday, 20 January 2026.

The Institutional Entitlement Offer will raise approximately \$119m (subject to reconciliations) at an offer price of \$0.40 per share (**'Offer Price'**), representing a:

- 30.2% discount to TERP¹ of \$0.57 based on the last closing price on 19 January 2026;
- 35.5% discount to the last closing price of \$0.62 on 19 January 2026; and
- 26.6% discount to the 30-day VWAP of \$0.55 on 19 January 2026.

The Institutional Entitlement Offer received strong support from eligible existing institutional shareholders, with existing shareholders (excluding EMR Capital) subscribing for approximately 92% of their entitlements in the Institutional Entitlement Offer. New Shares not taken up by both eligible and ineligible institutional shareholders have been fully allocated to eligible institutional investors.

Chief Executive Officer, James Palmer, commented:

"The level of support shown by our existing shareholders, as well as new investors, has been very encouraging. This equity raising is expected to allow us to maintain our commitments to our strategic growth objectives to accelerate value realisation across the portfolio. Specifically, the ongoing investment in Gossan Valley, progression of a Restart Definitive Feasibility Study at Capricorn Copper and drilling to test priority exploration targets across the portfolio."

I encourage eligible retail shareholders in Australia and New Zealand to consider the terms of the retail entitlement offer when it opens on 28 January 2026."

The New Shares to be issued under the Institutional Entitlement Offer will rank equally with existing 29Metals shares in all respects from the date of their issue. Settlement of the approximately 298 million New Shares to be issued under the Institutional Entitlement Offer is expected to occur on Wednesday, 28 January 2026, with the New Shares to be allotted and expected to commence trading on Thursday, 29 January 2026.

Trading in 29Metals shares is expected to resume on ASX from market open today (Wednesday, 21 January 2026).

¹ The Theoretical Ex-Rights Price (**'TERP'**) is the theoretical price at which 29Metals shares should trade immediately after the ex-date for the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equate to TERP. TERP is calculated by reference to 29Metals' closing price of \$0.62 on 19 January 2026.

Retail Entitlement Offer

The Retail Entitlement Offer is expected to raise approximately A\$31 million. The Retail Entitlement Offer is expected to open on 28 January 2026 and close at 5.00pm (Sydney time) on 11 February 2026. Eligible retail shareholders with a registered address in Australia or New Zealand as at 7.00pm (Sydney time) on 22 January 2026 will be entitled to participate in the Retail Entitlement Offer on the terms and subject to conditions set out in the retail offer booklet ('Retail Offer Booklet'). The Retail Offer Booklet and accompanying personalised entitlement and acceptance form are expected to be made available on Wednesday, 28 January 2026.

The Equity Raising is non-renounceable, and entitlements will not be tradeable on the ASX or be otherwise transferable. Shareholders who do not take up their full entitlement will not receive any payment or value in respect to entitlements they do not take up and their percentage equity interest in 29Metals' will be diluted.

5 Additional information

5.1 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to Eligible Retail Shareholders only.

Eligible Retail Shareholders are Shareholders on the Record Date who:

- (a) have an address on the 29Metals share register in Australia or New Zealand;
- (b) are not in the United States and are not acting for the account or benefit of a person in the United States;
- (c) are not Eligible Institutional Shareholders and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- (d) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer,

provided that, if a Shareholder (including a nominee or custodian) is acting for the account or benefit of a person in the United States, it may not participate in the Retail Entitlement Offer on behalf of such a person.

Retail Shareholders who are not Eligible Retail Shareholders are Ineligible Retail Shareholders.

29Metals has determined that it is unreasonable to extend the Retail Entitlement Offer to Ineligible Retail Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside Australia and New Zealand. 29Metals may (in its absolute discretion) extend the Retail Entitlement Offer to Shareholders who have registered addresses outside such jurisdictions (except the United States) in accordance with applicable law.

5.2 Ranking of New Shares

The New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares.

5.3 Allotment

29Metals will apply for quotation of the New Shares on the ASX in accordance with Listing Rule requirements. If the ASX does not grant quotation of the New Shares, 29Metals will repay all Application Monies (without interest).

Subject to approval being granted, it is expected that trading of New Shares to be issued under the Retail Entitlement Offer will commence on a normal basis on Thursday, 19 February 2026.

It is the responsibility of Applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The sale by an Applicant of New Shares prior to receiving their holding statement is at the Applicant's own risk.

5.4 Reconciliation

In any entitlement offer, investors may believe that they own more Existing Shares on the Record Date than they ultimately do. This may result in a need for reconciliation to ensure all eligible Shareholders have the opportunity to receive their full Entitlement.

29Metals may need to issue a small quantity of additional New Shares to ensure all eligible Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

29Metals also reserves the right to reduce the number of Retail Entitlements or New Shares allocated to Eligible Retail Shareholders or persons claiming to be Eligible Retail Shareholders, if their Retail Entitlement claims prove to be overstated, if they or their nominees fail to provide information requested to substantiate their Retail Entitlement claims, or if they are not eligible Shareholders.

5.5 Rounding of Retail Entitlements

Where fractions arise in the calculation of Retail Entitlements, they will be rounded up to the nearest whole number of New Shares.

5.6 Underwriting arrangements

The Entitlement Offer is fully underwritten by Macquarie.

29Metals has entered into an Underwriting Agreement with Macquarie in respect of the Entitlement Offer. Please see Appendix D of the Investor Presentation set out in Section 4 of this Retail Offer Booklet for a summary of the key terms of the Underwriting Agreement.

5.7 Joint Lead Managers

Neither the Joint Lead Managers nor any of the other Joint Lead Manager Parties have authorised or caused the issue of this Retail Offer Booklet and they do not take responsibility for any statements made in this Retail Offer Booklet or any action taken by you on the basis of such information. To the maximum extent permitted by law, each Joint Lead Manager Party disclaims all liability for any expenses, losses, damages or costs incurred by you as a result of your participation in the Entitlement Offer and this information being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise. None of the Joint Lead Manager Parties make any recommendations as to whether you or your related parties should participate in the Entitlement Offer, nor do they make any representations or warranties to you concerning this Entitlement Offer or any such information and you represent, warrant and agree that you have not relied on any statements made by the Joint Lead Manager Parties in relation to the New Shares or the Entitlement Offer generally.

The engagement of the Joint Lead Managers by 29Metals is not intended to create any agency, fiduciary or other relationship between the Joint Lead Managers and the shareholders or any other investor.

5.8 Potential effect of the Entitlement Offer on control of 29Metals

The potential effect that the Entitlement Offer will have on the control of 29Metals, and the consequences of that effect, will depend on a number of factors, including investor demand and existing shareholdings.

29Metals notes the following:

- (a) the funds managed by private equity group EMR Capital⁴ (**EMR**) are not in a position to participate in the Entitlement Offer. EMR will continue to be a substantial shareholder in 29Metals following completion of the Offer, holding approximately 18%; and
- (b) BUMA⁵ intends to take up its pro-rata entitlements under the Entitlement Offer. If any shortfall remains under the Entitlement Offer, BUMA has agreed to acquire any excess entitlements directly from Macquarie. If no shortfall remains, BUMA will not acquire any shares. However, as a result of this, the maximum interest that BUMA may have in 29Metals following completion of the Entitlement Offer is expected to be approximately 25.8%.

5.9 Continuous disclosure

29Metals is a “disclosing entity” under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules, including the preparation of annual reports and half yearly reports.

29Metals is required to notify the ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the stock markets conducted by the ASX. In particular, 29Metals has an obligation under the Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of 29Metals shares. That information is available to the public from the ASX.

6 Australian taxation consequences

6.1 General

This section does not constitute financial product advice as defined in the Corporations Act and is confined to taxation issues. Tax is only one of the matters you need to consider when making a decision about your investments.

Below is a general summary of the Australian income tax (including capital gains tax (**CGT**)), goods and services tax (**GST**) and stamp duty implications of the Retail Entitlement Offer for Eligible Retail Shareholders.

The comments in this section deal only with the Australian taxation implications for Eligible Retail Shareholders:

- who are Australian resident individuals, complying superannuation entities, trusts, partnerships and corporate investors; and
- hold their Shares and New Shares on capital account.

The comments do not apply to Eligible Retail Shareholders who:

- are not a resident for Australian income tax purposes;
- are exempt from Australian income tax;
- hold their Shares and New Shares as revenue assets or trading stock (which will generally be the case if you are a bank, insurance company or carry on a business of share trading or acquired their Shares or New Shares for the purpose of resale at a profit);
- are subject to the 'TOFA provisions' in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in relation to the Shares or New Shares;
- acquired the Shares in respect of which the Retail Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme; or
- may be subject to special tax rules, such as insurance companies, partnerships, tax exempt organisations, trusts (except where expressly stated), non-complying superannuation funds (except where expressly stated) or temporary residents.

This summary is general in nature, does not take into account individual circumstances of particular Eligible Retail Shareholders and is not intended to be an authoritative or complete statement of all potential tax implications for each investor or relied upon as tax advice. The precise implications of ownership or disposal will depend upon each investor's specific circumstances. Australian tax laws are complex. Eligible Retail Shareholders should seek advice from an appropriate professional adviser in relation to the tax implications of the Retail Entitlement Offer based on their own individual circumstances.

The comments below are based on the Australian tax legislation and administrative practice in force as at 9.00am (Sydney, Australia time) on the date of this Retail Offer Booklet and do not take into account tax legislation of any country other than Australia.

Other than as expressly discussed, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time.

29Metals and its officers, employees, taxation advisers or other advisers do not accept any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

6.2 Issue of Retail Entitlements

The issue of the Retail Entitlements should not in itself result in any amount being included in the assessable income of an Eligible Retail Shareholder.

6.3 Exercise of Retail Entitlements

New Shares will be acquired where an Eligible Retail Shareholder exercises all or part of its Retail Entitlement under the Retail Entitlement Offer.

An Eligible Retail Shareholder should not derive any assessable income, or make any capital gain or capital loss, at the time of exercising its Retail Entitlement under the Retail Entitlement Offer.

For Australian CGT purposes, New Shares should be taken to have been acquired on the day that an Eligible Retail Shareholder exercises its Retail Entitlements. The cost base of each New Share should be equal to the Offer Price (plus certain non-deductible incidental costs the Eligible Retail Shareholder incurs in acquiring the New Shares). The reduced cost base of each New Share is determined in a similar, but not identical, manner.

6.4 Lapse of Retail Entitlements

If an Eligible Retail Shareholder does not accept all or part of its Retail Entitlements in accordance with the instructions set out above in Section 2, then that Retail Entitlement will lapse. The Eligible Retail Shareholder will not receive any consideration for a Retail Entitlement that is not taken up. There should be no Australian tax implications for an Eligible Retail Shareholder from the lapse of the Retail Entitlements.

6.5 Taxation in respect of dividends on New Shares

Any future dividends or other distributions made in respect of New Shares should be subject to the same income taxation issues as dividends or other distributions made on Shares held in the same circumstances.

By way of example, if 29Metals pays a franked dividend on the New Shares, certain shareholders may be entitled to a tax offset equal to the franking credits attached to the dividend, provided that the shareholder is a 'qualified person' and subject the application of certain dividend franking integrity measures. Broadly, subject to certain exceptions (including for an individual who obtains franking tax offsets of no more than A\$5,000 in the income year in which the dividend was paid), to be a 'qualified person', the shareholder must satisfy the 'holding period rules'. Under these rules, the shareholder may be required to have held their New Shares 'at risk' for a continuous period of at least 45 days (not including the date of acquisition and the date of disposal of the shares) within the relevant 'qualification period'. Eligible Retail Shareholders should obtain independent professional advice on the application of these rules to their particular circumstances.

6.6 Disposal of New Shares

The disposal of New Shares should constitute a disposal for CGT purposes.

On disposal of a New Share, an Eligible Retail Shareholder should make a capital gain if the capital proceeds received on disposal exceed the total cost base of the New Share. An Eligible Retail Shareholder should make a capital loss if the capital proceeds are less than the total reduced cost base of the New Share. In the case of an arm's length on-market sale, the capital proceeds should generally equal the cash proceeds from the sale. The CGT cost base of the New Shares is discussed in Section 6.3.

A CGT discount may be applied against any capital gain (after reduction of the capital gain by applicable capital losses) where:

- the Eligible Retail Shareholder which realises the capital gain is an individual, complying superannuation entity or trustee (conditions apply);
- the New Shares have been held for at least 12 months (not including the date of acquisition or disposal for CGT purposes); and
- certain other requirements have been satisfied.

Where the CGT discount applies, any capital gain arising to individuals and entities acting as trustees (conditions apply) may be reduced by 50%, after offsetting current year or prior year capital losses. For a complying superannuation entity, any capital gain may be reduced by one third, after offsetting current year or prior year capital losses. The CGT discount is not available for companies (other than companies acting as trustees).

If the Eligible Retail Shareholder who realises the capital gain and is entitled to the CGT discount is the trustee of a trust (other than the trustee of a complying superannuation entity), the CGT discount may flow through to the beneficiaries of the trust, provided those beneficiaries are not companies. As the rules relating to discount capital gains for trusts are complex, 29Metals recommends that Eligible Retail Shareholders that are trustees should seek specific advice regarding the tax consequences of distributions to beneficiaries who may qualify for discounted capital gains.

Capital losses may only be offset against capital gains realised in the same income year or future income years, subject to certain loss recoupment tests being satisfied. Capital losses cannot be offset against other assessable income.

6.7 GST

The rights received under the Retail Entitlement as well as the taking up of the New Shares should not be subject to GST for the Eligible Retail Shareholders. Accordingly, Australian GST should not be payable in respect of amounts paid for the acquisition of the New Shares by the Eligible Retail Shareholders.

No GST should be payable in respect of dividends paid to Eligible Retail Shareholders.

Eligible Retail Shareholder registered for GST may not be entitled to claim full input tax credits in respect of GST on expenses incurred relating to the acquisition, redemption or disposal of the Shares or New Shares (e.g. lawyers' and accountants' fees). Eligible Retail Shareholders not registered for GST should not be entitled to claim input tax credits for GST incurred on any such expenses.

Eligible Retail Shareholders should seek their own tax advice on the impact of GST in their own particular circumstances.

6.8 Stamp duty

Stamp duty should not be payable by Eligible Retail Shareholders in respect of receiving rights under the Entitlement or the taking up of New Shares under the Retail Entitlement Offer provided that all acquisitions occur when 29Metals is listed on the ASX, all of the securities in 29Metals are quoted (i.e. no classes of unquoted securities on issue) on the market operated by ASX and no Shareholder (together with interests of associated persons and interests acquired under one arrangement or by acting in concert) acquires or holds an interest of 90% or more in 29Metals.

6.9 Tax file numbers

An Eligible Retail Shareholder is not required to quote their tax file number (**TFN**) to 29Metals. However, if a TFN (or certain exemption details) is not provided to 29Metals, Australian withholding tax may be required to be deducted by 29Metals from dividends at the specified rate and remitted to the ATO. An Eligible Retail Shareholder who holds Shares or New Shares as part of an enterprise may quote its ABN instead of its TFN.

Eligible Retail Shareholders may be able to claim an income tax credit in their income tax returns in respect of any tax withheld.

29METALS LIMITED

Dear Shareholder,

29Metals Limited (ASX: 29M)

\$150 MILLION ACCELERATED NON-RENOUNCEABLE ENTITLEMENT OFFER

On 20 January 2026, 29Metals Limited (**29Metals**), announced accelerated non-renounceable entitlement offer (**Entitlement Offer**) of new 29Metals shares (**New Shares**) to raise approximately \$150 million (before transaction costs).

The proposed Entitlement Offer is underwritten by Macquarie Capital (Australia) Limited (**Underwriter**).

The Entitlement Offer comprises an offer to eligible institutional shareholders (**Institutional Entitlement Offer**) and an offer to eligible retail shareholders (**Retail Entitlement Offer**). The Institutional Entitlement Offer closed on Tuesday, 20 January 2026, and raised approximately \$119 million. The Retail Entitlement Offer is expected to raise \$31 million.

This letter is to inform you of the Entitlement Offer, and to explain that if you are an eligible shareholder, you will be able to subscribe for 1 New Share for every 3.66 existing 29M ordinary shares (**Entitlement**) held by you on 7.00pm (Sydney time) on **Thursday, 22 January 2026 (Record Date)**. The offer price is \$0.40 per New Share (**Offer Price**). Terms used but not defined in this letter have the same meaning given to them in the retail offer booklet dated 28 January 2026 and lodged with ASX on that date, including any supplementary or replacement retail offer booklet that may be subsequently lodged in connection with the Entitlement Offer (**Retail Entitlement Offer Booklet**).

New Shares issued under the Entitlement Offer rank equally with existing ordinary 29M shares from their time of issue.

The Entitlement Offer and use of proceeds

The proceeds from the Entitlement Offer will be used to allow ongoing investment in Gossan Valley, progression of a Restart Definitive Feasibility Study at Capricorn Copper and drilling of exploration targets across the portfolio.

Eligibility criteria

Eligible Retail Shareholders are those persons who are a holder of existing 29Metals shares as at 7.00pm (Sydney time) on the Record Date and who:

- have a registered address in Australia or New Zealand;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such a person holds securities in 29M for the account or benefit of such persons in the United States);
- are not Eligible Institutional Shareholders and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

Retail Entitlement Offer Booklet

This letter is not an offer document but rather a notice of some key terms and conditions of the Retail Entitlement Offer. Full details of the Retail Entitlement Offer are set out in the Retail Entitlement Offer Booklet, copies of which are available on 29M's Entitlement Offer website at: <https://events.miraqle.com/29m-offer>.

Eligible Retail Shareholders will be provided with a copy of the Retail Entitlement Offer Booklet via the Entitlement Offer website: <https://events.miraqle.com/29m-offer>, together with a personalised Entitlement and Acceptance Form which contains details of your Entitlement, on or around Wednesday 28 January 2026. Paper copies of these documents will also be available on request by contacting the Offer Information Line on **1300 420 709 (within and outside Australia)** at any time between 8.30am and 5.30pm (Sydney time) Monday to Friday, during the Retail Entitlement Offer period. You should read the Retail Entitlement Offer Booklet carefully and in its entirety before deciding whether to participate in the Retail Entitlement Offer.

Options available to you

If you are an Eligible Retail Shareholder, you may take any of the following actions. Each of these options may have a materially different outcome on any value you receive in respect of your Retail Entitlements:

1. Take up all or part of your Retail Entitlements; or
2. Do nothing and let your Retail Entitlements lapse.

The Closing Date for acceptance of the Retail Entitlement Offer is **5.00pm (Sydney time) on Wednesday, 11 February 2026** (however, that date may be varied by 29Metals, in accordance with the Listing Rules and the Underwriting Agreement).

29Metals reserves the right to reject any application that is received after the Closing Date.

Option 1: If you wish to take up all or part of your Retail Entitlements

If you wish to take up all or part of your Retail Entitlements, please pay your Application Monies via BPAY by following the instructions set out on your personalised Entitlement and Acceptance Form. Payment is due by no later than 5.00pm (Sydney time) on Wednesday, 11 February 2026. If you are unable to pay by BPAY, please refer to the Retail Entitlement Offer Booklet for further information.

If you take up and pay for all or part of your Retail Entitlements before the close of the Retail Entitlement Offer, it is expected that you will be issued New Shares on Wednesday, 18 February 2026. 29Metals' decision on the number of New Shares to be issued to you will be final.

If you only take up part of your Retail Entitlements, those Retail Entitlements not taken up will lapse and you will not receive any payment or value for them. If you do not take up your Retail Entitlements in full, your shareholding in 29Metals will be diluted as a result of the Entitlement Offer.

29Metals also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if 29Metals believes

their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to 29Metals' satisfaction (see Retail Entitlement Offer Booklet for further information).

Option 2: Do nothing and let your Retail Entitlements lapse

If you do nothing, you will not be allocated New Shares and your Retail Entitlements will lapse. Your entitlement to participate in the Retail Entitlement Offer is non-renounceable, which means your Retail Entitlements are non-transferable and cannot be sold or traded on ASX or any other exchange, nor can they be privately transferred.

By allowing your Retail Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Retail Entitlement and you will not receive any value for your Retail Entitlement. Your interest in 29Metals will also be diluted to the extent that New Shares are issued under the Entitlement Offer.

Determination of eligibility of investors for the purposes of the institutional or retail components of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of 29Metals and the Underwriters. Each of 29Metals and the Underwriter and each of their respective related bodies corporate (as defined in the Corporations Act) and affiliates, and each of their respective directors, officers, employees, partners, consultants, contractors, agents and advisers disclaim any duty or liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law.

This letter is not an offer or an invitation to acquire 29Metals shares or any other financial products and is not a prospectus, product disclosure statement or other offering document under Australian law or any other law. It is for information purposes only. No action has been or will be taken to register, qualify or otherwise permit a public offering of the New Shares in any jurisdiction outside Australia and New Zealand. This letter is for information purposes only and does not constitute or form part of an offer, invitation, solicitation, advice or recommendation with respect to the issue, purchase or sale of any New Shares in 29Metals.

This letter is not financial advice or a recommendation to acquire 29Metals shares and has been prepared without taking into account the objectives, financial situation or needs of individuals. Before making an investment decision prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs and seek such legal, financial and taxation advice as they deem necessary or appropriate to their jurisdiction.

This letter may not be released or distributed in the United States. This letter does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or in any other jurisdiction in which such an offer would be illegal. The offer and sale of the New Shares have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”), or under the securities laws of any state or other jurisdiction of the United States. Accordingly, the New Shares may not be offered or sold, directly or indirectly, to any person in the United States, unless they are registered under the U.S. Securities Act and any applicable United States state securities laws (which 29Metals is not obligated to do, and has no intention to do), or unless they are offered and sold pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable securities laws of any state or other jurisdiction of the United States. The New Shares to be offered and sold in the Retail Entitlement Offer may only be offered and sold outside the United States to persons that are not acting for the account or benefit of persons in the United States in “offshore transactions” (as defined in Rule 902(h) under the Securities Act) in reliance on Regulation S under the Securities Act. There will be no public offering of the New Shares in the United States.

29METALS LIMITED

Dear Shareholder,

29Metals Limited (ASX: 29M)

\$150 MILLION ACCELERATED NON-RENOUNCEABLE ENTITLEMENT OFFER

On 20 January 2026, 29Metals Limited (**29Metals**), announced an accelerated non-renounceable entitlement offer (**Entitlement Offer**) of new 29Metals shares (**New Shares**) to raise approximately \$150 million (before transaction costs).

The proposed Entitlement Offer is fully underwritten by Macquarie Capital (Australia) Limited (**Underwriter**).

This letter is to inform you of the Entitlement Offer, and to explain why you will not be able to subscribe for New Shares under it. This letter is not an offer to issue New Shares to you, nor an invitation for you to apply for New Shares. You are not required to do anything in response to this letter but there may be financial implications for you as a result of the Entitlement Offer that you should be aware of.

The Entitlement Offer and use of proceeds

The Entitlement Offer comprises an offer to eligible institutional shareholders (**Institutional Offer**) and an offer to eligible retail shareholders (**Eligible Retail Shareholders**) (**Retail Offer**) to participate at the same offer price of \$0.40 per New Share and offer ratio of 1 New Share for every 3.66 existing 29Metals shares held at 7.00pm (Sydney time) on **Thursday, 22 January 2026 (Record Date)**.

The proceeds from the Entitlement Offer will be used to allow ongoing investment in Gossan Valley, progression of a Restart Definitive Feasibility Study at Capricorn Copper and drilling of exploration targets across the portfolio.

Eligibility criteria

Eligible Retail Shareholders are those persons who are a holder of existing 29Metals shares as at 7.00pm (Sydney time) on the Record Date and who:

- have a registered address in Australia or New Zealand;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such a person holds securities in 29Metals for the account or benefit of such persons in the United States);
- are not Eligible Institutional Shareholders and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

Shareholders who are not Eligible Retail Shareholders and who did not participate in the Institutional Offer are Ineligible Shareholders.

Notwithstanding the above, 29Metals and the Underwriter may agree to extend the Retail Offer to certain institutional shareholders in foreign jurisdictions who did not participate in the Institutional Offer, subject to compliance with applicable laws.

The restrictions upon eligibility to participate in the Entitlement Offer arise because of the legal and regulatory requirements in countries other than Australia and New Zealand and the potential costs of complying with these legal and regulatory requirements compared with the relatively small number of shareholders in those countries and the relatively low number and value of New Shares to which they would otherwise be entitled. Accordingly, 29Metals has determined, pursuant to ASX Listing Rule 7.7.1(a), that it would be unreasonable to make offers to shareholders outside of Australia and New Zealand.

Unfortunately, according to our records, you do not satisfy the eligibility criteria for an Eligible Retail Shareholder stated above. Accordingly, in compliance with section 9A(3) of the Corporations Act and ASX Listing Rule 7.7.1(b), 29Metals wishes to advise you that it will not offer New Shares under the Retail Entitlement Offer to you and you will not be able to subscribe for New Shares under the Retail Entitlement Offer. You will also not be sent the documents relating to the Entitlement Offer.

Entitlements which would otherwise have been offered to those 29Metals shareholders who, as at the Record Date, are Ineligible Shareholders will be offered by Macquarie Securities (Australia) Limited if there is a viable market for them and the net proceeds, if any, distributed to Ineligible Shareholders proportionately.

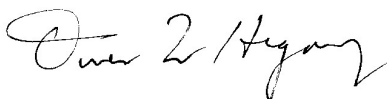

You are not required to do anything in response to this letter.

Further information

For further information on the Entitlement Offer or if you believe that you are an Eligible Retail Shareholder, please call the 29Metals Shareholder Information Line on **1300 420 709 (within and outside Australia)** at any time from 8.30am to 5.30pm (Sydney time) Monday to Friday. If you have further questions, you should contact your stockbroker, solicitor, accountant, financial adviser or other professional adviser.

On behalf of 29Metals' Board of Directors, I thank you for your ongoing support of 29Metals.
